RE: 2023 Playground Area Improvements at Sunset Hill Elementary School

Dear Mr. Peterson:

On April 25, 2023, competitive bids were received for the above-referenced project. The low responsive bid for the project was submitted by Vada Contracting in the amount of \$298,294.

Our personnel contacted Mr. Aaron Haho from Vada Contracting regarding the bid results and he indicated that they would be able to perform the work as specified for the submitted bid amount. We also reviewed references provided by Vada Contracting and conducted an in-person interview with Mr. Haho and Wayzata School District staff to discuss Vada's past projects and assess their qualifications.

Based on this review, we feel that Vada Contracting would be considered qualified for the 2023 Playground Area Improvements project at Sunset Hill Elementary School and recommend acceptance of their bid in the amount of \$298,294.

If you have any questions or comments regarding the above information, please feel free to contact our office.

Sincerely,

"Exceptional student councils are a hallmark of exceptional schools," said NASSP CEO Ronn Nozoe. "The WHS council has taken student leadership to the next level, creating a culture promoting scholarship and citizenship that resonates far beyond their team. I'm delighted to recognize their hard work with the National Gold Council of Excellence Award for their commitment to service, leadership and uplifting the voices of their peers."

The WHS student council works tirelessly to build community at the high school in a number of ways:

- Beginning the year with an exceptional homecoming week, the student council aimed to build school community and spirit and succeeded with impressive student engagement, hosting over 1,500 students at the Homecoming dance.
- The student council also exceeded their goal by raising more than \$11,000 in the annual Adopt-a-Family fundraiser to benefit IOCP and the Children's Hospital of Minnesota.
- The student council listened to the student body and updated or added programming to meet the needs of high school students. This school year, the council created new events including Sip-N-Study and a WHS Drive-In.

A student council must meet a variety of criteria to earn the prestigious National Council of Excellence Award. In addition to basic requirements such as a written constitution, regular meetings and a democratic election process, the council must have demonstrated successful sponsorship and participation in activities such as leadership development and service to the school and community.

Congratulations to the WHS student council!

**Stacy Lasser**

**7<sup>th</sup> Grade Science Teacher- Central Middle School**

When people think of Stacy Lasser the first word that comes to mind is humble. Stacy walks through the halls of Wayzata Central Middle School with a high level of humility everyday. She is humble when working with students, partnering with colleagues, and when connecting with families.

Stacy is a well-respected staff member in our building and it is because of her approach to the profession. No challenge is too hard for Mrs. Lasser to take on as she exhibits a “can do” attitude whenever things get hard. She also is respected by students as well, which most likely comes from her approach as a “warm demander.” This term refers to an individual who shows a balanced level of care and high expectations for others. This approach allows Mrs. Lasser’s students to truly believe that she believes in them and finds them more than capable of accomplishing their academic goals.

The work ethic and passionate approach that Stacy exhibits is not only seen by her colleagues in the school’s office, but also from staff across the entire building:

*“Stacy is not just a great teacher, but she is an amazing mentor as well. There are so many moments I can think of where Stacy was able to analyze a situation or lesson, and offer a direction that is solution-focused. Because of Stacy, our team has been able to establish clear objectives for students, which has resulted in positive changes to their learning experience.”*

*“Stacy is an advocate for her students, always trying to provide what they need most. She works to keep her students engaged and excited to learn. Her work with her PLC is inspiring as she makes a Canvas assignment or reads a test aloud that we can all use. She does all of this with grace, humor, and kindness.”*

“Integrity is doing the right thing, even when no one else is watching.” This quote accurately describes how Mrs. Lasser has approached her career as a 7<sup>th</sup> grade Science teacher. As you enter her classroom, you can feel her high level of engagement as a passionate instructor.

These are just a few of the many reasons Stacy Lasser has been named Wayzata Public Schools’ May 2023 Employee of the Month.

## 711 AUDIO / VIDEO RECORDING ON SCHOOL BUSES

### I. PURPOSE

The purpose of this policy is to establish a school bus audio/video recording system. Video cameras may be placed on school buses under this policy.

The transportation of students to and from school is an important function of the school district, and transportation by the school district is a privilege and not a right for an eligible student. The behavior of students and employees on the bus is a significant factor in the safety and efficiency of school bus transportation. Student and employee misbehavior increases the potential risks of injury. Therefore, the school district believes that audio/video recording student passengers and employees on the school bus will encourage good behavior and, as a result, promote safety.

