How is the Board working to ensure continuity and leadership? What supports are giving to teachers during this transitions? Are there any efforts to address the underlying issues for these departures? How can parents actively engage and communicate with the Board?

A. Policies for an Initial Reading

1. Play-Based Learning – 6142.104

Ms. Cullinan noted this new policy is to ensure compliance with a law passed in 2023 requiring schools to provide play-based learning for kindergarten and preschool students. It also permits a teacher to utilize play-based learning for

grades one to five. Beginning in the 2024-2025 school year, play-based learning must be incorporated into annual professional development programming for pre-K through grade five teachers.

Remote Work Policy Personnel - Certified/Non-Certified

For purposes of this policy, Remote Work (also known as Telecommuting or Telework) is defined as the performance of the essential functions of one's job description in a work location other than one's assigned school or office or approved District location through the use of internet, email, phone and/or other technologies. By using available technology, an employee is not required to physically commute from home or elsewhere to a District work location. The Board of Education (the "Board") recognizes that providing staff members the flexibility of working remotely may be necessary or desirable at times.

Working remotely does not change in any manner the terms and conditions of employment with the Board. Any change in the terms and conditions of employment shall be made a part of a written Memorandum of Understanding (MOU) between the Board and the applicable employee bargaining unit. MOUs will be developed with the assistance of legal counsel.

Remote Work is neither a universal employee entitlement nor a universal employee benefit. Remote Work is not appropriate for all employees and positions, nor all employees in the same or similar jobs, and shall be considered on a case-by-case basis by the Superintendent and/or his/her designees. Positions that provide direct support to students, families, and constituents or direct service to District facilities are **not** generally eligible for Remote Work. Remote Work may be considered in the following circumstances **at the discretion** of the Superintendent and/or his/her designees:

- As a reasonable accommodation under the Americans with Disabilities Act (ADA) for eligible positions;
- In response to circumstances or events outside the control of the District that interrupt the District's ability to conduct school or business on a regular basis, such as natural disasters;
- As an option for employees other than those identified as essential, who would otherwise report to work during emergency school closings;
- When the completion of special project work requiring minimal interruptions is necessary; and,
- When it is otherwise beneficial to the District to have particular staff members fulfill their professional responsibilities by working remotely.

Requests to work remotely will be considered on a case-by-case basis in accordance with relevant local, state, and federal laws and regulations; Board issued policies and regulations; the Bloomfield Municipal Code, and the educational needs of the District. All Remote Work must be approved in writing by the Superintendent and/or his/her designees, and may be discontinued by the Superintendent and/or his/her designees at any time and for any reason. The Superintendent and/or his/her designees at their discretion may make exceptions to the Remote Work policy in order to meet the needs of the District and its employees – all exceptions must be documented in writing.

The following policy outlines expectations and provides guidance should staff be permitted to engage in Remote Work.

Availability

Employees working from a remote location shall be available to fulfill their professional responsibilities for a period of time not to exceed the length of the regular school day or work-day, per contract. No employee shall be required to work more than the contracted number of days provided in the party's employment contract/bargaining unit agreement. The total number of contractual days will vary depending on the employee's contract/bargaining unit agreement.

Responsiveness

It is the Board's expectation that Remote Work take place during the identified work-day, as outlined above. During this time, Remote employees are required to check their school email and voicemail regularly and shall be available to co-workers, students, families and the community during their regularly scheduled workday. It is expected that staff working during this time respond in a timely manner to requests for information and be productive employees. Lack of responsiveness on the part of the employee may result in termination of Remote Work opportunities.

Equipment Required

Staff approved for Remote Work must use the District provided laptops for their Remote Work. In this way, the District security protocols, including VPN technology, will be made available to employees working remotely. Beyond the provided laptop computer and necessary software for access to District resources, the District is **not** obligated to provide any additional or supplementary technology to staff approved for Remote Work (for example, second monitors or cell phones). It is the responsibility of staff approved for Remote Work to ensure internet access from their remote location that is secure and fast enough to complete assigned duties.

Staff unable or unwilling to ensure adequate internet access from their remote location or staff requiring additional technology to productively engage in Remote Work have the option of working from a District location. Using the Internet from public WiFi is prohibited for remote work because of the potential to compromise critical and sensitive student information or financial information. District technology support will continue to be available as needed but it will only be provided at District locations.

Guidelines for Remote Work

District employees who are approved by the Superintendent and/or his/her designees for a Remote Work arrangement will adhere to the following guidelines under the direction of their Supervisor/Evaluator.

