- V. PUBLIC COMMENT
  - A. The Board welcomes the opportunity to hear from members of the public about matters concerning Weston Public Schools. Public comment is an important chance for the Board to receive input and feedback from our school community. We listen attentively to all comments shared.

While we value and pay close attention to public comment, it is our practice not to respond substantively, or sometimes at all, during public comment. There are several reasons for this:

First, engaging in a discussion on non-agenda items could violate the Board's obligations to comply with the Freedom of Information Act.

Second, the Board or the administration may not be prepared to discuss certain matters raised in the first instance by a public comment.

Third, the Board develops its meeting agenda carefully to ensure that the Board addresses matters that are pressing or relevant at the time of the meeting.

We encourage members of the public with specific questions, concerns, or complaints about our schools to reach out directly to Superintendent Forti. You may also email the Board at our email address, [boardofeducation@westonps.org](mailto:boardofeducation@westonps.org).

## VI. OLD BUSINESS

A. SCHOOL FACILITIES/CAMPUS REVITALIZATION: Discussion, including follow-up with SLAM and Colliers Collaborative Continued collaboration with SLAM and Colliers on middle school project. Comparison: Renovation-to-new vs. New construction. Board working toward consensus on project direction. Major Findings: Revised Cost Estimates (significantly reduced): Renovation: ~\$121.7M-\$127.9M. New: ~\$121.3M-\$127.5M. Costs now roughly equivalent, slightly favoring new construction. Key Considerations: New Construction Advantages: Faster timeline (~20-24 months), no disruption to students, better for modern learning and energy efficiency. Renovation Challenges: Longer timeline (~39 months), occupied construction risks and costs, structural and mechanical limitations. Strategic & Financial Issues: State reimbursement: ~10% (new) vs ~18% (renovation adjusted). Not guaranteed; subject to state approval. Board may need to: approve ~\$127M referendum without confirmed reimbursement. Not obligated to proceed after referendum if finances are unfavorable. Timeline Options: Recommended Option 2: Referendum Nov 2026, Grant submission June 2027, allows more public engagement and planning. Additional Topics: Potential 5-8 grade configuration, adds ~12-15k sq ft and ~\$12-15M cost, sustainability (e.g., geothermal): removed from estimate but may be reconsidered. Inflation risks: delays could add ~\$5-6M in escalation.

DRAFT

## ~~P-0210 Mission and Functions -- Goals/Objectives for Student~~

RENUMBER: P 0200

### **Statement of Educational Goals and Student Objectives**

#### Educational Goals

Weston residents continue to support high educational standards for their community. The Weston Board of Education is committed to a program of studies designed to challenge the abilities of school-age children, so they will emerge from the Weston schools as mature, confident young people ready to assume the responsibilities of adulthood. Within budgetary limitations that are responsive to Weston taxpayer interests, the Board shall develop, implement, and audit programs to accomplish these educational goals.

These goals are presented with the full realization that the school is only one of several social institutions or influences affecting the child. Its contribution is modified by the intellectual, social, emotional, and affective potentialities that each child brings to the school environment. Our intent is that the school should contribute as fully as possible to the development of each child in the directions indicated by the goals stated.

#### **To implement the Philosophy of the Public Schools, we accept this charge and the following objectives:**

1. to enable students to grow academically, socially, and emotionally by encouraging them to accept responsibility and to understand the consequences of their decisions;
2. to provide students with opportunities to master basic skills essential to competent functioning in society, including the ability to read, write, listen, and speak and view proficiently; to manipulate basic mathematical concepts; and to acquire a general knowledge of the sciences;
3. to enable students to apply knowledge, problem solving techniques, creativity, and current technology from the various disciplines to the challenges presented by our changing society and physical environment;
4. to enable students to pursue independent thought and research through both assigned and self initiated projects;
5. to enable students to explore the world's cultural heritage through experiences which help to broaden social awareness;

6. to provide curricular and co curricular activities which will give students the opportunity to grow aesthetically, emotionally, intellectually, physically, and socially through interaction with others;
7. to provide appropriate programs and services for students with special intellectual, physical, and emotional needs;
8. to enable students to develop aesthetic appreciation through integral experiences in art, music, science, literature, and languages;
9. to enable students to acquire the skills necessary for intellectual growth using Educational Information Services and programs, and instruction in the use of appropriate resources to support their learning;

**Note: Under state law, in order to prohibit all persons from carrying deadly weapons and/or firearms onto school property (including persons who hold a legal permit to carry such weapons elsewhere), a school district must affirmatively pass a policy prohibiting such items. The policy above accomplishes this goal. Districts may legally prohibit other weapons as well, but issues exist regarding 1) a district's practical ability to enforce such prohibitions and 2) the definitions used to describe other types of weapons. If a district chooses to enact a wider prohibition on weapons, it is well advised to consult legal counsel for assistance in drafting a policy containing a wider prohibition.**

### ***Scope and Applicability:***

Students, Board employees, Board members and community members (e.g., other individuals affiliated with the District, accessing or seeking access to District facilities) are expected to adhere to a standard of conduct that is respectful of the rights of all members of the school community.

Harassment does not have to involve intent to harm, be directed toward a specific person, or involve repeated incidents.

If a complaint involves allegations of discrimination or harassment, such complaints will be handled, as appropriate, in accordance with other Board policies (e.g., Policy and Administrative Regulation #4118.12/4218.12, Sex Discrimination/Harassment in the Workplace (Personnel); Policy and Administrative Regulation #5114.6, Sex Discrimination and Sexual Harassment (Students); Policy and Administrative Regulation #4118.13/4218.13, Disability and Accommodations (Personnel), Policy and Administrative Regulation 4118.11/4218.11, Non-Discrimination (Personnel) and Policy and Administrative Regulation #5145, Non-Discrimination (Students)).

Prohibited activities include the posting of political circulars or petitions, collection or solicitation of campaign funds, solicitations for campaign workers, the use of students in writing or addressing campaign materials, and the distribution of campaign materials to students on District property or during school time in any manner which would indicate that a school employee is using a position in the school to further personal partisan views on candidates for public office or questions of public property. Teachers and other District employees will not attempt to influence students concerning political party affiliations and will not praise or denigrate any particular political party.

Nothing in this policy will be interpreted as prohibiting teachers from conducting appropriate activities that encourage students to become involved in the political processes of the party of the students' choice or as independents; nor does it prohibit the use of political figures as resource persons in the classrooms.

### Law Enforcement Agencies

#### **Release of Pupils to and Questioning of Pupils by Law Enforcement Officials**

In the absence of parental or guardian consent, the principal shall release pupils to law enforcement officials only if an arrest warrant is presented or if the law enforcement officer informs the principal that the pupil has been observed engaging in a criminal act immediately prior to the arrest. Reasonable efforts will be made to notify parents/guardians of the arrest. If a warrant is issued by an official from the agency other than the Weston police, the principal must contact the Weston police who will verify the authenticity of the warrant. In any case where a law enforcement officer seeks to arrest a student, the principal must immediately notify the Superintendent of Schools or his/her designee.

If law enforcement officers seek to question a student at school, the decision whether or not to allow questioning will be made by the principal or designee. If the principal or designee determines that questioning by law enforcement will be disruptive to the educational process or maintenance of discipline in the school, the request may be denied. Unless there exists a clear and present danger as determined by the principal, no questioning by law enforcement shall be allowed in the absence of the student's parent or guardian. In any case where a law enforcement officer seeks to question a student on school grounds, the principal must immediately notify the Superintendent of Schools or his/her designee.

