Subject: Adult Meal Price Increases for School Year 2026-2027

School Board Members,

We have received revised guidance requiring our adult (staff and guests) meal prices for lunch to be decreased from \$5.65 from \$5.30 to meet USDA program requirements.

Adult meal sales are defined as a non-program food, therefore, the meal price must cover the full cost of the meal. Our adult breakfast meal price will also be staying at \$3.50.

Thank you.

**INTERNATIONAL FALLS PUBLIC SCHOOLS INDEPENDENT SCHOOL
DISTRICT #361**

**BOARD POLICY 529
Staff Notification of Violent Behavior by Students**

Adopted_____By Reference_____

*Adopted/Revised **September 2026***

[Note: School districts are not required to adopt a policy regarding staff notification of violent behavior by students. State law does, however, require school districts to provide classroom teachers with notice of the placement of students with a history of violent behavior in their classrooms. Thus, school districts may decide the manner in which they provide such notice. In 2003, the Minnesota Legislature required a committee, including a representative from the Minnesota School Boards Association (MSBA), to develop a model policy for schools to notify staff about violent behavior by students. That model policy is available on the Minnesota Department of Administration's website. MSBA has modified the committee developed policy for consistency with its other model policies and to reflect management perspectives. MSBA recommends this policy.]

PURPOSE

In an effort to provide a safe school environment, the assigned classroom teacher and certain staff members should know whether a student to be placed in the classroom has a history of violent behavior. Additionally, decisions should be made regarding how to manage such a student.

The purpose of this policy is to address the circumstances in which data should be provided to classroom teachers and other school staff members about students with a history of violent behavior and to establish a procedure for notifying staff regarding the placement of students with a history of violent behavior.

GENERAL STATEMENT OF POLICY

- A. Any staff member or other employee of the school district who obtains or possesses information concerning a student in the building with a history of violent behavior shall immediately report said information to the principal of the building in which the student attends school.
- B. The administration will meet with the assigned classroom teacher and other appropriate staff members for the purpose of notifying and determining how staff will manage such student.
- C. Only staff members who have a legitimate educational interest in the information will receive notification.

DEFINITIONS

For purposes of this policy, the following terms have the meaning given them.

- A. Administration

"Administration" means the superintendent, building principal, or other designee.

B. Classroom Teacher

"Classroom teacher" means the instructional personnel responsible for the course or room to which a student is assigned at any given time, including a substitute hired in place of the classroom teacher.

C. History of Violent Behavior

1. A student will be considered to have a history of violent behavior if incident(s) of violence, including any documented physical assault of a school district employee by the student, have occurred during the current or previous school year.
2. If a student has an incident of violence during the current or previous school year, that incident and all other past related or similar incidents of violence will be reported.

D. Incident(s) of Violence

"Incident(s) of violence" means willful conduct in which a student endangers or causes physical injury to the student, other students, a school district employee, or surrounding person(s) or endangers or causes significant damage to school district property, regardless of whether related to a disability or whether discipline was imposed.

E. Legitimate Educational Interest

"Legitimate educational interest" includes interest directly related to classroom instruction, teaching, student achievement and progress, discipline of a student, student health and welfare, and the ability to respond to a request for educational data. It includes a person's need to know in order to:

1. Perform an administrative task required in the school or the employee's contract or position description approved by the school board;
2. Perform a supervisory or instructional task directly related to the student's education; or
3. Perform a service or benefit for the student or the student's family such as health care, counseling, student job placement, or student financial aid.
4. Perform a task directly related to responding to a request for data.

F. School Staff Member

"School staff member" includes:

1. A person duly elected to the school board;
2. A person employed by the school board in an administrative, supervisory, instructional, or other professional position;
3. A person employed by the school board as a temporary substitute in a professional position for the period of his or her performance as a substitute; and
4. A person employed by, or under contract to, the school board to perform a special task such as a secretary, a clerk, a public information officer or data practices compliance official, an attorney, or an auditor for the period of his or her performance as an employee or contractor.

[Note: School districts may wish to reference other school staff members such as paraprofessionals, bus drivers, occupational therapists, or police liaison officers in the definition of a "school staff member." However, the definition of a "school staff member" in this policy should be identical to the school district's definition of "school official" in Policy 515, Protection and Privacy of Pupil Records.]

PROCEDURE FOR STAFF NOTIFICATION OF STUDENTS WITH VIOLENT BEHAVIOR

A. Reports of Violent Behavior

Any staff member or other employee of the school district who becomes aware of any information regarding the violent behavior of an enrolling student or any student enrolled in the school district shall immediately report the information to the building principal where the student is enrolled or seeks to enroll.

