Category 3(b): Remodeling for Gender Neutral Single-User Restroom per site (Effective FY 2025)

For districts who budget for a remodeling project for a gender-neutral single user restroom at least one at each school site.

Category 4: Americans with Disabilities Act (ADA) Accessibility Projects

Enter approved project costs to increase accessibility to school facilities. The project shall conform to both the district’s ADA/Section 504 disabled access transition plan and the current ADA Accessibility Guidelines for Buildings and Facilities, as well as applicable state and local building and fire codes.

Category 5: Deferred Maintenance Projects by UFARS Finance Code.

Facility deferred maintenance projects are broken into nine finance codes. Each code represents a component grouping of a building designed to ease assignment of a project into the proper code. The code breakdown is also meaningful for comparison of costs among school districts and to the Minnesota legislature to assess school facility costs and the ongoing need for facility funding.

Category 6: Deferred Maintenance Projects for Roofing Systems requests for \$100,000 or more per site/year.

A district enters totals by finance code for individual roofing projects that cost \$100,000 or more per site, per year for additional revenue.

Fund Balance Section: Fund 01 - General Fund LTFM Project Expenditures and Fund 06 - Building Construction Project Expenditures (LTFM Only - Bonded or \$2 million or more per project/site/year (see transfer guidance)).

To begin, enter previous fiscal year ending fund balances for Fund 01-467-XX in cell C56 and Fund 06-467-XX in cell C67. Beginning and Ending Fund Balances are input/calculated as negative balances = (\$100,000), or as positive balances = \$100,000. Revenues, expenditures and transfer IN and OUT are all entered as positive numbers. The fiscal year ending fund balance calculation formula includes the revenues/transfer IN entries as positive numbers added to the fiscal year beginning fund balance. The fiscal year ending fund balance calculation formula includes the expenditures/transfer OUT entries as negative numbers subtracted from the beginning fiscal year fund balance. **If both Funds 01 and 06 are utilized, you will have to input an Excel formula to divide up the total expenditures in Cells C-M , Line 53 - if any or all of these cells apply.** This would affect

Updating the Health and Safety Database (Does not include Deferred Maintenance Fina

The Minnesota Department of Education (MDE) will continue to use the existing Health and Safety (H&S) database (located on the MDE website under MDE > Districts, Schools and Educators > Business and Finance > Data Submissions, select Health and Safety) to drive levy processing for fall levies. Districts enter summary data by finance code, consistent with the summary data for Fiscal Year (FY) 2026, FY 2027 and FY 2027 included on the district's ten-year plan expenditure spreadsheet. Detailed information by project will still be required for asbestos removal and encapsulation, fire safety and indoor air quality projects costing \$100,000 or more per project, per site, per year since those generate additional revenue over and above the Long-Term Facilities Maintenance (LTFM) formula allowance. Do not enter information for deferred maintenance or accessibility finance codes. The Health and Safety amounts provide an accurate calculation of the hold harmless revenue estimate on the levy and aid entitlement reports, and either add to revenue or show complete information for persons who seek levy information. When comfortable with data and assumptions, a district should enter the total health and safety cost from the expenditure spreadsheet in the hold harmless section of the revenue spreadsheet and the Health and Safety Data Submission System. Hold harmless revenue depends on the year's H&S costs plus deferred maintenance revenue for districts that did not qualify for alternative facilities revenue. Hold harmless for an alternative facilities school district is health and safety plus an amount to fund the other ten-year plan projects. For FY 2026, 27 and 28, MDE is asking school districts to enter totals by finance code from the expenditure spreadsheet in the Health and Safety Data Submission System (instructions on how to enter H&S data on the data submissions website may be found on the LTFM webpage under MDE > Districts, Schools and Educators > Business and Finance > School Finance > Facilities and Technology > Long-Term Facilities Maintenance, then select "Health and Safety Website Instructions" (these instructions may also be found on the Health and Safety Data Submission System). MDE uses the submission system to load the prior law calculation H&S amount into the Levy Limitation and Certification system and LTFM Aid Entitlement system. Without this step, the levy shows zero in the health and safety line under the old law revenue and the calculation is inaccurate. An alternative facilities school district should not include the amount in both the Health and Safety Data Submission System and in the revenue amount entered for deferred maintenance ten-year plan projects levy as the H&S levy will be doubled. In the Health and Safety Data Submission System, enter the H&S finance totals, six in all (if all are included in the ten-year planned projects) from the expenditure spreadsheet plus separately enter each individual project (asbestos removal and encapsulation, fire safety or indoor air quality) costing \$100,000 or more for H&S. **Only**

Note: School Districts should continue to update H&S expenditures in the Health and Safety Data Submission system on a regular basis to accurately cost estimate decreases or increases for applicable fiscal years.