If there exists a clear and present danger as determined by the principal, a student who is not a suspect in the case may be questioned by law enforcement in the presence of the principal or his/her designee. The student's parent or guardian will be notified as soon as possible by the principal or his/her designee and informed of the questioning by law enforcement.

Notwithstanding the foregoing, if the law enforcement officer seeking to arrest a student, or to question a student, declines to honor a refusal by the principal to permit the removal from school or questioning by law enforcement as provided above, the principal should not attempt to interfere with the officer's actions. Rather, the principal should verbally object to the officer's actions and document his/her objections in a written communication to the officer and the officer's supervisor.

#### **Purpose and Scope**

This regulation governs coordination between Weston Public Schools and law enforcement agencies, including School Resource Officers (SROs), in a manner consistent with District threat assessment procedures, memoranda of understanding (MOUs), and applicable law.

## **Release of Students to Law Enforcement**

In the absence of parental or guardian consent, the principal or designee shall release a student to law enforcement officials only when a valid arrest warrant is presented, the officer informs the principal that the student was observed committing a criminal act immediately prior to arrest, or other lawful authority exists. The Superintendent or designee shall be notified in all such cases.

## **Questioning or Interviewing of Students**

Law enforcement questioning of students on school grounds shall be coordinated with the principal or designee and conducted consistent with the District's behavioral threat assessment and management procedures. Reasonable efforts shall be made to notify parents or guardians prior to questioning, unless exigent circumstances exist.

## **Threat Assessment and Safety Exception**

Law enforcement officials, including SROs, may participate in behavioral threat assessment activities and may question students when an immediate safety concern exists. Such questioning shall occur with administrative oversight and parental notification as soon as practicable.

## **SRO Coordination**

SROs assigned to the District shall operate pursuant to a Board-approved MOU. SROs may engage in safety planning, threat assessment, and crisis response consistent with their law enforcement role and the educational mission of the District.

## **Non-Interference and Documentation**

School officials shall not physically interfere with lawful law enforcement actions. Any objections shall be documented in writing, and all law enforcement interactions involving students shall be documented in accordance with District procedures.

### Concepts and Roles in Student Policies

The focus of the school system is on the learner, the student. The student's educational development toward the school's goals is the central concern of the Weston Board of Education's policies and the Administrator's regulations.

Each child of each parent shall be given equal opportunity. However, children vary widely in capacities, interests, social and economic background therefore, no two can be treated exactly alike if the fullest development of each is to be achieved.

#### Examination/Grading/Rating

The Board of Education seeks, through performance objectives in its instructional program, to make achievement both recognizable and possible for students.

The issuance of grades on a regular basis serves to promote a process of continuous evaluation of student performance, to inform the student, the student's parents and counselor of his/her progress, and to provide a basis for bringing about change in student performance, if such change seems necessary.

Students enrolled in grades 3 through 8 inclusive and grade ten or eleven shall take an annual mastery examination in reading, language arts and mathematics, during any month of the school year. *(Currently administered during the last 12 weeks of the school year.)* Each student enrolled in grade 5, 8, 10 or 11 shall annually, in March or April, take a state-wide mastery examination in science. Achievement of a satisfactory score on the mastery test shall not be required as the sole criterion for promotion or graduation. The State Board of Education shall approve the provision and administration of all mastery examinations.

Students with significant cognitive disabilities in grades 3 through 8 and 11 shall be assessed with the Connecticut Alternate Assessment.

~~Each student enrolled in grades **three through eight** shall take the **Connecticut Mastery Test**, and students in grade ten shall take the **Connecticut Academic Performance Test**, provided by and administered under the supervision of the State Board of Education. Achievement of a satisfactory score on the mastery test shall not be required as the sole criterion for promotion or graduation.~~

#### **Concept and Roles in Instruction**

The Weston Board of Education believes that all children can reach high levels of academic and personal achievement when the school, family, and community work together.

The primary purpose of schooling is the transmission of knowledge, culture, and development of skills through which students learn in areas necessary to their continuing development and entry into the world of work. To fulfill that purpose, the State Board of Education prepared Connecticut's Common Core of Learning. The Board of Education gives priority in the allocation of resources, including funds, time, personnel, and facilities, to fulfilling this purpose.

The school functions closely with the community through the Board of Education, which sets policy for all educational programs. The community is responsible for providing resources to maintain the programs, which the Board prescribes. The community has the right to expect that the school will reflect its needs and desires but should be responsive to the professional obligation of the staff and administration to guide the educational program.

The students, faculty, administration and community should be involved in the development of a learning process wherein all may engage in a mutual inquiry. The student's responsibility is to realize that through active participation in the process he/she becomes the ultimate agent in his/her own learning experience. The teacher's responsibilities are to guide the learning process, to stimulate the students' intellectual interests and to expose them to a variety of avenues within the learning process. The administrator's role should be that of a catalyst, providing leadership and giving direction to the total learning process.

For the school to achieve the mission of providing outstanding instructional opportunities the students, faculty, administration, and community need to be mutually involved in creating and guiding the learning process. A climate of mutual respect and commitment is needed and active communication is essential.

#### ~~Philosophical Guidelines~~ **Goals and Objectives**

Weston citizens continue to support high educational standards for their community. As elected representatives, the Weston Board of Education is committed, within responsible budgetary limitations, to the support and development of a dynamic and flexible program of studies designed to effectively challenge the school-age children of this town.

The guiding policy of the Board of Education is to create and sustain a public school system capable of developing to the utmost the resources of the children entrusted to it. The goal is to impart knowledge, and a love of knowledge; to teach each child to speak, to read, to write, to calculate, to think; and to do so with such initiative and imagination that each will be properly equipped to serve as a citizen of this community, this nation and this world.

To this end, the Weston Board of Education searches out administrators and teachers who are imaginative, energetic and enthusiastic, as well as competent; and encourages active community communication and participation. Through the development of sound educational policies and systematic curriculum review, the Board strives to foster, in every way possible, an environment in which the children will thrive.

**The Board of Education establishes the following goals for the instructional program:**

- 1. To instill in students basic skills as well as the knowledge, attitudes and habits that will allow them to adopt, adapt and utilize these skills in the ever-changing environment;**
- 2. To provide an educational program that challenges each student yet minimizes failure. Everyone willing to make the effort to work and learn should be able to achieve a certain measure of success;**
- 3. To develop an educational program that is comprehensive and involves input from all groups within the school community, especially administrators, staff, parents and students;**
- 4. To create a learning process that emphasizes human worth and incorporates real and relevant experiences that students may identify with and learn from easily; and**
- 5. To provide educational opportunities for students to interact with students and leaders from other racial, ethnic, and economic backgrounds**

The Board of Education may declare a holiday in the schools under its jurisdiction when good reason exists.

**CONSENT FORM FOR DRIVERS OF STUDENTS  
ON SCHOOL RELATED ACTIVITIES**

The Weston Board of Education is attempting to limit as much as possible the liability of individuals involved in transporting Weston Public School students on school related trips. This is the primary reason why the school system has strongly recommended the use of public transportation whenever and wherever possible to transport students to places of interest.

