Board Chair Pennel asks, at the high level, the ADM comment, are we getting reimbursed less than we should be or do we have less student count than we were expecting? Ms. Rufo explains how the ADM calculation is done, and we are still holding this year as we budgeted. Director Schiesser asks, what are the additional expenses for TLCS Online? Ms. Rufo answers, she feels she might not have budgeted high enough. We estimated a little low for what families would spend out of their allotment.

Director Eastburn asks about the master schedule. Ms. Tripp answers this and describes the IA schedule process.

6.5. PRINCIPAL'S REPORT

Director Clark asks if Ms. Bottensek can notify the board after state testing what the opt-out percentage is? Ms. Bottensek says yes, she can share that info after testing is complete. She also shares that our opt-out numbers are a lot higher for online than on campus. Ms. Bottensek shares that we do offer a testing location and a remote-at-home option this year for online families.

Ms. Bottensek offers to give a presentation of what the current state test blueprint looks like. The board says they would like to see that on a future agenda item.

Board Chair Pennel asks about the number of students for Outdoor School. Why has there been a drop? She shares that there are lots of different reasons.

6.6. SUPERINTENDENT'S REPORT

Superintendent Watkins shares that we are in the mode of reporting. We are in 3rd quarter for integrated guidance right now. He shares more about this process and the time frame for reporting.

He shares that we had a meeting with Cognia for our accreditation process, which will be occurring in April of 2025. We will be working on a team to manage this process.

Board Chair Pennel asks how often the accreditation process happens? Mr. Watkins answers, every 5 years.

Superintendent Watkins shares that we will be moving to a new Student Information System, Synergy, and our staff has been deep into training and shifting of data. We will be moving into this system for the 24-25 school year.

Director Eastburn asks if the cost will be a wash compared with our current system?

Superintendent Watkins shares that the uplift costs are a little more, but we are able to include it in our integrated guidance funds. Once we are fully using it, the cost will actually be a little less. We are also going to be able to have our SpEd system within Synergy now instead of a separate system.

Superintendent Watkins shares that there are a couple of grants we will be going after, in the areas of food services and safety. He will update the board as he has more information.

Superintendent Watkins thanks the board for attending the NSBA conference last weekend. He appreciated the time they dedicated to this and appreciated the time to collaborate and learn together.

Superintendent Watkins also reminds the board that if they plan to attend graduation please let Ms. Simington know so we can plan accordingly.

6.7. DIRECTORS REPORT

Director Eastburn shares about the NSBA conference. A highlight for him from the sessions was one that was focused on STEM, a free program/software that focuses on aviation. He is

looking forward to connecting with them and seeing what opportunities they could offer.

Director Sjostrom shares she really enjoyed the keynote speakers at the NSBA conference, and she felt they were some of the best she has heard in her career. She also liked the session for rural schools and the discussion about recruiting teachers.

Director Schiesser shares she also enjoyed the rural schools' session as well as many others she attended. She shares the appreciation of the keynote speakers and how they discussed the historical content, and she could relate as she lived through it. Realizing how much her life and career had tied into their history.

Director Clark shares that it was really good for her to get to know all the board members on a more personal relationship. She also enjoyed the keynote speakers and from one of her sessions she really enjoyed how the board can get to know their students and staff and build relationships and knowledge. She also attended one on budget and that was very insightful for her moving into budget season as a new board member.

Board Chair Pennel shares that he has been on the board for almost 20 years and this was his first National conference. He was surprised by how many connections he felt he could relate to rather than compared to the Oregon one. There was a lot more rural district attendance and support. He was able to listen to others' challenges and was appreciative of our community and school. Many of the rural districts seem to be well ahead of where we are in the state of Oregon as far as private and public partnerships, especially in regard to STEM. He referenced one schools plan for student graduation preparedness. He focused his attendance on parliamentary procedures meetings, he was happy to find that how we run our meetings are very similar to most districts he talked to, minus the strong disagreements. The second focus area related to AI. He now doesn't know if he should be really excited or really afraid of it. He just knows that we can't ignore this topic moving forward.

7. UNFINISHED BUSINESS

There was no unfinished business to go over.

8. NEW BUSINESS

Yea: 6, Nay: 0, Absent: 1

Superintendent Watkins shares he did not receive any feedback or questions from last meeting to this meeting in regard to the contract. He wants to share that this contract is very similar to the old contract, with the change that we replaced the area of Charter Board with District Board as far as who is in charge of areas. This is a rollover into a 5-year contract. He shares that we will still have scenarios for the community to give input and insight. The community can always reach out to our administrators and our board members as well.

Board Chair Pennel also adds that we could always add committees in the future as well, which will live at the building level. Next steps are, if the contract gets approved tonight, the application has already been approved-we are still a charter district, now the documentation goes to the state for their record of approval. There will not be any transitional bumps, we will just roll into the next contract.

Superintendent Watkins thanks the board for their attendance at the National School Board Conference. He appreciates their time spent working as a team, to continue to support our school.

Board Chair Pennel asks if there is any news from of OSAA. Superintendent Watkins shares that there is a new president-elect for next year. He appreciates their commitment to continued

support and excellent events for students. They are working to introduce two new sports, and have promoted girls wrestling. The two they are working towards are boys volleyball and girls flag football. Our sponsor for the flag football league in our area is the Seattle Seahawks. They are also looking for more support opportunities for youth opportunities.

Board Chair Pennel shares his hope that the committee understands that there are public meeting law and labor law that they need to be aware of. Nothing under contract can be discussed.

The committee continues their line by line assessment of the budget, proposing cuts be added to their final list for the end of the budget process. There were several motions throughout this process, as listed under actions, to decide if an item should be added to the suggested cuts list.

These are listed as up or down motions. A Yes vote means it remains untouched in the budget; a nay vote means they will cut the amount of this item. During one discussion around cutting funding for curriculum for this budget, Superintendent Watkins goes on record that he does not support the Health adoption being pushed out another year. He does not believe the district should go out of compliance by missing the adoption year, which is this upcoming year. The committee discusses this in depth, and an up or down motion is put on the table.

A final motion was put in place by BCM Burkert. She moved the Budget Committee to approve the revised budget for the 2024/ 2025 fiscal year in the amount of \$6,264,779 and revisions are attached with \$126,602 in reductions. This motion was carried, which will then be addressed in the next regular district board meeting.

BCM Burkert also asked for a motion to have the budget committee of Blachly School District #90 approve property taxes for the 2024-2025 fiscal year at the rate of .0051023 per \$1,000 of assessed value for the permanent rate tax levy. This motion carried.

The Board will formally evaluate the superintendent’s job performance ~~[at least once each year]~~. 3. Evaluations will be in writing and discussed with the administrator by the person who conducts the evaluation; and
4. The administrator being evaluated will have the right to attach a memorandum to the written evaluation, and have the right of appeal through established grievance procedures, if applicable.

An administrator’s evaluation shall use the following educational leadership-administrator standards¹ adopted by the State Board of Education.

4. A summative evaluation method for considering multiple measures of professional practice, professional responsibilities, and student learning and growth to determine the administrator's professional growth path;
5. Customized by the district, which may include individualized weighting and application of the standards.

An evaluation using the administrator standards must attempt to:

2. Refine the support, assistance and professional growth opportunities offered to the administrator, based on the individual needs of the administrator and the needs of the students, the school and the district;
3. Allow the administrator to establish a set of administrative practices and student learning objectives that are based on the individual circumstances of the administrator, including other assignments of the administrator;
4. Establish a formative growth process for each administrator that supports professional learning and collaboration with other teachers and administrators;
5. Use evaluation methods and professional development, support and other activities that are based on curricular standards and are targeted to the needs of the administrator; and

The district will purchase goods and services through the following procedures, unless an exception applies:

1. **Small Procurement.** For purchases of goods and services with a contract price not exceeding \$25,000, the district can use any manner deemed practical or convenient, including direct selection or award. Amendments to a contract awarded through small procurement must be in accordance with OAR 137-047-0800.
2. **Intermediate Procurement.** For purchases of goods and services with a contract price exceeding \$25,000, but not exceeding \$250,000, the district shall seek at least three informally solicited competitive price quotes or competitive proposals from prospective contractors. The district will keep record of the request and quotes. If three quotes are not reasonably available, fewer will suffice, but the district will make a written record of the effort made. The district may negotiate with a prospective contractor to clarify the quote or offer, or to effect modifications. Amendments to a contract awarded through intermediate procurement must be in accordance with OAR 137-047-0800.
3. **Regular Procurement.** For purchases exceeding \$250,000, the district will use competitive sealed bids (OAR 137-047-0255) or competitive sealed proposals (OAR 137-047-0260). Amendments to contracts awarded through regular procurement must be in accordance with OAR 137-047-0800.

In an emergency procurement, the district is not required to follow general procurement requirements. The district must ensure competition for the contract that is reasonable and appropriate under the circumstances. The district must document the nature of the emergency and the method used for the selection of the contractor.
5. **Sole-source Procurements.** If the LCRB or designee determines that the goods or services are available from only one source, the district may award a contract without competition. To the extent reasonably practicable, the district shall negotiate with the sole source to obtain contract terms that are advantageous to the district. The determination of sole source must be based on written findings and may include:

Personal Services Contracts. “Personal services contract,” as used in this policy, means a contract whose primary purpose is to acquire specialized skills, knowledge and resources in the application of technical or scientific expertise, or the exercise of professional, artistic or management discretion or judgment.⁸ Unless otherwise designated by the LCRB, personal services contracts will be procured in accordance with applicable procurement laws. The LCRB may designate certain service contracts or classes of service contracts as personal services contracts and exempt them from competitive bidding.^{9} All personal services contracts shall be based on demonstrated qualifications and competence to perform the required services, encourage competition, discourage favoritism and obtain services at a fair and reasonable price. Personal service contractors may be required to qualify as independent contractors in accordance with applicable laws.¹⁰

Procurements for services estimated to be in excess of \$250,000 shall go through the cost analysis and feasibility process in accordance with ORS 279B.030.

Public Improvements

“Public improvement” means a project for construction, reconstruction or major renovation on real property by or for the district.¹¹ The district will contract for public improvements using the following procedures, unless an exception applies.

1. Public improvements contracts with a value of less than \$25,000 are exempt from competitive bidding.
2. Intermediate Procurements. For public improvement contracts not exceeding \$100,000, the district may utilize three quotes¹²:

⁸ This includes, but is not limited to, contracts for the services of an accountant, physician or dentist, educator, consultant (including a provider under an Architectural and Engineering Service Contract), broadcaster, or artist (including a photographer, filmmaker, painter, weaver or sculptor (OAR 137-045-0010(19)). Also includes architectural, engineering, photogrammatic mapping, transportation planning or land surveying services procured under ORS 279C.105 (ORS 279C.100) and related services procured under ORS 279C.120 (ORS 279C.100(5)).

¹¹ Public improvement does not include:

1. Projects for which no funds of the district are directly or indirectly used, except for participation that is incidental or related primarily to project design or inspection; or
2. Emergency work, minor alternation, ordinary repair or maintenance necessary to preserve a public improvement.

¹² If three quotes are not reasonably available, the district shall make a written record of the effort made to obtain these quotes.

- a. The request for the quotes shall be in writing (unless not reasonably practicable)¹³;
- b. The request for quotes shall include the selection criteria and if the criteria are not of equal value, their relative value or ranking.

The district shall award the contract to the prospective contractor whose quote will best serve the interest of the district, based on the selection criteria. If the award is not made to the offeror and quote with the lowest price, the district will make a written record of the basis for the award. Amendments to a contract awarded via intermediate procurement may be increased in accordance with OAR 137-049-0160(6)-(7).

3. Regular Procurements. For purchases exceeding \$100,000, the district will use invitation to bid or request for proposals except as otherwise allowed by law. See OAR 137-049-0130 and OAR 137-049-0640. Amendments to contracts awarded through regular procurement must be in accordance with OAR 137-049-0910.
4. Emergency Procurements. Emergency contracts for construction services are not considered public improvement contracts and will be procured in accordance with OAR 137-049-0140 and OAR 137-049-0150.
5. Community Benefit Contracts. “Community benefit contract” means a public improvement contract that includes, but is not limited to, terms and conditions that require the contractor to:
 - a. Qualify as a training agent, as defined in ORS 660.010, or provide apprenticeship training that meets applicable federal and state standards for apprenticeship training;

Infection Control and Bloodborne Pathogens

{Optional policy. The requirements regarding an Exposure Control Plan and infection control, but are not limited to, are outlined below.}

The Board recognizes that staff and students incur some risk of infection and illness each time they are exposed to blood or other potentially infectious materials. While the risk to staff and students of exposure to body fluids due to casual contact with individuals in the school environment is very low, the Board regards any such risk as serious.

Consequently, the Board directs adherence to standard precautions. Standard precautions require that staff and students approach infection control as if all direct contact with human blood and body fluids is known to be infectious for bloodborne pathogens².

The district shall develop an Exposure Control Plan, in accordance with the requirements in law³.

The Exposure Control Plan shall be reviewed and updated at least annually and when necessary to reflect new or modified tasks and procedures which affect occupational exposure and to reflect new or revised employee positions with occupational exposure. The review and update shall also:

1. Reflect changes in technology that eliminate or reduce exposure to bloodborne pathogens;
2. Annually, document consideration and implementation of appropriate commercially available and effective safer medical devices designed to eliminate or minimize occupational exposure.

The plan shall include training followed by an offer of hepatitis B vaccine and vaccination series for all staff who are required to provide first aid to students and/or for all staff who have occupational exposure as determined by the district. Training shall be provided at the time of initial assignment to tasks where occupational exposure may take place and at least annually⁴ thereafter. Staff will receive the annual training⁵ as well as the location and a content review of first-aid and clean-up kits. Kits shall be readily

Injury or Illness Reports

{Required policy. ORS 339.309 requires a district school board establish policy for reporting incidents, e.g., injury.}

All injuries or illnesses¹, sustained by the employee while in the actual performance of the duty of the employee, occurring on district premises, in district vehicles, at a district-sponsored activity or involving staff members who may be elsewhere on district business will be reported immediately to a supervisor. Staff members will report self-administered first-aid² treatment to an immediate supervisor. All accidents involving employees, students, visiting public or district property will be reported immediately to a supervisor.

A written report will be submitted within 24 hours to the district's safety officer. Reports will cover property damage as well as personal injury.

In the event of a work-related³ illness or injury to an employee resulting in in-patient hospitalization for medical treatment⁴ other than first aid, loss of an eye, amputation or avulsion⁵ the district safety officer shall report the incident to the Oregon Occupational Safety and Health Division (OR-OSHA) within 24 hours after notification to the district of an illness or injury. Fatalities or catastrophes⁶ shall be reported⁷ to OSHA within eight hours.

ALL injuries or illnesses sustained by an employee, while in the actual performance of the duty of the employee or by a student or visiting public and accidents involving district property, employees, students or visiting public will be promptly investigated. As a result of the investigation any corrective measures needed will be acted upon.

¹ The Oregon Occupational Safety and Health Division provides: "Injury or illness" means an abnormal condition or disorder. Injuries include cases such as, but not limited to, a cut, fracture, sprain, or amputation. Illnesses include both acute and chronic illnesses, such as, but not limited to, skin disease, respiratory disorder, or poisoning (record injuries and illnesses only if they are new, work-related cases that meet one or more of the recording criteria). (OAR 437-001-0015(39))

² For employees, "first aid" means any one-time treatment and subsequent observation of minor scratches, cuts, burns, splinters, or similar injuries that do not ordinarily require medical care. Such one-time treatment and subsequent observation is considered first aid even though it is provided by a physician or registered professional personnel. (OAR 437-001-0015(34))

³ An injury or illness is work related if an event or exposure in the work environment either caused or contributed to the resulting condition or significantly aggravated a preexisting injury or illness. (OAR 437-001-0700(6))

⁴ "Medical treatment" is the management or care of a patient to combat disease or disorder. The following are not considered medical treatment: visits to a physician or other licensed health care professional solely for observation or counseling; diagnostic procedures, such as x-rays and blood tests, including administering prescription medications solely for diagnostic purposes; or any procedure that can be labeled first aid according to OAR 437-001-0700(8)(d)(A)(iii).

⁵ Amputations and avulsions are only required to be reported if they result in bone loss. (OAR 437-001-0704(4))

⁶ "Catastrophe" is an accident in which two or more employees are fatally injured, or three or more employees are admitted to a hospital or an equivalent medical facility. (OAR 437-001-0015(11))

Emergency Plan and First Aid**

{Highly recommended policy. This policy informs districts about requirement for an emergency procedures plan (OAR 581-022-2225), and other minimum standards for providing emergency care to students.}

The district will maintain a comprehensive safety program for all employees and students. This program will include a plan for responding to emergency situations. The superintendent will consult with community and county agencies while developing this plan. The district's emergency plan will meet any requirements of the State Board of Education.

Safety Threats**

{Required policy. Requirement for policy comes from ORS 339.324 which outlines actions of a school district when a safety threat action has occurred.}

“Safety threat action” means a lockdown, lockout, shelter in place or evacuation that: (a) is initiated by a school in response to a safety threat; and (b) is not a planned drill.

When a school or the district initiates a safety threat action, the school or district shall issue an electronic communication as expediently as possible and not later than 24 hours after initiation of the safety threat action. The communication will be issued in culturally appropriate languages to effectively communicate with parents and guardians of students attending the school at which the safety threat action occurred.

The communication must include:

1. A general description of the issue that caused the safety threat action to be taken;
2. The duration of time the safety threat action was taken, from when the action was initiated until when it concluded;
3. Actions taken by the school or district to resolve the situation that caused the safety threat action and actions taken to protect student safety; and
4. An explanation of how the situation was resolved.

The communication shall be provided in a manner which communicates relevant facts and details as may be necessary or useful for parents and guardians to understand any potential threats to student safety, and to assist parents and guardians in helping students understand and mentally process the incident and any resulting trauma.

A communication will also be issued to employees of the school at which the safety threat action occurred, and must include the same information as above and any additional information as may be permitted by relevant confidentiality and privacy requirements.

The Board may use Oregon Revised Statute (ORS) 192.660(2)(k) to conduct an executive session to consider matters related to school safety or a plan that responds to safety threats made toward a school in the district.

Sexual Harassment – GBN/JBA

Deleted: 7/31/20
Deleted: SL

Sexual harassment means conduct on the basis of sex that satisfies one or more of the following:

1. An employee of the district conditioning the provision of an aid, benefit, or service of the district on an individual's participation in unwelcome sexual conduct;
2. Unwelcome conduct determined by a reasonable person to be so severe, pervasive, and objectively offensive that it effectively denies a person equal access to the district's education program or activity¹¹;
3. "Sexual assault": an offense classified as a forcible or nonforcible sex offense under the uniform crime reporting system of the Federal Bureau of Investigation;
4. "Dating violence": violence committed by a person who is or has been in a social relationship of a romantic or intimate nature with the victim and where the existence of such a relationship shall be determined based on a consideration of the length of the relationship, the type of relationship and the frequency of interaction between the persons involved in the relationship;
5. "Domestic violence": felony or misdemeanor crimes of violence committed by a current or former spouse or intimate partner of the victim, by a person with whom the victim shares a child in common, by a person who is cohabitating with or has cohabitated with the victim as a spouse or intimate partner, by a person similarly situated to a spouse of the victim under the domestic or family violence laws of the jurisdiction receiving grant monies, or by any other person against an adult or youth victim who is protected from that person's acts under the domestic or family violence laws of the jurisdiction; or
6. "Stalking": engaging in a course of conduct directed at a specific person that would cause a reasonable person fear for the person's own safety or the safety of others, or suffer substantial emotional distress.

This definition only applies to sex discrimination occurring against a person who is a subject of this policy in the United States. A district's treatment of a complainant or a respondent in response to a formal complaint of sexual harassment may constitute discrimination on the basis of sex under Title IX.

Federal Procedures

The district will adopt and publish grievance procedures that provide for the prompt and equitable resolution of the student and employee complaints alleging any action that would be prohibited by this policy. See GBN/JBA-AR(2) - Federal Law (Title IX) Sexual Harassment Complaint Procedure.

Reporting

Any person may report sexual harassment. This report may be made in person, by mail, by telephone, or by electronic mail, or by any other means that results in the Title IX coordinator receiving the person's verbal or written report. The report can be made at any time.

~~The principal~~ is designated as the Title IX coordinator ~~and can be contacted at~~ 541-925-3262. The Title IX coordinator will coordinate the district's efforts to comply with its responsibilities related to this AR. The district prominently will display the contact information for the Title IX coordinator on the district website and in each handbook. ^{12}

Response

The district will promptly respond to information, allegations or reports of sexual harassment when there is actual knowledge of such harassment, even if a formal complaint has not been filed.¹³ The district shall treat complainants and respondents equitably by providing supportive measures¹⁴ to the complainant and by following a grievance procedure¹⁵ prior to imposing any disciplinary sanctions or other actions that are not supportive measures against a respondent. The Title IX coordinator is responsible for coordinating the effective implementation of supportive measures.

The Title IX coordinator must promptly contact the complainant to discuss the availability of supportive measures, consider the complainant's wishes, with respect to supportive measures, inform the complainant of the availability of supportive measures with or without the filing of a formal complaint, and explain to the complainant the process for filing a formal complaint.¹⁶

If after an individualized safety and risk analysis, it is determined that there is an immediate threat to the physical health or safety of any person, an emergency removal of the respondent can take place.¹⁷ The district must provide the respondent with notice and an opportunity to challenge the decision immediately following the removal. A non-student employee may also be placed on non-disciplinary administrative leave pending the grievance process.