Work Environment – District employees who are approved for a Remote Work arrangement will ensure they have a Remote Work environment with all of the following:

- A. Furnishings (for example a private workspace, desk, chair) that enable the employee to accomplish their assigned duties;
- B. Privacy allowing unobstructed and uninterrupted work;
- C. Security over work-related technology, materials, and correspondence;
- D. Separation from ongoing domestic activities with children, family, or pets;
- E. Control over noise and interruptions; and,
- F. Adequate internet and telephone service as necessary for completing work tasks at the employee's expense.

Work Activity – District employees who are approved for Remote Work will:

- A. Adhere to the number of days and/or hours approved for Remote Work;
- B. Maintain the manner and frequency of communication with their Supervisor and/or his/her designees as expressly directed;
- C. Be accessible by telephone or electronically within a reasonable time period during the agreed upon work schedule;
- D. Not hold in-person interactions with business contacts in the employee's residential location; and,
- E. Enable video when joining virtual meetings, unless there are technical difficulties, and use a background screen approved by their Supervisor.

Time at a Remote Work location spent on activities other than work shall not be submitted as work time by the employee. Such a circumstance would constitute falsification of time records to receive pay for time not worked and shall be grounds for termination from employment.

Employees eligible for Remote Work are strictly confined to telecommuting within the United States of America and with work hours in alignment with EST/EDT.

Additional requirements

1. Remote Work may not be used in lieu of taking sick leave.
2. Staff shall not be approved for Remote Work if they are the primary caregiver for another person at the remote location during their assigned work day.
3. Employees approved for Remote Work must comply with the same policies, laws, contracts and work schedules as their non-remote counterparts.
4. An employee's performance during Remote Work will be evaluated and monitored in the same manner as all employees at their assigned school or office, and Remote employees must meet all of the same evaluation performance standards as their non-remote counterparts.
5. Work-related injuries that occur in the alternate work location must be reported to the Supervisor and require adherence to the worker's compensation guidelines.
6. Employees are responsible for maintaining and protecting equipment on loan from the District. Equipment on loan shall be used for work-related purposes only and use is

governed by the Board policies and regulations on Computer Use, specifically No. 4118.5 and No. 4118.5(a). Remote Employees are responsible for the cost of replacing laptops or other technologies loaned to them that are lost or stolen. Remote Employees are also responsible for the cost of replacing or repairing loaned technologies that are damaged outside of a Remote employee's standard work activities. For example, a Remote Employee will be responsible for the cost of repairing a laptop on which they spilled liquid; however, a Remote Employee would likely not bear responsibility for repairing a laptop that stops working while the Remote Employee is using the laptop for an acceptable use, as defined by the Board's policies.

7. Employees are responsible for protecting all data and ensuring compliance with all regulations regarding confidentiality of materials.

Administrative Regulations

4113.6 Remote Work Policy

Purpose

The purpose of this administrative regulation is to provide detailed guidelines and procedures for the implementation and management of the Board of Education's Remote Work Policy. These regulations aim to ensure smooth operations, productivity, and accountability while employees work remotely.

Eligibility and Approval Process

2.1 Eligibility: Remote Work arrangements may be considered for employees whose job responsibilities and tasks can be effectively performed outside the traditional office environment.

2.2 Request Process: Employees interested in Remote Work must submit a formal request in writing to their immediate Supervisor/Evaluator and the Human Resources department. The request should include a Remote Work Agreement (Appendix A) signed by both the employee and their supervisor/evaluator.

2.3 Approval Process: Requests to work remotely will be considered on a case-by-case basis in accordance with relevant local, state, and federal laws and regulations; Board issued policies/regulations; the Bloomfield Municipal Code, and the educational needs of the District. All Remote Work must be approved in writing by the Superintendent and/or his/her designees, and may be discontinued by the Superintendent and/or his/her designees at any time.

Work Arrangements and Schedule

3.1 Work Location: Remote Work may be conducted from an employee's home or any other suitable remote location. Employees must ensure that the Remote Work environment is free from distractions and conducive to productivity.

3.2 Work Schedule: Remote employees are expected to adhere to their regular work schedule unless otherwise agreed upon with their Supervisor. Flexibility in work hours may be granted, at Supervisor's discretion, provided that core business hours and customer needs are adequately covered.

3.3 Availability and Communication: Remote employees must remain accessible during their scheduled work hours via email, phone, and/or other agreed-upon communication channels. They should respond to voicemail and text messages within a half day, and to emails and other written media within 24 hours, acknowledging receipt.

