MEMORANDUM

TO: Finance Committee, ISD 110 School Board

FROM: Pam Carman, Director of Finance & Operations
Tim Bisek, Director of Buildings & Grounds

DATE: December 9, 2024

SUBJECT: Update Indoor Air Quality (IAQ) Project

Purpose

To provide the Finance Committee with an update on the Indoor Air Quality (IAQ) projects at Waconia High School and the District Office, including bid outcomes, variances, and recommendations.

Background

In Fall 2024, we started the bid process for two critical Indoor Air Quality (IAQ) projects at Waconia High School and the District Office. These projects address identified air quality concerns and are scheduled for completion during summer 2025 to minimize disruptions.

Bid Preparation

To encourage broad contractor participation, bid packets included two timeline options:

- **Option A:** The preferred timeline for contractors, offering more time for project completion.
- **Option B:** A compressed schedule to ensure completion within the same summer.

Bids were received and opened on November 12, 2024. Each bid was evaluated based on alignment with project goals, budget adherence, and timeline feasibility.

Funding Overview

- **Total Estimated Cost:** \$16,055,000
- **Funding Plan:**
 - \$5,000,000 in bonds issued in 2024.
 - \$11,055,000 in bonds to be issued in 2025.
- **Initial Budget:** Developed with SiteLogiq, accounting for general trades, mechanical, electrical, and other specialized components.

Following the receipt and evaluation of all bids, we proceeded to select the lowest responsible bids for each category, ensuring alignment with the project goals, budget constraints, and district policies. The bid evaluation process considered base bids, alternate schedules, and any pre-purchase options to maximize cost efficiency while maintaining quality. Pre-purchase items have also been added so we can evaluate the entire cost of the project.

Summary of Vendor Selection and Overall Project Cost

It is our recommendation to proceed with schedule under Option A. This was the preferred schedule for all of the vendors, and it provides the lowest cost option for the district. Below you will find a summary of the total cost based on our vendor selection for the award of the project at each location for each category.

Waconia High School				
Area	Company	Total Bid	Project Bdgt	Variance
General Trades	BCI Construction	\$1,035,000	\$1,589,799	(\$554,799)
Mechanical	Cool Air Mechanical	\$5,636,000	\$6,156,070	(\$520,070)

Total		\$9,712,509	\$11,095,575	(\$1,383,066)

Temperature Controls (UHL):

- **Variance:** Exceeds the budget by **\$535,465**.
- **Update:** Rejected UHL's bid and are reopening the bidding process for this single item at the high school.
- **PRO:** we could receive a more competitive bid from UHL, or a different but equally good company/product.
- **CON:** We could end up with two different systems in the same building with little to no cost savings.

MEMORANDUM

TO: Finance Committee, ISD 110 School Board

FROM: Pam Carman, Director of Finance & Operations

DATE: December 9, 2024

SUBJECT: Update Bond Issuance for IAQ Project and Refunding Bonds

Purpose

The purpose of this memo is to provide an overview of the bond issuance strategy required to fund the Indoor Air Quality (IAQ) projects at Waconia High School and the District Office. It also presents updated information related to the bond refunding to achieve debt service savings.

IAQ Background

In Fall 2024, the district initiated the bid process for two critical IAQ projects to address air quality concerns at Waconia High School and the District Office. The total estimated cost for these projects is \$16,055,000, with work scheduled for summer 2025.

Below you will find the Sources and Uses Tables associated with 2024A LTFM IAQ Bonds that were issued last year, along with the original proposed 2025A LTFM IAQ Bonds:

Description	2024A LTFM IAQ Bonds	2025A LTFM IAQ Bonds	Total LTFM IAQ
Sources of Funds			
Par Amount of Bonds	\$5,165,000	\$10,320,000	\$15,485,000
Reoffering Premium	\$174,678	\$973,131	\$1,147,809
Total Sources	\$5,339,678	\$11,293,131	\$16,632,809

Description	2024A LTFM IAQ Bonds	2025A LTFM IAQ Bonds	Total LTFM IAQ
Uses of Funds			
Deposit to Project Construction Fund	\$5,000,000	\$11,055,000	\$16,055,000
Deposit to Capitalized Interest (CIF) Fund	\$227,403	\$15,000	\$242,403
Total Underwriter's Discount (1.00%)	\$51,650	\$103,200	\$154,850
Cost of Issuance	\$60,625	\$119,931	\$180,556
Total Uses	\$5,339,678	\$11,293,131	\$16,632,809

Current Financial Status

The total estimated project cost, assuming the schedule from Option A and including a 7% contingency, is \$11,131,804. This leaves a surplus of \$1,912,883 from the original funding plan.

Financial Breakdown:

Category	Amount
Original Proposed Funding	\$16,055,000
SiteLogiq Fee	\$3,010,313
IAQ Project Funding	\$13,044,687
High School Project	\$9,712,509
District Office Project	\$691,046
Subtotal Estimated Project Cost	\$10,403,555
Contingency - 7%	\$728,249
Total Estimated Cost	\$11,131,804
Difference	\$1,912,883

To ensure compliance with IRS regulations on tax-exempt bonds, it is important to align the bond issuance with actual project costs and timelines. This alignment supports fiscal responsibility and demonstrates prudent financial stewardship to the community.

IAQ Bond Issuance Recommendation

Given the district's current Moody's bond rating of Baa3 (this is the lowest "investment grade" level of bond before it falls to junk), it is recommended to reduce the 2025 LTFM IAQ Bond issuance by \$1.9 million. This adjustment maintains the integrity of the IAQ projects while addressing long-term financial stability.

Refunding Opportunity

At the October 7, 2024, Finance Committee meeting, we discussed refunding the outstanding 2015B Bonds to achieve debt service savings.

- As of September 23, 2024, estimated savings were approximately \$1,460,000.
- As of November 27, 2024, due to market rate changes, estimated savings have decreased to approximately \$840,000.

Conclusion

The recommendations outlined above are designed to balance project needs with fiscal responsibility while maintaining compliance with bond issuance regulations. For a detailed overview of the financial analysis and projections, please refer to the attached presentation from PMA Securities.

**EXECUTIVE AUDIT SUMMARY (EAS) FOR
INDEPENDENT SCHOOL DISTRICT NO. 110
AUDIT FINDINGS AND RESULTS
YEAR ENDED JUNE 30, 2024**

We prepared this Executive Audit Summary and Management Report in conjunction with our audit of Independent School District No. 110's (the District) financial records for the year ended June 30, 2024.

Audit Opinion – The financial statements are fairly stated. We issued what is known as a “clean” audit report.

Internal Control Over Financial Reporting – Two significant deficiencies in internal control were identified. One significant deficiency related to a lack of controls over tracking and reconciling deferred revenue and accounts receivable within the Community Education department. The other related to lack of board approval over quotes in Nutrition Services.

Compliance Findings – No compliance findings reported.

Single Audit Opinion – Major program tested:

Child Nutrition Cluster

There were no single audit findings reported.

Minnesota Legal Compliance – There were no legal compliance findings reported.

FORMAL REQUIRED COMMUNICATIONS

Board of Education
Waconia Public Schools
Independent School District No. 110
Waconia, Minnesota

We have audited the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Independent School District No. 110 (the District) as of and for the year ended June 30, 2024, and have issued our report thereon dated November 20, 2024. We have previously communicated to you information about our responsibilities under auditing standards generally accepted in the United States of America, *Government Auditing Standards*, and Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance), as well as certain information related to the planned scope and timing of our audit in our engagement agreement dated April 5, 2024. Professional standards also require that we communicate to you the following information related to our audit.

Significant audit findings or issues

Qualitative aspects of accounting practices

Accounting policies

Management is responsible for the selection and use of appropriate accounting policies. The significant accounting policies used by the District are described in Note 1 to the financial statements.

No new accounting policies were adopted and the application of existing policies was not changed during 2024.

We noted no transactions entered into by the District during the year for which there is a lack of authoritative guidance or consensus. All significant transactions have been recognized in the financial statements in the proper period.

Accounting estimates

Accounting estimates are an integral part of the financial statements prepared by management and are based on management's knowledge and experience about past and current events and assumptions about future events. Certain accounting estimates are particularly sensitive because of their significance to the financial statements and because of the possibility that future events affecting them may differ significantly from those expected. There were no accounting estimates affecting the financial statements which were particularly sensitive or required substantial judgments by management.

Financial statement disclosures

Certain financial statement disclosures are particularly sensitive because of their significance to financial statement users. There were no particularly sensitive financial statement disclosures.

The financial statement disclosures are neutral, consistent, and clear.

Significant unusual transactions

We identified no significant unusual transactions.

Difficulties encountered in performing the audit

We encountered no significant difficulties in dealing with management in performing and completing our audit.

Uncorrected misstatements

Professional standards require us to accumulate all misstatements identified during the audit, other than those that are clearly trivial, and communicate them to the appropriate level of management. Management has determined that the effects of uncorrected misstatements are immaterial, both individually and in the aggregate, to the financial statements taken as a whole. The following summarizes uncorrected misstatements of the financial statements:

- It was noted during current year inventory testing that the count of inventory items on hand compared to listing differed. It is projected that current year assets in the Food Service Fund are overstated by \$10,898 and current year change in fund balance is overstated by \$10,898.
- It was noted during current year testing of subscription-based information technology arrangements (SBITAs) that the assets of the governmental activities opinion unit appear to be understated by \$116,741 causing net position and the change in net position to be understated by \$116,741 for Governmental Activities.
- It was noted during current year testing that applicable SBITA agreements were recorded as prepaids instead of being expensed in the current year causing assets of the governmental activities and general fund opinion units to be overstated by \$96,252 and net position/fund balance and the change in net position/fund balance to be overstated by \$96,252.

Uncorrected misstatements or the matters underlying uncorrected misstatements could potentially cause future-period financial statements to be materially misstated, even if management has concluded that the uncorrected misstatements are immaterial to the financial statements under audit.

Corrected misstatements

None of the misstatements detected as a result of audit procedures and corrected by management were material, either individually or in the aggregate, to the financial statements taken as a whole.

Disagreements with management

For purposes of this this communication, a disagreement with management is a disagreement on a financial accounting, reporting, or auditing matter, whether or not resolved to our satisfaction, that could be significant to the financial statements or the auditors' report. No such disagreements arose during our audit.

Management representations

We have requested certain representations from management that are included in the management representation letter dated November 20, 2024.

Management consultations with other independent accountants

In some cases, management may decide to consult with other accountants about auditing and accounting matters, similar to obtaining a "second opinion" on certain situations. If a consultation involves application of an accounting principle to the District's financial statements or a determination of the type of auditors' opinion that may be expressed on those statements, our professional standards require the consulting accountant to check with us to determine that the consultant has all the relevant facts. To our knowledge, there were no such consultations with other accountants.

Significant issues discussed with management prior to engagement

We generally discuss a variety of matters, including the application of accounting principles and auditing standards, with management each year prior to engagement as the District's auditors. However, these discussions occurred in the normal course of our professional relationship and our responses were not a condition to our engagement.

Required supplementary information

With respect to the required supplementary information (RSI) accompanying the financial statements, we made certain inquiries of management about the methods of preparing the RSI, including whether the RSI has been measured and presented in accordance with prescribed guidelines, whether the methods of measurement and preparation have been changed from the prior period and the reasons for any such changes, and whether there were any significant assumptions or interpretations underlying the measurement or presentation of the RSI. We compared the RSI for consistency with management's responses to the foregoing inquiries, the basic financial statements, and other knowledge obtained during the audit of the basic financial statements. Because these limited procedures do not provide sufficient evidence, we did not express an opinion or provide any assurance on the RSI.

Supplementary information in relation to the financial statements as a whole

With respect to the schedule of expenditures of federal awards (SEFA) accompanying the financial statements, on which we were engaged to report in relation to the financial statements as a whole, we made certain inquiries of management and evaluated the form, content, and methods of preparing the SEFA to determine that the SEFA complies with the requirements of the Uniform Guidance, the method of preparing it has not changed from the prior period or the reasons for such changes, and the SEFA is appropriate and complete in relation to our audit of the financial statements. We compared and reconciled the SEFA to the underlying accounting records used to prepare the financial statements or to the financial statements themselves. We have issued our report thereon dated November 20, 2024.