Make sure to update the system for **final, audited UFARS H&S financial data** (reference the 25-26 UFARS Turnaround Report titled **Expenditure by Finance Code Report** on the Minnesota Funding Reports (MFR) webpage located at Data Center > Data Reports and Analytics, locate the School Finance Reports section), select Minnesota Funding Reports (MFR). Enter your school name, view all reports, select UFARS Turnaround Reports category, select 25-26 school year, under Report select "All" and then List Reports.

EXTRACURRICULAR TRANSPORTATION

Lewiston-Altura Public Schools provide as many activities as practicable to students. Each activity has its own associated costs. In an effort to be as consistent as possible and not limit the number of activities and/or participation, the following parameters will be implemented for transportation to events and practices.

1. Lewiston-Altura High School MSHSL Sanctioned Activities (Football, Volleyball, Boy's and Girl's Basketball, Knowledge Bowl, Math League, Softball, Baseball, Boy's and Girl's Track and Field, and Boy's and Girl's Golf) – All students participating in an activity that is 100% hosted by Lewiston-Altura will have access to transportation to practice on school days to the designated location or within reasonable walking distance. Activity participants will receive transportation to away events and return trips to the high school unless parents will be following the below guidelines to take students home from events. Part of being a member of a team/activity is time spent together before and after events, and students are highly encouraged to ride home from events with their team/activity.
2. Shared Cooperative Sports (Boy's and Girl's Cross Country, Dance, Boy's and Girl's Wrestling) – The district will provide transportation to and from practices located at the cooperative school. Practice held in district on school days will be provided transportation to the designated offsite location or within reasonable walking distance. Activity participants will receive transportation to away events and return trips to the high school unless parents will be following the below guidelines to take students home from events.
3. Off Site Cooperative (Boy's and Girl's Soccer and Boy's and Girl's Hockey) – Cooperatives may be formed that are 100% hosted by another district. In the event of this type of cooperative, no transportation is provided to practices or events. There may be instances where the bus from the cooperative school may pick students up at the high school, but it is not guaranteed. In the event of this style of cooperative, parents must arrange transportation for their children following all state and local statutes and laws, especially related to driving license restrictions. The school district will not help arrange rides for students, but parents can arrange to transport students. The off site cooperative district must approve all transportation requests related to practices and events.
4. No team or activity will provide direct transportation to a participants home. There is no transportation to practices on non-school days or weekends. Events held on weekends will have transportation provided as listed below. Students are required to ride with teams to events unless there are extenuating circumstances preapproved by administration.
5. Please note that FFA pays for their own transportation costs as part of being a student activity but still follows school transportation guidelines. Trap team is not an MSHSL sanctioned activity and students must provide their own transportation to practice rounds and events.

All Sports: Students participating in a school-sponsored event must ride to and from that activity in a school owned vehicle. The coach/advisor, activities director, principal, or the superintendent may grant exceptions for students wishing to ride home with a parent. A signed note from the parent is necessary for permission to be granted, and the coach/advisor must visibly see the parent prior to the student leaving the event.

At least one coach or supervisor is required to travel to and from all athletic contests with the team on the van or bus. Exceptional situations must have the approval from the AD or Principal.

Regarding students driving to practice or transporting other students to practice:

1. Parents and participants are to be notified that the school provides transportation to and from practice and events.
2. Students driving to practice/event must have signed parent permission slips indicating the parents accept liability for any mishaps. The form will indicate the reason behind the need to drive as well permission will not extend beyond that season.
3. Students are only allowed to drive family members, within the scope of their license, to a practice with parent permission approved by the office prior to the travel. The school will request a copy of the student license along with the signed form from a parent indicating which family members the student will be transporting.
4. Students needing to ride home from an event with another family (adult) need to have preapproval from the AD or Principal to do so. Students will not be allowed to ride home at the time of the event if pre-approval was not granted. Only the adult given the preapproval will be allowed to sign the student out from the event.
5. Students leaving an event must be signed out by an adult. Whenever possible, preapproval is preferred, so that coaches know who will be riding to and from events.
6. PSEO students attending off campus classes or with a class schedule conflict will be allowed to drive to practice or an event with parent permission. Preapproval is necessary for these events. Online courses that do not meet at set times will not be acceptable for reasons to drive to practice or events.

Student Behavior Guidelines for Extracurricular Transportation

2. Use of mobile phones is allowed for the purpose of contacting family, adults, guardians who need to be informed about bus arrival and location issues before departing for home.
3. The bus driver has the authority to request a passenger discontinue the use of mobile phones and other devices, if and when the driver feels inappropriate use is being made, or it causes potentially hazardous safety issues for the driver. A single violation can result in revocation of this privilege.
