Hayden City Hall Council Chambers, 8930 N. Government Way, Hayden, ID 83835

CALL TO ORDER
ROLL CALL OF COUNCIL MEMBERS
PLEDGE OF ALLEGIANCE
ADDITIONS OR CORRECTIONS

1. **CONSENT CALENDAR** ***All items on the Consent Calendar are Action Items***
   A. Approval of September 22, 2026 City Council Meeting Minutes

Assistance for persons with disabilities will be provided, upon provision of verbal or written notice to city staff 24 hours in advance of the meeting. The phone number for City Hall is (208) 772-4411.

DRAFT MINUTES OF THE CITY COUNCIL MEETING
FOR THE CITY OF HAYDEN, KOOTENAI COUNTY, IDAHO

Tuesday, September 22, 2026

Regular Meeting: 5:00 PM
Hayden City Hall Council Chambers, 8930 N. Government Way, Hayden, ID 83835

CALL TO ORDER
Mayor Davis called the meeting to order at 5:00 p.m.

ROLL CALL OF COUNCIL MEMBERS
Present: Ed DePriest, David Erickson, Matthew Roetter, **Absent:** Tom Shafer.

PLEDGE OF ALLEGIANCE
Mayor Davis asked Abbi Sanchez to lead the pledge of allegiance.

ADDITIONS OR CORRECTIONS
None

1. **PROCLAMATION**
   A. Constitution Week

   Mayor Davis proclaimed September 17-23, 2026, Constitution Week in the City of Hayden.

2. **CONSENT CALENDAR** ***All items on the Consent Calendar are Action Items***
   A. Approval of September 1, 2026 Special City Council Meeting Minutes
   B. Approval of September 8, 2026 Special City Council Meeting Minutes
   C. Approval of September 8, 2026 City Council Meeting Minutes
   D. Approval of Cody Small Appointment to the Arts Commission
   E. Approval of Amendment No. 1 to the Right of Way Contract with Property Owner of 8675 North Ramsey Road to Release the City from the Obligation of Tree Removal
   F. Approval of Amendment No.3 to the Professional Services Agreement with Welch Comer & Associates to Authorize Additional Construction Administration for the Ramsey Road and Honeysuckle Avenue Roundabout Project
   G. Approval of Fiscal Year 2027 Prosecution Services Agreement with the City of Post Falls
   H. Approval of General Construction Agreement with Avista Utilities for the Hayden Avenue and Ramsey Road Spanwire Traffic Signal Project.
   I. Approval of the General Construction Agreement with Avista Utilities for the Honeysuckle and Ramsey Roundabout Project
   J. Approval of Independent Contractor Agreement with Interstate Electrical Company
   K. Approval of Reimbursement Agreement with Hayden Urban Renewal Agency for up to $12,500 for the Come Together Benches
   L. Approval of Project Funding Agreement with the Hayden Urban Renewal Agency for Civic Center Master Plan
   M. Approval of the Veterans Commission's Guest Speaker Recommendation for the 2026 Veterans Day Ceremony
   N. Approval of the Fiscal Year 2026 Audit Engagement Letter
   O. Approval of the Contract Change Order No.4 for the Honeysuckle and Ramsey Roundabout Project
   P. Approval of Bills for Payment

   MOTION: Council Member Roetter moved to approve the consent calendar as presented. Council President DePriest provided the second.

ROLL CALL VOTE:
Council Member Erickson Yes
Council President DePriest Yes
Council Member Roetter Yes

The motion was approved by a unanimous vote in favor of the members present.

3. VISITOR/PUBLIC COMMENT (3-minutes maximum)

Mysty Rusk, introduced herself as the new Executive Director of the Coeur d'Alene Area Economic Development Corporation. She acknowledged that the organization had previously lost the Council's trust and expressed her desire to rebuild that relationship. She offered to meet individually with council members and return at a later date with a formal presentation to the Council.

Ms. Rusk explained she has been in the role for about 32 days and is currently in a listening and assessment phase, meeting with board members and community leaders. Her early priorities center on business retention, particularly supporting existing local companies with 10–20 employees. She emphasized a focus on creating and sustaining jobs that support the local tax base and provide a living wage.

She outlined the organization's developing framework for "balanced economic development," including identifying a local living wage (estimated at $51–$55/hour, or roughly $90,000 annually) based on the ability for a small household to afford median housing and cover expenses without public assistance.

Ms. Rusk stressed the importance of helping existing local businesses grow rather than pursuing large external developments. Her overarching goal is to strengthen the regional economy by increasing the overall tax base without increasing the burden on residents.

Council members welcomed her and expressed openness to meetings, noting they had provided guidance to her predecessor that had not been implemented. Ms. Rusk distributed business cards and reiterated her openness to input.

4. COMMISSION REPORT

A. Historic Preservation Commission

Historic Preservation Commission Chair Judy Eichelberger updated the Council on the Historic Preservation Commission's activities since February, highlighting recent events, collaborations, and ongoing projects. She reported that in May the Commission presented the second annual Hayden Award to The Armory on Government Way, a 1915 building whose history they continue to document, and noted that planning for the 2027 award is already underway. During Hayden Days in July, the Commission gathered community input on which historic structures best represent Hayden, with the Hansen Home and Birdy's Pie Shop receiving the most support. In August, the Commission met jointly with the Parks and Recreation Commission to coordinate efforts around identifying historically significant sites for interpretive signage along local trails. Ms. Eichelberger also noted that a previously planned storytelling collaboration with Hayden Canyon Charter is on hold due to administrative changes, though they hope to revisit the idea. She expressed enthusiasm for the Commission's involvement in the Stoddard Barn reuse master plan and thanked city staff for assisting with sales of their book, *Ordinary Lives, Extraordinary People*. Nearly all 300 printed copies have sold, with five reserved for

local elementary schools and proceeds funding a second volume. She concluded by inviting questions from the Council.

5. UNFINISHED BUSINESS

A. *ACTION ITEM* Consideration of 2026 Memorandum of Understanding with Specialized Needs Recreation

Council reviewed the proposed 2026 Memorandum of Understanding with Special Needs Recreation. Members recalled that at a previous meeting they had agreed to increase the City's financial support for the organization, contingent on establishing a more formal agreement outlining expectations. The item presented simply formalizes that arrangement.

MOTION: Council Member Roetter moved to approve the Memorandum of Understanding with Specialized Needs Recreation. Council Member Erickson provided the second.

ROLL CALL VOTE:	
Council President DePriest	Yes
Council Member Erickson	Yes
Council Member Roetter	Yes

The motion was approved by a unanimous vote in favor of the members present.

6. NEW BUSINESS

A. Sewer Capitalization Fee Study Presentation

Angie Sanchez-Virnoche, Principal of FCS, Inc., presented the updated sewer collection capitalization fee study, noting the City's last update was completed in 2019. She explained that capitalization fees are one-time charges for new users connecting to the sewer system and must be based solely on the value of existing, in-use infrastructure according to Idaho Supreme Court methodology.

The study calculated the gross present-day replacement value of the system at approximately $133.1 million, then deducted outstanding bond principal of $9.6 million and unfunded depreciation of $21.5 million to arrive at a net system replacement value of about $102 million. J-U-B Engineers provided updated system capacity figures, reflecting the addition of the H-6 sewer basin infrastructure and resulting in a capacity of 15,646 equivalent residential units, an increase of 4,452 units since the last study.

Using these inputs, the maximum allowable capitalization fee was calculated at $6,522 per ERU, compared to the current fee of $5,244, which has remained unchanged since 2019.

Council members asked clarifying questions regarding methodology, update frequency, and distinctions between treatment and collection fees. Staff explained that a higher preliminary estimate had already been published for the upcoming fee hearing, but the City may legally adopt a lower amount.

The presentation was informational only, with Council agreeing to accept the report and proceed to consider the updated fee during the public hearing scheduled for September 29th.

B. *ACTION ITEM* Consider Adopting Resolution for Amended City of Hayden Financial Policy

Council reviewed an action item to adopt a revised financial policy that consolidates two previous resolutions and adds a new section establishing reserve minimums. Staff explained that the update also formalizes a debt guideline policy and an investment policy, which had not previously been codified. The revised document removes procedural details to keep the policy focused on guidance rather than departmental processes. During discussion, Council Member Roetter raised concern that the investment policy appeared to give authority solely to the Chief Financial Officer; staff clarified that all investments still require prior Council approval. Periodic investment reports were requested, such as quarterly updates, to help track amounts and returns, and staff agreed to provide that information outside of the policy. It was also noted that the policy explicitly states all investment transactions must receive formal Council approval. With questions addressed, the Council expressed support for adopting the amended financial policy.

MOTION: Council President DePriest moved to approve the resolution adopting the City of Hayden Financial Policy. Council Member Roetter provided the second.

ROLL CALL VOTE:	
Council Member Erickson	Yes
Council Member Roetter	Yes
Council Member DePriest	Yes

The motion was approved by a unanimous vote in favor of the members present.

C. *ACTION ITEM* Consider Adding a Senior Permit Technician to the Kinds and Levels Chart

Council considered adding a Senior Permit Technician position to the City's kinds and levels chart. Staff explained that this change had already been anticipated and budgeted during the most recent budget approval process. A wage study was conducted to determine appropriate placement, and based on the findings, the position would move from Level 5 (Permit Technician) to Level 7, consistent with how other "senior" classifications are structured within the City. The adjustment aligns with standard two-step progressions used in similar roles such as inspectors and public works positions.

Council had no questions or concerns and expressed agreement with the proposed change.

MOTION: Council Member Erickson moved to approve adding the position as proposed. Council President DePriest provided the second.

ROLL CALL VOTE:	
Council Member Roetter	Yes
Council President DePriest	Yes
Council Member Erickson	Yes

The motion was approved by a unanimous vote in favor of the members present.

D. *ACTION ITEM* Consider Fiscal Year 2027 Law Enforcement Contract with Kootenai County

Council held an extensive discussion regarding the county's proposed law enforcement contract, which was received only a week before the current contract expires despite repeated requests dating back to April. Staff clarified that the delay originated with the county and that Hayden had actively attempted to secure the

contract earlier.

Council members expressed a range of concerns centered on the county's ability to provide timely data, clarify cost calculations, and account for new contract components such as overtime charges. Several members noted that the city has been seeking more detailed operational and financial information for multiple years without satisfactory resolution, which complicates evaluating whether contract costs align with the services provided. References were made to preliminary findings from the Matrix study indicating Hayden's low crime rate, the city's emphasis on traffic and ordinance-related concerns, and questions about how deputy time is allocated.

Some council members raised broader concerns about fiscal transparency, data tracking, and future implications of policy proposals being discussed at the county level. Others highlighted the importance of maintaining public safety coverage and the need to understand the full implications of not adopting a contract before making a final decision. It was acknowledged that if the contract is not approved, statutory law enforcement services would still be provided, though enhanced services could be affected. Council also recognized that any long-term changes, such as alternative enforcement options, would require further analysis, stakeholder input, and consideration of the upcoming final Matrix report.

Given the limited time to review the contract, unresolved questions, and the absence of all council members, the group expressed reluctance to approve the contract that evening. They agreed that next-step discussions should occur in a future workshop or through the Public Safety Commission, as the only action item before them was whether to approve or decline the contract as presented.

Council Member Shafer's comments will be attached to the minutes for the record.

MOTION: Council President DePriest moved to deny the proposed Fiscal Year 2027 Agreement with Kootenai County for Law Enforcement Services. Council Member Roetter provided the second.

ROLL CALL VOTE:	
Council Member Erickson	Yes
Council Member Roetter	Yes
Council President DePriest	Yes

The motion was approved by a unanimous vote in favor of the members present.

7. REPORTS

A. City Administrator Report and Calendar Review

City Administrator Lisa Ailport informed Council of a special meeting scheduled for Tuesday at 5:00 p.m., which will include a public hearing and consideration of a resolution for fee increases. The meeting will also include a workshop on proposed Title 11 and Title 12 code amendments that were previously emailed to Council, with planning and zoning discussions available for review. Additionally, the Public Safety Commission will meet Monday at 1:00 p.m. to review the draft Matrix Consulting Law Enforcement Services Strategic Planning Study report; while the commission may or may not be ready to make a recommendation, the item will be included on Tuesday's agenda to meet noticing requirements. Council would be asked to accept the draft report, with any necessary revisions incorporated before a final version is produced. Council may also consider whether to hold a public open

house after receiving the report. Ms. Ailport further noted that Kootenai Metropolitan Organization (KMPO) is requesting a letter from the City regarding the Rathdrum Prairie PEL study, and Council will revisit this topic at the Tuesday meeting to determine the City's position and whether the letter should return for Council review before submission. No additional updates were presented.

B. Law Enforcement

Kootenai County Sheriff Office Lt. Sifford presented the monthly law enforcement report and addressed earlier comments from Council. He expressed appreciation for the support shown toward deputies and emphasized the importance of clear, accurate communication, noting that some statements made during the meeting could create misunderstandings if repeated publicly. He explained that while the Sheriff's Office can track deputies' time, the challenge lies in producing a report that definitively shows when deputies remain inside Hayden versus when they leave the city for calls in nearby areas. He reiterated that Hayden's assigned deputies are dedicated to the city but will occasionally respond outside city limits when they are the closest available units. He also noted that contract negotiations are now managed by the Board of County Commissioners rather than the Sheriff's Office, which adds complexity to reporting requirements.

Lt. Sifford reviewed recent crime trends, highlighting increases in reported rapes (primarily involving known parties rather than stranger incidents), a spike in thefts driven by a traveling burglary group operating across multiple states, and elevated vandalism incidents without a clear pattern. He explained common call categories, such as citizen assists, welfare checks, and traffic collisions, and attributed higher numbers of accidents in part to ongoing construction and congestion.

Council members asked clarifying questions about theft locations, workload data referenced in the Matrix Consulting Law Enforcement Services Strategic Planning study, and how deputies account for their time. The representative acknowledged the need to review the consultant's findings and to evaluate whether procedural changes may be needed to better document deputies' activities. He closed by reaffirming the department's commitment to transparency and service to the community.

C. Mayor/Council

Council Member Erickson noted attending a Panhandle Area Council meeting, via Zoom, with no significant items to report.

Council Member Roetter reported that the Hayden Area Regional Sewer Board (HARSB) will be voting on its final 2027 budget next week, noting that although approval is required, the City has formally entered a protest regarding an addendum submitted by the Hayden Lake Sewer District. Council President DePriest who also attended the HARSB meeting added that approximately 277 residential sewer hookups remain before capacity is reached and described challenges during the budget meeting, including the Sewer District's opposition to including the City's "under protest" statement in the public record. He expressed concern about this dynamic but emphasized the need for HARSB to adopt its budget so operations can continue.

8. REQUEST FOR FUTURE AGENDA ITEMS

None were requested.

Mayor Davis recessed the meeting for a break from 6:42 - 6:54 p.m.

9. EXECUTIVE SESSION *ACTION ITEM* *(Action will be taken to enter and exit Executive Session. No action will be taken during the Executive Session)*

A. Idaho Code 74-206(1)(f) To communicate with legal counsel for the public agency to discuss the legal ramifications of and legal options for pending litigation, or controversies not yet being litigated but imminently likely to be litigated.

