PROPOSAL

June 18, 2025

Dan Trapp
Director of Buildings & Grounds
Lyons School District 103
4100 Joliet Avenue
Lyons, IL 60534

Re: **Proposal New Rauland Telecenter U Intercom Systems - OVERLAY
Lyons School District 103**

Dear Mr. Trapp:

Interstate Electronics Company proposes the following, subject to the conditions listed on Page Two of this Proposal:

Rauland Telecenter U System - Overlay

The entry-level installation with a Rauland Telecenter U is what we call an Overlay. A new Telecenter U Controller, Telecenter U License Bundle Software, and one (1) Zone Page Module will be installed and tied to the existing intercom system. This will upgrade the school to have the automated emergency and bell schedule features of Telecenter U. The school will show up on the districtwide Web User Interface portal for district staff to manage and view (same interface George Washington MS is on). Classroom calls and paging will still be done using the old intercom handset. When the existing intercom system dies, you will then purchase the 24-port gateways to replace the existing system. The Overlay allows you to invest into the new system and when the old system dies, you just have to upgrade with the 24-port gateways. Proposal includes the system components installation with remote programming and configuration, and on-site training. This system shall include but not necessarily be limited to the following:

- Districtwide Emergency event management including:
 - Activation of pre-recorded announcements, customized to each school, to align with the district's crisis management plan including administrative e-mail, texts, closures to card access systems, etc.
 - Activation can be achieved via an intercom console, a connection to a security system, a web-based activation, an App installed on a mobile phone, or through the district phone system if integrated
 - Upon lockdown activation, the class change tones or bells are turned off, the speaker pre-announce tone is turned off
- Web based, NTP synchronized, intuitive calendar-based bell scheduling
 - Easily manage and create schedules with a very user-friendly web browser interface from anywhere on the network
 - Adaptive scheduling allows for quick on the fly changes with the drag and drop or reoccurrence feature
 - Play bells, tones, pre-recorded announcements, music, and more at a specific time of day
- Easily expandable to support optional peripherals such as additional speakers, message boards, door access controllers, etc.
- **Integration with the districts Centegix emergency response system**
- Training with manuals and dial directories is included
- **Five Year Warranty** on material with a one-year warranty via remote support

*****Note: Owner provided data connection to the equipment racks and POE switch per school intercom rack.**

PROPOSAL

New Telecenter U Intercom Systems – Lyons School District 103
June 18, 2025
Page 2 of 2

Costello Elementary School: Total Cost	<u>\$16,259.00</u>
Edison Elementary School: Total Cost	<u>\$16,259.00</u>
Home Elementary School: Total Cost	<u>\$16,259.00</u>
Lincoln Elementary School: Total Cost	<u>\$16,259.00</u>
Robinson Elementary School: Total Cost	<u>\$16,259.00</u>

CONDITIONS

AC power, including power cabling, equipment and/or receptacles will be furnished, installed and made available at required locations by others.

This Proposal is based on a continuous work cycle, with no delays, performed during normal working hours, Monday through Friday, excluding company holidays.

Warranty: This Proposal includes a one-year remote support warranty on programming and a **Five-Year Equipment Warranties** offered by the manufacturers of the proposed equipment.

This Proposal is based upon the re-utilization of existing cabling and/or equipment, which is assumed to be in proper operating condition. In the event that it is determined that the existing cabling and/or equipment is not in proper operating condition, Interstate will submit a proposal for the additional costs to furnish and install new cabling and/or equipment where required.

This Proposal is based upon the furnishing of Rauland-Borg equipment. Interstate Electronics Company is an authorized Rauland-Borg distributor.

All shop assembly, fabrication and internal wiring of equipment racks shall be performed by IBEW Local 134 labor.

This Proposal does not include any asbestos or hazardous material removal, abatement, containment or testing.

This Proposal is based upon the furnishing of standard colors and finishes, where applicable.
