Note: The following optional policy may be revised or deleted as needed. -A.S. 14.20.020 requires multicultural training for issuance of teaching certificates. -A.S. 14.20.035 gives preference in hiring persons with training or experience in cultures represented in the student population.

The School Board recognizes that America has always been a multicultural society composed of diverse peoples who came here from all parts of the globe and are indigenous to these lands. Many regions of Alaska are still predominately composed of Alaska's indigenous peoples. Public schools are the most common shared experience for most Americans, and ~~it is the job of the~~ schools ~~shall~~to accurately reflect and respond to the needs and the contributions of all ethnic groups, which comprise the student body and staff~~to the common culture~~.

The School Board recognizes that a culturally responsive education that is effectively implemented through culturally proficient instruction can provide the maximum opportunity for students to attain academic and social success. Culturally responsive teaching practices can assist educators in bridging differences in language, heritage, ethnicity, socio-economic status, historical trauma and ability.

School staff and students~~Students~~ must learn to respect and work cooperatively with persons of all backgrounds. Culturally proficient and responsive instruction will promote student recognition of~~Instruction should help students realize~~ the value of individual differences as well as the human dignity and worth common to all people.

The Superintendent or designee shall develop guidance on how to best serve the needs of the student population. The cultural needs of students are an important consideration in policies on curriculum and materials, onboarding and orientation, school climate, language instruction, and access to cultural content.
