ACCESS Testing- Results have arrived for the state ELL assessment (any student who resides in a home where the primary language is not english). This year a total of 11 students in grades K-10 were given the ACCESS test. This test is composed of 4 areas (Listening, Speaking, Reading, Writing), and is completed online. Scores are compiled with the highest attainable result being a 6.0. We are required to assess any students who score below a 5.0. I am happy to report that one of our students will no longer need to be tested because they achieved a score above 5!!

Kindergarten- 1 student (1.0)

Grade 4- 1 student (3.8)

Grade 5 6 students- (3.5, 5.4, 4.6, 4.6)

Grade 8- 2 students (2.1,3.4)

Grade 10- (3.4,3.9)

STEAM Night – A special thank you to Becky Armbruster for her dedication in organizing last Wednesday’s event at OH Schultz Elementary School. We were excited to welcome another large turnout of families who participated in hands-on activities focused on engineering concepts—an experience that continues to gain momentum each year. We also appreciate the efforts of our teaching staff and student leaders who helped facilitate a wide range of engaging learning opportunities for our students.

ELA Rollout – On Friday, May 1st, our K–5 teachers participated in an introductory session to explore the district’s new ELA curriculum, led by Carrie Sand and Andrea Friis. During this time, teachers reviewed the program’s materials, including teacher manuals, and engaged in initial conversations about lesson planning and instructional delivery. The session also provided an opportunity to discuss upcoming professional development and next steps to support a smooth and effective implementation this fall.

Safety Drill Update – Today, the district conducted a scheduled “Hold” drill across all school buildings in alignment with the Standard Response Protocol (SRP). This drill focused on practicing procedures used to maintain students and staff in their current locations due to a situation inside the building, while keeping hallways clear. Staff and students reviewed expectations for remaining in classrooms or areas, limiting movement, and maintaining a calm environment. The drill also provided an opportunity to check communication systems and reinforce consistent practices across buildings. No simulated emergency was used, and the exercise was conducted in a safe and controlled manner.

Respectfully Submitted, Eric Nelson

Open Enrollment

The School District of Mishicot received forty-seven open enrollment applications for students/families wishing to have their child attend the School District of Mishicot. Of these forty-seven students, ten are already attending our school district and one reapplied but did not need to. Due to special education limits, we will be denying two students. This means that if all approved students decide to enroll, we will have thirty-four new students in our schools for the 2026-27 school year.

This was our first year with a sibling guarantee written into our January decision. For the 2026-27 school year, there are seventeen students who have applied with siblings who are currently attending. To me this speaks a lot about the positive experiences that families have when they transfer to the School District of Mishicot.

For open enrollment outs, we received fifteen applications for students/families looking at alternative options for their child(ren). Of these applications, two students applied to multiple school districts, leaving only twelve different students applying for alternative options. Of the twelve students, only four have attended our schools in the past year.

Statewide Testing

Statewide testing is done for the school year. The Wisconsin Department of Public Instruction plans to have results available for us to share with families by June 2, 2026. If this timeline is accurate, we will plan on sending statewide testing results home with students the last week of school. We will notify parents through messenger when the results go home.

Maintenance Board Report

- The elementary nurse's office cabinetry project is all completed. I did get a chance to check in with the nurses and they are very happy and thankful for everything.
- The illuminated motion M signs for the back of the ball diamond press boxes should be installed on Wednesday May 6th.
- Koepfel Electric was out and has almost everything finished up on our ballfield project. The only thing that he has left is final outlet installation in the second floor of the press boxes once the drywall is completed. The track/football storage building is completed along with the installation of the walkway and parking lot light poles. Now with the light poles installed I will be able to have Public Service remove the older wooden light pole lights that we rent through them.
- The state DOT bus inspections were on Wednesday April 22nd. State patrol officer Jordan Matuseski was out on site to perform the inspections. Our fleet of 12 buses was found to be in proper working order, with no infractions found. We do have a few buses that are getting close to the end of their working careers, so I will monitor them and get quotes when needed.
- All of the cabling for the press box sound systems has been run. Once the drywall is up and the IT rack installed, O&W communications will be able to install the equipment.
- I did meet with Hunter from Signature Landscape to go over some potential practice field grading work. He did shoot a bunch of elevations with his GPS unit to design a plan for this grading work. I am just waiting to hear back on a proposal.
- On Friday May 8th The Sprinkler Company will be out to perform our spring start up on the irrigation systems.

Staff Leadership Opportunities Update

We have posted positions for PLC Team Leaders, Intervention System Catalysts (middle and high school), and Learning Team participants. We are seeing strong interest across all three areas, which is an encouraging sign as we continue building internal leadership capacity and systems to support instruction and intervention. The selection process will move forward over the coming weeks.

