## More Meaningful English

From Great Minds®, the nonprofit that created *Eureka Math*, is an K–8 English curriculum that brings the rich content everyone loves into your classroom. *Wit & Wisdom®* helps you meet the expectations of the new standards while celebrating the world of knowledge with your students.

### Books not Basals

With *Wit & Wisdom*, every text a student touches is authentic and of the highest quality. Students use these texts at every turn—to learn, and eventually master, essential reading, writing, speaking, listening, grammar, and vocabulary skills. Instead of basals, students read books they love to build knowledge of important topics and master literacy skills. All students read and discuss grade-level texts, with suggestions for support included at key moments throughout each lesson.

### Builds Knowledge

Every module in each grade is focused on a topic that is essential for building background knowledge, vocabulary, and more. Whether students are learning about the four seasons, the American Revolution, or space exploration, they are exposed to works of literature, informational texts, and art of the highest quality. Essential topics strategically reoccur, empowering students understanding to deepen understanding of knowledge across Grades K–8.

### Integrated not Isolated

Student practice of reading, writing, speaking, listening, and language based in the text. All strand of the standards is integrated throughout each module, using the following strategies:

- **Instructional routines** that empower students to tackle complex texts with increasing independence within and across grades.
- **Text-dependent questions** that guide students to deep understanding and establish a basis for use of evidence in oral and written communication.
- **Explicit writing instruction** that empower students to write essays, narratives, arguments, and informational pieces.
- **Text-based vocabulary** that provides the basis for morphology and word work.
- **Formative assessments** that inform teachers and students on progress toward knowledge and skill mastery.

### Complete Solution

Student and teacher resources are offered in print and digital formats including, student workbooks, teacher editions, featured texts, professional development, and parent resources.

Learn more at [WitWisdom.org](http://WitWisdom.org).

“The texts are absolutely fabulous, almost as if they were taken from a bibliography of what the most educated parents read to their children.”

*David Liben*

### MATERIALS

**Teacher Edition:** Digital or print; includes Module Overviews, daily lessons, Volume of Reading lists, text complexity measures, rubrics, and sample student responses

**Student Edition:** Print only; includes student-facing graphic organizers, supplementary texts, and evidence guides

**Assessment Pack:** Print or downloadable from the digital Teacher Edition; includes student-facing assessment materials

**Texts:** Core texts and e-books essential to student work; supplementary texts

**Parent Tip Sheets:** Accessible in Student Edition and online; includes information on each module to support family engagement

### PACING

**Module 0:** An introduction to *Wit & Wisdom* (six 50-minute lessons); one per grade band, K–2, 3–5, and 6–8

**Modules 1–4:** Four complete modules, or units of study, per academic year for Grades K–8

- 30–38 lessons per module
- One 90-minute lesson per day
  - 75-minute core lesson
  - 15-minute Deep Dive focused on vocabulary or style and conventions

### LEARNING DESIGN

- Each module focuses on a topic that builds students’ knowledge of the world and ideas.
- A compelling, transferable **Essential Question** guides students’ learning in the module.
- A series of **Focusing Questions** direct learning for each arc of lessons and build sequential knowledge to answer the Essential Question in the End-of-Module (EOM) Task.
- Students
  - build **content knowledge** through reading rich and diverse grade-level texts.
  - learn to convey information and express ideas through explicit instruction in the **craft** of writing, speaking, or presenting.
  - use journals to record and reflect on learning: **Response Journal** (Grades K–8), **Vocabulary Journal** (Grades 1–8), and **Knowledge Journal** (whole-class journal in Grade K and Grade 1).
  - complete the EOM Task to demonstrate their understanding of the module’s content and the Essential Question and their ability to use craft skills taught in the module.

### ASSESSMENTS

**Standards Trackers (Grades K–1)**  
Checklists to monitor progress on reading standards

**Question Sets (Grades 2–8)**  
Multiple-choice and selected-response items for each module

**End-of-Module Task**  
(1 per module)

**Focusing Question Tasks**  
(3–6 per module)

**New-Read Assessments**  
(2–3 per module)

**Socratic Seminars**  
(2+ per module)

**Vocabulary Assessments**  
(2 per module)

**Checks for Understanding**  
(1+ per lesson)

### RESOURCES FOR PROFESSIONAL LEARNING

The **Implementation Guide** contains detailed information about each aspect of *Wit & Wisdom*.

**Moving Forward with *Wit & Wisdom*** offers a menu of professional learning activities.

A sequence of **in-person Professional Development** sessions supports educators’ development at different phases of implementation. See offerings at [greatminds.org/english/pd](http://greatminds.org/english/pd).

## CORE LESSON STRUCTURE

Lessons have a consistent structure to support student learning.

- 1. Welcome:** Students independently engage in a task to prepare for the lesson's learning.
- 2. Launch:** The teacher introduces the lesson's Content Framing Question and Learning Goals.
- 3. Learn:** With varied instructional routines and tasks, teachers support students in productive struggle to develop knowledge and skills to answer the Content Framing Question.
- 4. Land:** Students reflect on their learning and answer a form of the Content Framing Question.
- 5. Wrap:** The teacher directs closing activities and assigns homework. Homework often includes a fluency assignment, in which students practice reading a key text passage at home.

The **Prepare** section previews lesson learning and connects it with broader module goals. The **Analyze** section offers guidance on evaluating student success and determining next steps. Throughout, lessons also provide Teacher Notes and ideas for scaffolds, extensions, alternate activities, and differentiation.

## READING

*Wit & Wisdom* equips students with a transferable process to closely read complex texts: the five **Content Stages** and related **Content Framing Questions**.

- **Wonder:** *What do I notice and wonder about this text?* Students first read (or listen to) a text with curiosity and attention and ask key questions about what they read.
- **Organize:** *What is happening in this text?* Students read to understand a text on a literal level.
- **Reveal:** *What does a deeper exploration of [text-specific element] reveal about the text?* Students delve deeper to explore a text-specific element, such as figurative language or text structure.
- **Distill:** *What is the essential meaning of this text?* Students synthesize their understanding of a text's elements to discern a profound, transferable central idea.
- **Know:** *How does this text build my knowledge of [module topic or related subtopic]?* Students synthesize the knowledge acquired through study of a text.

## WRITING

*Wit & Wisdom* equips students with a transferable process to communicate ideas in writing or speaking: the four **Craft Stages** and related **Craft Questions**.

- **Examine:** *Why is [specific skill] important?* Students analyze an exemplar of a writing or speaking skill to recognize criteria for quality communication.
- **Experiment:** *How does [specific skill] work?* Students practice and hone the target writing or speaking skill in a scaffolded task.
- **Execute:** *How do I use [specific skill] in [specific task]?* Students employ the skill in their own text-based writing or speaking.
- **Excel:** *How do I improve my use of [specific skill]?* Students revise and revisit their speaking or writing, cultivating mastery of the target skill.

Writing instruction includes studying of exemplars and using of models for writing types with mnemonics to help students organize their writing.

## SPEAKING AND LISTENING

- The Craft Stages frame speaking and listening instruction.
- Students apply speaking and listening skills in Socratic Seminars—structured, text-based, academic conversations organized around a rigorous question that provokes new thinking.

## FLUENCY

- Explicit fluency instruction and meaningful fluency practice occur across modules from Grades K through 8.
- In Grades 1–8, students practice fluency through homework passages taken from module texts to build fluency skills and deepen comprehension of those texts.

## VISUAL ART

- Students apply the five Content Stages to guide their inquiry and analysis of visual art.
- Students engage with significant works of art, including paintings, illustrations, prints, sculptures, architecture, and photographs.

## LANGUAGE

- In daily 15-minute Deep Dives, students focus on vocabulary or style and conventions skills connected to the core lesson.
- Vocabulary and language skill instruction is also integrated into core lessons.

# INSTRUCTIONAL ROUTINES

The routines in *Wit & Wisdom* require students to activate different ways of thinking in order to process a text, thereby building content knowledge, deepening understanding, and developing literacy skills. Instructional routines increase student engagement and provide practices to make students' thinking and learning visible. The following table outlines the purpose, grouping, and instructions for the routines that occur frequently in *Wit & Wisdom*.

Proven Instructional Routines	Description	Corresponding Research
Chalk Talk	A Chalk Talk is a silent conversation that helps students organize their thinking and fosters universal participation. It can serve as pre-work for Socratic Seminars.	<a href="https://www.sadlier.com/school/core-literacy/chalk-talk-thinking-routine-a-professional-development-series">https://www.sadlier.com/school/core-literacy/chalk-talk-thinking-routine-a-professional-development-series</a>
Choral Reading	A Choral Reading is performed in unison as one voice. Students should “read as gazelles not elephants”, being sure to hear the person beside them interpret the text with feeling and phrasing.	<a href="http://www.readwritethink.org/professional-development/strategy-guides/choral-reading-30704.html">http://www.readwritethink.org/professional-development/strategy-guides/choral-reading-30704.html</a>
Echo Reading	Use an Echo Reading during an early read to support students in being able to read challenging words and phrasing.	Adler, Mortimer Jerome. <i>How to Speak, How to Listen</i> . Simon & Schuster, 1997.
Fishbowl	Use a Fishbowl to model or experiment with behaviors such as asking thoughtful questions, listening attentively, and sharing ideas.	<a href="http://www.readwritethink.org/classroom-resources/lesson-plans/give-them-hand-promoting-1078.html">http://www.readwritethink.org/classroom-resources/lesson-plans/give-them-hand-promoting-1078.html</a>
Graffiti Wall	A Graffiti Wall can serve as a place to feature and explore concepts of a module, significant quotes, literary features, etc. It meets needs of visual learners and promotes collective learning/understanding through collaborative work on a task (e.g. answering a question, summarizing a text).	<a href="http://www.readwritethink.org/classroom-resources/lesson-plans/graffiti-wall-discussing-responding-208.html">http://www.readwritethink.org/classroom-resources/lesson-plans/graffiti-wall-discussing-responding-208.html</a>

# INSTRUCTIONAL ROUTINES

Proven Instructional Routines	Description	Corresponding Research
Partner Reading	Partner Reading is a cooperative activity that encourages peer to-peer learning. It is a routine for fluency practice only when students have previously read the text.	<a href="http://www.readwritethink.org/professional-development/strategy-guides/using-paired-reading-increase-30952.html">http://www.readwritethink.org/professional-development/strategy-guides/using-paired-reading-increase-30952.html</a>
Reader's Theater	In a Readers' Theatre activity, students practice fluency as they read from scripts, adding their own dramatic elements, such as expression and gestures, to their performances. Many scripts can be found online or in resource books. However, students may also develop their own scripts by adapting familiar texts.	<a href="http://www.readwritethink.org/classroom-resources/lesson-plans/readers-theatre-172.html">http://www.readwritethink.org/classroom-resources/lesson-plans/readers-theatre-172.html</a>
See-Think-Wonder	See-Think-Wonder encourages students to think carefully about a new text and stimulates their curiosity. It can focus students' exploration of a new module topic or text.	Beers, G. Kylene, and Robert E. Probst. Notice & Note: Strategies for Close Reading. Heinemann, 2013. <a href="http://www.readwritethink.org/professional-development/strategy-guides/using-think-pair-share-30626.html">http://www.readwritethink.org/professional-development/strategy-guides/using-think-pair-share-30626.html</a>
Think-Pair-Share	During a Think-Pair-Share, students reflect on a question/prompt, discuss their reflections with a partner, and then participate in a whole-class share-out.	<a href="http://www.readwritethink.org/professional-development/strategy-guides/using-think-pair-share-30626.html">http://www.readwritethink.org/professional-development/strategy-guides/using-think-pair-share-30626.html</a>
Word Wall	A Word Wall supports students in tracking, using, and deepening understanding of vocabulary.	Beck, Isabel L., et al. Bringing Words to Life: Robust Vocabulary Instruction. 2nd ed, Guilford, 2013.

