Ellie Holm

First and foremost I want to thank the community for letting me represent you the last 4 yrs.

I want to give Words of advice for upcoming board and future boards...take it or leave it! I had received bits from previous board members from the past and took them with a grain of salt and they all became very true to live by.

You are voted in by the taxpayers and you are here to represent them! There's no other way to put it~ as a board member you are their voice!

Always always always get your own Information- dept of education/Mn school board association/local representatives and district citizens and students are great for facts and truth.

Never ever should a personal relationship get in the way of your decision making~you need to do what's best for the majority, take people out of decision and do not do what's best for you or what benefits yourself and/or 1 or 2 other people. This is a hard role to take on but that is your responsibility. It shouldn't be a "I scratch your back, you scratch mine type of system"

There are many things you will learn~ good information and misfortunate information..... very very eye opening!

Enjoy the learning opportunity to future boards
and again thank you to the taxpayers I was able represent.