Construction Update

Work continues to progress well across our facilities. At the athletic complex, interior work on the press boxes is nearing completion, including final technology installation. Dugouts are complete, lighting has been added along the walkway, and the fields are in excellent condition heading into the spring season. For the PAC/Commons project, crews are currently installing firewalls and continuing foundation and footing work. The project remains on schedule, and visible progress continues each week.

Ribbon-cutting & Groundbreaking

We are looking forward to celebrating this important milestone with the Board and community. The event will begin at 4:00 PM and will include brief student performances, remarks, a ribbon-cutting, additional remarks, and a formal groundbreaking with photos. Hard hats and golden shovels will be provided for Board members.

Recent Legislative Updates

Several new state laws will impact district practices moving forward. We are actively reviewing each and will bring forward any necessary policy updates and implementation plans.

- **Act 42 – Wireless Communication Devices:** Prohibits student use of personal wireless communication devices during the school day. A policy update will be brought forward.
- **Act 57 – Reporting of Sexual Misconduct:** Requires same-day communication with parents when reports of sexual misconduct are received.
- **Act 89 – Appropriate Communication with Pupils:** Establishes expectations for staff communication with students and includes an annual training requirement. A policy update will be brought forward.
- **Act 202 – Human Growth and Development Curriculum:** Requires instruction related to adoption. We are developing a lesson for implementation beginning next school year.
- **Act 88 – Grooming:** Defines grooming as a criminal offense. We are incorporating additional policy language to clearly define expectations and boundaries, along with required staff training.

Service Agreement and Terms

This Agreement is made between the Board of Control of Cooperative Educational Service Agency 7 (CESA 7) and the Local Education Agency (LEA). CESA 7 has been authorized to provide services to LEAs on a cooperative basis and to enter into and approve service contracts with, but not limited to, local school districts, county boards of supervisors, and other cooperative educational service agencies as provided in Chapter 116, Wisconsin Statutes.

1. Terms of Agreement

The term of this Agreement shall commence on July 1, 2026, and conclude on June 30, 2027, becoming effective upon the signature of both parties. During this term, CESA 7 agrees to provide the LEA with services performed by legally qualified personnel, as detailed in the 2026-2027 Service Catalog. This Agreement constitutes the entire understanding between the parties regarding the services listed herein and supersedes all prior negotiations, quotations, estimates, and agreements, whether written or oral. Any modifications or additions to this Agreement must be made in writing and signed by both parties.

2. Costing

This Agreement governs strictly the scope of work and specific services itemized above. It does not preclude the LEA and CESA 7 from entering into separate, concurrent agreements for other services. Certain service costs are based on the expected demand for those services and the need for CESA 7 to secure adequate staffing. Therefore, those costs are subject to change should the actual demand for said services deviate from the anticipated demand. The final amount billed for those services may differ from the initial estimated Agreement amount. CESA 7 reserves the right, at its sole discretion, to modify the total service cost and adjust the invoiced amount accordingly to reflect actual demand. Unless otherwise stated, anticipated total costs for all services encompass standard operational expenditures, administrative costs, and agency overhead fees.

Special Education Itinerant Costs will be billed utilizing a unit cost pricing model. Units of service will be calculated based on direct and indirect time, relative to the respective service. The unit of service cost will be calculated based on the total expenses, relative to the respective service. The total expenses encompass operational expenditures including, but not limited to, the following:

- Salary and Benefits
- Travel
- Professional Development
- Supplies
- Director and Administrative Costs
- Overhead Fee

Initial unit costs and total service units are estimates predicated on projected caseloads. CESA 7 will regularly evaluate the unit cost and service volume throughout the Agreement term.

3. Financial Obligations

Unless otherwise noted, payment is due within thirty (30) days of the invoice date. The LEA is obligated to remit payment for all invoiced fees, costs, and/or expenses for services provided by CESA 7. In the event the LEA fails to pay the invoiced amount within this timeframe, CESA 7 reserves the right, upon ten (10) business days' written notice, to suspend the provision of any and all services until the outstanding balance is resolved. While all services provided under this Agreement are subject to the general billing and payment terms outlined above, certain programs carry additional, service-specific provisions as detailed below. Any provided service not explicitly categorized below defaults entirely to the general terms of this Agreement.

Special Education Itinerant Services: Billings will be based on the total units predicted for the student divided by the number of months that the student is predicted to be served, as dictated by the student's Individualized Education Program (IEP). CESA 7 does not bill based on daily attendance or whether a child is seen or not seen on a particular day. Final billings will be reconciled and adjusted to reflect actual caseload data and expenses incurred.