*Wit & Wisdom*<sup>®</sup> is a comprehensive K–8 ELA curriculum that helps all learners, including English learners, celebrate the joy of reading and writing while empowering them to read complex texts.

## SUPPORTING ENGLISH LEARNERS:

1. **Deliberate sequencing.** Texts and activities are purposefully sequenced to build students' (1) knowledge of module topics in literature, science, history/social studies, and the arts and (2) skills with reading, writing, listening, speaking, and viewing.
2. **Predictable structures.** The recurring Content Stages (that scaffold close reading) and Craft Stages (that scaffold the writing process) help students develop transferable habits of mind.
3. **Focus on vocabulary and syntax.** In the 15-minute Deep Dives that follow each core lesson, students study vocabulary and grammar in the context of the module texts.
4. **Content in multiple forms.** Students explore print, visuals (art, photographs, maps, videos, and more), and audio to access module concepts and information.
5. **Ongoing, sequential, explicit writing instruction.** Students learn to write and write to learn every day in *Wit & Wisdom*.
6. **Authentic opportunities for collaboration.** *Wit & Wisdom* includes daily opportunities for collaboration and explicitly teaches speaking and listening skills.
7. **Varied instructional routines and approaches.** Teachers use varied instructional routines, such as visual graphic organizers or collaborative Think–Pair–Share activities or creative Readers' Theater performances, to support students' content and skill building.
8. **Scaffolds, extensions, and suggestions for differentiation.** Lessons include frequent suggestions for scaffolding, extending, and differentiating instruction.
9. **Help for students to organize their thinking.** Individual consumable Student Editions and journals are set up for written responses and reflection.
10. **Student choice.** Students choose topics, processes, and products in the core lessons, and the Volume of Reading text lists offer options of additional texts at varied reading levels for students to continue to explore topics of interest.

**BUILDING LITERACY THROUGH ART INQUIRY**

# THE ART OF *WIT & WISDOM*

## The Power of Visual Art Instruction

Just as great literature provides rich content for inquiry and analysis, fine art offers powerful opportunities to cultivate literacy skills and build content knowledge.

Students who analyze fine art can hone their observing, writing, speaking, and listening skills—all without the hurdle of decoding written text.

Through repeated exposure and rigorous questioning, students deepen their knowledge while making connections to written text and other works of art.

## Five Content Framing Questions

To help students approach and engage with new and challenging texts, including fine art, educators can use this flexible but predictable set of Content Framing Questions to structure inquiry.

### Wonder

What do you notice and wonder about this work of art?

### Organize

What is happening in this work of art?

### Reveal

What does a deeper exploration of [specific element] reveal about this work of art?

### Distill

What is the essential meaning of this work of art?

### Know

How does this work of art build my knowledge of [specific topic]?

and art to build students' knowledge of topics in literature, history, science, and the arts.

1. Knowledge	Yes	No	<i>Wit &amp; Wisdom</i> Alignment and Program Examples
<p>Texts and tasks <b>build students' knowledge</b> systematically and coherently.</p>	✓		<p>We know that the more a student knows, the more that student can learn; a strong foundation of knowledge advantages students in terms of their literacy skills, vocabulary, and ability to learn from text. For these reasons, important topics and knowledge-building texts are the heart of <i>Wit &amp; Wisdom</i>® instruction. Each grade of <i>Wit &amp; Wisdom</i> includes four modules that together form a year of instruction. Each module focuses on an important topic. Students learn, develop, practice, and master literacy skills in the context of this topic. As the module titles below attest, <i>Wit &amp; Wisdom</i> topics come from literature, history/social studies, science, and the arts.</p> <p><b>Examples</b>  <i>Wit &amp; Wisdom</i> builds knowledge as shown in these examples:</p> <div style="display: flex; justify-content: space-between;"> <div style="width: 45%;">  </div> <div style="width: 50%;"> <p><b>Grade K Module 3: <i>America, Then and Now</i></b></p> <p><b>Essential Question:</b> How has life in America changed over time?</p> <p>Through literature and informational texts, poetry, songs, videos, photographs, and paintings, students investigate the nature of change in America—including Benjamin Franklin’s inventions and influence—and learn about how America has changed over time.</p> </div> </div> <div style="display: flex; justify-content: space-between; margin-top: 20px;"> <div style="width: 45%;">  </div> <div style="width: 50%;"> <p><b>Grade 5 Module 1: <i>Cultures in Conflict</i></b></p> <p><b>Essential Question:</b> How do cultural beliefs and values guide people?</p> <p>Students explore the development of cultural values in context of one of America’s most tumultuous and heartbreaking eras. They examine a novel (<i>Thunder Rolling in the Mountains</i>), speeches, maps, photographs, film clips, informational texts, Nez Perce stories, and a painting of Chief Joseph, a Nez Perce leader. Through the study of these complex texts, students build knowledge of westward expansion, Nez Perce culture, and the conflict between the Nez Perce and the U.S. government.</p> </div> </div>

<b>2. Texts</b>	<b>Yes</b>	<b>No</b>	<b><i>Wit &amp; Wisdom</i> Alignment and Program Examples</b>																								
a. Texts are of <b>grade-appropriate complexity</b> .	✓		<p><i>Wit &amp; Wisdom</i> texts exemplify the appropriate grade-level complexity outlined by college- and career-readiness standards. Students engage in productive struggle with complex texts, which prepares them for future reading demands across content areas and grades.</p> <p><i>Wit &amp; Wisdom</i> teacher–writers assessed all core texts for their quantitative and qualitative complexity, evaluating elements of meaning and purpose, structure, language, and knowledge demands. Teacher–writers chose texts both to meet qualitative guidelines for grade-appropriate complexity and to fall within recommended quantitative Lexile® ranges for each grade band.</p> <p><b>For More Detail</b> See Appendix A in each module for a quantitative measure and qualitative analysis of each core text.</p>																								
b. Students engage regularly with <b>varied text genres</b> .	✓		<p><i>Wit &amp; Wisdom</i> texts include a variety and balance of text types as required by college- and career-readiness standards, including wide-ranging genres and a balance of literary and informational types. Texts include novels, stories, poems, myths, science fiction, historical fiction, literary nonfiction, informational texts, visual art, videos, audio, and multimedia. Every grade includes varied print and digital texts that cover topics from literature, history/social studies, science, and the arts.</p>																								

		<p><b>Examples</b> For example, in their study of the continents in Module 4, Grade K students listen to literary and informational texts and study maps, paintings, photographs, websites, songs, and videos. (See the Grade K Module 4 Texts list in the Module Overview.)</p> <p>In their study of the Nez Perce in Grade 5 Module 1, students read a work of historical fiction, a speech, informational accounts, and traditional stories. They view film clips, paintings, and photographs. See the Grade 5 Module 1 Texts list in the Module Overview.</p> <p><b>For More Detail</b> For a list of each module’s texts, see Texts in the Module Overview at the beginning of each module. In <i>Wit &amp; Wisdom</i> digital, select Texts under the Module Overview or search for <i>Core Texts</i> to access the lists.</p>																								
<p>c. Students engage regularly with texts that are <b>authentic and exemplify quality</b>.</p>	<p>✓</p>	<p>The core texts in <i>Wit &amp; Wisdom</i> are authentic, previously published texts worthy of close reading and study. <b>3. Reading</b>	<b>Yes</b>	<b>No</b>	<b><i>Wit &amp; Wisdom</i> Alignment and Program Examples</b>
Curricular materials align with the college- and career-readiness expectation for <b>close and repeated reading</b> .	✓		<p><i>Wit &amp; Wisdom</i> texts, because of their quality and craft, are worthy of rereading and close reading. To support all students in reading complex texts, <i>Wit &amp; Wisdom</i> uses a stage-based theory of reading to scaffold students’ deepening comprehension and provide a focus for each rereading. Each <i>Wit &amp; Wisdom</i> lesson focuses on one of five Content Stages for reading. Together, the Content Stages, and their aligned Content Framing Questions, move students from a literal understanding to deep comprehension by following a predictable, transferable process of critical thinking and questioning.</p> <div style="display: flex; justify-content: space-around; text-align: center;"> <div style="border: 1px solid black; padding: 5px; background-color: #f0f0f0;"> <p><b>WONDER</b></p> <p>What do I notice and wonder about this text?</p> </div> <div style="border: 1px solid black; padding: 5px; background-color: #f0f0f0;"> <p><b>ORGANIZE</b></p> <p>What is happening in this text?</p> </div> <div style="border: 1px solid black; padding: 5px; background-color: #f0f0f0;"> <p><b>REVEAL</b></p> <p>What does a deeper exploration of [text-specific element] reveal in the text?</p> </div> <div style="border: 1px solid black; padding: 5px; background-color: #f0f0f0;"> <p><b>DISTILL</b></p> <p>What is the essential meaning of this text?</p> </div> <div style="border: 1px solid black; padding: 5px; background-color: #f0f0f0;"> <p><b>KNOW</b></p> <p>How does this text build my knowledge of [module topic or related subtopic]?</p> </div> </div>