Individuals who plan to drive Weston students on school related activities should be aware that they assume responsibility and liability when they personally transport students in a private vehicle. Even though the Weston Board of Education's insurance will respond in case of an accident related to a school sponsored activity, when an individual is driving students in a private vehicle, the Board of Education's insurance will respond only after the individual's personal insurance responds. Furthermore, the Weston Board of Education's insurance will generally only respond in cases of third party loss.

- I have read the above statement concerning the responsibility assumed by individuals driving Weston Public School students on school related activities and understand the liability I am accepting in driving students on school-sponsored activities.
- I am a licensed driver in the State of Connecticut.
- I have not had an accident or received a traffic violation during the last three years.
- I currently have automobile insurance in force as prescribed by the State of Connecticut.
- **I have attached to this form a copy of my insurance card and a copy of the Connecticut driver's license.**

## AGREEMENT, WAIVER AND RELEASE OF LIABILITY

The parties to this Agreement are the Student, the Student's parents or legal guardians, and [WESTON PUBLIC SCHOOLS BOARD OF EDUCATION] (the "District"). The Student, with the consent of the Student's parents or legal guardians ("Parents"), has chosen to participate in an off-campus, overnight travel program (the "Trip"). Participation in the Trip is voluntary and not an educational requirement of the District.

The Student and the Parents will:

- complete all forms and provide the necessary information as detailed in this Overnight Travel Packet,
- certify that the information provided in this Overnight Travel Packet is correct, and agree to keep it updated as necessary, and
- review and understand all information provided by the third-party travel agency/trip sponsor ("Trip Advisor") (as applicable).

### **I. Acknowledgements**

- Participation in the Trip is voluntary and is not an educational requirement of the District. The Trip is offered as an accommodation to students who wish to travel abroad and is not considered part of the District's curriculum. No grade, award or academic advancement will be granted by the District as a result of a student's participation in the Trip.
- The Trip is not open to the general public and is offered only to qualified members of the District community. The District does not make any financial profit from the proceeds of the Trip nor does it charge any surcharge or other fee beyond those fees necessary to cover the cost of the Trip.
- The Student and the Parents have been given ample opportunity to review the Agreement and understand that the Agreement includes, among other things, a release of their claims against the District, its officers, directors, trustees, administrators, faculty, employees, agents and representatives (hereinafter "Released Parties") for personal injuries, damages and/or losses relating to and/or arising out of the Trip.

### **II. Acknowledgement of Risk(s)**

The Student and Parents acknowledge and agree that:

- Travel generally and the activities associated with it and with the Trip present risks to the Student personally and to his/her property, some of which may result in serious personal injury or death, and that these risks can be a consequence of not only the Student's actions or negligence but also the actions or negligence of others, or travel conditions or equipment. Travel includes risks associated with the conduct of third parties, such as risk of traffic accidents, crime, assault and/or theft.
- Travel (particularly foreign travel) may also involve other risks, such as unfamiliar or different terrain, climate, food and drink, customs, laws, social and sexual mores, safety practices and regulations, communications, criminal and law enforcement activities, acts of war or terrorism, disability access, driving practices, disease, and lack of access to health care providers and facilities.

- The Student and the Parents have had the opportunity to read information that was provided about the Trip, and understand that it is their responsibility to review websites for the Centers for Disease Control (“CDC”) and the most recent State Department Travel Advisory, if any, for the country(ies) that the Student will visit and to review such information periodically for updates and changes, particularly related to COVID-19, prior to the Trip. For Students who will be required to take any medications during the Trip, the Student and the Parents have conferred with the appropriate District personnel about any applicable laws, rules and/or regulations regarding the possession, use and administration of medications in the particular location(s) where the Student will be traveling during the Trip, which may be different from Connecticut’s laws, rules and/or regulations regarding the possession, use and administration of medications.

**PLEASE READ AND INITIAL TO CONFIRM:**

*I have read and/or reviewed the website for the CDC concerning health and other travel risks, cautions, and warnings, and recommendations, including any CDC Outbreak Notice/Travel Health in the areas in which the Student will be traveling, and the CDC and Connecticut Department of Public Health websites regarding COVID-19 available at <https://www.cdc.gov/coronavirus/2019-ncov/your-health/about-covid-19.html> and <https://portal.ct.gov/DPH>, respectively.*

*I am responsible for consulting with a physician or appropriate specialist for advice on the risks of travel and recommendations for appropriate precautions.*

*I am responsible for taking the precautions recommended by the CDC.*

*I will continue to review the information above to obtain the most current, up-to-date travel information possible up to the departure date for the Trip.*

           **Initials of Student**

           **Initials of Parent/Guardian**

- The Student and the Parents have reviewed the Trip literature provided by the District and, if applicable, the Trip Advisor, that describes the risks associated with the Trip. The Trip Advisor is solely responsible for describing the risks related to the services it provides. The Student’s and the Parents’ questions and concerns regarding those risks have been addressed to their satisfaction, and they fully understand and assume those risks.
- The Student and the Parents are responsible for evaluating the risks that the Student may face and for taking any health precautions that they deem advisable or necessary and agree that the Student may participate safely in all Trip activities with or without reasonable accommodation. If the Student requires a reasonable accommodation or if the Parents have concerns about the Student’s participation in any Trip activities, they agree to provide written notice to the District at least four (4) weeks in advance of the Trip, unless extraordinary circumstances exist.

- The specific itinerary for the Trip may change during the course of the Trip due to unforeseen and unknowable circumstances and any activities that the Student may take part in, whether as a component of the Trip or separate from it, will be considered to have been undertaken with the Student's and the Parents' approval and understanding of any and all risks involved.
- The District is not responsible for any injury, loss, or damage to the Student's person or property, whether resulting from acts or omissions of third parties, or other persons not under the control of the District, from the operation or condition of facilities or premises, from acts of war or terrorism, or from acts of God or nature, except to the extent that the injury, loss, or damage is caused by the sole negligence or reckless, wanton or intentional misconduct of the District, its officers, trustees, faculty, employees, agents, or representatives.

- **Notice of Risks Related to COVID-19**

COVID-19 is an illness caused by a virus that can spread from person to person, primarily through respiratory droplets, even among individuals with mild (or no) symptoms or those who do not feel ill. COVID-19 symptoms can range from mild (or no) symptoms to severe illness. Symptoms of COVID-19 may include fever or chills, cough, shortness of breath or difficulty breathing, fatigue, headache, congestion or runny nose, muscle or body aches, sore throat, new loss of smell or taste, nausea or vomiting, and diarrhea. The estimated incubation period is between 2 and 14 days. Though COVID-19 is a relatively new disease, currently available information indicates that those at increased risk are older individuals or individuals of any age who smoke, are immunocompromised, or have underlying medical conditions (such as, but not limited to, cancer, chronic kidney disease, COPD, Down Syndrome, certain heart conditions, moderate to severe asthma, obesity, pregnancy, or sickle cell disease). Currently, there are authorized and recommended vaccines to prevent COVID-19, and the CDC recommends that everyone who is eligible get a booster and stay up to date on their COVID-19 vaccines, especially people with weakened immune systems.