Equipment and Technology

4.1 Equipment: Remote employees **may** be loaned a laptop or other technologies by the District for the purposes of Remote Work. The provision of technology for Remote work is NOT mandatory and it is at the complete discretion of the Board. Employees are responsible for the proper use, care, and security of the provided equipment. Remote Employees are responsible for the cost of replacing laptops or other technologies loaned to them that are lost or stolen. Remote Employees are also responsible for the cost of replacing or repairing loaned technologies that are damaged outside of a Remote employee's standard work activities. For example, a Remote Employee will be responsible for the cost of repairing a laptop on which they spilled liquid; however, a Remote Employee would likely not bear responsibility for repairing a laptop that stops working while the Remote Employee is using the laptop for an acceptable use, as defined by the Board's policies.

4.2 Internet and Connectivity: Remote employees must maintain a reliable, secure internet connection at their Remote Work location that is fast enough to perform their job duties effectively. This internet service is at the employee's expense, not the District. Remote employees must promptly report any connectivity issues to the IT department for troubleshooting.

4.3 Security and Data Protection: Remote employees must follow the organization's information security policies and practices, including the use of secure network connections, password protection, and data encryption. Confidential and sensitive information must be safeguarded at all times.

Performance Management and Evaluation

5.1 Performance Expectations: Remote employees are expected to meet the same performance standards as in-office employees. Clear performance expectations and deliverables must be established and communicated by Supervisors/Evaluators. Regular check-ins and progress reviews should be conducted to monitor performance.

5.2 Monitoring and Reporting: Supervisors/Evaluators may implement reasonable monitoring mechanisms to track work progress and ensure accountability. Remote employees may be required to submit periodic progress reports or timesheets as per the organization's policies.

5.3 Training and Professional Development: Remote employees should have access to training opportunities, professional development resources, and virtual collaboration tools to enhance their skills and stay updated in their respective roles.

Health and Safety

6.1 Ergonomics: Remote employees should be aware of and comply with ergonomic best practices to maintain a safe and comfortable work environment. The organization may provide guidelines or resources related to workstation setup and ergonomics.

6.2 Health and Wellness: Remote employees should prioritize their physical and mental well-being. The organization may offer resources such as wellness programs, mental health support, and ergonomic assessments to promote employee health.

Termination or Modification of Remote Work Arrangement

The organization reserves the right to modify or terminate a remote work arrangement at any time for any reason and in accordance with all applicable laws and regulations. In such cases, notice will be provided to affected employees, and discussions regarding alternative work arrangements may be initiated.

Compliance

Employees are expected to comply with these administrative regulations, as well as other relevant organizational policies, procedures, and applicable laws and regulations. Failure to adhere to these regulations may result in disciplinary action, up to and including the termination of the remote work arrangement and/or termination of employment.

These administrative regulations are effective immediately upon approval. Any future amendments or updates will be communicated to employees as needed.

BOARD POLICY

No. 6142.104(a)

Play-Based Learning

Approved:

Play is a fundamental aspect of childhood and a powerful tool for learning, development, and well-being. The Bloomfield Board of Education recognizes the importance of play in the educational process and is committed to supporting and promoting play as an integral component for engaging students in all areas of the district's curricula. Strategically aligning play-based learning with curriculum standards can help meet the Board's goal to realize increased academic gains while improving executive function or self-regulation among all students.

Along with supporting the Board's recognition of the educational value of play-based learning, the purpose of this policy is to ensure compliance with a law passed in 2023 requiring schools to provide play-based learning for kindergarten and preschool students and to permit a teacher to utilize play-based learning for grades one to five.

Teachers are permitted to utilize play-based learning during the instructional time of a regular school day for all students in grades one to five. The teacher's role in play-based learning is to create an appropriate learning environment, ask questions, set up investigations and challenges, offer ideas, and provide feedback. While children engage in play-based learning, teachers are expected to observe, document, assess learning, and plan for the next day's experience.

Beginning in the 2024-25 school year, play-based learning must be incorporated into annual professional development programming for pre-K through grade five teachers.

Definitions

"Play-Based Learning" means a pedagogical approach that emphasizes play in promoting learning and includes developmentally appropriate strategies that can be integrated with existing learning standards. "Play-based learning" does not mean time spent in recess or as part of a physical education course or instruction.

"Free Play" means unstructured, voluntary, child-initiated activities that are performed by a child for self-amusement and have behavioral, social and psychomotor rewards except "free play" may be structured to promote activities that are child-directed, joyful and spontaneous.

"Guided Play" means learning experiences that combine the child-directed nature of free play with a focus on learning outcomes and adult guidance.