### II. GENERAL STATEMENT OF POLICY

#### A. Placement

1. Each and every school bus owned, leased, contracted, and/or operated by the school district may be equipped with an audio/video recording device and conspicuously placed signs notifying riders that their conversations or actions may be recorded.
2. An audio/video recording device will not necessarily be installed in each and every school bus owned, leased, contracted, and/or operated by the school district, but cameras may be installed in any bus without prior notice to passengers, district employees, contractors, or contractors' employees.
3. Audio/video recording devices will be placed on a particular bus to observe and record behavior on the bus.

#### B. Notice

Each bus equipped with an audio/video recording device must have a conspicuously placed sign notifying riders that their conversations or actions may be recorded per Minn. Stat. § 121A.585.

#### C. Use of Audio/Video Recordings

1. An audio/video recording of the actions of student passengers and/or employees may be used by the school district as evidence in any criminal proceeding or disciplinary action

brought against any student or employee arising out of the student's or employee's conduct on the bus.

2. An audio/ video recording may also be used by the district or the district's transportation providers as evidence in any criminal proceeding or disciplinary action brought against district employees, contractors, or contractors' employees.
3. Audio/video recordings will be viewed by school district personnel on a random basis and/or when discipline problems on the bus have been brought to the attention of the school district.
4. An audio/video recording will be retained by the school district until re-looped or until the conclusion of disciplinary proceedings in which the recording is used for evidence.

**725 TRANSPORTATION OF NONPUBLIC SCHOOL STUDENTS**

**I. PURPOSE**

The purpose of this policy is to address transportation rights of nonpublic school students and to provide equality of treatment in transporting such students pursuant to law.

**II. GENERAL STATEMENT OF POLICY**

The School Board directs the Superintendent to establish and maintain a transportation system for district residents who attend nonpublic schools in the district. Accommodation for these students will be made within the public school transportation schedule. Nonpublic schools are required to arrange their start and dismissal times to comply with the district transportation schedule.

The policy of the school district is to recognize the rights of nonpublic school students and to provide equal transportation to those students as required by law.

## 725-R TRANSPORTATION OF NONPUBLIC SCHOOL STUDENTS

### I. ELIGIBILITY

- A. The school district shall provide equal transportation within the school district for all students to any school when transportation is deemed necessary by the school district because of distance or traffic conditions in like manner and form as provided in Minn. Stat. §§ 123B.88 and 123B.92 when applicable. (Minn. Stat. § 123B.86, Subd. 1)
- B. Upon the request of a parent or guardian, the school district shall provide school bus transportation to the school district boundary for students residing in the school district at least the same distance from a nonpublic school actually attended in another school district as public school students are transported in the transporting school district. Such transportation shall be provided whether there is or is not another nonpublic school within the transporting school district, if the transportation is to schools maintaining grades or departments not maintained in the school district or if the attendance of such students at school can more safely, economically, or conveniently be provided for by such means. (Minn. Stat. § 123B.88, Subd. 1; Minn. Stat. § 123B.86, Subd. 2(a))
- C. The school district may provide school bus transportation to a nonpublic school in another school district for students residing in the school district and attending that school, whether there is or is not another nonpublic school within the transporting school district, if the transportation is to schools maintaining grades or departments not maintained in the school district or if the attendance of such students at school can more safely, economically, or conveniently be provided for by such means. If the school district transports students to a nonpublic school located in another school district, the nonpublic school shall pay the cost of such transportation provided outside the school district boundaries. (Minn. Stat. § 123B.86, Subd. 2(b))
- D. The school district shall provide the necessary transportation within school district boundaries between the nonpublic school and a public school or neutral site for nonpublic school students who are provided pupil support services if the school district elects to provide pupil support services at a site other than a nonpublic school. (Minn. Stat. § 123B.44, Subd. 1)
- E. When transportation is provided, the scheduling of routes, manner and method of transportation, control and discipline of students, and any other matter relating thereto shall be within the sole discretion, control, and management of the school district. A nonpublic or charter school student transported by the school district shall comply with school district student conduct and student bus discipline policies. (Minn. Stat. § 123B.86, Subd. 3; Minn. Stat. § 123B.91, Subd. 1a)
- F. Additional transportation to and from a nonpublic school may be provided at the expense of the school district where such services are provided at the discretion of the school district.