MOTION: Council President DePriest moved for the meeting to enter executive session under Idaho Code 74-206(1)(f). Council Member Roetter provided the second.

ROLL CALL VOTE:	
Council Member Erickson	Yes
Council Member Roetter	Yes
Council President DePriest	Yes

The motion was approved by a unanimous vote in favor of the members present and the meeting entered executive session at 6:54 p.m.

MOTION: Council Member Erickson moved for the meeting to exit the executive session Council Member Roetter provided the second.

ROLL CALL VOTE:	
Council President DePriest	Yes
Council Member Erickson	Yes
Council Member Roetter	Yes

The motion was approved by a unanimous vote in favor of the members present and the meeting exited the executive session at 8:20 p.m.

10. ADJOURNMENT

The meeting was adjourned at 8:20 p.m.

FW: Councilman Shafer Comments for Deliberation RE County FY27 Contract_092226

From Lisa Ailport <lailport@haydenid.gov>
Date Tue 9/22/2026 11:58 AM
To Alan Davis <adavis@haydenid.gov>; Fonda Jovick <fjovick@lclattorneys.com>
Cc Abbi Sanchez <asanchez@haydenid.gov>

Council Members (Bcc'd): The following is submitted to the council members via Councilmember Tom Shafer, who will not be able to attend the council meeting this evening. If you have any questions, please reach out.

Fellow council members,

I want to acknowledge first and foremost, that I do believe we all share a common desire to ensure that the City of Hayden receives the best law enforcement services with the least tax burden on our constituents. That is our goal. How we may differ is the vision each of us has to achieve it.

Let me also acknowledge that I recognize that the county board of commissioners has not collaborated well with Hayden in establishing a law enforcement contract. In deference to their conduct, I believe they are motivated to reign in their budget shortfalls, and also reduce the tax burden on their constituents. But they seem to be doing this without nurturing a partnership with the city of Hayden.

I read Commissioner Matare's white paper and proposed changes in state statute. And then I observed how the AIC discredited many of his policy proposals. We should keep this in mind.

The county very belatedly came back to Hayden with a FY 27 contract proposal that meets our cost goal, but further reduces the number of patrol deputies. And there is no substantive change in reporting over what has been provided previously. Yet, our consultant, and AIC, even the BOC, recognizes that accurate tracking and reporting is still woefully lacking.

Regardless, I still suggest that my fellow councilmen exercise restraint. It is not yet time to make a substantial change in the law enforcement vision for Hayden. That day may come soon, but not yet. I remind you all that Hayden has spent $100-thousand dollars of taxpayer money to hire an objective and independent third party with bonafides and credentials NONE of us have, to assess our current and future law enforcement needs, and provide a framework for how to achieve that. I note in their preliminary report to council, they have assessed that current law enforcement services from the county sheriff appear to be too proactive, and we could deliver adequate service with less patrol deputies. But they also pointed out that behind the cost of patrol deputies, there is another substantial layer of cost for management, administrative and support personnel. What that looks like for Hayden will be further and more clearly defined in the final report. We have paid for this study and consultation. We need to wait for the final product before acting. Otherwise, we risk doing a great disservice to our constituents.

I anticipate that someone will suggest that we engage with one of the other municipalities in Kootenai County for law enforcement services, and sever or reduce ties with the county sheriff. But we know that at best, this is a temporary measure, and will force our hand to start our own police force. While some of us may want this, I ask rhetorically what if the law enforcement study says that a city police force for Hayden is too expensive? Do we go groveling back to the

county? Who holds the cards then? Or do we endeavor to run a hybrid model? I think it is unwise to serve two masters.

This is an emotional matter. I can observe that our county partners have not worked collaboratively with us, which has given good cause for disappointment. But making decisions rooted in emotions, void of objective data, is also not acting in good faith to our constituents. I suggest that we accept the current county contract proposal, or maybe go month-to-month, while we wait out the results of the Hayden Law Enforcement study.

Respectfully, Councilman Shafer

B. Approval of the Veterans Commission's Recommendation for the 2026 Distinguished Veteran Award

Assistance for persons with disabilities will be provided, upon provision of verbal or written notice to city staff 24 hours in advance of the meeting. The phone number for City Hall is (208) 772-4411.

Memo

To: Mayor and Hayden City Council

From: Suzanne Cano, Recreation and Community Events Director

Date: October 7, 2026

Agenda Item: Approval of the Veterans Commission's Recommendation for the 2026 Distinguished Veteran Award

---

Agenda Item Location
Consent Calendar

Recommended Action or Motion
The Veterans Commission requests approval of the 2026 Distinguished Veteran they have recommended to receive this year's award.

Summary
The Veterans Commission had two nominations for the 2026 Distinguished Veteran, and they are recommending approval of Paul Braden for this year's Distinguished Veteran. Mr. Braden will be presented with the 2026 Distinguished Veteran of the Year award at the Veterans Day Ceremony on November 11. For your review, the nomination for Paul Braden is attached.

Functional Impact of Authorizing
Approval of this individual is critical to help complete the Veterans Commission's planning efforts for the 2026 Veterans Day Ceremony being held on Wednesday, November 11 at 11:00 a.m. at McIntire Family Park.

Functional Impact of Not Authorizing
If not approved, the Veterans Commission will need to start the process of attempting to secure a distinguished veteran again, which could prove to be very difficult.

Fiscal Impact
The fiscal impact involves purchasing an award for the distinguished veteran, which costs approximately $70.00

Budget Funding Source / Transfer Request
The cost of this plaque is paid out of the Veterans Commission budget, GL# 110-111-58008 and is a normal expense for the commission each year.

2026 Distinguished Veteran Nomination submitted by Shelley Holloway

---

September 30, 2026

Distinguished veteran nomination: Duty, Honor, Country

As I was searching for a distinguished veteran nomination by passing out our flyers, I randomly had three people mention the name Paul Braden.

I kind of know this man; he was serving on the same board as me. He never failed when a veteran or staff member in the Post Falls Veterans Home needed something; miraculously, it would appear. He really was like a magical support system. Perhaps, something as small as birthday balloons or as grand as 50k in fundraising for a bus.

Who is Paul Braden, you ask? First off, a husband, dad, grandpa, great-grandpa.

Navy, Chief Petty Officer. Served in the Navy for 21 years, directly out of Coure d' Alene High School.

Idaho Veterans Assistance League President; previous president of Elks in Coure d'Alene; previous commander, Civil Air Patrol composite squadron; Idaho Hunter Education for 40 years,

Elks service commission, which works in community involvement and fundraising.

Owned a business for 23 years: a mobile wash business.

Primary duties in the military were search and rescue and armed helicopter crew chief in Vietnam. He still volunteers with Kootenai County Search and Rescue, the Fair, horse/mule pull, supports Kootenai County Search and Rescue, and supports recruits.

When asked how he can do so much, his response was: "You don't think about it, you just do it." Paul is always bridging the gap when necessary.

If a Veteran or staff member at the home needed something, he found it and provided it. All through his fundraising with the Elks and other organizations, Paul is constantly doing fundraising to help others in our community.

Why did you join the Navy right out of high school?

It was the wind-down of the Korean War, and his history teacher was talking about WW2 and as young Paul watched the documentary movie, he became inspired to help his country.

Young Paul went on to receive 16 combat medals in Vietnam; everywhere he went, he was in a role of leadership and trained people in operations and also the maintenance of

aircraft. He was also on an icebreaker in the Antarctic Expedition Force, Search and Rescue. Paul did what was necessary to support our country and has always been a part of the training for aircrew since the 1960s, and now supports recruits and veterans daily.

At this time, what do you consider to be your most important mission?

Supporting North Idaho veterans home and the Elks Lodge community outreach. Always supporting; gave dictionaries to 3rd graders, built the Elks RV park, community fundraiser for veterans in the North Idaho area, which takes care of veterans and their families in the area. Helped raise $50k in bus funds by doing fundraisers for transportation for veterans.

Paul is a veteran with finesse that takes a situation or project and makes it work for everyone. I would say he uses the KISS acronym wisely and efficiently.

How does he get so many projects finished with minimal effort?

He rectifies divergent views and just does it. Missions Accomplished.

Give me your definition of country?

Every American in the USA is equal and makes this country. We have to support the individuals in the US to protect them; each individual can work for the betterment of all the people. Our country must be maintained in the Constitution and Bill of Rights, what it was and what it may be. If it wasn't for our military, then this nation would be a mess.

Paul will be retired from the military for 50 years very soon. Wow!

Paul never gives up: “Keep the old friends in mind, make new friends, and help wherever you can. God bless the United States of America.”

I just barely touched on some of his career endeavors as a veteran and community philanthropist when I interviewed him. Paul Braden is a man we should all know, and I was sincerely very honored to be able to get to know him better. Lastly, he has a funny sense of humor and a kind, heartfelt personality that just keeps giving.

I believe we should add Distinguished Veteran to Paul Braden’s resume. What do you think, The City of Hayden and Board Members?

Thanks,

Shelley Holloway

C. Approval of Change Order No. 5 with LaRiviere, Inc. for the Honeysuckle Avenue and Ramsey Road Roundabout Project

Assistance for persons with disabilities will be provided, upon provision of verbal or written notice to city staff 24 hours in advance of the meeting. The phone number for City Hall is (208) 772-4411.

Memo

To: Mayor and Hayden City Council

From: Alan Soderling, Public Works Director

Date: 10.13.2026

Agenda Item: **Authorize Change Order No. 5 with LaRiviere, Inc. for the Honeysuckle Avenue and Ramsey Road Roundabout Project for changes related to private utility delays and conflicts, pedestrian access revisions, a deductive adjustment for water facility testing, a deductive adjustment for resident project representative costs for Saturday work, and a time adjustment to ensure that added contract days fall on working days for a net cost decrease of $6,108.43 and twelve (12) added contract days.**

Agenda Item Location
Consent Calendar

Recommended Action or Motion
Authorize Change Order No. 5 with LaRiviere, Inc. for the Honeysuckle Avenue and Ramsey Road Roundabout Project for changes related to private utility delays and conflicts, pedestrian access revisions, a deductive adjustment for water facility testing, a deductive adjustment for resident project representative costs for Saturday work, and a time adjustment to ensure that added contract days fall on working days for a net cost decrease of $6,108.43 and twelve (12) added contract days.

Summary
Council awarded the Contract for Honeysuckle Avenue and Ramsey Road Roundabout to LaRiviere, Inc., for $1,714,895.55 in May, 2026, and four prior change orders increased the authorized Contract Price to $1,749,135.63, and added 18 contract days. The Contract includes project construction schedules for the City of Hayden, Hayden Lake Irrigation District (HLID), and the Hayden Area Regional Sewer Board (HARSB). The City of Hayden has agreements in place with HLID and HARSB for reimbursement of their portions of the project.

Change Order No. 5 includes contract changes related to private utility delays and conflicts, pedestrian access revisions, a deductive adjustment for water facility testing, a deductive adjustment for resident project representative costs for Saturday work, and a time adjustment to ensure that added contract days fall on working days for a net cost decrease of $6,108.43 and twelve (12) added contract days.

Change Order No. 5 decreases the authorized Contract Price by $6,108.43 to $1,743,027.20 and adds twelve (12) contract days.

Fiscal Impact
The City has budgeted its share of project expenditures and has agreements in place with HLID and HARSB.

Support Docs

JUSTIFICATION:

LaRiviere reports that Ziply Fiber and Ridgeline Utilities occupied active work areas, restricting access for demolition, excavation, grading and utility installation. CCR-15 attributes four critical-path days to these conflicts. The Engineer acknowledges that Ziply's prolonged and intermittent presence within active construction areas resulted in actual disruption, resequencing, and loss of productive access during the work. Based on the overall project record and the documented duration and extent of the Ziply utility conflicts, a four (4) calendar-day extension to Contract Time is reasonable.

CCR-15

DESCRIPTION:

Extend Contract Time four calendar days for the Ziply Fiber relocation impact described in CCR-15. No change to Contract Price is proposed.

NEGOTIATED PRICE:

$ **-** Includes: All equipment, materials and labor associated with the change as described above.

CONTRACT TIMES:

4 Additional working days will be added as a result of this change.

Item #2: CCR-16-2 — WCD-10 pedestrian access revisions

Support Docs

JUSTIFICATION:

WCD-10 dated September 14 directs ramp, curb, approach and sidewalk revisions on all four legs. CCR-16 Rev 2 requests one calendar day and $422.05 for additional self-performed concrete labor and materials. This also includes additional labor and materials required for the radial detectable warning strip for the ped ramp at Honeysuckle/Neufeld in the amount of $2133.30 for a total of $2555.35. This radial detectable warning strip is more labor intensive and they have asked for an additional day for a total of 2 days.

CCR-16-2/ WCD-4, WCPR-2, WCD-10

DESCRIPTION:

This is for changes in ped and bike ramps that were a part of WCD-10 and the additional labor/material for a different style of ramp at Honeysuckle/Neufeld that was not originally planned.

NEGOTIATED PRICE:

$ **2,555.35** Includes: All equipment, materials and labor associated with the change as described above.

CONTRACT TIMES:

2 Additional working days will be added as a result of this change.

Item #3: CCR-18 - Spectrum Utility Relocation

Support Docs

JUSTIFICATION:

The Contractor requested five (5) days for delays with respect to Spectrum's work onsite relocating utilities. The August 10, 2026 daily report notes that overhead utility transfers and pole removal were beginning to affect progress; however, the Contractor continued productive work, and the records do not support five (5) days of critical-path delay. The Engineer recommends one (1) calendar day of Contract Time. The remaining four (4) days are denied.

WC Letter 9/28
CCR-18

DESCRIPTION:

Increase contract time by one (1) calendar day because of documented delay caused by Spectrum's activities onsite. No change to Contract Price is proposed.

NEGOTIATED PRICE:

$ **-** Includes: All equipment, materials and labor associated with the change as described above.

CONTRACT TIMES:

1 Additional day will be added as a result of this change.

Item #4: CCR-19 - Utility Conflicts During Drywell Installation

Support Docs

JUSTIFICATION:

CCR-19 requests three (3) calendar days for utility conflicts during drywell installation. The records document less than two hours of additional utility investigation at one drywell location, which was later eliminated. There were other utility investigations that occurred intermittently; therefore, one (1) day is justified. One (1) calendar day of Contract Time is recommended; the remaining two (2) days are denied.

WC Letter 9/28
CCR-19
FO-4
FO-8

DESCRIPTION:

Increase Contract Time by one (1) calendar day for the drywell installation impacts described in CCR-19. This is a time-only adjustment with no change to Contract Price.

NEGOTIATED PRICE:

$ **-** Includes: All equipment, materials and labor associated with the change as described above.

CONTRACT TIMES:

1 Additional day will be added as a result of this change.

Item #5: HLID test water usage, backflow/meter replacement

Support Docs

JUSTIFICATION:

During the course of construction HLID accrued bills for Lariviere for their hydrant permit, additional laboratory testing, metered water usage, and replacement hydrant components damaged during construction. These project costs that HLID incurred on the Contractor's behalf are being addressed as a deductive change order.

