RE: Tupelo High School Site Improvements  
Owner / Architect Agreement

---

For your review and consideration, I am submitting AIA G802 Amendment to the Professional Services Agreement between TPSD and JBHM Architects. This document would amend the contract previously used for their architectural services with our agreed upon terms. The scope of work for this contract amendment is to perform the design services and construction administration for the Tupelo High School Site Improvements (JBHM Project No. 10033). The fee associated with this project is 6% of the total construction cost.
