Dr. Weikle and Unit 5 Board of Education Members,

It is with immense pride that I have the opportunity to recognize the Eugene Field School SS1 Program. Due to the specialized instructional needs of our students while attending high school, many of our students are unable to successfully participate in the diverse career and technical education courses offered through Unit 5 and the Bloomington Career Academy. At Eugene Field, our goal is to provide our students with the necessary life experiences to help them identify their strengths and interests to guide their adult decision making and job exploration. This past month, Marissa Frietsch in collaboration with Scott Frietsch and Mike Rediger with Eagle Crest Services developed an instructional construction unit. Combining the construction expertise of Eagle Crest Services and Marissa's expertise with designing specialized instruction they were able to implement a successful unit leaving students feeling more confident in their abilities with immense pride in their work. Students not only learned about various construction tools and concepts but each student engaged in hands-on learning through the use of tools and the construction of a project. Many of these students had never used a power tool before and it was absolutely amazing watching their confidence grow with each session. Some students are now exploring continued education options in the skilled trades through Heartland Community College. The team is looking forward to many more projects such as this in the future!

At this time I would like to recognize the following individuals, as well as any students in attendance, for their time, dedication, and never ending patience during the implementation of this project:

- Scott Frietsch, Eagle Crest Services
- Mike Rediger, Eagle Crest Services
- Marissa Frietsch, SS1 Teacher
- Karen Walker, SS1 Teacher
- Tara Alcozar, SS1 Paraprofessional
- Glenda Gangler, SS1 Paraprofessional

Sincerely,
Kim Mackinson

Re: Normal West High School Swim Team State Finish
Date: March 18, 2026

The Normal West Boys Swim & Dive team had an exceptional 2025-2026 season, culminating with a fantastic post-season performance. At the Big 12 Conference Meet, the team had 100% season best times, while the varsity team earned 2 second place relays, and 8 top 5 swimmers in individual events, leading the team to earn 3rd place in both the JV and varsity divisions.

At sectionals, the team once again placed third and had 100% season best times. They secured numerous state qualifiers, including:

- *the school record setting medley relay team of Cooper Franz, Pierson Odland, Joshua Sunkel, Jaxon Tomera
- *Cooper Franz in the 100 freestyle and 100 backstroke
- *Pierson Odland in the 500 free and school record in the 100 breaststroke
- *Ethan Rocke in the athletes with disabilities 200 free, 50 free, 100 free, and 100 breast

At state, the team capped off an amazing season. IHSA swimming does not break schools down into classes, so it is a great honor to even qualify for the state meet. Pierson Odland placed 32nd in the 500 free and 33rd in the 100 breaststroke. Cooper Franz placed 18th in the 100 free and qualified for finals in the 100 back, scoring 10th overall. Ethan Rocke won all 4 of his Athletes with Disabilities events in the 200 free, 50 free, 100 free, and 100 breaststroke. With numerous top 16 performances at the State meet, the team earned the runner up trophy in the combined team division, the first state trophy in Normal West Swim & Dive history.

The parts that I am most proud of are 1) the story that I heard from the parents and board member Kelly Pyle whose son is Wade Pyle State Placing Swimmer from Normal Community about the swim parents from both high schools working together to get in the ticket line to make sure they all had tickets and plan the potluck of food to eat while in line since the line starts at 8am and doors don't open until late afternoon. And the second part that I am proud of is the story Coach Dawn Fudge shared with us following the State meet where she said, "It was such a fun weekend! We had so many coaches come up to us and say how impressive they were with West boys. Not only assisting Ethan, but then supporting all the other Athletes With Disabilities - moving across lanes cheering for all of them and supporting them on deck. I choked back a few tears over the weekend! So proud of them!!"

March 18th, 2026

Dr. Weikle and the Unit 5 Board of Education,

It is my pleasure to share good news from Evans Jr. High School. Our school's chess team has enjoyed another year of tremendous success! Under the direction of our coach, Mr. Alec Kepuraitis, our team won many tournaments throughout the season, culminating in two state championships and one state-runnerup finish at the 2026 IESA State Championships.

On Friday, February 27th, and Saturday, February 28th, the 6th and 7th Grade teams competed and won the IESA State Chess Tournament Championship! The Evans 8th-grade team also did very well and finished in 2nd place! The team had several individuals who achieved medals this year:

8th Grade: Gold- Sandeep Chandru, Bronze- Dhruv Kurada

7th Grade: Gold- Shinidhin Senthikumar, Silver- Akshaj Jayakumar, Bronze- Tej Shah, Chandra Padigala, Shrihan Ayyalusamy, Neal Sheth, and Daksha Challa

6th Grade: Silver- Vishnu Vijay, Bronze- Abhinav Chander, Saketh Viswandha

We are so proud of how these students have represented Eagle Nation at the state competition, truly showing others how to “Be the Good.”

Thank you for allowing me to share this accomplishment with you tonight, and Go Eagles!

Sincerely,

Kimberly Martin-Boyd

Privately arranged trips, including those led by District staff members, shall not be represented as or construed to be sponsored by the District or school. The District does not provide liability protection for privately arranged trips and is not responsible for any damages arising from them.

No District employee or staff member shall take or accompany any student on a privately arranged trip related to or arising out of the student's participation in a course, a club, or co-curricular athletics or activities (e.g. foreign language trip, band trip), or with an educational tour group or travel company (e.g. Explorica, ACIS, EF Educational Tours), without first notifying the Superintendent or designee in writing of the trip prior thereto and providing the Superintendent or designee with a signed Privately Arranged Trip Acknowledgment, Waiver, or Release form for each student going on the trip. **Administrative Procedure – Program for Managing Student
Concussions and Head Injuries**

Purpose

Concussions are one of the most commonly reported injuries in children and adolescents who participate in sports and recreational activities. Concussions can also occur in any organized or unorganized activity and can result from a fall or from students colliding with each other, the ground, or with obstacles. The Centers for Disease Control and Prevention estimates that as many as 3,~~999~~800,000 sports-related and recreation-related concussions occur in the United States each year.