DESCRIPTION:

Invoice reconciliation includes:

Invoice #	Description	Cost
1253	Permit	$ (300.00)
1261	Tests	$ (440.00)
1264	Tests	$ (80.00)
1264	Metered Water	$ (1,767.31)
1264	Hydrant Parts	$ (1,767.31)
1265	New 2" Meter	$ (2,709.16)
	Total:	**$ (7,063.78)**

HLID Invoices

NEGOTIATED PRICE:

$ (7,063.78) Includes: All equipment, materials and labor associated with the change as described above.

CONTRACT TIMES:

0 Additional days will be added as a result of this change.

Item #6: Saturday RPR Charge

Support Docs

JUSTIFICATION:

Per Section 00520, Standard Form of Agreement, Paragraph 4.02.C, the Contractor is responsible for RPR costs, including overtime, at $1,600 per day for weekend or holiday work performed with City approval. This deduction accounts for one Saturday of RPR services associated with the Contractor's work on Saturday, September 26, 2026 while the Contractor paved.

DESCRIPTION:

Decrease the Contract Price by $1,600.00 for one day of Saturday RPR services in accordance with Agreement Paragraph 4.02.C. No adjustment to Contract Time is associated with this item.

NEGOTIATED PRICE:

$ (1,600.00) Includes: All equipment, materials and labor associated with the change as described above.

CONTRACT TIMES:

0 Additional days will be added as a result of this change.

Item #7: Calendar Workdays Adjustment

Support Docs

JUSTIFICATION:

The additional Contract Time granted under this CO will resulted in added days falling on weekends. This adjustment adds four working days to account for those non-working weekend days and properly reflect the intended Contract Time extension.

DESCRIPTION:

Add Four (4) working days to the Contract Time.

NEGOTIATED PRICE:

$ - Includes: All equipment, materials and labor associated with the change as described above.

CONTRACT TIMES:

4 Additional days will be added as a result of this change.

NEW PAY ITEMS

Pay Item	Description	Unit	Current Contract Qty	**Current Change Order Qty**	Resulting Contract Qty	Unit Price	**Total (C.O. Qty x Unit Price)**	**Associated Docs**

Item 1

CCR 15 No Cost Time Extension Request

ZIPLY FIBER UTILITY CONFLICT AND SITE OCCUPATION

Date	September 11, 2026
To	City of Hayden and Welch Comer Engineers
From	Lariviere Inc.
Project	Honeysuckle and Ramsey Roundabout, Project No. 41014.14
Request	Four (4) calendar days; no adjustment to Contract Price
Reference	CCR-15

Lariviere Inc. requests a no-cost extension of four (4) calendar days for documented, non-concurrent delay caused by Ziply Fiber relocation and new-installation activities within active project work areas. These four days are separate from, and do not duplicate, the days requested for Avista Gas impacts. Approval should add four days to the applicable Contract Time and corresponding substantial-completion date, with no change to the Contract Price.

Basis of Request

At bidding and project start, Lariviere understood and reasonably expected that the utility relocations would be completed before the main project work required access to those areas. Ziply was the fourth utility to mobilize for relocation. Its work coincided in part with Avista Gas, and both utility operations required access to the same constrained portions of the site. The presence of utility personnel, excavation, vehicles, materials, and equipment materially restricted Lariviere's access for demolition, clearing and grubbing, asphalt removal, grinding, and installation of project utilities.

The affected areas included the roundabout, East and West Honeysuckle Avenue, and the north section of Ramsey Road, principally the west side. Without a reliable Ziply completion schedule, Lariviere could not confidently sequence or release these areas. On several occasions, after Lariviere was installing or had installed project utilities, Ridgeline Utilities, Ziply's contractor, arrived to perform work in the same area. Lariviere then had to stop, resequence, work around the utility operation, or defer planned work. The result was a real loss of productive access and downstream critical-path delay.

All field crews coordinated professionally. The Engineer's directions and coordination efforts were accurate and direct, including repeated requests that Ziply complete its work promptly and provide a completion schedule. No usable completion schedule was provided through the relevant work period. Ziply's known scheduling difficulty and its contractor's intermittent access to active work areas remained outside Lariviere's control. Lariviere continued coordinating and mitigating wherever safe and practicable, but coordination could not eliminate the four days of critical-path delay claimed here.

Schedule Impact

The August 28, 2026 revised project schedule identifies the following downstream critical-path activities affected by the loss of access, resequencing, and delayed release of work areas:

Schedule Item	Downstream Effect
31, 42, 44	Early roadway and utility work dependent on access to the occupied area
90, 92, 94, 96, 97, 98	Successor roadway construction activities delayed by incomplete predece
101 series	All associated successor activities
114 series	All associated successor activities
120 series	All associated successor activities
138	Final critical-path activity preceding completion
Substantial Completion	Resulting project completion milestone

The requested four-day extension is based on the actual critical-path effect attributable to Ziply Fiber and excludes any day included in the separate Avista Gas time-extension request. Lariviere is not seeking duplicative recovery for concurrent delay.

Contract Basis

Supplementary Condition SC-8.02 recognizes that utility work would be performed by others during construction and requires coordination so that utility work does not interfere with the Contractor's performance or schedule. Lariviere complied by permitting access, communicating directly with the utility parties, requesting schedules, coordinating work areas, resequencing operations, and continuing available work. The documented condition nevertheless interfered with planned performance and the approved schedule.

Special Provision Section 1.5(C), Change Procedures, permits the Contractor to request a change by describing the reason, the full effect on the Work, and the effect on Contract Time with supporting documentation. This CCR supplies that description, identifies the affected critical-path activities, and includes the contemporaneous coordination record. Contract-time adjustments are to be formalized through the Contract change process, including the applicable EJCDC change and Contract Time provisions.

Requested Resolution

Lariviere respectfully requests that the Owner and Engineer:

- Approve a four (4) calendar-day extension to Contract Time and the corresponding substantial-completion milestone.
- Confirm that the extension is no-cost and does not adjust the Contract Price.
- Confirm that the four days are independent of, and do not overlap, the Avista Gas delay days requested separately.

Lariviere reserves its rights under the Contract Documents regarding the cumulative effect of utility occupation, resequencing, and other documented impacts not resolved by this request. This reservation does not convert CCR-15 into a request for compensation.

Supporting Documents

- Ziply existing-infrastructure and relocation information
- Contemporaneous photographs and field records of Ziply/Ridgeline operations
- Email coordination concerning access, conflicts, repairs, grade adjustments, pole transfers, and requests for completion schedules
- Ziply relocation plan and related utility-coordination exhibits

Sincerely,

Sam Brown

Project Manager

Ziply

Existing Infrastructure and Relocation Plans

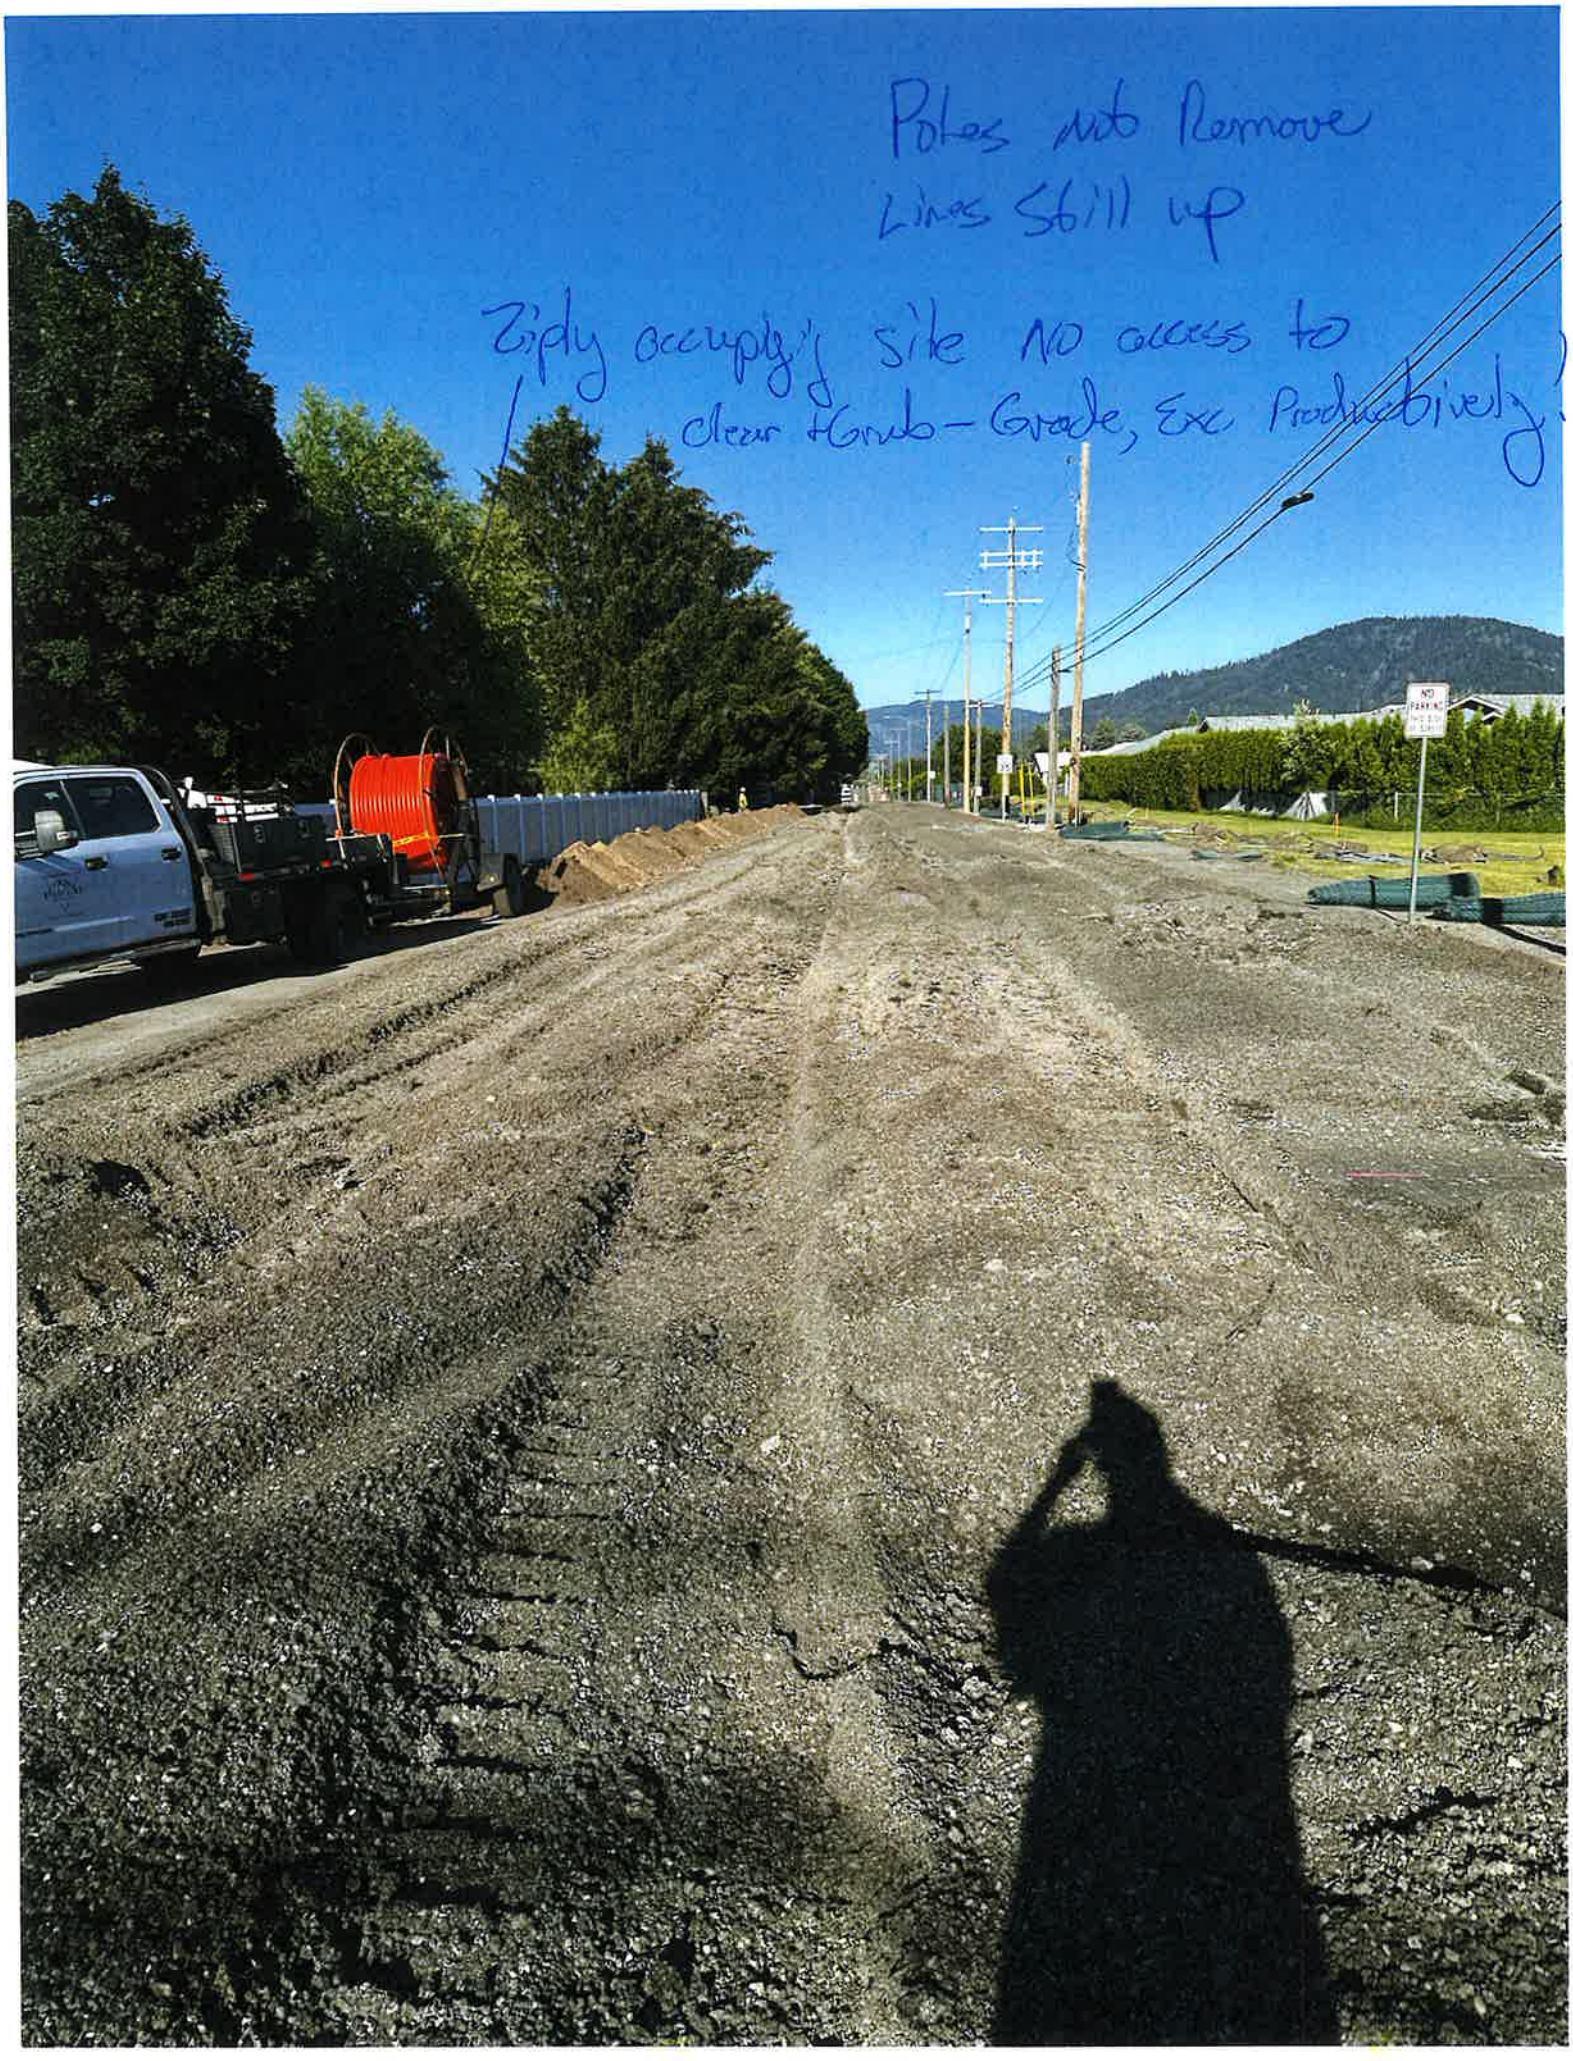

- Buried copper and aerial fiber going all directions from the intersection.
- Plans received for relocating pedestals and transitioning aerial fiber to underground. Buried copper to be preserved and protected.
- Does Ziply have any interest in maintaining aerial fiber going north-south along the west side of Ramsey? - **No**
- Are there any joint trenching opportunities with Charter or TDS? – **If it can be coordinated, yes**
- Is there any concern for conflicts with Avista or KEC's underground power locations?

