

Mr. Rose,

For various reasons, I have decided to retire as Golf Coach for LHS, effective May 31, 2020. I have enjoyed my 6 years and have been honored to coach the many boys and girls that played for LHS. I'll be 68 next season and while I feel somewhat healthy at this time, I realize that I can't take the hours and travel involved for tournaments.

I have been fortunate that most years, I had not only quality golfers but also quality young men and women. I will miss the interaction with them, their competitors and the other coaches in our league. When I took on coaching it was only supposed to be for 3 years, but you grow attached to those coming up and it was tough to quit. I'm sure some of those in the system will be sorry to see me go or maybe not. I haven't told Miller yet, I know he will be disappointed, We are planning to get together to play golf hopefully by the end of May.

I have a lot of golf team equipment, balls, mats, ect that I can store for the short term. I will also be available next January to help with scheduling if need be.

Finally, I want to personally thank you for all the help you have given me. Last year was the first that I didn't have to use my personal vehicle to get to tournaments. My first couple of years we had limited use of school vehicles, either used mine or didn't go. It's been fun and very gratifying to represent LHS.

I will be reaching out to some of the coaches in our league with this news. They have been great to work with. It seems like in golf they look out for everyone just not their own players, very different from most sports.

Sincerely,

Brian P Dunn