Concussions are a type of brain injury that can range from mild to severe and can disrupt the way the brain normally works. Concussions occur with or without loss of consciousness, but the vast majority of concussions occur without loss of consciousness. A concussion is caused by a blow or motion to the head or body that causes the brain to move rapidly inside the skull. The risks of catastrophic injuries or death are significant when a concussion or head injury is not properly evaluated and managed. Continuing to play with a concussion or symptoms of a head injury leaves a young athlete especially vulnerable to greater injury and even death.

The purpose of this Administrative Procedure is to implement a program to manage concussions and head injuries suffered by students. Although the Youth Sports Concussion Safety Act contains certain requirements related to concussions sustained by students who participate in interscholastic athletic activities, these requirements may be equally applicable to students who sustain a concussion during the regular school day including during physical education or while at recess. Accordingly, the Board has adopted a comprehensive policy to address concussions sustained by all students, regardless of whether or not the concussion took place while the student was participating in an interscholastic athletic activity.

Applicable State Laws

1. The Youth Sports Concussion Safety Act contains concussion safety directives for school Boards and certain identified staff members. 105 ILCS 5/22-80. The District must implement 105 ILCS 5/22-80 if it offers interscholastic athletic activities or interscholastic athletics under the direction of a coach (volunteer or school employee), athletic director, or band leader. An *interscholastic athletic activity* “means any organized school-sponsored or school-sanctioned activity for students, generally outside of school instructional hours, under the direction of a coach, athletic director, or band leader, including, but not limited to, baseball, basketball, cheerleading, cross country, fencing, field hockey, flag football, football, golf, gymnastics, ice hockey, lacrosse, marching band, rugby, soccer, skating, softball, swimming and diving, tennis, track (indoor and outdoor), ultimate Frisbee, volleyball, water polo, and wrestling. All interscholastic athletics are deemed to be interscholastic activities.” 105 ILCS 5/22-80(b).

The District will implement its *Concussion Care Protocol* (See Administrative Procedure 7.305-AP2, *Concussion Care Protocol – Return-to-Learn and Return-to-Play*) for a student’s return to the classroom after ~~he or she~~the student is believed to have experienced a concussion, “whether or not the concussion took place while the student was participating in an interscholastic activity.” 105 ILCS 5/22-80(d). 2. 105 ILCS 25/1.15 requires: (a) all high school coaching personnel to complete online concussion awareness training, and (b) all student athletes to view the IHSA video about concussions.
3. 105 ILCS 25/1.20, requires the IHSA to require all member districts that have certified athletic trainers to have those trainers complete and submit a monthly report on student-athletes who have sustained a concussion during: 1) a school-sponsored activity overseen by the athletic trainer; or 2) a school-sponsored event of which the athletic director is made aware.
4. 20 ILCS 2310/2310-207 requires: (a) the Ill. Dept. of Public Health (IDPH), subject to appropriation, to develop, publish, and disseminate a brochure to educate the general public on the effects of concussions in children and discuss how to look for concussion warning signs in children, and (b) schools to distribute this brochure, free of charge, to any child or parent/guardian of a child who may have sustained a concussion, regardless of whether or not the concussion occurred while the child was participating in an interscholastic athletic activity, if available. Guidance from Lurie Children's Hospital explains that recovery from a concussion must be an individualized process, because no two concussions are the same. See <i>Return-to-Learn after a Concussion: A Guide for Teachers and School Professionals</i>, Lurie Children's Hospital, at: www.luriechildrens.org/globalassets/media/pages/specialties--conditions/programs/concussion-program/documents/lurie-return-to-learn-guide-2017-updated.pdf. This Guide explains that a student's full recovery depends on both cognitive and physical rest. It suggests using a multidisciplinary team to facilitate a student's return to the classroom and provides examples of accommodations and interventions. It also stresses the importance of identifying a school staff member who will function as a case manager or concussion management leader, e.g., a school nurse, athletic trainer, or school counselor.</p> <p>The student's treating physician, <u>PA, APRN,</u> or an athletic trainer working under a physician's supervision must evaluate and find that it is safe for the student to return-to-play. **Administrative Procedure – Concussion Care Protocol --
Return-to-Learn and Return-to-Play**

General Information:

This Concussion Care Protocol should be used whenever a student, a student's parent/guardian, a teacher, an administrator, a coach, an athletic trainer, a game official, a physician, or any other person deemed appropriate by the Concussion Oversight Team believes a student might have sustained a concussion, regardless of whether or not the student was participating in an interscholastic athletic activity.

A student believed to have sustained a concussion shall be immediately removed from all physical activity including, without limitation, recess, physical education, and interscholastic athletic practice or competition.

A student's best chance of full recovery from a concussion involves two critical components: cognitive and physical rest. ~~Continued research has shown cognitive rest to be essential in the quick resolution of concussion symptoms. Cognitive stimulation includes: driving, playing video games, computer use, text messaging, cell phone use, loud and/or bright environments, watching television, reading, and studying. These stimuli must be limited, and in most cases, completely avoided for a period of time during recovery. Physical activity such as physical education, athletics, and strength or cardiovascular conditioning must be completely avoided or regulated while recovering from a concussion. Continued research recommends limiting both physical and cognitive activities for the first few days after injury. This typically includes participation in routine activities at home that do not result in more than a mild exacerbation of symptoms related to the current concussion, such as light reading. Screen time and thinking/remembering activities should be minimized. Within a few days, as symptoms begin to resolve, experts recommend a gradual return to regular (non-strenuous) activities. Academic accommodations and activity restrictions are provided as needed for the student with a gradual weaning until baseline is reached.~~

Return-to-Learn and Return-to-Play Protocols:

Any student believed to have sustained a concussion or exhibiting signs or symptoms of a concussion during the school day ~~and removed from~~ may not participate in physical activity and should be referred to the school nurse ~~(if available), provided a packet of information, and recommended to be evaluated by a physician.~~ If the school nurse is unavailable, the student's parents should be called and the student should be sent home. Concussion information should be provided to the student's parent/guardian, along with a recommendation to have the student evaluated by a physician, physician assistant (PA), or advanced practice registered nurse (APRN), or athletic trainer. The Concussion Form for Students Who Do Not Participate in Interscholastic Athletic Activities (Exhibit 7.305-AP2, E2), should be provided to the parent/guardian of a student who does not participate in interscholastic athletic activities. The student should not be allowed to participate in any physical activity, including recess or physical education, for the remainder of that day or any subsequent day if signs or symptoms of a concussion are observed or continue.