With respect to the individual fund financial statements and schedules and the Uniform Financial Accounting and Reporting Standards Compliance Table (collectively, the supplementary information) accompanying the financial statements, on which we were engaged to report in relation to the financial statements as a whole, we made certain inquiries of management and evaluated the form, content, and methods of preparing the information to determine that the information complies with accounting principles generally accepted in the United States of America, the method of preparing it has not changed from the prior period or the reasons for such changes, and the information is appropriate and complete in relation to our audit of the financial statements. We compared and reconciled the supplementary information to the underlying accounting records used to prepare the financial statements or to the financial statements themselves. We have issued our report thereon dated November 20, 2024.

Other information included in annual reports

Other information (financial or nonfinancial information other than the financial statements and our auditors' report thereon) is being included in your annual report and is comprised of the introductory section. Our responsibility for other information included in your annual report does not extend beyond the financial information identified in our opinion on the financial statements. We have no responsibility for determining whether such other information is properly stated and do not have an obligation to perform any procedures to corroborate other information contained in your annual report. We are required by professional standards to read the other information included in your annual report and consider whether a material inconsistency exists between the other information and the financial statements because the credibility of the financial statements and our auditors' report thereon may be undermined by material inconsistencies between the audited financial statements and other information. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report. Our auditors' report on the financial statements includes a separate section, "Other Information," which states we do not express an opinion or any form of assurance on the other information included in the annual report. We did not identify any material inconsistencies between the other information and the audited financial statements.

FINANCIAL TRENDS OF YOUR DISTRICT

The following graphs reflect financial trends of Independent School District No. 110. Information related to fund balances on pages 7 through 12 was obtained from current and prior year audit reports. Information from Independent School District No. 110, Waconia Public Schools has been included when appropriate for comparison purposes.

The graphs on pages 17 and 18 show expenditures per student served compared to the five most recent years, state averages, and the averages for comparable size school districts (students served of 2,000 – 3,999). Prior year expenditure data and statewide averages were obtained from the Minnesota Department of Education. Current year expenditures were obtained from the current year's audit report.

Opinions

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Independent School District No. 110 (the District), as of and for the year ended June 30, 2024, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the District, as of June 30, 2024, and the respective changes in financial position, and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS) and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the District and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, Schedule of Revenues, Expenditures, and Change in Fund Balance – Budget and Actual – General Fund, Schedule of Revenues, Expenditures, and Change in Fund Balance – Budget and Actual – Food Service Fund, Schedule of Revenues, Expenditures, and Change in Fund Balance – Budget and Actual – Community Service Fund, the Schedule of Changes in the District's Net OPEB Liability and Related Ratios, the Schedule of Money Weighted Rate of Return on Plan Assets, the Schedule of the District's Proportionate Share of the Net Pension Liability, and the Schedule of the District's Contributions, be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with GAAS, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The individual fund financial statements and schedules and the Uniform Financial Accounting and Reporting Standards Compliance Table are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with GAAS. In our opinion, the individual fund financial statements and schedules and the Uniform Financial Accounting and Reporting Standards Compliance Table is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Information

Management is responsible for the other information included in the annual report. The other information comprises the introductory section but does not include the basic financial statements and our auditors' report thereon. Our opinions on the basic financial statements do not cover the other information, and we do not express an opinion or any form of assurance thereon.

In connection with our audit of the basic financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the basic financial statements, or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

Report on Summarized Comparative Information

We have previously audited the District's 2023 financial statements, and we expressed unmodified audit opinions on the respective financial statements of the governmental activities, each major fund, and the aggregate remaining fund information in our report dated December 8, 2023. In our opinion the summarized comparative information presented herein as of and for the year ended June 30, 2023 is consistent in all material respects with the audited financial statements from which it has been derived.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated November 20, 2024, on our consideration of the District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the District's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control over financial reporting and compliance.

MANAGEMENT'S DISCUSSION AND ANALYSIS
YEAR ENDED JUNE 30, 2024**

This section of Waconia Schools – Independent School District 110's annual financial report presents our discussion and analysis of the District's financial performance during the fiscal year that ended on June 30, 2024. Please read it in conjunction with the District's financial statements, which immediately follows this section.

FINANCIAL HIGHLIGHTS

Key financial highlights for the 2023-2024 fiscal year include the following:

- Total General Fund revenues were \$56,740,723 as compared to \$48,760,671 of expenditures and other financing uses which caused fund balance to increase by \$7,980,052.
- Net position increased by \$13,076,510 due to changes in the liability related to pensions, an overall decrease in expenditures.

OVERVIEW OF THE FINANCIAL STATEMENTS

The financial section of the annual report consists of four parts – Independent Auditors' Report, required supplementary information which includes the management's discussion and analysis (this section), the basic financial statements, and supplemental information. The basic financial statements include two kinds of statements that present different views of the District:

- The first two statements are government-wide financial statements that provide both short-term and long-term information about the District's overall financial status.
- The remaining statements are fund financial statements that focus on individual parts of the District, reporting the District's operations in more detail than the government-wide statements.
- The governmental funds statements tell how basic services such as regular and special education were financed in the short term as well as what remains for future spending.
- Proprietary funds statements offer short and long-term financial information about the activities the district operates like businesses.
- Fiduciary funds statements provide information about the financial relationships in which the District acts solely as a trustee or agent for the benefit of others to whom the resources belong.

The financial statements also include notes that explain some of the information in the statements and provide more detailed data.

Government-Wide Statements

The government-wide statements report information about the District as a whole using accounting methods similar to those used by private-sector companies. The Statement of Net Position includes all of the District's assets, deferred outflows of resources, deferred inflows of resources, and liabilities. All of the current year's revenues and expenses are accounted for in the Statement of Activities regardless of when cash is received or paid.

INDEPENDENT SCHOOL DISTRICT NO. 110
MANAGEMENT'S DISCUSSION AND ANALYSIS
YEAR ENDED JUNE 30, 2024**

OVERVIEW OF THE FINANCIAL STATEMENTS (CONTINUED)

Government-Wide Statements (Continued)

The two government-wide statements report the District's net position and how they have changed. Net position – the difference between the District's assets, deferred outflows of resources, liabilities, and deferred inflows of resources – is one way to measure the District's financial health or position.

- Over time, increases or decreases in the District's net position is an indicator of whether its financial position is improving or deteriorating, respectively.
- To assess the overall health of the District, you need to consider additional nonfinancial factors such as changes in the District's property tax base and the condition of school buildings and other facilities.

In the government-wide financial statements the District's activities are shown in one category:

- Governmental Activities – Most of the District's basic services are included here, such as regular and special education, transportation, administration, food services, and community education. Property taxes and state aids finance most of these activities.

Fund Financial Statements

The fund financial statements provide more detailed information about the District's funds – focusing on its most significant or "major" funds – not the District as a whole. Funds are accounting devices the District uses to keep track of specific sources of funding and spending on particular programs:

- Some funds are required by state law and by bond covenants.
- The District establishes other funds to control and manage money for particular purposes (e.g., repaying its long-term debts) or to show that it is properly using certain revenues (e.g., federal grants).

The District has three kinds of funds:

- Governmental Funds – Most of the District's basic services are included in governmental funds, which generally focus on (1) how cash and other financial assets that can readily be converted to cash flow in and out and (2) the balances left at year-end that are available for spending. Consequently, the governmental funds statements provide a detailed short-term view that helps to determine whether there are more or fewer financial resources that can be spent in the near future to finance the District's programs. Because this information does not encompass the additional long-term focus of the government-wide statements, we provide additional information at the bottom of the governmental funds statements to explain the relationship or differences.
- Proprietary Funds – Services for which the District charges a fee are generally reported in proprietary funds. Proprietary funds are reported in the same way as the government-wide statements.
 - The District uses internal service funds to report activities that provide supplies and services for the District's other programs and activities. The District currently has one Internal Service Fund for self-insurance of dental benefits.

MANAGEMENT'S DISCUSSION AND ANALYSIS
YEAR ENDED JUNE 30, 2024**

OVERVIEW OF THE FINANCIAL STATEMENTS (CONTINUED)

- Fiduciary Funds – The District is the trustee, or fiduciary, for assets that belong to others, such as the scholarship funds. The District is responsible for ensuring that the assets reported in these funds are used only for their intended purposes and by those to whom the assets belong. All of the District's fiduciary activities are reported in a separate statement of fiduciary net position and a statement of changes in fiduciary net position. We exclude these activities from the government-wide financial statements because the District cannot use these assets to finance its operations.

FINANCIAL ANALYSIS OF THE DISTRICT AS A WHOLE

Net Position

The District's combined net position was \$6,644,291 on June 30, 2024. This was an increase of 66.3% from the prior year (see Table A-1). Net pension liability decreased by approximately \$1,366,000 and OPEB liability increased by approximately \$278,000 all related to changes in the assumptions.

Changes in Net Position

The District's total revenues were \$74,032,618 for the year ended June 30, 2024. Property taxes and state formula aid accounted for \$51,714,781 of total revenue for the year (see Figure A-1). Another \$16,384,633 came from operating and capital grants. The remainder came from charges for services, other general revenues combined with investment earnings, and program revenues.

The total cost of all programs and services including interest and fiscal charges was \$60,956,108. Total revenues exceeded expenses by \$13,076,510. Charges for services increased due to an increase in community education activities. The decrease in expenses is due to moderate spending offset with an increase in spending of additional federal grants received.

FINANCIAL ANALYSIS OF THE DISTRICT AS A WHOLE (CONTINUED)

The total cost of all governmental activities this year was \$60,956,108.

- Some of the cost was paid by the users of the District's programs \$4,856,029.
- The federal and state governments subsidized certain programs with grants and contributions (\$16,384,633).
- Most of the District's costs, however, were paid for by the District taxpayers and the taxpayers of our state.
- The portion of governmental activities was paid for with \$19,118,954 in property taxes, \$32,595,827 of state aid and \$1,077,175 investment earnings and other general revenues.

FINANCIAL ANALYSIS OF THE DISTRICT AS A WHOLE (CONTINUED)

Typically, the District does not include in an analysis of all governmental funds a breakout of expenses as depicted in Figure A-2. To do so distorts the latitude available to the District to allocate resources to instruction. All governmental funds include not only funds received for the general operation of the district, which are used for classroom instruction, but also includes resources from the entrepreneurial-type funds of Food Service and Community Education, and from resources for fiscal service transactions. Funding for the general operation of the District is controlled by the state and the District does not have the latitude to allocate money received in Food Service or Community Education or for fiscal services to enhance classroom instruction resources. The District cannot take funds from these restricted areas and use the funds to hire teachers to enhance instruction. The above graph, by pooling all expenses, implies that the District does have equal access to all funds to impact classroom instruction. In Minnesota, that is simply not an option.

The total cost of governmental activities, as well as the net cost of these activities, is represented in Table A-3. The net cost represents total cost less program revenues applicable to each category.

**Table A-3

The total cost of all governmental activities for the year ended June 30, 2024 was \$60,956,108.

FINANCIAL ANALYSIS OF THE DISTRICT'S FUNDS

The financial performance of the District as a whole is reflected in its governmental funds as well. As the District completed the year, its governmental funds reported a combined fund balance of \$14,969,856, which is \$12,472,334 more than last year's ending fund balance of \$2,497,522. The increase relates to the increase in state sources and earnings on investments while also decreasing overall expenditures.

GENERAL FUND

The General Fund includes the primary operations of the District in providing educational services to students from kindergarten through grade 12 including pupil transportation activities and capital outlay projects.

Approximately 97% of General Fund operational revenue is controlled by a complex set of state funding formulas resulting in the local school board having no meaningful authority to determine the level of resources. This includes special education state aid that is based upon a cost reimbursement model which used to provide approximately 68%, but which has dropped to provide less than 60% of personnel expenditures. Other state formulas then determine what portion of the revenue will be provided by property taxes and what portion will come from state aid.

ENROLLMENT

Enrollment is a critical factor in determining revenue with approximately 95% of General Fund revenue being determined by enrollment. The following chart shows that the number of students has decreased slightly through school year 2023-2024.

**Table A-4

GENERAL FUND (CONTINUED)

Over the last six years, the District has experienced a decrease in average daily membership of 167 students or 4.12%. The average daily membership decreased during school year 2023-2024 and it is anticipated that the average daily membership will increase in the next five years.

The following schedule presents a summary of General Fund Revenues.

