7.A.2. Governing Board Members

Andy Fraher noted, I'm still waiting to schedule with Adam to visit PHS. Usually, I go once a month catch up. I had my first meeting today with Maya Caldwell from ESS and they're extremely happy with their new location right across the way here, which is great for them. I think it gives them a really professional looking space. I think it is great for that program. They feel more integrated with the other departments, more involved with DAT. Walking in the office the number of new staff in there is quite a challenge. They have all brand new staff for the most part except for one person. For Maya the biggest challenge she says is just building trust with her people and so she's working on that and trying to develop that as we're going forward. It was a really good first meeting. We're going to do our monthly meetings together and I'm looking forward to that. I went to the one of the new teacher orientations and then convocation was so great. Thank you

Linda Conn noted, I attended every day of the new teacher Inservice which was well put together Kelsey. The convocation was a lot of fun and I'm looking forward to a new school year and some really great things being done.

Jane Robertson noted, I had the opportunity to go out to the Finley backpack extravaganza day put on by the Angel Firefighter Foundation. I was there for the whole afternoon and I found it so heartwarming to see; I think we gave about 1,700 backpacks away full of supplies for kids in the whole area, Chino, Humboldt and Prescott Districts. It reminds me of how generous our community can be and just to see the smiles on the faces of parents and kids getting a whole backpack full of supplies, ready to go the first day of school so they would feel welcome and at home and part of their little school community. It was pretty wonderful to say hello to everybody coming in. It didn't matter what district it was just welcome back!

Live Stream Link: <https://youtube.com/live/YU3u3fDb4Bs?feature=share>

Stan Goligoski noted, I did attend a number of First Day events to include the woohoo boohoo table at Lincoln. We have a kindergartener attending at Lincoln and it was a woohoo from him. There was no crying and it helps that his older brother is there too. If you don't know, Dancing for The Stars is going on and we have Rachel Sarti who works in our district and representing our schools. We actually utilized the high school a little while ago for a cameo, so thanks for opening that up for us. I did go down to the sports fields and saw all the different teams practicing and it was so powerful. Everybody's excited and it's a new year.

Mr. Tenney noted, I might mention as far as teams being there on the football field, we had at least two teams from valley high schools come up and rent our facilities.

Stan Goligoski noted, I attended a little bit of the meeting for the girls' flag football team. If you don't know we have a first year flag football team and it's an exciting sport. It started in the state of Arizona last year and I'll tell you, all of our track girls are coming out and we're a pretty powerful team.

We will be selecting the representatives for the school board here in the upcoming weeks so we should have the Student Representatives identified by next month's meeting.

Andy Fraher noted, may I add one more thing? I forgot to mention this. I just want to give a shout out to Dr. Audis at the high school for the band camp they did this year, bringing in local schools to participate. When my daughter was in the band, they had 130 kids in the band and I think last year we had maybe 40. He's really building something there and I think it's great.

Levels of Generative AI Use by Students

Student Use of Generative AI

Level	Description	Example Instruction
Restrictive No!	AI tools are prohibited for assignment, and all work must be the student's original creation. This is the default for all student work and assignments, unless specifically directed otherwise by a teacher.	"Do not use AI tools for this assignment. All content must be original, and any use of AI will be treated as plagiarism."
Moderate Whoa!	Students can use teacher-approved AI tools from the district list for specific parts of their assignments, such as brainstorming or initial research, but the core content and conclusions should be original. Proper citation is required for any AI-generated content.	"You can employ AI tools to assist brainstorming or initial research, however, the main content, arguments, and conclusions should be your own."
Permissive Go!	Students can utilize district-approved AI tools to assist in their assignments, such as generating ideas, proofreading, or organizing content.	"You may use AI tools as you see fit to enhance your assignment and demonstrate your understanding of the topic; however, proper citation is required for any AI-generated content."

Academic Integrity Statement

To be college-, career-, and community-ready, students in the Prescott Unified School District are expected to demonstrate academic integrity. Academic integrity is all about being honest and fair in your schoolwork. It means doing work that is entirely your own and giving credit to others (including generative Artificial Intelligence tools) through proper citation when you use their ideas or words. If you have questions about the guidelines for academic integrity, you should discuss them with your teacher.

Academic Dishonesty Statement

Academic dishonesty refers to any action that compromises the integrity of academic work or evaluation processes. This includes but is not limited to:

- Copying or stealing another person's work or data (plagiarism);
- Allowing another person to copy one's work;
- Doing another person's classwork;
- Creating more than one copy of one's work for distribution;
- Providing another person with the answers on tests or quizzes;
- Noncompliance with teachers' test-taking procedures;
- Unauthorized copying or development of software; and
- Unauthorized use of generative Artificial Intelligence.

Consequences for instances of academic dishonesty range from a conference and loss of credit (student will be given another opportunity to show mastery of learning) up to a 5-day suspension and loss of credit.