In addition, if the student participates in an interscholastic athletic activity, the coach or sponsor of the interscholastic athletic activity should be notified of the concussion and the student shall not be allowed to return to practice or competition until evaluated, using established medical protocols based on peer-reviewed scientific evidence consistent with Centers for Disease Control and Prevention (CDC) guidelines, and cleared to do so by a physician ~~(licensed to practice medicine in all of its branches in Illinois), PA, APRN,~~ or a licensed athletic trainer working under the supervision

of a physician and the return-to-learn and return-to-play protocols below have been completed. **An athletic team coach or assistant coach may not authorize a student's return-to-learn or return-to-play.**

For the return-to-learn and return-to-play protocols to be initiated the student must be initially evaluated by a physician, PA, APRN, or licensed athletic trainer working under the supervision of a physician and the Concussion Staging Form for Students Who Participate in Interscholastic Athletic Activities (Exhibit 7.305-AP2, E1) must be submitted to the school nurse or athletic trainer.

Points of Emphasis:

- It is important to note that the recovery from a concussion is a very individualized process. Caution must be taken not to compare students with concussions as they progress through the recovery process.
- An emergency room/acute care note is only temporary until seen by a physician, PA, APRN, or licensed athletic trainer working under the supervision of a physician within one week.
- The student must report daily to the school nurse or to the athletic trainer at the high schools for symptom monitoring.
- The student's missed academic work will be reviewed and granted extra time to complete in conjunction with the physician, PA, APRN, or licensed athletic trainer recommendations, and school nurse guidance (see Student Handbook for absences and work deadlines).
- As the student's recovery progresses through Stages 1-3, teachers should identify essential academic work in each subject and collaborate with department supervisors, as needed, to determine potential reduction in course workload. This will facilitate recovery and help reduce the student's anxiety regarding the perceived volume of work required once the student is medically cleared to resume a full academic load.
- The teacher has the option of assigning the student a grade of incomplete for the progress mark and final exam, as well as making the appropriate change to a semester grade when required work has been completed.
- For any student that participates in interscholastic athletic activities and enters the protocol at a stage other than Stage 5, a separate Return-to-Play Consent Form (Exhibit 7.305-AP2, E3) must be completed by the student's parent/guardian and treating physician, PA, APRN, or licensed athletic trainer working under the supervision of a physician before the student is allowed to return-to-play.
- Because concussion symptoms can be subjective, clear communication and documentation among team members are essential to identify possible symptom exaggeration. If concerns arise, the concussion management team will meet to determine next steps. In such cases, direct communication between the return-to-learn team, the treating physician, PA, APRN and/or athletic trainer, and the parent/guardian is critical.

Common symptoms of Concussion include but are not limited to:

For the Student Who Participates in Interscholastic Athletic Activities

The remainder of this Administrative Procedure addresses the student who participates in interscholastic athletic activities in order to ensure a safe Return-to-Learn and Return-to-Play. Depending on the severity of the concussion, a student may enter at any stage, however, students who participate in interscholastic athletic activities and who have been removed from play or practice must enter at a minimum of Stage 5.

Stages of Concussion Recovery and Academic/Athletic Participation:

- Depending on the severity of the concussion, a student may enter at any stage.
- Students who participate in interscholastic activities and who have been removed from play or practice must enter at a minimum of Stage 5

Five Stage Progression to Full Return to Academic and Athletic Activity

Immediate Removal	Stage 1 - No School - Concussion Sustained, complete Relative period of physical and cognitive and physical rest for typically 24-28 hours.
Return-to-Learn Protocol	Stage 2 - Modified School - Symptoms Decrease with rest, Part time school attendance with accommodations Gradual return to learning if symptoms do not worsen.
Return-to-Learn Protocol	Stage 3 - Full-Day School - Full day school attendance with modifications accommodations.
Return-to-Learn Protocol	Stage 4 - Full Return-to-Learn - Full Academic Load without accommodations

Points of Emphasis:

- ~~It is important to note that the recovery from a concussion is a very individualized process. Caution must be taken not to compare students with concussions as they progress through the recovery process.~~
- ~~An emergency room/acute care note is only temporary until seen by the student's primary care physician or athletic trainer within one week.~~
- ~~The student will report to the school nurse daily while this protocol is being implemented.~~
- ~~The student's missed academic work will be reviewed and granted extra time to complete (see handbook for absences and work deadlines), in conjunction with the physician or athletic trainer recommendations, and school nurse guidance.~~
- ~~As the student's recovery progresses through Stages 1-3, teachers should identify essential academic work in each subject and collaborate with department supervisors, as needed, to determine potential reduction in course workload. This will promote healing, and help reduce the student's anxiety level related to the perceived volume of work that will be required once the student is medically cleared to resume a full academic load.~~
- ~~The teacher has the option of assigning the student a grade of incomplete for the progress mark and final exam, as well as making the appropriate change to a semester grade when required work has been completed.~~
- ~~For the student that participates in interscholastic athletic activities: Upon return to school the student will report to the athletic trainer daily (and school nurse if necessary) to monitor symptoms and determine progression to the next stage within the concussion care protocol. For any student who participates in interscholastic athletic activities and enters the protocol at a stage other than Stage 5, a separate Return to Play Consent Form (Exhibit 7.305-AP2,E2) must be completed by the student's parent/guardian and treating physician/athletic trainer working under the supervision of a physician before the student is allowed to return-to-play.~~