## II. SPECIAL EDUCATION/ STUDENTS WITH A DISABILITY

- A. If a resident student with a disability attends a nonpublic school located within the school district, the school district shall provide necessary transportation for the student within the school district between the nonpublic school and the educational facility where special instruction and services are provided on a shared-time basis. If a resident student with a disability attends a nonpublic school located in another school district and if no agreement exists for the provision of special instruction and services on a shared time basis to that student by the school district of attendance and where the special instruction and services are provided within the school district, the school district shall provide necessary transportation for that student between the school district boundary and the educational facility. The school district may provide necessary transportation for that student between its boundary and the nonpublic school attended, but the nonpublic school shall pay the cost of transportation provided outside the school district. School districts may make agreements for who provides transportation. Parties serving students on a shared time basis have access to a due process hearing system as provided by law. (Minn. Stat. § 125A.18)
- B. When the disabling conditions of a student with a disability are such that the student cannot be safely transported on the regular school bus and/or school bus route and/or when the student is transported on a special route for the purpose of attending an approved special education program shall be entitled to special transportation at the expense of the school district or the day training and habilitation program attended by the student. The school district shall determine the type of vehicle used to transport disabled students on the basis of the handicapping condition and applicable laws. This section shall not be applicable to parents who transport their own child under a contract with the school district. (Minn. Stat. § 123B.88, Subd. 19; Minn. Rules Part 7470.1600, Subd. 1)
- C. Each driver and aide assigned to a vehicle transporting students with a disability will be provided with appropriate training for the students in their care, will assist students with their safe ingress and egress from the bus, will ensure the proper use of protective safety devices, and will be provided with access to emergency health care information as required by law. (Minn. Rules Part 7470.1700)
- D. Any parent of a student with a disability who believes that the transportation services provided for that child are not in compliance with the applicable law may utilize the alternative dispute resolution and due process procedures provided for in Minn. Stat. Ch. 125A. (Minn. Rules Part 7470.1600, Subd. 2)

## III. APPLICATION OF GENERAL POLICY

# 2022-23 School Year Financial Report Analysis

Excellence. For each and every student.

For the Month Ended March 31, 2023

## Statement of Revenues Analysis

This analysis reflects revenue received by the month end noted above. Property Tax revenues are close in line with prior years along with State Aids. As pointed out in prior reporting months, deviations in revenue from prior years include Federal Aids and Miscellaneous Local Revenue. The significant increase over prior years in Federal are due to the fact that CARES Act dollars continued to flow into the district in FY22-23 with some of these dollars being allowed to carry over to multiple future fiscal years. This has allowed the district to draw on these funds periodically throughout the fiscal year. A portion of the variance in Miscellaneous Local Revenue from prior years includes an Insurance Recovery payment. This pushes that comparative percentage upwards from the prior fiscal year during the same time frame. The district continues to see numbers more in line with pre-pandemic times as it relates to fees the district collects for sports. This would also be a similar story for Community Education and their numbers related to the before and after care programs of school children.

## Statement of Expenditures Analysis

The analysis of the expenditures reflects the actual expenditures and does not include outstanding encumbrances. As you can see from the Statement of Expenditures, the overall expenditures are similar in several prior years especially as it relates to Salaries and Benefits combined factoring in the revised budget. As mentioned in prior reporting months, Supplies & Materials along with Other Expenditures can vary from year to year based on the timing of purchases or payments during the fiscal year depending on the needs of staff, buildings, and departments. As an example, Purchased Services are up over last fiscal year percentage wise due to the timing of some transportation payments and other expenditures where payment timing can vary. The variation in Capital Expenditures from the prior year was driven mainly by more projects being conducted in the prior fiscal year along with the timing of purchases during the fiscal year.

**Intermediate School District 287 Long-Term Facilities Maintenance FY2025**

The 2015 legislative session established the Long-term Facilities Maintenance Revenue Program for School Districts, replacing the Health and Safety Revenue, Deferred Maintenance Revenue, and Alternative Facilities Bonding and Levy programs beginning with fiscal year (FY) 2017.

Annually, Intermediate School District 287 must have a ten-year capital plan adopted by its board and each member district's school board. Intermediate School District 287 approves the levy a year in advance to accommodate several of its member districts who levy a year in advance.

**Recommended Action:** Approve Intermediate School District 287's Long-Term Facilities Maintenance capital expenditure plan for fiscal years 2025 through 2034 and adopt the resolution affirming Wayzata Public Schools' portion of the FY2024-2025 expenditures in the amount of \$101,503.41.