Notice

The district shall provide notice to all applicants for admission and employment, students, parents or legal guardians, employees, and all unions or professional organizations holding collective bargaining or professional agreements with the district of the following:

1. The name or title, office address, electronic mail address, and telephone number of the Title IX coordinator(s);
2. That the district does not discriminate on the basis of sex in the education program or activity that it operates, as required by Title IX. This includes admissions and employment; and
3. The grievance procedure and process, how to file a formal complaint of sex discrimination or sexual harassment, and how the district will respond.

¹³ (Title 34 C.F.R. § 106.44(a)) Response cannot be deliberately indifferent. A recipient is deliberately indifferent only if its response to sexual harassment is clearly unreasonable in light of the known circumstances.

¹⁴ (Title 34 C.F.R. § 106.44(a)) Supportive measures means non-disciplinary, non-punitive individualized services offered as appropriate, as reasonably available, and without fee or charge to the complainant or the respondent before or after the filing of a formal complaint or where no formal complaint has been filed. Such measures are designed to restore or preserve equal access to the recipient's education program or activity without unreasonably burdening the other party, including measures designed to protect the safety of all parties or the district's educational environment, or deter sexual harassment.¹⁴ The district must maintain as confidential any supportive measures provided to the complainant or respondent, to the extent that maintaining such confidentiality would not impair the ability of the recipient to provide supportive measures. (Title 34 C.F.R. § 99.30(a))

¹⁵ This grievance procedure must meet the requirements of Title 34 C.F.R. § 106.45 (included in accompanying administrative regulation, *see* GBN/JBA-AR(2) - Federal Law (Title IX) Sexual Harassment Complaint Procedure).

¹⁶ The Title IX coordinator may also discuss that the Title IX coordinator has the ability to file a formal complaint.

¹⁷ The district may still have obligations under Individuals with Disabilities Education Act (IDEA), Section 504 of the Rehabilitation Act of 1973 or the American with Disabilities Act (ADA). (Title 34 C.F.R. § 106.44(c))

Deleted: 7/31/20

Inquiries about the application to Title IX and its requirements may be referred to the Title IX coordinator or the Main Office Secretary¹⁸, or both.

No Retaliation

Neither the district or any person may retaliate¹⁹ against an individual for reporting, testifying, providing evidence, being a complainant, otherwise participating or refusing to participate in any investigation or process in accordance with this procedure. The district must keep confidential the identity of parties and participating persons, except as disclosure is allowed under Family Educational Rights and Privacy Act (FERPA), as required by law, or to carry out the proceedings herein. Complaints of retaliation may be filed using these procedures.

Charging an individual with a code of conduct violation for making a materially false statement in bad faith in the course of a grievance proceeding does not constitute retaliation.

Publication

This policy shall be made available to students, parents of students and staff members. This policy [and contact information for the Title IX coordinator] shall be prominently published in the [school] [district] student handbook and on the [school] [district] website. This policy shall also be made available at each school office and at the district office. The district shall post this policy on a sign in all grade 6 through 12 schools, on a sign that is at least 8.5 inches by 11 inches in size. A copy of the policy will be made available to any [student, parent of a student, school or district staff member, or third party] [person] upon request.

Sexual Harassment

{Required policy. The requirement for this policy comes from ORS 342.700 et. al., OAR 581-021-0038 and federal Title IX laws.}

The district is committed to eliminating sexual harassment. Sexual harassment will not be tolerated in the district. All students, staff members and other persons are entitled to learn and work in an environment that is free of harassment. All staff members, students and third parties are subject to this policy. General Procedures

When information, a report or complaint regarding sexual harassment is received by the district, the district will review such information, report or complaint to determine which law applies and will follow the appropriate procedures. When the alleged conduct could meet both of the definitions in ORS Chapter 342 and Title IX, both complaint procedures should be processed simultaneously (*see* JBA/GBN-AR(1) - Sexual Harassment Complaint Procedure and JBA/GBN-AR(2) - Federal Law (Title IX) Sexual Harassment Complaint Procedure). The district may also need to use other complaint procedures when the alleged conduct could meet the definitions for other complaint procedures^{2}.

Note, "complainant" is defined under federal law.}

"Dating violence": violence committed by a person who is or has been in a social relationship of a romantic or intimate nature with the victim and where the existence of such a relationship shall be determined based on a consideration of the length of the relationship, the type of relationship and the frequency of interaction between the persons involved in the relationship;
5. "Domestic violence": felony or misdemeanor crimes of violence committed by a current or former spouse or intimate partner of the victim, by a person with whom the victim shares a child in common, by a person who is cohabitating with or has cohabitated with the victim as a spouse or intimate partner, by a person similarly situated to a spouse of the victim under the domestic or family violence laws of the jurisdiction receiving grant monies, or by any other person against an adult or youth victim who is protected from that person's acts under the domestic or family violence laws of the jurisdiction; or
6. "Stalking": engaging in a course of conduct directed at a specific person that would cause a reasonable person fear for the person's own safety or the safety of others, or suffer substantial emotional distress.

This definition only applies to sex discrimination occurring against a person who is a subject of this policy in the United States. A district's treatment of a complainant or a respondent in response to a formal complaint of sexual harassment may constitute discrimination on the basis of sex under Title IX.

Federal Procedures

The district will adopt and publish grievance procedures that provide for the prompt and equitable resolution of the student and employee complaints alleging any action that would be prohibited by this policy. See JBA/GBN-AR(2) - Federal Law (Title IX) Sexual Harassment Complaint Procedure.

Reporting

Any person may report sexual harassment. This report may be made in person, by mail, by telephone, or by electronic mail, or by any other means that results in the Title IX coordinator receiving the person's verbal or written report. The report can be made at any time.

{Building principal of TLCS} is designated as the Title IX coordinator and can be contacted at {541-925-3262}. The Title IX coordinator will coordinate the district's efforts to comply with its responsibilities related to this policy. The district prominently will display the contact information for the Title IX coordinator on the district website and in each handbook. {12}

¹¹ "Education program or activity" includes locations, events, or circumstances over which the recipient exercised substantial control over both the respondent and the context in which the sexual harassment occurs." (Title 34 C.F.R. § 106.44(a))

¹² {Note the difference in requirements for Title IX and Oregon law. It makes sense to align these requirements.}

Response

The district will promptly respond to information, allegations or reports of sexual harassment when there is actual knowledge of such harassment, even if a formal complaint has not been filed.¹³ The district shall treat complainants and respondents equitably by providing supportive measures¹⁴ to the complainant and by following a grievance procedure¹⁵ prior to imposing any disciplinary sanctions or other actions that are not supportive measures against a respondent. The Title IX coordinator is responsible for coordinating the effective implementation of supportive measures.

The Title IX coordinator must promptly contact the complainant to discuss the availability of supportive measures, consider the complainant's wishes, with respect to supportive measures, inform the complainant of the availability of supportive measures with or without the filing of a formal complaint, and explain to the complainant the process for filing a formal complaint.¹⁶

If after an individualized safety and risk analysis, it is determined that there is an immediate threat to the physical health or safety of any person, an emergency removal of the respondent can take place.¹⁷ The district must provide the respondent with notice and an opportunity to challenge the decision immediately following the removal. A non-student employee may also be placed on non-disciplinary administrative leave pending the grievance process.

Notice

The district shall provide notice to all applicants for admission and employment, students, parents or legal guardians, employees, and all unions or professional organizations holding collective bargaining or professional agreements with the district of the following:

1. The name or title, office address, electronic mail address, and telephone number of the Title IX coordinator(s);
2. That the district does not discriminate on the basis of sex in the education program or activity that it operates, as required by Title IX. This includes admissions and employment; and
3. The grievance procedure and process, how to file a formal complaint of sex discrimination or sexual harassment, and how the district will respond.

¹³ (Title 34 C.F.R. § 106.44(a)) Response cannot be deliberately indifferent. A recipient is deliberately indifferent only if its response to sexual harassment is clearly unreasonable in light of the known circumstances.

¹⁴ (Title 34 C.F.R. § 106.44(a)) Supportive measures means non-disciplinary, non-punitive individualized services offered as appropriate, as reasonably available, and without fee or charge to the complainant or the respondent before or after the filing of a formal complaint or where no formal complaint has been filed. Such measures are designed to restore or preserve equal access to the recipient's education program or activity without unreasonably burdening the other party, including measures designed to protect the safety of all parties or the district's educational environment, or deter sexual harassment.¹⁴ The district must maintain as confidential any supportive measures provided to the complainant or respondent, to the extent that maintaining such confidentiality would not impair the ability of the recipient to provide supportive measures. (Title 34 C.F.R. § 99.30(a))

¹⁵ This grievance procedure must meet the requirements of Title 34 C.F.R. § 106.45 (included in accompanying administrative regulation, *see* JBA/GBN-AR(2) - Federal Law (Title IX) Sexual Harassment Complaint Procedure).

¹⁶ The Title IX coordinator may also discuss that the Title IX coordinator has the ability to file a formal complaint.

¹⁷ The district may still have obligations under Individuals with Disabilities Education Act (IDEA), Section 504 of the Rehabilitation Act of 1973 or the American with Disabilities Act (ADA). (Title 34 C.F.R. § 106.44(c))

Use of Restraint or Seclusion**

{Required policy. The requirement for this policy comes from OAR 581-021-0556(12).}

The Board is dedicated to the development and application of best practices within the district's public educational/behavioral programs. The Board establishes this policy and its administrative regulation to define the circumstances that must exist and the requirements that must be met prior to, during, and after the use of restraint or seclusion as an intervention with district students.

The use of the following types of restraint on a student in the district is prohibited:

1. Chemical restraint.
2. Mechanical restraint.
3. Prone restraint.
4. Supine restraint.
5. Any restraint that involves the intentional and nonincidental use of a solid object¹, including a wall or the floor, to impede a student's movement, unless the restraint is necessary to prevent an imminent life-threatening injury or to gain control of a weapon.
6. Any restraint that places, or creates a risk of placing, pressure on a student's mouth, neck or throat.
7. Any restraint that places, or creates a risk of placing, pressure on a student's mouth, unless the restraint is necessary for the purpose of extracting a body part from a bite.
8. Any restraint that impedes, or creates a risk of impeding, breathing.
9. Any restraint that involves the intentional placement of the hands, feet, elbow, knee or any object on a student's neck, throat, genitals or other intimate parts.
10. Any restraint that causes pressure to be placed, or creates a risk of causing pressure to be placed, on the stomach or back by a knee, foot or elbow bone.
11. Any action designed for the primary purpose of inflicting pain.

The use of a seclusion cell is prohibited.

¹ The use of a solid object, including furniture, a wall, or the floor, by district staff performing a restraint is not prohibited if the object is used for the staff's own stability or support while performing the restraint and not as a mechanism to apply pressure directly to the student's body.

Restraint or seclusion may not be used for discipline, punishment, retaliation or convenience of staff, contractors or volunteers of the district.

Restraint may be imposed on a student in the district only under the following circumstances:

1. The student's behavior imposes a reasonable risk of imminent and substantial physical or bodily injury to the student or others; and
2. Less restrictive interventions would not be effective.

Seclusion may be used on a student in the district only under the following circumstances:

1. The student's behavior imposes a reasonable risk of imminent and serious bodily injury to the student or others; and
2. Less restrictive interventions would not be effective.

If restraint or seclusion is used on a student, by trained staff or other staff available in the case of an emergency when trained staff are not immediately available due to the unforeseeable nature of the emergency, e.g., teacher, administrator, or volunteer, it will be used only for as long as the student's behavior poses a reasonable risk of imminent and substantial physical or bodily injury to the student or others and less restrictive interventions would not be effective. Students will be continuously monitored by staff for the duration of the restraint or seclusion.

 - (3) Effectively protect oneself or another from an assault, injury or sexual contact with the minimum physical contact necessary for protection.

2. "Seclusion" means the involuntary confinement of a student alone in a room from which the student is physically prevented from leaving. Seclusion includes, but is not limited to, the involuntary confinement of a student alone in a room with a closed door, whether the door is locked or unlocked.

8. "Prone restraint" means a restraint in which a student is held face down on the floor.
9. "Supine restraint" means a restraint in which a student is held face up on the floor.

The district shall only utilize a training program for restraint or seclusion to train staff and use in the district which has been approved by the Oregon Department of Education (ODE).

The district shall preserve, and may not destroy, any records related to an incident of restraint or seclusion, including an audio or video recording. The records must be preserved in the original format and without alteration in accordance with law.

CIVIL RIGHTS COORDINATOR

Summary

[House Bill 2281](#) (2023), effective January 1, 2024, requires a district school board to designate one or more civil rights coordinators for the district. According to HB 2281, the civil rights coordinator may be an employee of the district or the district may contract with an ESD for the services of a civil rights coordinator.

HB 2281, Section 1 (see page 2 of the bill specifically) outlines the minimum responsibilities of a civil rights coordinator. Of note is the requirement to comply with rules adopted by the State Board of Education so OSBA is watching for news about these rules. Additionally, the bill includes use of the term “discrimination” which is defined further by ORS 659.850 and is used in the new bill. The bill further outlines a requirement for the Department of Education to make training available annually for these coordinators.

Finally, ORS 659.855, which allows the Superintendent of Public Instruction to sanction a public elementary or secondary school program if found in noncompliance with ORS 659.850 and 659.852, has been updated to include noncompliance with ORS 332.505(2) – Civil Rights Coordinator.

The bill can be read in its entirety with the link provided above.

There is no current requirement for language to be added to board policy or administrative regulation. The district may choose to add the proposed language to policy AC – Nondiscrimination. Oregon Administrative Rules from the Oregon State Board of Education are anticipated later this year, which will likely prompt another update to policy.

The district should consider posting notice of the designated civil rights coordinator and contact information together with the notice of nondiscrimination (and other notices) on the district’s website.

STUDENT REPRESENTATIVE(S) ON THE BOARD

Summary

The practice of installing student representative(s) on local school boards has increased, and therefore a desire for more policy and administrative regulation options has been voiced. OSBA policy services staff present the model policy and administrative regulation published herein as options for establishing a student representative on a local school board. Oregon does not mandate a student representative, it is up to local decision makers.

Collective Bargaining Impact

None

Local District Responsibility

Review the proposed policy and/or administrative regulation to determine whether it is appropriate for the board. The policy requires adoption by the board to enact and the administrative regulation may be submitted to the board for their review. EVALUATION OF THE SUPERINTENDENT AND ADMINISTRATOR(S)

Summary

There are not significant changes to policy on evaluation of the superintendent and administrators. However, it has been included in this update as a reminder to the board to review policy on evaluation of the superintendent to ensure current practice and contract language align, and for the superintendent to review administrator contract language with the same lens. If needed, revise policy language if different terms now apply.

Collective Bargaining Impact

None

Local District Responsibility

If the board has adopted a version of required policy CBG – Evaluation of the Superintendent or CCG – Evaluation of Administrators (as listed herein), take time to review the superintendent and administrator contracts to ensure there is not conflicting language adopted in board policy regarding the regularity of an evaluation. Revise board policy as needed and readopt.

PROCUREMENTS

Summary

OSBA recommends deleting the current versions of DJC – Bidding Requirements, DJC-AR – Exemptions from Competitive Bidding and Special Procurements, DJCA – Personal Service Contracts and DJCA-AR – Personal Service Contracts, and replacing them with the new proposed versions of DJC and DJC-AR. The proposed DJC outlines the procurement requirements for Small Procurement, Intermediate Procurement, Regular Procurement, Emergency Procurement, Sole-Source Procurement and Personal Services Contracts.

Additionally, the proposed policy DJC – Bidding Requirements, reflects the new amounts for the procurement levels passed in House Bill 1047 (2023) and went into effect January 1, 2024. The policy also defines “public improvements” for purposes of the procurement levels, defines “community benefit contract” and the “Construction Manager/General Contractor procurement.”

The proposed administrative regulation, DJC-AR – Exemptions from Competitive Bidding and Special Procurements, has been updated and continues to provide guidance for procurements which are exempt from competitive bidding or are special procurements.

Summary

The State Board of Education adopted revisions to Oregon Administrative Rule (OAR) 581-022-2220 on health services. The changes result in a requirement to develop “a written prevention-oriented health services plan for all students” (OAR 581-022-2220(1)). The plan requirements include a variety of topics, including but not limited to, plan for health care space, communicable disease prevention, communication strategies, health screenings, and hearing, vision and dental screenings.

As a result of these changes there is a list of policies and administrative regulations (AR’s), included herein, which have been revised. Recommendations may include to delete or rescind policy or AR, recoding, and reassigning some policy content to a new section or policy of the policy manual.

The entire rule can be accessed here: [OAR 581-022-2220](#). Reach out to the Oregon Department of Education with additional questions regarding plan requirements and/or implementation.

ODE [resources](#) and [School Health Services](#) include tools to support some requirements.

EMERGENCY PROCEDURES, FIRST AID and SAFETY THREATS

Summary

[House Bill 3584](#) was passed in the 2023 legislative session. The bill requires districts to adopt policy language about using electronic communication to notify parents, guardians and employees within 24 hours of a safety threat action that was not a drill. The bill states the communication should be “provided in a manner that communicates relevant facts and details as necessary and useful.” (HB 3584, Section 1., (3)(b)) More detail can be found by reading the entire bill.

SEXUAL HARASSMENT DEFINITION

Summary

House Bill 2280 (2023 Legislature) modified the definition of sexual harassment affecting schools and has since been followed up with new rule revisions. The revised definition changes the meaning of assault within the sexual harassment context and adds a section describing the meaning of “without consent,” which is also a new definition added to the law. REPORTING CHILD ABUSE

Summary

The Oregon Department of Human Services (DHS) reports the purpose of Senate Bill 231 (2023) was to align state law with the agency’s current process for receiving child abuse reporting, through a centralized child abuse reporting system established by DHS. Reports must still be submitted to DHS as directed or to a law enforcement agency.

The form found in **GBNAB/JHFE-AR(2) (JHFE/GBNAB-AR(2))** – Abuse of a Child Investigations Conducted on District Premises, is included for convenience and reference; **no updates were made.**

FINGERPRINTING

Summary

Newly revised rules regarding fingerprint collection offer the addition of a statewide vendor identified by DAS as an authorized fingerprint collector and removed the option for volunteers to appeal to ODE on a fitness determination issued by ODE. The other resulting changes come from a decision to have a stand-alone board policy.

SPECIAL EDUCATION and ABBREVIATED SCHOOL DAY

Summary

Board policy IGBAG – Special Education – Procedural Safeguards** and administrative regulations IGBAF-AR – Special Education – Individualized Education Program (IEP)**/* and JBAA-AR – Section 504 – Students**/* are being updated.

Changes in IGBAF-AR – Special Education: Individualized Education Program (IEP)**/* and JBAA-AR – Section 504 – Students**/* are due to the passage of Senate Bill 756 (2023) which requires district employees who are assigned to work with students who are on an IEP or 504 Plan, be invited to attend the student’s IEP meeting or 504 Plan meeting. The section

of the administrative regulation (AR) “Individualized COVID-19 Recovery Services” is deleted since the provision has sunset (see OAR 581-015-2229). IGBAF-AR is also updated to include information regarding abbreviated school days.

Changes in Board policy IGBAG are due to the passage of SB 758 (2023) to add language to the Independent Educational Evaluations section stating parents are entitled to examine their student’s record pertaining to identification, evaluation and educational placement, and the provisions of a free appropriate public education (FAPE) and setting a 10 business day timeline.

The legal references to IGBAF – Special Education – Individualized Education Program (IEP**) and JBAA – Section 504 – Students** (version 1 and 2) are updated to add references to the new laws.

COMPULSORY ATTENDANCE AND HOMESCHOOL REQUIREMENTS

Summary

School districts are still required to monitor for nonenrollment and irregular attendance issues and to send related notices in accordance with ORS 339.080, however, as the Oregon Department of Education has recently noticed, citations for compulsory attendance are no longer issued.

However, after collaboration with their ESD about which entity will be responsible for tracking whether any students who are homeschooled have registered with the ESD or are complying with ORS 339.035, a district may choose to issue a citation. After discussion with the ESD, if the district will be responsible for tracking such students, the district may choose to add bracketed language in JEA-AR – Compulsory Attendance Notices[and Citations]**, regarding their actions concerning citations related to violation of homeschool statute (ORS 339.035) for registration and testing. A school district or ESD superintendent may issue a citation for violations of ORS 339.035. Before doing so, there must be specific notice given, as provided by law, and proposed model language is included in JEA-AR.

Additionally, a violation of compulsory attendance law is no longer a Class C violation, however violation of ORS 163.577 (1)(c) (failing to supervise a child) is still a Class A violation.

The model policy and administrative regulation have been revised and updated to reflect changes.

ODE staff anticipates some upcoming changes to the Uniform Citation Form and will communicate as soon as it is available.

RESTRAINT OR SECLUSION RECORD AND CORPORAL PUNISHMENT

Summary

The procedures for responding to an incident of restraint or seclusion are found in ORS 339.294 and were amended by [Senate Bill 1024](#) (2023; see Section 3 which begins on page 5 of the SB). These amended procedures are represented in the recommended changes to model administrative regulation, JGAB-AR – Use of Restraint or Seclusion** and policy JGAB – Use of Restraint or Seclusion**. There are several changes to highlight of which two are: 1) addition of immediate notice to the parent or guardian of any existing record, including audio or video, of the incident (which will be preserved in the original format without alternation), and 2) such record shall be reviewed at the debriefing meeting, to which parents shall be invited.

Additional information regarding the preservation and disclosure of such records, which have record retention and disclosure implications, are outlined in the new [SB](#), subsection 9 and 10.

The changes are a result of the adopted language from the bill and related, revised OARs recently adopted by the State Board.

A change to ORS 161.205 on issues of corporal punishment was put into effect by Senate Bill 577; also effective now.