Five Stage Progression to Full Return to Academic and Athletic Activity

~~Concussion symptoms can be subjective in nature, and therefore, it is difficult to know when a student is reporting symptoms accurately. Communication and documentation among team members will help identify a student who may be exaggerating symptoms. If a concern about the legitimacy of the student's complaints arises, the concussion management team must meet to discuss the student's situation and determine the appropriate course of action. In these instances, direct communication between the return-to-learn team and treating physician is imperative.~~

Stage 1: No School - No school attendance, complete cognitive and physical rest

- ~~**Symptoms** - Severe symptoms at rest that interfere with even basic daily tasks. Abnormal Impact results, if applicable. Symptoms may include but are not limited to:
 - ~~Headache or pressure in head, dizziness, nausea, photosensitivity, auditory sensitivity, inability to focus/concentrate, memory/lack of recall, feeling mentally foggy, unusual changes in mood, fatigue~~
 - ~~Students may complain of intense and continuous/frequent headaches~~
 - ~~Students may not be able to read for more than 10 minutes without an increase in symptoms~~~~
- ~~**Treatment** - Emphasis on cognitive and physical rest to allow the brain and body to rest as much as possible.~~
- ~~**Intervention Examples**
 - ~~Initial evaluation by primary care physician (not ER) or athletic trainer~~
 - ~~No School - no tests, quizzes, or homework~~~~

- ~~○ No athletic or co-curricular participation (includes practices and attending events)~~

- ~~○ Parent and student receive copy of Unit 5 Concussion Care Protocol (Procedure 7.305-AP2)~~
- ~~○ School nurse or athletic trainer will notify student's teachers and appropriate staff~~

****Progress to Stage 2 when all symptoms have decreased.**

- ~~• A student who remains in Stage 1 for more than a week must be RE-evaluated by a physician to continue academic modifications and documentation must be provided to the school.~~
- ~~• If the student remains in Stage 1 longer than two weeks, it is possible that the student may need further assistance. The school nurse or athletic trainers will consult with the physician.~~

Stage 2: Modified School – Part time school attendance with accommodations

- ~~• **Symptoms** – Symptoms still exist but are improving, especially with rest. Symptoms may be exacerbated with certain cognitive activities that are complex or of long duration.~~
- ~~• **Treatment** – Gradual re-introduction to school. Avoid tasks that trigger or worsen symptoms. In the first few days of returning to school the goal is not to immediately start catching up on missed work or learn new material. Rather the initial goal is simply to make sure the student can tolerate the school environment without worsening symptoms. The first few days often include just sitting in class and listening (no note-taking or reading). Once the student can tolerate this, (s)he can try short intervals (5-15 minutes) of cognitive work per class. In a trial and error process, if symptoms worsen, cognitive load should decrease.~~
- ~~• **Intervention examples:**~~
 - ~~○ Modified class schedule if necessary with emphasis on core subjects/material~~
 - ~~○ If no improvement in symptoms or if symptoms worsen, parent/guardian will be advised to seek additional medical attention from a neurologist.~~
 - ~~○ Required Interventions:~~
 - ~~• Report daily to the school nurse for the assessment checklist.~~
 - ~~• No PE, athletic participation, recess, or other co-curricular activities (may attend practices or PE class but no participation)~~

 - ~~• Rest in nurse's office to offer breaks between academic classes~~

 - ~~• Obtain a "five minute pass" from the school nurse to avoid noisy, crowded hallways between class periods~~
 - ~~• Divide work sessions into shorter periods (15-20 minutes at a time)~~
 - ~~• Wear sunglasses as needed when having light sensitivity and possibly when viewing Smart Boards, PowerPoint presentations~~
 - ~~• Student may attempt tests, quizzes or homework but may need to complete later~~
 - ~~• Homework load based on symptoms~~
 - ~~• Provide student with copies of class notes (teacher or student generated)~~
 - ~~• Audio books are helpful for students struggling with visual processing~~

****Progress to Stage 3 when symptom free at rest.**

Stage 3: Full Day School - Full day school attendance with modifications

- ~~Symptoms~~ – Symptom free at rest; symptoms may still be exacerbated with certain activities.
- ~~Treatment~~ – As the student improves, gradually increase demands on the brain by increasing the amount, length of time, and difficulty of academic requirements, as long as this does not worsen symptoms.
- ~~Intervention Examples:~~
 - ~~Continue to report daily to the school nurse for assessment checklist~~
 - ~~No PE, athletic participation, recess, or other co-curricular activities (may attend practices or PE class but no participation)~~
 - ~~Continue with interventions listed in Stage 2 as needed~~
 - ~~A 504 Plan may be considered if residual symptoms continue to impact educational performance after 8-10 weeks.~~
 - ~~For the student that participates in interscholastic athletic activities: report daily to the athletic trainer. May see school nurse during the day if necessary. If the student-athlete has taken the baseline IMPACT test:
 - ~~Parent/guardian will complete the IMPACT test consent form and indicate whether or not they want their student-athlete to take the IMPACT test.~~~~

****Progress to Stage 4 when symptom free with mental and physical activity:**

- ~~Student should report any return of symptoms with cognitive or school day activity~~
- ~~For student that participates in interscholastic athletic activities: The re-taken IMPACT test is normal.~~
 - ~~If the baseline IMPACT test was not taken or if the IMPACT test is not re-taken, the student athlete will progress to Return to Learn and Return to Play, but the process will take longer to complete.~~

