## 3- Year Safety & Security Audit Overview

Texas Education Code §37.108 requires school systems to conduct safety and security audits of their facilities at least once every three years and report the results of these audits to the Texas School Safety Center. The goal of these audits is to identify hazards, threats, and vulnerabilities that might pose a danger to life, property, or may interfere with a safe, secure, and healthy environment that is conducive to teaching and learning. A safety and security audit provides an overview of facility safety and security by recognizing the implementation of best practices, identifying areas that need improvement, and ensuring compliance with legislative mandates.

The current audit cycle and reporting period are as follows:

### **K-12 School Districts:**

Audit Cycle: **September 1, 2023 - August 31, 2026**  
Reporting Window: **April 15, 2026 - September 15, 2026**

### **Open-Enrollment Charter Districts:**

Audit Cycle: **September 1, 2022 - August 31, 2025**  
Reporting Window: **April 14, 2025 - September 15, 2025**

Although school districts are not required to submit their audit results to the Texas School Safety Center outside of the above-referenced reporting periods, attention to school safety and security should be an ongoing process and school systems are encouraged to integrate safety and security assessments into everyday activities, including planning, training, and drills. Education Service Center, Region 11 is available to partner with local education agencies to complete three-year audits utilizing the K-12 District Facility Safety and Security Audit Checklist and Audit Report Template developed by the Texas School Safety Center. Please note, the results of these audits represent a snapshot in time. The safety and security of district facilities are impacted by many factors that continuously change. Education Service Center, Region 11 cannot guarantee the safety of any facility.

An outline of the audit process follows.

### **Entrance Conference:**

An entrance conference will be held with key stakeholders determined by the district. This may include the Superintendent or designee, central administration, district/campus security personnel, campus administration, and/or facility site managers. An overview of the audit process will be provided, scheduling will be finalized, campus/facility data collection will begin, and time will be allotted to address district questions or concerns.

The goal of the entrance conference is to discuss safety and security procedures and needs at each facility, determine perceptions of administration, and identify items that may require special attention during the assessment.

### **Document Review:**

A list of documents will be requested for review by the audit team. Some items will be requested for review prior to the on-site audit, while others will be requested during or after the on-site assessment. Please refer to the Document Review Checklist for further clarification. Please be aware, the list is not exhaustive and further documentation may be requested.

### **Interviews:**

Interviews will be conducted with students, teachers, and staff to determine respondents' perceptions of safety measures in place at the campus/facility. Survey responses will be included in the final campus report with the names of survey participants redacted. Information collected from these surveys will be used to guide the on-site audit and inform commendations and recommendations in the final campus and/or district report.

### **Intruder Assessment:**

An intruder assessment is a highly effective way to test adherence to district and facility access and visitor protocols for the purpose of making improvements. The intruder assessment consists of attempting to enter the school as an unauthorized person through unauthorized areas in a non-aggressive manner. By observing staff and student response to an intruder or unauthorized person in the facility, the assessment can identify areas in need of improvement. Campus/facility staff will not be made aware of the date or time of the intruder assessment.

### **On-Site Audit:**

The on-site audit consists of a visual assessment of all building interiors and exteriors, including grounds using the recommended School Facility Audit Checklist. The on-site audit may include observations of:

- Arrival/dismissal procedures.
- Transition periods.
- Staff/student engagement.
- Classrooms, storage areas, gyms, cafeterias, and other common areas.
- Adherence to documented procedures.
- Condition of facilities.
- Access to emergency response equipment and supplies.
- Safety in specialized areas such as chemical labs, career and technology education areas, weight rooms, and athletic areas.
- Student, staff, and visitor parking areas and signage.
- Traffic patterns, drop-off and pick-up areas, bus loading areas, and commercial deliveries.
- Facility lighting and security camera coverage.
- Busy operational periods at non-instructional facilities such as buses arriving or leaving the transportation facility, maintenance and support staff deployment, and activities at special event venues.
- Grounds maintenance.

While every effort will be taken to conduct a professional and quality summary of findings for each campus without disturbing instruction, there may be circumstances or situations that result in an inadvertent oversight.

### **Exit Conference:**

At the conclusion of the on-site audit, the audit team will review observations made during the audit and provide next steps to the facility/campus. A follow-up email will be sent if additional information and/or documentation is needed to complete the final report.

### **Campus/ Facility Reports:**

Information collected during the audit will be included in a written report that will be provided to the district in a digital format. This report will include the results of the audit, observations, commendations, recommendations, and any applicable supporting documentation. Information collected from facility audits will be included in the submission to the Texas School Safety Center, for inclusion in the statewide audit reports. The link to submit the statewide report is emailed to the district Superintendent at the beginning of the reporting window by the Texas School Safety Center. The district may use this report to better inform school safety planning and allocation of resources.

### **Board Report:**

A School Board Report will be developed that will include:

- District demographic data.
- A summary of each campus/facility report.
- District-level commendations and recommendations.

This report will be printed in color and spiral bound, in addition to being provided in a digital format. The report will be delivered to the district either in-person or by mail.

### **Pricing Structure:**

\$1,200 per instructional facility - \$840 with Contract  
\$1,800 per facility with stadium - \$1,260 with Contract  
\$600 per non-instructional facility - \$420 with Contract

**Frequency**

The employment policies adopted by a board must require a written evaluation at annual or more frequent intervals of each principal, supervisor, school counselor, or other full-time, certified professional employee, and nurse. *Education Code 21.203(a)*

District funds may not be used to pay an administrator who has not been appraised in the preceding 15 months. *Education Code 21.354(d)*

**Principal Appraisal**

A district shall appraise each principal annually. In appraising principals, a school district shall use either:

1. The appraisal system and school leadership standards and indicators developed or established by the commissioner of education; or
2. An appraisal process and performance criteria developed by the district in consultation with the district-level and campus-level committees [see BQA and BQB] and adopted by the board.

*Education Code 21.3541(f), (g); 19 TAC 150.1023(a)*

The commissioner's recommended principal appraisal system, the Texas Principal Evaluation and Support System (T-PESS), was developed in accordance with Education Code 21.3541.

The superintendent, with the approval of the board, may select the T-PESS. Each school district wanting to select or develop an alternative principal appraisal system must follow Education Code 21.3541, and 19 Administrative Code 150.1026 (Alternatives to the Commissioner's Recommended Principal Appraisal System).

*19 TAC 150.1021(b), (c)*

**Notice to ESC**

The superintendent shall notify the executive director of its regional education service center in writing of the school district's choice of appraisal system when using an alternative to the commissioner's recommended appraisal system and detail the components of that system by the first day of instruction for the school year in which the alternative system is used.

Each school district shall submit annually to its regional education service center a summary of the evaluation scores from the T-PESS or the district's locally adopted appraisal system, in a manner prescribed by the commissioner.