Play-Based Learning (continued)

BOARD POLICY No. 6142.104(b)

“Recess” means the time during the regular school day for each student enrolled in elementary school that is devoted to physical exercise or not less than twenty minutes in total pursuant to section 10-221o of the general statutes.

“Mobile Electronic Device” has the same meaning as provided in section 10-222d of the general statutes.

“Instructional Time” means the time of actual school work during a regular school day.

Instruction

Guidance for Pre-K and Kindergarten

Play-based learning during the instructional time of each regular school day for all students in kindergarten and any preschool program offered by the board shall be provided. Such play-based learning must be incorporated and integrated into daily practice, allow for the needs of such students to be met through free play, guided play and games, and be predominantly free of the use of mobile electronics.

Guidance for Grades 1-5

Teachers are permitted to utilize play-based learning during the instructional time of a regular school day for all students in grades one to five, inclusive. Such play-based learning may be incorporated and integrated into daily practice, shall allow for the needs of such students to be met through free play, guided play and games, and shall be predominantly free of the use of mobile electronic devices.

Any play-based learning utilized under this policy must comply with the individualized educational program (IEP) or plan pursuant to Section 504 of the Rehabilitation Act of 1973, as amended from time to time, for any student.

A school employee may only prevent or otherwise restrict a student’s participation in play-based learning if such prevention or restriction is in accordance with this policy pursuant to section 10-221 of the general statutes.

Students**

Approved: 11/12/2002
Revised: 3/8/2016
Revised: 11/14/2017
Revised: 4/2/2019

Introduction

Connecticut state law requires parents to cause their children to attend school regularly during the hours and terms the public school is in session. The responsibility for regular attendance rests with the students' parents, guardians or with the students themselves when they become of legal age.

The district's policy on student truancy stresses early prevention and inquiry leading to remediation of absences rather than imposition of punitive measures for students. Referral to legal authorities normally shall be made only when local resources are exhausted. For purposes of implementing this policy and for reporting purposes regarding truancy, the District will utilize the State Board of Education approved definitions of "excused", "unexcused" and "disciplinary" absences.

In order for students to develop to their full potential, the Board of Education deems it essential that students attend school on a regular basis. The learning experiences that occur in the classroom are considered to be meaningful and essential components of the learning process. Time lost from class tends to be irretrievable in terms of opportunity for instructional interaction.

A student is considered to be "in attendance" if present at his/her assigned school, or an activity sponsored by the school (e.g., field trip), for at least half of the regular school day. A student who is serving an out-of-school suspension or expulsion should always be considered absent.

Definitions

"Truant" shall mean a student age five to eighteen, inclusive, who has four unexcused absences in any one month, or ten unexcused absences in one school year.

"In attendance" shall mean a student if present at his/her assigned school, or an activity sponsored by the school (e.g., field trip), for at least half of the regular school day. A student who is serving an out-of-school suspension or expulsion should always be considered absent.

"**Chronically absent child**" is an enrolled student whose total number of absences at any time during a school year is equal to or greater than ten percent of the total number of days that such student has been enrolled at such school during such school year.

BOARD POLICY No. 5113.2(b)

"**Absence**" means an excused absence, unexcused absence or disciplinary absence, as those terms are defined by the State Board of Education pursuant to CGS 10-198b.

"**District chronic absenteeism rate**" means the total number of chronically absent children in the previous school year divided by the total number of children under the jurisdiction of the Board of Education for such school year.

"**School chronic absenteeism rate**" means the total number of chronically absent children for a school in the previous school year divided by the total number of children enrolled in such school for such school year.

Excused Absence

The Board believes a student should not be absent from school without the parents' knowledge and consent, therefore verification of an absence should be in writing by parent or guardian.

For absences one through nine, an absence shall be considered "excused" when a child does not attend school and appropriate documentation is provided by the student's parent/guardian approving the absence, due to:

- A. Illness or injury,
- B. Death in the immediate family,
- C. Religious obligation,
- D. Court appearance,
- E. School sponsored activity,
- F. Lack of transportation that is normally provided by a district other than the one the students attends, (This reason does not require documentation.)
- G. An emergency, or
- H. Other exceptional circumstances and extraordinary educational opportunities preapproved by a District administrator and in accordance with SDE guidelines. Written excuse for such absences should be submitted to school officials by the child's parent or guardian. All other absences with or without written explanation shall be considered unexcused.

For the tenth absence and all others thereafter, the same reasons cited above shall constitute "excused" absences. Documentation by a medical professional is required for illness, regardless of the length of the absence once the tenth absence is recorded.

