### Definitions

**Levy** - After determining the amount of revenues needed to raise from property taxes and holds any required Truth-In-Taxation hearing, the Levy is the request made by the taxing body to the Clerk's office for the property tax revenue.

**Extension** - The county clerk applies the state equalization factor, calculates the tax rate needed to produce the amount of revenues each taxing district may levy legally, apportions the levy among the properties in a taxing district according to their equalized assessed values so that tax bills can be computed, abates taxes as directed by taxing districts, and prepares books for the county collector.

**Balloon Levy** – Because school districts do not know the exact equalized assessed valuation it must ask for enough dollars to cover the increase in valuation, this is called a balloon levy.

**Equalized Assessed Valuation (EAV)** - All property is discovered, listed, and appraised so that values for property tax purposes can be determined. Local assessing officials determine most property values; the local county board of review and the Illinois Department of Revenue also have some assessment responsibilities. The chief county assessment officer ensures that assessment levels are uniform and at the legal assessment level by applying a uniform percentage increase or decrease to all assessments in the jurisdiction (i.e., assessments are “equalized”).