**Additional information regarding COVID-19 is available on the CDC's website at <https://www.cdc.gov/coronavirus/2019-ncov/your-health/about-covid-19.html> and on the Connecticut Department of Public Health's website at <https://portal.ct.gov/DPH>.**

- The District cannot protect against exposure to or infection by COVID-19 that occurs due to the Student's participation in the Trip, particularly given that the Student will be traveling to another location outside of the District's control. However, by participating in the Trip, the Student and the Parents agree that the Student will abide by all health and safety protocols related to COVID-19, including those established by the District, the Trip, the Tour Company, the CDC, and other public health officials, and that they will continue to monitor information related to COVID-19 available at <https://www.cdc.gov/coronavirus/2019-ncov/your-health/about-covid-19.html> and <https://portal.ct.gov/DPH> up to the date of departure for the Trip.

### **III. Assumption of Risks and Waiver of Liability/Release of All Claims**

In consideration for being allowed to participate in the Trip, and with only those exceptions described below, the Student and the Parents fully ASSUME ALL RISKS, inherent

and otherwise, whether or not described above, in connection with the Trip and RELEASE AND DISCHARGE the District, its officers, trustees, faculty, employees, agents or other representatives under the direction and control of the District (the "Released Parties") from any and all liability, damage, injury or loss, including bodily injury or death, arising from, related to, occurring during, or associated with the Student's participation in the Trip for any reason. These agreements of Assumption of Risks and Waiver of Liability/Release of All Claims do NOT apply if (1) the liability, damage, loss or injury is CAUSED SOLELY BY THE NEGLIGENCE of the Released Parties and do not include the negligence or any other act or omission by any other person or entity (such as the Student, the Parents, other third parties or independent vendors/contractors); or (2) the liability, damage, loss or injury is CAUSED BY THE RECKLESS, WANTON or INTENTIONAL MISCONDUCT of a Released Party. These agreements of Assumption of Risks and Waiver of Liability/Release of All Claims will be construed in accordance with Connecticut law.

#### **IV. Indemnification and Hold Harmless**

The Student and the Parents agree to defend, indemnify and hold harmless the Released Parties from any and all claims, lawsuits or demands made by anyone arising from or relating to the Student's involvement with the Trip, except for negligence caused solely by a Released Party or the reckless, wanton or intentional misconduct of a Released Party.

#### **V. Code of Conduct and Adherence to Standards**

The Student and the Parents understand and agree that:

- By participating in the Trip, the Student is subject to the policies, rules and regulations of the District and any host school, company, and/or organization that may be involved regarding conduct on the Trip, including but not limited to the National High School Mock Trial Championship, and may be subject to District disciplinary action as provided in the District's Student Handbook and applicable student discipline policies for any violations of applicable policies, rules and/or regulations.
- The Participant will be subject to the laws, rules and regulations of the country[ies] where the Student is traveling and those laws may be substantially and materially different from those in the United States.
- While participating in the Trip, the Student will comply with the Expectations and Code of Conduct, attached as Appendix B, and the Expectations and Protocols Related to COVID-19, attached as Appendix D, and will not engage in inappropriate conduct, including but not limited to, the use of physical or verbal threats or violence, abuse of the customs or mores of the community, or unauthorized absences from scheduled Trip activities.
- Consumption, use or possession of illegal drugs or alcohol will not be tolerated. The laws of many foreign countries state that possession or use of illegal drugs is punishable by fine, imprisonment and/or deportation.
- The Student will obey all directives issued by the District, the Trip Leader(s), any associated organizations and/or the United States Government.

## **VI. Financial Obligations**

The Student and the Parents agree:

- to pay any money owed to cover any costs and fees relating to the Trip (for travel, accommodations, cultural visits and the like) by the date specified;
- to pay any additional costs that may be incurred relating to the termination of the Student's participation in the Trip, as explained in the Expectations and Code of Conduct and Section VIII below; and
- to abide by the Trip Advisor's and/or the District's Refund Policies, which are attached as Appendix C.

## **VII. Participation and Trip Modification**

The Student and the Parents understand and agree that:

- The District and/or Trip Advisor reserve the right to cancel or modify the Trip at any time for any reasons including, but not limited to, emergencies, low enrollment, change in conditions, COVID-19, and unavailability of facilities and/or personnel.
- Absent express permission from the Trip Leader(s), the Student will attend and participate in all scheduled Trip activities and will adhere to the Trip schedule as set by the District and/or the Trip Advisor.
- Failure of the Student to attend and participate in all scheduled Trip activities may result in increased risk for all of the participants and the District, and may result in disciplinary consequences in accordance with the Expectations and Code of Conduct.

## **VIII. Termination of Participation**

The Student and the Parents understand and agree that:

- In its sole discretion, the District may terminate the Student's involvement with the Trip at any time, including before departure or during the Trip. Reasons for termination may include, but are not limited to, inappropriate conduct or other behavior by the Student deemed detrimental to the best interests of the Trip and violations of this Agreement, including (but not limited to) the Expectations and Code of Conduct, the Expectations and Protocols related to COVID-19, emergencies, or health or safety conditions or considerations.
- If the Student's conduct should cause him/her to be removed from the Trip, the Participant and the Parents or legal guardians will bear the costs of return transportation. Such termination shall not diminish or otherwise alter the Student's obligation to make any payment required for the Trip, and the District shall not be required to make any refund.

**IX. Activities Outside the Trip's Itinerary**

The District strongly advises against voluntarily withdrawing the Student early from the Trip and thereby causing the Student to travel separately from Trip participants and chaperones. Such early withdrawal of the Student from the Trip by the Parents and/or the Student presents risks to the Student personally and to his/her property, some of which may result in serious personal injury or death. Notwithstanding the foregoing, should the Student choose to, or should the Parents cause the Student to, remain at the Trip location or elsewhere after the Trip ends, or should the Student leave the Trip voluntarily or involuntarily, the Student will cease to be involved in the Trip; the Parents will be fully responsible for the Student thereafter; and the District will not be responsible for supervising the Student in any respect, or for any injury, loss, or damage to the Student's person or property.

**X. Severability**

It is understood and agreed that, if any provision or term of this Agreement or the application thereof is held invalid, the invalidity shall not affect other provisions, terms or applications of this Agreement, which can be given effect without the invalid provisions, terms or applications. To this end, the provisions and terms of this Agreement are declared severable.

**XI. Governing Law; Venue**

This release shall be construed in accordance with, and governed by, the laws of the State of Connecticut. The parties agree that the venue for any dispute arising under this Agreement shall be in any Connecticut court of competent jurisdiction.

**XII. Construction and Scope of Agreement**

The language of all parts of this Agreement shall in all cases be construed as a whole, according to its fair meaning, and not strictly for or against any party. This Agreement, which includes the entire International Travel Packet, is the entire and complete agreement of the parties relating in any way to the subject matter hereof. This Agreement supersedes any earlier written or oral understandings or agreements between the parties.

I am the legal parent or guardian of \_\_\_\_\_ (my "child"), who was born on \_\_\_\_\_ and who is currently less than eighteen (18) years of age as of departure of the Trip. I understand that, in the United States, in the event of a medical emergency threatening my child's life or limb, no informed consent is required for my child's treatment and that emergency medical care will be obtained and rendered to my child. I further understand that if my child's medical condition is urgent but not life threatening, informed consent is required for treatment. I also understand that the customs and requirements in other countries may differ as to the need for consent.