B. Recipients of Notice

Each classroom teacher of a student with a history of violent behavior (see Section III.C., above) will receive written notification from the administration prior to placement of the student in the teacher's classroom. In addition, written notice will be given by the administration to other school staff members who have a legitimate educational interest, as defined in this policy, when a student with a history of violent behavior is placed in a teacher's classroom. The administration will provide notice to anyone substituting for the classroom teacher or school staff member, who has received notice under this policy, that the substitute will be overseeing a student with a history of violent behavior.

The administration may provide other school district employees or individuals outside of the school district with information regarding a student, including information regarding a student's history of violent behavior, in accordance with Policy 515, Protection and Privacy of Pupil Records.

C. Determination of Who Receives Notice

In the event the administration makes this determination, the Responsible Authority will provide guidance to the administration as to what data will be shared.

D. Form of Written Notice

The notice given to classroom teachers and school staff members will be in writing and will include the following:

1. Name of the student;
2. Date of notice;
3. Notification that the student has been identified as a student with a history of violent behavior as defined in Section III. of this policy; and
4. Reminder of the private nature of the data provided.

E. Record of Notice

1. The administration will retain a copy of the notice or other documentation provided to classroom teachers and school staff members notified under this section.
2. Retention of the written notice or other documentation provided to classroom teachers and school staff members is governed by the approved Records Retention Schedule.

F. Meetings Regarding Students with a History of Violent Behavior

1. If the administration determines, in his or her discretion, that the classroom teacher and/or school staff members with a legitimate educational interest in such data reasonably require access to the details regarding a student's history of violent behavior for purposes of school safety and/or intervention services for the student, the administration also may convene a meeting to share and discuss such data.
2. The persons present at the meeting may have access to the data described in Section IV.D., above.

G. Law Enforcement Reports

Staff members will be provided with notice of disposition orders or law enforcement reports received by the school district in accordance with Policy 515, Protection and Privacy of Pupil Records. Where appropriate, information obtained from disposition orders or law enforcement reports also may be included in a Notification of Violent Behavior.

Dear Beth,

Attached is the IDS 361 Booster Club checklist, along with the required supporting documentation for your records. After a lot of research, I've found that the recommended course is to work with the nonprofit's existing information rather than starting over. At the last Bronco Football Boosters meeting, those in attendance voted to authorize me to take the necessary steps to obtain the required documentation or, if necessary, start over.

Here is an update on what I found:

- **Name Differences:** The original name was Bronco Varsity Football Parents. The name was changed to Bronco Football Boosters and approved by the State of Minnesota but not with the IRS. We have submitted documents to record the change and are awaiting a response.
- **Charitable Organization Registration – MN Attorney General Charities Division:** I have been unable to find a record of previous registration, likely because the organization historically did not solicit more than \$25,000 annually. However, the addition of successful fundraisers, Touchdowns & Turnovers funds (which are received and paid to the Community Cancer Gas Card Program), and parents' payments for Bemidji Football Camp (collected and paid together to receive a discounted rate) have pushed us over the \$25,000 threshold. Once this was identified, the required paperwork was submitted to the Attorney General's Office.

Please let us know if you have any questions or suggestions. We appreciate your help and patience as we work through this process, and we look forward to a successful year. Thanks for all you do!

Sincerely,

Lori Lyman

SUBJECT: 2025 Pay 2026 Levy Certification

All school districts must certify a proposed levy to the home county auditor by September 30th every year. Since school board action is required to approve the proposed levy before the deadline to make changes to the proposed levy certification, the school board can certify the proposed levy at the 'maximum' level which will allow for any corrections/changes in the levy totals between now and December's final certification to be made without recertification. The final levy certification in December will require a specific dollar amount. The deadline for submission of the proposed levy certification form to the County, as well as MDE, is September 30, 2026.

The levy certification proposed this evening impacts taxes payable in calendar year 2027, which the district will receive in fiscal year (FY) 2027-28. We have included a levy comparison document, summarizing the change in major line items from FY27 to FY28. The preliminary levy increase for taxes payable in 2027 is currently estimated at 8.49% with modifications still in play being worked through by the state.

At the December board meeting, we will go much deeper into the positive and negative adjustments, tax impact for residents, and FY27 budget information.

It is recommended that the School Board of ISD361 certify the proposed Levy for taxes payable in 2027 as a 'maximum' levy amount, as presented.
