BASIS OF TIF REQUEST

Dakota Pacific Real Estate (“DPRE”) is seeking tax increment financing in the amount of approximately \$11,400,000 net to DPRE for redevelopment activities, with a 20-year period, a 60% participation rate, and either capitalized through the issuance of a bond or through periodic payments, to develop ±1.0M SF of industrial warehouse space on ±71 acres of land located at approximately 600 West 3300 South in South Salt Lake, Utah (the “Site”) ground-leased by Central Valley Water Reclamation Facility (“CVWRF”) for a period of 60 years to DPRE. The basis of the request for tax increment financing is formed primarily by the following considerations:

GROUND LEASE	60-year ground lease raises the cost of equity given diminishing return potential and diminished liquidity.
BALANCING FUTURE NEEDS WITH CURRENT STAKEHOLDER BENEFITS	CVWRF holds fee title to the Site and must hold onto it for potential future operational expansion, but it currently makes negligible income from the land to offset operational and capital costs. CVWRF’s minimum income requirements to enter a long-term ground lease are not sufficiently low enough to off-set extraordinary development costs unique to this Site to be incurred by DPRE.
FORMER URANIUM MILL FACILITY	The Site is a former uranium mill facility which underwent clean-up in the 1980’s and the 1990’s. There are extraordinary costs to develop the site due to its environmental history, residual radioactive materials, structurally sub-optimal soils imported during clean-up, and regulatory long-term management requirements.
REGIONAL UTILITIES	Several regional sewer and stormwater utilities converge at and cross the Site that need to be relocated to accommodate an efficient site plan.
TRANSPORTATION INFRASTRUCTURE IMPROVEMENTS	Significant off-site improvements such as an acceleration lane, (2) deceleration lanes, median modifications with a left turn lane, and a 4th leg added to an existing 3-way signalized intersection are required to provide functional access to the site.
MACROECONOMIC CONDITIONS	Macro-economic and financial conditions have shifted immensely negative since the terms between CVWRF and DPRE were negotiated. Construction loan interest rates have gone up over 300% and the volume of credit available for new construction and real estate acquisitions has fallen 70%. Where construction loan financing is available, the amount of non-recourse leverage offered by lenders has dropped from 75% loan-to-cost down to 45-50% loan-to-cost. Regional and local banks have pulled back from construction loan lending almost entirely as they are experiencing liquidity problems
CAPITAL MARKETS	Minimum return thresholds to attract joint-venture equity have jumped by 50%, and joint-venture equity is requiring much higher returns for projects on ground leases, especially on a ground lease of only 60 years versus a typical 99 years.
TRUE PUBLIC / PRIVATE PARTNERSHIP	CVWRF is a fiduciary to its stakeholders which are comprised of taxpayers and the municipalities that fund CVWRF’s operations. Through CVWRF’s opening its land up to development, it is creating an opportunity to not only reduce costs to its stakeholders by investing in making its existing operations more efficient, but it is also providing an opportunity to subsidize the other taxing entities which currently receive negligible tax revenue from CVWRF’s tax-exempt land. If CVWRF had decided not to pursue private development of their land, and DPRE is unable to obtain tax increment financing, the taxing authorities would lose the opportunity to significantly increase tax revenues from this Site.
PROJECT NOT VIABLE WITHOUT TIF	For the Project to be viable due to the many complexities and challenges with the Site, and current macroeconomic and financial conditions, DPRE is seeking partnership and participation from the taxing entities to help bridge the gap to make development of the Site economically viable. The tax increment financing amount request accounts for less than 10% of the total development budget.

GAP ANALYSIS

The following table summarized the “but-for” costs that form the basis of the ~\$11,400,000 tax increment financing request.

But-For Gap Items	Cost	Notes
Demolition of existing golf course structures	\$ 582,000	
Lost productivity associated with environmental conditions (contaminated soils) - Mass Grading & Utilities	\$ 845,000	Reduced from \$1,450,000 since April 2023