Learning Services Packages & Networks: LEAs purchasing a Learning Services Package are responsible for utilizing all contracted days prior to the conclusion of the fiscal year. Unused days will not roll over to subsequent years, and the LEA shall remain responsible for the full package cost. Additionally, no refunds will be issued in the event the LEA fails to register attendees for networks purchased under this Agreement.

Multi-Year Agreements: For LEAs entering into a two-year Agreement, payment is required in full during the first fiscal year. Should the LEA opt to split payments across two fiscal years, the LEA acknowledges that the Agreement will be subject to increased overhead rates. If an LEA is in the second year of a two-year Agreement and elects to modify their package or add service days, the newly added services will be subject to the new pricing in effect at that time. Special Education Itinerant Services are contracted on an annual basis only and are not eligible for two-year Agreement terms.

4. Statutory Terms

III. CATASTROPHIC FAILURES

The scope of this SOW includes response to a catastrophic failure, defined as a sudden and unexpected breakdown or failure of a Customer's computer network, computer hardware, data servers, and/or computer or server software that could not be prevented through the reasonable technical and maintenance practices contemplated by this agreement. GDC will work with Customer to determine whether a service request involves a catastrophic failure. Common examples of events that may result in or cause catastrophic failures include but are not limited to the following:

- 1) Natural disasters, strikes, lockouts, civil disturbances (such as riots); fires; accidents that cause wholesale disruptions to communications lines or electrical systems (such as a train derailment or vehicle accident that takes out electrical grids or wiring systems); acts of a public enemy (such as terrorists or anarchists); a cyber-attack on critical information systems infrastructure; damages at the customer site from vandalism or sabotage; an unexpected or total loss of electrical power; a breakdown of critical air conditioning equipment; a complete loss of connectivity to outside communication lines; losses due to software failures; or an inability to obtain necessary materials in the open market.

IV. SERVICE PERIOD

Start date: **7/1/2026**

End date: **6/30/2027**

V. CHARGES

Total service charges: \$40,000.00

Annual Service Charge

- 1) Customer shall pay GDC total annual service fees of \$40,000.00 (the "Annual Service Charge").
- 2) Customer has the option to pay the Annual Service Charge in one lump sum upon delivery of a fully executed copy of this agreement. Customers that tender a lump sum payment for the twelve (12) month service period set forth in this SOW (the "Service Period") shall be eligible for a pre-payment discount of 2.5 % off the Annual Service Charge.
- 3) Customer shall pay the Annual Service Charge in accordance with GDC's installment payment plan. Under the installment payment plan, Customer shall pay the Annual Service Charge for the Service Period in twelve (12) equal monthly installments of \$3,333.33. Each monthly installment payment shall be payable in advance for Services that are due to be performed during the month. Unless otherwise notified, the installment payment is due upon receipt of the invoice from GDC. GDC reserves the right to suspend or terminate the Services set forth in this SOW, in accordance with the terms set forth in the ITSA, if payment is not received by GDC within fifteen (15) days after the date of the invoice.
- 4) In the event that the Services set forth in this SOW are terminated by either party, prior to the ending date for the Service Period, GDC may charge a mutually agreed upon prorated amount for the Services provided, plus any remaining out-of-scope charges.
- 5) The Annual Service Charge stated above does not include applicable Federal, State, or Local taxes.
- 6) This SOW will automatically renew for successive one (1) year Terms, effective on the Term End Date or Renewal Term End Date, whichever is applicable, unless Customer provides GDC with written notice thirty (30) days before the term end date.

GDC reserves the option to increase its Services Fees, as set forth in this SOW or any Renewal Term SOW, effective on the first day of any SOW Renewal Term. GDC will provide notice to Customer of any SOW Service Fee increases, at least forty-five (45) days prior to the SOW Term Date or any SOW Renewal Term Date. If Customer does not provide GDC with at least thirty (30) days written notice of its intent to not renew this SOW or any Renewal SOW, the Customer will be deemed to have accepted GDC's proposed Service Fee increases for any SOW Renewal Term.

Notwithstanding the foregoing, if this SOW or any Renewal SOW is extended beyond the SOW Term Date or any SOW Renewal Term Date on a month-to-month Term, then the SOW Service Fee will increase by twenty-five percent (25%) over the most recent SOW Service Fee. The month-to-month SOW Service Fee will be in effect no more than twelve (12) months. If this SOW or any Renewal SOW remains in effect on a month-to-month Term for twelve (12) months without notice of termination, then the SOW Service Fee will increase by an additional twenty-five percent (25%) over the previous month-to-month rate.