Relocation Schedule

- Welch Comer to add structures (pedestals and handholes) to CAD Drawings, review location – **Week of May 18th**
- Welch Comer to provide staking for Ziply structures – **To be coordinated with Ziply**
- Ziply to install underground conduit and structures – **Between plan/permit approval with City of Hayden and June 12th**
- Ziply to relocate aerial utilities to relocated Avista poles – **Between June 12th and July 10th** 8-19-26 mostly complete

Any Resource or Coordination Needs?

- Once plans are updated and sent for review, Ziply to provide an update on their schedule/availability and when they need survey.

Notes

Had One solo dump truck, casing off excess material to Atlas, had one dump truck hauling in three-quarter base for pipe bedding. Zippy showed up on site and fixed their 600 pair that was originally hit by Vista. In the meanwhile, they are trying to figure out if they can lower or move their lines because they are currently in the road. We showed them where edge of road was and it's confirmed both of their 600 pair and 200 pair are in the road. They need to make a decision so we can start cutting road to grade on North Ramsey. Took a back T test at 1 o'clock. Brian took the sample once we wait 48 hours we can test again and then pressure test.

Sam,

For the Ziply work: I will have my splicer and a dig crew out there tomorrow to handle the repair of the damaged cable, and we can get the section lowered if need be. I think we can just throw the count into the new cable we just placed and abandon the section in conflict, but I will need to confirm with my splicer in the morning. We will be removing the poles as I stated in y email yesterday we are just pending the completion of the aerial transfer work from TDS and Spectrum being completed before we can move forward with Ziply's aerial work.

Thank You,

Kody Smith

Subject: RE: Utility conflicts and relocation.

Folks.
Still looking for schedules to complete work at the roundabout.

- Ziply and or TDS repair after gas crew hit line, northwest section of Ramsey where Avista is completing the gas line lowering due to new road profile.

- Avista completing gas line lowering in same section. Please advise. (Need to complete roadway excavation in this area).

- Ziply. Please provide completion schedule for your work. Sounds like your utility may need to be lowered as well in this area. Please advise.

- TDS. Please provide completion schedule for your work.

- Spectrum. Travis. Please provide completion schedule for your work. Need to get this completed ASAP

- Need to get the poles removed once the last vendor is off the old poles. ASAP.

All of this is in 911 status to complete and resolve on this project. Please advise if you need anything or have concerns with completing your work.
I am available for individual calls or emails as needed. Most of you I have spoken to.
Thank you.

Hi Stephen,

The north leg of the intersection, past the roundabout, was changed from its original design to be lowered in grade. The attached exhibit shows the new roadway profile and how it drops below EG from Station 38+25 to 41+00. The low point of the road is marked on the sheet, and from talking with Jason Stippich earlier today it sounds like they are digging a parallel trench to the existing gas main and dropping it a max of 2' at the low point if they can manage that.

Hi Kody and Derrick,

I'm creating this email chain to keep things separate from the ongoing discussion on the schedule for the utility relocation. Regarding the vault in the photo, we've measured that the future sidewalk elevation is 2291.75' and its current grade is 2291.38', so it needs to be raised about 0.37'.

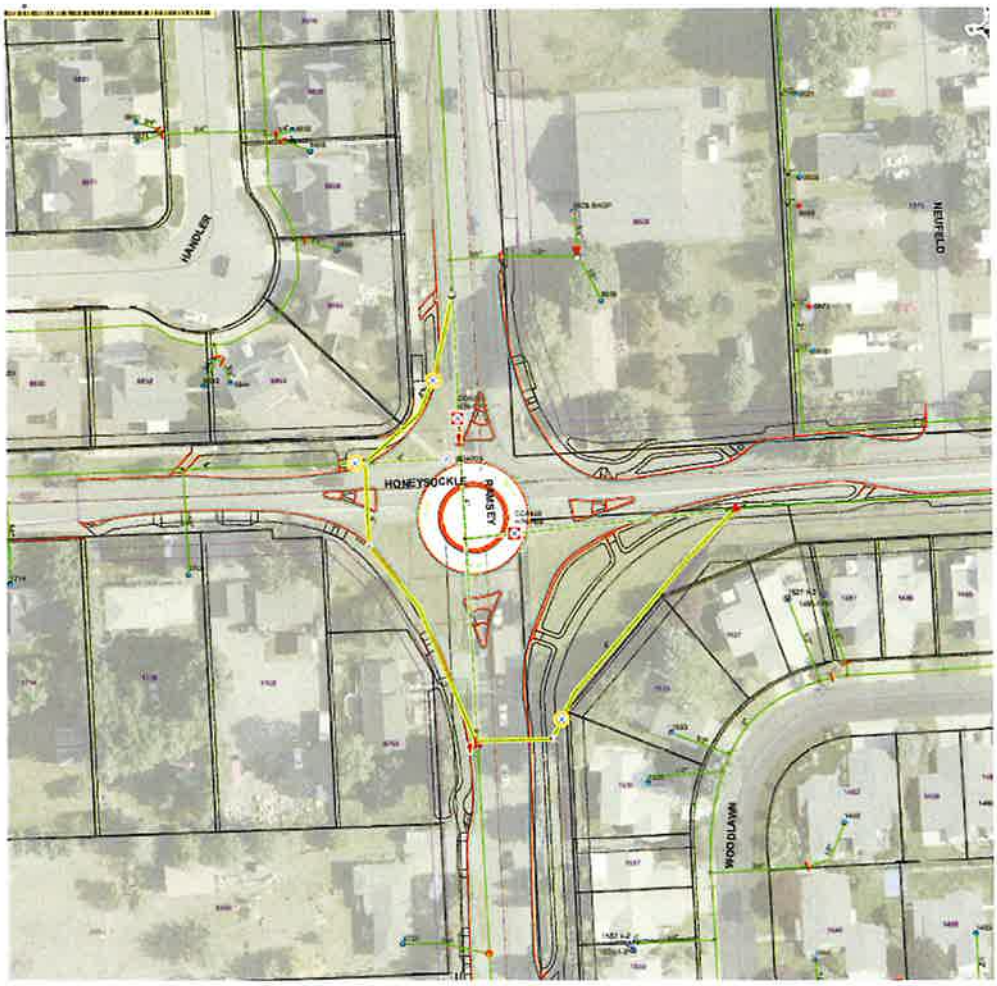

Let me know if you have any questions,

Subject: Honeysuckle and Ramsey Neufeld Pole removal

WARNING: External email. Please verify sender before opening attachments or clicking on links.

Hi Stephen and Kody,

For Honeysuckle and Ramsey, we have one last set of communication lines attached to the power pole across from Neufeld Road that needs to be detached and the pole removed. TDS was out there last week removing a pedestal and we believe they detached their lines. Spectrum was on-site today and they believed those lines were Ziply's. See the attached photos, could you confirm whether or not Ziply is the last attachment to that pole?

If they are, could you provide a time when that last detachment and pole removal can happen?

Thanks,

Subject: RE: Honeysuckle and Ramsey Neufeld Pole removal

Ron,

I have a crew on site as we speak, and they are trying to find an access to the pole. La Rivière has holes and trenches open all around the pole for utilities and dry wells as well as equipment in the way. I asked my foreman on site to see if they can find someone on site with an excavator to remove the pole butt if we top it down and we will haul it off. Ill follow up once I have confirmation of the removal

Thank You,

Kody Smith

Subject: Honeysuckle and Ramsey Neufeld Pole removal
Attachments: Neufeld Pole - Looking SE.jpg; Neufeld Pole - Looking NE.jpg

Hi Stephen and Kody,

For Honeysuckle and Ramsey, we have one last set of communication lines attached to the power pole across from Neufeld Road that needs to be detached and the pole removed. TDS was out there last week removing a pedestal and we believe they detached their lines. Spectrum was on-site today and they believed those lines were Ziply's. See the attached photos, could you confirm whether or not Ziply is the last attachment to that pole?

If they are, could you provide a time when that last detachment and pole removal can happen?

Thanks,

Ryland Hoit, E.I.T. | Project Engineer

Subject: RE: Utility conflicts and relocation.
Attachments: Power Pole Removal (Across Neufeld Road).pdf

Hi All,

Thanks for your work in getting the utilities relocated and power poles removed. There are just a few outstanding items that I wanted to cover in this email.

The communication lines attached to the pole directly south of Neufeld Road (See attached pdf) need to be detached and the power pole removed. @Sam Brown, I know sewer installation is happening in this area, so if you can update this email chain when the work zone is clear, that'll allow utilities to make that disconnection and remove the pole.

Aside from that, one more item for the TDS folks. Next to that pole across from Neufeld is a pedestal that was planned for relocation due to the bus turnout and sidewalk in that area. The staked location of where is needs to be relocated to be behind the walk is still on-site (See photo). When can that relocation occur?

Thanks,

Item 2

CCR 16-2 revised Change Order Request added radius domes.

WCD 10 Pedestrian Access Concrete Revisions and Radius Domes

To	Mellisa Clevland, Welch Comer Engineers	**Date**	September 29, 2026
Attention	Mellisa Clevland	**Project No.**	41014.14 / 2744
From	LaRiviere, Inc.	**Reference**	CCR-16 Rev 2 / WCD-10, added radius domes
Project	Honeysuckle Avenue and Ramsey Road Roundabout Improvements	**Requested Price**	$2,212.63
Owner	City of Hayden, Idaho	**Requested Time**	2 calendar days

Request. LaRiviere, Inc. requests a Change Order increasing the Contract Price by $2,212.63 and extending the Contract Time by two calendar days for the pedestrian-ramp, bike-ramp, curb, approach, sidewalk, concrete, and radius detectable-warning dome revisions directed by Work Change Directive 10 dated September 14, 2026. This revision adds the Arrow Construction Supply radius domes and six installation labor hours. All installation work is self-performed by LaRiviere, Inc.; no subcontractor costs or subcontractor markups are included.

Basis of Change

WCD-10 directs changes to pedestrian ramps, bike ramps, curbs, approaches, and sidewalk on the west, east, south, and north legs. The directive establishes unit-price payment for measurable quantity adjustments and contractor records as the basis for changes in Contract Time. The original CCR-16 amount included $225.00 in added concrete material and four labor hours. The WCD-10 revisions also require six 15-foot radial detectable-warning plates from Arrow Construction Supply, together with freight, tax, and six additional installation labor hours. The radius domes must be coordinated and field-installed with the revised ramp geometry and concrete sequence.

Cost Proposal

Description	Qty.	Unit	Rate	Amount
WCD-10 additional concrete labor	4.0	HR	$35.50	$142.00
WCD-10 additional concrete material	1	LS	$225.00	$225.00
WCD-10 direct cost subtotal				**$367.00**

Description	Qty.	Unit	Rate	Amount
WCD-10 labor and materials markup	15%			$55.05
Original WCD-10 self-performed total				**$422.05**
Arrow 15-foot radial detectable-warning plates	6	EA	$140.57	$843.42
Arrow freight	1	LS	$450.00	$450.00
Idaho sales tax	1	LS	$50.61	$50.61
Additional radius-dome installation labor	6.0	HR	$35.50	$213.00
Radius-dome direct cost subtotal				**$1,557.03**
Radius-dome labor and materials markup	15%			$233.55
Added radius-dome total				**$1,790.58**
Revised CCR-16 total				**$2,212.63**

Pricing basis. Labor and material rates and markups follow the force-account format used on this project: $35.50 per hour for labor and 15 percent on self-performed labor and purchased materials, including freight and applicable sales tax. No subcontractor costs or subcontractor markups are included. The Arrow Construction Supply quote totals $1,344.03 before markup. Any directed force-account reconciliation will be supported by LaRiviere's daily labor records and supplier documentation.

Contract Time

WCD-10 directed additional ramp, curb, approach, sidewalk, and concrete adjustments on all four legs. The original concrete revisions required one work shift and supported one calendar day. The added radius domes require procurement, layout, field fitting, and six additional labor hours coordinated with the revised pedestrian-ramp and concrete work. These activities require another work shift and affect the controlling pedestrian-access and concrete sequence. LaRiviere therefore requests one additional calendar day for the radius domes, increasing the total CCR-16 request to two calendar days. Neither day is duplicated in another project time-extension request.

Contract Support

This request is submitted under Special Provision SP-01019, Section 1.5(C), which allows the Contractor to request a change and requires the request to describe the change and its effect on Contract Price and Contract Time with documentation. Sections 1.5(E), 1.5(F), and 1.5(G) address Work Change Directives, itemized time-and-material accounts, and detailed records used to substantiate changed-work costs. WCD-10 directs the revised work and identifies contractor records as the basis for determining any change in Contract Time.

Requested Action

Please approve revised CCR-16 and issue a Change Order adding $2,212.63 to the Contract Price and two calendar days to the Contract Time. This amount includes $422.05 for the original WCD-10 concrete work and $1,790.58 for the added radius domes, freight, tax, six installation labor hours, and applicable markup. Measurable quantity adjustments directed by WCD-10 remain payable at applicable Contract unit prices

unless expressly included above. LaRiviere reserves the right to supplement this request if final quantities, actual labor, material cost, or schedule impact differ from the documented assumptions.