If my child needs medical care for which informed consent or my permission may be required, whether on an emergency or urgent basis, and if reasonable attempts to reach me for consultation and informed consent are unsuccessful, then I hereby delegate to the Trip Leader(s) or his/her designee or representative the authority to make on my behalf all medical decisions regarding the care and treatment of my child, including decisions regarding surgery, transfusions, and the administration of anesthetic, and to give informed consent to such treatment.

I also consent to, and authorize, the Trip Leader(s), or his/her designee, to arrange for and provide routine care and treatment for my child's health needs or conditions, such as basic first aid. **Statement of Philosophy**

The Board of Education believes that the educational programs and services available in the school system are designed to provide opportunities for the academic, social, and emotional growth of our student population. Among its high priorities, the Board accepts the national challenge that academic excellence and quality education must be achieved and maintained within the fiscal parameters of the community. To that end, every effort will continue to be made to support the Superintendent, administrators, and staff, both professional and non-certified, in their recommendations to improve, expand, or change current programs and services.

The Board of Education also places a high premium on accountability:

1. in measurable achievement of student learning; in the evaluation of all staff performance and including the Board;
2. in commending individual student and staff performance;
3. in maintaining appropriate fiscal controls.

The Board recognizes that continuing improvement of the school system rests on the professional abilities and commitment of the various staffs in the schools. The leadership role of the Superintendent and the policy and decision-making roles of the Board will be successful concomitant with the efforts of all concerned with the educational progress to work together to achieve those common goals. Incumbent with those roles is the high order need to communicate, to engage in constructive discussions when addressing identifiable change needs in the system, and to develop strong rationales with supportive data to support program or service recommendations.

Recognizing that within a school system there are diverse issues, strengths, and weaknesses, the overriding philosophy is to coalesce the positive energies of all involved personnel into a strong unit working together. There always is to be the opportunity for the alternative or divergent opinion to be considered in any decision-making process. When a final decision is made, however, there is the expectation that everyone will work in concert with the intent of that decision. To do otherwise would be counter-productive to the system's ability to progress.

Students are the primary focus of the system's activities, processes, and procedures. They have been entrusted to us for the expertise we can and do provide. That is an enormous responsibility. That responsibility is the staging upon which the Board accepts its roles as guardian and advocate. That is the responsibility the Board of Education charges the system personnel to accept with total and unequivocal professionalism.

Policy adopted:

**Mission Statement**

We believe public education is an essential component of a free and democratic society. In a partnership of family, school, community, and local and state government, the mission of the Weston Public Schools, as a caring and supportive community partnership, is to empower each student to achieve success and contribute to our global society by developing and cultivating character, knowledge and creativity through a dynamic learning experience that challenges each student to continually pursue personal excellence.

**To accomplish this, we must seek the necessary resources to:**

- Provide a safe, nurturing and academically challenging learning environment.
- Provide students and staff with resources, supports, and opportunities to reach their full potential.
- Prepare students to become productive, lifelong learners.
- Instill in our students a curiosity and love for learning which embraces their interests and the world around them.
- Prepare students to become self-reliant, honest, respectful and responsible members of a diverse and global society.
- Improve student learning by holding staff accountable for creating effective learning environments and using the most effective teaching strategies.

Policy adopted:

**Communication with the Public/Parent Involvement**

Constructive engagement of parents, guardians, and other care-givers in the schooling of children improves the quality of education significantly. The Board of Education believes that closer connections of parents and others responsible for the home care of the children with our schools can result in enhanced academic performance, improved behavior, and reduced absenteeism.

Therefore, all parents, guardians, and care-givers of students enrolled in our school district are encouraged to take an active role in the education of their children.

Further, the Board of Education believes that the professional staff must take whatever steps are necessary to facilitate a broad variety of meaningful opportunities for parents to connect with the schools in which their children are enrolled, and with the overall school system. These steps may include, but are not limited to the following:

- Promoting and supporting parenting skills.
- Regular and meaningful two-way communication between home and school. (Such communication may include monthly newsletters, electronic communications, phone calls, parent-teacher conferences or scheduled appointments in school).
- Welcoming various aspects of parent input, support and assistance in decisions that impact children and families.
- Making community resources available to strengthen school programs, family practices and student learning.
- The two required parent-teacher conferences per year, beginning July 1, 2021 and each school year thereafter, can be fulfilled by the District offering parents the option of attending any parent-teacher conference by the use of telephonic, video, or other conferencing platforms.

The Board shall [utilize the document developed by the State Department of Education](#) (by 12/1/21) that provides information concerning educational, safety, mental health and food insecurity resources and programs available to students and their families.

The Superintendent will report to the Board of Education on parent involvement activities as necessary.

### Survey of Students

The Weston Public Schools (“District”) recognizes that surveys are essential tools for identifying student needs, monitoring school climate, and supporting continuous improvement. Surveys shall be used to gather feedback that enhances teaching and learning, promotes student well-being, and informs restorative and preventive strategies. All surveys shall be research-based, developmentally appropriate, culturally responsive, and administered in compliance with state and federal laws, including Connecticut’s School Climate Policy and the Protection of Pupil Rights Amendment (PPRA). Student participation shall respect privacy, allow for parental review, provide required consent or opt-out opportunities, and protect confidentiality.

As required under CT PA. No. 23-167, beginning in the 2025–26 school year and biennially thereafter, each school shall administer a school climate survey consistent with the Connecticut School Climate Policy. Prior written notice shall be provided to parents/guardians regarding the content and administration of the school climate survey, and it shall include an opportunity for them to opt their child out of participation. Survey data shall be used by the School Climate Specialist and School Climate Committee to develop, revise, and implement the School Climate Improvement Plan as required under state law. (P5131.911)

Survey data, including climate survey results, shall be incorporated into the District’s continuous climate improvement cycle. Such data shall inform the development of restorative strategies, identification of challenging behaviors, and schoolwide interventions that support a positive, safe, and equitable learning environment. (P5131.911)

Surveys may be used by administrators, educators, school climate committees, and the Board to gather information necessary for improving instruction, identifying student needs, assessing school climate, supporting student well-being, or informing district policies and practices. All survey instruments must receive administrative approval. Student responses shall not be used in any personally identifying manner unless required by law and shall never be used for disciplinary action.

Surveys used in any experimental program or research project will be subject to the requirements of applicable Board of Education Policy. Parents shall have the right to inspect all instructional material that will be used for a survey, analysis, or evaluation as part of a federal program.

Prior to administering a survey, the Board of Education must approve all that are received by the Superintendent that include reference to any of the factors listed below.

No school climate survey shall solicit information from students that falls within the eight PPRA-protected categories unless explicit parental consent is obtained or unless required for mandated school climate reporting and structured in non-identifying form.

Any survey created by or administered on behalf of an external agency, researcher, or organization must be reviewed by the Superintendent and approved by the Board of Education if it includes questions soliciting sensitive information, requires student data disclosure, or is intended for public release. Results of Board-approved surveys must be shared with the Board.

**No student may take part, without written parental consent when federally funded, or without prior notification and the opportunity to opt out when not federally funded, in any survey, analysis, or evaluation that reveals information concerning:**

1. political affiliations or beliefs of the student or the student's parents;
2. mental or psychological problems;
3. sex behavior or attitudes;
4. illegal, anti-social, self-incriminating, or demeaning behavior;
5. critical appraisals of close family relationships;
6. legally privileged relationships;
7. income (unless required by law for financial aid eligibility);
8. religious practices, affiliations, or beliefs.