HEAD LICE (PEDICULOSIS)

Summary

Guidance on exclusion of students found with head lice has changed in recent years. There is now a consensus from other agencies, i.e., National Association of School Nursesⁱ, Center for Disease Control and Preventionⁱⁱ, Oregon School Nurses Association, which recommends against excluding students with head lice or nits from the classroom. Additionally, a rule, originally found in an Oregon Health Authority rule (OAR 333-019-0010), which allowed schools to create exclusionary practices for head lice, has since been repealed. Refer to [Communicable Disease Guidance for Schools](#) published by Oregon Health Authority and Oregon Department of Education for instructions on management.

As a result, OSBA is removing versions 1 and 2 of its model policy JHCCF – Pediculosis (Head Lice) and administrative regulations, leaving only what was a third version of the policy JHCCF – Pediculosis (Head Lice), which keeps a student in the classroom. See the *Communicable Disease Guidance for Schools* for more information.

The purpose of this summary is to make schools aware of some minor changes to the definition of public records under ORS 192.005, which describes any information generated by the school in course of business “necessary to satisfy the legal, administrative, fiscal, **tribal cultural** or historical policies, requirements or needs of the state agency or political subdivision.” (ORS 192.005 (5) as amended by House Bill 2112 (2023)) Other changes made in ORS 192, specifically 192.050 include updating terminology to how terms are used in today’s public operations, e.g., analog or digital audio and video tape technology changing to ***audio or video technology*** or ***audio recording and video recording***. Additionally, in ORS 192.060, any records made under ORS 192.040 and 192.050 “shall be properly indexed and **filed so as to facilitate access and retrieval.**” (ORS 192.060 as amended by House Bill 2112 (2023)) There are no policy changes resulting from this bill.

However, there are some other implications on appropriate administrative regulation (AR) language which are discussed herein under ‘district’ below.

(Delete this version and consider updated version.)

SPECIAL PROCUREMENTS

The district shall submit a written request to the Board, acting as the Local Contract Review Board (LCRB), that describes the contracting procedure, the goods and services or class of goods and services that are the subject of the special procurement and circumstances that justify the use of a special procurement under the standards as follows: the special procurement is unlikely to encourage favoritism in the awarding of a public contract or to substantially diminish competition for public contracts and, (A) is reasonably expected to result in substantial cost savings to the district or to the public, or (B) otherwise substantially promote the public interest in a matter that could not practicably be realized by complying with requirements that are applicable under ORS 279B.055, 279B.060, 279B.065, 279B.070 or under any related rules. Public notice of the approval of a special procurement must be given in the same manner as provided in ORS 279B.055(4). If the district intends to award a contract through special procurements that calls for competition among prospective contractors, the district shall award the contract to the contractor it determines to be most advantageous to the district. When the LCRB approves a class special procurement the district may award contracts to acquire goods and services within the class of goods and services in accordance with the terms of the approval without making a subsequent request for a special procurement.

1. Brand Names or Products, “Or Equal,” Single Seller and Sole Source
 - a. The district may purchase brand names or products from a single seller or sole source without competitive bidding subject to the limitations of this rule.
 - b. Solicitation specifications for public contracts of the district shall not expressly or implicitly require any product of any particular manufacturer or seller except as expressly authorized in subsections c. and d. of this rule.
 - c. The district may specify a particular brand name or equal specification when the use of a brand name or equal specification is advantageous to the district, because the brand name describes the standard of quality, performance, functionality and other characteristics of the product needed by the district.
 - (1) The district is entitled to determine what constitutes a product that is equal or superior to the product specified, and any such determination is final;
 - (2) The district is not prohibited from specifying one or more comparable products as examples of the quality, performance, functionality or other characteristics of the product needed by the district;
 - (3) A brand name specification may be prepared and used only if the district determines for a solicitation or class of solicitations that only the identified brand name specification will meet the needs of the district based on one or more of the following written determinations:

D

- (a) The use of a brand name specification is unlikely to encourage favoritism in the awarding of public contracts or substantially diminish competition for public contracts; or
 - (b) Specification of the brand name, mark or product would result in cost savings to the district; or
 - (c) There is only one manufacturer or seller of the product of the quality, performance or functionality required; or
 - (d) The efficient utilization of existing goods requires the acquisition of compatible goods and services.
- d. The district may award a contract for goods or services without competition when the LCRB determines in writing that the goods or services, or the class of goods or services, are available from only one source. The determination of the source must be based upon written findings that shall include:
- (1) A brief description of the contract or contracts to be covered, including contemplated future purchases;
 - (2) Description of the product or service to be purchased; and
 - (3) The reasons the district is seeking this procurement method, which shall include any of the following:

 - (c) That the goods or services are for use in a pilot or an experimental project; or
 - (d) To the extent reasonably practical, the contracting agency shall negotiate with the sole source to obtain contract terms advantageous to the contracting agency.
- e. The district may specify a product or service available from only one manufacturer but available through multiple sellers after complying with subsection c. above documenting the procurement file with the following information:
- (1) If the total purchase is over \$10,000 but does not exceed \$150,000, and a comparable product or service is not available under an existing Mandatory Use Contract, the district must obtain informal competitive quotes, bids or proposals and document this process in the procurement file;
 - (2) If the purchase does not exceed \$150,000, and the supplies or services are not available under an existing price agreement for information technology with competing products or Mandatory Use Contract, the district must first request and obtain prior written authorization from the LCRB to proceed with the acquisition.
- f. If the district intends to make several purchases of brand name-specific supplies and services from a particular manufacturer or seller for a period not to exceed five years, the district must so state this in the procurement file and in the solicitation document, if any, or a public notice of a solicitation. If the total purchase amount is estimated to exceed \$150,000, this shall be stated in the advertisement for bids or proposals.

Findings of Fact/Conclusion of Compliance with Law (OAR 125-247-0275)

The district shall submit a written request to the local contract review board that describes the contracting procedure, goods and services subject of the special procurement and the circumstances that justify the use of the special procurement.

- a. It is unlikely that this special procurement will encourage favoritism in the awarding of public contracts or substantially diminish competition for such contracts and is reasonably expected to result in substantial cost savings to the district which could not be realized under ORS 279B.055, 279B.060, 279B.065 or 279B.070 as required by ORS 279B.085(4).
- b. Public notice of the approval must be given in the same manner as provided in ORS 279B.055(4).
- c. This rule requires the districts to make a good faith effort to determine that no other sources are available for the specified products.
- d. The district maintains open lists from which vendors are contacted for quotations and utilizes electronic means of determining new vendors on an ongoing basis.
- e. The awarding of a contract as described in this special procurement should result in substantial cost savings by virtue of the ability to reduce solicitation costs when it is known that comparable products are not available, or when specifying another product solely to meet a competition requirement might lead to lower initial cost but longer lifetime cost.
- f. When the local review board approves a class special procurement the district may award contracts to acquire goods and services within the class of goods and services in accordance with the terms of the approval without making a subsequent request for procurement.

2. Advertising Contracts, Purchase of

- a. The district may purchase advertising in any media, regardless of a dollar amount, without competitive bidding.
- b. The Board acting as the LCRB of the district must use competitive methods whenever possible to achieve best value and must document in the procurement file the reasons why a competitive process was deemed impractical and the resulting contract must be in writing.
- c. If the anticipated purchase exceeds \$10,000 and a competitive method is used, the district must post notice on the OregonBuys.gov.

Findings of Fact

The district traditionally purchases advertising in newspapers. The following findings relate primarily to newspapers and written publications; however, the district may also purchase advertising for student activities or educational programs in other media, such as radio or television, where these findings apply:

- a. By their nature, media sources are generally unique. Advertisements are placed in a particular source because of the specific audience that source serves;
- b. Competition to furnish advertising space in daily newspapers of general, trade or business circulation in the vicinity of the district is limited;
- c. Cost savings are difficult to quantify where the sources are unique and not interchangeable;
- d. Advertisements may be placed to satisfy legal notice or Board policy requirements;
- e. Other published advertisements or notices, such as routine public notices, personnel recruitment information, etc., are placed in one or more of the publications of general circulation in the local area and other publications, as appropriate;

- f. The communities served by the district rely upon its use of the local daily newspaper as a central source of news and information regarding district activities;
- g. It is unknown whether contracts for advertisements placed with radio, television or other broadcast media are going to result in cost savings if not placed for competitive bid or request for proposal (RFP). If possible savings could be obtained through competitive means, the district would attempt to obtain competitive quotes or bids, as appropriate.

Conclusion of Compliance with Law

Due to limited competition and unique nature of sources, it is unlikely that this class special procurement will encourage favoritism in the awarding of public contracts or substantially diminish competition for such contracts. Further, any contracts awarded under this class special procurement would result in a cost savings available to the district where the district can achieve volume savings through contracts for advertising with a particular media source, or otherwise substantially promote the public interest.

3. Advertising Contracts, Sale of

The district may sell advertising for district publications and activities, regardless of a dollar amount, without competitive bidding, including school newspapers, yearbooks, athletic programs, drama or music programs and the like.

Findings of Fact

Sales of advertising for student activities are generally other fund revenues, where student groups solicit advertisements from local businesses to help with the cost of the activity itself. A common example is the sale of advertising in school newspapers and yearbooks. The circulation of the newspaper and yearbook is limited to the students, teachers, parents and interested members of the community associated with the activities of that particular school. Due to the limited circulation and audience, the businesses that participate by purchasing advertising do so partly in the spirit of good will. Any business is welcome to place an advertisement in the school newspaper or yearbook; all it needs to do is to contact any district school department which publishes one. The district itself would not achieve any increased revenue to the General Fund by seeking competitive bids or proposals for such advertising. This holds true for other student activities, such as athletics, drama or music events and the like.

Conclusion of Compliance with Law

These findings indicate that it is unlikely that this special procurement will encourage favoritism in the awarding of public contracts or substantially diminish competition for such contracts. Any business or individual who wishes to advertise in this manner may do so by simply contacting the student group responsible for the activity.

The sale of advertising for student activities such as school newspapers, yearbooks, athletic, drama or music programs would not benefit from competitive procurement. Such a requirement would place an unnecessary burden on the student group's activity and there is no financial advantage to the district in doing so. Consequently, the cost savings test is not an issue.

4. Equipment Repair and Overhaul

a. The district may enter into a public contract for equipment repair or overhaul without competitive bidding, subject to the following conditions:

- (1) Service or parts required are unknown and the cost cannot be determined without extensive preliminary dismantling or testing; or
- (2) Service or parts required are for sophisticated equipment for which specially trained personnel are required and such personnel are available from only one source; and
- (3) The purchase is made within the limits and pursuant to the methods in subsection b. of this rule.

b. The following limitations apply to this rule:

- (1) If the contract is less than or equal to \$150,000, the school or department shall submit in writing to the [superintendent] or designee the reasons why competitive bids or quotes are deemed to be impractical. The [superintendent] or designee will accordingly document in its procurement file and may enter directly into the contract;
- (2) If the school or department official thinks the contract may exceed \$150,000, they shall submit in writing to the [superintendent] or designee the reasons why competitive bidding is deemed to be impractical and a description of the cost savings to be obtained by a special procurement. The [superintendent] or designee may prepare a specific request for the anticipated contract to be obtained through special procurement procedures to submit to the LCRB for approval.

Findings of Fact

- a. The need for equipment repair or overhaul cannot be anticipated by district staff. If a piece of equipment is broken or not working properly, the district incurs cost of downtime, possible replacement equipment rental fees, staff time and other inconveniences or liabilities to its programs.
- b. Generally, there are a limited number of vendors who are able to perform repair or overhaul on a particular piece of equipment because of its make or manufacture. Sophisticated equipment may require specially trained personnel available from only one source. Often, a piece of equipment will have a partial warranty in place which will guarantee some savings to the district in the parts and/or labor needed to do the repair or overhaul. This warranty savings may only be achieved if the original manufacturer or provider of the equipment performs the necessary repair or overhaul.
- c. The dollar limits on the use of this special procurement procedure ensure that when the cost of the equipment repair or overhaul is expected to exceed \$150,000, the district will either seek formal competitive bids or, if that is not practical or cost effective, obtain a specific special procurement procedure from the LCRB to proceed with the purchase of the needed repair or overhaul.

Conclusion of Compliance with Law

It is unlikely that this special procurement procedure will encourage favoritism in the awarding of public contracts or substantially diminish competition for such contracts because the dollar limits incorporated into this special procurement when the anticipated costs exceed \$150,000, insure the district will seek formal competitive bids and proposals. If the formal process is not practical, the

district will obtain a specific exemption from the LCRB to proceed with the purchase of the needed repair or overhaul.

The awarding of public contracts under this special procurement will result in a cost savings to the district, as required by ORS 279B.085, because the district incurs direct and indirect costs from the moment equipment breaks down or becomes unusable. This special procurement only applies to equipment already owned by the district and does not provide for the purchase of new equipment. The district must be able to purchase necessary services and parts as quickly as possible in order to minimize equipment downtime and potential costs during that downtime.

5. Copyrighted Materials

The district may, without competitive bidding and regardless of a dollar amount, purchase copyrighted materials where there is only one known supplier available for such goods. Examples of copyrighted materials covered by this special procurement procedure may include, but are not necessarily limited to, newly adopted textbooks/instructional materials, workbooks, curriculum kits, reference materials, audio and visual media and non-mass-marketed software from a particular publisher or their designated distributor.

Findings of Fact

- a. By their nature, copyrighted materials are protected for the use of a single owner. Copyrighted materials may not be duplicated by others without the copyright owner's permission or license. Copyrights are established and regulated under federal law.
- b. Often, copyrighted materials are produced by only one supplier who may be the owner of the copyright or their licensee. Textbooks/Instructional materials are examples of copyrighted materials that the district purchases through a sole source. Textbooks/Instructional materials are adopted through a statewide process under the authority of the Oregon Department of Education. A textbook/instructional material adoption defines the various materials which the district will purchase for use in its educational programs.

The district purchases its textbooks/instructional materials through the Northwest Textbook Depository. This practice enables the regional textbook depository to purchase and warehouse textbooks/instructional materials in conformance with adoptions made in the states of their region. The result is that savings are achieved through the depository's combined purchases on behalf of member districts. Freight costs for individual districts are reduced by the bulk purchases of the depository and the depository takes on the cost of stocking and warehousing enough to meet each member district's needs.

The system of textbook/instructional materials distribution enables the district to participate in the largest possible bulk purchasing activity of adopted textbooks/instructional materials in the region. This ensures a cost savings to the district. A savings that would be jeopardized if the district was to act as an individual purchaser.

Conclusion of Compliance with Law

This special procurement will not encourage favoritism or substantially diminish competition in the awarding of public contracts. The production and distribution of copyrighted materials is controlled by the owner of the copyright and may only be permitted through a sole source. The district has no control over this.

The awarding of contracts pursuant to this special procurement will result in a cost savings to the district when it needs to purchase copyrighted materials and there is only one known supplier for such goods, or otherwise substantially promote the public interest.

6. Product Prequalification

- a. When specific design or performance specifications must be met or such specifications are impractical to create or reproduce for a type of product to be purchased, the district may specify a list of approved or qualified products by reference to the prequalified product(s) of particular manufacturers or vendors in accordance with the following product prequalification procedure:
 - (1) The district will make reasonable efforts to notify all known manufacturers and vendors of competing products of the district's intent to compile a list of prequalified products. The notice will explain the opportunity manufacturers and vendors of competing products will have to apply to have their product(s) included on the district's list of prequalified products. At its discretion, the district may provide notice by advertisement in a trade paper of general statewide circulation or other appropriate trade publication; or instead of advertising, the district may provide written notice to those manufacturers and vendors appearing on the appropriate list maintained by the district; and
 - (2) The district will accept manufacturer and vendor applications to include products in the district's list of prequalified products up to 15 calendar days prior to the initial advertisement for bids or proposals for the type of product to be purchased, unless otherwise specified in the advertisement or in the district's written notice.
- b. If the district denies an application for including a product on a list of prequalified products, the district shall promptly provide the applicant with a written notice of the denial and include the reason for denial. The applicant may submit a written appeal within seven calendar days to the district business manager to request review and reconsideration of the denial.

Findings of Fact

- a. There are occasions when the district needs to establish a list of prequalified products before it invites bids or proposals to furnish the products. The district may have a specific performance or design need, but it is impractical for the district to create a specification for the type of products to be purchased. An example is audiovisual equipment. There is a tremendous variety of audiovisual products offered in the market. The equipment technology is complex and constantly changing. It would be very burdensome and time consuming for the district to generate nonbrand name, generic performance specifications for such equipment every time it wants to make a purchase.

Also, competition would be poorly served because bidders and proposers would not know in advance whether their offered product would meet the general specification substantially enough to be considered a responsive offer. The decision to make an award would be slow, because each product offered would have to be analyzed against the district's specification. Slowdown in the award process affects both bidders, who are asked to hold their bids open until award is made, and district programs, because staff are not able to order the equipment they need until the contract is awarded.

D In this case, it might be more cost effective and efficient for the district to prequalify products and establish a list of approved products before invitations to bid are sent out. The prequalification process can be done some time before the need for a new contract. Once the prequalified product list is established, the bidding and contract award process can go quickly and smoothly.

- b. A second occasion when prequalification of products will be useful is when the specific design or performance specifications for a product are so exacting that the district must have time to carefully consider what is offered in the market that may or may not meet the specifications and, if necessary, reconsider its options before issuing an invitation to bid.
- c. This rule sets out a process of prequalification which requires the use of advertisement or other appropriate means to notify vendors of competing products of their opportunity to submit items for prequalification. The district maintains vendor mailing lists which are open to all interested vendors. The district uses these lists routinely to notify vendors of its intentions to prequalify products or to invite bids on products.
- d. This includes a 15-day time limit between the closure of a prequalification list and a related invitation to bid. This time factor ensures that vendors have a reasonable time to apply to include their products on a prequalified product list.
- e. Subsection b., of this rule provides vendors with an appeal process to follow if their application for prequalification is denied.

Conclusion of Compliance with Law

Where prequalification of products is appropriate, it is unlikely that this special procurement will encourage favoritism in the awarding of public contracts or diminish competition for such contracts. There are several safeguards in the rule to prevent this, including notice, advertising, time and appeal process requirements to ensure that vendors are given a fair and open opportunity to participate in the prequalification process.

The prequalification of products process is a time-consuming effort for the district. It is not a shortcut procurement method. The district would use this method only after balancing cost-saving considerations, such as the ability of the district to create or generate nonbrand name generic specifications for types of products or the need for lengthy product evaluation prior to a contract award. If the prequalification method is chosen, it will result in a cost savings to the district because the normal method of product selection is too cumbersome and costly to pursue, or otherwise substantially promote the public interest.

7. Requirements Contracts (Blanket Purchase Orders, Price Agreements)¹

- a. The business manager, on behalf of the district, may establish requirements contracts for the purposes of minimizing paperwork, achieving continuity of product, securing a source of

¹ OregonBuys.gov allows authorized members to utilize the state's price agreement/contracts to purchase goods and services. Authorized OregonBuys members can legally attach to a state price agreement and forego the competitive bid process. Access to hundreds of competitive price contracts for a wide variety of goods and services: vehicles, computers, furniture, copiers, fax machines, travel, pharmaceuticals, office products, etc., is available. Counties, cities, schools, municipalities or their public corporate entities having local governing authority, a United States governmental agency or American Indian tribe or agency are eligible to participate.

supply, reducing inventory, combining district requirements for volume discounts, standardization among school and departments and reducing lead time for ordering.

- b. The district may enter into a requirements contract (also known as a blanket purchase order or price agreement) whereby it is agreed to purchase goods or services for an anticipated need at a predetermined price or price discount from a price list, provided the contract is led by a competitive procurement process pursuant to the requirements of the public contracting code and these rules.
- c. Once a requirements contract is established, schools and departments may purchase the goods and services from the awarded contractor without first undertaking additional competitive solicitation.
- d. School and departments shall use requirements contracts established by the district, unless otherwise specified in the contract, allowed by law or these rules or specifically authorized by the [superintendent] or designee.
- e. Under the authority of ORS 279A.025 and 279B.085, the district may use the requirements contracts entered into by another Oregon public agency when:
- (1) The original contract met the requirements of public contracting code; and
 - (2) The original contract allows other public agency usage of the contract; and
 - (3) The original public contracting agency concurs and this is documented by a written interagency agreement between the district and the agency.
- f. The term of any district requirements contract, including renewals, shall not exceed five years unless otherwise permitted under the public contracting code.

Findings of Fact

- a. This rule permits the district to enter into a requirements contract, in which the vendor agrees to provide specified goods and services over the term of the contract at the bid price or discount rate. A requirements contract is useful when the purchase of the goods or services are routine and repetitive. For example, school, office, custodial and facilities maintenance supplies are customarily purchased through requirements contracts.
- b. Requirements contracts are a common method of minimizing paperwork, achieving continuity of product, securing a source of supply, reducing inventory, obtaining volume discounts, standardizing usage among schools and departments and reducing lead time for ordering.
- c. The district establishes a requirements contract as a result of open competitive bidding or RFP processes, unless otherwise permitted under the public contracting code.
- d. The district limits the term of a requirements contract, including all renewal options, to a maximum of five years before competitive rebidding must be done, unless otherwise permitted under the public contracting code.
- e. The district may use the requirements contracts established by other public agencies, subject to certain conditions of state law, Board policy and administrative regulation.

Conclusion of Compliance with Law

It is unlikely that this special procurement will result in favoritism in the awarding of public contracts or diminish competition for such contracts. The district will only enter into requirements contracts which result from open competitive bidding processes. This condition applies also to the use of requirements contracts established by other public contracting agencies.

The awarding of district requirements contracts will result in a cost savings to the district, or otherwise substantially promote the public interest. It would be costly and inefficient to make routine, repetitive purchases of goods and services through individual transactions. Also, the guaranteed volume of a requirements contract allows the district to get better prices from bidders.