Sam Brown

The underdrain was already addressed in CO-2. This is included to show that the radial detectable warning strip was shown in July.

WELCH COMER ENGINEERS
WORK CHANGE DIRECTIVE

WORK CHANGE DIRECTIVE NUMBER: 4

PROJECT: Honeysuckle Ave and Ramsey Rd RAB Improvements PROJECT NUMBER: 41014.14

DATE OF ISSUANCE 7/16/2026 EFFECTIVE DATE: 7/16/2026

FROM OWNER: City of Hayden

TO CONTRACTOR: LaRiviere, Inc.

ENGINEER: Welch Comer Engineers

YOU ARE DIRECTED TO PROCEED PROMPTLY WITH THE FOLLOWING CHANGE(S):

Description: The sidewalk was changed from separated from the curb to adjacent to the curb. This requires increasing the sidewalk from 5' wide to 8' wide and the addition of a sidewalk underdrain. This work change directive covers the cost for the 10-foot long underdrain. This change was reflected in the CAD linework we provided.

Purpose of Work Change Directive: Cost for 10' sidewalk underdrain.

Attachments: (List documents supporting change)

- WCPR-2
- Change Order Request from T.La

If a claim is made that the above change(s) have affected Contract Price or Contract Times, any claim for a Change Order based thereon will involve one or more of the following methods of determining the effect of the change(s):

Method of determining change in Contract Price:	Method of determining change in Contract Times:
☐ Unit Prices	☐ Contractor's records
☒ Lump Sum $3,454.95	☐ Engineer's records
☐ Other	☐ Other

Estimated increase/decrease in Contract Price:

$3,353.95 including markup for Labor & Materials

If the change involves an increase, the estimated amount is not be exceeded without further authorization.

Estimated increase/decrease in Contract Times:

Substantial Completion: 0 days;

Ready for final payment: _____ days.

If the change involves an increase, the estimated times are not to be exceeded without further authorization.

WELCH COMER & ASSOCIATES, INC.
WORK CHANGE PROPOSAL REQUEST

WORK CHANGE PROPOSAL REQUEST NUMBER: 2

PROJECT: Hayden Ave & Ramsey Rd RAB Improvements PROJECT NUMBER: 41014.14

DATE OF ISSUANCE 7/9/2026 REQUESTED RESPONSE DATE: 7/15/2026

FROM OWNER: City of Hayden

TO CONTRACTOR: LaRiviere, Inc.

ENGINEER: Welch Comer Engineers

Please submit an itemized proposal for changes in the Contract Sum and Contract Time for proposed modifications to the Contract Documents described herein. Within seven (7) days, the Contractor must submit this proposal or notify the Engineer, in writing, of the date on which proposal submission is anticipated.

THIS IS NOT A WORK CHANGE ORDER, A CONSTRUCTION CHANGE DIRECTIVE OR A DIRECTION TO PROCEED WITH THE WORK DESCRIBED IN THE PROPOSED MODIFICATIONS.

Description:

The sidewalk was changed from separated from the curb to adjacent to the curb. This requires relocation of the drywell, increasing the sidewalk from 5' wide to 8' wide, change in type of approach, change in types of ped ramps, and the addition of a sidewalk underdrain.

While the increase in sidewalk width, change in ped ramp type, ped curb, and change in approach type can be handled with unit costs. We need a cost for the underdrain because this is larger than the other one in the project. Note the City of Hayden standard plan requires the underdrain to be 2 feet wider than the sidewalk to extend from the face of curb to 18" beyond back of walk.

This change was reflected in the CAD linework we provided.

Purpose of Work Change Proposal Request:

Cost for sidewalk underdrain.

Re: 41014.14 Honeysuckle and Ramsey Roundabout – CCR-18 Spectrum Delays

Mr. Brown:
Lariviere, Inc. submitted CCR-18 requesting five (5) additional calendar days for impacts associated with Spectrum utility relocation activities.

Project records confirm that Spectrum/Lake City Cable continued overhead utility transfers during construction. The August 10, 2026 daily report from Welch Comer notes that Lake City Cable was continuing overhead utility transfers from the existing poles to the new poles and that completion of the overhead transfers and pole removal was starting to hold up progress. However, the same report documents that the Contractor continued work on the 18-inch force main that day, and the project records do not support five (5) calendar days of critical-path delay attributable to Spectrum.

In addition, project correspondence included with CCR-18 indicates that the Spectrum vault adjustment was outside the immediate construction zone and that the rescheduled August 17 cutover was not expected to delay the Contractor's planned work.

Based on the documented interference associated with completion of the overhead utility transfers and pole removal, the Engineer will recommend one (1) calendar day of Contract Time. The remaining four (4) calendar days requested are denied.

Sincerely,

Melissa Cleveland

CCR-18 Spectrum Utility Relocation No Cost Time Extension Request

September 24, 2026
To: Melissa Cleveland, Welch Comer Engineers
From: LaRiviere, Inc.
Project: Honeysuckle and Ramsey Roundabout, City of Hayden, Project 41014.14
Subject: Request to add five (5) contract calendar days for Spectrum interference

LaRiviere requests a change order adding five (5) calendar days to Contract Time, with no change to Contract Price, for Spectrum relocation and installation interference. Please evaluate these five days separately from the days requested for Kootenai Electric, Avista, Ziply, and TDS in CCR-12 through CCR-17. LaRiviere does not request duplicate days for concurrent utility impacts.

Basis and site impacts
LaRiviere initially expected utility relocations to be complete before the principal construction work. We recognize the pre-bid and coordination information identified continued utility work and that the contract calls for cooperation with utility owners. The particular duration and sequence of Spectrum work were not established in a reliable overall completion schedule. Spectrum was the last of the communications utilities working in the area. Its personnel, equipment, vault and line work occupied the roundabout, East and West Honeysuckle Avenue, and the north Ramsey Road work area, principally on its west side, at times alongside Ziply and TDS.

This activity constrained access and staging for demolition, clearing and grubbing, and asphalt removal on East Honeysuckle, as well as the following excavation and utility installation. On several occasions, communications crews entered locations where LaRiviere was installing or had installed its utilities, requiring work to be resequenced and coordinated. LaRiviere coordinated with the Engineer and utility representatives and requested prompt completion and a schedule. The Engineer's coordination was direct and responsive. Spectrum's cutover and relocation timing remained difficult to plan around.

Effect on the August 28, 2026 revised schedule
The affected downstream critical path activities identified by LaRiviere on that schedule are 31, 42, 44, 90, 92, 94, 96, 97, 98, all activities under 101, all activities under 114, and all activities under 120. Restricted demolition, clearing, asphalt removal, roadway excavation and utility installation access delayed the work areas needed for these successor activities. We request that the Engineer review the attached correspondence together with the August 28 schedule, daily reports and the previously submitted utility CCRs to confirm the five net days and adjust the affected completion milestone accordingly.

Contemporaneous documentation and requested determination
The attached ten-page correspondence contains LaRiviere's July 30 request to Spectrum and other utilities for completion schedules, coordination material, and the August 11 discussion of a Spectrum vault adjustment and a rescheduled August 17 cutover. The August 11 exchange states that this particular cutover was expected to remain on the parties' then discussed plan and that the vault adjustment was outside the immediate construction zone.

This request is based on the separately experienced access and sequencing impacts described above, and does not count the cutover change by itself as five days of delay.

Please issue a no-cost change order adding five calendar days, identify any specific dates or schedule logic the Engineer needs to verify the net effect, and include these days in the contract completion calculation without overlap with CCR-12 through CCR-17. LaRiviere reserves its contractual rights concerning other separately documented utility impacts.

Subject: RE: Utility conflicts and relocation.

Folks.
Still looking for schedules to complete work at the roundabout.

- Ziply and or TDS repair after gas crew hit line, northwest section of Ramsey where Avista is completing the gas line lowering due to new road profile.

- Avista completing gas line lowering in same section. Please advise. (Need to complete roadway excavation in this area).

- Ziply. Please provide completion schedule for your work. Sounds like your utility may need to be lowered as well in this area. Please advise.

- TDS. Please provide completion schedule for your work.

- Spectrum. Travis. Please provide completion schedule for your work. Need to get this completed ASAP

- Need to get the poles removed once the last vendor is off the old poles. ASAP.

All of this is in 911 status to complete and resolve on this project. Please advise if you need anything or have concerns with completing your work.
I am available for individual calls or emails as needed. Most of you I have spoken to.
Thank you.

Subject: RE: Ziply Vault Adjustment Honeysuckle/Ramsey

Hi Stephen,

The north leg of the intersection, past the roundabout, was changed from its original design to be lowered in grade. The attached exhibit shows the new roadway profile and how it drops below EG from Station 38+25 to 41+00. The low point of the road is marked on the sheet, and from talking with Jason Stippich earlier today it sounds like they are digging a parallel trench to the existing gas main and dropping it a max of 2' at the low point if they can manage that.

Good Morning Ryland,

I was informed that Avista gas was running into one of our cables on Ramsey, the last design i received for gas was this map:

they also mentioned that section was going to be at grade.

do you have an idea of the new area they are digging to lower their plant and what the change in grade will be?

Thanks,

WARNING: External email. Please verify sender before opening attachments or clicking on links.

Hi Kody and Derrick,

I'm creating this email chain to keep things separate from the ongoing discussion on the schedule for the utility relocation. Regarding the vault in the photo, we've measured that the future sidewalk elevation is 2291.75' and its current grade is 2291.38', so it needs to be raised about 0.37'.

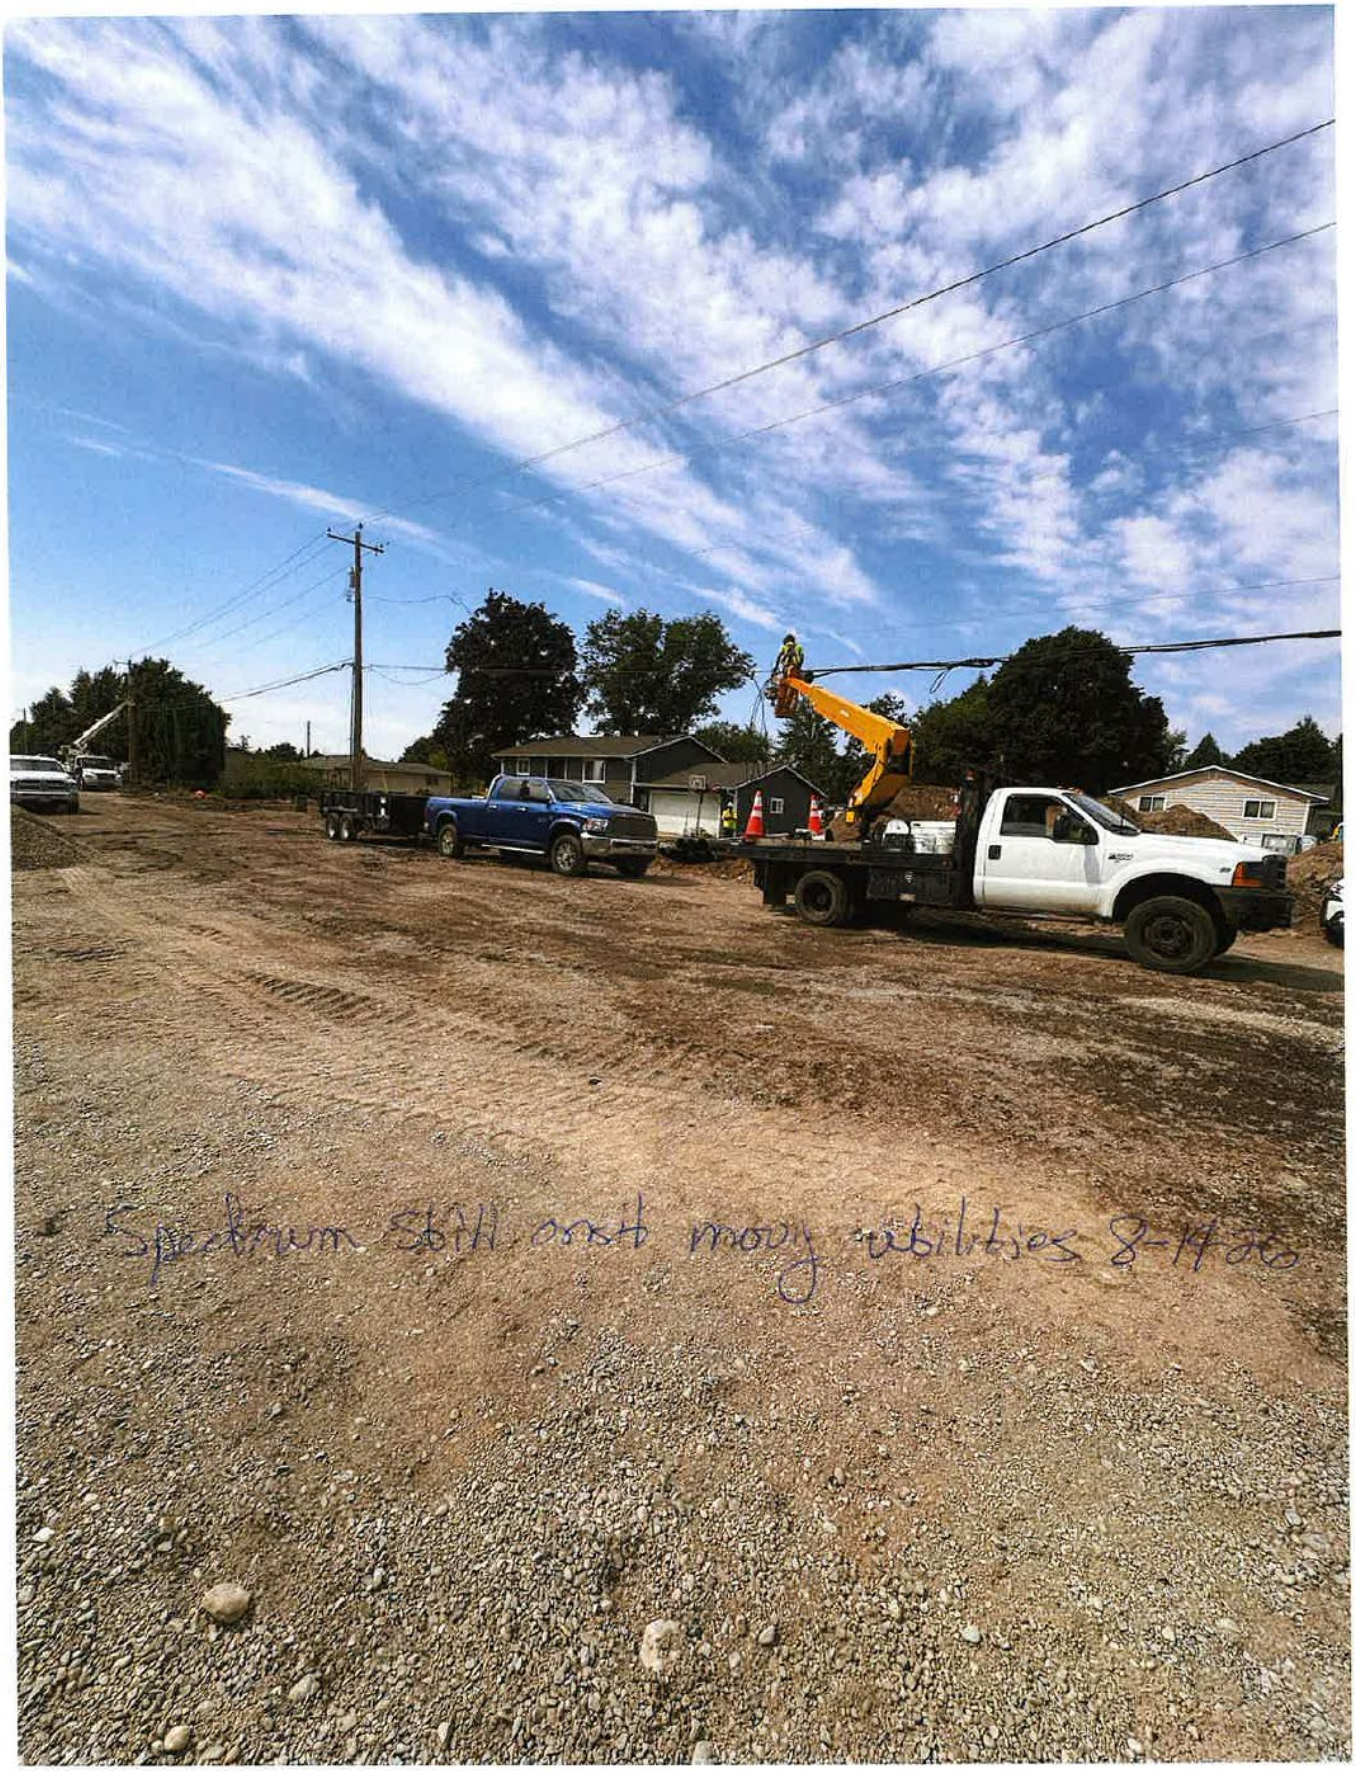

Let me know if you have any questions,

Re: 41014.14 Honeysuckle and Ramsey Roundabout – CCR-19 Drywell Utility Conflicts

