A. **ACTION ITEM** Request for Proposals (RFP) Stoddard Bard Adaptive Reuse Master Plan

City Administrator Lisa Ailport recapped that the project originated from the Council's strategic planning session earlier in the year, where it was identified as a lower-priority but still supported initiative. A draft Request for Proposals (RFP) was previously brought to Council and has since been reviewed by both the Historic Preservation Commission and the Parks, Recreation, and Community Forestry Commission, both of which recommended moving the RFP forward. Staff requested Council's support to initiate the RFP process, noting that completion of the Master Plan would ultimately result in a plan for Stoddard Barn to be adopted as part of the City's overall Parks Master Plan, similar to prior efforts for McIntire Family Park and Hayden Canyon Park. Staff explained that while future funding opportunities are not yet identified, establishing a master plan is the essential first step for engaging the community and pursuing potential grant funding.

MOTION: Council Member Erickson moved to direct staff to solicit proposals for the Stoddard Barn Adaptive Reuse Master Plan in accordance with the attached Request for Proposals (RFP). Council Member Roetter provided the second.

## 5. REPORTS

### A. City Administrator Report and Calendar Review

City Administrator Lisa Ailport provided a written report outlining progress on several ongoing projects, including updates on the Ramsey-Honeysuckle and Hayden-Atlas intersections, both of which continue to advance. She noted that Architects West is actively working on the first-phase design for McIntire Family Park, with the goal of preparing the project for bidding early next year. The spatial needs analysis for City Hall, conducted by Bernardo Wills, is underway and will help inform future civic center design considerations. The Civic Center Master Plan process has also begun, with anticipated completion in December before moving into design work. An update on the law enforcement strategic plan was provided, with the consultant experiencing delays but expected to deliver a final draft soon. The report also included a list of upcoming meetings for Council's reference, aligned with the city's calendar.

### B. Mayor/Council

Mayor Davis announced upcoming community events, including the City's Trunk-or-Treat on October 30th and suggested Council consider decorating a trunk to participate. She also reminded everyone of the Art Showcase scheduled for September 12th from 3:00 to 5:00 p.m. at McIntire Family Park, featuring demonstrations by local artist Terry Lee and others. No additional reports were offered by Council members.

Welch Comer & Associates Professional Services Contract Amendment 3- Honeysuckle/Ramsey Roundabout

**AMENDMENT NO. 3  
AUTHORIZATION FOR ADDITIONAL SERVICES**

**Additional Services.** The following additional items of work on the **Honeysuckle Avenue and Ramsey Road Roundabout** project "the project" will be provided by Welch Comer. These additional services are a supplement to the scope of services contained in the existing agreement for Professional Services for the project dated March 10, 2026. All other terms and conditions of said agreement remain in full effect unless specifically modified in this additional services agreement.

**Additional Scope of Work.** This Amendment includes additional construction administration services because the current schedule is longer than originally intended and requires more time to administer the contract. All other scope items from the contract are relevant.

**Fee.** The additional construction administration is estimated at **\$22,000** and will be billed on a time and materials basis only for construction administration time between the original substantial completion date 80 days from Notice to Proceed and the true substantial completion date (now estimated as October 2, 2026 based on the contractor's latest schedule.) NTP was June 18, 2026 and 80 calendar days would have put substantial completion at September 6, 2026. The RPR onsite is billed hourly under a different phase and is trending slightly under budget.

**Schedule.** Based on the contractor's current schedule, substantial completion is anticipated to be reached on October 2, 2026. Once substantially complete, time will be billed to the original construction administration phase.

**Additional Payment.** The CITY agrees to pay ENGINEER for its services rendered under this Agreement on an hourly basis for this additional task which will be tracked separately.

The parties agree that ENGINEER will invoice the CITY for payment under this Agreement for services rendered herein.

This General Construction Agreement (“Agreement”) is entered into between Avista Corporation, a Washington corporation (“Avista”), and the Requestor identified in Exhibit A, (“Requestor”) (sometimes, individually, a “Party”, and collectively, the “Parties”).

### Background and Purpose

Requestor wishes to have Avista perform the work described in the attached Exhibit A (collectively, the “Work”) on or adjacent to property identified above (the “Property”). The purpose of this Agreement is to set forth the scope and terms and conditions under which Avista will perform the Work, together with the respective obligations of the Parties.

Therefore, the Parties agree as follows:

### Section 1 Scope of Work

1.1 Avista will perform the Work described above and in the attached Exhibit A. The Work will be performed in accordance with Avista’s standards, as modified from time to time, as well as applicable law and, to the extent applicable, Avista’s Tariffs, as on file with the applicable state utilities commission

1.2 Avista will make every reasonable effort to commence the Work within thirty (30) days of execution of this Agreement and receipt of any monies owed in advance; provided, however, that Avista will not commence the Work until Requestor has complied with all requirements of this Agreement. Requestor acknowledges that the timing of the Work is dependent on Avista’s ability to schedule the same, and that completion of the Work may be delayed by conditions encountered in the course of the Work. Avista shall not be liable for any costs associated with delays in either the commencement or the completion of the Work.

1.3 Unless otherwise agreed to in writing, Avista shall retain ownership of any facilities that are installed by Avista, on the Property and upstream from the Requestor’s Point of Service, as that term is defined in Avista’s Tariffs (“Avista Facilities”).

2.2 Requestor shall remit payment for the estimated cost of the Work, as reflected in the attached Exhibit ‘A’, prior to Avista’s commencement the Work. Requestor shall remit payment for any additional costs within thirty (30) days of their receipt of an invoice from Avista for the same.

2.3.2 If identified in Exhibit A, Requestor shall be required to provide all trenching, conduit, backfill, and padding as required to Avista specifications. At Avista's sole option, conduit may be provided by Avista. The location of said trenching shall be the responsibility of Requestor. To ensure the proper location of easements, prior to the commencement of the Work, Requestor shall certify that all utility trenching is located within the areas agreed upon by the parties.

2.3.3 Any work described in this Section or in Exhibit A and performed by Requestor, or a third party on behalf of Requestor, must meet Avista's specifications, pass Avista's inspection and be coordinated with Avista's scheduled work.

### **Section 3 Term of Agreement**

This Agreement shall remain in effect until the Work has been completed, and Requestor has remitted payment in full for Avista's actual costs incurred.

### **Section 4 Requestor's Responsibilities**

4.1 By signing this Agreement, Requestor authorizes Avista to proceed with any work necessary on the Property to accomplish the Work, and represents and warrants that they have fully authority to grant such authorization. This authorization includes, without limitation, the right to remove or otherwise disturb improvements on the Property, including lawns, shrubs, landscaping, driveways and sidewalks, for the purpose of the Work, and without any obligation to restore or reimburse Requestor for any resulting damages.

4.2 Requestor acknowledges that, in the event Requestor requests that Avista perform the Work during adverse ground/construction conditions ("Adverse Conditions"), including, without limitation, ice, water, mud or frozen ground due to winter weather, Requestor will be responsible for the repair of landscaping and/or other additional costs resulting from the performance of the Work during such Adverse Conditions.

4.3 Requestor acknowledges and understands that they are responsible for any damage to underground facilities that are not exposed by Requestor, including, but not limited to, sprinkler systems, sewer lines or other underground piping or wiring.

4.4 Requestor acknowledges that additional charges may apply in the event Avista is required to excavate in, drill through, or otherwise address rocky soil conditions.

4.5 Requestor is required to notify Avista in any instance where Requestor determines that construction or improvements on the Property may encroach on, or cross over, any Avista Facilities installed on the Property prior to commencing said activities. All costs related to subsequent relocation of any Avista Facilities necessitated by such encroachment shall be at Requestor's sole cost.

### **Section 5 Underground Locates**

Prior to performing any required excavating work in relation to this Agreement, Avista and/or Requestor shall utilize the state-mandated one-call service to mark the location of other entities' underground utilities locations on the Property. When this Section is applicable to Avista, Avista will notify Requestor in advance of such excavation and make every reasonable effort to avoid or minimize any dislocation of improvements on the Property. However, Requestor is responsible for identifying or exposing any underground facilities not located by Avista prior to Avista performing the Work. In the event Requestor fails to identify or expose any underground facilities, Requestor will be solely responsible for any damage caused to such facilities, including, but not limited to, the cost to repair such facilities.

## Section 6 Easements and Access to Property

Requestor grants Avista a perpetual right of ingress, egress and access over and across the Property to perform the Work, and to install, operate, inspect, replace and maintain any Avista Facilities installed as part of the Work. Upon request by Avista, Requestor shall grant, convey and warrant to Avista a perpetual, non-exclusive easement on, over, under, along and across the Property that ensures Avista's right to construct, reconstruct, operate, maintain, upgrade, repair, remove, relocate and said facilities and all related appurtenances. Such easement shall be in a form satisfactory to Avista and at no cost to Avista. In the event Avista is required to secure any additional easements or permits in order to install or maintain Avista Facilities installed pursuant to this Agreement, Requestor shall reimburse Avista for the actual costs applicable for securing such easements and permits. Requestor represents and warrants that they have full authority to make the commitments provided for in this Section.

## Section 7 Mutual Indemnification

Each Party shall indemnify and defend the other Party, their directors, officers, employees and agents (collectively, "Indemnitees") from all claims, demands, suits losses, costs, and damages of every kind or nature, including attorney's fees (collectively, a "Loss") resulting from, arising out of, or in any way connected with any willful misconduct or negligence by the indemnifying Party. In the event that any such Loss is caused by the negligence of both Parties, the Loss will be borne by the Parties in proportion that their respective negligence bears to the total negligence causing the Loss.

## Section 8 Party Representatives and Notices

### 8.1 Party Representatives

8.1.1 Avista's Construction Representative, identified in Exhibit A, will be the point of contact for Avista in all matters requiring Avista's approval, acceptance, authorization and/or notice under this Agreement.