The schools will make all reasonable efforts to keep parents and students informed as to attendance problems and will make all reasonable efforts to help students improve their attendance when such improvement is warranted. Only when all local resources are exhausted is referral to legal authorities recommended.

A student’s absence from school shall be considered “unexcused” unless the absence meets the definitions, listed above, for an “excused” absence, including the documentation requirements; or if the absence is the result of school or District disciplinary action.

Release of Student During School Day

The Board recognizes the need for students to be in school for the full instructional day. It is encouraged that early dismissal should be requested only in emergency or unusual situations. Request for release of a student during the school day originating outside the schools must be handled by the administration to ensure maximum provisions for the safety and welfare of the student.

Dismissal before the normal end of the school day must be requested in writing.

Students who become ill during the school day may be excused by the school nurse, and transportation home will be arranged by school personnel.

Truancy

The Board of Education must provide each child with a continuing education which will prepare the student to assume adult roles and responsibilities. Therefore, regular attendance and punctuality are expected from all children enrolled in our schools. By statute, responsibility for assuring that students attend school rests with the parent(s) or other person having control of the child. Every effort must be made to keep absences and tardiness to a minimum. To assist parent(s) and others in meeting this responsibility, the Board of Education has developed the following procedures regarding students ages five (5) to eighteen (18) inclusive.

1. Annually notify parents or other person having control of each child enrolled, ages five (5) to eighteen (18), inclusive in writing of the obligations of the parent pursuant to student

BLOOMFIELD PUBLIC SCHOOLS

attendance (C.G.S. 10-184).

2. Obtain from each parent or other persons having control of an enrolled child a telephone number or other means of contacting such parent or other person during the school day.

3. Establish a system for monitoring student's individual absences/tardies.

BOARD POLICY No. 5113.2(d)

4. Notify, by telephone and by mail the parent(s) or other such person(s) whenever a child fails to report to school on a regularly scheduled school day and no indication has been received by school personnel that the child's parent or other person is aware of the student's absence. The required mailed notice shall include a warning that two unexcused absences from school in one month or five unexcused absences in a school year may result in a complaint filed with the

Superior Court alleging the belief that the acts or omissions of the child are such that the child's family is a family with service needs.

For absences one through nine, an absence shall be considered "excused" when a child does not attend school and appropriate documentation is provided by the student's parent/guardian approving the absence, due to:

- A. Illness or injury,
- B. Death in the immediate family,
- C. Religious obligation,
- D. Court appearance,
- E. School sponsored activity,
- F. Lack of transportation that is normally provided by a district other than the one the students attends, (This reason does not require documentation.)
- G. An emergency, or
- H. Other exceptional circumstances and extraordinary educational opportunities preapproved by a District administrator and in accordance with SDE guidelines. Written excuse for such absences should be submitted to school officials by the child's parent or guardian. All other absences with or without written explanation shall be considered unexcused.

For the tenth absence and all others thereafter, the same reasons cited above shall constitute "excused" absences. Documentation by a medical professional is required for illness, regardless of the length of the absence once the tenth absence is recorded.

BLOOMFIELD PUBLIC SCHOOLS
Bloomfield, Connecticut

BOARD POLICY No. 5113.2(c)

Unexcused Absence

Board policy with respect to unexcused absences stresses prevention and inquiry leading to remediation of absences. The schools will make all reasonable efforts to keep parents and students informed as to attendance problems and will make all reasonable efforts to help students improve their attendance when such improvement is warranted. Only when all local resources are exhausted is referral to legal authorities recommended.

A student's absence from school shall be considered "unexcused" unless the absence meets the definitions, listed above, for an "excused" absence, including the documentation requirements; or if the absence is the result of school or District disciplinary action.

Release of Student During School Day

The Board recognizes the need for students to be in school for the full instructional day. It is encouraged that early dismissal should be requested only in emergency or unusual situations. Request for release of a student during the school day originating outside the schools must be handled by the administration to ensure maximum provisions for the safety and welfare of the student.

Dismissal before the normal end of the school day must be requested in writing.

Students who become ill during the school day may be excused by the school nurse, and transportation home will be arranged by school personnel.

Truancy

The Board of Education must provide each child with a continuing education which will prepare the student to assume adult roles and responsibilities. Therefore, regular attendance and punctuality are expected from all children enrolled in our schools. By statute, responsibility for assuring that students attend school rests with the parent(s) or other person having control of the child. Every effort must be made to keep absences and tardiness to a minimum. To assist parent(s) and others in meeting this responsibility, the Board of Education has developed the following procedures regarding students ages five (5) to eighteen (18) inclusive.