			<p>The Content Stage reading process is a foundation of <i>Wit &amp; Wisdom</i>, one that students apply to all types of text—including literary, informational, and visual texts. The Content Stages develop in students the repeatable habits of mind that experienced readers use across all content areas to understand challenging new texts.</p> <p><b>Examples</b>  For examples, see this progression of Content Stages from Grade K Module 1:  Lesson 1—Wonder: What do I notice and wonder about <i>My Five Senses</i>?  Lesson 2—Organize: What is happening in <i>My Five Senses</i>?  Lesson 3—Reveal: What does a deeper exploration of words and pictures reveal in <i>My Five Senses</i>?  Lesson 4—Distill: What is the essential meaning of <i>My Five Senses</i>?  Lesson 5—Know: How does <i>My Five Senses</i> build my knowledge of the senses?</p> <p><b>For More Detail</b>  For the complete sequence of Content Stages and Content Framing Questions across all lessons in a module, see the Module Map (in the Module Overview). a. Curricular materials align with the college- and career-readiness focus on <b>informative/explanatory, opinion/argument, and narrative writing.</b>	✓		<p><i>Wit &amp; Wisdom</i> students write every day, learning to write and writing to learn.</p> <p>Writing tasks range from brief Quick Writes or Jot–Pair–Share responses to extended essays and research projects. Modules align with college- and career-readiness writing standards and teach the three writing types: informative/explanatory, opinion/argument, and narrative. Each module tailors writing instruction to one type of writing. At the module’s end, students respond to the End-of-Module Task by using that form of writing. At each grade level, one module also features an extended research project.</p> <table border="1" style="width: 100%; border-collapse: collapse;"> <thead> <tr> <th></th> <th style="text-align: center;">Module 1</th> <th style="text-align: center;">Module 2</th> <th style="text-align: center;">Module 3</th> <th style="text-align: center;">Module 4</th> </tr> </thead> <tbody> <tr> <td style="text-align: center;"><b>K</b></td> <td>Informative</td> <td>Narrative</td> <td>Informative (Research)</td> <td>Opinion</td> </tr> <tr> <td style="text-align: center;"><b>1</b></td> <td>Narrative</td> <td>Informative (Research)</td> <td>Narrative</td> <td>Opinion</td> </tr> <tr> <td style="text-align: center;"><b>2</b></td> <td>Informative</td> <td>Informative</td> <td>Narrative</td> <td>Opinion (Research)</td> </tr> <tr> <td style="text-align: center;"><b>3</b></td> <td>Informative</td> <td>Opinion</td> <td>Narrative</td> <td>Informative (Research)</td> </tr> <tr> <td style="text-align: center;"><b>4</b></td> <td>Informative</td> <td>Narrative</td> <td>Opinion (Research)</td> <td>Informative</td> </tr> <tr> <td style="text-align: center;"><b>5</b></td> <td>Informative</td> <td>Narrative</td> <td>Opinion</td> <td>Informative (Research)</td> </tr> </tbody> </table> <p><b>Examples</b>  For examples of how <i>Wit &amp; Wisdom</i> teaches narrative writing, see these Grade 2 Module 3 lessons:  Lessons 9–10, 14, 15, 18—Students explore authors’ use of adjectives and adverbs to add detail.  Lessons 14–18—Students build understanding and practice with first-person narrative.  Lessons 19–23—Students learn the concept of an exploded moment as a narrative writing approach. <p>b. Curricular materials align with the college- and career-readiness focus on <b>writing craft, organization, and structure</b>.</p>	<p>✓</p>	<p>To meet rigorous writing standards, students must learn the underlying structures of the required types of writing. Students will not intuit these complex structures on their own: They need explicit writing instruction, which <i>Wit &amp; Wisdom</i> provides through a repeated sequence of four Craft Stages.</p> <p>Just as the Content Stages unpack the complex, internal process of comprehension, the Craft Stages illuminate the writing process. Students examine an exemplar, then experiment with specific skills, and finally produce work demonstrating their mastery of the new form or skill. The four Craft Stages, and corresponding Craft Questions, drive the writing experience as students move through the writing process.</p> <div data-bbox="606 386 1335 591" style="display: flex; justify-content: space-around; text-align: center;"> <div style="border: 1px solid gray; padding: 5px; background-color: #f0f0f0;"> <p><b>EXAMINE</b></p> <p>Why is [specific skill] important?</p> </div> <div style="border: 1px solid gray; padding: 5px; background-color: #f0f0f0;"> <p><b>EXPERIMENT</b></p> <p>How does [specific skill] work?</p> </div> <div style="border: 1px solid gray; padding: 5px; background-color: #f0f0f0;"> <p><b>EXECUTE</b></p> <p>How do I use [specific skill] in [specific task]?</p> </div> <div style="border: 1px solid gray; padding: 5px; background-color: #f0f0f0;"> <p><b>EXCEL</b></p> <p>How do I improve my use of [specific skill]?</p> </div> </div> <p>In the Examine Stage, students examine a written exemplar, often a module text, to discern the form’s structure or learn a new skill. In the Experiment Stage, they practice the form or skill. In the Execute Stage, they draft a full piece of writing, using <i>Wit &amp; Wisdom</i> writing models to guide organization and structure. Finally, in the Excel Stage, they edit and revise to improve their writing.</p> <p><b>Examples</b>  For examples of a writing Craft Stage progression, see these lessons in Grade 5 Module 1:  Lesson 5—Examine: Why is a topic statement in an informative/explanatory paragraph important?  Lesson 6—Experiment: How does a topic statement in an informative/explanatory paragraph work?  Lesson 7—Execute: How do I use a topic statement in my informative/explanatory paragraph?  Lesson 8—Excel: How can I strengthen my topic statement in my informative/explanatory paragraph?</p> <p><b>For More Detail</b>  For the complete sequence of Craft Stages in a module, see the module’s Module Map (in the Module Overview). In <i>Wit &amp; Wisdom</i> digital, select Module Map under the Module Overview.</p>
<p>c. Curricular materials align with the college- and career-readiness shift to <b>writing to sources/using evidence</b>.</p>	<p>✓</p>	<p>To write effectively, students must learn the craft of writing and build their knowledge of content. <i>Wit &amp; Wisdom</i>’s Content–Craft–Create framework reflects this approach.</p> <p>All <i>Wit &amp; Wisdom</i> writing tasks require students to use evidence to write about module topics and texts. Students use evidence organizers to collect evidence from their reading to use in text-based writing tasks.</p> <div data-bbox="1188 984 1955 1230" style="text-align: center;"> </div> <p><b>Examples</b>  For one Craft Stage sequence focused on using evidence to support ideas in an opinion, see Grade 3 Module 2:  Lesson 19—Examine: Why is it important to support an opinion with reasons?  Lesson 20—Experiment: How do supporting reasons work in opinion writing?  Lesson 21—Execute: How do I use supporting reasons in an opinion paragraph?  Lesson 22—Excel: How do I improve supporting reasons in an opinion paragraph?</p>

**Wit & Wisdom Alignment and Program Examples**

Curricular materials align with the college- and career-readiness focus on **research and inquiry-based learning**.

*Wit & Wisdom*'s structure promotes intellectual curiosity and inquiry.

As shown in this graphic, each *Wit & Wisdom* module is organized by an Essential Question that guides students' learning and focuses their inquiry. Each Essential Question is an open-ended question about the module's topic that cannot ultimately be resolved with any single answer.

	Module 1	Module 2	Module 3	Module 4

			<p><b>Examples</b> As the Essential Question guides learning across the module, the Focusing Questions guide learning within arcs of lessons. By seeking the answers to each Focusing Question, students build the knowledge and skills needed to answer the Essential Question, as with these questions from Grade 1 Module 2:</p> <p>Essential Question: What can we discover about animals’ unique features?  Focusing Question 1: What lessons can we learn through stories about animals?  Focusing Question 2: How did Jane Goodall make discoveries about animals?  Focusing Question 3: How do sea horses use their unique features?  Focusing Question 4: How do animals use the same feature in unique ways?  Focusing Question 5: How do animals use their unique features in unexpected ways?</p> <p>Students’ research into the content needed to answer each Focusing Question prepares them to answer the Essential Question through their responses to the End-of-Module Task, the culminating performance that ends each module. For examples of the organizing structure of Focusing Questions that guides student inquiry across each module, see each module’s Module Map (in the Module Overview).</p> <p>In addition, at least one of the four modules in each grade includes an extended research project. <p>b. Curricular materials align with the college- and career-readiness focus on ongoing <b>opportunities for collaboration, speaking, and listening.</b></p>	<p>✓</p>		<p><i>Wit &amp; Wisdom</i> gives students meaningful opportunities to speak, listen, and collaborate to meet learning goals:</p> <ul style="list-style-type: none"> <li>▪ Grouping suggestions for each lesson activity recommend whether students should do the activity alone, in pairs, in small groups, or as a whole group.</li> <li>▪ The Module Overview delineates speaking and listening goals, and lessons provide explicit instruction for attaining these goals.</li> <li>▪ Recurring <i>Wit &amp; Wisdom</i> instructional routines, such as Think–Pair–Share or Mix and Mingle, engage students in working together to deepen learning.</li> </ul> <p><b>Example</b> For one example of speaking and listening instruction and practice in <i>Wit &amp; Wisdom</i>, see Grade 1 Module 4 Lesson 22. Students review an Anchor Chart of speaking and listening skills. To reinforce the module speaking goal, “Speak to add relevant details,” pairs share what they notice and wonder about a new text.</p> <p><b>For More Detail</b> For a complete list and description of <i>Wit &amp; Wisdom</i>’s instructional routines, see the Implementation Guide (<a href="http://witeng.link/IG">http://witeng.link/IG</a>), pages 96–109. <p><b>7. Vocabulary</b></p>	<p>Yes</p>	<p>No</p>	<p><b><i>Wit &amp; Wisdom</i> Alignment and Program Examples</b></p>
<p>Curricular materials align with the college- and career-readiness shift to <b>explicit vocabulary instruction</b> in content and academic vocabulary.</p>	<p>✓</p>		<p><i>Wit &amp; Wisdom</i> teaches both academic and content-area vocabulary by using words from the module texts. Vocabulary Deep Dives (about 15 minilessons of 15 minutes each that appear at the end of lessons in each module) provide targeted instruction on vocabulary in the context of the lesson’s texts and ideas.</p> <p>Vocabulary instruction in <i>Wit &amp; Wisdom</i> is designed to achieve three key outcomes: deeper comprehension of complex texts, increased knowledge of words (with a focus on academic, content-area, and text-critical vocabulary) and word parts, and an expanded ability to determine the meanings of unknown words.</p> <p><b>Examples</b> For just a few of many program examples, see these Deep Dives in Grade 3 Module 4: Lesson 1 Deep Dive—Examine Content Vocabulary: <i>inspiration</i> Lesson 2 Deep Dive—Use a Dictionary Lesson 5 Deep Dive—Explore Academic Vocabulary: <i>revelation</i></p> <p><b>For More Detail</b> To see more Vocabulary Deep Dives, go to each module’s Module Map (in the Module Overview) for Deep Dive Learning Goals; each Deep Dive follows the corresponding core lesson. For a module vocabulary list, see Appendix B of each module.</p>

