Project Type:	Clean Diesel Grant Program

Project Short Description:

Scrap and replace diesel school buses with zero emission school buses.

Project Long Description:

This project will scrap and replace diesel powered school buses with new zero emission school buses, reducing air toxics and greenhouse gas emissions statewide.

Overall Goal:

Emission Reduction: The primary goal of the Electric School Bus Grant Project is to significantly reduce the carbon footprint associated with school transportation. By transitioning from fossil fuel-powered buses to electric buses, the project aims to contribute to local and global efforts to combat climate change.

Agreement No: AQCDESB-2325-MaMKSD-00002

Project Title: Ecology's Electric School Bus Grant Program 2023-2025

Recipient Name: Mary M Knight School District

Air Quality Improvement: Electric buses produce zero tailpipe emissions, resulting in improved air quality around schools and communities. This not only benefits the health and well-being of students but also positively impacts the broader population in the vicinity of school routes and bus stops. **Cost Savings:** Although the initial investment in electric buses may be higher, the long-term cost savings from reduced fuel and maintenance expenses are significant. The project aims to demonstrate that the financial benefits of electric buses outweigh the initial capital outlay, making them a cost-effective and sustainable choice for school districts.

In the event the RECIPIENT unjustifiably fails, in the opinion of ECOLOGY, to perform any obligation required of it by this Agreement, ECOLOGY may refuse to pay any further funds, terminate in whole or in part this Agreement, and exercise any other rights under this Agreement.

Despite the above, the RECIPIENT shall not be relieved of any liability to ECOLOGY for damages sustained by ECOLOGY and the State of Washington because of any breach of this Agreement by the RECIPIENT. In the event funding from state, federal or other sources is withdrawn, reduced, or limited in any way after the effective date and prior to the completion or expiration date of this Agreement, ECOLOGY, at its sole discretion, may elect to terminate the Agreement, in whole or part, or renegotiate the Agreement, subject to new funding limitations or conditions. ECOLOGY may also elect to suspend performance of the Agreement until ECOLOGY determines the funding insufficiency is resolved. ECOLOGY may exercise any of these options with no notification or restrictions, although ECOLOGY will make a reasonable attempt to provide notice.

In the event of termination or suspension, ECOLOGY will reimburse eligible costs incurred by the RECIPIENT through the effective date of termination or suspension. Reimbursed costs must be agreed to by ECOLOGY and the RECIPIENT. In no