1. Annually notify parents or other person having control of each child enrolled, ages five (5) to eighteen (18), inclusive in writing of the obligations of the parent pursuant to student attendance (C.G.S. 10-184).
2. Obtain from each parent or other persons having control of an enrolled child a telephone number or other means of contacting such parent or other person during the school day.
3. Establish a system for monitoring student's individual absences/tardies.

BLOOMFIELD PUBLIC SCHOOLS

Bloomfield, Connecticut

BOARD POLICY No. 5113.2(d)

4. Notify, by telephone and by mail the parent(s) or other such person(s) whenever a child fails to report to school on a regularly scheduled school day and no indication has been received by school personnel that the child's parent or other person is aware of the student's absence. The required mailed notice shall include a warning that two unexcused absences from school in one month or five unexcused absences in a school year may result in a complaint filed with the

Superior Court alleging the belief that the acts or omissions of the child are such that the child's family is a family with service needs.

5. Identify a student as "truant" when the student has four (4) unexcused absences in any one month or ten (10) unexcused absences in any school year.

6. Hold a meeting with appropriate staff and the parent or other person having control of the child identified as a "truant" within ten (10) days of such designation to review the reasons for the truant behavior and to evaluate the situation.

7. Referral will be made to the PPT to determine whether or not an educational evaluation is appropriate, prior to filing a written complaint with the Superior Court.

8. Provide for the coordination of services and refer enrolled students who are truants or to community agencies providing child and family services.

A student who is identified as a "truant" may be subject to the following consequences:

- a. Promotion to the next grade may be contingent upon the student successfully completing a summer school program
- b. The student may be retained in the same grade in order to acquire the skills necessary for promotion to the next grade level

Persons who in good faith give or fail to give notice pursuant to subdivision (4) above, shall be immune from any liability, civil or criminal, which might otherwise be incurred or imposed and shall have immunity with respect to any judicial proceeding which results from such notice or failure to give notice.

The board, on or before 8/15/18, shall implement a truancy intervention model identified by the state department of education (SDE) for any school within the district that has a disproportionately high rate of truancy, as determined by the commission of education.

5. Identify a student as "truant" when the student accumulates four unexcused absences in any month or ten in a school year.
6. Identify a student as "chronically absent" when the student accumulates a total number of absences at any time during a school year that is equal to or greater than ten percent of the total number of days that such student has been enrolled at the school during the school year.
7. Appropriate school staff meet with parents of a child identified as truant or chronically absent to review and evaluate the situation, within ten days of such designation. Such meeting may involve the school or District Attendance Team.

BLOOMFIELD PUBLIC SCHOOLS

No. 3323(a)

**RE: Purchasing – Soliciting Prices
 Business**

Adopted: 9/17/2002

Approved: 10/6/2015

The spirit of this policy is for fair commerce and bidding, and the prevention of collusion and nepotism.

I. COMPETITIVE BIDDING PROCESS

A. Purchases Requiring Competitive Bidding Process (\$~~20~~50,000 or More)

Purchases of goods or general services, including high technology equipment, expected to involve an expenditure of \$~~20~~50,000 or more must be made by sealed competitive bid. As set forth below, such purchases in the amount of at least \$~~20~~50,000, but less than \$~~40~~150,000, may be awarded by the Superintendent or his/her designee. Such purchases in the amount of \$~~40~~150,000 or more must be awarded by the Board, unless delegated to the Superintendent of Schools.

General Services include all services which result in a measurable end product that can be defined by bid specifications and all services used in the process of building or altering property (excluding architectural, engineering and other design services).

B. Bid Specifications

When competitive bidding is required, all requirements, terms and conditions describing and detailing the goods or general services to be purchased must be included in the bid specifications. The bid specifications should define the requirements for quality of materials, equipment and/or services to be procured, and as such, they should clearly and accurately reflect the required characteristics of the goods and services. The bid specifications should also include any vendor or contractor qualification requirements, a school district contact person responsible for all communications with prospective bidders, a requirement that all communications between the school district contact person and prospective bidders be in writing and, if the purchase will require entering into a contract, a draft contract whenever possible.

The Superintendent of Schools or his/her designee shall develop the proposed bid specifications and other bid documents.

BOARD POLICY

No. 3323(b)

C. Advertising

A legal notice inviting sealed bids shall be published by the Superintendent of Schools or his/her designee at least once in a daily newspaper circulated in the Town of Bloomfield. At least five calendar days must intervene between the date of the last newspaper publication and the final date for submitting bids. The notice shall contain a general description of the goods or services being bid, the school district contact person and the day, hour and place of the bid opening and may contain other information relating to the bid including, but not limited to, where and when bid packages may be obtained.