Site dewatering	\$ 700,000	Reduced from \$1,500,000 since April 2023

TOTAL	\$ 11,394,000	Reduced from \$13,538,000 since April 2023

BACKGROUND

FEE SIMPLE OWNER / GROUND LESSOR	Central Valley Water Reclamation Facility (“CVWRF”)
GROUND LESSEE	Single-purpose entity CV DPRE, LLC managed by Dakota Pacific Real Estate (“DPRE”)
CURRENT INCOME TAX REVENUE	De minimis. CVWRF is a tax-exempt entity. The golf course operator is assessed a privilege tax which in 2022 amounted to \$10,504.
DEAL HISTORY	<p>The Site is a former, remediated uranium mill site. After a multi-year, federally-funded clean-up effort, the Site was purchased in 1990 by Central Valley Water Reclamation Facility (“CVWRF”) – an adjacent water reclamation/treatment facility – with the intent to hold the land for future facility expansion. The Site currently functions as a 9-hole golf course and driving range, and is leased to an operator whose ground lease payment is substantially below market. CVWRF sought a more productive use of the Site to help increase revenue and offset wastewater collection and treatment costs to the public without divesting its ownership of the land and staying within the regulatory limits imposed on the Site following its clean-up. DPRE was introduced to CVWRF by South Salt Lake (“SSL”) in 2019 while DPRE was in the process of assembling historically industrial parcels in SSL’s City Center for redevelopment into a master-planned mixed-use commercial and residential development. SSL and DPRE were in search of alternative sites within the SSL city-limits to develop a modern industrial park and retain an industrial employment base that would be displaced by the South City redevelopment. After 3 years of negotiations, DPRE executed an agreement to buy-out the ground lease from the golf course operator and has also executed a new 60-year ground lease with CVWRF with the intent of redeveloping the site into an industrial park.</p>
SITE HISTORY	<p>In 1941, a large smelter was completed on the Site and was known as the Vitro Chemical Company Calunite Plant. From 1941 through 1951, the smelter processed aluminum from aluminite. In May 1951, the Vitro plant began processing uranium ore under contract with the U.S. Atomic Energy Commission. Residual tailings from the processed uranium ore were deposited on the Site. Uranium ore milling was discontinued in February 1964. Vanadium ore processing then began in 1965.</p> <p>In 1968, all Vitro mill operations were terminated, and the mill facilities were dismantled in 1970. In 1972, the Environmental Protection Agency surveyed the site and became aware that the radioactive tailings that were left on the Site posed a threat to public health. Between 1974 and 1980, the site was studied by multiple regulatory agencies and legislative bodies until finally Congress passed a law requiring remedial action on identified mill tailings sites and off-site locations. Between 1980 and 1987, the Site underwent clean-up and nearly 100% of the radioactive material was removed except for several pockets of residual radioactive material left below the ground because the benefits of removing the residual radioactive materials did not outweigh the risks and costs associated with excavating them. The DOE and EPA concluded that the residual radioactive material did not need to be remediated, but certain supplementary standards and long-term management practices were imposed upon all future land-owners which regulate future development of the Site. Ground-water and surface-water monitoring was put in place until the U.S. Nuclear Regulatory Commission removed the requirement for continued ground-water monitoring and the last remaining ground water monitoring well was decommissioned in August 2007.</p> <p>CVWRF acquired title to the property in February 24, 1989 to hold for future operational expansion and to buffer the public from the effluence from the water treatment operations.</p>

SUMMARY OF DEAL WITH CVWRF

GROUND LEASE	60-year ground lease between an entity controlled by Dakota Pacific Real Estate as Lessee and Central Valley Water Reclamation Facility as Lessor.
ANNUAL RENT	The annual rent is based upon an initial annual minimum rent of \$900,000 plus 15% of adjusted gross income, with adjustments to the annual minimum rent every 10 years.
OPTIONS TO RENEW	Two options to renew for 20-years each, but the options require mutual approval between CVWRF and DPRE. Effectively, capital must treat it as only a 60-year ground lease.
GOLF COURSE OPERATOR BUY-OUT	DPRE has renegotiated terms with both the golf course operator and CVWRF to extend the outside date of an initial closing of the western portion of the golf course to effectively a 90-day noticing period, and the remainder of the golf course can be closed and taken over by DPRE in the Fall of 2025.
BALANCING NEEDS OF MANY STAKEHOLDERS	Through five years of negotiations, DPRE has negotiated the best ground-lease terms it could that the CVWRF Board believes creates more benefit to taxpayers versus holding onto the land for buffering and medium-term expansion of the water treatment operations. DPRE's efforts on this Project have always been to create a win/win scenario for CVWRF and its stakeholders, South Salt Lake, the other taxing entities, and the public through mutual collaboration and participation.

Introduction

On October 25, 2023, the South Salt Lake City Redevelopment Agency (“Agency”) approved Resolution Number RDA 2023-04 (the “Survey Resolution”) to initiate the process of adopting a Community Reinvestment Project Area (“CRA”) to be known as the Central 15 Project Area (“Project Area”) including the drafting of a proposed project area plan (“Plan”) and proposed project area budget (“Budget”).