8.1.2 Requestor's Representative, identified in Exhibit A, will be the point of contact for Requestor in all matters requiring Requestor's approval, acceptance, authorization and/or notice under this Agreement.

### 8.2 Notices to the Parties

8.2.1 All notices, demands, requests, or other communications under this Agreement must be in writing and sent by mail (postage prepaid), or delivered to the other Party either electronically or by a recognized commercial courier, addressed as set forth in Exhibit A. Such notices, demands, requests and other communications will be deemed given as of the date delivered, or, if sent electronically or by mail, upon receipt.

8.2.2 Either Party may change its address, designated Representative, or other point-of-contact or delegate by providing written notice to the other Party as set forth above.

## Section 9 Miscellaneous Provisions

9.2 Entire Agreement. This is the entire Agreement between the Parties with respect to the subject matter hereof. No other understandings, oral or otherwise, regarding the subject matter of this Agreement will bind the signatories to this Agreement unless agreed to by both Parties in writing.

9.3 Assignment by Requestor. Requestor shall not assign this Agreement, or any right or interest contained herein, without the prior written consent of Avista. Assignment without Avista's prior written consent will be voidable at Avista's sole option. No such assignment, with or without Avista's prior written consent, will relieve Requestor from its responsibilities under this Agreement.

**CUSTOMER COPY**

9.4 Survival. Any provision of this Agreement which may reasonably be interpreted or construed as surviving the completion, termination or cancellation of this Agreement will survive the completion, termination or cancellation of this Agreement.

9.6 Amendments/Modifications. Any amendment or modification to the provisions of this Agreement will not be effective unless made by written amendment executed by both Parties.

9.7 Third Party Beneficiaries. Nothing in this Agreement is intended to confer any right or benefit on a person or entity not a Party to this Agreement, or impose any obligations of either Party to the Agreement on persons or entities not a Party to this Agreement.

9.8 Waiver of Provisions. The failure of a Party to insist upon or enforce performance of any of the provisions or to exercise any rights under the Agreement will not be construed as a waiver or relinquishment to any extent of its right to assert or rely upon any such provisions or rights in that or any other instance; rather, the same will be and remain in full force and effect.

9.9 Negotiation of Agreement. This Agreement, and each of the terms and provisions hereof, are deemed to have been explicitly negotiated, and the language in all parts of this Agreement shall, in all cases, be construed according to their fair meaning and not strictly for or against either Party.

### Background and Purpose

Requestor wishes to have Avista perform the work described in the attached Exhibit A (collectively, the “Work”) on or adjacent to property identified above (the “Property”). The purpose of this Agreement is to set forth the scope and terms and conditions under which Avista will perform the Work, together with the respective obligations of the Parties.

Therefore, the Parties agree as follows:

### Section 1 Scope of Work

1.1 Avista will perform the Work described above and in the attached Exhibit A. Avista shall not be liable for any costs associated with delays in either the commencement or the completion of the Work.

1.3 Unless otherwise agreed to in writing, Avista shall retain ownership of any facilities that are installed by Avista, on the Property and upstream from the Requestor’s Point of Service, as that term is defined in Avista’s Tariffs (“Avista Facilities”).

Work Order # 1036878361

Expiration Date: Mar 16, 2027 12:00:00 AM  
Agreement No.: 66630

This General Construction Agreement (“Agreement”) is entered into between Avista Corporation, a Washington corporation (“Avista”), and the Requestor identified in Exhibit A, (“Requestor”) (sometimes, individually, a “Party”, and collectively, the “Parties”).

### Background and Purpose

Requestor wishes to have Avista perform the work described in the attached Exhibit A (collectively, the “Work”) on or adjacent to property identified above (the “Property”). The purpose of this Agreement is to set forth the scope and terms and conditions under which Avista will perform the Work, together with the respective obligations of the Parties.

Therefore, the Parties agree as follows:

### Section 1 Scope of Work

1.1 Avista will perform the Work described above and in the attached Exhibit A. The Work will be performed in accordance with Avista’s standards, as modified from time to time, as well as applicable law and, to the extent applicable, Avista’s Tariffs, as on file with the applicable state utilities commission

1.2 Avista will make every reasonable effort to commence the Work within thirty (30) days of execution of this Agreement and receipt of any monies owed in advance; provided, however, that Avista will not commence the Work until Requestor has complied with all requirements of this Agreement. Requestor acknowledges that the timing of the Work is dependent on Avista’s ability to schedule the same, and that completion of the Work may be delayed by conditions encountered in the course of the Work. Avista shall not be liable for any costs associated with delays in either the commencement or the completion of the Work.

1.3 Unless otherwise agreed to in writing, Avista shall retain ownership of any facilities that are installed by Avista, on the Property and upstream from the Requestor’s Point of Service, as that term is defined in Avista’s Tariffs (“Avista Facilities”).

### Section 2 Compensation

2.1 Where a fixed charge is applicable, Requestor shall be responsible for the fixed charge as set forth in the attached Exhibit A. In all other instances, Requestor shall be responsible for Avista’s actual costs associated with performing the Work. An estimate of those costs is reflected in the attached Exhibit A. Requestor acknowledges that Avista’s actual costs may vary depending on conditions encountered during the course of the Work. In all cases, Requestor shall be responsible for all costs incurred in excess of Avista’s original estimate.

2.2 Requestor shall remit payment for the estimated cost of the Work, as reflected in the attached Exhibit ‘A’, prior to Avista’s commencement the Work. Requestor shall remit payment for any additional costs within thirty (30) days of their receipt of an invoice from Avista for the same.

### 2.3 Pre-Construction Obligations

2.3.1 In addition to the estimated cost of the Work, Requestor may be responsible for certain pre-construction obligations. Such pre-construction obligations may include, but are not limited to, trenching and final compaction. In the event Requestor is responsible for such pre-construction obligations, such cost responsibilities will be described in Exhibit A, attached hereto.

2.3.2 If identified in Exhibit A, Requestor shall be required to provide all trenching, conduit, backfill, and padding as required to Avista specifications. At Avista's sole option, conduit may be provided by Avista. The location of said trenching shall be the responsibility of Requestor. To ensure the proper location of easements, prior to the commencement of the Work, Requestor shall certify that all utility trenching is located within the areas agreed upon by the parties.

2.3.3 Any work described in this Section or in Exhibit A and performed by Requestor, or a third party on behalf of Requestor, must meet Avista's specifications, pass Avista's inspection and be coordinated with Avista's scheduled work.

### **Section 3 Term of Agreement**

This Agreement shall remain in effect until the Work has been completed, and Requestor has remitted payment in full for Avista's actual costs incurred.

### **Section 4 Requestor's Responsibilities**

4.1 By signing this Agreement, Requestor authorizes Avista to proceed with any work necessary on the Property to accomplish the Work, and represents and warrants that they have fully authority to grant such authorization. This authorization includes, without limitation, the right to remove or otherwise disturb improvements on the Property, including lawns, shrubs, landscaping, driveways and sidewalks, for the purpose of the Work, and without any obligation to restore or reimburse Requestor for any resulting damages.

4.2 Requestor acknowledges that, in the event Requestor requests that Avista perform the Work during adverse ground/construction conditions ("Adverse Conditions"), including, without limitation, ice, water, mud or frozen ground due to winter weather, Requestor will be responsible for the repair of landscaping and/or other additional costs resulting from the performance of the Work during such Adverse Conditions.

4.3 Requestor acknowledges and understands that they are responsible for any damage to underground facilities that are not exposed by Requestor, including, but not limited to, sprinkler systems, sewer lines or other underground piping or wiring.

4.4 Requestor acknowledges that additional charges may apply in the event Avista is required to excavate in, drill through, or otherwise address rocky soil conditions.

4.5 Requestor is required to notify Avista in any instance where Requestor determines that construction or improvements on the Property may encroach on, or cross over, any Avista Facilities installed on the Property prior to commencing said activities. All costs related to subsequent relocation of any Avista Facilities necessitated by such encroachment shall be at Requestor's sole cost.

### **Section 5 Underground Locates**

Prior to performing any required excavating work in relation to this Agreement, Avista and/or Requestor shall utilize the state-mandated one-call service to mark the location of other entities' underground utilities locations on the Property. When this Section is applicable to Avista, Avista will notify Requestor in advance of such excavation and make every reasonable effort to avoid or minimize any dislocation of improvements on the Property. However, Requestor is responsible for identifying or exposing any underground facilities not located by Avista prior to Avista performing the Work. In the event Requestor fails to identify or expose any underground facilities, Requestor will be solely responsible for any damage caused to such facilities, including, but not limited to, the cost to repair such facilities.

## Section 6 Easements and Access to Property

Requestor grants Avista a perpetual right of ingress, egress and access over and across the Property to perform the Work, and to install, operate, inspect, replace and maintain any Avista Facilities installed as part of the Work. Upon request by Avista, Requestor shall grant, convey and warrant to Avista a perpetual, non-exclusive easement on, over, under, along and across the Property that ensures Avista's right to construct, reconstruct, operate, maintain, upgrade, repair, remove, relocate and said facilities and all related appurtenances. Such easement shall be in a form satisfactory to Avista and at no cost to Avista. In the event Avista is required to secure any additional easements or permits in order to install or maintain Avista Facilities installed pursuant to this Agreement, Requestor shall reimburse Avista for the actual costs applicable for securing such easements and permits. Requestor represents and warrants that they have full authority to make the commitments provided for in this Section.

## Section 7 Mutual Indemnification

Each Party shall indemnify and defend the other Party, their directors, officers, employees and agents (collectively, "Indemnitees") from all claims, demands, suits losses, costs, and damages of every kind or nature, including attorney's fees (collectively, a "Loss") resulting from, arising out of, or in any way connected with any willful misconduct or negligence by the indemnifying Party. In the event that any such Loss is caused by the negligence of both Parties, the Loss will be borne by the Parties in proportion that their respective negligence bears to the total negligence causing the Loss.

