Dr. Matt Dillon – Assistant Superintendent
Tupelo Public Schools
PO Box 557
Tupelo, MS 38802

Dear Dr. Dillon:

This letter is to confirm that infosnap, inc. is the sole source developer and provider of infosnap's custom online enrollment and registration solution that possesses the following unique attributes:

- 1) Bi-directional flow of data between the infosnap custom online enrollment and registration solution and Central Access' SAM7 student management system that was co-developed by infosnap and Central Access to include the attached set of database fields.
- 2) To process payments with customized CSV exports and reporting for financial software.
- 3) The ability to utilize this solution on both a PC and MAC platform.
- 4) To provide customization down to the school, student and family demographic levels.
- 5) The ability to work with forms, documents and payments not tied to the enrollment and registration process.
- 6) To provide unlimited email and telephone support to both district users and the families using the infosnap solution.

Please let me know whether we can provide any additional details about our solution and services. Until then, we consider your consideration and look forward to the prospect of creating a custom solution fitting to the unique and specific needs of Tupelo Public Schools.

Best regards,

Adam Frillman
Regional Director, Public Schools
infosnap, inc.