The Proposed Project Area will be located on the current Golf the Round site located west of I-15 and north of 3300 South. The Project Area will consist of over 1 million square feet of flex industrial space on approximately 71 acres of land ground-leased by Central Valley Water Reclamation Facility (“CVWRF”).

The Agency is requesting tax increment at a 60 percent participation rate over a period of 20 years from participating taxing entities. The current base year value is \$1,052,900, which generates \$10,633 in tax revenue annually. At the end of 20 years, the area is expected to be valued at \$234,469,649 (assuming an assessed value growth rate of two percent annually after the project is constructed). This will generate \$2,344,931 in tax revenue annually.

Over the 20-year period of the CRA, the Agency expects to collect \$21,974,089 with \$16,483,643 passed through to the various taxing entities. The agency expects to use this tax increment as follows:

Uses of Tax Increment Funds		Totals Over 20-Yr Period	NPV at 5% Discount Rate
Agency Administration and Operations	3%	\$659,223	\$393,995
CRA Housing	10%	2,197,409	1,313,315
Redevelopment Activities	87%	19,117,457	11,425,842
Total Uses		\$21,974,089	\$13,133,151

Dakota Pacific Real Estate (“DPRE”) is seeking tax increment financing to develop this industrial space and will ground lease the area from CVWRF for a period of 60 years. Currently there are various impediments that prevent this site from being a market rate development, including: site remediation, significant infrastructure costs, and market conditions. DPRE is seeking approximately \$11.4 million (PV) in tax increment over a 20-year period and either capitalized through the issuance of a bond or through periodic payments to develop the area.

Chapter 1: Project Area Plan

The purpose of this Plan is to provide information regarding the Project Area including current conditions, how future development will be undertaken, how that development will impact the Project Area and surrounding communities, proposed uses of tax increment, and other related matters required in the Community Reinvestment Agency Act (“Act”).

Boundary Description and Map

An Agency shall ensure that each community reinvestment project area plan and proposed reinvestment project area plan:

- 1) Includes a boundary description and a map of the community reinvestment project area (17C-5-105(1))

The Proposed Project Area will be located on the current Golf the Round site located west of I-15 and north of 3300 South. The Project Area consists of approximately 71 acres of land ground-leased by Central Valley Water Reclamation Facility (“CVWRF”). The Project Area is depicted in Figure 1 as the Central 15 Commercial Center and highlighted in blue. The Project Area divides three parcels. In accordance with 17C-1-414, Appendix A includes the metes and bounds description for the property within the Project Area.

Figure 1: Project Area Map

Land Uses

An Agency shall ensure that each community reinvestment project area plan and proposed reinvestment project area plan:

- 2) Contains a general statement of the existing land uses, layout of principal streets, population densities, and building intensities of the community reinvestment project area and how each will be affected by project area development. (17C-5-105(2))

Existing Land Uses

The parcels in the Project Area are currently owned by CVWRF. CVWRF intends to hold ownership of the parcels to use as a contingency for future expansion of operations and to buffer the public from effluent associated with the sewer treatment processes. They currently ground-lease the property to an operator of a 9-hole golf course and driving range but make very little revenue from this lease.

Layout of Principal Streets

The Project Area is located at approximately 600 West 3300 South in South Salt Lake, Utah. It is within a block of the 3300 South I-15 interchange to the east of the Project Area and borders 900 West on the west of the Project Area. Since 3300 South is a UDOT road, UDOT requires a west bound deceleration lane, a west bound acceleration lane, an east bound left-turn lane, and a 4th signal be added to the intersection in order to provide access to the Site at 700 West.

