# Central 301 - Back-to-School Guidance

## Summary

Over the past weeks, Central 301 has been working on back-to-school plans for the 2021-2022 school year. The district will continue to monitor and adjust operational protocols based on guidance from the Centers for Disease Control and Prevention (CDC), Illinois Department of Public Health (IDPH) and the Illinois State Board of Education (ISBE).

This guide outlines the educational plans and protocols in place for the 2021–2022 school year based on the current guidance of the CDC, IDPH, and ISBE. Due to the uncertainty of the pandemic, it is possible that the guidance of these organizations could change over the course of the school year.

The health and well-being of our students, families and staff is a top priority. For this reason, we have established layered COVID-19 prevention measures for when students and staff are in school. The remainder of this document outlines those layered precautions and protocols.

## Health & Wellness

Following guidance from the Illinois Department of Public Health, Illinois State Board of Education, and Centers for Disease Control and Prevention, Central 301 has developed health protocols to allow for a full return to in-person learning. A continued emphasis will be placed on mitigating efforts among students, staff, and visitors, which includes hand washing, ventilation, staying home when not feeling well, disinfecting high touch areas throughout the day and sanitization of buildings each evening.

The district continues to follow the guidance of the Centers for Disease Control and Prevention (CDC), which was adopted by the Illinois Department of Public Health (IDPH), and the Illinois State Board of Education (ISBE). Key elements of the CDC guidance include:

- The CDC recommends (July 27, 2021) universal indoor masking for **all** teachers, staff, students, and visitors to K-12 schools, regardless of vaccination status.
- The CDC recommends that schools maintain at least 3 feet of physical distance between students within classrooms, when possible.
- Students, teachers, and staff should stay home when they have signs of not feeling well.
- COVID-19 prevention strategies remain critical to protect people, including students, teachers, and staff especially in areas of moderate-to-high community transmission levels.
- Localities should monitor community transmission to guide decisions on the level of layered prevention strategies (e.g., physical distancing, screening testing).

### Close Contact and Confirmed COVID-19 Case Procedures

Central 301 will follow Kane County Health Department guidelines regarding isolation and quarantine. At this time, any asymptomatic, fully vaccinated individuals are not subject to contact tracing and do not need to quarantine following an exposure to a COVID-19 positive case. Within the classroom setting, any student who is masked and is 3 foot socially distanced, will not be quarantined as long as **all** students within the 3 foot social distance area are correctly masked.

- Staff members or parents of children who test positive for COVID-19 shall immediately notify Central 301 so that contact tracing can occur.
- Per Kane County Health Department, Central 301 will notify local county health officials of positive cases.
- As new guidance emerges, guidelines may change.

## Guidance for Face Coverings

- The CDC recommends indoor masking\* for all teachers, staff, students, and visitors to K-12 schools, regardless of vaccination status.
- Face coverings are not required outside.
- Passengers and drivers must wear a mask\* on school buses, per the CDC Order. Any student that comes to their bus stop without a mask **will not be allowed** to enter the bus and will be sent home.

\*All face coverings must meet school dress code guidelines in terms of logos, images, and language.

## Guidance for Classrooms

### All Classrooms

- The CDC recommends indoor masking for all teachers, staff, students, and visitors to K-12 schools, regardless of vaccination status.
- Promote social distancing of three-foot spacing between students, if possible.
- Encourage hand washing (all levels) and the use of hand sanitizer (middle school/high school) frequently.
- Sanitize and disinfect classrooms daily.
- Maximize school ventilation systems to provide a safe environment.
- ***Pre-Kindergarten (PK) - 5 and Specials***
  - Schedule/coordinate restroom and hand washing breaks throughout the day.
  - School supplies can be shared between students and staff (e.g., physical education, art supplies, etc.).
  - Students will move to specials throughout the day. Some services may take place in the classroom when feasible.
  - Libraries will be open for service.
  - Teachers shall provide assigned seating for students for the purpose of contact tracing.
  - Teachers will denote if a student is not properly wearing a mask.
  - During outdoor activities such as physical education, classroom activities, etc., no mask is required.
- **Grades 6–12 Classrooms and Electives**
  - Students will move between classrooms throughout the day.
  - Teachers shall provide assigned seating for students for the purpose of contact tracing.
  - Teachers will denote if a student is not properly wearing a mask.
  - Encourage hand washing/disinfecting hands throughout the day.
  - Supplies may be shared between students and staff (e.g., physical education, lab materials, art supplies, etc.).
  - During outdoor activities such as physical education, classroom activities, etc., no mask is required.

## Guidance for Common Areas

- Cafeterias/restrooms/hallways, main office
  - Wear a face mask when not eating or drinking and in all other areas.
  - Clean cafeteria and high touch areas frequently and between uses throughout the day.

