Re: Teacher Survey: Classroom size

Dear Esteemed Board Members,

I was given the opportunity to create the teacher survey you requested. I asked the teachers what their ideal class size would be both with an aide in the classroom and without. We found that the current class size and the ideal class size with an aide were similar. However, if there was no aide available the ideal class size would be much lower than what our current enrollment provides.

The question was also posed as to how helpful the aides were to the teacher in the classroom to help gauge areas for training that can be improved. The teachers find that it's much more manageable in the current configuration having another adult in the classroom, however, some of the teachers have expressed that training the aides as to what they should be doing or what they are expected to do would be much more helpful. This is a great place to start a more comprehensive onboarding process for our substitutes and aides moving forward.

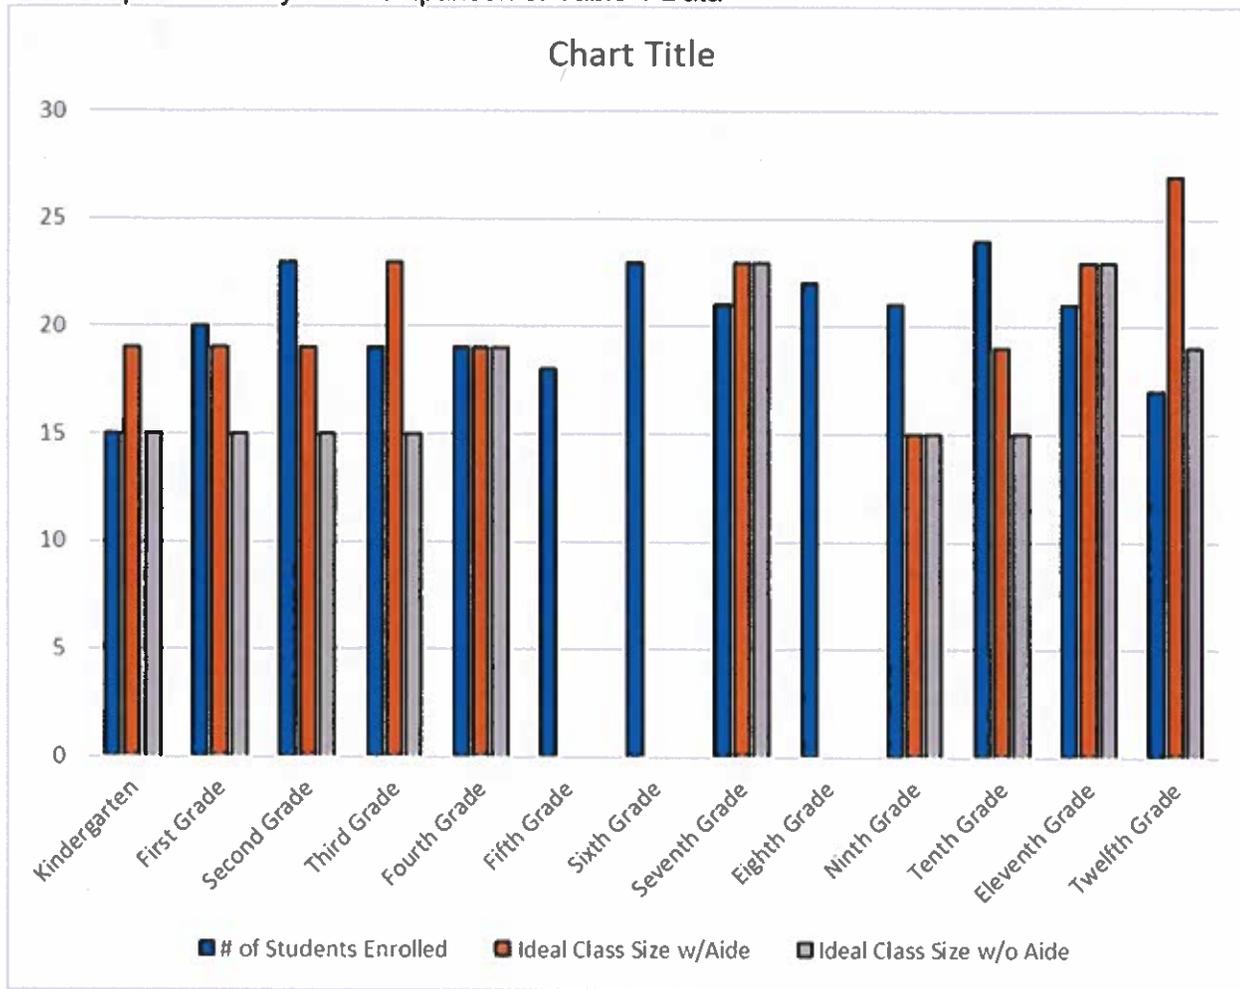

Please see the attached graphs and pie charts for the visual representation of the teachers' responses.

*Table 1: Comparison of current enrollment and ideal class size with and without an aide

Re: Staff Relocations

The Cabinet spent a significant amount of time during their meeting discussing where support staff could be housed. Since the business office on Market Street was sold and we have discontinued leasing the Corvallis Farm School, we are finding space at a premium. Several staff members have been working from home which is not ideal.

Major factors to consider are:

- 1) Availability to staff and students
- 2) Privacy to maintain confidentiality,
- 3) Functionality of space.

The current design of the facilities are not ideal. The plan that the cabinet has determined meets the above criteria the best way possible.

The following is what the Cabinet established would work best for our staff.

1. The business office will move to the leased modular.
2. LaHO will move into the large back-office space formally known as the storeroom. This room provides space they need for their desks, files and all their supplies.
3. K-12 Principal and the new part-time Counselor will share the office next to LaHO.
4. Registrar will remain in the present office.
5. The new AD/VP will occupy the next office currently occupied by the Superintendent.
6. The annex off the science room will be a flexible office space.

7. The district instructional coach will be in the front office ½ time, and the K-12 principal will also be in that office part time when needed in the Elementary.

8. The Family Liaison will be in the old reception area next to the present receptionist. The district will be walling it in and adding a full door. The Family Liaison needs privacy to be able to speak to students and families in crisis.