**These PPRA protections apply to all District-administered and third-party surveys.**

In addition to PPRA requirements, the District shall notify parents/guardians of the administration of the mandatory biennial school climate survey and provide a reasonable opportunity to opt their child out. No student shall be required to participate in a climate survey if a parent/guardian opts out or if the student is 18 years old and opts out on their own behalf.

Parents/guardians shall have the right to inspect, upon request, a survey created by a third party before it is administered or distributed by a school to a student. Such requests shall be made in writing to the district employee working with the third party seeking to implement the survey with a response to be at least two weeks in advance of any survey to be given.

For surveys not funded in any part by the federal government, parents/guardians need not give written consent, but must instead be given prior notice of the survey with the opportunity to opt their child out of participation if the survey elicits information concerning any of the eight protected areas listed above

Aggregate, non-identifiable results of school climate surveys shall be made available to the school community and reviewed annually by the School Climate Coordinator, School Climate Specialists, and School Climate Committees to inform improvement planning, restorative practices, and professional learning.

Parents/guardians shall be notified annually at the beginning of the school year, as well as upon a student's initial enrollment, of their rights under this policy and the Protection of Pupil Rights Amendment (PPRA). This notice shall inform parents/guardians, and students 18 years or older, of their right to: (1) inspect survey instruments and instructional materials used in conjunction with any survey; (2) opt their child out of the collection, disclosure, or use of personal information for marketing purposes; (3) opt their child out of any survey that includes PPRA-protected topics; and (4) opt their child out of any non-emergency, invasive physical examination not required by law. The notice shall also include information regarding the administration of the biennial school climate survey and provide parents/guardians with a reasonable opportunity to opt their child out of participation. Such notice shall describe parents' rights to inspect survey instruments, instructional materials, and to opt students out of:

1. collection or disclosure of personal information for marketing;
2. administration of surveys asking about PPRA-protected topics;
3. non-emergency, invasive physical examinations not required by law.

All surveys must be administered using neutral, unbiased questions. Responses shall be collected, reported, and stored in a non-identifiable manner unless required by federal or state law. Survey responses shall not be used for disciplinary purposes and shall instead support system-level improvements, including school climate goals, social-emotional learning, and restorative practices.

The Board of Education (Board) recognizes the value of special education and its responsibility in ensuring that all resident preschool children with disabilities have the opportunity to participate in special programs and services from which they may benefit. The Board shall maintain an early intervention program for preschool-aged children identified through the "Birth to Age Three" screening process under regulations imposed by the Individuals with Disabilities Act (IDEA) which identifies children with special education needs or developmental delays.

The District will provide a preschool program consistent with the regulations delineated by the State. The Assistant Superintendent of Pupil Personnel Services (PPS) is responsible for coordinating the program and evaluating it annually. The administrative practices and procedures of this program shall include:

1. Locating and identifying all preschool children, between the ages of three and five, with disabilities pursuant to the relevant provisions of the Individuals with Disabilities Act (IDEA). The register of children eligible to receive preschool special education services is to be maintained and revised annually by the Assistant Superintendent of PPS;
2. Ensuring that the parents of preschool-age children with disabilities have received and understand the request for consent for evaluation of their child;
3. Developing an individualized education program (IEP) for each preschool-age child with a disability requiring services;
4. Appointing and training appropriately qualified personnel;
5. Providing transportation to students receiving special education services who are enrolled in the program and require it per a Planning and Placement Team (PPT) decision;
6. Maintaining lists as required by the State Education Department pertaining to the number of children with disabilities who are being served, as well as those identified disabled students not served; and
7. Reporting as required to the State Education Department; and
8. Ensuring the smooth transition from infant to preschool programs.

The Planning and Placement Team's responsibilities will include the evaluation and recommendation for placement in appropriate approved programs and the provision of appropriate special education programs and services for each preschool child with a disability. Children recommended for an educational program may enter at various points throughout the school year.

It is ultimately the responsibility of the Board to provide the appropriate approved preschool program and services for the District children. Should the PPT's determination and

recommendations differ from parent or guardian preference, placement may be appealed by a parent or guardian through the procedures outlined in IDEA.

The Board directs the Superintendent or his/her designee to ensure that the District considers that adequate and appropriate space and personnel are made available for such programs and services.

### **Tuition**

Non-disabled (general education) students enrolled in the preschool program will be required to pay tuition for the program. The Board will annually establish the tuition rate for the following school year. The Board, through the Superintendent or his/her designee, will establish a payment plan. Failure to make such tuition payment may result in discontinuation of enrollment in the program.

### **Interscholastic/~~Intramural~~ Athletics**

The Board of Education believes individual students will benefit from opportunities to grow physically and intellectually through experiences that provide the opportunity for self discipline and team efforts made possible through competitive interschool and intramural team and individual sports activities.

District participation in interscholastic athletics shall be subject to approval by the Board. This shall include approval of membership in any leagues, associations, or conferences, of rules for student participation, ~~and of annual sports schedules.~~

It is the Board's policy to provide students interscholastic athletic competition in a variety of sports. Students shall be allowed to participate in individual sports on the basis of their physical condition and desire. Qualified personnel shall be provided for coaching and supervising individual sports. ~~In addition, the Board encourages intramural athletic activities as an outgrowth of class instruction in physical education commensurate with the grade level of the students involved.~~

Each student who chooses to participate in an interscholastic athletic program is required to have on file ~~in the offices of the building administrator and the athletic director,~~ a certificate of consent which is signed by the parent or legal guardian. The purpose of school athletics is both educational and recreational. The athletic program should encourage participation by as many students as possible and should be carried on with the best interests of the participants as the prime consideration. Participation should be without unreasonable interference with other obligations in the school, community and home.

It is recognized that a well-organized and well-conducted athletic program is a potent factor in the morale of a student body and an important phase of good community-school relations.

Every possible effort shall be made to offer equal opportunities for both sexes in sports and activities which shall include life sports that a student can carry through adulthood.

Although user fees are designed to partially offset the costs of extracurricular athletics, these programs shall be open to all students without regard for ability to pay. Funding shall be provided for student unable to pay for participation in approved sports and activities.

**Publication or Creation of Educational Materials — Copyrights: Printing and Duplication**

The Board of Education acknowledges the necessity of complying with federal laws governing the use of copyrighted material.

Infringement on copyrighted material, whether prose, poetry, graphic images, music, theatrical performances, video or computer code, is a serious offense against federal law and contrary to the ethical standards required of staff and students alike. The Board further recognizes that severe penalties are provided for unauthorized copying of audio, visual or printed materials unless the copying falls within the bounds of “fair use.”

The Board therefore requires that all reproduction of copyrighted material be conducted strictly in accordance with applicable provisions of law. Unless otherwise allowed as “fair use”, under federal law, permission must be acquired from the copyright owner prior to reproduction of material in any form.

The fair use of a copyrighted work for purposes of teaching, scholarship, or research is not an infringement of copyright. The following factors shall be considered in determining fair use:

1. The purpose and character of the use, including whether the use is of a commercial nature or for non-profit educational purposes.
2. The nature of the copyrighted work.
3. The amount and importance of the portion used in relation to the copyrighted work as a whole.
4. The effect of the use upon the potential market for or value of the copyrighted work.