8. Used Personal Property or Equipment, Purchase²

- a. Subject to the provisions of this rule, the district may purchase used property or equipment without obtaining competitive bids or quotes, if the district has determined that the purchase will result in cost savings to the district and will not diminish competition or encourage favoritism. “Used personal property or equipment” is property or equipment which has been placed in its intended use by a previous owner or user for a period of time recognized in the relevant trade or industry as qualifying the personal property or equipment as “used” at the time of district purchase. Used personal property or equipment generally does not include property or equipment if the district was the previous user, whether under a lease, as part of a demonstration, trial or pilot project or similar arrangement.
- b. For purchases of used personal property or equipment costing less than or equal to \$150,000, the district shall, where feasible, obtain three competitive quotes unless the district has determined and documented that a purchase without obtaining competitive quotes will result in cost savings to the district and will not diminish competition or encourage favoritism.
- c. For purchases of used personal property or equipment totaling \$150,000 or more, the district shall attempt to obtain three competitive quotes. The district will keep a written record of the source and amount of quotes received. If three quotes are not available, a written record must be made of the attempt to obtain quotes.

Findings of Fact

- a. The district is responsible to manage expenditures in the best interests of the public. Cost savings can be achieved through the procurement of used property and equipment. The district purchases used property and equipment when it meets the district’s needs and is cost effective. Considerations include type, quality, quantity and estimated useful life of the used item.
- b. Used equipment and property becomes available sporadically and without notice. Used equipment and property is generally sold on a first-come, first-served basis. When used property or equipment does become available, the district must be able to respond immediately in order to obtain the property or equipment.
- c. Some types of property or equipment may not be readily available in the new goods market. The district may have to look for used items to fill the need.
- d. Competition to provide used property and equipment may be very limited and inconsistent, depending on the type of product.
- e. The district maintains vendor lists which include information on whether a vendor provides used property or equipment. These lists are open to all vendors.

² When contracting with another governmental entity, a district has a statutory exception under ORS 279A.025. The district may purchase state/federal surplus property through the Department of Administrative Services, State Services Division for Surplus Property. For more information on this program, contact DAS at 503-378-4714.

Conclusion of Compliance with Law

D It is unlikely that this special procurement will encourage favoritism in the award of public contracts or substantially diminish competition for such contracts. The purchase of used property or equipment depends on an inconsistent, sporadic market. When a used item is available, there is often little competition available. Sources for used items of the type, quality and quantity required by the district are inconsistent. This rule requires the district to attempt to obtain and document quotes as appropriate to the dollar amount of the purchase. If the anticipated purchase is over \$150,000, the district will advertise its need.

The use of this special procurement will result in a cost savings to the district, or otherwise substantially promote the public interest. The cost of used equipment or property is generally substantially less than that of new. Savings of 20 percent to 50 percent are not uncommon. Used equipment can provide good value to the district and help ensure the continuation of district services and programs.

9. Information Technology Contracts

The district may enter into a contract to acquire information technology hardware and software without competitive bidding subject to the following conditions:

- a. If the contract amount does not exceed \$150,000, the district shall attempt to obtain three competitive quotes pursuant to the rules governing Intermediate Procurements. The district shall keep a written record of the sources of the quotes or proposals received. If three quotes or proposals are not reasonably available, fewer will suffice, but the district shall make a written record of the effort made to obtain the quotes or proposals.
- b. If the contract amount exceeds \$150,000, the district shall determine and use the best procurement method, pursuant to the public contracting code and these rules, and shall solicit written proposals in accordance with the requirements of the *Attorney General's Model Public Contract [and LCRB] Rules*. The district shall document the evaluation and award process, which will be part of the public record justifying the award;
- c. If the amount of the contract is estimated to exceed [\$150,000], the district shall provide proposers an opportunity to review the evaluation of their proposals before final selection is made.

Findings of Fact

- a. Rapid changes in technology make it necessary for the district to be able to purchase needed computer equipment quickly.
- b. Pricing for high-technology equipment also changes rapidly. It is frequently possible to take advantage of frequent price changes in the marketplace in the purchase of computer equipment.
- c. There is generally sufficient competition among vendors of information technology hardware and software for district business.
- d. The district will follow rules governing special procurements and obtain at least three informally solicited quotes for purchases less than or equal to \$150,000.
- e. If the district requires a brand name or sole source product, the district will follow its rule governing Brand Names or Products, "Or Equal," Single Seller and Sole Source, Section 1. under Special Procurements, to procure it.

Conclusion of Compliance with Law

It is unlikely that this special procurement will encourage favoritism in the award of district contracts or substantially diminish competition for district contracts. The purchase of information technology hardware and software will be made in accordance with other competitive bidding rules contained in this administrative regulation. If the anticipated purchase is over \$150,000, the district will advertise its need.

The use of this special procurement will result in a cost savings to the district, or otherwise substantially promote the public interest. Competition will be encouraged at all dollar levels of purchase of information technology hardware and software. This rule gives the district some flexibility in selecting the method of competitive procurement but requires adherence to the rule on brand name or sole source acquisitions if those situations occur.

10. Telecommunications Systems - Hardware and Software Contracts

- a. The district may enter into a contract to acquire telecommunications system hardware and software, without competitive bidding, subject to the following conditions:
 - (1) If the contract amount does not exceed \$150,000, the district shall attempt to obtain three competitive quotes pursuant to the rules governing Intermediate Procurements. The district shall keep a written record of the sources of the quotes or proposals received. If three quotes or proposals are not reasonably available, fewer will suffice, but the district shall make a written record of the effort made to obtain the quotes or proposals.
 - (2) If the contract amount exceeds \$150,000, the district shall determine and use the best procurement method, pursuant to the public contracting code and these rules and shall solicit written proposals in accordance with the requirements of Chapter 137, Divisions 047 and 049 of the *Attorney General's Model Public Contract [and LCRB] Rules*. The district shall document the evaluation and award process, which will be part of the public record justifying the award.
- b. The telecommunications solicitation authorized in subsection 10.a.(1) of these rules shall:
 - (1) State the contractual requirements in the solicitation document;
 - (2) State the evaluation criteria to be applied in awarding the contract and the role of any evaluation committee. Criteria that would be used to identify the proposal that best meets the district's needs may include, but are not limited to, cost, quality, service and support, compatibility, product or system reliability, vendor viability and financial stability, operating efficiency and expansion potential;
 - (3) State the provisions made for bidders or proposers to comment on any specifications which they feel limit competition.

Findings of Fact

- a. Rapid changes in technology make it necessary for the district to be able to purchase needed telecommunications hardware and software quickly.
- b. Since deregulation, there is generally adequate competition among vendors of telecommunication hardware and software to allow the district to make competitive purchases.
- c. Pricing for telecommunications hardware and software also changes frequently. It is important for the district to take advantage of price competition in the marketplace.

- d. The district will follow procedures governing special procurements and document reasonable efforts to obtain at least three informally solicited quotes for purchases over \$10,000 but less than or equal to \$150,000.
- e. If a purchase of telecommunications hardware or software is expected to cost more than \$150,000, the district will use a formal competitive bidding or proposal process in accordance with these rules and the *Attorney General's Model Public Contract [and LCRB] Rules*.
- f. There are also times when the district needs to purchase specific items that are compatible with current equipment. On these occasions, the district will follow its rule governing Brand Names or Products, "Or Equal," Single Seller and Sole Source, Section 1. under Special Procurements, to make the purchase.

Conclusion of Compliance with Law

It is unlikely that this special procurement will encourage favoritism in the awarding of public contracts or substantially diminish competition for such contracts. The purchase of telecommunications hardware and software will be made in accordance with other competitive bidding rules herein. If the anticipated purchase is over \$150,000, the district will advertise its need.

The use of this special procurement will result in a cost savings to the district, or otherwise substantially promote the public interest. Competition will be encouraged at all dollar levels of purchase of telecommunications hardware and software. This rule gives the district some flexibility in selecting the method of competitive procurement but requires adherence to the rule on brand name or sole source acquisitions if those situations occur.

11. Telecommunications Services

- a. The district shall secure the most competitive, cost-effective telecommunications services of the quality needed to meet all service performance requirements while minimizing administrative and service delivery costs. The district will use routine purchasing procedures whenever possible, but if necessary, the district can consider alternative procurement methods in accordance with this rule.

The district will generally follow the normal competitive procurement processes in obtaining telecommunications services. This process will only be used if necessary where there is a lack of sufficient competition to furnish needed services.

- b. In determining the appropriate procurement method for telecommunications services, the district shall comply with the requirements of ORS 291.038 and determine whether competition exists. In determining whether competition exists, the district may consider the following factors:
 - (1) The extent to which alternative providers exist in the relevant geographic and service market; the greater area of [Insert Name] County;
 - (2) The extent to which alternative services offered are comparable or substitutable in technology, service provided and performance. For example, if the district requires digital services, analog services are not comparable or substitutable. If the district requires fiber optic technology, then copper, microwave or satellite transmission technology may not be comparable or substitutable;
 - (3) The extent to which alternative providers can respond to the district's interest in consistency and continuity of services throughout its service area, volume discounts,

D

equitable service for all users, centralized management and limiting district liability. For example, to be considered as the district's long-distance service provider, any long-distance service vendor must be able to meet, support and interface with the district's centralized automated billing requirements. The district must document for the record, its findings on these factors or any other factors used in determining whether competition exists. In developing its findings, the district may solicit the information either through informal telephone or written contacts or through a formal solicitation such as a RFP.

- c. If the district determines that competition does not exist in the area for the relevant service, the district may proceed to secure the service on a sole source basis, as described in the district's rule governing Brand Names or Products, "Or Equal," Single Seller and Sole Source, Section 1. under Special Procurements.

Findings of Fact

- a. Since deregulation, there is generally adequate competition among vendors of telecommunication services to allow the district to make competitive procurements.
- b. Since there is competition, price competition exists in the marketplace. It is important for the district to take advantage of existing competition.
- c. The district will follow its rules governing special procurements and document reasonable efforts to obtain at least three informally solicited quotes for purchases less than or equal to \$150,000. The district shall keep a written record of the sources of the quotes or proposals received. If three quotes or proposals are not reasonably available, fewer will suffice, but the district shall make a written record of the effort made to obtain the quotes or proposals.
- d. If a purchase of service is expected to cost more than \$150,000, the district will use a formal competitive bidding or proposal process in accordance with these rules and the *Attorney General's Model Public Contract [and LCRB] Rules*.
- e. There may be occasions where there is limited competition that can furnish telecommunications services of the quality and extent required by district operations. In such instances, the district will follow this rule and also its rule governing Brand Names or Products, "Or Equal," Single Seller and Sole Source, Section 1. under Special Procurements, to procure needed services from the sole source.

Conclusion of Compliance with Law

It is unlikely that this special procurement will encourage favoritism in the awarding of public contracts or substantially diminish competition for such contracts. Routinely, the purchase of telecommunications services will be made in accordance with other competitive bidding rules contained in this administrative regulation. If the anticipated purchase is over \$150,000, the district will advertise its need, issue a written solicitation document and invite written bids or proposals to be furnished in response.

There may be circumstances, however, where sufficient competition does not exist in the relevant geographic and service market area. In such cases, the district will follow this rule in determining whether sufficient competition exists to make a competitive procurement.

The use of this special procurement will result in a cost savings to the district, or otherwise substantially promote the public interest. Competition will be encouraged at all dollar levels of purchase of telecommunications hardware and software. This rule gives the district some flexibility

in selecting the method of competitive procurement but requires adherence to the rule on brand name or sole source acquisitions if those situations occur. The rule also states the steps to be taken to document situations where sufficient competition may not exist and a sole source purchase needs to be made.

12. Hazardous Material Removal; Oil Cleanup

- a. The district may enter into public contracts without competitive bidding, regardless of a dollar amount, when ordered to clean up oil or hazardous waste pursuant to the authority granted to the Oregon Department of Environmental Quality (DEQ) under ORS Chapter 466, especially ORS 466.605 through 466.680. In exercising its authority under this exemption, the district shall:
 - (1) To the extent reasonable under the circumstances, encourage competition by attempting to make informal solicitations or to obtain informal quotes from potential suppliers of goods and services;
 - (2) Make written findings describing the circumstances that require the cleanup or maintain a copy of the DEQ order for the cleanup;
 - (3) Record the measures taken under A.1. of this rule to encourage competition, the amount of the quotes or proposals obtained, if any, and the reason for selecting the contractor to whom award is made.
- b. The district shall not contract pursuant to this special procurement in the absence of an order from the DEQ to clean up a site which includes a time limit that would not allow the district to hire a contractor under normal competitive bidding procedures. Goods and services to perform other hazardous material removal or cleanup will be purchased in accordance with normal competitive bidding procedures as described in Board policy with this administrative regulation.

Findings of Fact

- a. When the DEQ orders a public agency to remove or clean up hazardous material or oil, the public agency must respond within a very short time, which is stated in the DEQ order. This time period does not generally allow the agency to take the time necessary to solicit written bids or proposals for the work to be performed. The district would be liable for any delay in responding to DEQ orders to perform hazardous material removal or cleanup.
- b. This exemption will not be used in those situations where there is no DEQ order to remedy the situation. Routine competitive procurement methods will be used where there is no DEQ order to act immediately. The district maintains open lists of vendors who are interested in providing hazardous material removal and cleanup services. Whenever it needs hazardous material removal or disposal, the district makes use of these lists to solicit quotes, bids or proposals as needed, in addition to advertising the procurement as required.
- c. Cost savings are achieved through this exemption because the district can be liable for DEQ penalties and fines if it does not timely remove hazardous materials or oil as ordered. There is also serious risk in these situations, that property damage or personal injury could result if the district is slow to act.

Conclusions of Compliance with Law

It is unlikely that this special procurement will encourage favoritism in the awarding of public contracts or substantially diminish competition for such contracts as required by ORS 279B.085(3)(a). If it is under DEQ order to act immediately, the district will still attempt to obtain competitive quotes for the work to be performed as it has the ability and time to do so. Unless the district is faced with the quasi-emergency situation of a DEQ order to remove or clean up hazardous waste or oil, it will follow normal competitive procedures to obtain these services.

The award of public contracts pursuant to this special procurement will result in a cost savings to the district in these situations, as required by ORS 279B.085(3)(b), because the district must comply with the law and avoid and minimize risk to persons and property. Where possible, it will seek competitive quotes for the work to be performed and will award the contract to the lowest, responsive and responsible bidder.

13. Renegotiation of Existing Contracts with Incumbent Contractors

- a. The district may amend or renegotiate contracts with existing vendors, service providers or other parties subject to the limitations of this rule.
- b. The district has determined that [value engineering,] [specialized expertise required,] [public safety] [and technical complexity], generally do not apply to this special procurement procedure.
- c. The renegotiated contract falls within a current special procurement procedure, but if not the LCRB must approve a separate special procurement.
- d. The district may renegotiate certain terms, but they must not unreasonably alter the scope of the original contract.

Findings of Fact

- a. The LCRB may amend contracts when it is in the best interest of the district. The [superintendent] and/or other designee, acting on behalf of the LCRB, may renegotiate certain provisions, including:
 - (1) Price;
 - (2) Term;
 - (3) Delivery and shipping;
 - (4) Order size;
 - (5) Substitution;
 - (6) Warranties;
 - (7) Online ordering systems;
 - (8) Price adjustments;
 - (9) Product availability;
 - (10) Product quality;
 - (11) Reporting requirements; or
 - (12) Discounts.

Any contract amendment will be supported by legal consideration when necessary to validate the amended provision.

- b. The amended terms must be within a reasonable scope of the original contract, but not fundamentally alter the agreement or nature of goods or services. Districts may, however, request functionally equivalent substitutes for goods or services in the original contract.
- c. The contract as a whole must be more favorable to the individual needs of the district to justify renegotiation. Cost may be a factor in determining what is a favorable change to the original contract, but the district may use factors other than cost that demonstrate that the amended contract is more favorable to the unique needs of the district.

Conclusion of Compliance with Law

This special procurement will not encourage favoritism or substantially diminish competition in awarding public contracts because it already exists as a contract awarded in compliance with the district's special procurement and public contracting code.

The awarding of contracts under this special procurement will result in cost savings to the district when it needs to renew its original contract with vendors, service providers or other parties, or otherwise substantially promote the public interest.

EXEMPTIONS FROM COMPETITIVE BIDDING

All public contracts shall be based upon competitive bids or proposals, except the following:

1. Contracts which have been specifically exempted under ORS 279A.025 and 279C.335; and
2. Contracts covered by the class exemptions in the following set of rules developed pursuant to ORS 279C.335(2) and (5) and based on Oregon Administrative Rules, Chapter 137, Divisions 46 through 49.

The Board, acting as the Local Contract Review Board (LCRB) for the district, has made the findings required by ORS 279C.330, ORS 279C.335 and ORS 279C.345, and determined that awarding a contract under this exemption is unlikely to encourage favoritism or substantially diminish competition for the public contract and will likely result in a substantial cost savings and other substantial benefits to the district.

In approving a finding under this section, the local contract review board shall consider the type, cost and amount of the contract and, to the extent applicable to the particular public improvement contract or class of public improvement contracts, the following:

1. How many persons are available to bid;
2. The construction budget and the projected operating costs for the completed public improvements;
3. Public benefits that may result from granting the exemption;
4. Whether value engineering techniques may decrease the cost of the public improvement;
5. The cost and availability of specialized expertise that is necessary for the public improvement;
6. Any likely increases in public safety;

7. Whether granting the exemption may reduce risks to the district or the public that are related to the public improvement;
8. Whether granting the exemption will affect the sources of funding for the public improvement;
9. Whether granting the exemption will better enable the district to control the impact that market conditions may have on the cost of and time necessary to complete the public improvement;
10. Whether granting the exemption will better enable the district to address the size and technical complexity of the public improvement;
11. Whether the public improvements involves new construction or renovates or remodels an existing structure;
12. Whether the public improvement will be occupied or unoccupied during construction;
13. Whether the public improvement will require a single phase of construction work or multiple phases of construction work to address specific project conditions; and
14. Whether the district has or has retained under contract, and will use district personnel, consultants and legal counsel that have necessary expertise and substantial experience in alternative contracting methods to assist in developing the alternative contracting method that the district will use to award the public improvement contract and to help negotiate, administer and enforce the terms of the public improvement contract.

Only these findings are required for each class or individual contract exemption, unless the LCRB specifically excludes a finding or includes an additional finding.

Promulgation of these exemptions can only occur after public notification and a public hearing to receive testimony pertaining to the draft exemptions and findings, pursuant to ORS 279C.335.

1. Brand Names or Products, “Or Equal,” Single Seller and Sole Source
 - a. The district may purchase brand names or products from a single seller or sole source without competitive bidding subject to the limitations of this rule.
 - b. The district has determined that [value engineering,] [specialized expertise required,] [public safety] [and technical complexity], generally do not apply to this exemption.
 - c. Solicitation specifications for public contracts of the district shall not expressly or implicitly require any product of any particular manufacturer or seller except as expressly authorized in subsections d. and e. of this rule.
 - d. The district may specify a particular brand name, make or product suffixed by “or equal,” “or approved equal,” “or equivalent,” “or approved equivalent” or similar language if there is no other practical method of specification after documenting the procurement file with the following:
 - (1) A brief description of the solicitation(s) to be covered, including contemplated future purchases;
 - (2) Description of the brand name, mark or product to be specified; and
 - (3) A brand name specification may be prepared and used only if the district determines for a solicitation or class of solicitations that only the identified brand name specification

will meet the needs of the district based on one or more of the following written determinations:

D

- (a) The use of the brand name specification is unlikely to encourage favoritism in the awarding of public contracts or substantially diminish competition for public contracts; or
 - (b) Specification of the brand name, mark or product would result in substantial cost savings to the district; or
 - (c) There is only one manufacturer or seller of the product of the quality, performance or functionality required; or
 - (d) The efficient utilization of existing goods requires the acquisition of compatible goods and services.
- (4) The district shall make reasonable effort to notify all known suppliers of the specified product and invite such vendors to submit competitive bids or proposals.
- e. The district may purchase a particular product or service available from only one source, after documenting the procurement file with the district's findings of current market research to support the determination that the product is available from only one seller or source. The district's findings shall include:
- (1) A brief description of the contract or contracts to be covered, including contemplated future purchases;
 - (2) Description of the product or service to be purchased; and
 - (3) The reasons the district is seeking this procurement method, which shall include any of the following:
 - (a) That the efficient utilization of existing equipment, supplies or services requires the acquisition of compatible equipment, supplies or services; or
 - (b) That the goods or services required for the exchange of software or data with other public or private agencies are available for only one source; or
 - (c) That the goods or services are for use in a pilot or an experimental project; or
 - (d) Other findings that support the conclusion that the goods or services are available from only one source.
 - (4) To the extent reasonably practical, the contracting agency shall negotiate with the sole source to obtain contract terms advantageous to the contracting agency.
- f. The district may specify a product or service available from only one manufacturer but available through multiple sellers, after documenting the procurement file with the following information:
- (1) If the total purchase is over \$10,000 but does not exceed \$100,000, and a comparable product or service is not available under an existing state cooperative purchasing contract, competitive quotes shall be obtained by the district and retained in the procurement file; or
 - (2) If the amount of the purchase exceeds \$100,000, the product or service shall be obtained through competitive bidding unless a specific exemption is granted by the LCRB.

- g. If the district intends to make several purchases of the product of a particular manufacturer or seller for a period not to exceed five years, the district will so state in the solicitation file and in the solicitation document, if any. Such documentation shall be sufficient notice as to subsequent purchases. If the total purchase amount is estimated to exceed \$100,000, this shall be stated in the advertisement for bids or proposals.

Findings of Fact/Conclusion of Compliance with Law

It is unlikely that this process will encourage favoritism in the award of public contracts or substantially diminish competition for such contracts, as required by ORS 279C.335 (2)(a).