**Table A-5
General Fund Revenues**

Fund	Year Ended		Change	
	June 30, 2024	June 30, 2023	Increase (Decrease)	Percent
Local Sources:

Federal Sources	1,255,095	1,312,610	(57,515)	(4.4)
Total General Fund Revenue	<u>\$ 56,740,723</u>	<u>\$ 53,065,282</u>	<u>\$ 3,675,441</u>	6.9

Total General Fund Revenue increased by \$3,675,441 or 6.9% over the previous year. Basic general education revenue is determined by multiple state formulas, largely enrollment driven, and consists of an equalized mix of property tax and state aid revenue. Therefore, the mix of property tax and state aid can change significantly from year to year without any net change in total revenue. The state basic general education revenue formula per student increased compared to the prior year. State aid for special education increased compared to the prior year. Despite a recent increase in the cross-subsidy, Special Education funding continues to fall short of covering rising program costs, creating ongoing challenges for the District's budget. District officials continue to actively engage with legislative leaders to advocate for further adjustments to Special Education funding laws to address these deficiencies and better support students' needs.

The following schedule presents a summary of General Fund Expenditures.

**Table A-6

GENERAL FUND (CONTINUED)

Total General Fund expenditures decreased by \$3,679,574 or 7.0% from the previous year. Most of this decrease was due to a decrease in salaries and employee benefits.

The unassigned fund balance for the General Fund was \$304,954 as of June 30, 2024. According to Minnesota Statutes, Section 123B.81, subdivision 2, the District is required to report a year-end unreserved General Fund balance exceeding more than 2.50% of its unreserved/undesignated operating expenditures. Fiscal year 2024 is the first year out of Statutory Operating Debt (SOD) with a percentage of 2.57%. The District has come out of SOD this year primarily due to budget cuts and watching overall spending.

General Fund Budgetary Highlights

Following approval of the budget prior to the beginning of the fiscal year, the District revises the annual operating budget in mid-year. These budget amendments typically fall into two categories:

- Implementing budgets for specially funded projects, which include both federal and state grants and reinstating unexpended funds being carried over, and budgeting for student population increases.
- Legislation passes subsequent to budget adoption, changes necessitated by collective bargaining agreements, and increases in appropriations for significant unbudgeted costs.

Actual revenues were \$265,876 more than expected primarily due to an increase in property taxes and other revenue. In addition, investment earnings were more than expected.

The actual expenditures were \$3,281,837 less than budgeted primarily due to a decrease in salaries and employee benefits.

District staff works with the school board, along with representatives from the State of Minnesota in developing a long-term plan to correct its fund balance deficiency. That plan is updated and presented to the board for its approval by January 31st annually.

DEBT SERVICE FUNDS

The Debt Service Fund revenues exceeded expenditures by \$160,380 in FY2024. The remaining fund balance of \$2,351,255 at June 30, 2024 is available for meeting future debt service obligations.

OTHER MAJOR FUNDS

Expenditures exceeded revenue in Food Service Fund by \$83,736 and in the Community Education Fund revenues and other financing sources exceeded expenditures by \$318,645.

From the standpoint of maintaining current operating expenditures within the range of annual revenue and maintaining a sound fund balance, both the Community Service and Food Service Funds continue to operate on a sound financial basis.

INTERNAL SERVICE FUND

Proprietary funds such as the Internal Service Fund are reported using the economic resources measurement focus and the accrual basis of accounting.

CAPITAL ASSET AND DEBT ADMINISTRATION

Capital Assets

By the end of 2024, the District had invested over \$201 million in a broad range of capital assets, including school buildings, athletic facilities, computer and audio-visual equipment, and administrative offices (see Table A-7). (More detailed information about capital assets can be found in Note 4 to the financial statements.)

Facilities – Next Five Years

The District's facilities, with an average age of 27 years, are essential to providing high-quality education in safe and functional environments. While the oldest buildings, Bayview Elementary and Southview Elementary, average 48 and 43 years respectively, the newest facilities, Laketown Elementary and the Learning Center, average just 8 and 7 years. To address ongoing maintenance and modernization needs, the District partnered with SiteLogiq to develop a 10-year Long-Term Facilities Maintenance (LTFM) Plan, which prioritizes infrastructure upgrades, deferred maintenance, energy efficiency, and safety enhancements. The District's long-range facilities plan identifies a need for more significant investments beginning around 2028 to address key priorities. The plan includes key investments ensuring the District remains well-positioned to support growth and evolving educational needs while aligning projects with strategic goals and community expectations. As we continue to manage our future budgets, it is critical to keep these priorities at the forefront to maintain and enhance our facilities effectively.

FACTORS BEARING ON THE DISTRICT'S FUTURE

The District has successfully exited Statutory Operating Debt, demonstrating progress in its fiscal management. However, it continues to face challenges associated with rising labor and transportation costs, along with overall operational expenses. The majority of District employee contracts have been settled through 2026-27, providing greater predictability in known contract costs. Many initial settlements were structured to provide minimal, off-schedule increases in the first two years, allowing for an immediate increase in the District's general fund balance. However, the contracts include higher cost increases in the final two years, creating a need for careful long-term planning. This structure underscores the importance of strategic decision-making now to ensure sufficient resources to meet these higher commitments in future years and reflects the collective effort to balance current needs with future obligations.

The rising costs of Special Education services continue to place pressure on the District's budget. While the state has recently increased funding to help reduce the cross-subsidy gap, the adjustments only partially offset the financial demands of providing these essential services. The District remains committed to meeting the diverse needs of its students, but the current funding model requires ongoing monitoring and creative solutions to ensure financial stability without compromising the quality of education and support provided to students with special needs.

FACTORS BEARING ON THE DISTRICT'S FUTURE (CONTINUED)

Declining enrollment presents an additional challenge for the District, necessitating careful planning to align limited resources with increasing demands in instructional services, daily maintenance and operations, transportation services, food service programming, and community education programming. The general education formula allowance has not kept pace with inflation, and the District receives less categorical funding compared to neighboring districts. As a result, the District relies heavily on local dollars to sustain its programming and maintain its longstanding commitment to providing high-quality education.

Despite these challenges, the District remains dedicated to academic excellence and educational opportunity for all students while upholding its financial responsibility. Continued strategic planning and efforts to optimize funding streams will be essential in navigating these pressures and advancing the District's goals.

RECONCILIATION OF THE STATEMENT OF
REVENUES, EXPENDITURES, AND CHANGE IN FUND BALANCE
GOVERNMENTAL FUNDS TO STATEMENT OF ACTIVITIES
YEAR ENDED JUNE 30, 2024
(WITH SUMMARIZED FINANCIAL INFORMATION FOR THE YEAR ENDED JUNE 30, 2023)**

	2024	2023
Net Change in Fund Balance-Total Governmental Funds	\$ 12,472,334	\$ 1,213,375

Amounts reported for governmental activities in the statement of activities are different because:

Governmental funds report capital outlays as expenditures. However, in the statement of activities, assets are capitalized and the cost is allocated over their estimated useful lives and reported as depreciation/amortization expense. This is the amount by which depreciation/amortization exceeded capital outlays in the current period.

Capital Outlays	2,624,108	579,592
Depreciation/Amortization Expense	(5,225,398)	(5,205,092)

Some capital asset additions are financed through finance purchase agreements. In governmental funds, a finance purchase arrangement is considered a source of financing, but in the statement of net position, the obligation is reported as a liability. Repayment of the principal is an expenditure in the governmental funds, but repayment reduces the obligation in the statement of net position.

Principal Payments - Finance Purchase Agreements	364,400	359,258
--	---------	---------

The governmental funds report debt proceeds as financing sources, while repayment of debt principal is reported as an expenditure. In the statement of net position, however, issuing debt increases long-term liabilities and does not affect the statement of activities and repayment of principal reduces the liability. Also, governmental funds report the effect of premiums when debt is first issued, whereas these amounts are amortized in the statement of activities. Interest is recognized as an expenditure in the governmental funds when it is due. In the statement of activities, however, interest expense is recognized as it accrues, regardless of when it is due. The net effect of these differences in the treatment of debt and related items is as follows:

General Obligation Bond Proceeds	(6,010,000)	-
Bond Premium	(70,547)	-
Repayment of Bond Principal	6,090,000	5,880,000
Repayment of Certificate of Participation	140,000	140,000
Issuance of Lease	-	(101,387)
Repayment of Lease Liability Principal	49,612	48,208

Amortization of Bond Premium	407,506	508,679
Amortization of Loss on Refunding	(9,676)	(13,235)

NOTES TO BASIC FINANCIAL STATEMENTS

**WACONIA PUBLIC SCHOOLS
INDEPENDENT SCHOOL DISTRICT NO. 110
NOTES TO BASIC FINANCIAL STATEMENTS
JUNE 30, 2024**

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. Basis of Presentation

The financial statements of Independent School District No. 110 (the District) have been prepared in conformity with accounting principles generally accepted in the United States of America (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard setting body for establishing governmental accounting and financial reporting principles. The GASB pronouncements are recognized as accounting principles generally accepted in the United States of America for state and local governments.

B. Financial Reporting Entity

The District is an instrumentality of the state of Minnesota established to function as an educational institution. The elected School Board (the Board) is responsible for legislative and fiscal control of the District. A Superintendent is appointed by the Board and is responsible for administrative control of the District.

Accounting principles generally accepted in the United States of America (GAAP) require that the District's financial statements include all funds, account groups, departments, agencies, boards, commissions, and other organizations which are not legally separate from the District. In addition, the District's financial statements are to include all component units - entities for which the District is financially accountable.

Financial accountability includes such aspects as appointing a voting majority of the organization's governing body, significantly influencing the programs, projects, activities, or level of services performed or provided by the organization or receiving specific financial benefits from, or imposing specific financial burden on, the organization. These financial statements include all funds of the District. There are no other entities for which the District is financially accountable.

Student activities of the District are under the School Board's control; therefore, activity is included within the General Fund.

C. Basic Financial Statement Presentation

The government-wide financial statements (i.e., the Statement of Net Position and the Statement of Activities) display information about the reporting government as a whole. These statements include all the financial activities of the District, except for the fiduciary funds.

**WACONIA PUBLIC SCHOOLS
INDEPENDENT SCHOOL DISTRICT NO. 110
NOTES TO BASIC FINANCIAL STATEMENTS
JUNE 30, 2024**

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

C. Basic Financial Statement Presentation (Continued)

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment is offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as general revenues.

The District applies restricted resources first when an expense is incurred for a purpose for which both restricted and unrestricted net position is available. Depreciation expense that can be specifically identified by function is included in the direct expenses of each function. Interest on long-term debt is considered an indirect expense and is reported separately on the statement of activities. Generally, the effect of material interfund activity has been removed from the government-wide financial statements.

Separate fund financial statements are provided for governmental, proprietary, and fiduciary funds. Major individual governmental funds are reported as separate columns in the fund financial statements. Fiduciary funds are presented in the fiduciary fund financial statements by type: scholarship custodial fund and irrevocable OPEB trust. Since by definition, fiduciary fund assets are being held for the benefit of a third party and cannot be used for activities or obligations of the District, these funds are excluded from the government-wide statements.

The Internal Service Fund is presented in the proprietary fund financial statements. Because the principal users of the internal services are the District's governmental activities, the financial statement of the internal service fund is consolidated into the governmental activities column when presented in the government-wide financial statements. The costs of these services are reported in the appropriate functional activity.

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenue of the District's internal service fund is charges for service in the form of insurance premiums. Operating expenses for the internal service fund include the cost of services. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

The accounting and financial reporting treatment applied is determined by its measurement focus and basis of accounting. The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are proprietary fund and fiduciary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are generally recognized as revenues in the fiscal year for which they are levied, except for amounts advance recognized in accordance with a statutory "tax shift" described later in these notes. Grants and similar items are recognized when all eligibility requirements imposed by the provider have been met.

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

D. Measurement Focus and Basis of Accounting

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Under this basis of accounting transactions are recorded in the following manner:

1. Revenue Recognition

Revenue is recognized when it becomes measurable and available. "Measurable" means the amount of the transaction can be determined and "available" means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period. Property tax revenue is generally considered as available if collected within 60 days after year-end. State revenue is recognized in the year to which it applies according to Minnesota Statutes and accounting principles generally accepted in the United States of America. Minnesota Statutes include state aid funding formulas for specific fiscal years. Federal revenue is recorded in the year in which the related expenditure is made. Food service sales, community education tuition, and other miscellaneous revenue (except investment earnings) are recorded as revenues when received because they are generally not measurable until then. Investment earnings are recorded when earned because they are measurable and available. A six-month availability period is generally used for other fund revenue.

2. Recording of Expenditures

Expenditures are generally recorded when a liability is incurred. However, expenditures are recorded as prepaid for approved disbursements or liabilities incurred in advance of the year in which the item is to be used. Principal and interest on long-term debt issues are recognized on their due dates.