## Section 8 Party Representatives and Notices

### 8.1 Party Representatives

8.1.1 Avista's Construction Representative, identified in Exhibit A, will be the point of contact for Avista in all matters requiring Avista's approval, acceptance, authorization and/or notice under this Agreement.

Such notices, demands, requests and other communications will be deemed given as of the date delivered, or, if sent electronically or by mail, upon receipt.

8.2.2 Either Party may change its address, designated Representative, or other point-of-contact or delegate by providing written notice to the other Party as set forth above.

## Section 9 Miscellaneous Provisions

9.2 Entire Agreement. This is the entire Agreement between the Parties with respect to the subject matter hereof. No other understandings, oral or otherwise, regarding the subject matter of this Agreement will bind the signatories to this Agreement unless agreed to by both Parties in writing.

9.3 Assignment by Requestor. Requestor shall not assign this Agreement, or any right or interest contained herein, without the prior written consent of Avista. Assignment without Avista's prior written consent will be voidable at Avista's sole option. No such assignment, with or without Avista's prior written consent, will relieve Requestor from its responsibilities under this Agreement.

**CUSTOMER COPY**

9.4 Survival. Any provision of this Agreement which may reasonably be interpreted or construed as surviving the completion, termination or cancellation of this Agreement will survive the completion, termination or cancellation of this Agreement.

9.6 Amendments/Modifications. Any amendment or modification to the provisions of this Agreement will not be effective unless made by written amendment executed by both Parties.

9.8 Waiver of Provisions. The failure of a Party to insist upon or enforce performance of any of the provisions or to exercise any rights under the Agreement will not be construed as a waiver or relinquishment to any extent of its right to assert or rely upon any such provisions or rights in that or any other instance; rather, the same will be and remain in full force and effect.

9.9 Negotiation of Agreement. This Agreement, and each of the terms and provisions hereof, are deemed to have been explicitly negotiated, and the language in all parts of this Agreement shall, in all cases, be construed according to their fair meaning and not strictly for or against either Party.

## General Construction Agreement

General Construction Agreement Date: Sep 16, 2026  
Work Order # 1036878361

Expiration Date: Mar 16, 2027 12:00:00 AM  
Agreement No.: 66630

This General Construction Agreement (“Agreement”) is entered into between Avista Corporation, a Washington corporation (“Avista”), and the Requestor identified in Exhibit A, (“Requestor”) (sometimes, individually, a “Party”, and collectively, the “Parties”).

### Background and Purpose

Requestor wishes to have Avista perform the work described in the attached Exhibit A (collectively, the “Work”) on or adjacent to property identified above (the “Property”). The purpose of this Agreement is to set forth the scope and terms and conditions under which Avista will perform the Work, together with the respective obligations of the Parties.

Therefore, the Parties agree as follows:

### Section 1 Scope of Work

1.1 Avista will perform the Work described above and in the attached Exhibit A. The Work will be performed in accordance with Avista’s standards, as modified from time to time, as well as applicable law and, to the extent applicable, Avista’s Tariffs, as on file with the applicable state utilities commission

1.2 Avista will make every reasonable effort to commence the Work within thirty (30) days of execution of this Agreement and receipt of any monies owed in advance; provided, however, that Avista will not commence the Work until Requestor has complied with all requirements of this Agreement. Requestor acknowledges that the timing of the Work is dependent on Avista’s ability to schedule the same, and that completion of the Work may be delayed by conditions encountered in the course of the Work. Avista shall not be liable for any costs associated with delays in either the commencement or the completion of the Work.

1.3 Unless otherwise agreed to in writing, Avista shall retain ownership of any facilities that are installed by Avista, on the Property and upstream from the Requestor’s Point of Service, as that term is defined in Avista’s Tariffs (“Avista Facilities”).

### Section 2 Compensation

2.1 Where a fixed charge is applicable, Requestor shall be responsible for the fixed charge as set forth in the attached Exhibit A. In all other instances, Requestor shall be responsible for Avista’s actual costs associated with performing the Work. An estimate of those costs is reflected in the attached Exhibit A. Requestor acknowledges that Avista’s actual costs may vary depending on conditions encountered during the course of the Work. In all cases, Requestor shall be responsible for all costs incurred in excess of Avista’s original estimate.

2.2 Requestor shall remit payment for the estimated cost of the Work, as reflected in the attached Exhibit ‘A’, prior to Avista’s commencement the Work. Requestor shall remit payment for any additional costs within thirty (30) days of their receipt of an invoice from Avista for the same.

### 2.3 Pre-Construction Obligations

2.3.1 In addition to the estimated cost of the Work, Requestor may be responsible for certain pre-construction obligations. Such pre-construction obligations may include, but are not limited to, trenching and final compaction. In the event Requestor is responsible for such pre-construction obligations, such cost responsibilities will be described in Exhibit A, attached hereto.

2.3.2 If identified in Exhibit A, Requestor shall be required to provide all trenching, conduit, backfill, and padding as required to Avista specifications. At Avista's sole option, conduit may be provided by Avista. The location of said trenching shall be the responsibility of Requestor. To ensure the proper location of easements, prior to the commencement of the Work, Requestor shall certify that all utility trenching is located within the areas agreed upon by the parties.

2.3.3 Any work described in this Section or in Exhibit A and performed by Requestor, or a third party on behalf of Requestor, must meet Avista's specifications, pass Avista's inspection and be coordinated with Avista's scheduled work.

### **Section 3 Term of Agreement**

This Agreement shall remain in effect until the Work has been completed, and Requestor has remitted payment in full for Avista's actual costs incurred.

### **Section 4 Requestor's Responsibilities**

4.1 By signing this Agreement, Requestor authorizes Avista to proceed with any work necessary on the Property to accomplish the Work, and represents and warrants that they have fully authority to grant such authorization. This authorization includes, without limitation, the right to remove or otherwise disturb improvements on the Property, including lawns, shrubs, landscaping, driveways and sidewalks, for the purpose of the Work, and without any obligation to restore or reimburse Requestor for any resulting damages.

4.2 Requestor acknowledges that, in the event Requestor requests that Avista perform the Work during adverse ground/construction conditions ("Adverse Conditions"), including, without limitation, ice, water, mud or frozen ground due to winter weather, Requestor will be responsible for the repair of landscaping and/or other additional costs resulting from the performance of the Work during such Adverse Conditions.

4.3 Requestor acknowledges and understands that they are responsible for any damage to underground facilities that are not exposed by Requestor, including, but not limited to, sprinkler systems, sewer lines or other underground piping or wiring.

4.4 Requestor acknowledges that additional charges may apply in the event Avista is required to excavate in, drill through, or otherwise address rocky soil conditions.

4.5 Requestor is required to notify Avista in any instance where Requestor determines that construction or improvements on the Property may encroach on, or cross over, any Avista Facilities installed on the Property prior to commencing said activities. All costs related to subsequent relocation of any Avista Facilities necessitated by such encroachment shall be at Requestor's sole cost.

### **Section 5 Underground Locates**

Prior to performing any required excavating work in relation to this Agreement, Avista and/or Requestor shall utilize the state-mandated one-call service to mark the location of other entities' underground utilities locations on the Property. When this Section is applicable to Avista, Avista will notify Requestor in advance of such excavation and make every reasonable effort to avoid or minimize any dislocation of improvements on the Property. However, Requestor is responsible for identifying or exposing any underground facilities not located by Avista prior to Avista performing the Work. In the event Requestor fails to identify or expose any underground facilities, Requestor will be solely responsible for any damage caused to such facilities, including, but not limited to, the cost to repair such facilities.

## Section 6 Easements and Access to Property

Requestor grants Avista a perpetual right of ingress, egress and access over and across the Property to perform the Work, and to install, operate, inspect, replace and maintain any Avista Facilities installed as part of the Work. Upon request by Avista, Requestor shall grant, convey and warrant to Avista a perpetual, non-exclusive easement on, over, under, along and across the Property that ensures Avista's right to construct, reconstruct, operate, maintain, upgrade, repair, remove, relocate and said facilities and all related appurtenances. Such easement shall be in a form satisfactory to Avista and at no cost to Avista. In the event Avista is required to secure any additional easements or permits in order to install or maintain Avista Facilities installed pursuant to this Agreement, Requestor shall reimburse Avista for the actual costs applicable for securing such easements and permits. Requestor represents and warrants that they have full authority to make the commitments provided for in this Section.

## Section 7 Mutual Indemnification

Each Party shall indemnify and defend the other Party, their directors, officers, employees and agents (collectively, "Indemnitees") from all claims, demands, suits losses, costs, and damages of every kind or nature, including attorney's fees (collectively, a "Loss") resulting from, arising out of, or in any way connected with any willful misconduct or negligence by the indemnifying Party. In the event that any such Loss is caused by the negligence of both Parties, the Loss will be borne by the Parties in proportion that their respective negligence bears to the total negligence causing the Loss.

## Section 8 Party Representatives and Notices

Such notices, demands, requests and other communications will be deemed given as of the date delivered, or, if sent electronically or by mail, upon receipt.

8.2.2 Either Party may change its address, designated Representative, or other point-of-contact or delegate by providing written notice to the other Party as set forth above.

## AUDIT ENGAGEMENT LETTER

September 8, 2026

City of Hayden  
Honorable Mayor, City Council, and Management  
8930 N. Government Way  
Hayden, ID 83835

Dear Honorable Mayor, Council and Management:

We are pleased to confirm our understanding of the services we are to provide the City of Hayden for the year ended September 30, 2026.