This class exemption applies only to contracts under a limited dollar amount, and then, only after efforts to obtain competitive quotes are made, or other methods have been employed to ensure that competitive means are used if available. The district maintains open lists from which vendors are contracted for quotations. In addition, as required by ORS 279C.335 (2)(b) award of a public contract subject to the above described exemption should likely result in substantial cost savings or other substantial benefits to the district by virtue of the ability to reduce solicitation costs when it is known that comparable products are not available, or when specifying another product solely to meet a competition requirement might lead to lower initial cost but longer lifetime cost.

2. Product Prequalification

- a. When specific design or performance specifications must be met or such specifications are impractical to create or reproduce for a type of product to be purchased, the district may specify a list of approved or qualified products by reference to the prequalified product(s) of particular manufacturers or vendors in accordance with the following product prequalification procedure:
- (1) The district will make reasonable efforts to notify all known manufacturers and vendors of competing products of the district's intent to compile a list of prequalified products. The notice will explain the opportunity manufacturers and vendors of competing products will have to apply to have their product(s) included on the district's list of prequalified products. At its discretion, the district may provide notice by advertisement in a trade paper of general statewide circulation or other appropriate trade publication; or instead of advertising, the district may provide written notice to those manufacturers and vendors appearing on the appropriate list maintained by the district; and
 - (2) The district will accept manufacturer and vendor applications to include products in the district's list of prequalified products up to 15 calendar days prior to the initial advertisement for bids or proposals for the type of product to be purchased, unless otherwise specified in the advertisement or in the district's written notice.
- b. The district has determined that special expertise required, generally, does not apply to this rule.
- c. If the district denies an application for inclusion of a product on its list of prequalified products, the district shall promptly provide the applicant with a written notice of the denial and include the reason for denial. The applicant may submit a written appeal within [7] calendar days to the district business manager to request review and reconsideration of the denial.

Findings of Fact

- D** a. There are occasions when the district needs to establish a list of prequalified products before it invites bids or proposals to furnish the products. The district may have a specific performance or design need, but it is impractical for the district to create a specification for the type of products to be purchased. An example is audiovisual equipment. There is a tremendous variety of audiovisual products offered in the market. The equipment technology is complex and constantly changing. It would be very burdensome and time consuming for the district to generate nonbrand name, generic performance specifications for such equipment every time it wants to make a purchase.

Also, competition would be poorly served because bidders and proposers would not know in advance whether their offered product would meet the general specification substantially enough to be considered a responsive offer. The decision to make an award would be slow, because each product offered would have to be analyzed against the district's specification. Slowdown in the award process affects both bidders, who are asked to hold their bids open until award is made, and district programs, because staff are not able to order the equipment they need until the contract is awarded.

In this case, it might be more cost effective and efficient for the district to prequalify products and establish a list of approved products before invitations to bid are sent out. The prequalification process can be done some time before the need for a new contract. Once the prequalified product list is established, the bidding and contract award process can go quickly and smoothly.

- b. A second occasion when prequalification of products will be useful is when the specific design or performance specifications for a product are so exacting that the district must have time to carefully consider what is offered in the market that may or may not meet the specifications and, if necessary, reconsider its options before issuing an invitation to bid.
- c. This rule sets out a process of prequalification which requires the use of advertisement or other appropriate means to notify vendors of competing products of their opportunity to submit items for prequalification. The district maintains vendor mailing lists which are open to all interested vendors. The district uses these lists routinely to notify vendors of its intentions to prequalify products or to invite bids on products.
- d. This includes a 15-day time limit between the closure of a prequalification list and a related invitation to bid. This time factor ensures that vendors have a reasonable time to apply to include their products on a prequalified product list.
- e. Subsection c. of this rule provides vendors with an appeal process to follow if their application for prequalification is denied.

Conclusion of Compliance with Law

Where prequalification of products is appropriate, it is unlikely that this exemption will encourage favoritism in the awarding of public contracts or diminish competition for such contracts as required by ORS 279C.335(2)(a). There are several safeguards in the rule to prevent this, including notice, advertising, time and appeal process requirements to ensure that vendors are given a fair and open opportunity to participate in the prequalification process.

The prequalification of products process is a time-consuming effort for the district. It is not a shortcut procurement method. The district would use this method only after balancing cost-saving

considerations, such as the ability of the district to create or generate nonbrand name generic specifications for types of products or the need for lengthy product evaluation prior to a contract award. If the prequalification method is chosen, it will likely result in a substantial cost savings and other substantial benefits to the district as required by ORS 279C.335 (2)(b) because the normal method of product selection is too cumbersome and costly to pursue.

3. Requirements Contracts (Blanket Purchase Orders, Price)³

- a. The business manager, on behalf of the district, may establish requirements contracts for the purposes of minimizing paperwork, achieving continuity of product, securing a source of supply, reducing inventory, combining district requirements for volume discounts, standardization among schools and departments and reducing lead time for ordering.
- b. The district has determined that [value engineering,] [specialized expertise required] [and technical complexity,] generally, do not apply to this rule.
- c. The district may enter into a requirements contract (also known as a blanket purchase order or price agreement) whereby it is agreed to purchase goods or services for an anticipated need at a predetermined price or price discount from a price list, provided the contract is let by a competitive procurement process pursuant to the requirements of the public contracting code and these rules.
- d. Once a requirements contract is established, schools and departments may purchase the goods and services from the awarded contractor without first undertaking additional competitive solicitation.
- e. Schools and departments shall use requirements contracts established by the district, unless otherwise specified in the contract, allowed by law or these rules or specifically authorized by the [superintendent] or designee.
- f. Under the authority of ORS 279A.025 and 279C.335, the district may use the requirements contracts entered into by another Oregon public agency when:
 - (1) The original contract met the requirements of the public contracting code; and
 - (2) The original contract allows other public agency usage of the contract; and
 - (3) The original public contracting agency concurs, and this is documented by a written interagency agreement between the district and the agency.
- g. The term of any district requirements contract, including renewals, shall not exceed five years unless otherwise exempted pursuant to ORS 279C.335.

Findings of Fact

- a. This rule permits the district to enter into requirements contracts, in which the vendor agrees to provide specified goods and services over the term of the contract at the bid price or discount rate. A requirements contract is useful when the purchase of the goods or services are routine and repetitive. For example, school, building, office, custodial and facilities maintenance supplies are customarily purchased through requirements contracts.
- b. Requirements contracts are a common method of minimizing paperwork, achieving continuity of product, securing a source of supply, reducing inventory, obtaining volume discounts,

³ The OregonBuys.gov allows authorized members to utilize the state's price agreement/contracts to purchase goods and services. Authorized OregonBuys members can legally attach to a state price agreement and forego the competitive bid process. Access to hundreds of competitive price contracts for a wide variety of goods and services: vehicles, computers, furniture, copiers, fax machines, travel, pharmaceuticals, office products, etc., is available.

standardizing usage among schools, buildings and departments and reducing lead time for ordering.

- c. The district establishes requirements contracts as a result of open competitive bidding or RFP processes, unless otherwise exempted.
- d. The district limits the term of a requirements contract, including all renewal options, to a maximum of five years before competitive rebidding must be done, unless otherwise exempted.
- e. The district may use the requirements contracts established by other public agencies, subject to certain conditions of state law, Board policy and administrative regulation.

Conclusion of Compliance with Law

It is unlikely that this exemption will result in favoritism in the awarding of public contracts or diminish competition for such contracts, as required by ORS 279C.335(2)(a). The district will only enter into requirements contracts which result from open competitive bidding processes. This condition applies also to the use of requirements contracts established by other public contracting agencies.

The awarding of district requirements contracts will likely result in a substantial cost savings and other substantial benefits to the district, as required by ORS 279C.335(2)(b). It would be costly and inefficient to make routine, repetitive purchases of goods and services through individual transactions. Also, the guaranteed volume of a requirements contract allows the district to get better prices from bidders.

4. Waiver of Bid Security Requirements (Public Improvement Contracts under \$100,000)

The LCRB may, at its discretion, waive the bid security requirements of ORS 279C.390, if the amount of the contract for the public improvement is less than \$100,000. Although the bid security requirements of ORS 279C.390 are waived for public improvement contracts under \$100,000, the district may impose a bid or quote security requirements for projects under \$100,000, when deemed to be in the best interest of the district.

Findings of Fact/Conclusion of Compliance with Law

This rule allows the LCRB to waive bid security requirements for certain public improvement contracts. Waiver of the bid security is provided for by statute without a requirement for findings.

5. Waiver of Performance and Payment Security Requirements (Public Improvement Contracts under \$100,000)

The LCRB may, at its discretion, waive the performance/payment security requirements of ORS 279C.390 if the amount of the contract for the public improvement is less than \$100,000. Although the performance/payment security requirements of ORS 279C.390 are waived for public improvement contracts less than \$100,000, the district may impose a performance/payment security requirement for projects less than \$100,000 when deemed to be in the best interest of the district.

Findings of Fact/Conclusion of Compliance with Law

This rule allows the LCRB to waive performance/payment security requirements for certain public improvement contracts. Waiver of the performance/payment security is provided for by statute without a requirement for findings.

6. Projects with Complex Systems or Components

- a. For contracts for public improvements with significant components that are inherently complex and are also complex to procure through competitive bid, the district may, at its discretion, use RFP competitive procurement methods subject to the conditions described in ORS 279C.400 and conditions enumerated in this exemption.
- b. **Definitions.** For purposes of this exemption only: “Complex Systems” are defined as those systems which incorporate the procurement of materials or other components which are difficult, if not impossible, to create in an “equal” specifications basis for competitive bid. Examples of such systems include but are not limited to, contracts for supplying and installing computerized controls for building heating, venting, air conditioning systems; and contracts for artificial surface outdoor multipurpose athletic fields. “Significant” is intended to mean something more than de minimus, but not necessarily the majority of the project as determined by cost.

Finding of Fact/Conclusion of Compliance with the Law

It is unlikely that this exemption will encourage favoritism in the awarding of the public contracts or substantially diminish competition for such contracts as required by ORS 279C.335(2)(a). Contracts for public improvements occasionally incorporate the procurement of systems, materials, or other components (complex systems) for which it is extremely difficult to design bid specifications. In these situations, utilization of a RFP process where each of the systems can be evaluated utilizing a number of factors, in addition to price, will likely result in substantial cost savings and other substantial benefits to the district as required by ORS 279C.335(2)(b).

ORS 279C.400 enumerates how RFP’s are to be used if authorized by the LCRB. These criteria, ensures that competitive means will be used, and selection will be fair and impartial. As a result, it is unlikely that this process will encourage favoritism in the awarding of public contracts or substantially diminish competition for such contracts as required by ORS 279C.335(2)(a). The awarding of contracts pursuant to this process will result in optimal value to the district based on selection by the district of the best competitive proposal that meets the stated evaluative criteria.

This class exemption is intended to be used for the types of procurements describe in the findings, where the specific system, materials or components represent a significant portion of the project. This class exemption is not intended to be used for construction manager/general contractor (CM/GC) projects or other methods of alternative procurement unless these projects meet the requirements of this class exemption. The CM/GC and others, not meeting the requirements of this class exemption, may still be procured by RFP, provided that a project or contract specific exemption is promulgated by the LCRB.

Special Procurements and Exemptions from Competitive Bidding

(Delete this version and consider updated version.)

SPECIAL PROCUREMENTS

The district shall submit a written request to the Board, acting as the Local Contract Review Board (LCRB), that describes the contracting procedure, the goods and services or class of goods and services that are the subject of the special procurement and circumstances that justify the use of a special procurement under the standards as follows: the special procurement is unlikely to encourage favoritism in the awarding of a public contract or to substantially diminish competition for public contracts and, (A) is reasonably expected to result in substantial cost savings to the district or to the public, or (B) otherwise substantially promote the public interest in a matter that could not practicably be realized by complying with requirements that are applicable under ORS 279B.055, 279B.060, 279B.065, 279B.070 or under any related rules. Public notice of the approval of a special procurement must be given in the same manner as provided in ORS 279B.055(4). If the district intends to award a contract through special procurements that calls for competition among prospective contractors, the district shall award the contract to the contractor it determines to be most advantageous to the district. When the LCRB approves a class special procurement the district may award contracts to acquire goods and services within the class of goods and services in accordance with the terms of the approval without making a subsequent request for a special procurement.

1. Brand Names or Products, “Or Equal,” Single Seller and Sole Source
 - a. The district may purchase brand names or products from a single seller or sole source without competitive bidding subject to the limitations of this rule.
 - b. Solicitation specifications for public contracts of the district shall not expressly or implicitly require any product of any particular manufacturer or seller except as expressly authorized in subsections c. and d. of this rule.
 - c. The district may specify a particular brand name or equal specification when the use of a brand name or equal specification is advantageous to the district, because the brand name describes the standard of quality, performance, functionality and other characteristics of the product needed by the district.
 - (1) The district is entitled to determine what constitutes a product that is equal or superior to the product specified, and any such determination is final;
 - (2) The district is not prohibited from specifying one or more comparable products as examples of the quality, performance, functionality or other characteristics of the product needed by the district;
 - (3) A brand name specification may be prepared and used only if the district determines for a solicitation or class of solicitations that only the identified brand name specification will meet the needs of the district based on one or more of the following written determinations:

D

- (a) The use of a brand name specification is unlikely to encourage favoritism in the awarding of public contracts or substantially diminish competition for public contracts; or
 - (b) Specification of the brand name, mark or product would result in cost savings to the district; or
 - (c) There is only one manufacturer or seller of the product of the quality, performance or functionality required; or
 - (d) The efficient utilization of existing goods requires the acquisition of compatible goods and services.
- d. The district may award a contract for goods or services without competition when the LCRB determines in writing that the goods or services, or the class of goods or services, are available from only one source. The determination of the source must be based upon written findings that shall include:
 - (1) A brief description of the contract or contracts to be covered, including contemplated future purchases;
 - (2) Description of the product or service to be purchased; and
 - (3) The reasons the district is seeking this procurement method, which shall include any of the following:
 - (a) That the efficient utilization of existing goods requires the acquisition of compatible goods or services; or
 - (b) That the goods or services required for the exchange of software or data with other public or private agencies are available from only one source; or
 - (c) That the goods or services are for use in a pilot or an experimental project; or
 - (d) To the extent reasonably practical, the contracting agency shall negotiate with the sole source to obtain contract terms advantageous to the contracting agency.
- e. The district may specify a product or service available from only one manufacturer but available through multiple sellers after complying with subsection c. above documenting the procurement file with the following information:
 - (1) If the total purchase is over \$10,000 but does not exceed \$150,000, and a comparable product or service is not available under an existing Mandatory Use Contract, the district must obtain informal competitive quotes, bids or proposals and document this process in the procurement file;
 - (2) If the purchase does not exceed \$150,000, and the supplies or services are not available under an existing price agreement for information technology with competing products or Mandatory Use Contract, the district must first request and obtain prior written authorization from the LCRB to proceed with the acquisition.
- f. If the district intends to make several purchases of brand name-specific supplies and services from a particular manufacturer or seller for a period not to exceed five years, the district must so state this in the procurement file and in the solicitation document, if any, or a public notice of a solicitation. If the total purchase amount is estimated to exceed \$150,000, this shall be stated in the advertisement for bids or proposals.

Findings of Fact/Conclusion of Compliance with Law (OAR 125-247-0275)

The district shall submit a written request to the local contract review board that describes the contracting procedure, goods and services subject of the special procurement and the circumstances that justify the use of the special procurement.

- a. It is unlikely that this special procurement will encourage favoritism in the awarding of public contracts or substantially diminish competition for such contracts and is reasonably expected to result in substantial cost savings to the district which could not be realized under ORS 279B.055, 279B.060, 279B.065 or 279B.070 as required by ORS 279B.085(4).
- b. Public notice of the approval must be given in the same manner as provided in ORS 279B.055(4).
- c. This rule requires the districts to make a good faith effort to determine that no other sources are available for the specified products.
- d. The district maintains open lists from which vendors are contacted for quotations and utilizes electronic means of determining new vendors on an ongoing basis.
- e. The awarding of a contract as described in this special procurement should result in substantial cost savings by virtue of the ability to reduce solicitation costs when it is known that comparable products are not available, or when specifying another product solely to meet a competition requirement might lead to lower initial cost but longer lifetime cost.
- f. When the local review board approves a class special procurement the district may award contracts to acquire goods and services within the class of goods and services in accordance with the terms of the approval without making a subsequent request for procurement.

2. Advertising Contracts, Purchase of

- a. The district may purchase advertising in any media, regardless of a dollar amount, without competitive bidding.
- b. The Board acting as the LCRB of the district must use competitive methods whenever possible to achieve best value and must document in the procurement file the reasons why a competitive process was deemed impractical and the resulting contract must be in writing.
- c. If the anticipated purchase exceeds \$10,000 and a competitive method is used, the district must post notice on the OregonBuys.gov.

Findings of Fact

The district traditionally purchases advertising in newspapers. The following findings relate primarily to newspapers and written publications; however, the district may also purchase advertising for student activities or educational programs in other media, such as radio or television, where these findings apply:

- a. By their nature, media sources are generally unique. Advertisements are placed in a particular source because of the specific audience that source serves;
- b. Competition to furnish advertising space in daily newspapers of general, trade or business circulation in the vicinity of the district is limited;
- c. Cost savings are difficult to quantify where the sources are unique and not interchangeable;
- d. Advertisements may be placed to satisfy legal notice or Board policy requirements;
- e. Other published advertisements or notices, such as routine public notices, personnel recruitment information, etc., are placed in one or more of the publications of general circulation in the local area and other publications, as appropriate;

- f. The communities served by the district rely upon its use of the local daily newspaper as a central source of news and information regarding district activities;
- g. It is unknown whether contracts for advertisements placed with radio, television or other broadcast media are going to result in cost savings if not placed for competitive bid or request for proposal (RFP). If possible savings could be obtained through competitive means, the district would attempt to obtain competitive quotes or bids, as appropriate.

Conclusion of Compliance with Law

Due to limited competition and unique nature of sources, it is unlikely that this class special procurement will encourage favoritism in the awarding of public contracts or substantially diminish competition for such contracts. Further, any contracts awarded under this class special procurement would result in a cost savings available to the district where the district can achieve volume savings through contracts for advertising with a particular media source, or otherwise substantially promote the public interest.

3. Advertising Contracts, Sale of

The district may sell advertising for district publications and activities, regardless of a dollar amount, without competitive bidding, including school newspapers, yearbooks, athletic programs, drama or music programs and the like.

Findings of Fact

Sales of advertising for student activities are generally other fund revenues, where student groups solicit advertisements from local businesses to help with the cost of the activity itself. A common example is the sale of advertising in school newspapers and yearbooks. The circulation of the newspaper and yearbook is limited to the students, teachers, parents and interested members of the community associated with the activities of that particular school. Due to the limited circulation and audience, the businesses that participate by purchasing advertising do so partly in the spirit of good will. Any business is welcome to place an advertisement in the school newspaper or yearbook; all it needs to do is to contact any district school department which publishes one. The district itself would not achieve any increased revenue to the General Fund by seeking competitive bids or proposals for such advertising. This holds true for other student activities, such as athletics, drama or music events and the like.

Conclusion of Compliance with Law

These findings indicate that it is unlikely that this special procurement will encourage favoritism in the awarding of public contracts or substantially diminish competition for such contracts. Any business or individual who wishes to advertise in this manner may do so by simply contacting the student group responsible for the activity.

The sale of advertising for student activities such as school newspapers, yearbooks, athletic, drama or music programs would not benefit from competitive procurement. Such a requirement would place an unnecessary burden on the student group's activity and there is no financial advantage to the district in doing so. Consequently, the cost savings test is not an issue.

4. Equipment Repair and Overhaul

a. The district may enter into a public contract for equipment repair or overhaul without competitive bidding, subject to the following conditions:

- (1) Service or parts required are unknown and the cost cannot be determined without extensive preliminary dismantling or testing; or
- (2) Service or parts required are for sophisticated equipment for which specially trained personnel are required and such personnel are available from only one source; and
- (3) The purchase is made within the limits and pursuant to the methods in subsection b. of this rule.

b. The following limitations apply to this rule:

- (1) If the contract is less than or equal to \$150,000, the school or department shall submit in writing to the [superintendent] or designee the reasons why competitive bids or quotes are deemed to be impractical. The [superintendent] or designee will accordingly document in its procurement file and may enter directly into the contract;
- (2) If the school or department official thinks the contract may exceed \$150,000, they shall submit in writing to the [superintendent] or designee the reasons why competitive bidding is deemed to be impractical and a description of the cost savings to be obtained by a special procurement. The [superintendent] or designee may prepare a specific request for the anticipated contract to be obtained through special procurement procedures to submit to the LCRB for approval.

Findings of Fact

- a. The need for equipment repair or overhaul cannot be anticipated by district staff. If a piece of equipment is broken or not working properly, the district incurs cost of downtime, possible replacement equipment rental fees, staff time and other inconveniences or liabilities to its programs.
- b. Generally, there are a limited number of vendors who are able to perform repair or overhaul on a particular piece of equipment because of its make or manufacture. Sophisticated equipment may require specially trained personnel available from only one source. Often, a piece of equipment will have a partial warranty in place which will guarantee some savings to the district in the parts and/or labor needed to do the repair or overhaul. This warranty savings may only be achieved if the original manufacturer or provider of the equipment performs the necessary repair or overhaul.
- c. The dollar limits on the use of this special procurement procedure ensure that when the cost of the equipment repair or overhaul is expected to exceed \$150,000, the district will either seek formal competitive bids or, if that is not practical or cost effective, obtain a specific special procurement procedure from the LCRB to proceed with the purchase of the needed repair or overhaul.

Conclusion of Compliance with Law

It is unlikely that this special procurement procedure will encourage favoritism in the awarding of public contracts or substantially diminish competition for such contracts because the dollar limits incorporated into this special procurement when the anticipated costs exceed \$150,000, insure the district will seek formal competitive bids and proposals. If the formal process is not practical, the

district will obtain a specific exemption from the LCRB to proceed with the purchase of the needed repair or overhaul.

