Their update included elementary family events and learning opportunities, middle school orientation and athletics, and activities supporting students as they begin the school year. At Two Rivers High School, they highlighted the school's recognition on the *U.S. News & World Report* Best High Schools list, student activities and athletics,

and upcoming community events including the Warrior Rally and Warrior 5K.

### **Recognitions**

The School Board recognized three student groups. First, the WEB Leaders from Heritage Middle School along with their advisor, Isaiah Schmidt. Over 80 eighth-grade students applied for mentorship positions in the WEB (Where Everyone Belongs) Leaders and those who were selected will act as positive role-models, helpers, and guides for the incoming fifth-grade students new to Heritage. Next, members of the LINK Crew at Two Rivers High School and their coordinator, Grant Moris, were recognized for their leadership and guidance of the incoming freshman class, which is nearing 450 students. Finally, the Two Rivers High School Band, under the leadership of Erik Christiansen, were recognized for their summertime efforts, travel, and performances across the metro area in the off-season.

### **Superintendent's Report**

Superintendent Olson-Skog welcomed students, families, and staff back for the 2026-27 school year and highlighted the positive start across the district. He thanked staff for their work creating welcoming environments for students and families and introduced the district's School Board Student Representatives for the year. The report also recognized School Board members in celebration of Minnesota School Board Recognition Month.

### **Presentation of Middle School Technology Update**

Cari Jo Drewitz, Director of Curriculum, Instruction, and Assessment, and Tom Stukel, Assistant Director of Technology, provided an update on middle school technology initiatives, including the grades 5-6 iPad pilot in which devices remain at school while feedback is gathered during September and October. They reviewed new digital citizenship instruction, the Acceptable Use Policy process for students and families, and Health and Wellness course content addressing topics such as privacy, online interactions, media literacy, AI ethics, and digital well-being. The presentation also highlighted family technology tools including Jamf Parent and the Campus Parent Portal, with next steps focused on gathering feedback, monitoring the pilot, conducting classroom visits and student focus groups, implementing AI guardrails, and continuing analysis of classroom technology use.

### **Presentation of First Day of School Enrollment Report**

Peter Mau, Assistant Superintendent, presented the district's first-day enrollment update, noting that K-12 enrollment totaled 5,124 students, 19 students above the projected enrollment of 5,105. Enrollment was above projections at the elementary and middle school levels, while kindergarten and high school enrollment were below projections. Mau noted that enrollment typically changes between the first day and October 1, when MDE captures official enrollment data, and that the district will continue monitoring enrollment in relation to Board-approved class size parameters.

### **Presentation of Levy Update**

Superintendent Olson-Skog provided an update on the district's 2026 capital project levy referendum and reviewed frequently asked questions related to the proposal. The presentation outlined the district's ongoing structural budget gap, more than \$3.2 million in reductions made over the past two years, the estimated tax impact of approximately \$14 per month on a \$400,000 home, and the existing expenses the levy would support, including instructional materials, safety and security, maintenance, utilities, transportation, and equipment. Administration also explained how the local levy differs from the statewide Permanent School Fund constitutional amendment and reviewed the potential financial implications if the levy passes or does not pass. The update concluded with information about the ballot, comparisons of School District 197 property taxes with other metro districts, and opportunities for community members to learn more and ask questions.

**SUBJECT:** Final Reading of Policy 106, Equity

### **BACKGROUND**

A review of Policy 106, Equity, has been performed and the policy adheres to the district's processes and procedures currently in place. This district-specific policy was established in 2023 and mandated for annual review in 2025 and beyond. The board was presented with a first reading of the policy at their August 24th board meeting.

Upon review, the only recommendation is for the policy to be revised from an annual review to a triennial review, in alignment with the majority of the other School District 197 policies.