Mr. Brown:
Lariviere, Inc. submitted CCR-19 requesting three (3) additional calendar days for utility conflicts encountered during drywell installation.

The drywell conflicts were previously addressed through field direction and correspondence. FO-8 eliminated the proposed drywells at Sta. 123+35 LT and Sta. 124+40 LT and retained the existing drywell at Sta. 124+00 LT.

The Engineer previously agreed to consider force-account compensation for documented utility investigation at these locations. Project records document less than two (2) hours of additional utility investigation at Sta. 123+35 LT only. This drywell was ultimately eliminated.

Although the contractual timeframe for submitting a Change Proposal for this work has passed, the request was reviewed on its merits in fairness to the Contractor because previously force account for this work was indicated. While the records do not substantiate the three (3) calendar days requested, and the Contractor is not seeking separate compensation for the associated labor and equipment, one (1) calendar day of Contract Time for this impact is recommended.

Accordingly, CCR-19 is partially approved for a one (1) calendar-day extension. The remaining two (2) calendar days requested are denied.

Sincerely,

Melissa Cleveland, P.E.
Senior Project Manager/Principal Engineer

CCR-19 Utility conflicts during drywell installation

Project 41014.14 | Honeysuckle Avenue and Ramsey Road Roundabout Improvements
Requested change in Contract Price: $0 | Requested change in Contract Time: 3 days

Dear Ms. Cleveland:

LaRiviere Inc. requests a no-cost Change Order adding three (3) days to the Contract Time for delays to the storm drywell installation caused by utility conflicts, simultaneous utility relocation, and restricted access at the designated installation locations. This request is made under Special Provision SP-01019, Section 1.5(C), which permits the Contractor to propose a change with its effect on Contract Price and Contract Time. Please review the attached records and issue a Change Order reflecting the three additional days.

Basis for the request

The drainage and landscape plan sheets identify proposed drywell locations but do not depict the power, fiber, gas, and other utility conflicts encountered at several of those excavations. LaRiviere identified the locations and requested direction and force-account tracking in its July 13, 2026 correspondence. The attached station list records conflicts or required field fitting at Sta. 123+35 LT, 124+40 LT, 126+70 RT, 127+70, 128+80 LT, 128+30, 130+45 LT, 31+45 LT, 37+50 LT, 38+80 LT, and 40+40 RT. Some entries were identified as potential conflicts pending exposure; the request relies on actual restrictions and impacts experienced during installation, rather than treating every listed location as a completed delay.

Utility purveyors were relocating existing facilities while LaRiviere was on site and preparing to install drywells. Their crews and equipment occupied designated work areas, restricted staging and safe excavation, and added facilities near proposed structures. Exposing and protecting the utilities and field fitting the drywells interrupted the planned installation sequence. This work also affected the downstream drainage swales, grading, curb and pavement preparation associated with completion of the storm drainage work.

At approximately Sta. 128+80 LT on the north side of East Honeysuckle, a 42-inch tree omitted from the original removal depiction prevented safe access to the proposed structure until the additional removal was approved and Grace Tree Service removed it on August 13, 2026, after verbal Change Order approval and subcontractor availability. Change Order 2 separately compensates the additional tree removal and grants one day. The three days requested here address the remaining drywell utility and access impact and do not seek a second day for the delay already granted under Change Order 2.

Time and price

LaRiviere requests three additional contract days for the net impact to the drywell work and its successor activities, exclusive of the one day approved in Change Order 2 and days requested for other utility purveyors in CCR-12 through CCR-18. LaRiviere has incurred financial impacts from these restrictions but offers to absorb the delay-related costs associated with this request in exchange for the three-day extension. The proposed adjustment to Contract Price is $0. The request does not alter compensation already agreed in Change Order 2 for the tree or other separately directed work.

Please confirm the adjusted substantial completion and final payment dates in the resulting Change Order after reconciling all approved time adjustments. LaRiviere will provide the Engineer any additional daily reports or schedule detail needed to verify the three net days.

Sincerely,

Sam Brown

INCORPORATED

Date 7/13/26

Honeysuckle and Ramsey Road Roundabout.

Dry well conflicts with underground utilities.

Request force account to be tracked while installing and field fitting structures in these locations.

- Sheet 21 of 44, Sta. 123+35 LT, Power, fiber, in this location not shown on the drawings.
- Sta. 124+40 LT, Owner requested new location due to adjacent utilities, request survey of proposed new location. Track force account due to power and fiber in that location. Some what addressed in FO #4 for location. Need survey and Force account.
- Sta. 125+20 RT. Is installed per plan.
- Sta. 126+70 RT, Request force account tracked, Gas, Fiber, Power in this location not shown on the drawings. Need survey, Avista Gas wiped out
- Sheet 22 of 44, Sta. 127+70, Need survey, Avista Gas wiped out. Possible force account due to conflict. TBD.
- Sta. 128+80 LT, need survey, Avista Gas wiped out. Possible force account due to conflict. TBD.
- Sta. 128+30. Installed structure at requested relocation due to guide wire and other utility conflicts, In excavation for structure encountered Sewer Force main, Added 2.5 additional hours to the completion of the structure. Requesting 2.5 hours of Force account time for this structure.
- Sta. 130+45 LT. This structure is installed per plan. Encountered 2" gas main that was supposed to be abandon. 2 hours of delay for 3 people working around and stopping for the gas line repair and removal.
- Sheet 23 of 44, Sta. 31+45 LT. This dry well location has power Fiber conflicts, Request force account to be tracked exposing these lines and field fitting the structure.
- Sta. 31+80 RT. This location appears to be ok for utility conflicts and installation. TBD.

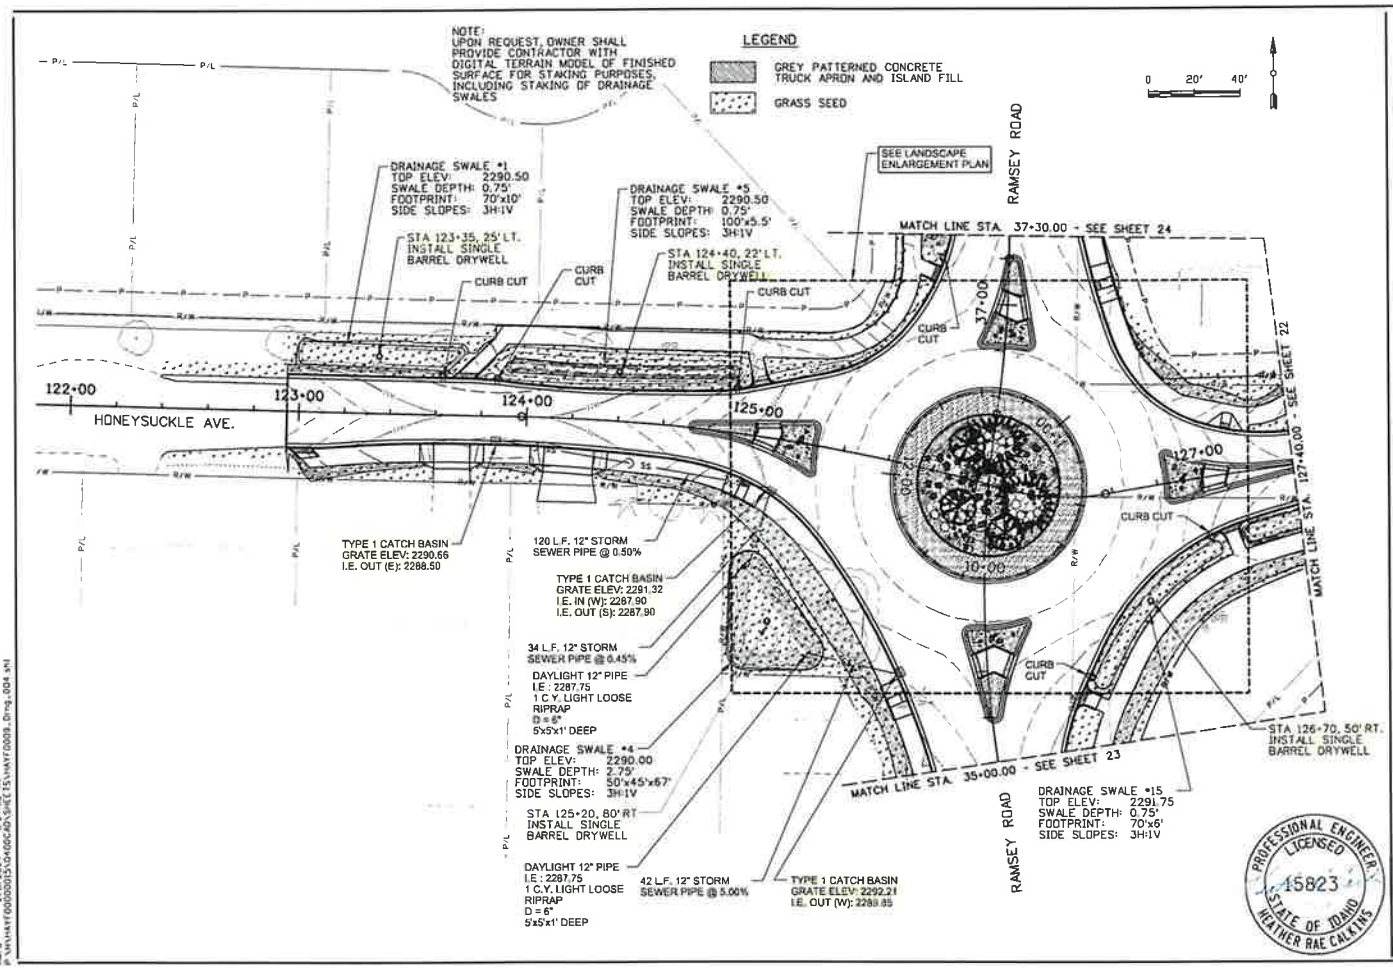

- Sheet 24 of 44, Sta 37+50 LT, Tree, Fiber, Power conflicts with current location not shown on the plans. Field fit will be required. Request force account to be tracked while doing so.
- Sta 38+80 LT. Tree, Fiber, Power conflicts with current location not shown on the plans. Field fit will be required. Request force account to be tracked while doing so.
- Sta. 40+40 RT. Fiber and Power in this area. Conflict to be determined, Force account work for locating and field fitting may be needed.

These locations were walked and discussed in our last onsite construction meeting, These concerns were pointed out and discussed. Requested force account for these locations to be tracked and compensated due to the conflicts not shown on the drawing for the drainage system. No agreement or direction has been given at tis point. Please advise.

We anticipate some issues as well with the grading and shaping of the drainage swales with utilities. Either location or coverage during the excavation and shaping of the swales for m what we are seeing on the ground. More to follow.

Please advise as to when we can start the tracking of Force account for the listed items.

Thank you.

Notes

AAA sweeping came on site to camera manholes two better locate sewer services for extension. They were only able to camera two services south on Ramsey. It appears both of those services go and do one property not one for each property when he tried to camera north there was blockage in the line and he was unable to camera any further.
There is some discrepancy on a drywall on honeysuckle on the north side of the road located between the waterline and 18 inch sewer force main waiting on an RFI to confirm the outcome.
Steven with JUB confirmed we don't need thrust blocks under the 45 for the sewer force main changeover instead add Eco blocks behind the caps for temporary thrusting. Also, no author threat is needed to hold the mega lugs together.
We poked into the 15 inch tour force main that had recently been drained to confirm it was not under pressure.

Drywell conflict East Honeysuckle Road North Side - with water line + 18" Sewer Line - unable to install - RFI Required!

Utility conflicts w/ Drywell North west corner of Ramsey Road + Honeysuckle / unknown conflicts w/ Structure at time of Bid

Mellisa.
I dug into this more with the field. Tommy was onsite. I stand corrected. 4.5-hour total to complete the drywell. That would be 2.5-hour additional labor and equipment time due to the utility conflict.
I also noted this on the request I sent over.
Thank you.

Sam,
Our records from the field indicate that installing the drywell at sta 128+42 took 2.25 hours with a 2-man crew and a 330 excavator. Where are the additional 4 hours? I'm trying to work with you, but what you're giving me isn't adding up.

Sam,
You installed the drywell by the guy wire today, correct? Do you have an estimation of how much longer it took than it should have to install that drywell?

I'm trying to gauge what cost implications you're thinking.

This field order is unacceptable. At this time. This captures only a small amount of the actual conflicts in the field that was discussed at our meeting and during the walk-through I will identify the other structures and conflict and respond. Accordingly will also need a work change directive to be issued for the force account work necessary in locating and working around utilities, not shown in the drawings. And field fitting the drywall's as discussed in our walk-through on Tuesday.
Regards.
Sam.

FIELD ORDER NUMBER: 04

PROJECT: Honeysuckle Ave & Ramsey RD RAB Improvements PROJECT NUMBER: 41014.14

DATE ISSUED: 7/9/2026 TIME ISSUED: 4:30 pm

ISSUED BY: Ryland Hoit (Name & Title) BY: Ryland Hoit (Signature)

TO: LaRiviere, Inc. (Contractor) RECEIVED BY: Sam Brown (Signature) DATE: 9/17/26

Contractor shall incorporate the following instructions or clarifications in the details of the Work with no changes in Contract price or time.