### Audit Scope and Objectives

We will audit the financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component unit, each major fund, and the aggregate remaining fund information, including the related notes to the financial statements, which collectively comprise the basic financial statements of the City of Hayden as of and for the year ended September 30, 2026. Accounting standards generally accepted in the United States of America provide for certain required supplementary information (RSI), such as management's discussion and analysis (MD&A), to supplement the City of Hayden's basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. As part of our engagement, we will apply certain limited procedures to the City of Hayden's RSI in accordance with auditing standards generally accepted in the United States of America. These limited procedures will consist of inquiries of management regarding the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We will not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance. The following RSI is required by U.S. generally accepted accounting principles and will be subjected to certain limited procedures, but will not be audited:

- 1) Schedule of Revenues, Expenditures and Changes in Fund Balances – Budget and Actual – General Fund
- 2) Notes to the Budget to Actual Schedule
- 3) Schedule of City's Share of Net Pension Liability and Contributions – PERSI Base Plan

We have also been engaged to report on supplementary information other than RSI that accompanies City of Hayden's financial statements. We will subject the following supplementary information to the auditing procedures applied in our audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America, and we will provide an opinion on it in relation to the financial statements as a whole, in a report combined with our auditor's report on the financial statements:

office (208) 777-1099 fax (208) 773-5108  
1810 E Schneidmiller Ave #310  
Post Falls, ID 83854

1) Combining and Individual Fund Statements – non major

The objectives of our audit are to obtain reasonable assurance as to whether the financial statements as a whole are free from material misstatement, whether due to fraud or error; issue an auditor's report that includes our opinion about whether your financial statements are fairly presented, in all material respects, in conformity with GAAP; and report on the fairness of the supplementary information referred to in the second paragraph when considered in relation to the financial statements as a whole. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS and *Government Auditing Standards* will always detect a material misstatement when it exists. Misstatements, including omissions, can arise from fraud or error and are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment of a reasonable user made based on the financial statements.

The objectives also include reporting on internal control over financial reporting and compliance with provisions of laws, regulations, contracts, and award agreements, noncompliance with which could have a material effect on the financial statements in accordance with *Government Auditing Standards*.

**Auditor's Responsibilities for the Audit of the Financial Statements**

We will conduct our audit in accordance with GAAS and the standards for financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, and will include tests of your accounting records of the City of Hayden and other procedures we consider necessary to enable us to express such opinions. As part of an audit in accordance with GAAS and *Government Auditing Standards*, we exercise professional judgment and maintain professional skepticism throughout the audit.

We will evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management. We will also evaluate the overall presentation of the financial statements, including the disclosures, and determine whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation. We will plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement, whether from (1) errors, (2) fraudulent financial reporting, (3) misappropriation of assets, or (4) violations of laws or governmental regulations that are attributable to the government or to acts by management or employees acting on behalf of the government. Because the determination of waste and abuse is subjective, *Government Auditing Standards* do not expect auditors to perform specific procedures to detect waste or abuse in financial audits nor do they expect auditors to provide reasonable assurance of detecting waste or abuse.

Because of the inherent limitations of an audit, combined with the inherent limitations of internal control, and because we will not perform a detailed examination of all transactions, there is an unavoidable risk that some material misstatements may not be detected by us, even though the audit is properly planned and performed in accordance with GAAS and *Government Auditing Standards*. In addition, an audit is not designed to detect immaterial misstatements or violations of laws or governmental regulations that do not have a direct and material effect on the financial statements. However, we will inform the appropriate level of management of any material errors, fraudulent financial reporting, or misappropriation of assets that comes to our attention. We will also inform the appropriate level of management of any violations of laws or governmental regulations that come to our attention, unless clearly inconsequential. Our responsibility as auditors is limited to the period covered by our audit and does not extend to any later periods for which we are not engaged as auditors.

We will also conclude, based on the audit evidence obtained, whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the government's ability to continue as a going concern for a reasonable period of time.

Our procedures will include tests of documentary evidence supporting the transactions recorded in the accounts, tests of the physical existence of inventories, and direct confirmation of receivables and certain assets and liabilities by correspondence with selected customers, creditors, and financial institutions. We will also request written representations from your attorneys as part of the engagement.

We have identified the following significant risk(s) of material misstatement as part of our audit planning:

- Management override of controls
- Proprietary revenue recognition

We may, from time to time and depending on the circumstances, use third-party service providers in serving your account. We may share confidential information about you with these service providers but remain committed to maintaining the confidentiality and security of your information. Accordingly, we maintain internal policies, procedures, and safeguards to protect the confidentiality of your personal information. In addition, we will secure confidentiality agreements with all service providers to maintain the confidentiality of your information and we will take reasonable precautions to determine that they have appropriate procedures in place to prevent the unauthorized release of your confidential information to others. In the event that we are unable to secure an appropriate confidentiality agreement, you will be asked to provide your consent prior to the sharing of your confidential information with the third-party service provider. Furthermore, we will remain responsible for the work provided by any such third-party service providers.

Our audit of financial statements does not relieve you of your responsibilities.

#### **Audit Procedures—Internal Control**

We will obtain an understanding of the government and its environment, including the system of internal control, sufficient to identify and assess the risks of material misstatement of the financial statements, whether due to error or fraud, and to design and perform audit procedures responsive to those risks and obtain evidence that is sufficient and appropriate to provide a basis for our opinions. Tests of controls may be performed to test the effectiveness of certain controls that we consider relevant to preventing and detecting errors and fraud that are material to the financial statements and to preventing and detecting misstatements resulting from illegal acts and other noncompliance matters that have a direct and material effect on the financial statements. Our tests, if performed, will be less in scope than would be necessary to render an opinion on internal control and, accordingly, no opinion will be expressed in our report on internal control issued pursuant to *Government Auditing Standards*. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentation, or the override of internal control. An audit is not designed to provide assurance on internal control or to identify significant deficiencies or material weaknesses. Accordingly, we will express no such opinion. However, during the audit, we will communicate to management and those charged with governance internal control related matters that are required to be communicated under AICPA professional standards and *Government Auditing Standards*.

#### **Audit Procedures—Compliance**

As part of obtaining reasonable assurance about whether the financial statements are free of material misstatement, we will perform tests of the City of Hayden's compliance with the provisions of applicable laws, regulations, contracts, agreements, and grants. However, the objective of our audit will not be to provide an opinion on overall compliance and we will not express such an opinion in our report on compliance issued pursuant to *Government Auditing Standards*.

#### **Responsibilities of Management for the Financial Statements**

Our audit will be conducted on the basis that you acknowledge and understand your responsibility for designing, implementing, establishing, and maintaining effective internal controls relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error, and for evaluating and monitoring ongoing activities to help ensure that appropriate goals and objectives are met; following laws and regulations; and ensuring that management and financial information is reliable and properly reported. Management is also responsible for implementing systems designed to achieve compliance with applicable laws, regulations, contracts, and grant agreements. You are also responsible for the selection and application of accounting principles, for the preparation and fair presentation of the financial statements and all accompanying information in conformity with accounting

principles generally accepted in the United States of America, and for compliance with applicable laws and regulations and the provisions of contracts and grant agreements.

Management is responsible for making drafts of financial statements, all financial records, and related information available to us; for the accuracy and completeness of that information (including information from outside of the general and subsidiary ledgers); and for the evaluation of whether there are any conditions or events, considered in the aggregate, that raise substantial doubt about the government's ability to continue as a going concern for the 12 months after the financial statement date or shortly thereafter (for example, within an additional three months if currently known). You are also responsible for providing us with (1) access to all information of which you are aware that is relevant to the preparation and fair presentation of the financial statements, such as records, documentation, identification of all related parties and all related-party relationships and transactions, and other matters; (2) additional information that we may request for the purpose of the audit; and (3) unrestricted access to persons within the government from whom we determine it necessary to obtain audit evidence. At the conclusion of our audit, we will require certain written representations from you about your responsibilities for the financial statements; compliance with laws, regulations, contracts, and grant agreements; and other responsibilities required by GAAS and *Government Auditing Standards*.

Your responsibilities include adjusting the financial statements to correct material misstatements and for confirming to us in the written representation letter that the effects of any uncorrected misstatements aggregated by us during the current engagement and pertaining to the latest period presented are immaterial, both individually and in the aggregate, to the financial statements of each opinion unit taken as a whole.

You are responsible for the design and implementation of programs and controls to prevent and detect fraud, and for informing us about all known or suspected fraud affecting the government involving (1) management, (2) employees who have significant roles in internal control, and (3) others where the fraud could have a material effect on the financial statements. Your responsibilities include informing us of your knowledge of any allegations of fraud or suspected fraud affecting the government received in communications from employees, former employees, grantors, regulators, or others. In addition, you are responsible for identifying and ensuring that the government complies with applicable laws, regulations, contracts, agreements, and grants and for taking timely and appropriate steps to remedy fraud and noncompliance with provisions of laws, regulations, or contracts or grant agreements that we report

You are responsible for the preparation of the supplementary information, which we have been engaged to report on, in conformity with accounting principles generally accepted in the United States of America (GAAP). You agree to include our report on the supplementary information in any document that contains, and indicates that we have reported on, the supplementary information. You also agree to include the audited financial statements with any presentation of the supplementary information that includes our report thereon or make the audited financial statements readily available to users of the supplementary information no later than the date the supplementary information is issued with our report thereon. Your responsibilities include acknowledging to us in the written representation letter that (1) you are responsible for presentation of the supplementary information in accordance with GAAP; (2) you believe the supplementary information, including its form and content, is fairly presented in accordance with GAAP; (3) the methods of measurement or presentation have not changed from those used in the prior period (or, if they have changed, the reasons for such changes); and (4) you have disclosed to us any significant assumptions or interpretations underlying the measurement or presentation of the supplementary information.

Management is responsible for establishing and maintaining a process for tracking the status of audit findings and recommendations. Management is also responsible for identifying and providing report copies of previous financial audits, attestation engagements, performance audits or other studies related to the objectives discussed in the Audit Scope and Objectives section of this letter. This responsibility includes relaying to us corrective actions taken to address significant findings and recommendations resulting from those audits, attestation engagements, performance audits, or other studies. You are also responsible for providing management's views on our current findings, conclusions, and recommendations, as well as your planned corrective actions, for the report, and for the timing and format for providing that information.

