Joint Migrant Summer School

We are once again running a Migrant Summer School program in coordination with Marsing School District. We currently have 74 student enrolled ages Pre-K (3 years old) - 6th grade and 21 high school and middle school volunteers. This year's theme is STEAM (Science, Technology, Engineering, Art, and Math). The students have various electives including; robotics, computer science and coding, brick lab, health, art, University of Idaho's Eat Smart, and presentations from Idaho Power's Wings program and The World Center Birds of Prey. Summer School began June 5 and will continue through the 29th.