## Health Screenings

Only students and staff who are healthy should report for in-person learning. Students will not be penalized for missing school and are encouraged to stay home when not feeling well. **Students and staff with any of the following symptoms must remain home.**

- Onset of cough
- Diarrhea
- Fatigue from unknown cause
- Fever
- Onset of moderate to severe headache
- Known close contact with a person who has been diagnosed with COVID-19, if unvaccinated
- Muscle or body aches from unknown cause
- Vomiting
- Onset of loss of taste or smell
- Shortness of breath or difficulty breathing
- Sore throat

Any student or staff member who begins to exhibit any symptoms listed above must report to the school nurse. Students will remain in the quarantine area until a parent or guardian picks the student up or until an alternative transportation home is arranged. Staff will supervise the quarantine area until the student is able to leave.

Per CDC guidelines, students and staff who have symptoms of infectious illness, such as [influenza](#) (flu) or [COVID-19](#), should stay home and be referred to their healthcare provider for testing and care.

- Staying home when sick is essential to keep infections out of schools and prevent spread to others.
- Any individuals, regardless of vaccination status, must quarantine after a recent exposure to a positive COVID-19 person if symptomatic.
- If a student becomes sick at school, see [What to do if a Student Becomes Sick or Reports a New COVID-19 Diagnosis at School](#).

Per CDC guidelines, students and staff who are asymptomatic but have been exposed as a close contact should follow these guidelines:

- Non-fully vaccinated individuals must quarantine after a recent exposure to a positive COVID-19 person.
- Fully vaccinated individuals do not need to quarantine or get tested after exposure.

## Personal Protective Equipment (PPE) & Face Coverings

The CDC guidance which was adopted by IDPH and the ISBE recommends indoor masking for all teachers, staff, students, and visitors to K-12 schools, regardless of vaccination status.

Central 301 understands physical distancing will not be possible for all circumstances. **Face coverings are expected to be worn inside school buildings and on school buses, except while eating.** All district employees are expected to wear masks at all times when inside the school building. Students who refuse to follow masking instructions are subject to disciplinary action as outlined in the parent-student handbook.

## Social & Physical Distancing

Central 301 has developed procedures to establish three (3) feet of physical distance from other persons as much as possible. This expectation pertains to students and staff members in all areas and settings when feasible. Classrooms have been set up to have students face the same direction, and be properly socially distanced (three feet) whenever feasible.

## Visitors

The CDC guidelines recommend indoor masking for all teachers, staff, students, and visitors to K-12 schools, regardless of vaccination status. No visitor will be allowed to enter the school office without a mask.

## Instruction

Central 301 has developed instructional plans to allow for a full return to in-person learning, while holding the health and safety of our students and community to the highest regard. We understand that students may enter the upcoming school year with learning gaps or social emotional learning needs. Teachers will use targeted assessments, interventions, and differentiated instruction to help students close gaps in their learning. Additionally, teachers will spend additional time at the beginning of the school year focusing on relationship building to ensure all students feel emotionally safe coming back to school.

### Canvas

All grades (EC-12) will be utilizing our learning management system (LMS), Canvas, as their primary launchpoint for management of classroom learning and communication between teachers and students/parents. This will create a single access point for fluid communication relevant to daily classroom learning materials at each grade level. Through the LMS, Canvas, students/families may receive daily communications, check-in for updated materials, monitor classroom lessons and receive updates on deadlines and important announcements. This LMS, Canvas, will be used as a mechanism to communicate daily expectations for students in the event they are out for quarantine due to exposure (unvaccinated students) and/or illness at the 6-12 grade level. At the pre-K through 5th grade levels, Canvas can be utilized for the same purpose; however, as an additional layer of support for our younger students, a liaison between home and school will be provided for students who are home due to quarantine exposure or illness.

### Common Communication Structure

Common communication structures are imperative to ensure that parents and students have a clear and consistent way of accessing and interacting with their learning experiences.

- Learning experiences will be posted for the week via Canvas through a “Week-at-a-Glance”. Additionally, detailed information may be posted through Canvas modules. The “Week-at-a-Glance” will provide the learning targets for the day, daily classroom activities, homework/projects and assignments that are due for the day.
- For students out on quarantine or illness, the coordination of pick-up/drop off of materials will occur at the building level and will be clearly communicated between teachers, principals and families.
- General school-wide communications will continue to be shared through the weekly Principal’s message.