The awarding of public contracts under this special procurement will result in a cost savings to the district, as required by ORS 279B.085, because the district incurs direct and indirect costs from the moment equipment breaks down or becomes unusable. This special procurement only applies to equipment already owned by the district and does not provide for the purchase of new equipment. The district must be able to purchase necessary services and parts as quickly as possible in order to minimize equipment downtime and potential costs during that downtime.

5. Copyrighted Materials

The district may, without competitive bidding and regardless of a dollar amount, purchase copyrighted materials where there is only one known supplier available for such goods. Examples of copyrighted materials covered by this special procurement procedure may include, but are not necessarily limited to, newly adopted textbooks/instructional materials, workbooks, curriculum kits, reference materials, audio and visual media and non-mass-marketed software from a particular publisher or their designated distributor.

Findings of Fact

- a. By their nature, copyrighted materials are protected for the use of a single owner. Copyrighted materials may not be duplicated by others without the copyright owner's permission or license. Copyrights are established and regulated under federal law.
- b. Often, copyrighted materials are produced by only one supplier who may be the owner of the copyright or their licensee. Textbooks/Instructional materials are examples of copyrighted materials that the district purchases through a sole source. Textbooks/Instructional materials are adopted through a statewide process under the authority of the Oregon Department of Education. A textbook/instructional material adoption defines the various materials which the district will purchase for use in its educational programs.

The district purchases its textbooks/instructional materials through the Northwest Textbook Depository. This practice enables the regional textbook depository to purchase and warehouse textbooks/instructional materials in conformance with adoptions made in the states of their region. The result is that savings are achieved through the depository's combined purchases on behalf of member districts. Freight costs for individual districts are reduced by the bulk purchases of the depository and the depository takes on the cost of stocking and warehousing enough to meet each member district's needs.

The system of textbook/instructional materials distribution enables the district to participate in the largest possible bulk purchasing activity of adopted textbooks/instructional materials in the region. This ensures a cost savings to the district. A savings that would be jeopardized if the district was to act as an individual purchaser.

Conclusion of Compliance with Law

This special procurement will not encourage favoritism or substantially diminish competition in the awarding of public contracts. The production and distribution of copyrighted materials is controlled by the owner of the copyright and may only be permitted through a sole source. The district has no control over this.

The awarding of contracts pursuant to this special procurement will result in a cost savings to the district when it needs to purchase copyrighted materials and there is only one known supplier for such goods, or otherwise substantially promote the public interest.

6. Product Prequalification

- a. When specific design or performance specifications must be met or such specifications are impractical to create or reproduce for a type of product to be purchased, the district may specify a list of approved or qualified products by reference to the prequalified product(s) of particular manufacturers or vendors in accordance with the following product prequalification procedure:
 - (1) The district will make reasonable efforts to notify all known manufacturers and vendors of competing products of the district's intent to compile a list of prequalified products. The notice will explain the opportunity manufacturers and vendors of competing products will have to apply to have their product(s) included on the district's list of prequalified products. At its discretion, the district may provide notice by advertisement in a trade paper of general statewide circulation or other appropriate trade publication; or instead of advertising, the district may provide written notice to those manufacturers and vendors appearing on the appropriate list maintained by the district; and
 - (2) The district will accept manufacturer and vendor applications to include products in the district's list of prequalified products up to 15 calendar days prior to the initial advertisement for bids or proposals for the type of product to be purchased, unless otherwise specified in the advertisement or in the district's written notice.
- b. If the district denies an application for including a product on a list of prequalified products, the district shall promptly provide the applicant with a written notice of the denial and include the reason for denial. The applicant may submit a written appeal within seven calendar days to the district business manager to request review and reconsideration of the denial.

Findings of Fact

- a. There are occasions when the district needs to establish a list of prequalified products before it invites bids or proposals to furnish the products. The district may have a specific performance or design need, but it is impractical for the district to create a specification for the type of products to be purchased. An example is audiovisual equipment. There is a tremendous variety of audiovisual products offered in the market. The equipment technology is complex and constantly changing. It would be very burdensome and time consuming for the district to generate nonbrand name, generic performance specifications for such equipment every time it wants to make a purchase.

Also, competition would be poorly served because bidders and proposers would not know in advance whether their offered product would meet the general specification substantially enough to be considered a responsive offer. The decision to make an award would be slow, because each product offered would have to be analyzed against the district's specification. Slowdown in the award process affects both bidders, who are asked to hold their bids open until award is made, and district programs, because staff are not able to order the equipment they need until the contract is awarded.

D In this case, it might be more cost effective and efficient for the district to prequalify products and establish a list of approved products before invitations to bid are sent out. The prequalification process can be done some time before the need for a new contract. Once the prequalified product list is established, the bidding and contract award process can go quickly and smoothly.

- b. A second occasion when prequalification of products will be useful is when the specific design or performance specifications for a product are so exacting that the district must have time to carefully consider what is offered in the market that may or may not meet the specifications and, if necessary, reconsider its options before issuing an invitation to bid.
- c. This rule sets out a process of prequalification which requires the use of advertisement or other appropriate means to notify vendors of competing products of their opportunity to submit items for prequalification. The district maintains vendor mailing lists which are open to all interested vendors. The district uses these lists routinely to notify vendors of its intentions to prequalify products or to invite bids on products.
- d. This includes a 15-day time limit between the closure of a prequalification list and a related invitation to bid. This time factor ensures that vendors have a reasonable time to apply to include their products on a prequalified product list.
- e. Subsection b., of this rule provides vendors with an appeal process to follow if their application for prequalification is denied.

Conclusion of Compliance with Law

Where prequalification of products is appropriate, it is unlikely that this special procurement will encourage favoritism in the awarding of public contracts or diminish competition for such contracts. There are several safeguards in the rule to prevent this, including notice, advertising, time and appeal process requirements to ensure that vendors are given a fair and open opportunity to participate in the prequalification process.

The prequalification of products process is a time-consuming effort for the district. It is not a shortcut procurement method. The district would use this method only after balancing cost-saving considerations, such as the ability of the district to create or generate nonbrand name generic specifications for types of products or the need for lengthy product evaluation prior to a contract award. If the prequalification method is chosen, it will result in a cost savings to the district because the normal method of product selection is too cumbersome and costly to pursue, or otherwise substantially promote the public interest.

7. Requirements Contracts (Blanket Purchase Orders, Price Agreements)¹

- a. The business manager, on behalf of the district, may establish requirements contracts for the purposes of minimizing paperwork, achieving continuity of product, securing a source of

¹ OregonBuys.gov allows authorized members to utilize the state's price agreement/contracts to purchase goods and services. Authorized OregonBuys members can legally attach to a state price agreement and forego the competitive bid process. Access to hundreds of competitive price contracts for a wide variety of goods and services: vehicles, computers, furniture, copiers, fax machines, travel, pharmaceuticals, office products, etc., is available. Counties, cities, schools, municipalities or their public corporate entities having local governing authority, a United States governmental agency or American Indian tribe or agency are eligible to participate.

supply, reducing inventory, combining district requirements for volume discounts, standardization among school and departments and reducing lead time for ordering.

- D**
- b. The district may enter into a requirements contract (also known as a blanket purchase order or price agreement) whereby it is agreed to purchase goods or services for an anticipated need at a predetermined price or price discount from a price list, provided the contract is led by a competitive procurement process pursuant to the requirements of the public contracting code and these rules.
 - c. Once a requirements contract is established, schools and departments may purchase the goods and services from the awarded contractor without first undertaking additional competitive solicitation.
 - d. School and departments shall use requirements contracts established by the district, unless otherwise specified in the contract, allowed by law or these rules or specifically authorized by the [superintendent] or designee.
 - e. Under the authority of ORS 279A.025 and 279B.085, the district may use the requirements contracts entered into by another Oregon public agency when:
 - (1) The original contract met the requirements of public contracting code; and
 - (2) The original contract allows other public agency usage of the contract; and
 - (3) The original public contracting agency concurs and this is documented by a written interagency agreement between the district and the agency.
 - f. The term of any district requirements contract, including renewals, shall not exceed five years unless otherwise permitted under the public contracting code.

Findings of Fact

- a. This rule permits the district to enter into a requirements contract, in which the vendor agrees to provide specified goods and services over the term of the contract at the bid price or discount rate. A requirements contract is useful when the purchase of the goods or services are routine and repetitive. For example, school, office, custodial and facilities maintenance supplies are customarily purchased through requirements contracts.
- b. Requirements contracts are a common method of minimizing paperwork, achieving continuity of product, securing a source of supply, reducing inventory, obtaining volume discounts, standardizing usage among schools and departments and reducing lead time for ordering.
- c. The district establishes a requirements contract as a result of open competitive bidding or RFP processes, unless otherwise permitted under the public contracting code.
- d. The district limits the term of a requirements contract, including all renewal options, to a maximum of five years before competitive rebidding must be done, unless otherwise permitted under the public contracting code.
- e. The district may use the requirements contracts established by other public agencies, subject to certain conditions of state law, Board policy and administrative regulation.

Conclusion of Compliance with Law

E

It is unlikely that this special procurement will result in favoritism in the awarding of public contracts or diminish competition for such contracts. The district will only enter into requirements contracts which result from open competitive bidding processes. This condition applies also to the use of requirements contracts established by other public contracting agencies.

The awarding of district requirements contracts will result in a cost savings to the district, or otherwise substantially promote the public interest. It would be costly and inefficient to make routine, repetitive purchases of goods and services through individual transactions. Also, the guaranteed volume of a requirements contract allows the district to get better prices from bidders.

8. Used Personal Property or Equipment, Purchase²

- a. Subject to the provisions of this rule, the district may purchase used property or equipment without obtaining competitive bids or quotes, if the district has determined that the purchase will result in cost savings to the district and will not diminish competition or encourage favoritism. “Used personal property or equipment” is property or equipment which has been placed in its intended use by a previous owner or user for a period of time recognized in the relevant trade or industry as qualifying the personal property or equipment as “used” at the time of district purchase. Used personal property or equipment generally does not include property or equipment if the district was the previous user, whether under a lease, as part of a demonstration, trial or pilot project or similar arrangement.
- b. For purchases of used personal property or equipment costing less than or equal to \$150,000, the district shall, where feasible, obtain three competitive quotes unless the district has determined and documented that a purchase without obtaining competitive quotes will result in cost savings to the district and will not diminish competition or encourage favoritism.
- c. For purchases of used personal property or equipment totaling \$150,000 or more, the district shall attempt to obtain three competitive quotes. The district will keep a written record of the source and amount of quotes received. If three quotes are not available, a written record must be made of the attempt to obtain quotes.

Findings of Fact

- a. The district is responsible to manage expenditures in the best interests of the public. Cost savings can be achieved through the procurement of used property and equipment. The district purchases used property and equipment when it meets the district’s needs and is cost effective. Considerations include type, quality, quantity and estimated useful life of the used item.
- b. Used equipment and property becomes available sporadically and without notice. Used equipment and property is generally sold on a first-come, first-served basis. When used property or equipment does become available, the district must be able to respond immediately in order to obtain the property or equipment.
- c. Some types of property or equipment may not be readily available in the new goods market. The district may have to look for used items to fill the need.
- d. Competition to provide used property and equipment may be very limited and inconsistent, depending on the type of product.
- e. The district maintains vendor lists which include information on whether a vendor provides used property or equipment. These lists are open to all vendors.

² When contracting with another governmental entity, a district has a statutory exception under ORS 279A.025. The district may purchase state/federal surplus property through the Department of Administrative Services, State Services Division for Surplus Property. For more information on this program, contact DAS at 503-378-4714.

Conclusion of Compliance with Law

D It is unlikely that this special procurement will encourage favoritism in the award of public contracts or substantially diminish competition for such contracts. The purchase of used property or equipment depends on an inconsistent, sporadic market. When a used item is available, there is often little competition available. Sources for used items of the type, quality and quantity required by the district are inconsistent. This rule requires the district to attempt to obtain and document quotes as appropriate to the dollar amount of the purchase. If the anticipated purchase is over \$150,000, the district will advertise its need.

The use of this special procurement will result in a cost savings to the district, or otherwise substantially promote the public interest. The cost of used equipment or property is generally substantially less than that of new. Savings of 20 percent to 50 percent are not uncommon. Used equipment can provide good value to the district and help ensure the continuation of district services and programs.

9. Information Technology Contracts

The district may enter into a contract to acquire information technology hardware and software without competitive bidding subject to the following conditions:

- a. If the contract amount does not exceed \$150,000, the district shall attempt to obtain three competitive quotes pursuant to the rules governing Intermediate Procurements. The district shall keep a written record of the sources of the quotes or proposals received. If three quotes or proposals are not reasonably available, fewer will suffice, but the district shall make a written record of the effort made to obtain the quotes or proposals.
- b. If the contract amount exceeds \$150,000, the district shall determine and use the best procurement method, pursuant to the public contracting code and these rules, and shall solicit written proposals in accordance with the requirements of the *Attorney General's Model Public Contract [and LCRB] Rules*. The district shall document the evaluation and award process, which will be part of the public record justifying the award;
- c. If the amount of the contract is estimated to exceed [\$150,000], the district shall provide proposers an opportunity to review the evaluation of their proposals before final selection is made.

Findings of Fact

- a. Rapid changes in technology make it necessary for the district to be able to purchase needed computer equipment quickly.
- b. Pricing for high-technology equipment also changes rapidly. It is frequently possible to take advantage of frequent price changes in the marketplace in the purchase of computer equipment.
- c. There is generally sufficient competition among vendors of information technology hardware and software for district business.
- d. The district will follow rules governing special procurements and obtain at least three informally solicited quotes for purchases less than or equal to \$150,000.
- e. If the district requires a brand name or sole source product, the district will follow its rule governing Brand Names or Products, "Or Equal," Single Seller and Sole Source, Section 1. under Special Procurements, to procure it.

Conclusion of Compliance with Law

It is unlikely that this special procurement will encourage favoritism in the award of district contracts or substantially diminish competition for district contracts. The purchase of information technology hardware and software will be made in accordance with other competitive bidding rules contained in this administrative regulation. If the anticipated purchase is over \$150,000, the district will advertise its need.

The use of this special procurement will result in a cost savings to the district, or otherwise substantially promote the public interest. Competition will be encouraged at all dollar levels of purchase of information technology hardware and software. This rule gives the district some flexibility in selecting the method of competitive procurement but requires adherence to the rule on brand name or sole source acquisitions if those situations occur.

10. Telecommunications Systems - Hardware and Software Contracts

- a. The district may enter into a contract to acquire telecommunications system hardware and software, without competitive bidding, subject to the following conditions:
 - (1) If the contract amount does not exceed \$150,000, the district shall attempt to obtain three competitive quotes pursuant to the rules governing Intermediate Procurements. The district shall keep a written record of the sources of the quotes or proposals received. If three quotes or proposals are not reasonably available, fewer will suffice, but the district shall make a written record of the effort made to obtain the quotes or proposals.
 - (2) If the contract amount exceeds \$150,000, the district shall determine and use the best procurement method, pursuant to the public contracting code and these rules and shall solicit written proposals in accordance with the requirements of Chapter 137, Divisions 047 and 049 of the *Attorney General's Model Public Contract [and LCRB] Rules*. The district shall document the evaluation and award process, which will be part of the public record justifying the award.
- b. The telecommunications solicitation authorized in subsection 10.a.(1) of these rules shall:
 - (1) State the contractual requirements in the solicitation document;
 - (2) State the evaluation criteria to be applied in awarding the contract and the role of any evaluation committee. Criteria that would be used to identify the proposal that best meets the district's needs may include, but are not limited to, cost, quality, service and support, compatibility, product or system reliability, vendor viability and financial stability, operating efficiency and expansion potential;
 - (3) State the provisions made for bidders or proposers to comment on any specifications which they feel limit competition.

Findings of Fact

- a. Rapid changes in technology make it necessary for the district to be able to purchase needed telecommunications hardware and software quickly.
- b. Since deregulation, there is generally adequate competition among vendors of telecommunication hardware and software to allow the district to make competitive purchases.
- c. Pricing for telecommunications hardware and software also changes frequently. It is important for the district to take advantage of price competition in the marketplace.

- d. The district will follow procedures governing special procurements and document reasonable efforts to obtain at least three informally solicited quotes for purchases over \$10,000 but less than or equal to \$150,000.
- e. If a purchase of telecommunications hardware or software is expected to cost more than \$150,000, the district will use a formal competitive bidding or proposal process in accordance with these rules and the *Attorney General's Model Public Contract [and LCRB] Rules*.
- f. There are also times when the district needs to purchase specific items that are compatible with current equipment. On these occasions, the district will follow its rule governing Brand Names or Products, "Or Equal," Single Seller and Sole Source, Section 1. under Special Procurements, to make the purchase.

Conclusion of Compliance with Law

It is unlikely that this special procurement will encourage favoritism in the awarding of public contracts or substantially diminish competition for such contracts. The purchase of telecommunications hardware and software will be made in accordance with other competitive bidding rules herein. If the anticipated purchase is over \$150,000, the district will advertise its need.

The use of this special procurement will result in a cost savings to the district, or otherwise substantially promote the public interest. Competition will be encouraged at all dollar levels of purchase of telecommunications hardware and software. This rule gives the district some flexibility in selecting the method of competitive procurement but requires adherence to the rule on brand name or sole source acquisitions if those situations occur.

11. Telecommunications Services

- a. The district shall secure the most competitive, cost-effective telecommunications services of the quality needed to meet all service performance requirements while minimizing administrative and service delivery costs. The district will use routine purchasing procedures whenever possible, but if necessary, the district can consider alternative procurement methods in accordance with this rule.

The district will generally follow the normal competitive procurement processes in obtaining telecommunications services. This process will only be used if necessary where there is a lack of sufficient competition to furnish needed services.

- b. In determining the appropriate procurement method for telecommunications services, the district shall comply with the requirements of ORS 291.038 and determine whether competition exists. In determining whether competition exists, the district may consider the following factors:
 - (1) The extent to which alternative providers exist in the relevant geographic and service market; the greater area of [Insert Name] County;
 - (2) The extent to which alternative services offered are comparable or substitutable in technology, service provided and performance. For example, if the district requires digital services, analog services are not comparable or substitutable. If the district requires fiber optic technology, then copper, microwave or satellite transmission technology may not be comparable or substitutable;
 - (3) The extent to which alternative providers can respond to the district's interest in consistency and continuity of services throughout its service area, volume discounts,

D

equitable service for all users, centralized management and limiting district liability. For example, to be considered as the district's long-distance service provider, any long-distance service vendor must be able to meet, support and interface with the district's centralized automated billing requirements. The district must document for the record, its findings on these factors or any other factors used in determining whether competition exists. In developing its findings, the district may solicit the information either through informal telephone or written contacts or through a formal solicitation such as a RFP.

- c. If the district determines that competition does not exist in the area for the relevant service, the district may proceed to secure the service on a sole source basis, as described in the district's rule governing Brand Names or Products, "Or Equal," Single Seller and Sole Source, Section 1. under Special Procurements.

Findings of Fact

- a. Since deregulation, there is generally adequate competition among vendors of telecommunication services to allow the district to make competitive procurements.
- b. Since there is competition, price competition exists in the marketplace. It is important for the district to take advantage of existing competition.
- c. The district will follow its rules governing special procurements and document reasonable efforts to obtain at least three informally solicited quotes for purchases less than or equal to \$150,000. The district shall keep a written record of the sources of the quotes or proposals received. If three quotes or proposals are not reasonably available, fewer will suffice, but the district shall make a written record of the effort made to obtain the quotes or proposals.
- d. If a purchase of service is expected to cost more than \$150,000, the district will use a formal competitive bidding or proposal process in accordance with these rules and the *Attorney General's Model Public Contract [and LCRB] Rules*.
- e. There may be occasions where there is limited competition that can furnish telecommunications services of the quality and extent required by district operations. In such instances, the district will follow this rule and also its rule governing Brand Names or Products, "Or Equal," Single Seller and Sole Source, Section 1. under Special Procurements, to procure needed services from the sole source.

Conclusion of Compliance with Law

It is unlikely that this special procurement will encourage favoritism in the awarding of public contracts or substantially diminish competition for such contracts. Routinely, the purchase of telecommunications services will be made in accordance with other competitive bidding rules contained in this administrative regulation. If the anticipated purchase is over \$150,000, the district will advertise its need, issue a written solicitation document and invite written bids or proposals to be furnished in response.

There may be circumstances, however, where sufficient competition does not exist in the relevant geographic and service market area. In such cases, the district will follow this rule in determining whether sufficient competition exists to make a competitive procurement.

The use of this special procurement will result in a cost savings to the district, or otherwise substantially promote the public interest. Competition will be encouraged at all dollar levels of purchase of telecommunications hardware and software. This rule gives the district some flexibility

in selecting the method of competitive procurement but requires adherence to the rule on brand name or sole source acquisitions if those situations occur. The rule also states the steps to be taken to document situations where sufficient competition may not exist and a sole source purchase needs to be made.

12. Hazardous Material Removal; Oil Cleanup

- a. The district may enter into public contracts without competitive bidding, regardless of a dollar amount, when ordered to clean up oil or hazardous waste pursuant to the authority granted to the Oregon Department of Environmental Quality (DEQ) under ORS Chapter 466, especially ORS 466.605 through 466.680. In exercising its authority under this exemption, the district shall:
 - (1) To the extent reasonable under the circumstances, encourage competition by attempting to make informal solicitations or to obtain informal quotes from potential suppliers of goods and services;
 - (2) Make written findings describing the circumstances that require the cleanup or maintain a copy of the DEQ order for the cleanup;
 - (3) Record the measures taken under A.1. of this rule to encourage competition, the amount of the quotes or proposals obtained, if any, and the reason for selecting the contractor to whom award is made.
- b. The district shall not contract pursuant to this special procurement in the absence of an order from the DEQ to clean up a site which includes a time limit that would not allow the district to hire a contractor under normal competitive bidding procedures. Goods and services to perform other hazardous material removal or cleanup will be purchased in accordance with normal competitive bidding procedures as described in Board policy with this administrative regulation.