This policy was reviewed using the district's Four-Way Equity Test, to which it is highly aligned because the policy itself is designed to establish equity as a guiding principle for governance, resource allocation, instruction, staffing, family engagement, and student outcomes. In fact, the policy explicitly incorporates the Four-Way Equity Test as a required framework for future policy review and decision-making.

### **RECOMMENDED RESOLUTION**

***BE IT RESOLVED*** by School Board of School District 197 to approve Policy 106, Equity, as presented.

### 106 EQUITY

#### I. PURPOSE

The purpose of this policy is to ensure equity and inclusion for every student, staff, and family member in School District 197. Additionally, this policy establishes equity as an essential value in our governance, leadership, policies, programs, operations, and practices.

As our District strategic framework states, we believe:

People thrive when they feel connected, trusted and affirmed.

To that end, this policy will make it a priority to create the conditions so that every student, staff, family and School District community member feels a sense of belonging, and that they are valued and heard.

Our diversity makes us stronger.

To that end, this policy serves to affirm this belief by recognizing the value of a wide range of perspectives and lived experiences and their important contributions to our School District community.

We are all accountable for removing barriers and creating equitable systems.

Through this policy, the school board recognizes the historical legacy and compounding impact of the systems, structures and practices that have created and continue to afford advantages to some groups while further marginalizing and perpetuating inequities for others.

Therefore, we seek the elimination of inequity in our systems, structures and practices as a School District. We recognize that the responsibility for ensuring equitable access, opportunities, participation and outcomes falls on the adults in the system.

#### II. GENERAL STATEMENT OF POLICY

School District 197 is on an equity journey. While there has been work done previously and

some progress has been made, there remains much to do.

The School District is committed to equitable access and opportunities for all members of our School District community, including students, families and staff.

Creating equitable access and opportunities is dependent upon having inclusive policies and practices that represent all students, and providing each student increased access to and creating meaningful participation in high-quality learning experiences where each student realizes positive outcomes. Educational equity benefits everyone and prepares all students to thrive in a racially and culturally diverse local, national and global community.

School District 197 is committed to the success of every student in each of our schools. The school board recognizes the history of academic, discipline, and social-emotional disparities that have occurred in many schools across our country based on race and ethnicity, language, immigration status, socioeconomic status, sex, and gender identity and sexual orientation (2SLGBTQ+ status). The academic and discipline gaps are contrary to the fact that all students can learn and succeed in our schools, and they are unacceptable if we are to meet our School District mission of caring relationships, equitable practices and high achievement for all. Student outcomes must not be predictable based on student demographics or school attended.

The school board also recognizes that it is the responsibility of its administration and staff to remove barriers and create systems to ensure educational equity, which will require the allocation and reallocation of resources. School District 197 will actively work to interrupt, dismantle, and eliminate racism and other forms of inequity by identifying, acknowledging, confronting and disrupting beliefs and systems that marginalize children and their families. This work will be informed by evidence, including research, data, and the voices of marginalized communities.

The school board further recognizes that every student deserves a responsive, affirming and inclusive learning environment in which their cultural norms and experiences are valued and contribute to successful academic and social-emotional outcomes. School District 197 recognizes the value in validating a student's own understanding of themselves, their identity, their culture, and their experiences in our schools.

### **III. DEFINITIONS**

"2SLGBTQ+" is an acronym that stands for Two-Spirit, Lesbian, Gay, Bisexual, Transgender, Queer or Questioning and additional sexual orientations and gender identities while the plus reflects the countless affirmative ways in which people choose to self-identify.

"Equity" means giving each person the (individualized) opportunities and access they need to be successful. This is different from equality, which means giving each person equal (the same) opportunities and access without recognition of their unique needs.

“Educational equity” means the condition of justice, fairness and inclusion in our systems of education so that all students (including those who are a part of traditionally marginalized communities) have access to the opportunities to learn and develop to their fullest potentials.