D. Bid Openings and Awards

All bids, and bid security if applicable, must be submitted to the Superintendent of Schools or his/her designee in sealed envelopes and show on the face of the envelopes the bid number, the title of the bid and the bidder's name. All envelopes will be date stamped as received.

All bids shall be opened in public and read aloud at the time stated in the legal notice. No bids shall be accepted, or opened, that were not submitted in compliance with the procedures set forth in the notice advertising the bid.

Within a reasonable time following the bid opening, the Superintendent of Schools or his/her designee will tabulate and analyze the bids. For contracts of at least \$2050,000, but less than \$40150,000, the Superintendent shall, subject to the right of rejection, award the bid to the Lowest Responsible Qualified Bidder, as defined below. For contracts of \$40150,000 or more, the Board shall, subject to the right of rejection, award the bid to the Lowest Responsible Qualified Bidder, as defined below.

A record of all bids submitted, giving the names of the bidders, the amounts of the bids and indicating the successful bidder, shall be preserved by the Superintendent of Schools or his/her designee in accordance with State law.

BOARD POLICY

E. Bid Security

When, in the judgment of the Superintendent of Schools or his/her designee, bid security is advisable, all bids must be accompanied by security in one of the following forms - certified check, cashier's check, personal money order, letter of credit or bid bond. All security presented must show the "Town of Bloomfield" as the payee.

F. Requirements Governing Bid Awards

The award shall be made to the bidder whose bid meets the requirements, terms and conditions contained in the bid specifications and is the lowest among those bidders possessing the skill, ability and integrity necessary for faithful performance of the work based on objective criteria considering past performance and financial responsibility (the "Lowest Responsible Qualified Bidder").

In determining the Lowest Responsible Qualified Bidder the following criteria will be considered, as applicable:

BOARD POLICY

No. 3323(d)

G. Rejection Of Bids

The Superintendent of Schools or his/her designee has the right to reject any and all bids in whole or in part. Any or all bids may be rejected if there is any reason to believe that collusion exists among the bidders. Individual bids may be rejected for irregularities of any kind, including, without limitation, alteration of form, additions not called for, conditional bids, incomplete bids and unexplained erasures. The Superintendent of Schools or his/her designee retains the right to waive any formality or procedural irregularities in the bids received. Nothing in this Section should be construed to limit in any way the right of the Superintendent of Schools or his/her designee to reject any and all bids.

H. Advisement Of Bid Award

Upon acceptance of the Lowest Responsible Qualified Bidder, a letter will be sent to the successful bidder(s) announcing the award of the bid. All unsuccessful bidders will be sent a letter notifying them that they were not selected.

II. COMPETITIVE QUOTATION PROCESS

A. Purchases Requiring Competitive Quotation Process

Price quotations should be requested for all purchases of goods or general services, including high technology equipment, expected to involve an expenditure of at least ~~\$1,000~~ ~~\$7510,000~~ but less than ~~\$2050,000~~. Purchases of goods or services which involve an expenditure of less than ~~\$1,000~~ ~~\$7510,000~~ may be made directly, without regard to any competitive bid or quotation process. Waivers from the quotation process are available for the same reasons that Waivers are available from the bidding process. (See Section IV.)

B. Process For Obtaining Quotations

Generally quotations, either oral or written, should be solicited by the Superintendent of Schools or his/her designee from at least three (3) vendors or obtained from current catalogues or price sheets. The refusal of an otherwise valid supplier to quote shall qualify as a quotation. The quotation process does not require a public opening, and the Superintendent of Schools or his/her designee may send requests to a limited number of selected vendors. However, vendors must furnish all of the necessary information to the Superintendent of Schools or his/her designee by the specified date.

BLOOMFIELD PUBLIC SCHOOLS
Bloomfield, Connecticut

BOARD POLICY

No. 3323(e)

The purchase shall be awarded to the provider whose proposal is deemed to best provide the good and/or services desired, taking into account cost and the project requirements.

