Phone: (210) 977-7000

### Date of LEA Board of Trustees Approval

Date:

### Special Instructions

This waiver allows districts and charter schools to request a waiver to offer Pregnancy-Related Services Compensatory Education Home Instruction (CEHI) on a district's campus.

### General Questions

#### 1. Give a brief narrative description of the requested waiver.

The district is applying for a waiver that will allow the offering of Pregnancy-Related Services Compensatory Education Home Instruction on a designated campus. Transportation will be furnished if needed, and students will be served at home if medically necessary.

#### 2. Does the district or campus plan reflect the need for this waiver? If yes, what is the specific objective impacted by the waiver?

Goal 1: Academics-ensure the success of Ss through rigorous & aligned academic programs & services

#### 3. Cite the section(s) of the Texas Education Code or the Texas Administrative Code that the district or campus wishes to waive.

Section IX: PRS guidelines in the Student Attendance Accounting Handbook for 17-18

**4. Describe the plan to be implemented, if the waiver is granted.**

Pregnant students need to continue their education during and after pregnancy. Most students are supported by school staff and by the Health Services Department, they remain at the home campus until delivery or until the physician indicates otherwise. If medical complications arise and the physician indicates a necessity, they may be referred to homebound education. The program is conducted at a designated campus and is voluntary. Students may return to the home campus when cleared by the physician. The district ensures that the School Age Parent Program is comparable to that offered to non-pregnant students at the home campus. The School Age Parenting Program serves as a transition to keep students current in coursework so that a smooth transition to the home campus will be assured. Other services designed to assist the student parent are also provided. The aim of the program is to encourage student parents to remain in school until completion and not drop out.

**5. How will granting this waiver help achieve the district's or campus' objective?**

Parents will increase their ability to graduate via daycare at a facility close to campus; transportation for students and children; and instruction in child development and parenting

**6. Please explain how the school district or campus will evaluate the impact of the waiver towards meeting the district's or campus' goal.**

Data on CEHI student participants will be gathered to determine the number of students completing high school and those not completing high school.

**Requested Years**

2017-2018  
2018-2019  
2019-2020