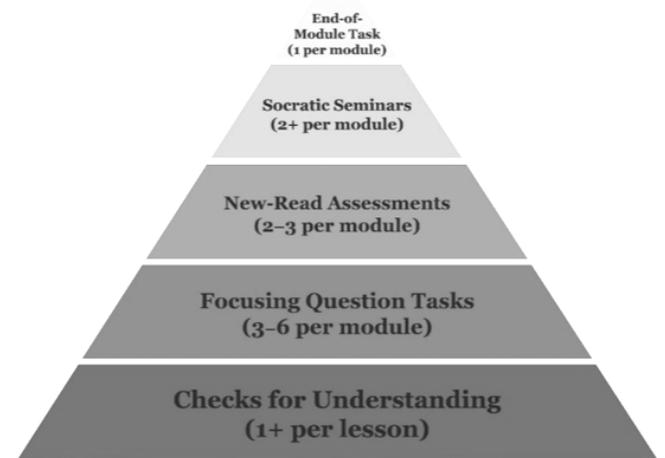

<b>8. Style and Conventions</b>	<b>Yes</b>	<b>No</b>	<b><i>Wit &amp; Wisdom</i> Alignment and Program Examples</b>
Curricular materials align with the college- and career-readiness focus on <b>integrated and coherent language instruction</b> .	✓		<p><i>Wit &amp; Wisdom</i> teaches style and conventions (or grammar) skills explicitly, following a grade-level progression. All language instruction occurs in the context of the module’s texts and topic and is integrated into reading and writing instead of being taught in isolation or as stand-alone drills.</p> <p>Style and Conventions Deep Dives (about 15 minilessons of 15 minutes each) provide targeted instruction on style and convention skills. With the same Craft Stages as in writing instruction, students learn how authors use language effectively and from those examples learn how to apply language skills in their own writing.</p> <p><b>Examples</b>  For just a few of many program examples, see these Deep Dives from Grade 3 Module 3:  Lesson 8 Deep Dive—Examine Subject-Verb Agreement  Lesson 10 Deep Dive—Execute Subject-Verb Agreement  Lesson 14 Deep Dive—Excel with Subject-Verb Revision</p> <p><b>For More Detail</b>  For a list of target language standards in each module, see the Language subsection of the Focus Standards section in the Module Overview. To see more Style and Conventions Deep Dives, go to the Module Map (in the Module Overview) for Deep Dive Learning Goals; each Deep Dive follows the corresponding core lesson.</p>
<b>9. Reading Foundations</b>	<b>Yes</b>	<b>No</b>	<b><i>Wit &amp; Wisdom</i> Alignment and Program Examples</b>
a. Curricular materials systematically build early readers’ skills in <b>print concepts, phonemic awareness, and phonics and word recognition (K–5)</b> .		✓	<p><i>Wit &amp; Wisdom</i> does not teach reading foundational skills or standards. To meet these expectations, schools can adopt</p> <ul style="list-style-type: none"> <li>▪ Great Minds® <i>Wit &amp; Wisdom</i> for core English language arts instruction across Grades K–8,</li> <li>▪ Great Minds <i>Geodes</i>™ to support small-group instruction in Grades K–2, and</li> <li>▪ a systematic, research-based phonics program, such as Wilson Language Training’s Foundations®, for teaching foundational skills.</li> </ul> <p>About <i>Geodes</i>: Great Minds and Wilson Language Training collaborated to create a collection of accessible, knowledge-building books for emerging and developing readers. <i>Geodes</i> combine carefully selected words with highly engaging content to create an authentic reading experience, empowering students to apply decoding skills while building knowledge about important ideas. Grounded in the content of <i>Wit &amp; Wisdom</i>, each module includes grade-appropriate books centered on an engaging subject.</p>
b. Curricular materials provide instruction and practice to build students’ reading <b>fluency</b> .	✓		<p><i>Wit &amp; Wisdom</i> provides fluency instruction and practice. Because research shows that developing fluency can build students’ comprehension, <i>Wit &amp; Wisdom</i> continues its focus on fluency across all levels, Grades K–8.</p> <p>Each module includes fluency instruction, practice, and/or evaluation. Fluency homework uses passages from the module’s texts so that students can build comprehension while improving fluency. Students engage in repeated readings of the passages, practicing for a listener at home. Students and their listeners evaluate the reading based on grade-level fluency criteria.</p>

			<p><b>Examples</b> For some examples of fluency instruction in <i>Wit &amp; Wisdom</i>, see Grade 1 Module 1 Lesson 7 or Grade 4 Module 1 Lesson 21. For examples of fluency homework and practice, see the Fluency Handouts in the print Student Edition or as digital PDFs in each module. <b>11. Standards Alignment and Integration</b>	<b>Yes</b>	<b>No</b>	<b><i>Wit &amp; Wisdom</i> Alignment and Program Examples</b>														
a. Curricular materials <b>align</b> with college- and career-readiness standards.	✓		<p><i>Wit &amp; Wisdom</i> modules were designed to teach the module’s texts and topics while helping students meet expectations for learning defined by college- and career-readiness standards. <i>Wit &amp; Wisdom</i> teacher–writers identified Focus Standards for each module based on the specific demands of the module’s topic and texts.</p> <p><i>Wit &amp; Wisdom</i> teaches standards in a clear progression, with each standard a focus of instruction and assessment in one or more modules. Each module has Focus, Supporting, and Continuing Standards.</p> <ul style="list-style-type: none"> <li>▪ Focus Standards are explicitly taught in the module, practiced in multiple lessons, and assessed by one or more major module assessments.</li> <li>▪ Supporting Standards are practiced in the module but not explicitly taught and assessed.</li> <li>▪ Continuing Standards describe expectations that are foundational to all tasks and learning activities and thus are taught and practiced in all modules.</li> </ul>

12. Differentiation	Yes	No	<i>Wit &amp; Wisdom</i> Alignment and Program Examples
a. Curricular materials promote <b>equity</b> .	✓		<p><i>Wit &amp; Wisdom</i> reflects the Great Minds belief that <i>all</i> children deserve rich, engaging learning opportunities. With <i>Wit &amp; Wisdom</i>, all students, regardless of reading ability, encounter and engage with the same complex texts. Instead of providing lower-level texts and lower learning expectations for some students, lessons support students who read below grade level. By engaging all students in shared learning with the same rigorous texts, <i>Wit &amp; Wisdom</i> promotes equity. The program supports all students with instruction in content and vocabulary. <i>Wit &amp; Wisdom</i> promotes different paths to the same shared learning goals.</p> <p>School–home connections can also support equity. <i>Wit &amp; Wisdom</i> provides Parent Tip Sheets to involve families in students’ learning. See the Parent Tip Sheets in the Student Edition (print) or as downloadable PDFs in the Teacher Resource Pack (digital).</p>
b. Curricular materials provide <b>scaffolds and instructional supports</b> for striving readers—those performing below grade level and English learners.	✓		<p><i>Wit &amp; Wisdom’s</i> learning design supports all students with deliberate sequencing, predictable structures, content in varied forms, scaffolds, a focus on vocabulary, and intentional instructional routines for learning.</p> <ul style="list-style-type: none"> <li>▪ Text-dependent questions and Content Stages focus all students on key terms, phrases, and passages for rereading and repeated exploration to deepen comprehension.</li> <li>▪ Varied texts, including visual, audio, and digital texts—as well as the program’s focus on visual arts—offer text entry points for all students to explore module content and ideas.</li> <li>▪ Alternative Activity, Scaffold, Differentiation, and Extension ideas are provided in each lesson.</li> <li>▪ Suggestions for Scaffolds, such as sentence frames for writing or speaking, are embedded at the point of use.</li> <li>▪ Explicit vocabulary and grammar instruction, including a focus on morphology, provides all students with a shared foundation to support deeper learning.</li> <li>▪ Instruction integrates spoken and written English instruction with content-area knowledge building in literature, history/social studies, science, and the arts.</li> <li>▪ Ongoing, sequential, explicit writing instruction is based on text exemplars that model key elements of craft.</li> <li>▪ Partner work and routines like Think–Pair–Share include oral practice of written responses.</li> </ul> <p><b>Examples</b> See Grade K Module 4 Lesson 9 to observe how a Wonder lesson scaffolds students’ first experience with a new book. The following elements support students:</p> <ul style="list-style-type: none"> <li>▪ The Think–Pair–Share routine gives students a chance to rehearse their thinking with a partner.</li> <li>▪ A sentence frame, I notice _____, gives young learners a structure for sharing.</li> <li>▪ The chance to question a text encourages curiosity.</li> <li>▪ Recording students’ questions validates their thinking and gives them a purpose for rereading.</li> </ul> <p>Grade 4 Module 3 Lesson 25 offers a reminder to scaffold the task of finding evidence for striving readers by providing page numbers or paragraphs for them to target in their search. c. Curricular materials provide <b>opportunities for extension</b> to meet the needs of all students, including above-grade-level advanced learners.	✓		<p>With <i>Wit &amp; Wisdom</i>'s rigor and emphasis on deep knowledge of high-interest topics, the curriculum meets the needs of advanced students. Additionally, teachers can</p> <ul style="list-style-type: none"> <li>take advantage of the numerous extension opportunities embedded in lessons;</li> <li>act on the embedded differentiation suggestions, which often suggest ways to increase challenge; and</li> <li>assign students additional challenging texts from the Volume of Reading list.</li> </ul> <p><b>Examples</b> Here are two of the many examples of Extensions throughout <i>Wit &amp; Wisdom</i>:</p> <ul style="list-style-type: none"> <li>Grade K Module 4 Lesson 34 includes an Extension suggestion that pairs can take turns sharing and engaging in peer review of their End-of-Module Task responses.</li> <li>Grade 4 Module 3 Lesson 25 offers an Extension idea in the final Learn section for a research topic and question that stems from the lesson's text.</li> </ul>
<b>13. Assessment</b>	<b>Yes</b>	<b>No</b>	<b><i>Wit &amp; Wisdom</i> Alignment and Program Examples</b>
Curricular materials include <b>frequent and varied assessments</b> that provide information to guide teachers and students.	✓		<p>In <i>Wit &amp; Wisdom</i>, assessment occurs in every lesson; major assessments, which can be used for formative purposes, are embedded in every module. Assessments tie to module and lesson content and standards and build to a culminating performance task. All <i>Wit &amp; Wisdom</i> modules provide the following assessments:</p> <ul style="list-style-type: none"> <li>Focusing Question Tasks—formative, performance-based tasks in which students synthesize evidence and knowledge they have gained during an arc of lessons and respond in a variety of writing, research, or presentation forms</li> <li>End-of-Module Tasks—summative, performance-based tasks in which students synthesize evidence and knowledge they have gained throughout a module and respond in a variety of writing, research, or presentation forms</li> <li>New-Read Assessments—selected- and constructed-response item sets that test students' ability to transfer reading and vocabulary skills to an unfamiliar text connected to the module's topic</li> <li>Socratic Seminars—formal, student-led discussions in which students synthesize and reflect on knowledge they have gained from an arc of instruction and apply speaking and listening skills</li> <li>Checks for Understanding—lesson-level assessments aligned with standards that offer a quick, informal check on student learning (Checks for Understanding take many forms, including Exit Tickets, graphic organizers, and Quick Writes.)</li> <li>Vocabulary Assessments—short-response checks to quickly test word knowledge students gain throughout the module</li> </ul>

			<p>Each module’s Appendix C offers tools for teachers to evaluate student work, including sample responses, answer keys, and rubrics for writing and for speaking and listening.</p> <p>Additional assessment resources include Standards Trackers for Grades K–1 and Question Sets for Grades 2–8. Standards Trackers help teachers monitor student progress on the reading Focus Standards. Question Sets help teachers monitor students’ reading comprehension and progress on targeted standards and help prepare students for standardized tests.</p> <p><b>Examples</b> For examples, see the Major Assessments section of the Module Overview. <b>14. Organization and Usability</b>	<b>Yes</b>	<b>No</b>	<b><i>Wit &amp; Wisdom</i> Alignment and Program Examples</b>
a. Curricular content provides instruction for a <b>full academic year</b> .	✓		<p><i>Wit &amp; Wisdom</i> includes four modules, Modules 1–4, at each grade level, as well as the introductory Module 0, for Grades K–2, 3–5, and 6–8. Grade-level modules have 30–38 lessons; Module 0 has 6 lessons.</p> <p><i>Wit &amp; Wisdom</i> provides approximately 145–150 days of classroom instruction, allowing educators to flexibly plan their instructional calendars while meeting local needs. Because the program includes 75-minute core daily lessons and 15-minute Deep Dives, schools with fewer than 90 minutes allotted daily to English language arts can extend lessons across multiple days.</p> <p>To support pacing, the Module Map in the Module Overview provides a basic pacing calendar for the module that includes each lesson’s goals and texts. Each lesson includes time frame suggestions for each student activity; scaffolding may take additional time.</p>

**MAD RIVER LOCAL SCHOOLS, RIVERSIDE, OHIO**

# Early Adopter Continues to Make Progress with *Wit & Wisdom*®

Mad River Local Schools was one of the first districts to adopt *Wit & Wisdom*®, the English language arts curriculum from Great Minds®. Now in its third year of implementation in all of its schools, Mad River continues to succeed with *Wit & Wisdom*. Proficiency scores on the Ohio state test continue to rise in all but one grade.