Description of Funds

The existence of the various District funds has been established by the State of Minnesota, Department of Education. The accounts of the district are organized on the basis of funds, each of which is considered a separate accounting entity. A description of the funds included in this report is as follows:

Major Governmental Funds

General Fund

The General Fund is used to account for all financial resources except those required to be accounted for in another fund. It includes the general operations and pupil transportation activities of the district, as well as the capital related activities such as maintenance of facilities equipment purchases, health and safety projects, and disabled accessibility projects.

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

D. Measurement Focus and Basis of Accounting (Continued)

Major Governmental Funds (Continued)

Food Service Special Revenue Fund

The Food Service Fund is used to account for food service revenues and expenditures. Revenues consist of user fees, and state and federal reimbursements restricted for the Food Service Fund.

Community Service Special Revenue Fund

The Community Service Fund is used to account for services provided to residents in the areas of recreation, civic activities, nonpublic pupils, veterans, adult or early childhood programs, K-6 extended day programs or other similar services. Revenues consist of local property taxes, state tax credits, user fees, and state aids restricted for the Community Service Fund.

Capital Projects Fund

The Capital Projects Fund is used to account for financial resources used for the acquisition or construction of major capital facilities.

Debt Service Fund

The Debt Service Fund is used to account for the accumulation of resources for, and payment of, general long-term obligation bond principal, interest, and related costs.

Proprietary Fund

Internal Service Fund

The Internal Service Fund accounts for financing of goods or services provided by one department to other departments or agencies of the government, or to other governments, on a cost-reimbursement basis. The District's Internal Service Fund includes its self-insured dental insurance plan for its employees.

Fiduciary Funds

Scholarship Custodial Fund

The Scholarship Custodial Fund is used to account for money held by the District in a custodial capacity, where both the principal and interest may be spent.

Other Postemployment Benefits Irrevocable Trust Fund

The Other Postemployment Benefits Irrevocable Fund is used for reporting resources set aside and held in an irrevocable trust arrangement for postemployment benefits.

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

E. Budgeting

Budgets presented in this report for comparison to actual amounts are presented in accordance with accounting principles generally accepted in the United States of America. Each June, the School Board adopts an annual budget for the following fiscal year for the General, Food Service, Community Service, and Debt Service Funds. The approved budget is published in summary form in the District's legal newspaper by October 1 of each year. Reported budget amounts represent the amended budget as adopted by the School Board. Legal budgetary control is at the fund level.

Procedurally, in establishing the budgetary data reflected in these financial statements, the Superintendent submits to the School Board prior to July 1, a proposed operating budget for the fiscal year commencing July 1. The operating budget includes proposed expenditures and the means to finance them. The budget is legally enacted by School Board action. Revisions to budgeted amounts must be approved by the School Board. Individual amendments were not material in relation to the original appropriations.

Total fund expenditures in excess of the budget require approval of the School Board. Spending control is established by the amount of expenditures budgeted for the fund, but management control is exercised at line-item levels.

Budget provisions for the Debt Service Fund are set by state law governing required debt service levels.

F. Cash and Investments

Cash and investments consist of interest-bearing accounts, certificates of deposit, government and municipal securities, money markets, and deposits in the Minnesota Trust Investment Shares Portfolio.

Cash balances from all funds, except the OPEB Irrevocable Trust Fund, are combined and invested to the extent available in various securities as authorized by Minnesota Statutes. Earnings from the pooled investments are allocated to the respective funds on the basis of applicable cash balance participation by each fund.

G. Accounts Receivable

Represents amounts receivable from MDE and other governments for goods and services furnished by the District. No substantial losses are anticipated from present receivable balances, therefore, no allowance for uncollectible accounts is deemed necessary. The only receivables not expected to be collected within one year are property taxes receivable.

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

H. Inventories

Inventories are recorded using the consumption method of accounting and consist of purchased food and other supplies on hand at year end, and surplus commodities received from the federal government. Food and supply purchases are recorded at invoice cost, computed on a first-in, first-out method, and surplus commodities are stated at standardized cost, as determined by the Department of Agriculture.

I. Prepaid Items

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepayments. Prepaid items are expensed during the periods benefitted. Prepaid items are recorded using the consumption method of accounting.

J. Property Taxes

Property tax levies are established by the School Board in December each year and are certified to the County for collection the following calendar year. In Minnesota, counties act as collection agents for all property taxes and are responsible for spreading all levies over taxable property. Such taxes become a lien on January 1. Taxes are generally due on May 15 and October 15, and counties generally remit taxes to Districts at periodic intervals as they are collected. A portion of property taxes levied is paid through state credits which are included in revenue from state sources in the financial statements.

Generally, tax revenue is recognized in the fiscal year ending June 30, following the calendar year in which the tax levy is collectible, while the current calendar year tax levy is recorded as unavailable revenue (property taxes levied for subsequent year). The majority of District revenue in the General Fund (and to a lesser extent in the District's Community Service Special Revenue Fund) is determined annually by statutory funding formulas. The total revenue allowed by these formulas is then allocated between taxes and state aids by the Legislature based on education funding priorities. Changes in this allocation are periodically accompanied by a change in property tax revenue recognition referred to as the "tax shift." In the Debt Service Fund, all property taxes collected in a calendar year are recorded as revenue in the fiscal year which begins July 1 of that calendar year.

In accordance with state law, the current tax shift consists of an amount equal to 31% of the operating levy that was in place for the District's 2000 Pay 2001 levy, which is frozen at \$310,967. Certain other portions of the District's 2023 Pay 2024 levy, normally revenue for the 2024-2025 fiscal year, are also advance recognized at June 30, 2024, as required by state statute to match revenue with the same fiscal year as the related expenditures.

**WACONIA PUBLIC SCHOOLS
INDEPENDENT SCHOOL DISTRICT NO. 110
NOTES TO BASIC FINANCIAL STATEMENTS
JUNE 30, 2024**

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

J. Property Taxes (Continued)

Taxes that remain unpaid are classified as delinquent taxes receivable. Revenue from these delinquent property taxes that is not collected within 60 days of year-end is unavailable because it is not known to be available to finance the operations of the District in the current year. No allowance for uncollectible taxes has been provided as such amounts are not expected to be material. Current levies of local taxes, less the amount recognized as revenue in the current period, including portions assumed by the State which will be recognized as revenue in the next fiscal year beginning July 1, 2024, are included in Property Taxes Levied for Subsequent Year to indicate that, while they are current assets, they will not be recognized as revenue until the following year.

K. Capital Assets

Capital assets are capitalized at historical cost, or estimated historical cost for assets where actual historical cost is not available. Donated assets are recorded as capital assets at their acquisition value at the date of donation. The District maintains a threshold level of \$5,000 or more for capitalizing capital assets. The cost of normal maintenance and repairs that do not add to the value of the asset or materially extend asset lives are not capitalized.

Capital assets are recorded in the government-wide financial statement, but are not reported in the Fund financial statements. Capital assets are depreciated using the straight-line method over their estimated useful lives. Since surplus assets are sold for an immaterial amount when declared as no longer needed for public school purpose by the District, no salvage value is taken into consideration for depreciation purposes. Useful lives vary from 20 to 50 years for land improvements and buildings, and 5 to 15 years for equipment.

Right-to-use lease assets are initially measured at the present value of payments expected to be made during the lease term, adjusted for lease payments made at or before the lease commencement date, plus certain initial direct costs. Subsequently, the lease asset is amortized in a systematic and rational manner over the shorter of the lease term or the useful life of the underlying asset.

Capital assets not being depreciated include land and construction in progress.

The District does not possess any material amounts of infrastructure capital assets. Items such as sidewalks and other land improvements are considered to be part of the cost of buildings or other improvable property.

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

L. Deferred Outflows of Resources

In addition to assets, the statement of net position reports a separate section for deferred outflows of resources. This separate financial statement element represents a consumption of net position that applies to a future period. The District will not recognize the related outflows until a future event occurs.

The District has three types of items. The first type, *pension related*, is related to differences in actual and projected earnings on plain investments, changes in assumptions, differences in expected and actual economic experience, changes in proportionate share and contributions subsequent to the measurement date. The second type, *other postemployment benefit related*, is related to contributions subsequent to the measurement date. The third type is the loss on a bond refunding transaction that will be recognized over the life of the refunding bonds.

M. Long-Term Obligations

In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities. Bond premiums and discounts are amortized over the life of the bonds using the straight-line method, which approximates the effective interest rate method. Bonds payable are reported net of the applicable bond premium or discount.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

N. Accrued Employee Benefits

1. Compensated Absences

Vacation Pay and Sick Leave

It is the District's policy to permit employees to accumulate earned but unused vacation and sick pay benefits. These benefits are reported as liabilities in the government-wide financial statements and as expenditures when taken in the fund financial statements. At June 30, 2024, a liability for vacation pay totaling \$250,965 is recorded in the Statement of Net Position.

The District has a sick leave bank to which employees contribute earned sick leave. Participating employees use sick leave from this bank upon depletion of their own sick leave balances. At June 30, 2024, a liability for this sick leave bank of \$12,016 is recorded in the Statement of Net Position.

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

N. Accrued Employee Benefits (Continued)

1. Compensated Absences (Continued)

Severance Payable

Various bargaining groups, other than teachers, have contract language providing for severance benefits upon meeting the defined requirements. The amount paid varies based on years of service and is based on accumulated sick leave. The vested amount for all eligible employees at year-end totals \$8,460 and is recorded as a liability on the government-wide financial statements.

2. Other Postemployment Benefits

Under the terms of certain collectively bargained employment contracts, including the teachers' and administrators' contracts, the District is required to pay fixed amounts (generally \$350 per month) toward the health insurance premiums of retired employees until they reach specified age requirements such as Medicare eligibility.

For purposes of measuring the net OPEB liability, deferred outflows of resources, and deferred inflows of resources related to OPEB, and OPEB expense, information about the fiduciary net position have been determined on the same basis as they are reported by the District. For this purpose, the District recognizes benefit payments when due and payable in accordance with the benefit terms. Investments are reported at amortized cost.

O. Deferred Inflows of Resources

In addition to liabilities, the financial statements will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow or resources (revenue) until that time.

The District has four types of items. The first occurs because property tax receivables are recorded in the current year, but the revenue will be recorded in the subsequent year. The second type of deferred inflows of resources occurs because governmental fund revenues are not recognized until available (collected no later than 60 days after the end of the District's year-end) under the modified accrual basis of accounting. The third type, *pension related*, is related to changes in assumptions, differences in actual and projected earnings on plan investments, differences in expected and actual economic experience and changes in proportionate share. The fourth type, *other postemployment benefit related*, is related to changes in assumptions and differences in expected and actual economic experience.

P. Pensions

For purposes of measuring the net pension liability, deferred outflows/inflows of resources, and pension expense, information about the fiduciary net position of the Public Employees Retirement Association (PERA) and Teachers Retirement Association (TRA) and additions to/deductions from PERA's and TRA's fiduciary net position have been determined on the same basis as they are reported by PERA and TRA. For this purpose, plan contributions are recognized as of employer payroll paid dates and benefit payments and refunds are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

TRA has a special funding situation created by direct aid contributions made by the state of Minnesota, City of Minneapolis, and Minneapolis School District. This direct aid is a result of the merger of the Minneapolis Teachers Retirement Fund Association into TRA in 2006. A second direct aid source is from the state of Minnesota for the merger of the Duluth Teacher's Retirement Fund Association in 2015.

PERA has a special funding situation created by direct aid contributions made by the state of Minnesota for the merger of the Minneapolis Employees Retirement Fund into GERF in fiscal year 2006.

Q. Statement of Cash Flows

For purposes of the Statement of Cash Flows, the District considers all highly liquid investments with an original maturity from the time of purchase by the District of three months or less to be cash equivalents.

R. Fund Balance

In the fund financial statements, governmental funds report nonspendable, restricted, committed, assigned, and unassigned fund balances. Nonspendable portions of fund balance related to prepaids and inventory. Restricted funds are constrained by outside parties (statute, grantors, bond agreements, etc.). Committed fund balances are established and modified by a resolution approved by the Board of Education. The District currently does not report any committed fund balance. The Board of Education passed a resolution authorizing the Director of Finance and Operations the ability to assign fund balances and its intended uses. Unassigned fund balance is considered the remaining amounts, usually in the General Fund only. A negative unassigned fund balance may be reported in other governmental funds, if expenditures incurred for specific purposes exceeded the amounts restricted, committed or assigned for those purposes.