## Engagement Administration, Fees, and Other

We understand that your employees will prepare all cash, accounts receivable, or other confirmations we request and will locate any documents selected by us for testing.

We will provide copies of our reports to the City of Hayden; however, management is responsible for distribution of the reports and the financial statements. Unless restricted by law or regulation, or containing privileged and confidential information, copies of our reports are to be made available for public inspection.

The audit documentation for this engagement is the property of Alpine Summit CPAs and constitutes confidential information. However, subject to applicable laws and regulations, audit documentation and appropriate individuals will be made available upon request and in a timely manner to Federal or State

officials or their designee, a federal agency providing direct or indirect funding, or the U.S. Government Accountability Office for purposes of a quality review of the audit, to resolve audit findings, or to carry out oversight responsibilities. We will notify you of any such request. If requested, access to such audit documentation will be provided under the supervision of Alpine Summit CPAs personnel. Furthermore, upon request, we may provide copies of selected audit documentation to the aforementioned parties. These parties may intend, or decide, to distribute the copies or information contained therein to others, including other governmental agencies.

The audit documentation for this engagement will be retained for a minimum of five years after the report release date or for any additional period requested by Federal or State officials. If we are aware that a federal awarding agency, pass-through entity, or auditee is contesting an audit finding, we will contact the party(ies) contesting the audit finding for guidance prior to destroying the audit documentation.

Toni Hackwith is the engagement partner and is responsible for supervising the engagement and signing the reports or authorizing another individual to sign them. We expect to begin our audit on approximately November 2, 2026.

Our fee for these services will be at our standard hourly rates plus out-of-pocket costs (such as report reproduction, word processing, postage, travel, copies, telephone, etc.) except that we agree that our gross fee, including expenses, will not exceed \$36,500. Our standard hourly rates vary according to the degree of responsibility involved and the experience level of the personnel assigned to your audit. Our invoices for these fees will be rendered each month as work progresses and are payable on presentation. In accordance with our firm policies, work may be suspended if your account becomes 90 days or more overdue and may not be resumed until your account is paid in full. If we elect to terminate our services for nonpayment, our engagement will be deemed to have been completed upon written notification of termination, even if we have not completed our report. You will be obligated to compensate us for all time expended and to reimburse us for all out-of-pocket costs through the date of termination. The above fee is based on anticipated cooperation from your personnel and the assumption that unexpected circumstances will not be encountered during the engagement. If significant additional time is necessary, we will keep you informed of any problems we encounter and our fees will be adjusted accordingly.

## **Reporting**

We will issue written reports upon completion of our Single Audit. Our reports will be addressed to management and the governing board of the City of Hayden. Circumstances may arise in which our report may differ from its expected form and content based on the results of our audit. Depending on the nature of these circumstances, it may be necessary for us to modify our opinions, add a separate section, or add an emphasis-of-matter or other-matter paragraph to our auditor's report, or if necessary, withdraw from this engagement. If our opinions are other than unmodified, we will discuss the reasons with you in advance. If, for any reason, we are unable to complete the audit or are unable to form or have not formed opinions, we may decline to express opinions or issue reports, or we may withdraw from this engagement.

We will also provide a report (that does not include an opinion) on internal control related to the financial statements and compliance with the provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a material effect on the financial statements as required by *Government Auditing Standards*. The report on internal control and on compliance and other matters will state (1) that the purpose of the report is solely to describe the scope of testing of internal control and compliance, and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control on compliance, and (2) that the report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. The report will also state that the report is not suitable for any other purpose. If during our audit we become aware that the City of Hayden is subject to an audit requirement that is not encompassed in the terms of this engagement, we will communicate to management and those charged with governance that an audit in accordance with U.S. generally accepted auditing standards and the standards for financial audits contained in *Government Auditing Standards* may not satisfy the relevant legal, regulatory, or contractual requirements.

We appreciate the opportunity to be of service to the City of Hayden and believe this letter accurately summarizes the significant terms of our engagement. If you have any questions, please let us know. If you agree with the terms of our engagement as described in this letter, please sign the enclosed copy and return it to us.

Very Truly Yours,

*Alpine Summit CPAs*

- O. Approval of the Contract Change Order No.4 for the Honeysuckle and Ramsey Roundabout Project

# Memo

To: Mayor and Hayden City Council

From: Alan Soderling, Public Works Director

Date: 9-16-2026

**Agenda Item: Request for Authorization of Contract Change Order No.4 for the Honeysuckle and Ramsey Roundabout Project**

---

## **Agenda Item Location**

Consent Calendar

## **Recommended Action or Motion**

Staff recommends the approval and authorization of the mayor to sign the Contract Change Order No.4 for the Honeysuckle and Ramsey Roundabout with a net increase in \$9,582.13 and 13 additional contract days.

## **Functional Impact of Authorizing**

By authorizing this contract, the net increase of the Honeysuckle and Ramsey Roundabout project will increase by \$9,582.13 with an additional 13 contract days. Change order no.4 indicates there are 6 items that justify the net increase in dollar amount and contract days. These items are as follows;

- NTP time extension request R
- Road excavation quantities,
- Ziply repair,
- Avista gas line day adjustments,
- Force main obstructions
- Force main isolation and air release valve delays
- HLID existing water service abandonment
- Calendar workdays adjustment.

All these items have detailed descriptions below in the attached change order.

## **Functional Impact of Not Authorizing**

If this is not authorized, then we will not be able to pay the contractor for the work that has been performed up to this point and could potentially bring us to a breach of our contractual obligation.

**Fiscal Impact**

This project is included in the FY2026 budget. The agreement amount is less than the budgeted amount; therefore, this agreement does not impact the FY2026 budget.

**CONTRACT CHANGE ORDER NO. 4  
TO  
41014.14 - HONEYSUCKLE AVENUE AND RAMSEY ROAD ROUNDABOUT IMPROVEMENTS**

**Item #1: CCR-8 NTP Time Extension Request**

**Support Docs**

**JUSTIFICATION:**

The Contractor requested that the completion dates be revised based on their interpretation of the Contract durations (80 calendar days versus a milestone date of August 28) and the June 18, 2026 commencement of Contract Times. The executed Notice to Proceed identifies August 28, 2026, as the date of Substantial Completion (based on the milestone date) and September 7, 2026, as the date of readiness for final payment, which are fewer days than the 80 calendar days also listed in the Contract documents.

The Owner has agreed to extend both contractual completion dates by nine calendar days at no additional cost. This Change Order documents the mutually agreed revised dates and does not constitute an acknowledgment that the Contractor's interpretation of the original Contract Documents is correct or that the Contractor was otherwise entitled to an extension. No other Contract requirements, rights, or obligations are modified.

**DESCRIPTION:**

This no-cost Change Order extends the contractual completion dates by nine calendar days as follows:

- \* Substantial Completion is changed from August 28, 2026, to September 6, 2026 (80 calendar days from notice to proceed)
- \* Completion and readiness for final payment is changed from September 7, 2026, to September 16, 2026.

The Contract Price remains unchanged. Except for the completion dates specifically modified by this Change Order, all other terms and conditions of the Contract Documents remain unchanged.

**NEGOTIATED PRICE:**

\$ - Includes: All equipment, materials and labor associated with the change as described above.

**CONTRACT TIMES:**

0 Changed the substantial completion date to September 6, 2026 rather than give days for this in the change order.

## Item #2: CCR-7 Road Excavation Qty's, Ziply Repair, Avista gas line Day adjustments

Support Docs

### JUSTIFICATION:

The north leg of the intersection needed to be lowered to match into the existing paved area on the east side of Ramsey Road. The revised profile was issued before the full excavation was completed. After the profile was incorporated into Lariviere's model and the excavation quantities were measured, a net increase of 493 cubic yards was identified. Most of the affected area was excavated by July 24, 2026; however, work could not be completed until Avista lowered its gas line on the west side to accommodate the revised profile. During Avista's work, a Ziply utility line was damaged, which required repair prior to completion of the work.

The confirmed additional working days are allocated as follows:

- \* One day for additional excavation and material haul-off of increased quantity of material

- \* Three days for delays while awaiting the Ziply repairs and completion of Avista's work

The additional excavation and utility delays affected completion of this area and postponed the subsequent placement of aggregate and concrete.

### DESCRIPTION:

Road profile changes result in a net increase of 493 cubic yards of excavation. The additional work includes excavation and hauling and disposal of excavated material. Additional material removal paid for under existing contract unit price item. This Change Order also provides 4 additional work days for the changed quantity of excavation and utility delays associated with the work.

### NEGOTIATED PRICE:

**\$ 8,632.43** Includes: All equipment, materials and labor associated with the change as described above.

### CONTRACT TIMES:

**4** Additional working days will be added as a result of this change.

## Item #3: CCR-9 Force Main Obstructions

Support Docs

### JUSTIFICATION:

During installation of the sewer force main, the Contractor encountered buried concrete-like material within the planned trench alignment. Removal of the material required the Contractor to interrupt normal trenching operations, expose and break up the material, and remove it from the work area before force main installation could continue. The work is documented by force-account records dated July 22 and July 23, 2026, photographs, and a marked plan identifying the approximate locations. The Contractor requested a one working day extension for the reported schedule impact associated with this work. To resolve the request without an adjustment to the Contract Price, the Owner has agreed to add one calendar day to the Contract Time.

### DESCRIPTION:

Add one working day to the Contract Time for additional work associated with the removal of buried concrete-like material encountered at two locations within the sewer force main trench, approximately near Stations 37+50 and 38+85.

The Contract Price remains unchanged. Except for the one-calendar-day adjustment specifically provided by this Change Order, all other terms and conditions of the Contract Documents remain unchanged.