Findings of Fact

- a. When the DEQ orders a public agency to remove or clean up hazardous material or oil, the public agency must respond within a very short time, which is stated in the DEQ order. This time period does not generally allow the agency to take the time necessary to solicit written bids or proposals for the work to be performed. The district would be liable for any delay in responding to DEQ orders to perform hazardous material removal or cleanup.
- b. This exemption will not be used in those situations where there is no DEQ order to remedy the situation. Routine competitive procurement methods will be used where there is no DEQ order to act immediately. The district maintains open lists of vendors who are interested in providing hazardous material removal and cleanup services. Whenever it needs hazardous material removal or disposal, the district makes use of these lists to solicit quotes, bids or proposals as needed, in addition to advertising the procurement as required.
- c. Cost savings are achieved through this exemption because the district can be liable for DEQ penalties and fines if it does not timely remove hazardous materials or oil as ordered. There is also serious risk in these situations, that property damage or personal injury could result if the district is slow to act.

Conclusions of Compliance with Law

It is unlikely that this special procurement will encourage favoritism in the awarding of public contracts or substantially diminish competition for such contracts as required by ORS 279B.085(3)(a). If it is under DEQ order to act immediately, the district will still attempt to obtain competitive quotes for the work to be performed as it has the ability and time to do so. Unless the district is faced with the quasi-emergency situation of a DEQ order to remove or clean up hazardous waste or oil, it will follow normal competitive procedures to obtain these services.

The award of public contracts pursuant to this special procurement will result in a cost savings to the district in these situations, as required by ORS 279B.085(3)(b), because the district must comply with the law and avoid and minimize risk to persons and property. Where possible, it will seek competitive quotes for the work to be performed and will award the contract to the lowest, responsive and responsible bidder.

13. Renegotiation of Existing Contracts with Incumbent Contractors

- a. The district may amend or renegotiate contracts with existing vendors, service providers or other parties subject to the limitations of this rule.
- b. The district has determined that [value engineering,] [specialized expertise required,] [public safety] [and technical complexity], generally do not apply to this special procurement procedure.
- c. The renegotiated contract falls within a current special procurement procedure, but if not the LCRB must approve a separate special procurement.
- d. The district may renegotiate certain terms, but they must not unreasonably alter the scope of the original contract.

Findings of Fact

- a. The LCRB may amend contracts when it is in the best interest of the district. The [superintendent] and/or other designee, acting on behalf of the LCRB, may renegotiate certain provisions, including:
 - (1) Price;
 - (2) Term;
 - (3) Delivery and shipping;
 - (4) Order size;
 - (5) Substitution;
 - (6) Warranties;
 - (7) Online ordering systems;
 - (8) Price adjustments;
 - (9) Product availability;
 - (10) Product quality;
 - (11) Reporting requirements; or
 - (12) Discounts.

Any contract amendment will be supported by legal consideration when necessary to validate the amended provision.

- b. The amended terms must be within a reasonable scope of the original contract, but not fundamentally alter the agreement or nature of goods or services. Districts may, however, request functionally equivalent substitutes for goods or services in the original contract.
- c. The contract as a whole must be more favorable to the individual needs of the district to justify renegotiation. Cost may be a factor in determining what is a favorable change to the original contract, but the district may use factors other than cost that demonstrate that the amended contract is more favorable to the unique needs of the district.

Conclusion of Compliance with Law

This special procurement will not encourage favoritism or substantially diminish competition in awarding public contracts because it already exists as a contract awarded in compliance with the district's special procurement and public contracting code.

The awarding of contracts under this special procurement will result in cost savings to the district when it needs to renew its original contract with vendors, service providers or other parties, or otherwise substantially promote the public interest.

EXEMPTIONS FROM COMPETITIVE BIDDING

All public contracts shall be based upon competitive bids or proposals, except the following:

1. Contracts which have been specifically exempted under ORS 279A.025 and 279C.335; and
2. Contracts covered by the class exemptions in the following set of rules developed pursuant to ORS 279C.335(2) and (5) and based on Oregon Administrative Rules, Chapter 137, Divisions 46 through 49.

The Board, acting as the Local Contract Review Board (LCRB) for the district, has made the findings required by ORS 279C.330, ORS 279C.335 and ORS 279C.345, and determined that awarding a contract under this exemption is unlikely to encourage favoritism or substantially diminish competition for the public contract and will likely result in a substantial cost savings and other substantial benefits to the district.

In approving a finding under this section, the local contract review board shall consider the type, cost and amount of the contract and, to the extent applicable to the particular public improvement contract or class of public improvement contracts, the following:

1. How many persons are available to bid;
2. The construction budget and the projected operating costs for the completed public improvements;
3. Public benefits that may result from granting the exemption;
4. Whether value engineering techniques may decrease the cost of the public improvement;
5. The cost and availability of specialized expertise that is necessary for the public improvement;
6. Any likely increases in public safety;

7. Whether granting the exemption may reduce risks to the district or the public that are related to the public improvement;
8. Whether granting the exemption will affect the sources of funding for the public improvement;
9. Whether granting the exemption will better enable the district to control the impact that market conditions may have on the cost of and time necessary to complete the public improvement;
10. Whether granting the exemption will better enable the district to address the size and technical complexity of the public improvement;
11. Whether the public improvements involves new construction or renovates or remodels an existing structure;
12. Whether the public improvement will be occupied or unoccupied during construction;
13. Whether the public improvement will require a single phase of construction work or multiple phases of construction work to address specific project conditions; and
14. Whether the district has or has retained under contract, and will use district personnel, consultants and legal counsel that have necessary expertise and substantial experience in alternative contracting methods to assist in developing the alternative contracting method that the district will use to award the public improvement contract and to help negotiate, administer and enforce the terms of the public improvement contract.

Only these findings are required for each class or individual contract exemption, unless the LCRB specifically excludes a finding or includes an additional finding.

Promulgation of these exemptions can only occur after public notification and a public hearing to receive testimony pertaining to the draft exemptions and findings, pursuant to ORS 279C.335.

1. Brand Names or Products, “Or Equal,” Single Seller and Sole Source
 - a. The district may purchase brand names or products from a single seller or sole source without competitive bidding subject to the limitations of this rule.
 - b. The district has determined that [value engineering,] [specialized expertise required,] [public safety] [and technical complexity], generally do not apply to this exemption.
 - c. Solicitation specifications for public contracts of the district shall not expressly or implicitly require any product of any particular manufacturer or seller except as expressly authorized in subsections d. and e. of this rule.
 - d. The district may specify a particular brand name, make or product suffixed by “or equal,” “or approved equal,” “or equivalent,” “or approved equivalent” or similar language if there is no other practical method of specification after documenting the procurement file with the following:
 - (1) A brief description of the solicitation(s) to be covered, including contemplated future purchases;
 - (2) Description of the brand name, mark or product to be specified; and
 - (3) A brand name specification may be prepared and used only if the district determines for a solicitation or class of solicitations that only the identified brand name specification

will meet the needs of the district based on one or more of the following written determinations:

D

- (a) The use of the brand name specification is unlikely to encourage favoritism in the awarding of public contracts or substantially diminish competition for public contracts; or
 - (b) Specification of the brand name, mark or product would result in substantial cost savings to the district; or
 - (c) There is only one manufacturer or seller of the product of the quality, performance or functionality required; or
 - (d) The efficient utilization of existing goods requires the acquisition of compatible goods and services.
- (4) The district shall make reasonable effort to notify all known suppliers of the specified product and invite such vendors to submit competitive bids or proposals.
- e. The district may purchase a particular product or service available from only one source, after documenting the procurement file with the district's findings of current market research to support the determination that the product is available from only one seller or source. The district's findings shall include:
- (1) A brief description of the contract or contracts to be covered, including contemplated future purchases;
 - (2) Description of the product or service to be purchased; and
 - (3) The reasons the district is seeking this procurement method, which shall include any of the following:
 - (a) That the efficient utilization of existing equipment, supplies or services requires the acquisition of compatible equipment, supplies or services; or
 - (b) That the goods or services required for the exchange of software or data with other public or private agencies are available for only one source; or
 - (c) That the goods or services are for use in a pilot or an experimental project; or
 - (d) Other findings that support the conclusion that the goods or services are available from only one source.
 - (4) To the extent reasonably practical, the contracting agency shall negotiate with the sole source to obtain contract terms advantageous to the contracting agency.
- f. The district may specify a product or service available from only one manufacturer but available through multiple sellers, after documenting the procurement file with the following information:
- (1) If the total purchase is over \$10,000 but does not exceed \$100,000, and a comparable product or service is not available under an existing state cooperative purchasing contract, competitive quotes shall be obtained by the district and retained in the procurement file; or
 - (2) If the amount of the purchase exceeds \$100,000, the product or service shall be obtained through competitive bidding unless a specific exemption is granted by the LCRB.

- g. If the district intends to make several purchases of the product of a particular manufacturer or seller for a period not to exceed five years, the district will so state in the solicitation file and in the solicitation document, if any. Such documentation shall be sufficient notice as to subsequent purchases. If the total purchase amount is estimated to exceed \$100,000, this shall be stated in the advertisement for bids or proposals.

Findings of Fact/Conclusion of Compliance with Law

It is unlikely that this process will encourage favoritism in the award of public contracts or substantially diminish competition for such contracts, as required by ORS 279C.335 (2)(a).

This class exemption applies only to contracts under a limited dollar amount, and then, only after efforts to obtain competitive quotes are made, or other methods have been employed to ensure that competitive means are used if available. The district maintains open lists from which vendors are contracted for quotations. In addition, as required by ORS 279C.335 (2)(b) award of a public contract subject to the above described exemption should likely result in substantial cost savings or other substantial benefits to the district by virtue of the ability to reduce solicitation costs when it is known that comparable products are not available, or when specifying another product solely to meet a competition requirement might lead to lower initial cost but longer lifetime cost.

2. Product Prequalification

- a. When specific design or performance specifications must be met or such specifications are impractical to create or reproduce for a type of product to be purchased, the district may specify a list of approved or qualified products by reference to the prequalified product(s) of particular manufacturers or vendors in accordance with the following product prequalification procedure:
- (1) The district will make reasonable efforts to notify all known manufacturers and vendors of competing products of the district's intent to compile a list of prequalified products. The notice will explain the opportunity manufacturers and vendors of competing products will have to apply to have their product(s) included on the district's list of prequalified products. At its discretion, the district may provide notice by advertisement in a trade paper of general statewide circulation or other appropriate trade publication; or instead of advertising, the district may provide written notice to those manufacturers and vendors appearing on the appropriate list maintained by the district; and
 - (2) The district will accept manufacturer and vendor applications to include products in the district's list of prequalified products up to 15 calendar days prior to the initial advertisement for bids or proposals for the type of product to be purchased, unless otherwise specified in the advertisement or in the district's written notice.
- b. The district has determined that special expertise required, generally, does not apply to this rule.
- c. If the district denies an application for inclusion of a product on its list of prequalified products, the district shall promptly provide the applicant with a written notice of the denial and include the reason for denial. The applicant may submit a written appeal within [7] calendar days to the district business manager to request review and reconsideration of the denial.

Findings of Fact

- D** a. There are occasions when the district needs to establish a list of prequalified products before it invites bids or proposals to furnish the products. The district may have a specific performance or design need, but it is impractical for the district to create a specification for the type of products to be purchased. An example is audiovisual equipment. There is a tremendous variety of audiovisual products offered in the market. The equipment technology is complex and constantly changing. It would be very burdensome and time consuming for the district to generate nonbrand name, generic performance specifications for such equipment every time it wants to make a purchase.

Also, competition would be poorly served because bidders and proposers would not know in advance whether their offered product would meet the general specification substantially enough to be considered a responsive offer. The decision to make an award would be slow, because each product offered would have to be analyzed against the district's specification. Slowdown in the award process affects both bidders, who are asked to hold their bids open until award is made, and district programs, because staff are not able to order the equipment they need until the contract is awarded.

In this case, it might be more cost effective and efficient for the district to prequalify products and establish a list of approved products before invitations to bid are sent out. The prequalification process can be done some time before the need for a new contract. Once the prequalified product list is established, the bidding and contract award process can go quickly and smoothly.

- b. A second occasion when prequalification of products will be useful is when the specific design or performance specifications for a product are so exacting that the district must have time to carefully consider what is offered in the market that may or may not meet the specifications and, if necessary, reconsider its options before issuing an invitation to bid.
- c. This rule sets out a process of prequalification which requires the use of advertisement or other appropriate means to notify vendors of competing products of their opportunity to submit items for prequalification. The district maintains vendor mailing lists which are open to all interested vendors. The district uses these lists routinely to notify vendors of its intentions to prequalify products or to invite bids on products.
- d. This includes a 15-day time limit between the closure of a prequalification list and a related invitation to bid. This time factor ensures that vendors have a reasonable time to apply to include their products on a prequalified product list.
- e. Subsection c. of this rule provides vendors with an appeal process to follow if their application for prequalification is denied.

Conclusion of Compliance with Law

Where prequalification of products is appropriate, it is unlikely that this exemption will encourage favoritism in the awarding of public contracts or diminish competition for such contracts as required by ORS 279C.335(2)(a). There are several safeguards in the rule to prevent this, including notice, advertising, time and appeal process requirements to ensure that vendors are given a fair and open opportunity to participate in the prequalification process.

The prequalification of products process is a time-consuming effort for the district. It is not a shortcut procurement method. The district would use this method only after balancing cost-saving

considerations, such as the ability of the district to create or generate nonbrand name generic specifications for types of products or the need for lengthy product evaluation prior to a contract award. If the prequalification method is chosen, it will likely result in a substantial cost savings and other substantial benefits to the district as required by ORS 279C.335 (2)(b) because the normal method of product selection is too cumbersome and costly to pursue.

3. Requirements Contracts (Blanket Purchase Orders, Price)³

- a. The business manager, on behalf of the district, may establish requirements contracts for the purposes of minimizing paperwork, achieving continuity of product, securing a source of supply, reducing inventory, combining district requirements for volume discounts, standardization among schools and departments and reducing lead time for ordering.
- b. The district has determined that [value engineering,] [specialized expertise required] [and technical complexity,] generally, do not apply to this rule.
- c. The district may enter into a requirements contract (also known as a blanket purchase order or price agreement) whereby it is agreed to purchase goods or services for an anticipated need at a predetermined price or price discount from a price list, provided the contract is let by a competitive procurement process pursuant to the requirements of the public contracting code and these rules.
- d. Once a requirements contract is established, schools and departments may purchase the goods and services from the awarded contractor without first undertaking additional competitive solicitation.
- e. Schools and departments shall use requirements contracts established by the district, unless otherwise specified in the contract, allowed by law or these rules or specifically authorized by the [superintendent] or designee.
- f. Under the authority of ORS 279A.025 and 279C.335, the district may use the requirements contracts entered into by another Oregon public agency when:
 - (1) The original contract met the requirements of the public contracting code; and
 - (2) The original contract allows other public agency usage of the contract; and
 - (3) The original public contracting agency concurs, and this is documented by a written interagency agreement between the district and the agency.
- g. The term of any district requirements contract, including renewals, shall not exceed five years unless otherwise exempted pursuant to ORS 279C.335.

Findings of Fact

- a. This rule permits the district to enter into requirements contracts, in which the vendor agrees to provide specified goods and services over the term of the contract at the bid price or discount rate. A requirements contract is useful when the purchase of the goods or services are routine and repetitive. For example, school, building, office, custodial and facilities maintenance supplies are customarily purchased through requirements contracts.
- b. Requirements contracts are a common method of minimizing paperwork, achieving continuity of product, securing a source of supply, reducing inventory, obtaining volume discounts,

³ The OregonBuys.gov allows authorized members to utilize the state's price agreement/contracts to purchase goods and services. Authorized OregonBuys members can legally attach to a state price agreement and forego the competitive bid process. Access to hundreds of competitive price contracts for a wide variety of goods and services: vehicles, computers, furniture, copiers, fax machines, travel, pharmaceuticals, office products, etc., is available.

standardizing usage among schools, buildings and departments and reducing lead time for ordering.

- c. The district establishes requirements contracts as a result of open competitive bidding or RFP processes, unless otherwise exempted.
- d. The district limits the term of a requirements contract, including all renewal options, to a maximum of five years before competitive rebidding must be done, unless otherwise exempted.
- e. The district may use the requirements contracts established by other public agencies, subject to certain conditions of state law, Board policy and administrative regulation.

Conclusion of Compliance with Law

It is unlikely that this exemption will result in favoritism in the awarding of public contracts or diminish competition for such contracts, as required by ORS 279C.335(2)(a). The district will only enter into requirements contracts which result from open competitive bidding processes. This condition applies also to the use of requirements contracts established by other public contracting agencies.

The awarding of district requirements contracts will likely result in a substantial cost savings and other substantial benefits to the district, as required by ORS 279C.335(2)(b). It would be costly and inefficient to make routine, repetitive purchases of goods and services through individual transactions. Also, the guaranteed volume of a requirements contract allows the district to get better prices from bidders.

4. Waiver of Bid Security Requirements (Public Improvement Contracts under \$100,000)

The LCRB may, at its discretion, waive the bid security requirements of ORS 279C.390, if the amount of the contract for the public improvement is less than \$100,000. Although the bid security requirements of ORS 279C.390 are waived for public improvement contracts under \$100,000, the district may impose a bid or quote security requirements for projects under \$100,000, when deemed to be in the best interest of the district.

Findings of Fact/Conclusion of Compliance with Law

This rule allows the LCRB to waive bid security requirements for certain public improvement contracts. Waiver of the bid security is provided for by statute without a requirement for findings.

5. Waiver of Performance and Payment Security Requirements (Public Improvement Contracts under \$100,000)

The LCRB may, at its discretion, waive the performance/payment security requirements of ORS 279C.390 if the amount of the contract for the public improvement is less than \$100,000. Although the performance/payment security requirements of ORS 279C.390 are waived for public improvement contracts less than \$100,000, the district may impose a performance/payment security requirement for projects less than \$100,000 when deemed to be in the best interest of the district.

Findings of Fact/Conclusion of Compliance with Law

This rule allows the LCRB to waive performance/payment security requirements for certain public improvement contracts. Waiver of the performance/payment security is provided for by statute without a requirement for findings.

6. Projects with Complex Systems or Components

- a. For contracts for public improvements with significant components that are inherently complex and are also complex to procure through competitive bid, the district may, at its discretion, use RFP competitive procurement methods subject to the conditions described in ORS 279C.400 and conditions enumerated in this exemption.
- b. **Definitions.** For purposes of this exemption only: “Complex Systems” are defined as those systems which incorporate the procurement of materials or other components which are difficult, if not impossible, to create in an “equal” specifications basis for competitive bid. Examples of such systems include but are not limited to, contracts for supplying and installing computerized controls for building heating, venting, air conditioning systems; and contracts for artificial surface outdoor multipurpose athletic fields. “Significant” is intended to mean something more than de minimus, but not necessarily the majority of the project as determined by cost.

Finding of Fact/Conclusion of Compliance with the Law

It is unlikely that this exemption will encourage favoritism in the awarding of the public contracts or substantially diminish competition for such contracts as required by ORS 279C.335(2)(a). Contracts for public improvements occasionally incorporate the procurement of systems, materials, or other components (complex systems) for which it is extremely difficult to design bid specifications. In these situations, utilization of a RFP process where each of the systems can be evaluated utilizing a number of factors, in addition to price, will likely result in substantial cost savings and other substantial benefits to the district as required by ORS 279C.335(2)(b).

ORS 279C.400 enumerates how RFP’s are to be used if authorized by the LCRB. These criteria, ensures that competitive means will be used, and selection will be fair and impartial. As a result, it is unlikely that this process will encourage favoritism in the awarding of public contracts or substantially diminish competition for such contracts as required by ORS 279C.335(2)(a). The awarding of contracts pursuant to this process will result in optimal value to the district based on selection by the district of the best competitive proposal that meets the stated evaluative criteria.

This class exemption is intended to be used for the types of procurements describe in the findings, where the specific system, materials or components represent a significant portion of the project. This class exemption is not intended to be used for construction manager/general contractor (CM/GC) projects or other methods of alternative procurement unless these projects meet the requirements of this class exemption. The CM/GC and others, not meeting the requirements of this class exemption, may still be procured by RFP, provided that a project or contract specific exemption is promulgated by the LCRB.

Personal Services Contracts

(Delete this policy. OSBA has moved personal services contract language to DJC.)

The district may enter into personal services contracts with qualified professionals as provided by Oregon Revised Statute (ORS) 279A.055. "Personal services contracts," as used in this policy, means contracts for specialized skills, knowledge and resources in the application of highly technical or scientific expertise or the exercise of professional, artistic or management discretion or judgment. The district may enter into a personal services contract with a current district employee only when the individual meets independent contractor status in accordance with state, Public Employees Retirement System (PERS) and Internal Revenue Service (IRS) requirements.

Selection of a personal services contractor will be based primarily on qualifications and performance history, expertise, knowledge and creativity and the ability to exercise sound professional judgment.

All personal services contracts shall be based on demonstrated qualifications and competence to perform the required services, encourage competition, discourage favoritism and obtain services at a fair and reasonable price.

Contracts for personal services in excess of [\$150,000] shall require prior Board approval.

The superintendent will develop administrative regulations as necessary to implement this policy.

Personal Services Contracts

(Delete this administrative regulation.)