In accordance with the District's fund balance policy, when an expenditure is incurred for purposes for which both restricted and unrestricted fund balance is available; it is the District's policy to use restricted first, then unrestricted fund balance. When an expenditure is incurred for purposes for which committed, assigned and unassigned fund balance is available, it is the District's policy to use committed first, then assigned and finally unassigned fund balance.

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

R. Fund Balance (Continued)

The District has a minimum fund balance policy, which identifies a minimum unassigned fund balance in the General Fund of no less than 5% and not more than 25% of the general fund operating budgeted expenditures.

S. Net Position

Net position represents the difference between assets and deferred outflows of resources and liabilities and deferred inflows of resources in the government-wide, Proprietary Fund, and Fiduciary Fund financial statements. Net investment in capital assets, consists of capital assets, net of accumulated depreciation/amortization, reduced by the outstanding balance of any long-term debt used to build or acquire the capital assets. Net position is reported as restricted in the government-wide financial statement when there are limitations imposed on its use through external restrictions imposed by creditors, grantors, laws, or regulations of other governments.

T. Summarized Comparative Information

The basic financial statements include certain prior year summarized comparative information in total but not at the level required for a presentation in conformity with generally accepted accounting principles. Accordingly, such information should be read in conjunction with the District's financial statements for the year ended June 30, 2023, from which the summarized information was derived.

NOTE 2 STEWARDSHIP AND ACCOUNTABILITY

A. Excess of Expenditures Over Budget

Expenditures exceeded budgeted amounts in the following fund at June 30, 2024.

	Budget	Expenditures	Excess
Special Revenue Funds:			
Community Service Fund	\$ 3,309,668	\$ 3,902,577	\$ 592,909

All related expenditures were approved by the District's Board and funded by existing fund balance.

B. Transfers in/Transfers Out

	Transfer In:		Total
	Community Service Fund	Internal Service Fund	
General Fund	\$ 91,370	\$ 88,362	\$ 179,732

The transfer from General Fund to the Community Service Fund is related to the expenditures associated with Special Education reimbursing pre-school for spots in the pre-school that are held for ECSE students. The transfer from General Fund to Internal Service Fund is to close out CarverLink activity.

NOTE 3 DEPOSITS AND INVESTMENTS

A. Deposits

The School District maintains a cash and investment pool that is available for use by all funds, except the OPEB Irrevocable Trust Fund. Each fund type's portion of this pool is displayed in the financial statements as "Cash and Investments." In accordance with Minnesota Statutes the School District maintains deposits at financial institutions which are authorized by the School District Board.

Custodial Credit Risk – Custodial credit risk for deposits is the risk that in the event of a bank failure, the School District's deposits may not be returned to it. The School District does not have a specific deposit policy for custodial credit risk but rather follows Minnesota Statutes for deposits.

Minnesota Statutes require that all deposits be protected by insurance, surety bond, or collateral. The market value of collateral pledged must equal 110% of the deposits not covered by insurance or corporate surety bonds. Authorized collateral include U.S. government treasury bills, notes, or bonds; issues of a U.S. government agency; general obligations of a state or local government rated "A" or better; revenue obligations of a state or local government rated "AA" or better; irrevocable standby letter of credit issued by a Federal Home Loan Bank; and time deposits insured by a federal agency. Minnesota Statutes require securities pledged as collateral be held in safekeeping in a restricted account at the Federal Reserve Bank or at an account at a trust departments of a commercial bank or other financial institution not owned or controlled by the depository.

The District's deposits in banks at June 30, 2024 were entirely covered by federal depository insurance or by collateral in accordance with Minnesota Statutes.

B. Investments

The District does not have an investment policy and invests its idle funds as authorized by Minnesota Statutes as follows:

- 1) Direct obligations or obligations guaranteed by the United States or its agencies
- 2) Shares of investment companies registered under the Federal Investment Company Act of 1940 and received the highest credit rating, is rated in one of the two highest rating categories by a statistical rating agency, and all of the investments have a final maturity of thirteen months or less

- 3) General obligations rated "A" or better; revenue obligations rated "AA" or better
- 4) General obligations of the Minnesota Housing Finance Agency rate "A" or better
- 5) Bankers' acceptances of United States banks eligible for purchase by the Federal Reserve System
- 6) Commercial paper issued by United States banks corporations or their Canadian subsidiaries, of highest quality category by a least two nationally recognized rating agencies, and maturing in 270 days or less
- 7) Guaranteed investment contracts guaranteed by United States commercial banks or domestic branches of foreign banks or United States insurance companies if similar debt obligations of the issuer or the collateral pledged by the issuer is in the top two rating categories
- 8) Repurchase or reverse purchase agreement and securities lending agreements financial institutions qualified as a "depository" by the government entity, with banks that are members of the Federal Reserve System with capitalization exceeding \$10,000,000, a primary reporting dealer in U.S. government securities to the Federal Reserve Bank of New York, or certain Minnesota securities broker-dealers

In addition, investments held by the OPEB Irrevocable Trust Fund may be invested as authorized by Minnesota State Statute Section 356A.06, Subdivision 7.

At June 30, 2024 the District's investment balances were as follows:

	Amount
MN Trust Investment Shares Portfolio	\$ 14,759,926
MN Trust Term Series	3,000,000
Money Market	292,412
Mutual Funds	512,000
Total	\$ 18,564,338

MN Trust is an external investment pool (Pool). The Pool is regulated by Minnesota statutes and is not registered with the Securities and Exchange Commission (SEC) as an investment company. The MN Trust Investment Series and Term Series is managed to maintain a dollar-weighted average portfolio maturity of no greater than 60 days and seeks to maintain a constant net asset value (NAV) per share of \$1.00. The Pool elects to measure its investments at amortized cost in accordance with accounting statements issued by the Governmental Accounting Standards Board. The MN Trust Term Series withdrawals requires a seven-day notice of redemption and would likely carry a penalty. The MN Trust Investment Series withdrawals may only be made on the third Wednesday of each month upon advance written notice, with no penalties assessed.

B. Investments (Continued)

Interest Rate Risk

Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. Generally, the longer the maturity of an investment, the greater the sensitivity of its fair value to changes in market interest rates. The District's investment policy states the District shall manage investments in a manner to attain market rate of return through various economic and budgetary cycles, while preserving and protecting the capital in the investment portfolio and taking into account constraints on risk and cash flow requirements. The District's investment policy also includes structuring the investment portfolio so that funds are available to meet immediate payment requirements. Information about the sensitivity of the fair values of the District's investments to market interest rate risk fluctuations is provided by the following table that shows the distribution of the District's investments by maturity:

Type	Total	6 Months or Less	7 to 12 Months	13 to 36 Months	More than 36 Months
MN Trust Investment Shares Portfolio	\$ 14,759,926	\$ 14,759,926	\$ -	\$ -	\$ -

Custodial Credit Risk

For an investment, custodial risk is the risk that, in the event of failure of the counterparty, the District will not be able to recover the value of its investment or collateral securities that are in the possession of an outside party. The District's bond documents require insurance covering all balances held in each investment account.

Credit Risk

Generally, credit risk is the risk that an issuer of an investment will not fulfill its obligation to the holder of the investment. This is measured by the assignment of a rating by a nationally recognized statistical rating organization. The following chart summarizes year-end ratings for the District's investments as rated by Moody's Investors Service:

C. Fair Value Measurements

The District uses fair value measurements to record fair value adjustments to certain assets and liabilities and to determine fair value disclosures.

The District follows an accounting standard that defines fair value, establishes a framework for measuring fair value, establishes a fair value hierarchy based on the quality of inputs used to measure fair value, and requires expanded disclosures about fair value measurements. In accordance with this standard, the District has categorized its investments, based on the priority of the inputs to the valuation technique, into a three-level fair value hierarchy. The fair value hierarchy gives the highest priority to quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). If the inputs used to measure the financial instruments fall within different levels of the hierarchy, the categorization is based on the lowest level input that is significant to the fair value measurement of the instrument.

NOTES TO BASIC FINANCIAL STATEMENTS
JUNE 30, 2024**

NOTE 3 DEPOSITS AND INVESTMENTS (CONTINUED)

C. Fair Value Measurement (Continued)

Financial assets and liabilities recorded on the combined statement of financial position are categorized based on the inputs to the valuation techniques as follows:

Level 1 – Financial assets and liabilities are valued using inputs that are unadjusted quoted prices in active markets accessible at the measurement date of identical financial assets and liabilities. The inputs include those traded on an active exchange, such as the New York Stock Exchange, as well as U.S. Treasury and other U.S. government and agency mortgage-backed securities that are traded by dealers or brokers in active over-the-counter markets.

Level 2 – Financial assets and liabilities are valued based on quoted prices for similar assets, or inputs that are observable, either directly or indirectly for substantially the full term through corroboration with observable market data.

Level 3 – Financial asset and liabilities are valued using pricing inputs which are unobservable for the asset, inputs that reflect the reporting entity’s own assumptions about the assumptions market participants and would use a pricing the asset.

Assets of the District measured at fair value on a recurring basis are summarized below:

Type	Level 1	Level 2	Level 3	Total
Mutual Funds	\$ -	\$ 512,000	\$ -	\$ 512,000

NOTE 5 LONG-TERM LIABILITIES (CONTINUED)

C. Description of Long-Term Debt

Compensated Absences Payable

Compensated absences payable consists of unused vacation, sick leave bank and severance benefits payable to employees upon retirement. All benefits are paid by the General and Special Revenue Funds. Annual payments to retire the severance benefits liability have not been determined and will depend on actual employee turnover. Resources for the payment of compensated absences benefits payable included in long-term liabilities will be provided primarily by the General Fund.

Arbitrage Rebate Liability

The Tax Reform Act of 1986 requires school districts and other governmental entities to pay to the federal government income earned on the proceeds from the issuance of debt in excess of interest costs, pending the expenditure of the borrowed funds. This rebate of interest income (known as arbitrage) applies to governmental debt issued after August 31, 1986.

Certain bond issues of the District are subject to the arbitrage rebate requirements. However, management does not expect to incur any significant arbitrage rebate liability.

NOTE 6 RESTRICTED FUND BALANCE

Certain portions of fund balance are restricted based on state requirements to track special program funding, to provide for funding on certain long-term liabilities, or as required by other outside parties. Any such "restrictions" which have an accumulated deficit rather than a positive balance at June 30 are reported as a deficit balance because there is specific revenue authority under state accounting guidelines which will be utilized to eliminate the deficit. A description of these "deficit balance restrictions" is included herein since the District has specific statutory authority to levy taxes for such deficits.

NOTE 6 RESTRICTED FUND BALANCE (CONTINUED)

Certain portions of fund balance are assigned as determined by Director of Finance and Operations. The authority to assign fund balance was provided by the Board of Education to the Director of Finance and Operations.

Restricted and assigned fund balances at June 30, 2024 are as follows:

A. Restricted for Student Activities

Represents available resources to be used for extracurricular activity funds raised by students.

B. Restricted for Literacy Incentive Aid

Represents the resources available to support implementation of evidence-based reading instruction.

C. Restricted for Learning and Development

Represents available resources dedicated exclusively for staff development in accordance with state statute.

D. Restricted for Gifted and Talented

Represents available resources from general education aid revenue for gifted and talented program.

E. Restricted for Basic Skills

Represents resources available for the basic skills uses.

F. Restricted School Library Aid

Represents the resources available for the school library aid uses.

G. Restricted Student Support Personnel

Represents the resources available to be used for student support personnel that are in addition to current staff levels.

H. Restricted for Safe Schools

Restricted for Safe Schools represents the unspent resources available from the safe schools' levy.

I. Restricted for Community Education Programs

Restricted for Community Education Programs represents accumulated resources available to provide general community education programming.

J. Restricted for Early Childhood and Family Education Programs

Restricted for Early Childhood and Family Education Programs represents accumulated resources available to provide services for early childhood and family education programming.

NOTE 7 PENSION PLANS

A. Plan Description

1. General Employees Retirement Plan

The District participates in the following cost-sharing multiple-employer defined benefit pension plans administered by the Public Employees Retirement Association (PERA). PERA's defined benefit pension plans are established and administered in accordance with Minnesota Statutes, Chapters 353 and 356. PERA's defined benefit pension plans are tax-qualified plans under Section 401(a) of the Internal Revenue Code.

All full-time and certain part-time employees of the District, other than teachers, are covered by the General Employees Plan. General Employees Plan members belong to the Coordinated Plan. Coordinated Plan members are covered by Social Security.