### NEGOTIATED PRICE:

**\$ -** Includes: All equipment, materials and labor associated with the change as described above.

### CONTRACT TIMES:

**1** Additional working days will be added as a result of this change.

WCD-6

**Item #4: CCR-10 - Force Main Isolation and Air release Valve Delays****Support Docs****JUSTIFICATION:**

While draining the sewer force main, it was discovered that HARSB air release valves were not functioning as anticipated which increased the time associated with draining the lines and subsequent activities. In lieu of charging for the additional efforts associated with draining the lines, the Contractor requested a contract time adjustment associated with the work of 3 days. These conditions required additional methods to drain the line and caused delays.

**DESCRIPTION:**

Draining of the sewer line occurred over multiple days during the tie in activities for the work. Review of the activities indicated that the Contractor requested time extension was reasonable.

**NEGOTIATED PRICE:**

\$ - Includes: All equipment, materials and labor associated with the change as described above.

**CONTRACT TIMES:**

3 Additional working days will be added as a result of this change.

**Item #5: CCR-11 HLID Existing Water Service Abandonment****Support Docs****JUSTIFICATION:**

HLID identified an existing water service that they requested to be removed from service. This work is described in Work Change Directive #5, with costs tracked on force account. The contract price adjustment requested of \$949.70 reflected the hours worked and verified in the field. A copy of WCD #5 is attached for reference.

**DESCRIPTION:**

This Change Order incorporates the work directed by Work Change Directive No. 5 for abandonment of the existing water service serving the property southwest of the intersection. The work included exposing the service at the water main, closing and disconnecting the service at the corporation stop, backfilling the excavation, and restoring the affected area.

**NEGOTIATED PRICE:**

\$ 949.70 Includes: All equipment, materials and labor associated with the change as described above.

**CONTRACT TIMES:**

1 Additional working day will be added as a result of this change.

**WCD-5****Item #6: Calendar Workdays Adjustment****Support Docs****JUSTIFICATION:**

The additional Contract Time granted under this CO will result in added days falling on weekends. This adjustment adds four working days to account for those non-working weekend days and properly reflect the intended Contract Time extension.

**DESCRIPTION:**

Add Four (4) working days to the Contract Time.

**NEGOTIATED PRICE:**

\$ - Includes: All equipment, materials and labor associated with the change as described above.

**CONTRACT TIMES:**

4 Additional days will be added as a result of this change.

The work associated with the removal of the concrete required for installation of the sewer line will be paid for as force account work per the attached Contractor provided rates, with contract allowed contractor markup. All documentation of work performed shall be signed off daily by the RPR to be considered for payment.

### Unknown Obstructions in Sewer Force Main Trench

| <b>Contractor</b> | Lariviere, Inc.                                                      |
| <b>Subject</b>    | Request for one contract day with no change to Contract Price, CCR-9 |

#### Requested change

Lariviere, Inc. requests that the Contract Time be extended by one contract day for the direct impact caused by unknown obstructions encountered in two locations within the sewer force main trench. This is a time-only request. The requested adjustment to the Contract Price is \$0.00.

#### Condition encountered and work required

During installation of the sewer force main, Lariviere encountered buried CDF/concrete-like material within the planned trench alignment. The material was not identified as a subsurface obstruction in the Contract Documents. Its location and character materially interfered with ordinary trench excavation and pipe installation.

Lariviere was required to stop normal trench production, expose and assess the obstructions, break up and remove the hardened material, load it, and haul it from the work area before trench preparation and force main installation could continue. These activities required effort and time beyond the work reasonably contemplated for normal trench excavation.

#### Affected locations

| Location | Approximate plan reference                       | Supporting exhibit |
|----------|--------------------------------------------------|--------------------|
| 1        | Ramsey Road force main alignment near Sta. 37+50 | Exhibits A and C   |
| 2        | Ramsey Road force main alignment near Sta. 38+85 | Exhibits B and C   |

Station references are approximate and are based on the marked-up force main plan included as Exhibit C.

#### Schedule impact

The obstruction-removal work displaced one day of planned force main trenching and installation. The work was necessary to restore the trench to a condition in which the force main could be installed safely and in accordance with the Contract Documents. The impact was not concurrent with a Contractor-caused delay to this activity. Lariviere therefore requests a one-day adjustment to the

Lariviere, Inc. | Honeysuckle Avenue and Ramsey Road Roundabout Improvements

applicable Contract Time and completion date.

**Contract basis**

This request is submitted under the Contract provisions governing subsurface and physical conditions, changes, and adjustments to Contract Time, including Supplementary Condition SC-5.03, the incorporated ISPWC General Conditions provisions addressing differing subsurface or physical conditions and changes in the Work, SSP 01010 governing Contract Time, and Article 4 of the Agreement. SC-5.03 states that no reports of explorations or tests of subsurface conditions, or drawings of physical conditions relating to existing surface or subsurface structures at the Site, were known to the Owner. Article 4 establishes the Contract Time, and the General Conditions provide the mechanism for an equitable time adjustment when an unforeseen physical condition affects the progress of the Work.

**Requested disposition**

Lariviere respectfully requests issuance of a no-cost Change Order that:

- 1. Adds one contract day to the Contract Time and adjusts the applicable completion date accordingly;
- 2. Confirms a \$0.00 adjustment to the Contract Price for this request; and
- 3. Recognizes the two documented unknown-obstruction locations as the basis for the time adjustment.

Please incorporate this one-day time adjustment into the Contract by Change Order. Lariviere is available to provide any additional contemporaneous records reasonably required for review.

Attention: Project Engineer

**RE:** Change Order Request for \$949.70 and One Contract Day CCR-11

**Project:** Honeysuckle Avenue and Ramsey Road Roundabout Improvements

**Project No.:** 41014.14

**Change:** HLID Existing Water Service Abandonment - WCD-5

Dear Project Engineer:

**Lariviere Inc requests a Contract Price increase of \$949.70 and an increase of one contract day** for the additional water-service abandonment work directed by Work Change Directive No. 5. The directed work was outside Lariviere's original planned sequence and required a separate excavation, disconnection, closure, backfill, and restoration operation. The work was completed and documented on September 1, 2026.

**Basis of Request**

Welch Comer Engineers issued WCD-5 on August 13, 2026, effective the same date, at the City of Hayden's authorization. WCD-5 directed Lariviere to abandon the existing water service serving the property southwest of the intersection by exposing the service at the main, closing it, and disconnecting it at the corporation stop. The directive states that the work is to be paid on a time-and-material basis using the previously provided force-account rates and contract-allowed markup. It also identifies contractor and engineer records as the basis for determining any adjustment to Contract Times.

The September 1, 2026 Force Account Summary documents the completed water service abandonment and was prepared by Dustin Armstrong and verified by Greg George. The following calculation uses the labor and equipment hours shown on that record, the agreed WCD-5 rates, and the added CAT 84-inch roller rate requested herein:

| Resource                 | Hours | Rate     | Unit | Extended Cost |
|--------------------------|-------|----------|------|---------------|
| Operator                 | 4.0   | \$46.56  | Hour | \$186.24      |
| Laborer                  | 4.0   | \$42.57  | Hour | \$170.28      |
| Additional operator      | 1.0   | \$46.56  | Hour | \$46.56       |
| CAT 308 excavator        | 3.5   | \$85.00  | Hour | \$297.50      |
| CAT 305 excavator        | 0.5   | \$75.50  | Hour | \$37.75       |
| CAT 84-inch roller       | 0.5   | \$50.00  | Hour | \$25.00       |
| 4,000-gallon water truck | 0.5   | \$125.00 | Hour | \$62.50       |

## Compensation Calculation

| Labor subtotal                                 | \$403.08        |
| Equipment subtotal                             | \$422.75        |
| <b>Direct cost subtotal</b>                    | <b>\$825.83</b> |
| Contractor markup - 15%                        | \$123.87        |
| Subcontractor markup - no subcontractor cost   | \$0.00          |
| <b>Total Contract Price increase requested</b> | <b>\$949.70</b> |

## Contractual Support

- SP-01019 Section 1.5(E) authorizes an Owner-signed Work Change Directive directing the Contractor to proceed with changed work for later inclusion in a Change Order and requires the directive to designate the method for determining changes in Contract Price or Contract Time.
- SP-01019 Section 1.5(F) requires an itemized account and supporting data following completion of time-and-material changed work and provides that the Engineer will determine allowable changes in Contract Price and Contract Time under the Contract Documents.
- SP-01019 Section 1.5(G) requires detailed records sufficient to evaluate and substantiate changes in the Work. The signed September 1, 2026 Force Account Summary supplies the contemporaneous field record for this request.
- Project Change Order No. 2 documents the parties' prior pricing convention of 15% markup on contractor labor and materials and 5% on subcontractor work. This request applies the 15% allowance to Lariviere labor only; no material or subcontractor cost is claimed.
- Agreement Articles 4.01 and 4.02 make Contract Time material to performance and establish the time allowed for Substantial Completion and final payment. A directed addition to the Work that consumes planned contract time warrants a corresponding adjustment to the Contract Times.

## Requested Change Order

### Lariviere requests issuance of a Change Order that:

- Adds one contract day to the Contract Times for the WCD-5 water service abandonment work completed September 1, 2026;
- Adjusts the applicable Substantial Completion and final completion dates by one day; and
- Increases the Contract Price by \$949.70 for documented labor and equipment,

This request includes direct force-account compensation and time adjustment associated with WCD-5. It does not waive any other entitlement arising under the Contract Documents. Please issue the requested Change Order increasing the Contract Price by \$949.70 and adding one contract day, or provide a written determination identifying any additional information needed to complete the Engineer's evaluation.

Sincerely,

**Sam Brown**

Date: September 11, 2026

Agenda Item: 2026 Memorandum of Understanding for City's Annual Contribution to Special Needs Recreation

---

## **Agenda Item Location**

Unfinished Business

## **Recommended Action or Motion**

Approval of the Memorandum of Understand (MOU) for the City's annual contribution to Specialized Needs Recreation (SNR) for FY2026.