BUILDING BETTER TOGETHER

- All onsite construction personnel (including both workers and visitors) must review and sign Jos. Schmitt Construction's Safety Certification form before accessing the site.
- In addition to the Safety Certification, all onsite construction personnel (including both workers and visitors) will need to be checked onsite against the National Sex Offender Registry. As used by the School District of Mishicot for all visitors to their main school, Jos. Schmitt Construction (JSC) will have a Raptor device in the job trailer that will do a one-time scan of a person's valid ID and check against national sex offender databases. Once passed, the Raptor device will print out a badge. The person will then give their badge to JSC's onsite staff, and will in-turn receive a project specific hard hat sticker, with a number that will be assigned to each individual. **THIS STICKER MUST BE VISIBLE AT ALL TIMES.** No construction personnel (worker or visitor) is allowed onsite without an authorized hard hat sticker that was distributed by JSC. Anyone who does not pass the Raptor check, they will be asked to leave the premises immediately and will not be allowed to return.

Jake,

I reviewed the price changes and we have one small issue. For the plumbing deduct we had given you (\$53,000.00) to change from copper to CPVC. On number 8 in section 22 11 10 inj it is telling us CPVC valves cannot be used. That is what we figured when we provided the deduct. We priced up the valves listed in the base proposal and we would need to add another \$3,882.00 to change this. Let me know your thoughts.

Thanks,

Jake,

The savings to remove fully grouted walls in the highlighted drawing would be \$9,000.00. I am going to review the burnished CMU email from last night shortly.

Morning Mike,

Bray and their consultants prefer to avoid the spray foam insulation option in lieu of fully grouted walls, and the sand option was minimal savings, so they have come up one additional idea. Please see the attached PDF, could you let me know what the savings from your base bid would be to eliminate the filling of the walls all together at the locations highlighted in red? This would mean, no grout/sand/insulation fill at all within this section of wall in the PAC.

Let me know if you have any questions.

Subject: Mishicot Schools UE 1 & 2 deduct

Jake,

I worked up a cost to eliminate the two small utility fans, ductwork, controls and drives. The deduct came up to (\$16,550.00). Keep in mind that there should be a small deduct for the electrical and a small deduct for the roofing. These are just small curbs, its probably not much.

Thanks,

To: Mishicot School Board Members
From: Christine Thelen, Business Manager
RE: Textbook/School Supply Fee for
May 11, 2026 Board Meeting

Proposal to Establish Ongoing Textbook/School Supply Fee

I am recommending that the School District of Mishicot Board of Education approve the continuation of the \$30.00 Textbook/School Supply Fee for all students in Kindergarten through 12th grade, beginning with the 2026–27 school year.

Once approved, this fee will remain in effect for each subsequent school year unless modified or discontinued by formal action of the Board.

The fee may be waived or reduced for students with an approved Free & Reduced Price Meal Application and a completed “Sharing Information with Other Programs” form on file with the district for the applicable school year.

This fee, originally implemented during the 2018–19 school year, has provided ongoing support for instructional materials. Given current budget projections, maintaining this fee continues to be necessary to support essential instructional resources.

MEMORANDUM

DATE: May 11, 2026
TO: Cory Erlandson
Board of Education
FROM: Christine Thelen
Business Manager
RE: Depositories for District Funds

Wisconsin State Statute 34.05 provides that school boards shall designate public depositories in which the money belonging to the school district shall be deposited and whether the monies shall be maintained in time deposits, demand deposits or saving deposits. Board of Education policy 6144 and State Statute 66.0603 designate the types of investments the School District of Mishicot can invest the available moneys. Based on good business practice, the Board of Education should annually approve a list of depositories for school district funds and that funds not currently needed shall be invested in the most advantageous manner to the school district.

In accordance with these provisions, it is requested that the Board authorize the administration to utilize time demands, saving deposits and other interest-bearing arrangements in the following depositories for school district funds:

- Bank First
- Associated Bank
- Robert W. Baird and Company
- State of Wisconsin Local Government Pooled Investment Fund
- Wisconsin Investment Series Cooperative (WISC)
- PMA Financial Network
- American Deposit Management Co.
- US Bank
- Associated Bank
- First Carolina Bank

Please note that this list is where district funds are currently deposited, have been deposited or will be deposited in the near future. District policy 6144 Investment Income does allow other securities as authorized by State Statute 66.0603, which allows “Time deposits in any credit union, bank, savings bank, trust company or savings and loan association which is authorized to transact business in this state if the time deposits mature in not more than 3 years.” In other words, approving this list of depositories does not limit the district’s ability to invest elsewhere as long as the depository meets the criteria as defined under SS 66.0603.

The number one factor involved with investing is safety of principal. Currently, all major deposits, whether savings or checking accounts, are interest-bearing accounts and are either state or federal securities or secured by the state or federal securities. Some small checking accounts are not interest bearing.