## **Extracurricular Activities**

At this time, all extracurricular activities are occurring according to schedules established by the athletic director and coaches/advisors. All students must wear masks while participating inside schools; however, when outside masks may be removed. We will continue to follow guidelines provided by the IHSA, IESA, the Illinois Department of Public Health, and the Illinois State Board of Education for any changes. Due to the increased exhalation of some athletics/activities, [recommended screening](#) will be implemented on an “opt-in” basis.

## **Elgin Community College Dual Credit Courses**

Students enrolled in dual-credit courses that normally take place at the Elgin Community College campus will be required to attend classes according to the Elgin Community College schedule.

## **Music & Theater Courses**

Music-related education will follow the most current CDC guidance, adopted by the IDPH and the ISBE, for student and staff safety measures. Theater students will participate in performances following ISBE and national performance guidelines. Due to the increased exhalation of band, chorus and theatre, [recommended screening](#) will be implemented on an “opt-in” basis.

## **Physical Education, Gymnasiums, Playgrounds, & Locker Rooms**

Physical activity supports students’ overall health and helps reduce stress and anxiety. Whenever feasible and weather permitting, we will encourage outdoor physical education (PE) activities that allow for removal of masks. If the gymnasium is used, CDC recommends indoor masking for all teachers, staff, students, and visitors to K-12 schools, regardless of vaccination status. Locker room use will resume with the 2021-2022 school year.

## **Social Emotional Learning (SEL)**

Social emotional learning (SEL) and overall emotional health of our students, staff and community is important. Teachers will continue to implement the District’s SEL curriculum with an intentional focus on student’s emotional health and relationships. Support for struggling students will be provided by social workers, psychologists, and counselors as needed.

# Operations

## Facilities

All custodial/maintenance staff have been trained on mitigation measures for disinfecting and sanitizing. These procedures include sanitation efforts using certified EPA products in both low/high contact areas such as countertops, door handles, handrails, light switches, and restroom fixtures.

Building custodians and cleaning personnel will conduct daily sanitation and disinfection. An EPA-approved cleaner will be used for disinfection along with standard cleaning protocols. All frequently touched surfaces will be cleaned on a regular basis. Restrooms, hallways, cafeterias, and high-touch common areas will be cleaned throughout the day. Electrostatic disinfection devices will be used every evening to disinfect classrooms, offices and common areas of the schools. Soft surfaces such as carpets will be cleaned daily.

Cleaning schedules have been created and implemented for all facilities and equipment. Extra sanitation efforts will occur for high-traffic/common areas, including entryways, foyers, hallways, main offices, restrooms, and stairwells.

## Food Services

Food service areas have reverted back to normal use. Students should wear a mask when not eating or drinking. Areas where students consume meals will be thoroughly cleaned and disinfected between groups.

- Food service personnel will use appropriate PPE, including gloves and face coverings, while preparing and distributing food.
- Student lunch boxes are allowed.
- Hand hygiene will be promoted prior to and after eating a meal or consuming any food items.

## Health Offices

All school health offices will follow the CDC guidelines which were adopted by the IDPH and the ISBE. All general health issues will go back to normal procedures.

## Before and After School Childcare Programs

All before and after school childcare programs will follow the CDC guidance which was adopted by IDPH and the Department of Children and Family Services (DCFS) guidance for licensed child care facilities.

## Human Resources

The contents of the Back-to-School document are subject to change when formal guidance by the CDC or mandates are issued by the proper authorities (ISBE, IDPH, IHSA, etc.). All employees will need to be flexible during this pandemic, which will require cooperative, collaborative, flexible, and creative problem solving.

### Illness Monitoring

Central 301 will follow the guidelines established by the CDC and adopted by the IDPH and ISBE. Continual monitoring of student and staff absenteeism will occur through collaboration of those taking absence reports and school nurses/school health staff. Employees and families will be expected to report specific symptoms and exposures when reporting absences.

Central 301 will inform the community of outbreaks per local and State Health Department guidelines while maintaining student and staff confidentiality rights.

### Staff Return Plan

The district is expecting all staff to return to work fully masked when inside the building. An employee's request for a special accommodation(s) will need to be provided to the Central 301 Human Resources Department for review. Please note that medical documentation or other official documentation will be required in order to consider any requests for medical exemptions for mask wearing.

Absences which are more than 3 days will require a doctor's note.

### Staffing Level

The district will monitor staffing levels within each building to ensure optimal operations for teaching and learning. In the event that staff absences hinder the ability to maintain optimal operations, the district will consider all options to support student learning. There is currently a shortage of substitute teachers, but the district will attempt to make available substitutes in all employee categories to fill vacancies and/or absences that could be a result of the COVID-19 health precautions. Should the staffing level fall below what is necessary for optimal operations, a building may be closed for student learning. Staff will be expected to attend that day and serve in other buildings as substitutes if necessary.