NOTE 7 PENSION PLANS (CONTINUED)

A. Plan Description (Continued)

2. Teachers Retirement Fund (TRA)

The Teacher's Retirement Association (TRA) is an administrator of a multiple employer, cost-sharing, defined benefit retirement fund. TRA administers a Basic Plan (without Social Security coverage) and a Coordinated Plan (with Social Security coverage) in accordance with Minnesota Statutes, Chapters 354 and 356. TRA is a separate statutory entity and administered by a Board of Trustees. The Board consists of four active members, one retired member, and three statutory officials.

Educators employed in Minnesota's public elementary and secondary schools, charter schools, and certain other TRA-covered educational institutions maintained by the state are required to be TRA members (except those employed by St. Paul schools or Minnesota state colleges and universities). Educators first hired by Minnesota state may elect either TRA coverage or coverage through the Defined Contribution Plan (DCP) administered by the state of Minnesota.

B. Benefits Provided

1. General Employees Plan Benefits

PERA provides retirement, disability, and death benefits. Benefit provisions are established by state statute and can only be modified by the state Legislature. Vested, terminated employees who are entitled to benefits, but are not receiving them yet, are bound by the provisions in effect at the time they last terminated their public service.

General Employees Plan benefits are based on a member's highest average salary for any five successive years of allowable service, age, and years of credit at termination of service. Two methods are used to compute benefits for PERA's Coordinated Plan members. Members hired prior to July 1, 1989, receive the higher of Method 1 or Method 2 formulas. Only Method 2 is used for members hired after June 30, 1989. Under Method 1, the accrual rate for Coordinated members is 1.2% of average salary for each of the first 10 years of service and 1.7% of average salary for each additional year. Under Method 2, the accrual rate for Coordinated members is 1.7% of average salary for all years of service. For members hired prior to July 1, 1989, a full annuity is available when age plus years of service equal 90 and normal retirement age is 65. For members hired on or after July 1, 1989, normal retirement age is the age for unreduced Social Security benefits capped at 66.

NOTE 7 PENSION PLANS (CONTINUED)

B. Benefits Provided (Continued)

1. General Employees Plan Benefits (Continued)

Benefit increases are provided to benefit recipients each January. The postretirement increase is equal to 50% of the cost-of-living adjustment (COLA) announced by the SSA, with a minimum increase of at least 1% and a maximum of 1.5%. Recipients that have been receiving the annuity or benefit for at least a full year as of the June 30 before the effective date of the increase will receive the full increase. Recipients receiving the annuity or benefit for at least one month but less than a full year as of the June 30 before the effective date of the increase will receive a reduced prorated increase. In 2023, legislation repealed the statute delaying increases for members retiring before full retirement age.

2. TRA Benefits

TRA provides retirement benefits as well as disability benefits to members, and benefits to survivors upon death of eligible members. Benefits are established by Minnesota Statute and vest after three years of service credit. The defined retirement benefits are based on a member's highest average salary for any five consecutive years of allowable service, age, and a formula multiplier based on years of credit at termination of service.

Two methods are used to compute benefits for TRA's Coordinated and Basic Plan members. Members first employed before July 1, 1989, receive the greater of the Tier I or Tier II benefits as described.

Tier I Benefits

Tier I	Step Rate Formula	Percentage
Basic	First 10 Years of Service	2.2% per Year
	All Years After	2.7% per Year
Coordinated	First 10 Years of Service are up to July 1, 2006	1.2% per Year
	First 10 Years, if Service Years are July 1, 2006 or After	1.4% per Year
	All Other Years of Service if Service Years are Up to July 1, 2006	1.7% per Year
	All Other Years of Service if Services Years are July 1, 2006 or After	1.9% per Year

With these provisions:

- (a) Normal retirement age is 65 with less than 30 years of allowable service and age 62 with 30 or more years of allowable service.
- (b) 3.0% per year early retirement reduction factor for all years under normal retirement age.
- (c) Unreduced benefits for early retirement under a Rule-of-90 (age plus allowable service equals 90 or more).

NOTE 7 PENSION PLANS (CONTINUED)

B. Benefits Provided (Continued)

2. TRA Benefits (Continued)

For years of service prior to July 1, 2006, a level formula of 1.7% per year for coordinated members and 2.7% per year for basic members is applied. For years of service July 1, 2006 and after, a level formula of 1.9% per year for coordinated members and 2.7% per year for Basic members applies. Beginning July 1, 2015, the early retirement reduction factors are based on rates established under Minnesota Statutes. Smaller reductions, more favorable to the member, will be applied to individuals who reach age 62 and have 30 years or more of service credit.

Tier II Benefits

Members first employed after June 30, 1989, receive only the Tier II benefit calculation with a normal retirement age that is their retirement age for full Social Security retirement benefits, but not to exceed age 66.

Six different types of annuities are available to members upon retirement. The No Refund Life Plan is a lifetime annuity that ceases upon the death of the retiree - no survivor annuity is payable. A retiring member may also choose to provide survivor benefits to a designated beneficiary(ies) by selecting one of the five plans that have survivorship features. Vested members may also leave their contributions in the TRA Fund upon termination of service in order to qualify for a deferred annuity at retirement age. Any member terminating service is eligible for a refund of their employee contributions plus interest.

The benefit provisions stated apply to active plan participants. Vested, terminated employees who are entitled to benefits but not yet receiving them are bound by the provisions in effect at the time they last terminated their public service.

C. Contributions

1. General Employees Plan Contributions

Minnesota Statutes Chapter 353 sets the rates for employer and employee contributions. Contribution rates can only be modified by the state Legislature. Coordinated Plan members were required to contribute 6.50% of their annual covered salary in fiscal year 2024 and the District was required to contribute 7.50% for Coordinated Plan members. The District's contributions to the General Employees Fund for the year ended June 30, 2024, were \$569,555. The District's contributions were equal to the required contributions as set by state statute.

C. Contributions (Continued)

2. TRA Contributions

Per *Minnesota Statutes*, Chapter 354 rates for the fiscal year 2024 for coordinated were 7.75% for the employee and 8.75% for the employer. Basic rates were 11.25% for the employee and 12.75% for the employer. The District's contributions to TRA for the plan's fiscal year ended June 30, 2024 were \$1,898,486. The District's contributions were equal to the required contributions for each year as set by state statute.

D. Pension Costs

1. General Employees Plan Pension Costs

At June 30, 2024, the District reported a liability of \$5,703,726 for its proportionate share of the General Employees Fund's net pension liability. The District's net pension liability reflected a reduction due to the state of Minnesota's contribution of \$16 million. The State of Minnesota is considered a nonemployer contributing entity and the state's contribution meets the definition of a special funding situation. The state of Minnesota's proportionate share of the net pension liability associated with the District totaled \$157,214, for a total net pension liability of \$5,860,940 associated with the District. The net pension liability was measured as of June 30, 2023, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The District's proportionate share of the net pension liability was based on the District's contributions received by PERA during the measurement period for employer payroll paid dates from July 1, 2022 through June 30, 2023, relative to the total employer contributions received from all of PERA's participating employers. The District's proportionate share was 0.1020% at the end of the measurement period and 0.1086% for the beginning of the period.

For the year ended June 30, 2024, the District recognized pension expense of \$709,847 for its proportionate share of the General Employees Plan's pension expense. In addition, the District recognized an additional \$706 as expense (and grant revenue) for its proportionate share of the state of Minnesota's pension expense for the annual \$16 million contribution.

At June 30, 2024, the District reported its proportionate share of the General Employees Plan's deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

2. TRA Pension Costs

At June 30, 2024 the District reported a liability of \$30,638,847 for its proportionate share of TRA's net pension liability. The net pension liability was measured as of June 30, 2023, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The District's proportion of the net pension liability was based on the District's contributions to TRA in relation to total system contributions including direct aid from the State of Minnesota, City of Minneapolis, and Minneapolis School District. The District's proportionate share was 0.3711% at the end of the measurement period and 0.3635% at the beginning of the period.

The pension liability amount reflected a reduction due to direct aid provided to TRA. The amount recognized by the District as its proportionate share of the net pension liability, the direct aid, and total portion of the net pension liability that was associated with the District were as follows:

Description	Amount
District's Proportionate Share of the TRA Net Pension Liability	\$ 30,638,847
State's Proportionate Share of TRA's Net Pension Liability Associated with the District	2,146,208
Total	\$ 32,785,055

For the year ended June 30, 2024, the District recognized pension expense of (\$654,606). It also recognized (\$212,162) as an increase to pension expense and grant revenue for the support provided by direct aid.

At June 30, 2024, the District reported its proportionate share of the TRA's deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

Description	Deferred Outflows of Resources	Deferred Inflows of Resources

E. Long-Term Expected Return on Investment

The State Board of Investment, which manages the investments of PERA, prepares an analysis of the reasonableness on a regular basis of the long-term expected rate of return using a building-block method in which best-estimate ranges of expected future rates of return are developed for each major asset class. These ranges are combined to produce an expected long-term rate of return by weighting the expected future rates of return by the target asset allocation percentages. The target allocation and best estimates of geometric real rates of return for each major asset class are summarized in the following table:

Asset Class	Target Allocation	Long-Term Expected Real Rate of Return
Domestic Equity	33.5 %	5.10 %
International Equity	16.5	5.30
Fixed Income	25.0	0.75
Private Markets	25.0	5.90
Total	<u>100.0 %</u>	

The long-term expected rate of return on TRA pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target allocations and best estimates of geometric real rates of return for each major asset class are summarized in the following table:

F. Actuarial Methods and Assumptions

The total pension liability in the June 30, 2023, actuarial valuation was determined using an individual entry-age normal actuarial cost method. The long-term rate of return on pension plan investments used in the determination of the total liability is 7.0% for PERA and TRA. This assumption is based on a review of inflation and investments return assumptions from a number of national investment consulting firms. The review provided a range of return investment return rates deemed to be reasonable by the actuary. An investment return of 7.0% was deemed to be within that range of reasonableness for financial reporting purposes.

Inflation is assumed to be 2.25% for the General Employees Plan. Benefit increases after retirement are assumed to be 1.25% for the General Employees Plan.

Salary growth assumptions in the General Employees Plan range in annual increments from 10.25% after one year of service to 3.0% after 27 years of service.

Mortality rates for the General Employees Plan are based on the Pub-2010 General Employee Mortality Table. The tables are adjusted slightly to fit PERA's experience.

Actuarial assumptions for the General Employees Plan are reviewed every four years. The most recent four-year experience study for the General Employees Plan was completed in 2022. The assumption changes were adopted by the Board and became effective with the July 1, 2023 actuarial valuation.

TRA pre-retirement mortality rates were based on the RP-2014 white collar employee table, male rates set back five years and female rates set back seven years. Generational projection uses the MP-2015 scale. Postretirement mortality rates were based on the RP-2014 white collar annuitant table, male rates set back three years and female rates set back three years, with further adjustments of the rates. Generational projection uses the MP-2015 scale. Post disability mortality rates were based on the RP-2014 disabled retiree mortality table, without adjustment.

Inflation is assumed to be 2.5% for TRA. Benefit increases after retirement are assumed to be 1.0% for January 2019 through January 2023 then increasing by 0.10% each year up to 1.5% annually.

Salary growth assumptions for TRA range in annual increments from 2.85% to 8.85% before July 1, 2028 and 3.25% to 9.25% after June 30, 2028.

F. Actuarial Methods and Assumptions (Continued)

The following changes for PERA occurred in 2023:

Changes in Actuarial Assumptions

- The investment return and single discount rates were changed from 6.50% to 7.00%.

Changes in Plan Provisions

- An additional one-time direct state aid contribution of \$170.1 million will be contributed to the Plan on October 1, 2023.
- The vesting period of those hired after June 30, 2010, was changed from five years of allowable service to three years of allowable service.
- The benefit increase delay for early retirements on or after January 1, 2024, was eliminated.
- A one-time, non-compounding benefit increase of 2.5% minus the actual 2024 adjustment will be payable in a lump sum for calendar year 2024 by March 31, 2024.

The following changes for TRA occurred in 2023:

Changes in Actuarial Assumptions:

- There have been no changes since the prior valuation.

Changes in Plan Provisions:

- There have been no changes since the prior valuation.