If Contractor believes that this Field Order entitles them to a change in Contract price or time or both, Contractor must request a Change Order in writing, and a Work Change Directive or Change Order must be authorized by the Owner prior to execution of any Work for which the Contractor claims a change in Contract price or time or both, as required in the General Conditions.

SPECIFICATION SECTION:

DRAWING # & DETAIL: Roundabout Plan Sheets 21 and 22 of 44

DESCRIPTION:

An on-site walk-through with the contractor, owner, and engineer was held to determine if drywell locations should be shifted due to conflicts with utilities. Through this discussion, drywells at stations 124+40 and 128+30 were modified as shown in the attached plan sheets.

D. Professional Services Agreement with Nor-IdaTech Inc for Cloud-Based Email Gateway Services

Memo

To: Mayor and Hayden City Council

From: Michael Drobnock, IT/IS Systems Administrator

Date: 10/13/2026

Agenda Item: Professional Services Agreement with Nor-IdaTech Inc for cloud-based email gateway services

---

Agenda Item Location
Consent

Recommended Action or Motion
Staff recommends approval and authorization of the Mayor to sign the Professional Services Agreement with Nor-IdaTech Inc in the amount of $2184.00, not to exceed without prior authorization.

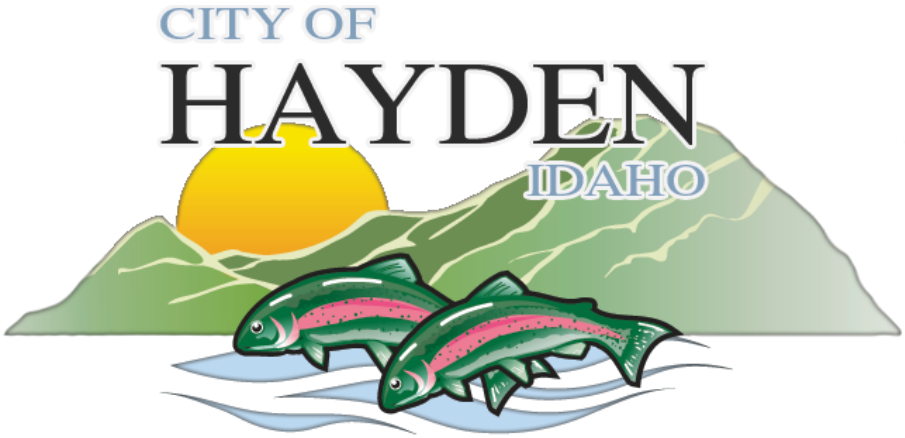

Functional Impact of Authorizing
Currently the City of Hayden utilizes a third-party email filter to examine all email messages on ingress before being passed into our cloud email platform. There have been incidents of email not being passed to the next system resulting in lost messages which is unacceptable for important City communications. We have used this proposed vendor for email archiving for the last fourteen years plus, so it is a natural complementary fit to use them for the City's email inspection gateway as well. Nor-IdaTech is a VAR we have used extensively in the past.

Functional Impact of Not Authorizing
Email may continue getting lost with our current provider – it has occurred two times in the last month with emails being misdirected or lost. This is the first time of this occurring, but a concerning trend none-the-less. The current email gateway is paid up until October 2026. A new agreement is needed to add the email gateway in addition to our current email archiving service already under contract.

Fiscal Impact
No additional fiscal impact as this expense is currently budgeted in the fiscal year 2027 Information Systems Budget - Hardware and Software Maintenance account in the amount of $2184.00 for a 12 month subscription period.

Budget Funding Source / Transfer Request

Attachment
City of Hayden Professional Services Agreement, with Nor-IdaTech Inc Quote as Exhibit A.

PROFESSIONAL SERVICES AGREEMENT

AGREEMENT made between The City of Hayden Governmental Entity, a political subdivision of the state of Idaho, herein "ENTITY" and, ___Nor-IdaTech INC___, herein "CONSULTANT".

The parties agree as follows:

1. SCOPE OF WORK: ENTITY engages CONSULTANT to procure the SAAS software subscription on behalf of the ENTITY as described in Exhibit A, Quote # 828_26 , Item 2, CoH Barracuda EPCAS w/ Email Prot Adv 12 Mo. Barracuda SAAS (Software As A Subscription) for Email Protection, Advanced Plan, for 50 users for a 12 month period.

2. PAYMENT: ENTITY agrees to pay CONSULTANT for the subscription services rendered under this Agreement at the rates agreed upon in Exhibit A, Quote # 828_26 , Item 2, CoH Barracuda EPCAS w/ Email Prot Adv 12 Mo., in the amount of $2184.00 stated in the Agreement by CONSULTANT. The parties agree that CONSULTANT will invoice ENTITY for payment under this Agreement for services rendered herein.

3. RIGHT OF CONTROL: CONSULTANT has no obligation to work any particular hours or days or any particular number of hours or days. CONSULTANT agrees, however, that his other contracts or services shall not interfere with the performance of his services under this Agreement.

4. INDEPENDENT CONSULTANT RELATIONSHIP: CONSULTANT is an independent CONSULTANT and is not an employee, servant, agent, partner, or joint venturer of ENTITY. ENTITY shall determine the work to be done by CONSULTANT, but CONSULTANT shall determine the legal means by which it accomplishes the work specified by ENTITY.

5. FEDERAL, STATE, AND LOCAL PAYROLL TAXES: Neither federal, state or local income taxes, nor payroll taxes of any kind shall be withheld and paid by ENTITY on behalf of CONSULTANT or the employees of CONSULTANT. CONSULTANT shall not be treated as an employee with respect to the services performed hereunder for federal or state tax purposes. CONSULTANT understands that CONSULTANT is responsible to pay, according to law, CONSULTANT's income tax. CONSULTANT further understands that CONSULTANT may be liable for self-employment (Social Security) tax to be paid by CONSULTANT according to law.

6. LICENSES AND LAW: CONSULTANT represents that he possess the skill and experience necessary and all licenses required to perform the services under this agreement. CONSULTANT further agrees to comply with all applicable laws in the performance of the services hereunder.

7. FRINGE BENEFITS: Because CONSULTANT is engaged in its own independently established business, CONSULTANT is not eligible for, and shall not participate in, any employee pension, health, or other fringe benefit plans of ENTITY.

8. WORKER'S COMPENSATION: CONSULTANT shall maintain in full force and effect worker's compensation for CONSULTANT and any agents, employees, and staff that the CONSULTANT may employ, and provide proof to ENTITY of such coverage or shall provide proof that such worker's compensation insurance is not required under the circumstances.

9. EQUIPMENT, TOOLS, MATERIALS OR SUPPLIES: CONSULTANT shall supply, at CONSULTANT's sole expense, all equipment, tools, materials and/or supplies to accomplish the services to be provided herein.

10. EFFECTIVE DATE: This contract will run from the date at which it is signed by both parties until such time as the services are deemed no longer needed by the Mayor and Council or contract fulfillment is reached.

11. WARRANTY: CONSULTANT warrants that all materials and goods supplied under this Agreement shall be of good merchantable quality and that all services will be performed in a good workmanlike manner. CONSULTANT acknowledges that it will be liable for any breach of this warranty.

12. INDEMNIFICATION: CONSULTANT agrees to indemnify, defend, and hold harmless ENTITY, and its officers, agents and employees, from and against any and all claims, losses, actions, or judgments for damages or injury to persons or property arising out of or in connection with the act and/or any performances or activities of CONSULTANT, CONSULTANT's agents, employees, or representatives under this Agreement.

13. WAIVER OF CLAIMS: CONSULTANT, by signature of this document does hereby waive any rights to any and all claims, losses, actions, and judgments for damages or injury to persons or property arising out of or in connection with the acts up to $1,000,000 against the ENTITY.

14. NONWAIVER: Failure of either party to exercise any of the rights under this Agreement, or breach thereof, shall not be deemed to be a waiver of such right or a waiver of any subsequent breach.

15. CHOICE OF LAW: Any dispute under this Agreement, or related to this Agreement, shall be decided in accordance with the laws of the state of Idaho.

16. ENTIRE AGREEMENT: This is the entire Agreement of the parties and can only be modified or amended in writing by the parties.

17. SEVERABILITY: If any part of this Agreement is held unenforceable, the remaining portions of the Agreement will nevertheless remain in full force and effect.

18. CERTIFICATION CONCERNING BOYCOTT OF ISRAEL: Pursuant to Idaho Code section 67-2346, if payments under the Contract exceed one hundred thousand dollars ($100,000) and CONSULTANT employs ten (10) or more persons, CONSULTANT certifies that it is not currently engaged in, and will not for the duration of the Contract engage in, a boycott of goods or services from Israel or territories under its control. The terms in this section defined in Idaho Code section 67-2346 shall have the meaning defined therein.

19. ATTORNEY FEES: Reasonable attorney fees shall be awarded to the prevailing party in any action to enforce this Agreement or to declare forfeiture or termination of this Agreement.

20. CERTIFICATION THAT COMPANY IS NOT CURRENTLY OWNED OR OPERATED BY THE GOVERNMENT OF CHINA: Pursuant to Idaho Code section 67-2359, CONSULTANT certifies that the company is not currently owned or operated by the government of China and will not for the duration of the contract be owned or operated by the government of China. The terms defined in Idaho Code section 67-2359 shall be the meaning defined therein.

E. Approval of Amendment No. 2 to the Contract with Welch Comer & Associates for the Hayden Avenue and Atlas Road Roundabout Project

Assistance for persons with disabilities will be provided, upon provision of verbal or written notice to city staff 24 hours in advance of the meeting. The phone number for City Hall is (208) 772-4411.

Memo

To: Mayor and Hayden City Council

From: Alan Soderling, Public Works Director

Date: 10.14.2026

Agenda Item: **Authorize Amendment No. 2 to the Contract with Welch Comer & Associates for the Hayden Avenue and Atlas Road Roundabout Project to incorporate gravity sewer design, modified lane design, private utility coordination, contract and bid document development, and revised legal descriptions.**

Agenda Item Location
Consent Calendar

Recommended Action or Motion
Authorize Amendment No. 2 to the Contract with Welch Comer & Associates for the Hayden Avenue and Atlas Road Roundabout Project to incorporate gravity sewer design, modified lane design, utility coordination, contract and bid document development, and revised legal descriptions.

Summary
The City of Hayden is contracted with Welch Comer & Associates for the design of the Hayden Avenue and Atlas Road Roundabout, and this amendment incorporates design of gravity sewer to the project extents in preparation for future development. Additionally, this amendment provides contract scope adjustments for lane design modifications to remove the "slip lane" from the southwest corner of the roundabout, incorporates utility coordination, and preparation of contract and bid documents. The intent is to advertise the project for construction in Winter/Early Spring 2027.

Fiscal Impact
This project is budgeted in the capital projects fund and sewer portions are funded in the sewer fund.

Welch Comer & Associates Contract Amendment No. 2 for Hayden/Atlas Roundabout Project

AUTHORIZATION FOR ADDITIONAL SERVICES
AMENDMENT NO. 2

Additional Services. The following additional items of work on the Hayden & Atlas Roundabout design "the project" will be provided by Welch Comer and their subconsultants. These additional services are a supplement to the scope of services contained in the existing agreement for Professional Services for the project dated February 23, 2021. All other terms and conditions of said agreement remain in full effect unless specifically modified in this additional services agreement.

Additional Scope of Work. The CITY engages ENGINEER to perform the work of modification of the design to eliminate the eastbound right slip lane, add gravity sewer to the plans, other necessary updates to the roundabout plans, utility coordination, prepare contract documents, revise legal descriptions, and develop a bid package City approval with the intent that the project could go to bid late winter/early spring 2027 as detailed in **Exhibit A**.

Deliverables. As noted in **Exhibit A**.

Additional Payment. The CITY agrees to pay ENGINEER for its services rendered under this Agreement either on a time and materials (hourly) basis or a lump sum basis for said services rendered as described in **Exhibit A.** The parties agree that ENGINEER will invoice the CITY for payment under this Agreement for services rendered herein.

Schedule. Extend the contract time through April 30, 2027.

Dated this _____ day of October 2026.

EXHIBIT A

Scope of Work and Fees

Hayden & Atlas Roundabout – Amendment No. 2

The City of Hayden (OWNER) has selected Welch Comer & Associates, Inc. (ENGINEER) to modify the design of the roundabout at the intersection of Hayden Avenue and Atlas Road to add sewer. Modifications include removing the slip lane on the southwest corner, adding gravity sewer, updates based on current MUTCD, and miscellaneous updates to irrigation and fire hydrant. Additionally, this scope of work includes preparing contract documents and a bid package, updating the engineers estimate of probable cost, and conducting utility coordination to relocate utilities prior to construction. The intent is to advertise the project for bids in winter/early spring 2027.

Below are the professional design phase services to be provided:

I. Services of Engineer:

A. General Project Management: This task involves management tasks such as budget control, schedule management, invoicing, file setup & management, and internal team coordination.

B. Check-in meetings: Meet virtually with the City bi-weekly until the design phase is complete. These are expected to be virtual meetings lasting no more than thirty minutes each.

C. Survey Services:

a) Obtain location and invert data for the two (2) sewer manholes west along Hayden Avenue at the East end of the Carrington Meadows subdivision:

(1) Traffic control will be utilized during this work.

b) Obtain sufficient roadway elevations from the two (2) manholes east to the limits of the H-7 sewer shed per figure A2 of the City collection system master plan update.

(1) We will utilize previously completed topographic work in areas surveyed as part of the Hayden and Atlas project.

c) Provide staking, as needed, for utility relocation prior to construction.

D. Repackage plan set including:

a) Eliminate the eastbound slip lane on the southwest corner of the intersection. Assume that the landscape plans will not be updated to reflect this change.

b) Revise stormwater calculations and infiltration swales on southwest corner of the intersection.

c) Review MUTCD 11th edition and modify plans, as necessary. Known edits include adding delineators and signing. Review and potentially remove the RRFB.

d) The HLID water details need to be updated. The irrigation meter detail will be updated the above ground style and moved outside the sidewalk. Verify the remaining items on HLID (foam over waterline, etc) still meet HLID requirements. Shift the hydrant per coordination with HLID.

e) Gravity sewer east-west extending beyond the limits of the roundabout. This will be designed to be able to tie into the last manhole to the west by Carrington Meadows but will not extend beyond the roundabout construction limits. The design will also

confirm that this line is deep enough to serve east to the edge of this sewer basin, but the plan sheets and sewer install will end at the east limits of the plans.

f) The sewer will also be extended south roughly 270 feet to be able to serve the property at 9551 N. Atlas Road. A capped sewer stub will be provided to the new right of way.

g) A Preliminary Engineering Report (PER) is not needed. These dry lines will be submitted to DEQ for review and approval unless the City QLPE's the plans and specs. Just a note that DEQ requires 45 days for review.