## **Functional Impact of Authorizing**

Per City Council's direction at the August 25, 2026, meeting after SNR's request of a \$3,000 increase to match Hayden's contribution with its equitable share of 16% of Hayden residents utilizing their programs, an MOU has been created between the City and Specialized Needs Recreation.

## **Functional Impact of Not Authorizing**

By not approving the MOU, the City would not have specific parameters outlined for its annual contribution to SNR. These parameters make SNR more accountable for the funds it receives from the City.

## **Fiscal Impact**

The total being requested from SNR for FY2026 is \$6,000.00, which includes the \$3,000.00 that had already been budgeted.

## **Budget Funding Source/Transfer Request**

The contribution expense for SNR will be paid from Specialized Needs Recreation GL#110-721-58006. There is no revenue GL account to offset this expense.

**MEMORANDUM OF UNDERSTANDING  
FOR THE CITY OF HAYDEN'S CONTRIBUTION TO SPECIALIZED NEEDS RECREATION**

THIS MEMORANDUM OF UNDERSTANDING (MOU) FOR THE CITY OF HAYDEN'S CONTRIBUTION TO SPECIALIZED NEEDS RECREATION is made and entered into this \_\_\_\_ day of September, 2026 by and between the City of Hayden, Idaho, a municipal corporation organized and existing under the laws of the state of Idaho, 8930 N. Government Way, Hayden, Idaho 83835 (hereinafter "City"), and Specialized Needs Recreation Inc., a Non-Profit Corporation D, PO Box 2451, Coeur d'Alene, Idaho 83816-2451 (hereinafter "SNR"). The City and Specialized Needs Recreation Inc. may be referred to herein as "Parties" or individually as "Party."

WHEREAS, City has agreed to an annual contribution to support SNR; and

WHEREAS, on August 25, 2026, the City Council approved SNR's request to increase the annual contribution from \$3,000 to \$6,000; and

WHEREAS, the City desires to have a MOU with SNR which specifies the terms of its annual contribution.

NOW THEREFORE, the City and SNR hereto mutually agree as follows:

1. That the City will:
  - a. As a municipal partner, provide an annual contribution of \$6,000 to SNR for services provided by SNR. The parties shall review the contribution, and the services provided every two years and may mutually agree to modify the annual contribution or services based upon participation, program costs, and available City funding.
  - b. Upon receipt of the annual invoice from SNR, process and pay the invoice through bills for payment.
  - c. Maintain the right to decide on the amount of the annual contribution through its budgeting process.
2. That SNR will:
  - a. Provide an annual update to City Council of the participation in SNR's programs.
  - b. Provide a copy of SNR's certificate of insurance.
  - c. Provide an annual financial statement and such reasonable documentation as may be necessary to verify SNR's use of the City's contribution and compliance with any services described in this MOU, including but not limited to:
    - i. annual participation report;
    - ii. number of Hayden residents served;
    - iii. certificate of insurance
    - iv. annual financial statement;
    - v. reasonable accounting for the City's \$6,000.
3. It is mutually agreed that:
  - a. This MOU may not be altered or amended in any fashion other than by a written agreement signed by both SNR and the City.
  - b. SNR or the City may cancel this MOU at any time, with or without cause, upon thirty (30) days written notice to the other party and specifying the date of termination. Termination of this MOU by either SNR or City shall also terminate the obligation or liabilities of the parties, except that the obligations and liabilities incurred prior to the termination date shall be honored.

- c. By entering into this MOU, the City assumes no responsibility for claims, damages, losses, expenses, actions and suits arising from SNR programs and activities, and SNR agrees that it is responsible for responding to all claims, damages, losses, expenses, actions and suits arising from SNR programs and activities. Nothing in this provision shall extend the liability of SNR beyond that provided in the Idaho Tort Claims Act, Idaho Code §6-901, et.seq.
- d. If any term or provision of this MOU is held by the courts to be illegal or in conflict with any Idaho law, the validity of the remaining terms and provisions shall not be affected, and the rights and obligations of the parties shall be construed and enforced as if this MOU did not contain the particular terms or provisions held to be invalid.
- e. This MOU shall be governed by the laws of the State of Idaho. Nothing herein shall be construed as in any way enlarging, affecting or waiving the jurisdiction, responsibility, liabilities or existing rights of either SNR or the City. Rather, this MOU provides only for the exercise of existing authorities in a cooperative manner to achieve a more efficient operation of government. For this reason, this MOU is entered for the sole purpose of setting forth the understanding of the parties in achieving a common purpose, and is not intended to provide a basis for legal action upon breach of any of its provisions.
- f. The parties understand and agree that each party's participation in this MOU is dependent upon the appropriation of sufficient funds, and that this MOU may be terminated in the event that sufficient funds to carry out the terms of this MOU are not appropriated or in the event of a holdback in funding that prevents such party from carrying out the terms of this MOU.
- g. The parties agree that no person shall, on the basis of race, color, creed, national origin or gender, be excluded from or denied participation in or otherwise subjected to discrimination in relation to any activity associated with this MOU.

# CHAPTER 1. PURPOSE STATEMENT

The City recognizes its important responsibility to its citizens to properly account for and manage the public and enterprise funds entrusted to it. These funds must be spent, saved, and invested wisely to support essential services, maintain daily operations, plan for the replacement of assets, and promote financial growth without unnecessarily increasing property taxes or utility rates.

To that end, this Financial Management and Reserve Policy, along with established reserve minimums, is adopted to guide the City in maximizing revenues and maintaining financial resilience against economic volatility and regional fluctuations.

The purpose of this policy is to ensure the City remains financially stable by maintaining adequate cash flow and reserve levels. This policy promotes sound financial practices that:

- Protect the City during unplanned or volatile economic downturns
- Provide sufficient funding to manage fluctuations between intermittent revenue streams and ongoing monthly expenditures
- Mitigate the financial impacts of external agency actions that may reduce revenues or increase service costs
- Address unexpected emergencies, including manmade events, natural disasters, and legal judgments
- Promote responsible management of financial risks affecting overall City operations
- Establish long-term financial goals and strategies to achieve sustained financial security

In coordination with the City's other financial policies, budget processes, and Council actions, this policy serves as a guiding framework for City leadership to support long-term financial success across changing economic conditions and future administrations.

## CHAPTER 2. GENERAL OVERSIGHT

All sound financial decisions require strong oversight policies and consistent practices. This chapter establishes the general framework for financial oversight in the City's daily, monthly, and annual operations.

The City Council is responsible for establishing financial policies and reviewing the City's operations and activities as part of its fiduciary duty. The Mayor is responsible for oversight of all City operations, including financial management.

If a City Administrator is appointed by the Mayor and City Council, responsibility for day-to-day operations shall be delegated to that position, unless otherwise directed by the Mayor and Council.

The City Finance Director, who may also serve as the City Treasurer, is responsible to the City Administrator, Mayor, and City Council for all matters related to the City's financial operations.

The City Council may provide exceptions to these responsibilities through separate action or policy. Any such exceptions should be reviewed and reaffirmed following the election of new Council members and/or a newly elected Mayor.

## CHAPTER 3. OVERVIEW OF ACCOUNTING SYSTEMS

The City's financial systems are maintained in accordance with governmental accounting standards. Governmental funds are reported using the modified accrual basis of accounting, while enterprise funds (including sewer operations) are reported using the full accrual basis of accounting.

Access to the accounting system is restricted and controlled to ensure the reliability, accuracy, and integrity of financial data.

### Funds Receivable

Funds receivable procedures are established to ensure that all incoming funds are properly recorded, documented, and safeguarded. The Finance Director and/or City Treasurer shall designate authorized staff responsible for collecting City funds.

The following procedures are designed to minimize errors, ensure accountability, and maintain oversight. Failure to comply with these procedures may result in disciplinary action, up to and including termination of employment.

- All incoming mail shall be opened promptly by the Cash Receipting Clerk. In-person payments shall be processed at the time of receipt, and all payments must generate a receipt within the City's ERP system

# CHAPTER 6. RESERVE POLICY

The purpose of this Reserve Policy is to ensure the City remains a financially stable organization by maintaining appropriate reserve levels. Adequate reserves position the City to effectively plan for cash-funded needs and to respond to unplanned events such as economic downturns, actions by external agencies, natural disasters, catastrophic events, or significant legal liabilities.

A well-structured reserve policy also enables the City to plan for and fund major capital expenditures, reducing reliance on debt and minimizing the financial burden on taxpayers and ratepayers.

In coordination with the City's broader financial policies, this Reserve Policy serves as a guiding framework for maintaining financial stability, meeting ongoing obligations, and addressing unforeseen events in a fiscally responsible manner.

This policy applies only to unrestricted and unassigned fund balances. Restricted and non-spendable funds are excluded.

## **Fund Types**

The City maintains three primary fund types:

- General Fund
- Enterprise Funds
- Special Revenue Funds

This policy primarily focuses on the General Fund and Enterprise Funds, as these have the most direct impact on taxpayers and ratepayers. The City Council may adopt reserve policies for Special Revenue Funds in the future if deemed necessary.

## **General Fund Reserve**

The General Fund is the City's primary operating fund supporting tax-funded services, including administration, finance, recreation, streets, parks, and contracted public safety services.

- D. **ACTION ITEM** Consider Fiscal Year 2027 Law Enforcement Contract with Kootenai County

# Memo

To: Mayor and Hayden City Council

From: Lisa Ailport, City Administrator

Date: September 14, 2026

**Agenda Item: Consider FY27 Law Enforcement Contract with Kootenai County**

---

## **Agenda Item Location**

New Business

## **Background and Recommended Action or Motion**

During the FY27 budget build council directed staff to negotiate a contract for Law Enforcement services with Kootenai County not to exceed a budget of \$1,080,470. Given this budget cap, the following contract for FY2027 is provided by the County. To bring the level of service into the budget limits, the county has reduced the number of deputies from 5 in FY2026 to 4 in FY2027. Additionally, the animals control personnel and a detective position remain in the budget. In addition to the contracted services, the County is also included a line-item expense of overtime, which they conclude is not currently captured in the overhead calculation (see attached overhead summary description from Brandi Falcon).