1. Personal Services Contracts Defined

- a. Personal services contracts include, but are not limited to a contract or member of a class of contracts, that the local contracting agency's Local Contract Review Board (LCRB) has designated as a personal services contract pursuant to Oregon Revised Statute (ORS) 279A.055. Personal services include, but are not limited to, the following:
 - (1) Contracts for services performed as an independent contractor in a professional capacity (e.g., services of an accountant, attorney, data processing consultant, etc.);
 - (2) Contracts for services as an artist in the performing or fine arts (e.g., photographer, painter, etc.);
 - (3) Contracts for services that are specialized, creative and research oriented;
 - (4) Contracts for services as a consultant;
 - (5) Contracts for educational consulting services.
- b. Personal services contracts may include: (1) public contracts for architectural, engineering or land surveying and related services; or (2) other public contracts for nonconstruction services.

2. Eligibility

The district will follow ORS 670.600, Public Employees Retirement System (PERS) rules Oregon Administrative Rule (OAR) 459-010-0030 and Internal Revenue Service (IRS) Ruling 87-41 in determining whether the individual or business entity qualifies as an independent contractor or is an employee of the district. A valid independent contractor must meet all eight of the following points:

- a. State requirements¹:
 - (1) The contractor must be free from the direction and the control of the employer;
 - (2) The contractor must obtain required business licenses;
 - (3) The contractor must furnish necessary tools and equipment;
 - (4) The contractor has authority to hire and fire employees;
 - (5) The contractor is paid on completion of portions of projects or on a retainer basis;
 - (6) The construction contractor must be registered under ORS Chapter 701 (For more information call the Construction Contractors Board at 503-378-4621 in Salem.);
 - (7) The contractor must file appropriate business tax returns;
 - (8) The contractor must represent to the public that the labor or services are provided by an independent business.
- b. PERS requirements:

¹ See ORS 670.600 for complete listing.

In determining whether an individual is an employee or independent contractor for PERS contribution purposes, the district will consider the following factors:

- D**
- (1) Instructions. An employee must comply with instructions about when, where and how to work. Even if no instructions are given, the control factor is present if the employer has the right to control how the work results are achieved;
 - (2) Training. An employee may be trained to perform services in a particular manner. Independent contractors ordinarily use their own methods and receive no training from the purchasers of their services;
 - (3) Integration. An employee's services are usually integrated into the business operations because the services are important to the success or continuation of the business. This shows that the employee is subject to direction and control;
 - (4) Services rendered personally. An employee renders services personally. This shows that the employer is interested in the methods as well as the results;
 - (5) Hiring, supervising and paying assistants. An employee works for an employer who hires, supervises and pays workers. An independent contractor can hire, supervise and pay assistants under a contract that requires him/her to provide materials and labor and to be responsible only for the result;
 - (6) Continuing relationship. An employee generally has a continuing relationship with an employer. A continuing relationship may exist even if work is performed at recurring although irregular intervals;
 - (7) Set hours of work. An employee usually has set hours of work established by an employer. An independent contractor generally can set their own work hours;
 - (8) Full-time required. An employee may be required to work or be available full-time. This indicates control by the employer. An independent contractor can work when and for whom they choose;
 - (9) Doing work on employer's premises. An employee usually works on the premises of an employer, or works on a route or at a location designated by an employer;
 - (10) Order or sequence set. An employee may be required to perform services in the order or sequence set by an employer. This shows that the employee is subject to direction and control;
 - (11) Oral or written reports. An employee may be required to submit reports to an employer. This shows that the employer maintains a degree of control;
 - (12) Payment by hour, week, month. An employee is generally paid by the hour, week or month. An independent contractor is usually paid by the job or on a straight commission;
 - (13) Payment of business and/or traveling expenses. An employee's business and travel expenses are generally paid by an employer. This shows that the employee is subject to regulation and control;
 - (14) Furnishing of tools and materials. An employee is normally furnished significant tools, materials and other equipment by an employer;
 - (15) Significant investment. An independent contractor has a significant investment in the facilities they use in performing services for someone else;
 - (16) Realization of profit or loss. An independent contractor can make a profit or suffer a loss;
 - (17) Working for more than one employer at a time. An independent contractor is generally free to provide their services to two or more unrelated persons or firms at the same time;
 - (18) Making service available to general public. An independent contractor makes their services available to the general public;

D

- (19) Right to discharge. An employee can be fired by an employer. An independent contractor cannot be fired so long as they produce a result that meets the specifications of the contract;
- (20) Right to terminate. An employee can quit their job at any time without incurring liability. An independent contractor usually agrees to complete a specific job and is responsible for its satisfactory completion, or is legally obligated to make good for failure to complete it.

c. IRS requirements:

Additionally, in determining employee or independent contract status for purposes of the Federal Insurance Contributions Act (FICA), the Federal Unemployment Tax Act (FUTA) or for federal income tax withholding from wages, the district will consider:

- (1) Behavioral control. A worker is an employee when the district has the right to direct and control the worker;
- (2) Financial control. A worker is an independent contractor if they can realize a profit or incur a loss. The individual may also be an independent contractor if they are not reimbursed for some or all business expenses, especially if those expenses are high or if they have a significant investment in their work;
- (3) Relationship of the parties. Facts weighed by the district will include any written contracts describing the relationship the parties intended to create; the extent to which the worker is available to perform services for other similar businesses; whether the district provides the worker with employee-type benefits, such as insurance, vacation pay or sick pay; and the permanency of the relationship.

3. Personal Services Contracts - Procurement Requirements

- a. Contracts for personal services less than [\$25,000] within a 12-month period, shall, where practical, be based on written or verbal quotes or may be procured through direct negotiations with the contractor.
- b. Contracts for personal services greater than [\$25,000] that do not exceed [\$75,000] may be based on three written or verbal quotes, or response to a request for proposal (RFP) as deemed appropriate by the superintendent or designee.
- c. Contracts for personal services greater than [\$75,000] shall be based on written solicitations, request for qualifications, or the RFP process.
- d. The district may enter into a personal services contract when the amount of the services does not exceed [\$150,000] without obtaining quotes or utilizing the RFP process when only one contractor or sole source provides the services as follows:
 - (1) The superintendent or designee shall make the following written findings for inclusion in the contract file:
 - (a) That the efficient utilization of existing goods requires the acquisition of compatible goods or services;
 - (b) That the goods or services required for the exchange of software or data with other public or private agencies are available from only one source;
 - (c) That the goods or services are for use in a pilot or an experimental project; or
 - (d) Other findings that support the conclusion that the goods or services are available from only one source.

- e. If the cost of the services is more than [\$150,000], the district may award a contract on a sole source basis, only with Board approval and if prior to the award:

- D**
- (1) Notice of the district's intent to contract for the services, including the general specifications of the intended contract, is advertised in at least one newspaper or trade journal of general circulation in the area where the services are to be performed;
 - (2) The advertised notice is published at least 14 days before award of contract to allow prospective contractors a reasonable opportunity to submit a protest of the district's intent to contract through the sole source process unless the superintendent gives prior written approval to reduce the number of days based on extraordinary circumstance that do not meet the criteria for an Emergency Procurement pursuant to OAR 137-047-0280; and
 - (3) The protest shall be submitted in writing to the district by the closing date and time of the advertisement notice. It shall state the reason the contract should be competitively solicited.

Protests shall be heard by the [Board], whose decision shall be final.

4. ITB/RFP Requirements

- a. An invitation to bid (ITB) or RFP will be used as a formal competitive solicitation that describes the specific services to be performed within a defined period of time. The solicitation will set forth criteria and methods for screening, selecting and ranking the most qualified proposal(s). The solicitation document may result in contracts with more than one provider.
- b. The solicitation document must provide that the district is not responsible for any cost incurred while submitting proposals and that all proposers who respond do so at their own expense.
- c. The solicitation document must, at a minimum, address the following:
 - (1) Requirements for solicitation documents under ORS 279B.055(2) and 279B.060(2):
 - (a) A time and date by which the bids or proposals must be received and a place at which bids must be submitted, and may, in the sole discretion of the contracting agency, direct or permit the submission and receipt of bids or proposals by electronic means;
 - (b) The name and title of the person designated for receipt of bids or proposals and the person designated by the contracting agency as the contact person for the procurement, if different;
 - (c) A procurement description;
 - (d) A time, date and place that prequalified applications, if any, must be filed and the classes of work, if any, for which bidders must be prequalified in accordance with ORS 279B.120;

- (1) Available the appropriate financial, material, equipment, facility and personnel resources and expertise, or the ability to obtain the resources and expertise, necessary to indicate the capability of the bidder or proposer to meet all contractual responsibilities;
- (2) A satisfactory record of performance.² The contracting agency will document in the solicitation file its basis for determining that the offeror is not responsible because the offeror does not meet this requirement;

² A contracting agency should review carefully the offeror's record of contract performance if the offeror is or recently has been materially deficient in contract performance. In reviewing the offeror's performance, the contracting agency should determine whether the offeror's deficient performance was expressly excused under the terms of the contract, or whether the offeror took appropriate corrective action. The contracting agency may review the offeror's performance on both private and public contracts.

Contracts entered into may be amended, provided the original contract allows for the particular amendment and the services to be provided under the amendment are included within or directly related to, the scope of the project or the scope of the services described in the solicitation document.

6. Documentation

Documentation providing evidence of competition shall be maintained by the district for all contracts entered into by the district.

If the scope of the work performed by a contractor(s) or their employee(s) may result in direct, unsupervised contact with students, they will be required to submit to fingerprinting and criminal records checks as required by law.

8. Payment

Payment will be made only upon completion of the performance of specific portions of the project or on the basis of an annual or periodic retainer as specified by the district in the personal services contract.

T

E

³ A contracting agency may determine that an offeror lacks integrity because of a lack of business ethics such as a violation of environmental laws or false certification made to the contracting agency. A contracting agency may find that an offeror is not responsible based on a lack of integrity of a person having influence or control over the offeror.

First Aid**

(Recommend delete. Considering recent changes to the health services OAR 581-022-2220, several OSBA model policies have been revised. This content has been revised according to the OAR and reorganized into EBC.)

In cases of sudden illness or injury to a student or staff member, first aid will be given by school staff. Further medical attention for a student is the responsibility of the student’s parent(s), or of someone the parent(s) designate in the case of an emergency. Each principal is charged with providing for the immediate care of ill or injured persons within their area of responsibility.

Staff members shall report self-administered first-aid treatment to an immediate supervisor.

In each district facility, procedures for handling health emergencies will be established and made known to staff. Each district facility and district vehicle will be equipped with appropriate first-aid supplies and equipment. All employees are expected to know where first-aid supplies and equipment are kept in their work areas.

Designated employees in each building shall hold current first-aid cards. In compliance with Oregon Administrative Rules, each school shall have, at a minimum, at least one staff member with a current first-aid card for every 60 students enrolled or an emergency response team per building. Such team shall consist of no less than six persons who hold current first-aid/CPR cards and who are trained annually in the district and building emergency plans. Names of the designated employees will be posted.

First Aid - Infection Control

(Recommend delete in lieu of current OSHA requirements and training standards.)

Health services information about the transmission of diseases including AIDS and HBV¹ focuses on “body fluids” as a possible carrier of organisms that can infect others. The term includes drainage from cuts and scrapes, vomit, urine, feces, respiratory secretions (nasal discharge), saliva, semen and blood. While any contact with the body fluids of another person represents a risk, the level of risk is very low. The risk is increased if the fluid comes in contact with a break in the skin of another individual. Generally, simple, consistent standards and procedures of cleanliness minimize risk.

The following procedures are precautionary measures against the transmission of diseases. Prudent actions are to be employed by all staff and students. These actions should focus primarily on steps that students and staff members can take to ensure their own well-being.

Those who administer first aid, provide physical care or may otherwise incur occupational exposure to blood or other potentially infectious materials as determined by the district will be specifically protected through the district’s Exposure Control Plan.

The following procedures are a review for all staff and students of appropriate hygienic and sanitation practices:

1. Standard precautions are to be followed at all times. Standard precautions require the assumption that staff and students approach infection control as if all direct contact with human blood and body fluids is known to be infectious for HIV, HBV and/or other bloodborne pathogens;
2. Whenever possible, students should be directed to care for their own minor bleeding injury. This includes encouraging students to apply their own band-aids. If assistance is required, band-aids may be applied after the caregiver removes their gloves, if the caregiver will not come into contact with blood or wound drainage;
3. Food and Drug Administration (FDA) approved gloves are required for all tasks in which an individual may come into contact with blood or other potentially infectious materials. Such tasks include cleaning body fluid spills, emptying trash cans, handling sharps/containers, handling contaminated broken glass, cleaning contaminated equipment and handling contaminated laundry/clothing. This also includes assisting with any minor wound care, treating bloody noses, handling clothes soiled by incontinence, diaper changing and cleaning up vomit;
4. Immediate, complete and effective hand washing with soap and running water of at least 30 seconds duration should follow any first aid or health care given to a student or contact with potentially infectious materials;

¹ HIV - Human Immunodeficiency Virus; AIDS - Acquired Immune Deficiency Syndrome; HBV - Hepatitis B Virus

5. If exposure to blood or other potentially infectious materials occurs through coughing, any first-aid procedure, or through an open sore or break in the skin, thorough washing, preferably with germicidal soap, is necessary;
6. In the event hand-washing facilities are not readily available, thorough cleaning using an antiseptic cleanser and clean cloth/paper towels or antiseptic towelettes provided by the district as an alternative is necessary. In the event alternatives are used, hands must be washed with soap and running water as soon as feasible;
7. Contaminated work surfaces shall be decontaminated with an appropriate disinfectant after completion of procedures; immediately or as soon as feasible when surfaces are overtly contaminated or after any spill of blood or other potentially infectious materials; and at the end of the work shift if the surface may have become contaminated since the last cleaning. Clean surfaces with soap and water and then rinse with an Environmental Protection Agency (EPA) approved disinfectant^[2] following labeling instructions for use, or a freshly made solution of one part bleach to nine parts water, and allow to air dry. These surfaces include equipment, counters, mats (including those used in physical education classes and athletic events), toys or changing tables;
8. An EPA-approved disinfectant must be used when cleaning fluids such as blood or vomit from the floor or other such contaminated surfaces;
9. Contaminated laundry such as clothing and towels must be placed and transported in bags and containers in accordance with the district's standard precautions. All such items must be laundered in hot or cold water and soap and placed in a dryer;
10. Needles, syringes, broken glassware and other sharp objects found on district property must not be picked up by students at any time, nor by staff without appropriate puncture-proof gloves or mechanical device such as a broom, brush and dust pan. Any such items found must be disposed of in closable puncture resistant, leakproof containers that are appropriately labeled or color-coded;
11. All wastebaskets used to dispose of potentially infectious materials must be lined with a plastic bag liner that is changed daily;
12. Gloves and repellent gowns, aprons or jackets are required for tasks in which exposure to blood or other potentially infectious materials can be reasonably anticipated to contaminate street clothing. Type and characteristics of such protective clothing will depend on the task. Such tasks may include diapering/toileting with gross contamination, assisting with wound care, sorting or bagging contaminated laundry/clothing and disposing of regulated waste with gross contamination;
13. Maximum protection with gloves, face and/or eye protection and gowns is required whenever splashes, spray, spatter or droplets of blood or other potentially infectious materials may be generated and eye, nose or mouth contamination can be reasonably anticipated. Such tasks may include feeding a student with a history of spitting or forceful vomiting and assisting with severe injury and wound with spurting blood;

² [Disinfectants which can be used include Lysol, Purex, Clorox, Tough Act bathroom cleaner, Dow bathroom cleaner, Real Pine liquid cleaner, Pine Sol, Spic and Span, Tackle liquid, Comet and other products with EPA numbers. Other disinfectants as recommended by the Center for Disease Control may be used.]

14. If a first-aid situation occurs, students should report to a person in authority; staff should report to a supervisor.

Additional Precautions

The following additional precautions should be applied in all school settings. These procedures will help prevent transmission of many infections in addition to HIV and HBV:

1. A sink with soap, hot and cold running water and disposable towels should be available close to the classroom;
2. Sharing of personal toilet articles, such as toothbrushes and razors, should not be permitted;
3. Skin lesions that may ooze blood or serum should be kept covered with a dressing;
4. Exchange of saliva by kissing on the mouth, by sharing items that have been mouthed and by putting fingers in others' mouths should be discouraged.

Communicable Diseases - Students

(Recommend delete: the requirement for this policy was found in OAR 581-022-2220, which has since been revised and requirement removed in lieu of a new requirement for a Communicable Disease Plan. Refer to policy GBEB and GBEB-AR.)

The district shall provide reasonable protection against the risk of exposure to communicable disease for students. Reasonable protection from communicable disease is generally attained through immunization, exclusion or other measures as provided by Oregon law, by the local health department or in the *Communicable Disease Guidance* published by the Oregon Department of Education (ODE) and the Oregon Health Authority (OHA). Services will be provided to students as required by law. A student will not attend school while in a communicable stage of a restrictable disease or when an administrator has reason to suspect that any susceptible student has or has been exposed to any disease for which the student is required to be excluded in accordance with law and per administrative regulation JHCC-AR - Communicable Diseases - Students. If the disease is a reportable disease, the administrator will report the occurrence to the local health department. The administrator will also take whatever reasonable steps it considers necessary to organize and operate its programs in a way which both furthers the education and protects the health of students and others.

The district may, for the protection of both the student who has a restrictable disease and the exposed student, provide an educational program in an alternative setting.

The district will include, as a part of its emergency plan, a description of the actions to be taken by district personnel in the case of a declared public health emergency or other catastrophe that disrupts district operations.

The district shall protect the confidentiality of each student's health condition and record to the extent possible and consistent with federal and state law. In cases when a restrictable or reportable disease is diagnosed and confirmed for a student, the administrator shall inform the appropriate employees with a legitimate educational interest to protect against the risk of exposure.

The superintendent will develop administrative regulations necessary to implement this policy.

(Recommend delete: the requirement for this policy was found in OAR 581-022-2220, which has since been revised in lieu of a new requirement for a Communicable Disease Plan.)

The district will adhere strictly in policies and procedures to the Oregon Revised Statutes and the Oregon Administrative Rules as they relate to a student infected with HIV or HBV or diagnosed with AIDS¹.

The district recognizes a parent (student) has no obligation to inform the district of an HIV, HBV or AIDS condition, and that the student has a right to attend school. If the district is informed of such a student, written guidelines shall be requested of the parent (student). These guidelines shall include who may have the information, who will give the information, how the information will be given and where and when the information will be given.

When informed of the infection, and with written permission from the parent (student), the district will develop procedures for formulating an evaluation team. The team shall address the nature, duration and severity of risk as well as any modification of activities. The team shall continue to monitor the student's condition. The district will make reasonable accommodations to allow students living with HIV infection to participate in school-sponsored physical activities.

Notification of alternative education programs shall be made to the parent or eligible student, if an HIV, HBV or AIDS student withdraws from school.

(Version 1)

(Delete this version and use the only remaining version.)

The Board recognizes that district programs should be conducted in a manner that protects and enhances student and employee health and is consistent with recognized health practices. Consequently, in order to prevent the spread of pediculosis (head lice) in the school setting, district staff shall institute guidelines for classrooms that will assist in the prevention of and the spread of head lice. A student with a suspected case of lice shall be referred to the school nurse or administrator for an assessment. A student found with live lice or nits (lice eggs) will be excluded from school attendance. The district recognizes that the Oregon Health Authority, Public Health Division, no longer requires exclusion of a student for the presence of nits and allows the discretion of the district. A student excluded from school will be readmitted after an assessment by designated personnel to confirm no live lice or nits are present, and may be subject to periodic checks.

Successful treatment of head lice requires a coordinated approach and may involve the use of anti-lice products, combing and implementation of preventative measures recommended by health authorities. Treatment information will be provided by the district to parents of students found to have contracted head lice. It is the district's intent to encourage elimination of the current infestation and to prevent a repeat episode.

The superintendent will develop administrative regulations, as necessary, to implement this policy.

SUMMER 2024

Plans for this summer projects is under way, we have no major capital projects occurring this summer, however there many small projects to complete before we start all over again next fall.

- Cleaning and Waxing of classroom floors
- Gym Floor Refinishing
- Upgrades to shop dust collection system and possible electrical upgrades to relocate some of the equipment
- Irrigation by playground to redirect sprinklers away from the current modular classroom and pick up the part of the lawn that is currently not watered.
- Painting touch up Interior and Exterior.
- Lead and Copper Water Testing
- Ongoing Grounds Maintenance

With the spring weather the time for grounds maintenance has begun.

Weeding and a fresh layer of landscape bark has been applied in the flowerbeds around the main office and in front of the school.

The new sod lawn around the main office has been fertilized twice already and is looking good.

The back lawn that succumbed to crane flies last spring has been aerated and replanted and fertilized with the hopes of bringing it back to life.

The irrigation systems for the lawns have been brought back on line and plans to repair the drip irrigation around the courtyard for hanging baskets is underway.

Safety painting was freshened up on the poles surrounding the fuel tanks.

JACOBSON MOWER

The large Jacobson mower is experiencing some hydraulic problems with one side of the deck. We have decided to hold off on sending it in until we can try to troubleshoot some of the safety switches and see if the problem can be diagnosed on site before sending it in for repair.

Social Services Board Report June 2024

With our recent graduation, I am working on finishing the ODE June exit report and should have it finished by the end of the month. We have had 15 students exit our sped program this year. These 15 students, were exited for several reasons students graduated, moved, or were exited from special education services. We now have 45 active students on IEPs for our district. I have also started working on the June ODE child find report. This report identifies students at our school who were newly evaluated for Sped services this year. We had 7 students in our child find this year.

In 2023 we had a total of 145 Major referrals. I am happy to report that this year our number of Major referrals is down to 112 incidents for the 2023/2024 school year.

I am excited to be finishing up my second year here at Triangle Lake Charter School, I look forward to many more.
