HMONG Project PD Plan: Year 1

47

Committee of the Board Meeting
August 5, 2026

Purpose

To report on the progress of the Board goal to provide professional development on the integration of HMong language, history, culture, and perspectives into content-appropriate instruction and services for all licensed staff.

48

Goal #1

Beginning in the 2026-27 school year, the District shall ensure that **25% of all licensed staff** complete professional learning focused on the integration of **Hmong language, history, culture and perspectives into content-appropriate instruction and services**. Following this initial benchmark, participation shall increase by a minimum of **10% annually**, as verified by official district attendance records (e.g., PowerSchool Professional Learning or physical sign-in rosters).

49

Goal, continued

This commitment includes:

- Monitoring staff-reported feedback, preparedness and support to integrate culturally responsive practices that affirm HMong language, culture and history, using staff climate and engagement survey instruments
- Recognizing and valuing the cultural and linguistic expertise of HMong staff, while ensuring that responsibility for cultural responsiveness is shared across the system and embedded within Tier 1 expectations

50

Team, Taskforce and Partners

Staff Taskforce	Partner Facilitators
● Bee Her, Counselor ● Mouakong Vue, Social Studies Teacher ● Chong V. Xiong, Coordinator ● Chong Yang, ELA Teacher ● Doua Yang, Bilingual Educational Assistant ● Oulia Yang, Principal	● Office of Multilingual Learning staff ● Office of Teaching & Learning staff ● Office of College and Career Readiness staff ● Special Education leadership staff ● Senior leadership staff

51

Content: Part 1

A team of SPPS HMong staff representing a variety of roles will collaborate to create a 45-minute session focused on grounding participants in understanding the HMong American experience. The goal is to provide historical context of how history and heritage has shaped the current culture, specifically those who call St. Paul home.

Perception Grounding	The Hmong Journey	Evolving Realities	Reflection Transition ⁵²
Exploring words, mental images, and initial questions that shape our current view of Hmong students and families in SPPS.	Analyzing historical heritage and evolving cultural identities, focusing on how background factors shape outlooks on current education.	Deconstructing assumptions to align with modern community truths, backed by authentic voices highlighting what families want SPPS to know.	Synthesizing insights to prepare for action. Brainstorming how shifting understanding directly impacts student achievement.

Content: Part 2

A member of the team will meet with the lead of the group receiving the training to co-construct the second part of the session. Reflection, application and purposeful integration into content areas will be the focus.

Guiding Questions:

53

Awareness	Inclusivity	Self-Reflection	Application
Whose stories are represented in my curriculum, and whose are missing? How does understanding the Hmong experience of displacement, resilience, and cultural preservation deepen the concepts I teach?	How am I building an environment where HMong students feel seen, valued and academically affirmed?	What assumptions or gaps in my own knowledge of the Hmong community might be shaping my interactions with students and families?	How can I design learning experiences that invite all students to engage with Hmong history as relevant, not just “someone else’s story”?
