PLAN OF ACTION

Gale Pond Alamo exceeds the cap by one student in second grade. The magnet configuration of the campus will allow the campus some control in the enrollment of students. Normal attrition should balance the class load by the end of the semester. Spring staffing for the 2009-2010 school year will address class size exceeding the cap.

Blanton exceeds the cap by five students in fourth grade. The campus is currently under construction and more space will be available for the 2009-2010 school year. The District is continuing to work with a demographer to study campus attendance boundaries and submit recommendations for boundary adjustments. Also, strict control of student transfers and affidavits will be implemented at this grade. Spring staffing for the 2009-2010 school year will address class size exceeding the cap.

Burleson exceeds the cap by two students in first grade. The addition of portable structures will be a consideration to address the need for classroom space for the 2009-2010 school year. The District is continuing to work with a demographer to study campus attendance boundaries and submit recommendations for boundary adjustments. Also, strict control of student transfers and affidavits will be implemented at this grade. Spring staffing for the 2009-2010 school year will address class size exceeding the cap.

Burnet exceeds the cap by seven students in kindergarten. The addition of portable structures will be a consideration to address the need for classroom space for the 2009-2010 school year. The District is continuing to work with a demographer to study campus attendance boundaries and submit recommendations for boundary adjustments. Also, strict control of student transfers and affidavits will be implemented at this grade. Spring staffing for the 2009-2010 school year will address class size exceeding the cap.

Cavazos exceeds the cap by two students in kindergarten. The addition of portable structures will be a consideration to address the need for classroom space for the 2009-2010 school year. The District is continuing to work with a demographer to study campus attendance boundaries and submit recommendations for boundary adjustments. Also, strict control of student transfers and affidavits will be implemented at this grade. Spring staffing for the 2009-2010 school year will address class size exceeding the cap.

Dowling exceeds the cap by six students in third grade. The addition of portable structures will be a consideration to address the need for classroom space for the 2009-2010 school year. The District is continuing to work with a demographer to study campus attendance boundaries and submit recommendations for boundary adjustments. Also, strict control of student transfers and affidavits will be implemented at this grade. Spring staffing for the 2009-2010 school year will address class size exceeding the cap.

Murry Fly exceeds the cap by one student in fourth grade. The campus is beginning a construction project this year that will make more space available for the 2009-2010 school year. The District is continuing to work with a demographer to study campus attendance boundaries and submit recommendations for boundary adjustments. Also, strict control of student transfers and affidavits will be implemented at this grade. Normal attrition should also balance the class load by the end of the semester. Spring staffing for the 2009-2010 school year will address class size exceeding the cap.

Goliad exceeds the cap by one student in kindergarten, one student in first grade, and two students in fourth grade. The addition of portable structures will be a consideration to address the need for classroom space for the 2009-2010 school year. The District is continuing to work with a demographer to study campus attendance boundaries and submit recommendations for boundary adjustments. Also, strict control of student transfers and affidavits will be implemented at these grades. Spring staffing for the 2009-2010 school year will address class size exceeding the cap.