**Percentage of students scoring proficient or above, Ohio's state test in ELA**

This story updates a previous [article](#) on Mad River, published in March 2019, featuring teacher voices. For more about Mad River's experience, read this CenterPoint [article](#), coauthored by Amy Holbrook, Becky Parker, and Mandy Polen. Or watch this [video](#).

**DISTRICT PROFILE**  
 1,600 students in Kindergarten through Grade 8  
 Adopted *Wit & Wisdom*® in School Year 2017-2018

District leaders cite three keys to their success: belief that all children can learn at high levels, strong support from colleagues inside and outside the district, and hard work.

“Everybody from the top down has to be committed to the proposition that, as Great Minds says, every child is capable of greatness—the belief that all kids can handle the challenging material and deserve it. And that when you begin to doubt, which is inevitable for classroom teachers, you want administrators and others reminding you that the students can do this,” says Instructional Coach Becky Parker.

Her colleague Mandy Polen adds: “For teachers, this work is a journey, a huge shift from how they previously taught. This and other knowledge-building curricula are challenging to implement. As educators, we need to acknowledge and be okay with that.”

She quickly notes, “It’s hard work worth doing.”

Both instructional coaches underscore the value of having extensive support. Mad River benefited from having three Great Minds *Wit & Wisdom* summer associates in 2019: Polen, Parker, and Ashley Wittmer. (Summer associates deliver professional development during the summer, sharing their expertise, experiences, and best practices with fellow *Wit & Wisdom* teachers around the country.) That experience helped district educators offer deep professional development to their colleagues, including teachers of English learners and speech teachers, in the summer and fall.

### EXTENSIVE PROFESSIONAL DEVELOPMENT

Key offerings focused on launching lessons, writing, and helping new and veteran teachers better understand the importance of having a language arts curriculum that explicitly builds student knowledge. Professional days throughout the school year help teachers customize lessons and deliberately help their students do more of the “heavy lifting” required to learn in class.

Some 30 student teachers also participated in Mad River’s *Wit & Wisdom* training this year. “Ed schools aren’t typically preparing graduates to teach this level of rigor,” says Polen.

Grade 1 and Grade 2 teachers continue to focus on learning to use *Geodes*<sup>™</sup>, the Great Minds library of wonderfully rich books for budding readers that couple specific decoding strategies with content and vocabulary knowledge. “Before, students weren’t really decoding words; they were memorizing the pictures. With *Geodes*, they can use the texts to practice decoding. It’s a great bridge between *Wilson Foundations*<sup>®</sup>, a foundational reading program for Grades K through 3, and *Wit & Wisdom*,” says Parker.

Polen, Parker, and their colleagues also benefit from having supportive networks outside the district, especially on Twitter. “A lot of school districts are implementing *Wit & Wisdom* now,” says Parker. “There are always implementation challenges, and all of us are using Twitter to connect with so many educators across the country.”

Mad River educators are especially pleased that Cincinnati Public Schools and some schools in Cleveland are now using the curriculum. The educators praised Great Minds for promoting such connections and for the increased implementation support being provided. “We have to be in this together,” Parker says.

### NATALIE WEXLER PROFILES MAD RIVER

Natalie Wexler’s recent book on literacy, *The Knowledge Gap: The Hidden Cause of America’s Broken Education System—and How to Fix It*, profiles the success educator Sarah Webb and her Mad River colleagues have had in using *Wit & Wisdom*. One excerpt describes the experience of a student named Matt.

*“Matt was a sweet, blond kid from a military family who had been in a different school every year since kindergarten. At the beginning of the year, Matt’s mother took Webb aside and confessed she was worried about his reading. He was one of those kids, Webb says, who thought he was ‘in the dumb group.’ But it turned out that Matt was keenly interested in everything the class was studying. During the ‘great heart’ module, Matt wrote an entire paragraph about Clara Barton—more than he’d ever written before—which he proudly read to his parents.*”

*He soon became a leader, participating eagerly in discussions. Webb found him delightful, and his mother said she'd never seen him so enthusiastic about school. At the end of the year, Matt wrote Webb a thank-you note telling her reading was 'not a struggle anymore.'*

*"How much of that, I ask her, was because of you as a teacher, and how much was because of the curriculum?"*

*"Some of it was me," she admits. "I love reading. But for him, it was also the exciting topics, the challenging books, being pushed to all this thinking. Instead of just, 'You're a level L.'"*

*Wexler notes that a transformation from a focus on comprehension skills and reading levels to content and knowledge from texts is gradually underway in schools nationwide.*

*She concludes: "And for the millions of kids across the country like Matt, who are only waiting for someone to actually teach them something in order to unlock their potential, it's about time."*

## Knowledge-building books for our earliest readers

Great Minds® and Wilson Language Training have collaborated to create a new collection of accessible, knowledge-building books for emerging and developing readers. They are Readables, a unique type of text in which specific decoding strategies are coupled with content and vocabulary knowledge, resulting in wonderfully rich books for budding readers.

Called *Geodes*®, these books combine carefully selected words with highly engaging topics to create an authentic reading experience, empowering students to apply decoding skills while building knowledge about important ideas.

*Geodes*, on the outside, appear too small and unassuming to contain the surprisingly rich and complex knowledge readers find inside. Rooted in the belief that children are capable of reading to learn while learning to read, *Geodes* are crafted with three foundational principles in mind.

## GEODES ARE ACCESSIBLE

Designed to be highly readable for emerging and developing readers, each book is at least 80 percent decodable as aligned with the scope and sequence of Wilson Foundations®—a structured reading and spelling curriculum. However, *Geodes* work well with any systematic phonics program.

*Geodes* differ from the text types currently on the market. Traditional decodable texts aim to be approximately 95 percent decodable. This design often limits students' opportunities to develop knowledge and comprehension. Leveled texts are books broadly controlled without regard to a student's current phonetic knowledge, as aligned with a specific structured program. While leveled texts are controlled for elements such as length and sentence complexity, they do not promote the direct application of phonetic learning. In contrast to decodables and leveled texts, *Geodes* offer young readers reliable practice with phonetic concepts and sight words, while building their knowledge of the world.

## GEODES ENGAGE READERS

*Geodes* honor the natural curiosity of children by providing authentic reading experiences. As students engage with compelling literary and informational books, they build good reading habits that will last a lifetime. A variety of genres and perspectives offer students a range of entry points into each topic and develop their curiosity and motivation. Beautiful illustrations and photographs enrich and expand on the text—which gradually integrates newly learned phonetic concepts, allowing sentences to retain a natural flow.

## GEODES BUILD KNOWLEDGE

As they read *Geodes*, students travel around the world and through time, encountering real people and groups, a range of cultural practices and traditions, and examples of how humans interact with their environments. Grounded in the content of Wit & Wisdom®, the Great Minds English language arts curriculum, each module includes 16 grade-level-appropriate books on one engaging subject. Students experience the joy of building deep knowledge and vocabulary, connecting ideas across texts as they read books on science, history, and the arts. Taking seriously the responsibility to accurately represent people, places, and events, writers and artists thoroughly researched each book and consulted expert reviewers as needed.

*Geodes* are currently available for Levels 1 and 2, with 64 unique titles for reading practice at each level. Level K texts will be available for the 2020–2021 school year.

In addition to the texts, the *Geodes* library offers resources to enhance and extend student learning. Students can practice outside the classroom with My *Geodes*™, take-home books printed in grayscale. The teacher resource, Inside *Geodes*™, offers concrete suggestions for incorporating *Geodes* into existing literacy instruction.

# A New Approach to Early Literacy

## What Are *Geodes*?

*Geodes*® are accessible, knowledge-building books for emerging and developing readers. Each book in the collection is designed to cultivate a deep reading experience, enabling students to apply decoding skills while building knowledge about important topics in history, science, and the arts. The books are Readables, a new type of text that couples specific decoding strategies with content and vocabulary knowledge, resulting in wonderfully accessible yet rich books for budding readers.

Developed by Great Minds® and Wilson Language Training®, *Geodes* combine carefully selected language with highly engaging content. Phonetic concepts and sight words are gradually incorporated into the text, as sequenced in Foundations®, a structured reading and spelling program.

### ACCESSIBILITY

*Geodes* are designed to be highly accessible for young and developing readers. The text in each book is at least 80 percent decodable, as aligned with the scope and sequence of Foundations® units.

### KNOWLEDGE

*Geodes* build depth of knowledge by exploring connected topics across multiple books. They align with the content of *Wit & Wisdom*®, a K–8 English language arts curriculum from Great Minds. Each module of 16 books is built around a compelling subject.

### ENGAGEMENT

The language and images in *Geodes* invite continued study. Talented authors and illustrators write and illustrate the unique books. Students engage with varied text structures and design formats.

## Books That Inspire and Fascinate

Unlike traditional decodables, which focus solely on the application of sound-spelling patterns, Readables allow students to practice language while building and extending knowledge and vocabulary.

### GEODES

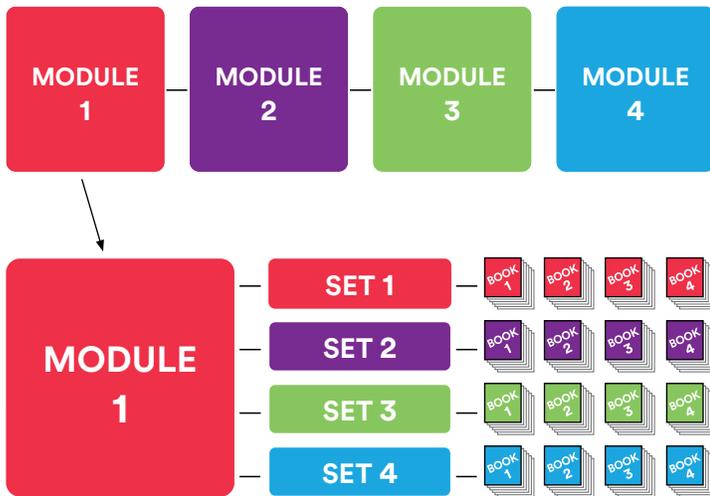

- Each level contains 64 informational and literary texts organized into four modules.
- Each module has four sets of books. Sets include six full-color copies of each of the four books for classroom use and 20 gray scale copies.
- Books include decodable and recognizable words, including previously taught and newly taught phonetic concepts.
- Each module covers topics from many content areas to build rich knowledge and vocabulary.

### MY GEODES TAKE HOME BOOKS

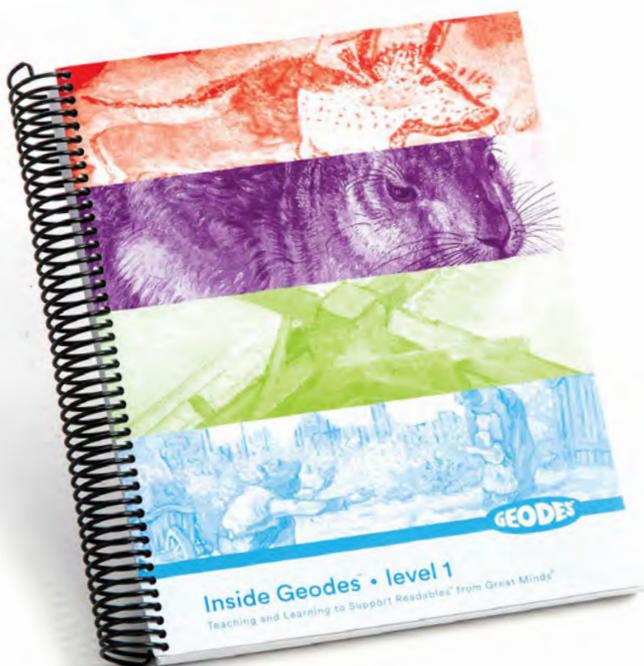

Four *My Geodes*<sup>™</sup> books accompany every module. Each one is a bound collection of the four Readables that make up one text set. Students can use these texts, printed in gray scale, for extra fluency practice in school or at home.