III. COMPETITIVE PROPOSAL PROCESS FOR SPECIAL OR PROFESSIONAL SERVICES

A. Purchases Requiring Competitive Proposal Process

Purchases of Special or Professional Services may be made by competitive proposal should the situation warrant if the purchase is expected to exceed the monetary thresholds set forth below. Special or Professional Services involve the furnishing of judgment, expertise, advice or effort by persons other than Board employees, and not involving the delivery of a specific end product that is defined by bid specifications. Examples of Professional Services include, but are not limited to, in-service instructional leaders, pupil services, special education evaluations, interpreters, tutors, computer programmers, architects, auditors, attorneys, and temporary agencies. Examples of Special Services include, but are not limited to, repair services for Board property, equipment and vehicles where the nature of the repair cannot be defined in advance by bid specifications and the professional expertise of the service provider is critical. Waivers from the proposal process are available for the same reasons that Waivers are available from the bidding process. (See Section IV.) Funds must be available in the proper account in order to begin development of a Request for Proposals ("RFP"), except in emergency circumstances as determined by the Superintendent.

Purchases of Special or Professional Services that are expected to be less than \$10,000 shall be made directly by the Superintendent of Schools or his/her designee, without regard to a competitive proposal process.

B. Informal Competitive Proposal Process (\$~~2050~~,000 to \$~~40150~~,000)

Purchases of Special or Professional Services for at least \$~~2050~~,000 but less than \$~~40150~~,000 shall be based upon a reasonable and documented attempt to solicit proposals. Where possible, proposals should be solicited from at least three (3) potential service providers. The refusal to submit a proposal from an otherwise valid provider shall qualify as a proposal. The process shall be documented in writing by the Superintendent of Schools or his/her designee. If a single reasonable source exists for the service, this fact shall be documented in writing.

BLOOMFIELD PUBLIC SCHOOLS
Bloomfield, Connecticut

BOARD POLICY

No. 3323(f)

An evaluation of the proposals received will be made by the Superintendent of Schools or his/her designee. The Superintendent or his/her designee shall award the contract to the service provider whose proposal is deemed to best provide the services desired, taking into account cost and the project requirements.

A record of all proposals submitted, giving the names of the service providers, the amount of the proposal and indicating the successful provider, shall be preserved by the Superintendent of Schools or his/her designee in accordance with State law.

C. Formal Competitive Proposal Process (\$40150,000 or more)

Request for Proposals for Purchases of Special or Professional Services for \$40150,000 or more shall be prepared by the Superintendent or his/her designee. All requirements, terms and conditions, including provider qualifications, should be included in the RFP, as well as a draft contract whenever possible. The award of any such contracts for \$40150,000 or more shall be approved by the Board, unless delegated to the Superintendent of Schools.

The Superintendent of Schools or his/her designee will arrange to have a legal notice requesting proposals published in a local newspaper at least ten (10) business days prior to the deadline for submitting proposals. Whenever the Superintendent or his/her designee determines that the service requested is so specialized that few appropriate providers can reasonably be expected to respond to the notice, the Superintendent may substitute another means of notifying potential providers of the RFP in lieu of such newspaper notice. Any advertisement or other notice of the RFP shall include the general description of the services sought and the location where RFPs may be obtained.

Where possible, proposals should be solicited from at least three (3) potential service providers. The refusal to submit a proposal from an otherwise valid provider shall qualify as a proposal. The process shall be documented in writing by the Superintendent of Schools or his/her designee. If a single reasonable source exists for the service, this fact shall be documented in writing.

An evaluation of the proposals will be made by the Superintendent of Schools or his/her designee. The contract shall be awarded to the service provider whose proposal is deemed to best provide the services desired, taking into account cost and the requirements, terms and conditions contained in the RFP.

BOARD POLICY

No. 3323(g)

A record of all proposals submitted, giving the names of the service providers, the amount of the proposal and indicating the successful provider, shall be preserved by the Superintendent of Schools or his/her designee in accordance with State law.

IV. WAIVERS

In certain situations the bidding, quotation and proposal processes described above may be waived even though the estimated cost exceeds the dollar threshold established by the Board. The formal processes may be waived for any of the following reasons:

- (1) Only one (1) reasonable or qualified source can be identified. This shall include situations such as the purchase of copyrighted materials and textbooks.
- (2) Time is a critical factor, and taking the time necessary to comply with the formal process would not be in the best interests of the school district.
- (3) In the opinion of the Superintendent or his/her designee, an emergency requires the purchase of goods or services to avoid injury or damage to human life or property.
- (4) A special source, including but not limited to a sale, purchasing plan, government discount or trade-in allowance, will supply a lower cost than that which would result from a bid process.
- (5) A formal process would result in substantially higher costs to the school district, or inefficient use of personnel, or cause substantial disruption of school district operations.
- (6) Prices of goods or services are subject to specific federal or state competitive bidding requirements, including, but not limited to, "school building projects" as defined in the Connecticut General Statutes.
- (7) Regional or cooperative purchases.
