Special Education Department Board Report June 20, 2022

Student Numbers

FY23 Budgets were built on an assumed special education student enrollment of 567. The Nov. 1, 2021 Child Count with SDE was reported at 548 students. IFRA expenditures will be covered through a separate MOA.

| Program | April | Мау | Anticipated Aug |

Special Transportation Reminder

Updated rosters have been sent to transportation supervisors and superintendents. This data is as accurate as possible from June 15th and may change as kids move. Reminder to the board and district representatives that while efforts were made to move toward ensuring special transportation schedules were not missing academic time by arriving late or leaving early from school, there is still significant work needing to be done by district transportation departments for the upcoming school year. Consideration should be given in planning of routes for next year to prioritize the importance of special education students receiving the same access to educational opportunities in accordance with providing free and appropriate education.