E. Specifications and Bid Package:

a) The project is planned to be bid in winter/early spring 2027. The contract documents will be prepared using ISPWC and applicable City of Hayden amendments, as necessary.

b) The quantities and engineers estimate of probable cost will be updated.

c) The final deliverable will be a complete bid package ready for advertisement.

F. Utility Coordination:

a) Private utilities will be coordinated so they can relocate during fall/winter 2026/2027 with the expectation that the majority of the relocation is complete prior to construction commencing in spring 2027. This estimate assumes 30 hours of utility coordination.

b) The hourly item also includes staking ahead of the construction phase to assist private utilities in their relocation.

G. Update Right of Way Documents:

a) The updates to the southwest corner are likely to impact one (1) and potentially may impact two (2) of the right-of-way exhibit and legal descriptions for the project. These documents will be updated, as needed.

II. Payments to Engineer for Services:

A. City shall pay ENGINEER for the services identified herein the following Lump Sum or Time and Materials (hourly) amounts for each phase:

Phase	**Lump Sum**	**Hourly**
Project Coordination and Management	$3,900	
Repackage Plan Set & Bid Docs	$42,000	
Update SW Corner Right of Way Exhibits and Legal Descriptions		$2,000
Utility Relocation Coordination & Staking		$9,400
Sub-Total	**$45,900**	**$11,400**
Total	**$57,300**	

Agreement Summary:

Original agreement amount:	$172,000.00
Net change for prior amendments:	$ 31,900.00
This amendment amount:	$ 57,300.00
Adjusted Agreement amount:	**$261,200.00**

B. For Lump Sum Tasks:

a) The Lump Sum includes appropriate amounts to account for labor, overhead, profit, and Reimbursable Expenses. Subconsultant are INCLUDED in the above.

b) The portion of the Lump Sum amount billed for ENGINEER's services will be based upon ENGINEER's estimate of the proportion of the total services actually completed during the billing period to the Lump Sum.

c) Engineer may alter the distribution of compensation between individual phases noted herein to be consistent with services actually rendered, but shall not exceed the total hourly amount unless approved in writing by the Owner.

C. For Hourly (Time and Materials) Tasks:

a) An amount equal to the cumulative hours charged to the Project by Engineer's employees times standard hourly rates for each applicable billing class, plus reimbursement of expenses incurred in connection with providing the Services.

b) Engineer's Standard Hourly Rates are attached as Appendix 1.

c) Engineer's Reimbursable Rate Schedule is attached as Appendix 2.

d) Engineer may alter the distribution of compensation between individual phases noted herein to be consistent with services actually rendered, but shall not exceed the total hourly amount unless approved in writing by the Owner.

III. Schedule

A. We anticipate the contract to be signed at the October 13, 2026 City Council meeting

a) Roundabout plan modifications and bid package will be complete by January 31, 2026.

b) Survey for sewer will be complete by November 15, 2026.

c) Sewer design will be complete and ready for DEQ submittal by December 15, 2026.

d) There is a 45-day shot clock for DEQ's review of plans and specs. The plan set is simple enough that we should have their approval February 15, 2027, and could advertise for bids at that time. In our experience DEQ takes all of the allotted time to review the plans and specs.

IV. Additional Services

A. Bid and construction phase services will be scoped once the project is approved for bidding by the City.

This is **Appendix 1 to EXHIBIT C**, dated October 2026.

Standard Hourly Rates Schedule

A. Standard Hourly Rates:

Standard Hourly Rates are set forth in this Appendix 1 to this Exhibit C and include salaries and wages paid to personnel in each billing class plus the cost of customary and statutory benefits, general and administrative overhead, non-project operating costs, and operating margin or profit. The Standard Hourly Rates Schedule will be adjusted annually to reflect equitable changes in the compensation payable to Engineer per Exhibit C.

The Standard Hourly Rates apply only as specified in Article C2.

B. Schedule:

Hourly rates for services performed on or after the date of the Agreement are:

Special Services	$275.00/hour
Special Services – Accounting	190.00/hour
Expert Witness	300.00/hour
Public Involvement Specialist	125.00/hour

F. Approval of Iteris Revised Proportionate Share Analysis Scope of Work and Fee

Assistance for persons with disabilities will be provided, upon provision of verbal or written notice to city staff 24 hours in advance of the meeting. The phone number for City Hall is (208) 772-4411.

Memo

To: Mayor and Hayden City Council

From: Dulci Kau, PE, City Engineer

Date: 10/13/2026

Agenda Item: Approval of Iteris's Proportionate Share Analysis Scope of Work and Fee

---

Agenda Item Location
Consent

Background and Recommended Action or Motion
The City has a master agreement with Iteris to perform work as needed. This scope of work will analyze the proportionate share of the impact on the transportation system from four proposed developments between Hayden Avenue and Prairie Avenue, and Huetter Road and Atlas Road. A proportionate share analysis is required by state statute.

Staff recommends City Council approve, and permit the Mayor to sign, the scope of work and fee not to exceed $9,520 from Iteris to perform the proportionate share analysis.

Functional Impact of Authorizing
Approval will allow the City to complete the required proportionate share analysis.

Fiscal Impact
This authorizes $9,520 to be spent out of the General Fund (110). This cost was not anticipated; however, the remaining balance is sufficient to cover this expense.

Re: Revised Proposal to Complete a Proportionate Share Analysis of Four (4) Concurrent Traffic Impact Studies Surrounding the Hayden Corridor

11477-275.26

Dear Ms. Kau:

Iteris, Inc. (Iteris) is pleased to submit this proposed scope of work and fee to complete a proportionate share analysis document including three (3) identified developments along the Hayden Corridor.

Iteris proposes Ms. Jennifer Emerson-Martin, PE, as Project Manager for this project. She will be the principal contact for the City of Hayden and other entities per the City's direction for this task order. Ms. Emerson-Martin will oversee work from project inception to completion and will also be responsible for coordinating staff activities and meetings.

Thank you for the opportunity to work with the City of Hayden. Please feel free to contact me at **(509) 309-8581** should you have any questions or require additional information.

Sincerely,

Iteris, Inc.

Jennifer Emerson-Martin, P.E.
Associate Vice President
Mobility Professional Solutions

1 BACKGROUND

There have been three recent traffic impact analysis studies which result in significant impacts on intersections within the City of Hayden. The three studies include:

- **Battleground Subdivision:** located along the west side of Carrington Street, between Hayden Avenue and Honeysuckle Avenue. Including single-family and multi-family developments only.
- **Northwinds Subdivision**: located along the east side of Huetter Road, between Hayden Avenue and Prairie Avenue. Including single-family development only.
- **Hayden Sky Development:** located on the north side of Hayden Avenue between Huetter Road and Carrington Street. Development includes single-family homes and light industrial lots.

** As a note, a fourth study was also completed, but is omitted from this proposed analysis:*

- ***Hazelnut Glen Subdivision:*** *located along the north side of Prairie Avenue, west of Carrington Lane. Including single-family development only.*

Intersections with significant impacts are summarized in the table below:

Intersection Mitigation	Battleground Subdivision	Northwinds Subdivision	Hayden Sky Development
Hayden & Huetter	Y	Y	Y
Prairie & Huetter	Y	Y	N
Prairie & Carrington	Y	N	N
Prairie & Ramsey	Y	N	N
Prairie & Atlas	Y	Y	N
Honeysuckle & Atlas	Y	N	N
Hayden & Carrington	Y	Y	Y

The purpose of this scope of work is to use data from the final completed studies, along with the background growth from the previous City of Hayden travel demand model (as developed for the 2040 TSP) to calculate background traffic and the related proportionate share.

** As a note, there is a newer City of Hayden travel demand model, however, the prior version of the model which was developed for the 2040 TSP was the model used during the analysis for the three (3) studies included in this analysis.*

2 SCOPE OF WORK

Iteris has developed the following scope of work for the proposed combined Hayden Corridor proportionate share analysis.

TASK 1. PROJECT MANAGEMENT

This task would consist of project administrative functions, which generally include all administrative tasks required to initiate the project contract: establish the project accounting protocols, establish invoicing procedures, and perform regular financial tracking, reporting, and invoicing. Other administrative functions include monitoring staff effort on project tasks, directing staff effort on specific tasks, and project communications (e.g., emails, phone calls).

TASK 2. PROPORTIONATE SHARE ANALYSIS

Iteris will compile trip information from the fully completed TIA's, along with cumulative growth trip information from the City of Hayden travel demand model to calculate proportionate share values for the four identified TIA's.

The proportionate share analysis will be completed for the years of 2018 and 2030, consistent with the updated City of Hayden travel demand model.

Additionally, the trips will be summarized based on three criteria:

- Project trips
- Trips starting and/or ending in Hayden
- Trips not starting and/or ending in Hayden

Deliverables

- Proportionate Share Summarized Information in Excel Format

TASK 3. DOCUMENTATION & MEETINGS

A draft technical memo documenting the proportionate share findings will be submitted to the City of Hayden for review and comment. A final version of the memorandum will be prepared incorporating revisions based on the comments received. This scope of work assumes Iteris will attend up to two meetings total with City staff.

Deliverables

- Draft & Final Proportionate Share Memorandum

3 SCHEDULE

Iteris will commence work within one (1) week of receipt of signed agreement and anticipates a schedule of four (4) weeks for completion of the draft peer review memorandum.

4 FEE PROPOSAL

Iteris' cost estimate for this project is **$9,520** as detailed in **Table 1**.

Table 1: Iteris' Cost Estimate

	TASK	Project Manager	Engineer	Administration	STAFF HOURS	COST
	Billing rates	$260	$190	$120		
1	Project Management	4		2	6	$1,280
2	Proportionate Share Analysis	12	12		24	$5,400
3	Documentation & Meetings	8	4		12	$2,840
	Total Iteris Labor Hours	24	16	2	42	-
					PROJECT TOTAL	$9,520

G. Approval of Madison Nelson to the Arts Commission as a Student Representative

Assistance for persons with disabilities will be provided, upon provision of verbal or written notice to city staff 24 hours in advance of the meeting. The phone number for City Hall is (208) 772-4411.

CITY OF HAYDEN IDAHO

Memorandum for Record

To: City Council

From: Mayor Alan Davis

CC: Shawn Langenderfer, Deputy City Clerk

Date: October 13, 2026

Re: **Nomination of Individual for Arts Commission Student Representative**

Purpose.
To nominate an individual from the community to serve as a Student Representative on the City of Hayden Arts Commission

General.
The following individual is selected to serve on the Arts Commission:

Ms. Madison Nelson Hayden, Idaho 83835

Term of Appointment.
October 13, 2026 – June 30, 2027

H. Ratification of September Payroll

CITY OF HAYDEN
COUNCIL PAYROLL REPORT
September 2026
October 13, 2026 Council Meeting

DESCRIPTION	PAYROLL	ADDITIONAL COSTS Paid by Employer

Memo

To: Mayor and Hayden City Council
From: Lisa Ailport, City Administrator

Date: October 5, 2026

Agenda Item: ALPR Policy Follow up

Agenda Item Location
Old Business

Background and Recommended Action or Motion
Staff provided a privileged and confidential memo by the City Attorney to council regarding the policy direction over the use of ALPR's within city limits. If the Council wishes to proceed, staff recommends the following sequence: (1) Council work session to select positions on the highest-stakes items — retention period, network participation, misdemeanor use, and the sunset mechanism; (2) concurrent discussion with the Kootenai County Sheriff's Office regarding operational feasibility and the services agreement; (3) confirmation of vendor configurability against the selected positions; and (4) adoption of the policy by resolution, together with any services agreement amendment.

Fiscal Impact
This action has no fiscal impact.

Memo

To: Mayor Davis and Members of the Council

From: Shannon Drappo, Planner

Date: October 6, 2026

Agenda Item: Subdivision request for Extension of Preliminary Plat Approval

---

Agenda Item Location
New Business

Recommended Action or Motion
Possible Motions of City Council:

- **Motion to Approve** – I move to approve the Mabrey Estates Subdivision Extension of Preliminary Plat approval request for one year to December 31, 2027, based upon testimony received at the City Council meeting and the record of the request.

- **Motion to Continue** – I move to continue this hearing to {date specific} to address concerns related to _____.

- **Motion to Deny** – I move to deny the Mabrey Estates Subdivision Extension of Preliminary Plat approval request, based upon testimony received at the City Council Public meeting and the record of the request for the following reasons: _____.

Summary

Hayden City Code Subdivisions Title 12-3-4 outlines the procedures to complete a subdivision. Upon approval of the subdivision preliminary plat, construction plans are reviewed and upon approval by the City and other agencies, construction may begin. Near completion of construction the final plat may be requested and/or approved and recorded.

Hayden City Code 12-3-4 (G) identifies the following for a single phased subdivision:

Approval Duration: Failure to file the final plat application within 2 years after the date of City Council approval of the Master Development Agreement that approved the preliminary plat shall cause all approvals of a subdivision plan to be null and void, unless an extension of one year has been **applied for by** the **developer and approved by the City Council,** except as provided for in subsection I (3) of this section. After the 2 years have elapsed, the developer may apply for and receive additional extensions for good cause of time if actual work has been commenced and is continuing on the installation of the improvements up to a maximum of 5 years, after which the preliminary plat approval shall be null and void and reapplication for a new preliminary plat application shall be required.

Mabrey Estates (J2022 - 0612 Minor Subdivision) – Memorandum of Understanding was recorded July 11, 2023. The request was received on August 25, 2026, for a one-year extension, which would be the second of three possible extensions.

Timeline of Project:

MOU Executed	**2023**	
Construction Plans	**2023-2024**	Discovery of existing water infrastructure
Utility Infrastructure Move	**2024-2025**	Worked with HLID to move existing water services to neighboring properties
Submitted Civil Construction Plans for Review for Subdivision	**Fall 2025**	Review by City, HLID, IDEQ, etc.
Anticipate project financing and construction	**2026**	Request Extension to December 31, 2026
Assembling construction financing, possibility of selling land/project	**2026-2027**	Request Extension to December 31, 2027

Re: Request for Extension to the Mabrey Estates Preliminary Plat

Dear Donna:

Please consider this letter as a formal request to extend the approval of the Mabrey Estates Preliminary Plat to December 31, 2027.

After the approval of the preliminary plat, the following work has been accomplished:

- 2023-2024: Developed and revised civil engineering plans
- 2024-2025: Worked with Hayden Lake Irrigation District on movement of utility infrastructure
- 2025: Drafted final civil engineering plans; submitted to the City of Hayden and various agencies for review
- 2025-2026: Received final approval of civil engineering plans
- In the past year, I have utilized the City approved civil engineer plans to obtain bids. With the bids I have received, I now have information on the full project costs. I am now assembling construction financing for this project and realizing that with seasonal changes coming soon, I will not be able to construct this project this year. I also am investigating selling this to someone with more experience in infrastructure construction and given that, want to ensure that the approval will continue into the next construction season.

Given these factors, I would like to get out ahead and am requesting an extension through December of 2027 to allow adequate time to construct infrastructure through the full 2027 construction season.

I respectfully request this extension. Please contact me at 208-755-5164 with any questions.

Thank you,

Jackie Mabrey,

Representing Jackie's Family Trust