### GEODES CLASSROOM KIT

Each classroom kit includes the following:

- 64 unique books
- 6 copies of each title (384 total)
- 20 copies each of the 16 *My Geodes*<sup>™</sup> sets (320 total)
- 1 *Inside Geodes*<sup>™</sup> Teacher Resource
- 1 natural geode

### INSIDE GEODES TEACHER RESOURCE

*Inside Geodes*, a teacher resource, includes a comprehensive introduction to the module's design and components. It provides suggestions for incorporating *Geodes* into the teacher's literacy instruction.

# Research in Action

*Geodes* help teachers put research-based best practices into action.

## RESEARCH SAYS

“Indeed, unconstrained skills such as vocabulary and comprehension develop before, during, and after constrained skills are mastered so there is no evidence to warrant instructional priority of constrained skills over unconstrained skills” (Paris 200).

“Unconstrained skills are particularly important for children’s long-term literacy success (that is, success in outcomes measured after third grade)” (Snow and Matthews 59).

“Although there seems to be a consensus among reading educators that meaning is ultimately the most important knowledge a reader can have about the printed word, most reading curricula have postponed an emphasis on word meaning in favor of an extended period of emphasis on word pronunciation, whether by sight-word recognition or decoding” (Mesmer et al. 248).

## STUDENTS NEED

In the early grades, students need instruction in constrained skills, such as letter naming, phonics, and concepts of print, as well as unconstrained skills, such as vocabulary and comprehension. Additional unconstrained skills include recognizing story structure, gaining topic-specific knowledge, and knowing how to seek new information. Postponing instruction in unconstrained skills could hinder rather than help students.

## GEODES RESPOND

*Geodes* allow students to practice constrained and unconstrained skills in tandem, rather than decoding isolated from comprehension. Through reading *Geodes*, with teacher support students learn that the purpose of reading is not just to decode but to seek meaning and gain understanding.

Illustration from *Ride the Storm*

*Geodes* Level 1 Module 3: *Powerful Forces*

## RESEARCH SAYS

“Comprehension requires both a broad vocabulary and factual knowledge” (Willingham).

“When students have more content knowledge before they read, their understanding is better during reading” (Arya et al. qtd. in Lupo et al. 435).

“Readings and activities should be designed to build on one another and create a coherent body of knowledge” (Liben and Liben 5).

“If 70% of word types are nondecodable singletons, with only 20% repeated two to five times, how are first graders expected to bootstrap letter-sound knowledge?” (Hiebert qtd. in Foorman et al. 191)

By learning words that appear frequently in a variety of texts, students are more likely to learn words from context as they read independently (Nagy et al.; Cunningham and Stanovich; Baker et al.; Beck et al.; Moats; Biemiller).

Evidence shows that three word features influence the speed with which student recognize and learn words: meaningfulness, frequency, and grapho-phonemic-morphemic structures (Laxon et al; Leslie and Calhoun; Martinet et al.).

### STUDENTS NEED

Students must read books with rich content to build the knowledge necessary to make the connections that lead to comprehension. This new knowledge nurtures future comprehension.

Students must read new words multiple times in multiple contexts to build recognition and understanding. This practice helps students build their decoding skills and word knowledge.

Students need to develop a meaningful, rich vocabulary to support comprehension.

### GEODES RESPOND

Each *Geodes* module focuses on one topic, such as *A World of Books*, with four text sets expanding on that topic. This module design supports students in building content knowledge. Students use their new knowledge to boost their comprehension of the next book in the set.

The majority of *Geodes* are 80 percent\* decodable or higher. Most nondecodable words in each book were selected to support the content knowledge.

*Geodes* incorporate a set of 10 to 13 carefully selected Recurring Content Words throughout the books in each module. These Recurring Content Words bolster students' background knowledge and ensure that students have multiple opportunities to read these words in context.

\* While the majority of *Geodes* are 80 percent decodable or above, Read Along books include a higher number of words that students may not yet know how to read. In Modules 1–3, 1 out of each 16 books is a Read Along. Students with very low decoding skills may listen without attempting to track so they can focus on the meaning of the text.

## RESEARCH SAYS

“One important implication for practice is that educators should be alert to the possibility that first-grade students of today might be facing more demands than ever in core reading program exposure. If our findings are borne out in further studies, educators might make a concerted effort to supplement core reading programs with additional texts that provide considerable repetition of word meanings, sight words, and core orthographic patterns (in meaningful contexts)” (Fitzgerald et al. 25).

Students may better anticipate what an unknown word might be if they can read previous words. Furthermore, students might better anticipate a word if they have an understanding of a passage. Their comprehension helps them to anticipate an upcoming word (Wood et al.).

### STUDENTS NEED

To read a book successfully, students need a range of text-based supports. Reading books that include repeated words and practice with sight words and learned phonetic concepts can improve students' decoding and comprehension.

### GEODES RESPOND

*Geodes* are designed to support students' decoding. When possible, nondecodable words are surrounded by clusters of decodable words to ease students' cognitive load and increase accessibility. Additionally, when possible, nondecodable words are placed near the end of sentences.

Sentence and line lengths are carefully planned to help students build reading stamina. Average sentence length increases gradually over the four modules, and line breaks are strategically constructed to be fluency friendly. Line breaks in early modules were determined based on grouping words for meaning as well as where readers would naturally pause. In later modules students begin to read paragraphs without the line-break scaffold.

# Teach with Geodes

## ANNOTATED MODULE OVERVIEW

*Geodes* help educators reach a range of learners, including English learners and students with IEPs. Through thoughtfully selected content, engaging visual art, and explicit support of vocabulary development, students read to learn while learning to read.

Literary

**Fundations**® Focus Concept: CVC Words  
80% Decodable at Foundations® Level 1, Unit 3  
81% Decodable with Recurring Content Words

**Book Summary**

Anansi, a mischievous spider of West African folktales, agrees to help his Nana in her garden in exchange for a delicious pot of beans. Unable to wait for the beans to cook, Anansi leaves his work to steal a taste, using his hat as a bowl. Hearing Nana, he throws his hat on top of his head and races out the door. In the end, the trick is on Anansi when the hot beans burn off his hair.

**Teacher Note**

Consider modeling how to read the names of the main characters, Anansi and Nana. Students may benefit from practice with these names.

**World Connection**

There is evidence that this trickster tale originated in Ghana, a country in western Africa.

Teachable Moments
<p><b>Fluency   Reading Italics</b></p> <p>Books use italics, or slanted print, to draw attention to certain words. Fluent readers often change their voices or expression when they read words in italics. There are examples of italicized text in both the book and the teaser on the back cover.</p> <p>Read italicized sentences, adding the intended emphasis for fluency. Repeat the reading with students joining in, and then release them to read with a partner.</p>
<p><b>Text Structure   Identifying the Narrator</b></p> <p>A narrator tells a story. Sometimes the narrator is a character in the story, but not always.</p> <p>Ask: "Who is telling the story in <i>Anansi and the Pot of Beans</i>?"</p> <p>Encourage students to return to the book to support their thinking with details.</p>

Creates opportunities to record learning and boost writing fluency through a variety of responses, including dictating, drawing, or writing

## BOOK FEATURES

*Geodes* engage students before, during, and after reading. The books support student application of decoding and word recognition skills, build knowledge, and promote independent reading.

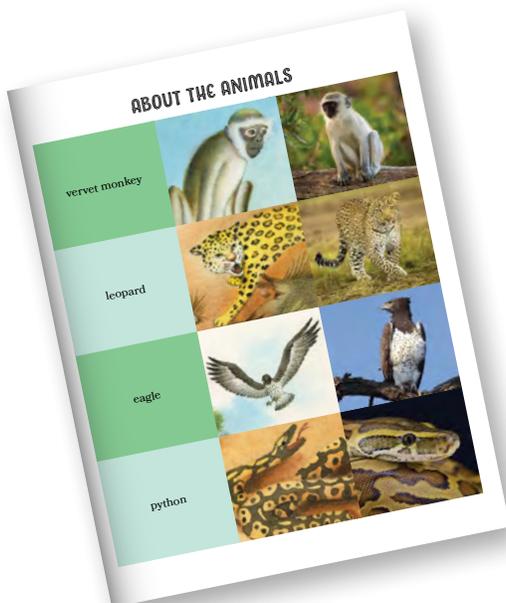

The Teaser on the back cover offers a preview of the book and highlights an excerpt from the text, and features a question to develop student curiosity.

The More section is a short, informational selection that extends and enhances the information in *Geodes*. Designed to be read aloud by a caregiver or teacher, this section provides opportunities for further exploration and conversation.

*Geodes* include a variety of text features to support comprehension and expand on ideas in the text. Features such as headings, diagrams, and captions support students as they read.

Some books include a special reference feature on the last page of the text, which is designed to broaden student learning.

# Enhance and Extend Knowledge

Readables offer options for enriching students' learning experiences beyond decoding practice. Students intrigued by a particular *Geodes* topic can extend their learning through books with related content at the library.

## GEODES FLASH CARDS

*Geodes* flash cards help students practice Recurring Content Words as they are introduced in each module. Each word is matched with a visual cue to help students better understand the meaning of the word.

## FAMILY TIP SHEETS

*Geodes* Family Tip Sheets are designed to engage parents and caregivers in the books and spark knowledge-rich conversations at home. Family Tip Sheets include an overview of module content, a list of all the texts students read in the module, sample questions to ask, and Foundations® Focus Concepts.

**GEODES**

### Family Tip Sheet

**MODULE 1: A WORLD OF BOOKS**

Students read *Geodes* to practice their independent reading skills. Although your student may not be able to read all the words in each book yet, encourage your student to read as much as possible. These books build knowledge of topics in science, history, and the arts.

In this module, students explore the power of books shared across time and cultures.

**OUR CLASS WILL READ THESE BOOKS**

**Set 1: Sharing Stories**

These books explore the art of storytelling.

- *Anansi and the Pot of Beans*
- *The Story in the Case*
- *The Magical Stock*
- *The Brothers Grimm*

**Set 2: Unusual Libraries**

These books examine libraries from diverse cultures, places, and times.

- *Library Cat*
- *The Story Ship*
- *A Library of Our Own*
- *The Library of Fez*

**Set 3: Bringing Books to Life**

These books investigate how illustrators add beauty and meaning to texts.

- *Just in Time*
- *Find by Art: The Work of Leo Lionni*
- *Jerry Drawn*
- *An Illustrator at Work*

Geodes® Family Tip Sheet

**Set 4: Books for All**

These books celebrate how innovation increases access to books.

- *How to Make Paper*
- *The Printing Press*
- *The Story of Louis Braille*
- *A Library to Go*

**CONSIDER ASKING THESE QUESTIONS AT HOME**

- What is something in this book that surprised you?
- What is something new you learned from this book?
- After reading this book, what would you like to learn more about?
- Point to your favorite illustration or photograph. Why is it your favorite?