“Culturally affirming” means treating others’ culture and experiences with respect and high regard in order to affirm their value. This is done through practices, behaviors and policies that thoroughly acknowledge and proactively seek to affirm students’ cultural identities and cultural assets as integral to their positive self-concept and their academic and social well-being.

“Culturally responsive” means having the ability to understand cultural differences, recognize potential biases, and look beyond differences to work productively with children, families, and communities whose cultural contexts are different from one’s own.

“Disparity” means a noticeable and usually significant difference or dissimilarity.

“Gender identity” means a person’s deeply held knowledge of their own gender, which can include being a man, woman, or another gender. Gender identity is an innate part of a person’s identity. One’s gender identity may or may not align with society’s expectations with the sex they were assigned at birth (male, female, or intersex). In School District 197, individuals are encouraged to use their self-identified name and pronouns.

“Institutional racism” means the biases that may be built into the policies, practices, and processes of institutions. These systemic biases discriminate against and disadvantage people of color through unwitting prejudice, ignorance, thoughtlessness or racial stereotyping. As a result, these systemic biases create different and predictable outcomes for different racial groups, typically maintaining an advantage for white individuals and simultaneously maintaining a disadvantage for individuals of color.

“Marginalize” means to treat as insignificant or unimportant or inferior. It involves social exclusion that results from a group having less access or opportunity than other groups.

“Racial consciousness” means understanding multiple theories of race and ethnicity, including but not limited to racial formation, processes of racialization, and intersectionality. Racial consciousness, in regard to intersectionality, means understanding the impact of the intersection of race and ethnicity with other forms of difference, including socioeconomic status, sex, gender identity and sexual orientation (2SLGBTQ+ status), religion, national origin, immigration status, language, ability, and age.

“School culture” means the shared beliefs, norms, and values among the members of the school which can be observed from the behaviors of the members.

Students can demonstrate this partnership by providing feedback to the District, advocating for themselves, taking ownership of their learning, growing toward their goals, supporting the learning environment, and making positive contributions to the school culture.

# Questions?

**TO:** School Board Members

**FROM:** Brian Schultz, Director of Finance

**DATE:** September 28, 2026

**SUBJECT:** Presentation of Fiscal Year 2024-2025 Audit

**BACKGROUND**

Jim Eichten, from independent audit firm LB Carlson, will present the results of the fiscal year 2024-2025 audit. The report will highlight results from both compliance and financial perspectives.

Overall, budget resources are allocated to help the district make progress towards achieving the items stated in the Strategic Framework, which in turn, drives the work of district staff and administrators. Within the Strategic Framework, we are committed to equitable practices by being accountable for removing barriers and creating equitable systems. Further, the five goals of the Strategic Framework and their underlying strategies have been developed so that programming and educational resources are directed toward helping all students achieve their personal goals and academic potential.

**RECOMMENDED RESOLUTION**

***BE IT RESOLVED*** by the School Board of School District 197 to accept the FY25 Audit as presented.

**TO:** School Board Members

**FROM:** Brian Schultz, Director of Finance

**DATE:** September 28, 2026

**SUBJECT:** Adoption of Proposed 2026 Payable 2027 Property Tax Levy

### **BACKGROUND**

Minnesota statutes require school districts to certify their proposed 2026 property tax levy, payable in 2027, by September 30, 2026.

The board may certify the proposed levy either at the maximum amount or at a specific dollar amount. The maximum option exists because the Minnesota Department of Education (MDE) may revise a district's levy calculations between the board's approval of the proposed levy in September and adoption of the final levy in December. Certifying at the maximum protects the district if its allowable levy increases during that period. Certifying a specific dollar amount caps the levy at that figure, even if MDE later raises the amount the district is authorized to levy. In either case, the board may reduce the levy when it adopts the final amount in December.

Administration will review changes from the prior year's levy at the meeting.