The Board, therefore, requires that all reproduction of copyrighted material be conducted strictly in accordance with applicable provisions of law. Unless otherwise allowed as “fair use”, under federal law, permission must be acquired from the copyright owner prior to reproduction of material in any form. Prior written permission must be obtained whenever copyrighted plays and musical numbers are to be performed in public.

The Board therefore directs that:

1. Unlawful copies of copyrighted materials may not be produced on District-owned equipment or any other equipment on District property.
2. Unlawful copies of copyrighted materials may not be used with District-owned equipment or other equipment on District property.

Any District employee who willingly and knowingly violates the copyright policy shall be held personally liable for infringement and may be subject to disciplinary action. In no circumstances

shall it be necessary for District staff to violate copyright requirements in order to perform their duties properly. Copyrighted materials shall be treated as the property of the copyright holder, with all rights and limitations specified in the law.

~~It is illegal for anyone to duplicate copyrighted materials without permission, except to the extent such duplication may fall within the bounds of the "fair use" doctrine.~~

~~The Board further recognizes that severe penalties are provided for unauthorized copying of audio, visual or printed materials unless the copying falls within the bounds of "fair use".~~

~~Any duplication of copyrighted materials by employees, therefore, must be done with permission of the copyright holder or within the bound of "fair use" as set forth in the guidelines concerning use agreed upon by various representative groups of publishers, authors, composers, teachers and other affected parties.~~

**Drugs, Tobacco, Alcohol**

Since the use of these harmful agents may have a deleterious effect on the health and welfare of the users, and causes far-reaching detrimental consequences to the users, their families and society, the Board of Education desires that every effort be made by all staff members to reduce the chances that students will begin or continue use of such harmful drugs, tobacco and alcohol.

The professional staff shall become more aware of the problem, and become more expert in recognition of the symptoms of such use. Annually, teachers in each grade shall emphasize the effect of alcohol, nicotine, tobacco and drugs on health, character, citizenship and personality development wherever appropriate in the health education program and other contexts which touch on the subject.

It is desired that the administration make use of in-service training sessions for both appropriate certified and non-certified staff to achieve the goals of this policy, and that full cooperation with community agencies be given wherever such cooperation can be advantageous to the students.

### **Acquired Immune Deficiency Syndrome (AIDS)**

~~Acquired Immune Deficiency Syndrome (AIDS) is one of the most serious health problems that Americans have ever faced. As many as 1 to 1.5 million Americans may be infected with the virus that causes AIDS. Thousands of them are young adults and teens. AIDS does not discriminate and can affect anyone – male and female, rich and poor, white, Black, Hispanic, Asian and Native American.~~

~~Currently there is no cure for those infected with AIDS, but the Board believes that education is the best way to prevent the spread of AIDS. By learning the facts about AIDS, students will be able to make decisions that will keep them healthy and perhaps save their lives.~~

~~Students will be exempt from instruction on acquired immune deficiency syndrome upon written request of the parent or guardian in accordance with regulation.~~

In accordance with the provisions of Section 10-19(b) of the Connecticut General Statutes, it is the policy of the Board of Education to provide, during the regular school day, planned, ongoing and systematic instruction on Acquired Immune Deficiency Syndrome (AIDS). The Superintendent of Schools shall develop procedures concerning the exemption of students from such instruction upon the written request of the student's parent or guardian.

## Instruction

### English Language Learners

#### Limited English Proficiency Program (English Learners)

The Superintendent of schools shall establish services for English Language Learners (also referred to as limited English Proficient [LEP] students) in the district. The program may employ the student's native language and English for instruction. Identification of eligible students shall occur through the use of standardized assessments as required by the State Department of Education.

The program for LEP students shall concentrate on the following areas:

1. development of English language proficiency and literacy through English as a second language
2. teaching and student achievement in all the core content areas taught, especially language arts or reading, mathematics and science
3. long-term professional development for administrators associated with the program and for teachers of program students
4. parental notification and involvement.

Students will continue to be eligible for services until they achieve levels of mastery on English Language Learner assessments as defined by the State Department of Education.

 Title III of the Elementary and Secondary Education Act, [20 U.S.C.](#)

The Board of Education (Board) recognizes the need to provide equal educational opportunities for all students in the District. Therefore, if the inability to speak and understand English excludes a student from effective participation in the District's educational programs, the District shall take appropriate action to address the English language deficiency in order to provide the student with equal access to its programs. Multilingual learners or students who have limited English Proficiency (LEP) will be identified, assessed and provided appropriate services.

The Board believes that high-quality, comprehensive, and effective English Learner/Multilingual Learner and bilingual education programs are essential for students who are English Learners (ELs) to acquire English language and academic proficiency.

In compliance with Public Act 23-150, Section 17, the Board will provide the parents and guardians of eligible students with a copy of the Multilingual Learner Bill of Rights in the dominant language of such parents and guardians and post the document on the District website.

The Superintendent or his/her designee is directed to develop and implement procedures, consistent with the requirements of the Every Student Succeeds Act (ESSA) and the Connecticut State Department of Education (CSDE) ESSA plan which:

- Determine if a student is a potential EL student through adherence to the Home Language Survey Guidance and completion of the Home Language Survey (HLS).
- Administers the state-mandated English Language Proficiency (ELP) Screener when the review of the HLS results indicates the student may have a primary or home language other than English.

- Informs parents/guardians, in writing, if the results from the ELP assessment indicate the student qualifies as an English Learner.
- Implements English learner services for all identified students.
- Annually assess the English proficiency of all English learner students during the testing window using the state-mandated English language proficiency assessment. (Students can only exit EL status if they meet all EL exit criteria.)
- Monitor the progress of students receiving English as a Second Language (ESOL) or bilingual instruction in order to determine their readiness for the mainstream classroom environment.
- Provide parents with notice of and information regarding the instructional program as required by law and encourage parental appraisal of their child's program.

### Definitions

**English Learner (EL)** refers to a student whose proficiency in reading, writing, listening or speaking English is below that of grade and age-level peers. Limited English proficiency is based on the assessment of a student's English language proficiency.

**Multilingual Learner (ML)** refers to an asset-based approach that includes all the languages with which children and families interact or children who use two or more languages.

**English for Speakers of Other Languages (ESOL)** refers to an instructional approach that can include structured ESOL immersion, content-based ESOL and pull-out ESOL instruction.

**Bilingual Education** refers to an instructional approach that explicitly includes the student's native language in instruction. This approach requires an instructor fluent in the student's native language and proficient in content areas and is often used where many LEP students share the same language and where qualified bilingual teachers are available.

Parents who are not able to use English in a manner that allows full participation in educational planning for their child will be provided with written, verbal or signed communication in a language they can understand and a copy of the Parent Bill of Rights in their dominant language.

The goal of the ESOL program is to assist students in achieving fluency in English, including listening, comprehension, speaking, reading, and writing. The goal of the bilingual program is to permit students to learn subject matter in their dominant language while developing English language skills.

Parents/guardians of EL/ML students shall be notified by mail that their child is eligible for enrollment in a bilingual, ESOL or English language services education program. The written notice shall include the information that the parents may choose to enroll their child in the program.

Communications with parents/guardians of students in these programs shall be in writing, in both English and their dominant language.