Stage 4: Full Return-to-Learn, Full Academic Load without accommodations

- ~~Symptoms~~ – Asymptomatic with academic/cognitive and physical activities
- ~~Treatment~~ – Accommodations are removed when the student can participate fully in academic work at school and at home without triggering symptoms.
- ~~Intervention Examples:~~
 - ~~Create plan for possible modification and gradual completion of required make-up work (school counselor, teacher, student, parent)~~
 - ~~Teachers have the discretion to identify essential academic work for their course.~~
 - ~~Students are not required to makeup missed PE classes due to a concussion.~~
 - ~~Report any return of symptoms with cognitive or school day activity to school nurse.~~
 - ~~For the student athlete: report daily to the athletic trainer. Student will begin the required Return-to-Play Protocol with the athletic trainer.~~

****Progress to Stage 5**

- ~~All students: athletes and non-athletes: Progress to Stage 5 when written clearance for gradual participation from primary care physician is received (Exhibit 7.305-AP2-E2 Return-to-Play Consent Form). Upon receipt of clearance, school nurse/athletic trainer will consult with PE teacher regarding appropriate return to full participation within current activity.~~

~~*Progression to Stage 2 typically happens in 24-48 hours when symptoms do not worsen during an activity.~~

~~**A student who remains in Stage 1 for more than a week must be reevaluated by a physician, PA, or APRN to continue academic modifications and documentation must be provided to the school.~~

~~*** If the student remains in Stage 1 longer than two weeks, it is possible that the student may need further assistance. The school nurse or athletic trainer will consult with the physician, PA, or APRN and parent/guardian.~~

~~**Stage 2: Modified School** -Partial Academic Schedule and Accommodations.~~

~~Within a few days after the injury, students may typically return to school gradually. They may need to start with partial school days or rest breaks during the day. They should increase tolerance to cognitive activities such as homework and reading, while getting maximum nighttime sleep. If symptoms do not worsen during an activity, then this activity is ok. If symptoms worsen, cut back on that activity until it is tolerated.~~

- ~~● Short walks and outside time is encouraged.~~

- Get maximum nighttime sleep.
- Students will continue to report daily for symptom monitoring (to the school nurse or athletic trainer if available).

*Progress to Stage 3 when symptoms are nearly gone.

Stage 3: Full Day School - Full Academic Schedule and Accommodations

Return to regular school schedule with gradual reintroduction of typical schoolwork and increase in activities. Student may be allowed to participate in light activity like walking.

- Take breaks if symptoms worsen.
- Return to regular school schedule.
- Encourage outside time, such as taking a walk or short bike ride.
- Students will continue to report daily for symptom monitoring (to the school nurse or athletic trainer if available).

*Progress to Stage 4 when school activities can be tolerated without more than mild symptom exacerbation.

** Student should report any return of symptoms with cognitive or school day activity.

Stage 4: Full Academic Schedule with NO Accommodations.

The student gradually progresses in school activities until a full day can be tolerated without more than mild symptom exacerbation related to the current concussion. Eventual return to full academic activities and catch up on missed work.

- Recovery from a concussion is achieved when the student is able to complete all regular activities including a full academic load without accommodations, and does not experience concussion symptoms related to the current concussion.
- Students will continue to report daily for symptom monitoring (to the school nurse or athletic trainer if available).
- Most students with a concussion feel better within 2 - 4 weeks. If there are new, ongoing, or worsening symptoms, the student should be seen again by the student's physician, PA, or APRN, who may refer them to a specialist with experience in treating brain injuries.

* Students may progress to Stage 5 when written clearance for full activity is received from the student's physician, PA, APRN, or athletic trainer. For the student-athlete, (Exhibit 7.305-AP2, E3 Return-to-Play Consent Form) must be signed prior to participation in the graduated return-to-play.

Stage 5: Graduated Six Step Return-to-Play. No new symptoms are present; the student is consistently tolerating full school days and full academic load without triggering any concussion-related symptoms. CDC or IHSA Return-to-Play Protocol can begin.

Exhibit – Concussion Information

A concussion is a brain injury and all brain injuries are serious. They are caused by a bump, blow, or jolt to the head, or by a blow to another part of the body with the force transmitted to the head. They can range from mild to severe and can disrupt the way the brain normally works.

Even though most concussions are mild, **all concussions are potentially serious and may result in complications including prolonged brain damage and death if not recognized and managed properly.** In other words, even a “ding” or a bump on the head can be serious.

You cannot see a concussion and most sports concussions occur without loss of consciousness. Signs and symptoms of concussion may show up right after the injury or can take hours or days to appear fully. If your child reports any symptoms of concussion, or if you notice the symptoms or signs of concussion yourself, seek medical attention right away.

Symptoms may include one or more of the following:

- Headaches
- “Pressure in head”
- Nausea or vomiting
- Neck pain
- Balance problems or dizziness
- Blurred, double, or fuzzy vision
- Sensitivity to light or noise
- Feeling sluggish, hazy or slowed down
- Feeling foggy or groggy
- Drowsiness
- Change in sleep patterns
- Amnesia
- “Don’t feel right”
- Fatigue or low energy
- Sadness
- Nervousness or anxiety
- Irritability
- More emotional
- Confusion
- Concentration or memory problems (forgetting game plays)
- Repeating the same question/comment

Signs observed by teammates, parents and coaches include:

- Appears dazed or stunned
- Vacant facial expression
- Confused about assignment or position
- Forgets sports plays
- Is unsure of game, score, or opponent
- Moves clumsily or is uncoordinated
- Answers questions slowly
- Slurred speech
- Shows behavior or personality changes
- Can’t recall events prior to hit
- Can’t recall events after hit
- Seizures or convulsions
- Any change in typical behavior or personality
- Loses consciousness

What can happen if my child keeps on playing with a concussion or returns too soon?

Athletes with the signs and symptoms of concussion should be removed from play immediately. Continuing to play with the signs and symptoms of a concussion leaves the young athlete especially vulnerable to greater injury.