G. Discount Rate

The discount rate used to measure the PERA General Employees Plan liability in 2024 was 7.00% and 2023 was 6.50%. The projection of cash flows used to determine the discount rate assumed that contributions from plan members and employers will be made at rates set in Minnesota Statutes. Based on these assumptions, the fiduciary net position of the General Employees Fund was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

The discount rate used to measure the TRA pension liability was 7.00%. There was no change in the discount rate since the prior measurement date. The projection of cash flows used to determine the discount rate assumed that employee contribution will be made at the fiscal year 2023 contribution rate, contributions from school districts will be made at contractually required rates (actuarially determined), and contributions from the state will be made at current statutorily required rates. Based on those assumptions, the pension plan's fiduciary net position was not projected to be depleted and, as a result, the Municipal Bond Index Rate was not used in the determination of the Single Equivalent Interest Rate (SEIR).

I. Pension Plan Fiduciary Net Position

Detailed information about General Employees Plan's fiduciary's net position is available in a separately issued PERA financial report. That report may be obtained on the Internet at www.mnpera.org.

Detailed information about TRA's fiduciary net position is available in a separately issued TRA financial report. That report can be obtained at www.MinnesotaTRA.org; by writing to TRA at 60 Empire Drive #400, St. Paul, Minnesota, 55103-2088; or by calling 651-296-2409 or 1-800-657-3669.

NOTE 8 OTHER POSTEMPLOYMENT BENEFIT PLAN

A. Plan Description

The District operates and administers a single employer defined benefit other postemployment benefit plan (the Plan) that provides health and dental insurance to retired and active eligible employees and their spouses through the District's health insurance plan. There are 518 active participants and 45 retired participants along with 19 retired spouses. Benefit and eligibility provisions are established through negotiations between the District and various unions representing the District's employees and are renegotiated each bargaining period. The Plan does not issue a publicly available financial report.

NOTE 8 OTHER POSTEMPLOYMENT BENEFIT PLAN (CONTINUED)

B. Funding Policy

The District has assets restricted for OPEB. These assets are in a qualified irrevocable trust which are included as a fiduciary fund in these financial statements. The District's investment policy is to follow state statutes as listed in Note 3. Benefit payments equal to the annual direct subsidy plus implicit subsidy are assumed to be made from the trust. Contribution requirements are also negotiated between the District and union representatives. The District contributes \$-0- to \$4,200 of the cost of current-year premiums for eligible retired plan members and their spouses. For fiscal year 2024, the District contributed \$-0- to the plan.

C. Net OPEB Liability of the District

The components of the net OPEB liability of the District at June 30, 2024 were as follows:

Total OPEB Liability	\$ 6,966,814
Plan Fiduciary Net Position	1,053,081
District's Net OPEB Liability	<u>\$ 5,913,733</u>

Plan Fiduciary Net Position as a Percentage of the Total OPEB Liability	15.12%
--	--------

D. Actuarial Methods and Assumptions

The long-term expected rate of return on OPEB plan investments that are expected to be used to finance the payments of benefits, to the extent that (1) the OPEB plan's fiduciary net position is projected to be sufficient to make projected benefit payments and (2) OPEB plan assets are expected to be invested using a strategy to achieve that return, and a yield or index rate for 20-year, tax-exempt general obligation municipal bonds with an average rating of AA/Aa or higher (or equivalent quality on another rating scale), to the extent that the conditions above are not met.

The District's net OPEB liability was measured as of June 30, 2024, and the total OPEB liability used to calculate the net OPEB liability was determined by an actuarial valuation as of July 1, 2023.

INDEPENDENT SCHOOL DISTRICT NO. 110
NOTES TO BASIC FINANCIAL STATEMENTS
JUNE 30, 2024**

NOTE 8 OTHER POSTEMPLOYMENT BENEFIT PLAN (CONTINUED)

D. Actuarial Methods and Assumptions (Continued)

The total OPEB liability was determined by an actuarial valuation as of July 1, 2023 using the following actuarial assumptions, applied to all periods included in the measurement, unless otherwise specified:

Inflation	2.50%
Salary Increases	Service Graded Table
Investment Rate of Return	5.20%
Health Care Trend Rates	6.50% Grading to 5.00% Over 6 Years and Then to 4.00% Over the Next 48 Years
Dental Trend Rates	4.00%

Mortality rates were based on the Pub-2010 Public Retirement Plans Headcount-Weighted Mortality Tables (General, Teachers) with MP-2021 Generational Improvement Scale.

Economic assumptions are based on input from a variety of published sources of historical and projected future financial data. Each assumption was reviewed for reasonableness with the source information as well as for consistency with other economic assumptions.

For the year ended June 30, 2024, the annual money-weighted rate of return on OPEB plan investments, net of OPEB plan expenditures, was 8.50%. The money-weighted rate of return expresses investment performance, net of investment expenditures, adjusted for the changing amounts actually invested.

The municipal bond rate assumption was set by considering published rate information for 20-year high quality, tax-exempt, general obligation municipal bonds as of the Measurement Date.

The long-term expected rate of return on OPEB plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of OPEB plan investment expense and inflation) are developed for each major asset class. These asset class estimates are combined to produce the portfolio long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage (or target allocation), if available) and by adding expected inflation (2.50%).

INDEPENDENT SCHOOL DISTRICT NO. 110
NOTES TO BASIC FINANCIAL STATEMENTS
JUNE 30, 2024**

NOTE 8 OTHER POSTEMPLOYMENT BENEFIT PLAN (CONTINUED)

D. Actuarial Methods and Assumptions (Continued)

Best estimates of geometric real and nominal rates of return for each major asset class included in the OPEB plan's assets allocation as of the measurement date are summarized in the following table:

Asset Class	Long-Term Expected Real Rate of Return	Long-Term Expected Nominal Rate of Return
Domestic Equity	25.00 %	6.00 %
Fixed Income	70.00	5.00
Cash and Equivalents	5.00	4.00

The discount rate used to measure the total OPEB liability was 4.10%. The projection of cash flows and OPEB trust assets used to determine the discount rate were based on recent employer contribution history and their stated funding policy. The OPEB trusts' long-term assumed investment return was used to discount projected benefit payments for as long as projected trust assets are available to fund OPEB payments. Once projected trust assets are exhausted, the municipal bond index rate was applied to the remaining expected benefit payments.

The expected employer asset return is based on the long-term expected return on short-term/cash equivalent assets using our capital market assumption model.

Since the most recent GASB 74/75 valuation, the following changes have been made:

- The health care trend rates were changed to better anticipate short term and long-term medical increases.
- The mortality tables were updated from the Pub-2010 Public Retirement Plans Headcount-Weighted Mortality Tables (General, Teachers) with MP-2020 Generational Improvement Scale to the Pub-2010 Public Retirement Plans Headcount-Weighted Mortality Tables (General, Teachers) with MP-2021 Generational Improvement Scale.
- The post-employment subsidies for Secretaries/Clerical employees, Confidential employees, and Custodians are no longer expected to increase with trend.
- The discount rate was changed from 3.90% to 4.10%.
- The annual money-weighted rate of return of OPEB plan investments, net of OPEB plan expenditures, was changed from 4.20% to 8.50%.

NOTE 9 FLEXIBLE BENEFIT PLAN

The District has a flexible benefit plan which is classified as a “cafeteria plan” under Section 125 of the IRC. All employee groups of the District are eligible if and when the collective bargaining agreement or contract with their group allows eligibility. Eligible employees can elect to participate by contributing pre-tax dollars withheld from payroll checks to the plan for health care and dependent care benefits.

Before the beginning of the plan year, which is January 1 to December 31, each participant designates a total amount of pre-tax dollars to be contributed to the plan during the year. At June 30, the District is contingently liable for claims against the total amount of participants’ annual contributions to the plan, whether or not such contributions have been made.

Payments of insurance premiums (health and dental) are made by the District directly to the designated insurance companies. These payments are made on a monthly basis and are accounted for in the General Fund.

**WACONIA PUBLIC SCHOOLS
INDEPENDENT SCHOOL DISTRICT NO. 110
NOTES TO BASIC FINANCIAL STATEMENTS
JUNE 30, 2024**

NOTE 9 FLEXIBLE BENEFIT PLAN (CONTINUED)

Amounts withheld for medical reimbursement and dependent care are deposited into a separate District checking account on a monthly basis. All assets of the plan are held in a separate bank account, administered by an employee of the District. Payments are made by the District to participating employees upon submitting a request for reimbursement of eligible expenses incurred by the participant.

All plan property and income attributable to that property is solely the property of the District, subject to the claims of the District's general creditors. Participants' rights under the plan are equal to those of general creditors of the District in an amount equal to eligible health care and dependent care expenses incurred by the participants. The District believes that it is unlikely that it will use the assets to satisfy the claims of general creditors in the future.

NOTE 10 JOINTLY GOVERNED ORGANIZATION

The Carver-Scott Educational Cooperative (Organization) was established in 1976. The educational cooperative provides, by a cooperative effort, programming and services from prenatal care through adult education. The education cooperative has eight member districts. Each member district shares in the cost of the programming and other charges for services. The cooperative is able to recover the cost of its programming through the previously mentioned revenue sources. The jointly governed Organization's financial statements are audited and available for inspection.

NOTE 11 COMMITMENTS AND CONTINGENCIES

Federal and State Programs

Amounts received or receivable from federal and state agencies are subject to agency audit and adjustment. Any disallowed claims, including amounts already collected, may constitute a liability of the applicable fund. The amount, if any, of funds which may be disallowed by the agencies cannot be determined at this time although the District expects such amounts, if any, to be immaterial.

NOTE 12 DENTAL SELF-INSURANCE PLAN

The District maintains an Internal Service Fund to account for and finance a self-insurance program for dental benefits. Accordingly, the District has not purchased outside insurance for the risks of losses to which it is exposed. Instead, the District management believes it is more economical to manage its risks internally and set aside assets for claim settlement. The Internal Service Fund currently services all claims and risk of loss to which the District is exposed for dental expenses. Participants in the program make premium payments to the fund based on the insurance premium.

**WACONIA PUBLIC SCHOOLS
INDEPENDENT SCHOOL DISTRICT NO. 110
NOTES TO BASIC FINANCIAL STATEMENTS
JUNE 30, 2024**

NOTE 12 DENTAL SELF-INSURANCE PLAN (CONTINUED)

District liabilities are reported when it is probable that a loss has occurred, and the amount of that loss can be reasonably estimated. Liabilities include an amount for claims that have been incurred but not reported. Because actual claim liabilities depend on such complex factors as inflation, changes in legal doctrines, and damage awards, the process used in computing a claim liability does not necessarily result in an exact amount. Claims liabilities are re-evaluated periodically to take into consideration recently settled claims, the frequency of claims, and other economic and social factors.

There were no liabilities in excess of claims paid at June 30, 2024. There is a possibility for loss if claims are in excess of the premiums collected. The District does not believe this occurrence would have a material financial effect on the District. The District held \$211,261 in cash and investments at June 30, 2024 for payment of claims.

Changes in the balance of claim liabilities during fiscal years 2024 and 2023 were as follows:

	2024	2023
Beginning of Fiscal Year Liability - Beginning of Year	\$ 32,459	\$ 21,015
Current Year Claims, Changes in Estimates and Other Charges	448,577	585,297
Current Year Claims Paid, Including an Estimate of Claims Incurred but Not Reported (IBNR)	(456,839)	(573,853)
End of Fiscal Year Liability - End of Year	\$ 24,197	\$ 32,459

NOTE 13 RISK MANAGEMENT

The District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters and workers compensation. The District is self-insured for employee related dental. The District is self-insured for property and casualty insurance through Minnesota Insurance Scholastic Trust.

There has been no significant reduction in insurance coverage from the previous year in any of the District's policies. Settled claims resulting from these risks have not exceeded insurance coverage in any of the past three fiscal years.

NOTE 1 CHANGES IN SIGNIFICANT PENSION PLAN PROVISION, ACTUARIAL METHODS, AND ASSUMPTIONS

The following changes were reflected in the valuation performed on behalf of the Public Employees Retirement Association for the measurement period ended June 30:

2023

Changes in Actuarial Assumptions

- The investment return and single discount rates were changed from 6.50% to 7.00%.

Changes in Plan Provisions

- An additional one-time direct state aid contribution of \$170.1 million will be contributed to the Plan on October 1, 2023.
- The vesting period of those hired after June 30, 2010, was changed from five years of allowable service to three years of allowable service.
- The benefit increase delay for early retirements on or after January 1, 2024, was eliminated.
- A one-time, non-compounding benefit increase of 2.5% minus the actual 2024 adjustment will be payable in a lump sum for calendar year 2024 by March 31, 2024.

2022

Changes in Actuarial Assumptions

- The mortality improvement scale was changed from Scale MP-2020 to Scales MP-2021.

Changes in Plan Provisions

- There have been no changes since the prior valuation.