### **Evaluation of the Instructional Program**

~~Appropriate means for continuing evaluation of the entire education program shall be established and maintained. Special attention shall be given to (a) elimination of discrimination as to race, color, creed, religious creed, age, marital status, national origin, sex or physical disability and (b) recognition of the individual child.~~

The Board of Education recognizes that education is a continuous process that cannot be satisfactorily achieved without the coordination and cooperation of all components of the entire system. To achieve the highest quality of education on all levels, a critical appraisal of the program as it operates in each school and at each level is essential. The purposes of evaluation of instruction are to:

1. indicate instructional strengths and weaknesses;
2. provide information needed for advance planning;
3. provide data for public information;
4. show the relationship between achievement and the school system's stated goals; and
5. check on the suitability of the instructional program in terms of community requirements.

A continuing evaluation will be conducted at the school and system-wide level. The needs as shown by this evaluation will be listed on a priority basis. School improvement programs will be aimed at meeting these needs.

The administration shall submit an annual report to the Board stating the strengths and weaknesses of the school program. Plans for correcting the weaknesses will be a part of the report.

WESTON PUBLIC SCHOOLS  
Weston, Connecticut

**CURRENT REGULATION IN 5000 SERIES READS AS FOLLOWS:**

**R 5141.5 Administrative Regulations Regarding Suicide Prevention and Intervention**

**Management of Suicidal Risk**

The school cannot be expected to thoroughly evaluate and eliminate suicidal risk. Nevertheless, the Weston Board of Education (the "Board") is committed to respond in a supportive manner, both aggressively and immediately, to a student who has attempted, has threatened, or is seriously considering attempting suicide. The following procedures shall be implemented toward this end.

- I. Any staff member who becomes aware of a student who may be at risk of suicide must immediately notify the building principal or their designee. This must be done even if the student has confided in the staff member and asked that their communication be kept confidential. The principal or designee will then notify an appropriate Pupil Personnel Services (PPS) administrator.
- II. A PPS staff member (e.g., a social worker or psychologist) shall complete a risk assessment, consider available background information and determine whether the student is at "low risk", "moderate risk" or "high risk."
- III. If the student is preliminarily assessed to be "moderate risk":
  - A. The PPS staff member shall notify the student's parent/guardian the same day or otherwise as soon as possible by calling each contact available to the school.
  - B. During the conversation with the student's parent/guardian, the PPS staff member shall discuss with the parent/guardian:
    - a. the seriousness of the situation
    - b. the potential need for any evaluations of the student
    - c. The need for continued monitoring of the student at home;
    - d. Referral to appropriate professional services outside the school system if the student is not already receiving support;
    - e. Request for the parent/guardian to sign a release of information form permitting communication between the student's therapist (if any) and any other appropriate individuals; and
    - f. The student's access to ongoing counseling within the school.
  - C. The PPS staff member shall document in writing the course of events, including what transpired during the staff member's conversation with the student's parent/guardian and the outcome.
  - D. The PPS staff member may notify other staff or any other appropriate agencies as necessary to protect the student and others, and may take any other steps they deem appropriate in light of the circumstances (e.g., referral to appropriate outside agencies or school-based teams and/or staff).
  - E. The PPS staff member or the team shall monitor the student's progress and shall consult as necessary with family, outside professionals and school staff.
- IV. If the student is preliminarily assessed to be at "high risk":
  - A. The PPS staff member shall ensure that the student is not left alone.
  - B. The PPS staff member shall notify the principal or their designee, who in turn will contact the student's parent/guardian. During the conversation with the student's parent/guardian, the principal or their designee shall discuss with the parent/guardian:
    - a. The seriousness of the situation
    - b. The steps the PPS staff members are taking in response to the preliminary assessment that the student is at "high risk":
    - c. The need for continued monitoring of the student at home at any such time that the student returns home;
    - d. Referral to appropriate professional services outside the school system if the student is not already receiving support;

- e. Request for the parent/guardian to sign a release of information form permitting communication between the student's therapist (if any) and any other appropriate individuals; and
  - f. The student's access to ongoing counseling within the school to support the student's access to school.
- C. The principal or designee shall call 911 to arrange for transport of the student to an appropriate evaluation/treatment site by means of emergency vehicle (e.g., ambulance or police cruiser).
  - D. The student shall be monitored by PPS staff until transfer to a higher level of care is complete.
  - E. The PPS staff member shall document in writing the course of events and may take any other steps they deem appropriate in light of the circumstances (e.g., referral to appropriate outside agencies or school-based teams and/or staff).
  - F. The PPS staff member shall inform the principal or their designee of the course of the events and the outcome.
  - G. The PPS staff member may notify any other staff, as necessary to protect the student and others.
  - H. When a student assessed to have been at "high risk" returns to the school, the PPS staff member or the appropriate school-based team (if such referral has been made) shall coordinate consultation with outside professionals, supportive services in school including a safety plan, and changes in the instructional program, as necessary.

#### **Suicide Education/Prevention - Students and Staff**

- I. As part of the Weston Public Schools' Health Education Curriculum and Developmental Guidance Curriculum, students will be educated in developmentally appropriate ways regarding suicide risk factors and warning signs, and how they might appropriately respond if confronted with suicidal behavior, verbalizations, or thoughts.
- II. Annually, in-service training for school staff will be held in each school building to discuss suicide risk factors, warning signs, and the procedures outlined in these regulations.

## **Mission and Function**

### **Goals and Objectives for School Operations/System**

Weston residents approach education with a strong belief in the importance of high educational standards for their community. As elected representatives, the Board of Education is committed to the support and development of a dynamic and flexible program of studies designed to effectively challenge the ability differences found among the school-age children of Weston.

Therefore, to meet its assigned tasks, the school system is striving -

1. To give each child a firm foundation and mastery of the basic skills in reading, writing, spelling and arithmetic so that he/she will have the necessary tools for further study.
2. To encourage the development of imaginative and creative thinking processes so that the children can deal with abstractions as well as concrete issues.
3. To foster scientific curiosity based upon an understanding of principles and concepts without de-emphasizing facts.
4. To stimulate an appreciation and understanding of the arts.
5. To develop in each child an understanding and appreciation of democracy so that he/she can take his/her rightful place in a democratic society.
6. To introduce the history of our culture and our social and economic institutions in relation to other world cultures and institutions.
7. To teach children about government - local, state, national, and international - so that they can assume their vital role as citizens on each level.
8. To develop in each child respect for the rights, property and opinions of others.
9. To instill in the students ethical and spiritual principles so that they will develop a good sense of values and have a firm foundation for reaching moral decisions.
10. To develop in each child an emotional stability that will enable him/her to function effectively.
11. To develop an awareness in each child of how to communicate and work with other people.
12. To teach children sound principles of health.

With these objectives in mind, the following summation may be interpreted as a beginning of an evolving statement of purposes for the Weston schools:

The guiding policy of the Board of Education is to create and sustain a public school system capable of developing to the utmost the resources of the children entrusted to it. The goal is to impart knowledge, and a love of knowledge; to teach each child to speak, to read, to write, to calculate, to think, and to do so with such initiative and imagination that each will be properly equipped to serve as a citizen of this community, this nation, this world, and to pursue self-education throughout life. To this end, the Board searches out principals and teachers who are imaginative, energetic, enthusiastic, as well as competent, and it strives to foster, in every way possible, an environment in which the children will thrive.