There is an increased risk of significant damage from a concussion for a period after that concussion occurs, particularly if the athlete suffers another concussion before completely recovering from the first one. This can lead to prolonged recovery, or even to severe brain swelling (second impact syndrome) with devastating and even fatal consequences.

It is well known that adolescent or teenage athletes will often fail to report symptoms of injuries. Concussions are no different. As a result, education of administrators, coaches, parents and students is the key to student athlete's safety.

If you think your child has suffered a concussion

Any athlete even suspected of suffering a concussion should be removed from the game or practice immediately.

No athlete may return to activity after an apparent head injury or concussion, regardless of how mild it seems or how quickly symptoms clear, without medical clearance. Close observation of the athlete should continue for several hours.

IHSA Policy requires athletes to provide their school with written clearance from either a physician, ~~licensed to practice medicine in all its branches~~ physician assistant, advanced practice registered nurse, or a certified athletic trainer working in conjunction with a physician licensed to practice medicine in all its branches prior to returning to play or practice following a concussion, or after being removed from an interscholastic contest due to a possible head injury or concussion and not cleared to return to that same contest.

In accordance with State law, all IHSA member schools are required to follow this policy.

You should also inform your child's coach if you think that your child may have a concussion. Remember it is better to miss one game than miss the whole season. And when in doubt, the athlete sits out.

Insist that safety comes first.

VENUE: ALL SCHOOLS DURING THE SCHOOL DAY

If an emergency situation arises during the school day the following chain of command will be used in a medical emergency:

- Chain of Command:
1. Supervising Adult
 2. School Nurse (if present)
 3. Principal (if present)

The nearest Supervising Adult will assess the injury/medical situation to determine if Emergency Medical Services should be contacted and will then delegate to another staff member to promptly contact 911 and get the AED if deemed necessary. A second staff member will immediately summon the School Nurse and then the Principal. The School Nurse will assume care (if present) after arriving to the scene. The Supervising Adult, School Nurse or Principal will stay with the injured student until EMS arrives and begin CPR/AED if necessary and trained. The delegated staff member will explain to EMS personnel the situation and specific directions upon arrival to the school.

If the principal is not present, the delegated staff member will notify the principal through cell phone contact about the situation.

EMS personnel will be directed by the delegated staff member to the scene. Other staff members will join in promptly directing EMS to the scene.

AED's are located in each building in designated areas and no more than 300 feet from areas where physical activity is conducted. Appropriate signage is placed in each building to alert staff to the AED location.

**Attach school map with location of all AED's highlighted

WHAT IS A CONCUSSION? What every parent should know:

A concussion is a type of traumatic brain injury. Concussions are caused by a bump or blow to the head. Even a “ding,” “getting your bell rung,” or what seems to be a mild bump or blow to the head can be serious. You can’t see a concussion. Signs and symptoms of concussion can show up right after the injury or may not appear or be noticed until days or weeks after the injury. If your child reports any symptoms of concussion, or if you notice the symptoms yourself, seek medical attention right away.

DANGER SIGNS

Be alert for symptoms that worsen over time. **Your child or teen should be seen in an emergency department right away if they have:**

- One pupil (the black part in the middle of the eye) larger than the other
- Drowsiness or cannot be awakened
- A headache that gets worse and does not go away
- Weakness, numbness, or decreased coordination
- Repeated vomiting or nausea
- Slurred speech
- Convulsions or seizures
- Difficulty recognizing people or places
- Increasing confusion, restlessness, or agitation
- Unusual behavior
- Loss of consciousness (even a brief loss of consciousness should be taken seriously)

WHAT SHOULD YOU DO IF YOU THINK YOUR CHILD HAS A CONCUSSION?

1. **Seek medical attention right away.** A health care provider will be able to determine if your child has had a concussion, how serious it is, and when it is safe for your child to return to normal activities.
2. **Keep your child out of play per your healthcare provider’s recommendation.** Concussions take time to heal. Don’t let your child return to sports/PE or learning until a healthcare provider says it is okay. Students who return to play or return to learn too soon – while their brain is still healing – risk a second injury which could be much more serious.
3. **If your child is diagnosed with a concussion, written instruction from a Healthcare Provider is needed for them to return to school.** One of the following forms located on the district website **MUST** be completed if accommodations are requested (www.unit5.org – students & parents - school health – all forms).
 - Unit 5 Concussion Staging Form for Students who Participate in Interscholastic Athletic Activities
 - Unit 5 Concussion Form for Students (who do NOT participate in interscholastic athletic activities)

**Student-athletes will NOT be allowed to return to play or practice without written clearance from the athletic trainer or healthcare provider.

**HOW CAN YOU HELP YOUR CHILD PREVENT A CONCUSSION OR OTHER SERIOUS
BRAIN INJURY?**

- Ensure that your child follows rules for safety when playing.
- Make sure your child wears the right protective equipment for their activity. Protective equipment should fit properly and be well maintained.
- Wearing a helmet is a very important step to reducing the risk of a serious brain injury or skull fracture during many activities. However, helmets are not designed to completely prevent concussions. There is no “concussion-proof” helmet. So, even with a helmet, it is important for kids and teens to avoid hits to the head.

Exhibit – Concussion Staging Form for Students Who Participate in Interscholastic Athletic Activities

Purpose:

The purpose of this form is to appropriately stage a student's return-to-learn or return-to-play after sustaining a concussion. ~~A student's best chance of full recovery from a concussion involves two critical components: cognitive and physical rest.~~ This form must be completed before a student removed from an interscholastic athletics practice or competition due to a force or impact believed to have caused a concussion is allowed to practice or compete again. This form also must be completed if the parent/guardian, ~~or~~ physician, physician assistant (PA), or advanced practice registered nurse (APRN), or athletic trainer of a student believes the student sustained a concussion and is requesting academic accommodations as a result of the concussion. Schools will identify a team leader to work with each student who sustained a concussion to facilitate a safe return-to-learn and return-to-play. This identified team leader will check in with the student regularly and should establish a communication system between communicate with the physician, PA, APRN, athletic trainer, school administrators, teachers, coaches, school nurse, school counselor, parent/guardian and any other members of the school concussion oversight team. ~~The team leader will communicate with the physician as needed~~ as the student progresses through the stages of recovery.