**THESE FOUNDATIONS® FOCUS CONCEPTS APPEAR IN THE BOOKS**

**Consonant-Vowel-Consonant words with three sounds, including digraphs (wh, ck, sh, th, ck), all, am, an, and suffix -s.**  
Examples include all, big, cat, Dan, had, not, tell, when, will, wish.

**THESE FOUNDATIONS® TRICK WORDS APPEAR IN THE BOOKS**

## THE MISSION

Identify a high quality instructional resource that aligns with the high expectations of the **Michigan K-5 standards for English Language Arts**, the **Essential Instructional Practices for Literacy**, and the **FPS Mission & Vision**. The adopted HQIM will support teachers in providing equitable and innovative learning experiences through **positioning** and **authentic tasks** that promote our **Profile of a Lifelong Learner**.

\*The following criteria were developed with the above mission in mind, with the added goal of selecting an ELA resource that promotes growing students' general knowledge of the world so they have a trove of knowledge to reference when they read, write, and present.

## 1: ACCESS TO GRADE LEVEL COMPLEX TEXT THROUGH CLOSE READING

- Curriculum includes regular communal practice for all students with high-quality, grade-level complex texts that anchor each unit. In K-2, interactive read-alouds that are two to three years above what children are able to read themselves are a staple. Read-alouds are interactive with specific instructional goals.
- Curriculum provides repeated encounters with challenging, content-rich complex text to allow students to grapple with high-quality, text-specific questions and build their understanding.
- Culminating assignments reflect what is essential for students to learn from the text(s), including the information contained within them; offer practice using more sophisticated vocabulary; and address several grade-level (or above) standards.
- Participation strategies and discussion are intentionally embedded within each close reading lesson to keep students actively engaged in the text.

## 2: INTENTIONAL INSTRUCTION OF ACADEMIC VOCABULARY

- Curriculum includes intentional vocabulary instruction and practice with academic and domain-specific words found in complex text and related to the topic of study.
- Words chosen for extended study in context are generally 1) essential to understanding, 2) more abstract, 3) part of a semantic word family (words related by meaning or concept), and 4) likely to appear in other complex texts students will read.
- Curriculum revisits newly learned words and phrases in multiple contexts, including encouraging students to use them in their discussions and speaking and writing activities.

### 3: INTENTIONAL USE OF TEXT SETS TO BUILD KNOWLEDGE ABOUT TOPICS

- Curriculum is intentionally designed to give students grounding in a diverse range of topics in history, social studies, science, the arts, and literature by providing enough time (at least two to three weeks) to explore topics to allow for knowledge and vocabulary growth.
- Curriculum provides a series of conceptually coherent text sets organized around topics of study, with less-complex texts supporting access to more-complex texts to build knowledge.
- Curriculum expects students to regularly engage in a volume of choice reading related to the topics being studied. The curriculum includes scaffolds and structures, including lightweight student accountability (e.g., book talks, journals) to foster productive use of the reading time.
- Texts provide opportunities for teaching text structures (for example, sequence, comparison, contrast, and cause/effect) and text features to support comprehension and careful reading of narrative and informational text.

### 4: DISCOURSE AROUND TEXTS IS AN INTEGRAL PART OF LESSONS

- The curriculum provides guidance on engaging learners in productive and sustained academic discussions through thought-provoking questions that develop both a literal and deep understanding of the texts and content being studied, including cultivating students' abstract reasoning and analytical thinking. When students answer questions, they are consistently required to provide evidence for their responses.
- Collaboration and peer-to-peer discussion is part and parcel of the curriculum, which establishes a relevance for the learning and seeks to build a community that processes, understands, and interprets content together.
- Explicit instruction of speaking & listening skills is intentionally embedded throughout lessons, with regular opportunities for students to practice and reflect on these skills.

## 5: INTEGRATED WRITING INSTRUCTION

- Curriculum includes frequent writing opportunities that are evidence-based and anchored in the content students are studying to extend and solidify their learning. Writing also includes regular use of short, focused research projects with teacher support appropriate to the grade level, again anchored in the assigned content.
- Curriculum includes integrated and connected writing assignments that vary in purpose, audience, length and duration, and address all three text types including narrative, informational and opinion writing.
- Curriculum includes explicit instruction in the fundamentals of writing, including sentence construction and the planning, drafting, and writing of paragraphs and essays, as well as grammar and usage instruction in the context of students' writing. This includes explicit instruction on how to convey knowledge through specific text genres and features.

## 6: SUPPORTING ALL STUDENTS

- Curriculum provides the means to ensure all students work with and can meet grade-level standards. The curriculum provides both the systematic guidance and resources required for building in time and support for students reading below grade level, and/or students learning English, so that they can access the text and learn alongside peers.
- Curriculum includes strong representation of authors and illustrators of color in the texts children read, abundant opportunities to read how people from a range of historically underrepresented social groups have contributed to knowledge, and guidance on how to implement the curriculum in a manner that promotes equity and elevates student assets.
- Curriculum provides a range of supports designed to address results from informal and more formal assessments (gathered from observations, assignments, and test questions), and promotes timely and concrete feedback to students.

## 7: TEACHER USABILITY

- Curriculum is purposeful in its design, including many regular, predictable instructional routines that teachers and students can rely on from the moment the new program is enacted.
- Curriculum is designed not only to advance student learning but also to help educators understand the “why” of included approaches and components. It incorporates explanations to support teachers in effective implementation). Examples might include:
  - Explanations of how program elements facilitate student learning;
  - Sample student responses;
  - Tips for effective feedback;
  - Models of exemplary practice; and
  - Discussions of why suggested pedagogical moves are useful.
- Teacher-facing materials are clear and concrete about what program elements are essential for the core instruction and which are “nice to have” additional dimensions.
- Curriculum includes embedded formative and summative assessments that provide teachers with the information they need to scaffold & differentiate as needed to effectively support all students.
- The daily amount of time required aligns the FPS recommended ELA instructional minutes (135-150 minutes).
- The amount of required teacher planning and preparation is feasible.
- The digital resources and tools that are provided support and enrich the teaching and learning experience.
- Curriculum includes resources to support school-to-home communication with caregivers.

## 8. POSITIONING

We craft learning environments that position each and every learner to be engaged in a way that they are invited into the learning, their thoughts are valued and they know they are confident and competent to do the learning.

- |  |
|--|
| • Participation structures and strategies are purposefully embedded in the design of lessons |
| • Ideas and perspectives are shared (made visible) and honored by and between students.      |
| • Students have regular opportunities to reflect on and show their learning in various ways. |

## 9. AUTHENTIC TASKS

We design authentic learning opportunities that provide each and every learner the opportunity to learn higher-level thinking and problem solving skills as well as knowledge of the world and people alongside their own passions and interests.

- |  |
|--|
| • Learning is connected to real-world (current and historical) problems, contexts, perspectives, or phenomena. |
| • Tasks and the thinking students are doing are representative of the subject area (or discipline).            |
| • Students' ideas, experiences, passions, and interests fuel the learning.                                     |

## 10. FPS LEARNER PROFILE

### **Compassionate Community Member**

FPS learners are compassionate community members who welcome the unique contribution of each individual, value the strength and power of community, and participate to create a positive and authentic impact in the community—personal, local, and global.

### **Resilient Problem Solver**

FPS learners are resilient problem solvers who are empowered to persevere in their quest for solutions to problems and/or questions. Learners consider multiple perspectives, solicit and respond to feedback, identify the best solution for the situation, and navigate their own problem-solving pathway.

### **Empowered Collaborator**

FPS learners give their best efforts while engaging in a productive exchange of ideas in working toward a common goal. Learners provide and receive respectful feedback, contribute their talents, thoughts, and opinions while respecting those of others, and develop effective ways of working together.

### **Strategic Communicator**

FPS learners are able to use communication as a way to build understanding and form relationships. Learners are active listeners, consider the needs of their audience, and use a variety of methods to express ideas effectively. Learners are open to others' perspectives and ideas as they engage in civil discourse.

### **Self-Actualizer**

FPS learners are in control of their educational pathway and their future. Learners set and strive toward goals based on self-awareness of strengths, interests, talents, and opportunities for growth. Using a growth mindset, they demonstrate self-compassion and self-acceptance as they become lifelong learners.

RE: 2020 Bond - Contract Award Recommendation for Construction Bids  
Bid Pack #12 – Farmington STEAM Academy Fire Alarm System Update

Dear Mr. Barth:

This letter transmits an update from Plante Moran Realpoint (PMR) as it relates to the assignment to assist and advise Farmington Public Schools (FPS) in its selection of a Prime Contractor for the 2020 Bond Project listed above. This update represents the mutual efforts of PMR, Wakely Associates, Peter Basso & Associates, McCarthy & Smith and FPS administration and staff (Project Team) to present a framework in order to identify, evaluate and recommend a Prime Contractor for this Project.

A review of the existing fire alarm system was conducted during the Summer of 2023 during Bid Pack #7 work and it was determined that an update to the system was appropriate and needed. Utilizing Owner Contingency funds, a budget was established for this project and design work was completed. The scope of work includes removal of the existing 7000 Series fire alarm system (including signaling and initiation devices). New devices will connect to an existing 901 Series fire alarm panel. The updated system will be addressable with voice evacuation and visual devices.

On December 7, 2023, an advertisement for bids was posted to the required State of Michigan website. In addition, the advertisement was posted to the District's website as well as a local newspaper. Construction Documents and Specifications were formally issued and made available to interested bidders via web-based portals.

Relative to Bid Pack #12 – Farmington STEAM Academy Fire Alarm System Update, four (4) bid proposals were received and publicly opened on January 11, 2024. During the next several days, bid proposals were reviewed to determine the scope, schedule, budget, and other financial implications. An interview was held with the recommended bidder and was attended by various members of the Project Team.

Upon completion of the interviews, and after subsequent clarifications and discussions, the Project Team is recommending the firm listed in McCarthy & Smith's Award Recommendation Letter for Bid Pack #12 – Farmington STEAM Academy Fire Alarm System Update for contract award.

Including hard construction of \$279,211.00 and construction contingency of \$27,921.00, this Project award recommendation equals \$307,132.00.

For the Prime Contractor, the cost for the Work will be detailed in AIA Contract A132 – 2019 Standard Form of Agreement between Owner and Contractor, as modified pending final review and approval of terms by district legal counsel.

The recommendation for this Project is within the overall 2020 bond budget and will not alter bond dollars currently allocated to future projects. The recommendation for this bid package is over budget and the overage will be funded with available bid savings accumulated from prior award of Bid Packages 1 thru 11.

The work is planned to start on 2<sup>nd</sup> shift in Spring 2024 and will transition to 1<sup>st</sup> shift during the summer recess. All work will be completed prior to the start of the 2024-2025 school year.

The Project Team is available at the Board's convenience to answer any questions regarding bidding, the proposals, interview process, or the recommendation of the Project Team.

Sincerely,

PLANTE MORAN REALPOINT

RE: 2020 Bond Issue  
Bid Package #12 Farmington STEAM Academy Fire Alarm System Update

SUBJ: Contract Award Recommendation

Mr. Barth,

On Thursday, January 11, 2024, at 10:00 AM, sealed bids were received and publicly opened for the work pertaining to the above referenced project. In attendance at the bid opening were representatives from Farmington Public Schools, Plante Moran Realpoint, Wakely Associates, McCarthy & Smith, Inc., and interested Bidders. Bids were opened, recorded, and tabulated.