Truth in Taxation statutes also require a public hearing, which may be held during a regular school board meeting. The date and time of that meeting must be announced when the proposed levy is certified. The Truth in Taxation hearing will be held at the regular school board meeting on December 14, 2026, at 6:00 p.m. at Mendota Heights City Hall.

### **RECOMMENDED RESOLUTION**

***BE IT RESOLVED*** by the School Board of Independent School District No. 197 that the proposed 2026 payable 2027 property tax levy is adopted as “Maximum” and, further, that the School Board Clerk or Superintendent is authorized to sign the document used to certify the levy to the county auditor.

**TO:** School Board Members

**FROM:** Peter Mau, Assistant Superintendent

**DATE:** September 28, 2026

**SUBJECT:** Resolution to Close Open Enrollment for Grades 7-9 for the 2026-2027 School Year

### **BACKGROUND**

We staff our buildings based on our projections. These projections are calculated by looking at the “capture rate” from grade to grade over the last five years. However, it isn’t an exact science. This year, we are at, or very near, our school board parameter for class size in grades 7 and 8. High school works a little differently because electives tend to mix grades, not be grade-specific. This affords us some flexibility to manage class size from grade level to grade level. However, that flexibility is limited in 9th grade where there are more required classes. With higher-than-projected enrollment in 9th grade, that flexibility has become limited. Furthermore, we use a team model in 9th grade to support students’ transition to high school. With higher-than-anticipated enrollment in 9th grade, it has become difficult to maintain the integrity of the model.

### **Proposal**

While we will continue to welcome resident students, to help manage enrollment, the administration recommends closing to open enrollment in grades 7-9. This is a regular practice among several Minnesota school districts permissible under Minnesota Statute 124D.03. A school district may close open enrollment at a grade level if the number of open enrollments at that grade level is more than 1% of the total enrollment.

### **Rationale**

- This is a regular practice among several Minnesota school districts.
- It is permissible under Minnesota Statute 124D.03. A school district may close open enrollment at a grade level if the number of open enrollments at that grade level is more than 1% of the total enrollment.
- For each grade, we meet the criteria under MN Statute 124D.03.
  - Grade 7 - approximately 20% of the total enrollment is from open enrollment.
  - Grade 8 - approximately 20% of the total enrollment is from open enrollment.
  - Grade 9 - approximately 24% of the total enrollment is from open enrollment.

### **Additional Information**

- This proposal does not limit District 197 residents from enrolling in Grades 7-9.

### **RECOMMENDED RESOLUTION**

*Please see the attached resolution.*

Member \_\_\_\_\_ introduced the following Resolution and moved its adoption:

### RESOLUTION LIMITING OPEN ENROLLMENT

**WHEREAS**, pursuant to Minnesota Statutes section 124D.03, subdivisions 2 and 6, the School Board may reject applications for enrollment based on the number of students in a particular grade level if the Board adopts a resolution stating that the number of nonresident students enrolling at that grade level may not exceed one percent of the total enrollment at that grade level in District 197, or the number of District 197 residents at that grade level who are enrolled in a nonresident district under the Enrollment Options Act, whichever is less; and

**NOW, THEREFORE, BE IT RESOLVED** by the School Board of Independent School District No. 197, West St. Paul-Mendota Heights-Eagan Schools, as follows:

1. For the 2026-2027 school year, the number of nonresident students who may enroll under the Enrollment Options Program in grades 7, 8, and 9 may not exceed one percent of the total enrollment at their particular grade level in District 197, or the number of District 197 residents at that grade level who are enrolled in a nonresident district under the Enrollment Options Act, whichever is less.
2. In accordance with Minnesota Statutes section 124D.03, subdivision 2(b), the Superintendent or his designee must report to the Minnesota Department of Education (MDE) on the number of nonresident students who are denied admission as a result of the limitations established in the second paragraph of this Resolution. The report must be submitted to the MDE by July 15, 2027.

The motion for the adoption of this Resolution was duly seconded by Member \_\_\_\_\_