Team Leader: _____

Instructions:

- **Part A** of this form must be completed by the student's parent/guardian and the certification signed by the student (junior high or high school students) and parent/guardian.
- **Part B** of this form must be completed by the student's treating physician, PA, or APRN (chosen by the student or the student's parent or guardian or another person with legal authority to make medical decisions for the student) or an athletic trainer working under the supervision of a physician.
- Completed forms should be submitted to the school nurse or athletic trainer to initiate the return-to-learn and return-to-play protocol.
- For any student who participates in interscholastic athletic activities and enters the protocols at any stage other than Stage 5, a separate Return-to-Play Consent Form (*Exhibit 7.305-AP2, ~~E2E3~~*) must be completed by the student, the student's parent/guardian, and the student's physician, PA, APRN, or athletic trainer before the student is allowed to return-to-play.

- Stage 1 ~~---~~ Student May Not Attend School At This Time ~~No School.~~ Student may not attend class and should not work on homework assignments, reading projects, etc. This includes not participating in recess, physical education, co-curricular activities, such as all athletic activities, weightlifting, band, music, debate, etc. Continue to limit at-home activities that can worsen symptoms, such as loud music, television, computer screen time, texting, etc. The student follows an initial period of relative physical and cognitive rest for 24-48 hours when symptoms are more severe. May participate in routine activities at home that do not result in more than a mild exacerbation of symptoms *related to the current concussion* (light reading, but minimize screen time and thinking/remembering activities). Start with 5-15 minutes at a time and increase gradually to typical activities.**
- Stage 2 ~~---~~ Partial Academic Schedule and Accommodations. Student may attend school with a partial class schedule. Work with the student to help determine the most appropriate schedule. Classes should be prioritized and not worsen symptoms. Special accommodations may be required to limit symptoms. Homework should be limited during this time. Participation in all athletic activity, recess, weightlifting, PE class, and co-curricular activities is still fully restricted. They should increase tolerance to cognitive activities such as homework and reading, while getting maximum nighttime sleep. If symptoms worsen, cut back on that activity until it is tolerated (see checklist on page 3 to indicate specific academic accommodations requested).

- Stage 3 --- Full Academic Schedule and Accommodations.** ~~Student may participate in a normal classroom schedule, but will still require some accommodations, depending on current symptoms. Continue to work with the student to identify any specific classroom activities that could be worsening symptoms. Student may be able to participate in band and music class if this does not worsen concussion symptoms. All athletic activity, recess, weightlifting and PE class is still not allowed, but the student can start to participate in non-athletic co-curricular activities as tolerated. Gradually increase school participation and independence as tolerated by the student. Return to regular school schedule with gradual reintroduction of typical schoolwork and increase in activities. Student may be allowed to participate in light activity like walking (see checklist on page 3 to indicate specific academic accommodations requested).~~

- Stage 4 --- Full Academic Schedule with NO Accommodations Normal Classroom.** ~~The student may participate in normal classroom activities. The student is NOT allowed to participate in any physical activity, such as recess, physical education, weights, jogging, drills, practice or games. The athlete is NOT cleared to start "Warm Up Play". Work with the student to ensure a classroom "catch-up" plan is in place, if necessary. The student gradually progresses in school activities until a full day can be tolerated without more than mild symptom exacerbation. Eventual return to full academic activities and catch up on missed work.~~

Once participation in the classroom ~~is normal~~ returns to baseline and all new concussion symptoms have resolved or returned to baseline, the physician, physician assistant, advanced practice registered nurse, or athletic trainer for a student who participates in an interscholastic activity should initiate the Full Graduated Return-to-Play protocol (Stage 5) by signing the Return-to-Play Consent Form (Exhibit 7.305-AP2, E2E3). Most students with a concussion feel better within 2 - 4 weeks. If there are new, ongoing, or worsening symptoms, the student should be seen again by their physician, PA, or APRN, who may refer them to a brain injury specialist.

- Stage 5 --- Graduated Return-to-Play.** No new symptoms are present; the student is consistently tolerating full school days and their ~~typical-full~~ academic load without triggering any concussion related symptoms. CDC or IHSA Return-to-Play Protocol can begin.

Medical Professional Certification

By signing below, I certify that:

- (1) I am the Student's treating physician/athletic trainer working under the supervision of a physician;
- (2) I have evaluated the Student using established medical protocols based on peer-reviewed scientific evidence consistent with Centers for Disease Control and Prevention guidelines; and
- (3) In my professional judgment it is safe for the Student to return-to-learn/graduated return-to-play as indicated above.

Subject to these terms, quotations are valid for 30 days unless otherwise agreed by Presidio. Payment is due within 30 days from date of invoice unless otherwise agreed by the parties. Late payments are subject to interest charges of the lesser of 1½% per month or the maximum amount allowed by law. Supply is subject to availability.

Acceptance of Third-Party Terms
Third-party cloud services, software, support and maintenance provided or resold by Presidio may be subject to additional third-party license and use terms. These terms may be included in a direct end user license agreement between you and the applicable OEM/developer/provider (each, a "Supplier") or they may be located at <https://www.presidio.com/supplier-terms> and incorporated herein by reference. By virtue of executing a purchase based on this quotation Client agrees to comply with and be bound by any such Supplier terms, except as prohibited by applicable law.

Master Agreements
If Presidio and Client have entered into a "Master" agreement ("Master") or similar contract covering the purchase(s) of goods and/or 3rd-party or Presidio-provided services, it is the agreement of the parties that the Master shall govern in the event of a conflict between the Master and the terms contained herein unless specifically modified by the parties for a specific quote.