9. The Speech & Language Pathologist (SLP) will be in the room off the fifth-grade classroom which has a private entrance on the northside of the building.

10. The Superintendent and Executive/Board Secretary will be in a room in the library that is under construction at this time. See attached drawings.

Facilities Renovation

The Board's priorities for funding renovation of facilities are as follows:

1. Protection of life and health; compliance with mandated requirements governing construction codes and fire safety requirements;
2. Direct support of the educational program;
3. Urgently required to comply with the priorities set forth in the district's comprehensive planning program for facilities and sites;
4. Other priorities as identified by the Board.

The superintendent will establish procedures for requesting, approving and scheduling facilities renovation.

Plans for new and remodeled buildings will be designed and offer accommodations to make them accessible to persons with disabilities. The Board will review construction plans to assure that new and remodeled buildings are made fully accessible.

MEMORANDUM

July 6, 2022

TO: Alsea School District Board of Directors
FROM: LaRae Sullivan, LBL-ESD Assistant Business Manager
RE: June 30, 2022 Financial Statements

Board Members,

Attached you will find the 2021-22 financial statements through June 30, 2022. These statements include the General Fund Statement of Revenues Budget vs. Actual, General Fund Statement of Expenditures Budget vs. Actual, and total Appropriations for the year.

The General Fund statements include the actual revenues and expenditures from July 1, 2021 through June 30, 2022. The estimated General Fund Ending Fund Balance is \$1,106,430. Contingency and Unappropriated Ending Fund Balance make up \$1,093,755 of the Fund Balance total.

The latest economic forecast was released and the Oregon economy continues to boom. The 2022 personal income tax filing grew sharply. This surge in income tax collections was not unique to Oregon, as all states that depend on income taxes saw collections that were higher than projections. Along with large personal income tax collections, corporate and estate tax collections continue to see records as well. As a result, Oregon's General Fund resources have continued to expand in recent years despite large kicker credits being issued. As projected early in the biennium, the personal and corporate kicker are still projected to be in effect. While the personal kicker will be returned to taxpayers the corporate kicker will be retained for education spending. At this time there are still no additional funds being released to the State School fund for next fiscal year.