2021

Changes in Actuarial Assumptions

- The investment return and single discount rates were changed from 7.50% to 6.50%, for financial reporting purposes.
- The mortality improvement scale was changed from Scale MP-2019 to Scales MP-2020.

Changes in Plan Provisions

- There have been no changes since the prior valuation.

2020

Changes in Actuarial Assumptions

- The price inflation assumption was decreased from 2.50% to 2.25%.
- The payroll growth assumption was decreased from 3.25% to 3.00%.
- Assumed salary increase rates were changed as recommended in the June 30, 2019 experience study. The net effect is assumed rates that average 0.25% less than previous rates.
- Assumed rates of retirement were changed as recommended in the June 30, 2019 experience study. The changes result in more unreduced (normal) retirements and slightly fewer Rule of 90 and early retirements.

NOTE 1 CHANGES IN SIGNIFICANT PENSION PLAN PROVISION, ACTUARIAL METHODS, AND ASSUMPTIONS (CONTINUED)

2020 (Continued)

Changes in Actuarial Assumptions (Continued)

- Assumed rates of termination were changed as recommended in the June 30, 2019 experience study. The new rates are based on service and are generally lower than the previous rates for years 2-5 and slightly higher thereafter.
- Assumed rates of disability were changed as recommended in the June 30, 2019 experience study. The change results in fewer predicted disability retirements for males and females.
- The base mortality table for healthy annuitants and employees was changed from the RP-2014 table to the Pub-2010 General Mortality table, with adjustments. The base mortality table for disabled annuitants was changed from the RP-2014 disabled annuitant mortality table to the PUB-2010 General/Teacher disabled annuitant mortality table, with adjustments.
- The mortality improvement scale was changed from Scale MP-2018 to Scale MP-2019.
- The assumed spouse age difference was changed from two years older for females to one year older.
- The assumed number of married male new retirees electing the 100% Joint & Survivor option changed from 35% to 45%. The assumed number of married female new retirees electing the 100% Joint & Survivor option changed from 15% to 30%. The corresponding number of married new retirees electing the Life annuity option was adjusted accordingly.

Changes in Plan Provisions

- Augmentation for current privatized members was reduced to 2.0% for the period July 1, 2020 through December 31, 2023 and 0.0% after. Augmentation was eliminated for privatizations occurring after June 30, 2020.

2019

Changes in Actuarial Assumptions

- The mortality projection scale was changed from MP-2017 to MP-2018.

Changes in Plan Provisions

- The employer supplemental contributions was changed prospectively, decreasing from \$31.0 million to \$21.0 million per year. The State's special funding contribution was changed prospectively, requiring \$16.0 million due per year through 2031.

2018

Changes in Actuarial Assumptions

- The mortality projection scale was changed from MP-2015 to MP-2017.
- The assumed postretirement benefit increase was changed from 1.0% per year through 2044 and 2.50% per year thereafter to 1.25% per year.

NOTE 1 CHANGES IN SIGNIFICANT PENSION PLAN PROVISION, ACTUARIAL METHODS, AND ASSUMPTIONS (CONTINUED)

2018 (Continued)

Changes in Plan Provisions

- The augmentation adjustment in early retirement factors is eliminated over a five-year period starting July 1, 2019, resulting in actuarial equivalence after June 30, 2024.
- Interest credited on member contributions decreased from 4.0% to 3.0%, beginning July 1, 2018.
- Deferred augmentation was changed to 0.0%, effective January 1, 2019. Augmentation that has already accrued for deferred members will still apply.
- Contribution stabilizer provisions were repealed.
- Postretirement benefit increases were changed from 1.0% per year with a provision to increase to 2.5% upon attainment of 90.0% funding ratio to 50.0% of the Social Security Cost-of-Living Adjustment, not less than 1.0% and not more than 1.50%, beginning January 1, 2019.
- For retirements on or after January 1, 2024, the first benefit increase is delayed until the retiree reaches normal retirement age; does not apply to Rule of 90 retirees, disability benefit recipients, or survivors.
- Actuarial equivalent factors were updated to reflect revised mortality and interest assumptions.

2017

Changes in Actuarial Assumptions

- The Combined Service Annuity (CSA) loads were changed from 0.8% for active members and 60% for vested and nonvested deferred members. The revised CSA loads are now 0.0% for active member liability, 15.0% for vested deferred member liability and 3.0% for nonvested deferred member liability.
- The assumed postretirement benefit increase rate was changed from 1.0% per year for all years to 1.0% per year through 2044 and 2.5 % per year thereafter.

Changes in Plan Provisions

- The State's contribution for the Minneapolis Employees Retirement Fund equals \$16.0 million in 2017 and 2018, and \$6.0 million thereafter.
- The Employer Supplemental Contribution for the Minneapolis Employees Retirement Fund changed from \$21.0 million to \$31.0 million in calendar years 2019 to 2031. The state's contribution changed from \$16.0 million to \$6.0 million in calendar years 2019 to 2031.

2016

Changes in Actuarial Assumptions

- The assumed postretirement benefit increase rate was changed from 1.0% per year through 2035 and 2.5% per year thereafter to 1.0% per year for all future years.
- The assumed investment return was changed from 7.9% to 7.5%. The single discount rate was changed from 7.9% to 7.5%.
- Other assumptions were changed pursuant to the experience study dated June 30, 2015. The assumed future salary increases, payroll growth, and inflation were decreased by 0.25% to 3.25% for payroll growth and 2.50% for inflation.

Changes in Plan Provisions

- There have been no changes since the prior valuation.

NOTE 1 CHANGES IN SIGNIFICANT PENSION PLAN PROVISION, ACTUARIAL METHODS, AND ASSUMPTIONS (CONTINUED)

2015

Changes in Actuarial Assumptions

- The assumed postretirement benefit increase rate was changed from 1.00% per year through 2030 and 2.50% per year thereafter to 1.00% per year through 2035 and 2.50% per year thereafter.

Changes in Plan Provisions

- On January 1, 2015, the Minneapolis Employees Retirement Fund was merged into the General Employees Fund, which increased the total pension liability by \$1.1 billion and increase the fiduciary plan net position by \$892 million. Upon consolidation, state and employer contributions were revised; the State's contribution of \$6.0 million, which meets the special funding situation definition, was due September 2015.

The following changes were reflected in the valuation performed on behalf of the Teachers Retirement Association for the measurement period ended June 30:

NOTE 1 CHANGES IN SIGNIFICANT PENSION PLAN PROVISION, ACTUARIAL METHODS, AND ASSUMPTIONS (CONTINUED)

2020

Changes in Actuarial Assumptions

- Assumed termination rates were changed to more closely reflect actual experience.
- The pre-retirement mortality assumption was changed to the RP-2014 white collar employee table, male rates set back five years and female rates set back seven years.
- Generational projection uses the MP-2015 scale. Assumed form of annuity election proportions were changed to more closely reflect actual experience for female retirees.

Changes in Plan Provisions

- There have been no changes since the prior valuation.

2019

Changes in Actuarial Assumptions

- There have been no changes since the prior valuation.

Changes in Plan Provisions

- There have been no changes since the prior valuation.

2018

Changes in Actuarial Assumptions

- The investment return assumption was changed from 8.5% to 7.5%.
- The price inflation assumption was lowered from 3.0% to 2.5%.
- The payroll growth assumption was lowered from 3.5% to 3.0%.
- The wage inflation assumption (above price inflation) was reduced from 0.75% to 0.35% for the next 10 years, and 0.75% thereafter.
- The total salary increase assumption was adjusted by the wage inflation change.
- The amortization date for the funding of the Unfunded Actuarial Accrual Liability (UAAL) was reset to June 30, 2048 (30 years).
- The mechanism in the law that provided the TRA Board with some authority to set contribution rates was eliminated.

Changes in Plan Provisions

- The COLA was reduced from 2.0% each January 1 to 1.0%, effective January 1, 2019. Beginning January 1, 2024, the COLA will increase 0.1% each year until reaching the ultimate rate of 1.5% in January 1, 2028.
- Beginning July 1, 2024, eligibility for the first COLA changes to normal retirement age (age 65 to 66 depending on date of birth). However, members who retire under Rule of 90 and members who are at least age 62 with 30 years of service credit are exempt.
- The COLA trigger provision, which would have increased the COLA to 2.5% if the funded ratio was at least 90% for two consecutive years, was eliminated.
- Augmentation in the early retirement reduction factors is phased out over a five-year period beginning July 1, 2019 and ending June 30, 2024 (this reduces early retirement benefits). Members who retire and are at least age 62 with 30 years of service are exempt.

NOTE 1 CHANGES IN SIGNIFICANT PENSION PLAN PROVISION, ACTUARIAL METHODS, AND ASSUMPTIONS (CONTINUED)

2018 (Continued)

Changes in Plan Provisions (Continued)

- Augmentation on deferred benefits will be reduced to zero percent beginning July 1, 2019. Interest payable on refunds to members was reduced from 4.0% to 3.0%, effective July 1, 2018. Interest due on payments and purchases from members, employers is reduced from 8.5% to 7.5%, effective July 1, 2018.
- The employer contribution rate is increased each July 1 over the next four years, (7.92% in 2019, 8.13% in 2020, 8.55% in 2021, and 8.75% in 2022). In addition, the employee contribution rate will increase from 7.50% to 7.75% on July 1, 2023. The state provides funding for the higher employer contribution rate through an adjustment in the school aid formula.

2017

Changes in Actuarial Assumptions

- The cost-of-living adjustment (COLA) was assumed to increase from 2.0% annually to 2.5% annually on July 1, 2045.
- Adjustments were made to the combined service annuity loads. The active load was reduced from 1.4% to 0.0%, the vested inactive load increased from 4.0% to 7.0%, and the nonvested inactive load increased from 4.0% to 9.0%.
- The investment return assumption was changed from 8.0% to 7.5%.
- The COLA was not assumed to increase to 2.5%, but remain at 2.0% for all future years.
- The price inflation assumption as lowered from 2.75% to 2.5%.
- The payroll growth assumption was lowered from 3.5% to 3.0%.
- The general wage growth assumption was lowered from 3.5% to 2.85% for 10 years followed by 3.25% thereafter.
- The salary increase assumption was adjusted to reflect the changes in the general wage growth assumption.

Changes in Plan Provisions

- There have been no changes since the prior valuation.

2016

Changes in Actuarial Assumptions

- The cost-of-living adjustment was not assumed to increase (it remained at 2.0% for all future years).
- The price inflation assumption was lowered from 3.0% to 2.75%.
- The general wage growth and payroll growth assumptions were lowered from 3.75% to 3.5%.
- Minor changes at some durations for the merit scale of the salary increase assumption.
- The pre-retirement mortality assumption was changed to the RP-2014 white collar employee table, male rates set back six years, and female rates set back five years. Generational projection uses the MP-2015 scale.

NOTE 1 CHANGES IN SIGNIFICANT PENSION PLAN PROVISION, ACTUARIAL METHODS, AND ASSUMPTIONS (CONTINUED)

2016 (Continued)

Changes in Actuarial Assumptions (Continued)

- The postretirement mortality assumption was changed to the RP-2014 white collar annuitant table, male rates set back three years and female rates set back three years, with further adjustments of the rates. Generational projection uses the MP-2015 scale.
- The post-disability mortality assumption was changed to the RP-2014 disabled retiree mortality table, without adjustments.
- Separate retirement assumptions for members hired before or after July 1, 1989 were created to better reflect each group's behavior in light of different requirements for retirement eligibility.
- Assumed termination rates were changed to be based solely on years of service in order to better fit the observed experience.
- A minor adjustment and simplification of the assumption regarding the election of optional forms of payment at retirement were made.

Changes in Plan Provisions

- There have been no changes since the prior valuation.

2015

Changes in Actuarial Assumptions

- The cost-of-living adjustment was assumed to increase from 2.0% annually to 2.5% annually on July 1, 2037.
- The investment return assumption was changed from 8.25% to 8.0%.

Changes in Plan Provisions

- The Duluth Teachers Retirement Fund Association was merged into TRA on June 30, 2015. This also resulted in a state-provided contribution stream of \$14.377 million until the System becomes fully funded.

2014

Changes in Actuarial Assumptions

- The cost-of-living adjustment was assumed to increase from 2.0% annually to 2.5% annually once the legally specified criteria was met. This was estimated to occur July 1, 2031.

Changes in Plan Provisions

- The increase in the postretirement benefit adjustment (COLA) will be made once the System is 90% funded (on a market value basis) in two consecutive years, rather than just one year.