Pricing

- Quoted prices exclude applicable taxes. Invoicing will include applicable taxes unless a valid tax-exempt certificate is provided.
- The price quoted reflects a 3% discount for payment by cash, check or wire transfer. This discount will not apply in the event that CLIENT pays using a credit card or debit card.
- Prices exclude freight, handling or insurance (unless itemized in the quote).
- Presidio reserves the right to update any existing customer quote to reflect updated pricing in the event any Presidio vendors change the price that Presidio must pay for any software, goods or services resold, whether due to new taxes, tariffs or for any other governmentally imposed reason.

Invoicing

- CLIENT is invoiced for hardware ("Goods") upon shipment from the manufacturer ("OEM") and shall accept and pay for partial shipments. Software is invoiced the earlier of shipment of media or when download capability is provided. OEM subscription services are invoiced per the Service Provider terms. OEM – provided services are billed per the OEM SOW. Presidio services are billed per the Presidio SOW.
- Usage-Based Services Terms and Conditions. Presidio shall invoice CLIENT monthly for Usage-Based Services purchased by CLIENT, Notwithstanding the amounts included on the applicable purchase order, invoicing for Usage-Based Services will vary from month to month based upon CLIENT's usage and CLIENT shall be obligated to pay all charges for the Usage-Based Services used by CLIENT in the preceding month. If CLIENT is delinquent in its payment obligations for the Usage-Based Services, then, upon reasonable, prior notice, Presidio reserves the right to suspend or discontinue such services at its sole discretion. CLIENT acknowledges and agrees that such discontinuation or suspension by PRESIDIO will not constitute a breach of PRESIDIO'S obligations to CLIENT. CLIENT agrees to indemnify and hold harmless PRESIDIO for any resulting damages due to the suspension or discontinuation of the Usage-Based Services due to CLIENT's delinquent or non-payment.
- Enterprise Software, Licensing and Subscription Services ("Enterprise Agreement"). Presidio shall invoice CLIENT according to the terms of the Enterprise Agreement between CLIENT and the Third Party. If CLIENT is delinquent in its payment obligations hereunder, then, upon reasonable, prior notice, Presidio reserves the right to suspend or discontinue such services at its sole discretion. CLIENT acknowledges and agrees that such discontinuation or suspension by PRESIDIO will not constitute a breach of PRESIDIO'S obligations to CLIENT. CLIENT agrees to indemnify and hold harmless PRESIDIO for any resulting damages due to the suspension or discontinuation of the services due to CLIENT's late or non-payment.

Freight, Handling, Shipping

- CLIENT will be invoiced for Presidio's and/or the OEM's freight charges for shipment of goods.
- Title/Risk of loss passes to CLIENT Freight on Board (FOB) - Origin unless otherwise agreed to in writing by Presidio. Orders shipped from OEM to Presidio or a third-party site at CLIENT request for warehousing, configuration, storage or otherwise, shall be deemed to have been shipped to CLIENT.
- Presidio accepts no responsibility / liability in connection with the shipment.

- Delivery of software licenses may be accomplished electronically from the software developer.
- Delivery of software maintenance, including upgrades and updates are agreed to be accepted electronically.

Term and Termination of Orders: Subscription and/or Usage-Based Services, Enterprise Agreements and Multi-Year Orders

• The "Initial Term" of an order for Usage-Based Services and/or and Enterprise Agreement ("Order") starts on the date the Usage-Based Services and/or Enterprise Agreement are available for use by CLIENT and continues for the time period stated in the Order. After the Initial Term, unless prohibited by applicable law, there will be an automatic "Renewal Term" of the same length of time unless CLIENT notifies Presidio in writing that CLIENT does not want to renew at least sixty (60) days before the end of the then current Initial Term or Renewal Term. If the fees will change for the Renewal Term, Presidio will notify CLIENT reasonably in advance of the Renewal and in time for CLIENT to accept or reject renewing the Usage-Based Services and/or Enterprise Agreement. If CLIENT agrees with the fee changes, CLIENT may do nothing and the new fees will apply for the Renewal Term.

• Either party may terminate an Order by providing the other party written notice of termination at least sixty (60) days before the end of such Initial or Renewal Term. The termination will be effective on the last day of the Initial or Renewal Term and CLIENT will pay for the Usage-Based Services and/or Enterprise Agreement until the end of the current Initial or Renewal Term regardless of when CLIENT provided notice. Notwithstanding the foregoing, Usage-Based Services and Enterprise Agreements ordered are strictly non-cancelable during the Initial Term or Renewal Term except as otherwise provided in the applicable Service Terms and/or otherwise agreed upon in writing by Presidio. CLIENT will not be entitled to any refund for terminated Usage-Based Services or Enterprise Agreements during the Initial Term or Renewal Term except as agreed upon in writing by Provider and/or Presidio

Multi-Year Agreements

• For multi-year agreements, CLIENT expressly agrees to enter into a binding, non-cancelable agreement per the billing schedule set forth in the quote. THE CLIENT ACKNOWLEDGES AND AGREES THAT THE CLIENT'S AGREEMENT AND PAYMENTS FOR A MULTI-YEAR TRANSACTION ARE ESSENTIAL ELEMENTS OF THE BASIS OF THE BARGAIN BETWEEN THE PARTIES FOR MULTI-YEAR AGREEMENTS, SUCH THAT PRESIDIO WOULD NOT HAVE ENTERED INTO A MULTI-YEAR TRANSACTION WITHOUT SUCH AGREEMENT.

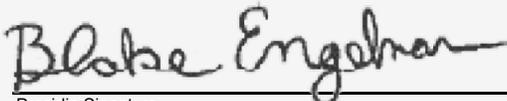

Confidential Information

• CLIENT agrees that any quote provided by Presidio is Presidio Confidential Information. CLIENT shall not disclose this quote to any third party for any purpose.

Customer hereby authorizes and agrees to make timely payment for products delivered and services rendered, including payments for partial shipments