The project team has conducted a post bid interview with the following low, qualified Bidder, for the bid division of work. During the post bid interview, the project team reviewed the Contractor's qualifications, scope of work, project schedule, manpower requirements, and specified materials. Based upon the project team's review of the proposals and bidders, we propose the following company to Farmington Public Schools for contract award:

**Bid Division 143: Electrical**

## PROPOSED SCOPE

## SECTION 1104 ACCESSIBLE ROUTE

UPPER LEVEL - 7,830 SF

LOWER LEVEL - 12,345 SF

Converting the current administration building partially condition storage would alleviate the much of the required mechanical updates the building requires to function as an office building with public access. Removing all glazing (glass) the within 10'-0" of the ground with solid insulated panels would increase the buildings efficiency, privacy, and security. Removing interior finishes and partitions would increase the buildings storage capacity.

The current administration building 20,175 S.F. Each floor exceeds 3,000 S.F. triggering the requirement for an elevator between floors if the floors in business buildings. If the floors are separated from pedestrian access the need for an elevator is eliminated. Refer to excerpt of MBS Section 1104 on this page.

**1104.2 Within a site.** At least one *accessible route* shall connect *accessible buildings*, *accessible facilities*, *accessible elements* and *accessible spaces* that are on the same *site*.

### Exceptions:

1. An *accessible route* is not required between *accessible buildings*, *accessible facilities*, *accessible elements* and *accessible spaces* that have, as **the only means of access between them, a vehicular way** not providing for pedestrian access.

...omitted...

**1104.3 Connected spaces.** When a building or portion of a building is required to be *accessible*, at least one *accessible route* shall be provided to each portion of the building, to *accessible building entrances* connecting *accessible pedestrian walkways* and to the *public way*.

### Exceptions:

1. *Stories* and *mezzanines* exempted by Section 1104.4.

...omitted...

**1104.3.1 Employee work areas.** *Common use circulation paths* within *employee work areas* shall be *accessible routes*.

### Exceptions:

...omitted...

3. *Common use circulation paths*, **located within exterior employee work areas that are fully exposed to the weather,** shall not be required to be *accessible routes*.

# Central Office Renovation

## Things to Consider

1. The building is centrally located (which is perfect for a warehouse that would service the entire district).
2. It gives new life to a building that was destined for demolition, much like Farmington Community School that is now our new Visions Unlimited.
3. That a new roof was put on during our last bond.
4. That it would free up space in our schools and at our maintenance building.
5. That it eliminates current and future storage costs.

# Central Office Renovation

## Things to Consider

6. That most school districts will never have the opportunity to repurpose a building into a 21,000 square foot warehouse.
7. That the cost to build a comparable warehouse structure exceeds \$3,000,000 (current cost estimate from McCarthy and Smith).
8. That the cost to tear down central office exceeds \$500,000 due to it acting as a retaining wall, while the 2 acre property is valued at less than \$200,000 and is zoned R-1 residential (meaning that the building could not be used as a commercial property).
9. That the bond team reduced the initial estimate of \$800,000 (plus contingencies) down to less than \$600,000 (plus contingencies) by redesigning interior spaces.

RE: 2020 Bond Issue  
FPS BP #11A - BD 107 Steel Rebid

SUBJ: Rebid of Alternate #3 – Farmington High School (Steel Bid Category Only)

Dear Mrs. Kaminski,

On Tuesday, October 10, 2023, sealed bids were received and publicly opened for the work associated with Bid Package #11 and subsequently awarded at the November 21, 2023 Board of Education meeting.

It was noted during Post Bid Interviews and preparing for the Award Recommendation Package that the apparent low contractor, Wolverine Steel (Bid Division 107 Steel), did *not* submit a bid cost for Alternate #3. Thus, as part of the Award Recommendation for Bid Package #11, the Base Bid contract *was* awarded to Wolverine Steel, but Alternate #3 for this Bid Division was *not* awarded. Upon further review of the steel scope associated with this alternate, it became necessary to bid this work out.

The rebid of FPS BP #11, Bid Division 107 Steel, Alternate #3 only, is currently being rebid with bids due on January 30, 2024. Once bids are received, the same process for an award recommendation will take place. The cost of this component of Alternate #3 will be funded through the previously approved Construction Contingency (\$724,236) for the project and incorporated within the \$7,966,591 previously approved by the Board of Education on November 21, 2023.

A summary of the award recommendation for Bid Pack #11 is noted below for reference.

**FARMINGTON PUBLIC SCHOOLS  
MEMORANDUM**

**TO:** Board of Education

**FROM:** Jennifer F. Kaminski, Assistant Superintendent for Business Services

**SUBJECT:** 2023/24 1<sup>st</sup> Budget Amendment

**DATE:** January 23, 2024

Please find attached the 2023/24 first budget amendment. The General, Special Revenue - Nutrition Services Program, Capital Projects (Building and Site – 2018), Capital Projects (Building & Site -2023) and the Internal Service (Benefit Stabilization) Funds have been revised to reflect the impact of last year’s audit, contractual pay rates, staffing levels, student counts, and other known and revised budget factors. The Debt Service Fund, Special Revenue – Student Activities and Capital Projects (Building & Site -2020) have not changed and are not included.

Overall total General Fund revenues are estimated to increase by approximately \$9.1 million. The majority of our funding is derived from the per pupil foundation allocation from the State, however there are other revenue changes that contribute to the net increase in revenue.

This net increase includes:

**Local Revenue:**

- ✓ An increase of \$400,000 in interest revenue to do rising interest rates.

**State Revenue:**

- ✓ An increase in the State’s portion of the Unfunded Actuarial Accrued Liability (UAAL or section 147c – currently estimated at 16.89%) in the amount of \$2.0 million. This categorical is a flow through. This means that Farmington receives payment through the monthly School Aid status report and then Farmington is subsequently billed by MPSERS for the same amount. The District is required to charge the respective percentages on all wages through the payroll process, however, the revenue and subsequent remittance to MPSERS is based upon last year’s overall payroll cost.
- ✓ An increase in MPSERS Offset revenues of \$600,000.
- ✓ An increase in 31A At-Risk funds of \$1.7 million.
- ✓ An increase in 31aa grant funding of \$2.0 million for Mental Health and Safety and Security
- ✓ An increase in transportation funding (new categorical) of \$700,000.
- ✓ An increase in special education funds of \$500,000 due to full funding of the foundation allowance for special education students.
- ✓ An increase in other state categorical payments and state grants, on a net basis, of \$300,000.

**Interdistrict Revenue:**

- ✓ An increase of \$276,000 in PA-18 funding for one-time funds allocated from Oakland Schools.

**Federal Revenue:**

- ✓ An increase in federal grant funds of \$546,000 based upon updated grants and known information. Expenditures are always budgeted to equal revenues and therefore have no effect on the fund balance.

**Transfers and Other Transactions:**

- ✓ An increase in transfers & other transactions of \$102,000 for indirect costs from the Nutrition Services Fund.

Total expenditures are budgeted to increase by approximately \$9.5 million due to a number of factors.

Expenditure revised estimates include:

- ✓ The revised salary and benefit numbers based on actual staffing in place, current contractual obligations and increased retirement costs due to additional 147c UAAL revenue (\$2.0 million) received in the current year, which increased expenditures.
- ✓ Federal grant expenditures (federal) are \$546,000 higher than originally budgeted. Grants are budgeted as the awards are received. This increase will have no effect on fund balance as expenditures are always budgeted to equal revenues. The majority of these dollars are budgeted in the Added Needs, Pupil Services and Instructional Staff Services functional categories.
- ✓ State grant expenditures are \$4.6 million higher than originally budgeted to reflect the increase in 31A At-Risk funds, 31aa Mental Health and Safety funds and other state grants. Similar to federal grants, restricted state grant funds are budgeted for expenditures to equal revenues and therefore have no effect on fund balance.
- ✓ Increased staffing for math intervention/support at the elementary level.
- ✓ Increased staffing for additional special education classrooms and student support services.
- ✓ Increased staffing for auditorium support at both high schools.
- ✓ An increase in the per pupil building allocation resulting in increased building budgets.
- ✓ An increase for instructional materials for current year textbook adoptions.
- ✓ A decrease in intergovernmental payments due to less special education students attending county center programs in other districts.
- ✓ All other lines have been reviewed and adjusted based upon revised expenditure levels for current known factors.

The attached spreadsheet shows from a functional level (which is the presentation required by the State of Michigan) the specific differences between the revenue and expenditures from the original budget to the amended budget.

Every expenditure line on the attached statement for the General Fund shows activity. Several functions are highlighted to explain a few of the larger changes.

- Instruction, Added Needs and Pupil Services reflects current staffing in place as well as adjustments to align to current grant funding and shows a net increase mainly due to additional grant funding received for mental health, additional supports at the instructional level and an increase in special education classrooms and special education supports.
- Instructional Staff Services reflect the current staffing in place as well as adjustments to align to current grant funding.
- Transportation increased to reflect current staffing in place as well as increased contracted transportation costs and license fees.

- Central Services increased to reflect actual staffing in place as well as increased costs for technology services and record scanning.
- Athletics decreased to reflect current known staffing in place.
- Other Support Services increased to reflect actual staffing in place.
- Community Services has increased to reflect current staffing in place as well as adjustments to align to current grant funding.
- Intergovernmental payments have decreased based upon revised estimates of tuition to send our students to center programs within Oakland County.
- Building and Site Improvements has increased to align to current grant funding for safety and security.

The net result in the General Fund is an increase in estimated fund balance of approximately \$125,000 versus the originally budgeted increase of approximately \$525,000, bringing the fund balance to 20.6% of expenditures. This is due to the increase in revenue of approximately \$9.1 million and an increase in expenditures of approximately \$9.5 million.

The revised budget for the Special Revenue Fund - Nutrition Services Program reflects an adjustment for revised costs in staffing and retirement similar to the general fund. Federal revenue was increased to reflect current funding and grant opportunities available for supply chain shortages. State revenue was increased significantly to reflect the state providing funding for all students to have free breakfast and lunch during the school year. Local revenue has decreased significantly as meals are paid through state funds in the current year. Expenditures increased by approximately \$2,345,000 to reflect higher food costs, current contractual obligations for staff in place, the purchase of two new refrigerated food delivery trucks as well as additional capital projects occurring in the current year.

The revised budget for the Capital Projects Fund – Building & Site – 2018 reflects final interest revenue earned and final expenditures made for bond projects that were completed in July 2023.

The revised budget for the Capital Projects Fund – Building & Site – 2023 reflects estimated expenditures for ongoing bond projects.

The Internal Service (Benefit Stabilization) Fund has been revised to reflect the current estimate of the benefit costs based upon the plans selected by employees. The revenue budgeted for in this fund is made up of charges to the General Fund and Nutrition Services Fund for the district's net benefit cost, employees' 20-30% cost sharing contributions, cobra payments for former employees or their dependents and prescription rebates received from Blue Cross and Blue Care Network. The expenditure budget has been revised to reflect current claims costs presented for payment and premiums paid. We will review and revise this estimate for the second amendment if needed.

Thanks go to Kim Pincheck and Karla Swanson for their work on this amendment. If you have any questions, please feel free to contact me.