The Board of County Commissioners has approved this contract at their 9/15 Board meeting.

## **Functional Impact of Authorizing or Not Authorizing**

Authorizing the contract allows the city to engage in enhanced law enforcement services for another fiscal year.

## **Fiscal Impact**

The overall fiscal impact is just under \$3,000 from what was budgeted.

Thank you, Brandi. I appreciate you explaining the process and look forward to The County providing the city with an updated contract appendix so we can bind our FY'27 law enforcement contract this month. We're too late to get this on our (next) Tuesday agenda but can present it to Council on the 22<sup>nd</sup>, which is the last normally scheduled meeting of the fiscal year.

**Subject:** Overhead Summary

Hi Alan,

Bruce wanted me to send you a summary of how the overhead was calculated for the Hayden contract for FY27. I calculated the cost of 4 deputies, plus 1 detective and 1 animal control officer, and added the budget for your overtime to come up with a personnel expense of \$769,436. Then I multiplied that by 40% for overhead. That is a total contract cost of \$1,077,210.

In FY26, the Sheriff did not input a budget for overtime for Hayden, so we didn't have anything to include as a budgeted amount for overtime last year, so overtime expense at the time was just included in the actual overhead rate, which was around 50%-60% I believe. This year we have a budget for it, so we are adding it as a flat personnel cost instead of including it in overhead. The overhead rate being charged is still 40%, even though actual overhead paid by the county is now around ~47%.

## **LAW ENFORCEMENT SERVICES AGREEMENT**

**THIS AGREEMENT** (hereinafter “Agreement”) made and entered into this 15<sup>th</sup> day of September, 2026, by and between **Kootenai County**, a duly formed and existing county pursuant to the laws and Constitution of the State of Idaho, the **Kootenai County Sheriff** (hereinafter collectively the “COUNTY”) and the **City of Hayden**, Idaho, a municipal corporation of the State of Idaho (hereinafter the “CITY”).

### **WITNESSETH**

**WHEREAS**, several cities in Kootenai County contract with the COUNTY for the provision of law enforcement services within their city boundaries; and

**WHEREAS**, the COUNTY supports the development and continuation of these contracts to preserve the quality, depth and breadth of its law enforcement services; and

**WHEREAS**, the CITY desires to contract with the COUNTY for the performance of the hereinafter described law enforcement duties, services, and functions within its boundaries by the COUNTY.

**NOW, THEREFORE**, in consideration of the mutual promises and covenants herein contained, it is mutually agreed as follows:

1. Law Enforcement Services. The COUNTY will provide the CITY the law enforcement services described in Exhibit A, attached hereto and incorporated herein by reference.

1.1 Compensation.

- a. Rate and Cost. The CITY shall pay COUNTY for the services provided at the rate and cost described in Exhibit A.
- b. Billing. COUNTY shall submit a bill to the CITY on or about the first day of every month, but not later than the fifth day, for services provided during

the prior month at the rates and cost described in Exhibit A. The CITY shall pay the COUNTY the amount billed within thirty (30) days.

1.2. Special Provisions.

- a. Distribution of Penalties, Fines and Forfeitures. Any arrests made within the protected area, and citations issued for misdemeanors or infractions that occur within the protected area during the timeframe for which COUNTY is providing the law enforcement shall be deemed CITY arrests and citations for the purpose of prosecution and distribution of penalties, fines and forfeitures.

1.3 Personnel and Equipment. The COUNTY is acting hereunder as an independent contractor so that:

- a. Control of Personnel. Control of personnel, standards of performance, discipline and all other aspects of performance shall be governed entirely by the COUNTY. Allegations of misconduct shall be investigated in accordance with COUNTY protocol.
- b. Status of Employees. All individuals rendering service hereunder shall be for all purposes employees of the COUNTY.
- c. Liability. All liability for salaries, wages, any other compensation, injury, or sickness arising from performance of the law enforcement services by the COUNTY hereunder shall be that of the COUNTY.
- d. Provision of Personnel. The COUNTY shall furnish all personnel and such resources and material deemed by the COUNTY as necessary to provide the level of law enforcement service herein described.

- e. Vehicles and Equipment. Ownership of vehicles and equipment purchased by the COUNTY shall be retained by the COUNTY. The vehicles described in Exhibit B shall be the property of the CITY.

1.4 CITY Responsibilities. In support of the COUNTY providing the services described herein, the CITY promises the following.

- a. Municipal Police Authority. The CITY promises to confer municipal police authority on such COUNTY deputies as might be engaged hereunder in enforcing CITY ordinances within CITY boundaries, for the purposes of carrying out this Agreement.
- b. Special Supplies. The CITY promises to supply, at its own cost and expense, any special supplies, stationery, notices, forms, and the like where such must be issued in the name of the CITY.

1.5 Duration. This Agreement is effective upon authorization and signature by all parties, except that services and charges shall commence on October 1, 2026, and unless otherwise terminated, shall continue in effect until September 30, 2027. This Agreement may be renewed upon the mutual written agreement of the parties.

1.6 Early Termination. Each party may initiate a process to terminate this Agreement for any reason as follows:

- a. Notice of Termination. In the event either party hereto desires to terminate this Agreement prior to the expiration date, such party may do so by giving sixty (60) days written notice to other party.
- b. Transition Plan. Within sixty (60) days of the receipt of such written termination notice, the parties shall commence work on and complete a

mutually agreed-upon transition plan providing for an orderly transition of responsibilities from the COUNTY to the CITY. The planning method should proceed along the lines of a project management approach to facilitate the joint planning process by the CITY and the COUNTY. The overarching goal of the transition plan will be to ensure there is no disruption in service to the community. Each party shall bear its respective costs in developing the transition plan.

- c. Termination and/or Interest Charge. In the event the CITY fails to make a monthly payment within thirty (30) days of billing, the COUNTY may charge an interest rate within two percentage points of the interest rate on the monthly COUNTY investment earnings. In addition, in the event the CITY fails to make a monthly payment within one hundred twenty (120) days of billing, the COUNTY may terminate this Agreement immediately.

1.7 Indemnification and Insurance.

- a. The CITY to Defend, Indemnify and Hold the COUNTY Harmless. The COUNTY, its officers, agents, and employees, shall not be deemed to have assumed any liability for the acts of said CITY or any officers, agents or employees thereof, and the CITY hereby covenants and agrees to defend, indemnify and hold and save the COUNTY, and its officers, agents, and employees, harmless from all claims whatsoever that might arise against the COUNTY, its officers, agents, or employees, by reasons of any acts or failures to act on the part of the CITY, its officers, agents or employees.

- b. The COUNTY to Defend, Indemnify and Hold the CITY Harmless. The COUNTY hereby covenants to defend, indemnify and hold and save the CITY, and all its officers, agents, and employees, harmless from all claims whatsoever that might arise against the CITY, its officers, agents, or employees by reason of any acts or failures to act on the part of the COUNTY, its officers, agents, or employees in the performance of the duties required by the terms of this Agreement.
- c. Liability Related to CITY Ordinances, Policies, Rules and Regulations. In executing this Agreement, the COUNTY does not assume liability or responsibility for or in any way release the CITY from any liability or responsibility which arises in whole or in part from the existence or effect of CITY ordinances, policies, rules or regulations. If any cause, claim, suit, action or administrative proceeding is commenced in which the enforceability and/or validity of any such CITY ordinance, policy, rule or regulation is at issue, the CITY shall defend the same and select legal counsel at its sole expense and, if judgment is entered or damages are awarded against the CITY, the COUNTY, or both, the CITY shall satisfy the same, including all chargeable costs and reasonable attorney's fees.
- d. Insurance. Each party shall procure and maintain insurance as required by applicable federal and state law and as may be appropriate and reasonable to cover its staff, equipment, vehicles, and property, including but not limited to liability insurance, workers' compensation, automobile liability,

and property damage. Each party has the right to self-insure all or part of the insurance requirements set forth in this paragraph.

1.8 Audits and Inspections. The records, reports and documents with respect to all matters covered by this Agreement shall be subject to inspection, review or audit by the COUNTY or CITY during the term of this Agreement and three (3) years after termination unless such records are exempt from disclosure under Idaho Code §§ 74-101, *et seq.*

1.9 Amendments. This Agreement may be amended at any time by mutual written agreement of the parties.

1.10 Agreement Administration.

- a. Agreement Administrators. The CITY Administrator or Mayor, or his designee, and the Sheriff, or his designee, shall serve as agreement administrators to review performance and resolve operational problems.
- b. Referral of Unresolved Problems. The CITY Mayor or his designee shall refer any police and/or city code enforcement service operational problem, which cannot be resolved with the Sheriff's designee, to the Sheriff and the designee of the Board of County Commissioners. The Sheriff, the designee of the Board of County Commissioners and the Mayor shall meet as necessary and work in good faith to resolve such issues.

1.11 Entire Agreement/Waiver of Default. The parties agree that this Agreement is the complete expression of the terms hereto and any oral or written representations or understandings not incorporated herein are excluded. Both parties recognize that time is of the essence in the performance of the provisions of this Agreement. Waiver of any default shall not be deemed to be a waiver of any subsequent default. Waiver or breach of any provision of the Agreement shall

not be deemed to be waiver of any other or subsequent breach and shall not be construed to be a modification of the terms of the Agreement unless stated to be such through written approval by the County, which shall be attached to the original Agreement.

1.12 Termination of Prior Contracts. The COUNTY and CITY agree that all prior agreements to provide law enforcement services are terminated and superseded by this Agreement. Except as set forth in Exhibit B, all vehicles, equipment and other personal property purchased pursuant to the terms of prior agreements shall be deemed the property of the COUNTY.