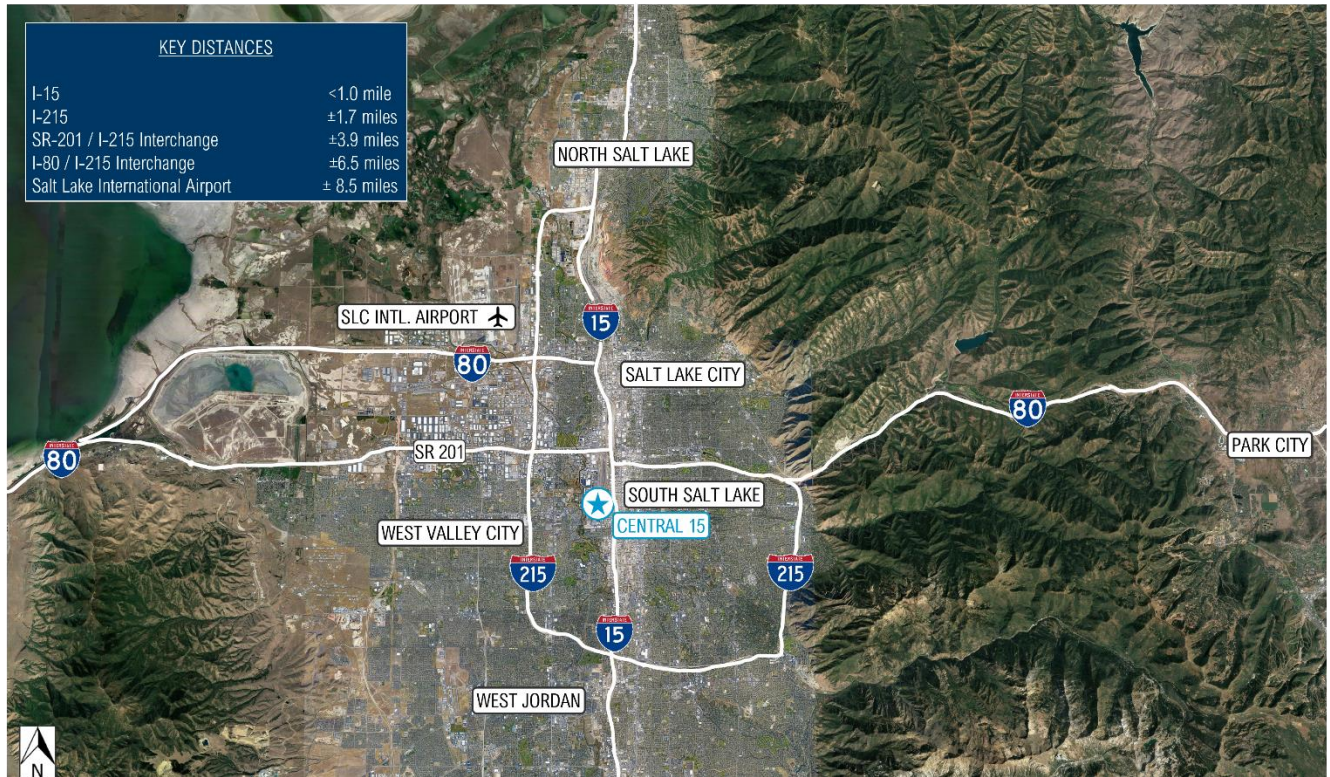

Figure 2: Regional Map

Figure 3: Neighborhood Map

Population Densities

The Project Area has no meaningful fulltime permanent population density. Day time population will increase with development of this Project Area as it is expected to be developed into flex industrial space.

Building Intensities

The existing golf course has several structures such as a two-story driving range platform, two office buildings, and a pro-shop building. In order to accommodate future site development, these structures would be demolished and replaced with four structures totaling approximately 1 million square feet of flex industrial space.

Development Guidance Standards

An Agency shall ensure that each community reinvestment project area plan and proposed reinvestment project area plan:

- 3) States the standards that will guide project area development) 17C-5-105(3))

Any future development will be in compliance with the current zoning for the area including the City's general plan guidelines and Strategic Plan. Any development will be compatible with the surrounding uses.

Project Furthers Purpose of CRA Statute

An Agency shall ensure that each community reinvestment project area plan and proposed reinvestment project area plan:

- 4) Shows how project area development will further purposes of this title (17C-5-105(4))

The parcels included in the Project Area are all under-utilized parcels. CVWRF currently ground leases the property to an operator of a 9-hole golf course and driving range but makes very little revenue from this lease. CVWRF has sought a more productive use of the Project Area to help increase revenue and offset wastewater treatment costs to the public. In addition, the Project Area only provides \$10,633 of tax revenue to taxing entities on an annual basis. Any tax increment used will move the property to its highest and best use, generating additional revenue for CVWRF and additional tax revenue for taxing entities.

Consistency with City's General Plan

An Agency shall ensure that each community reinvestment project area plan and proposed reinvestment project area plan:

- 5) Is consistent with the general plan of the community in which the community reinvestment project area is located and shows that project area development will conform to the community's general plan (17C-5-105(5))

The Project Area will comply with the City's current general plan specifically the section titled "Future Land Use Map & Descriptions" on pages 26-28. The general plan identifies this area as a "catalyst area" meaning that it is "appropriate for transformation from current development patterns and that investment from public sources may be appropriate to leverage private investment in the area."

Eliminate or Reduce Development Impediments

An Agency shall ensure that each community reinvestment project area plan and proposed reinvestment project area plan:

- 6) If applicable, describes how project area development will eliminate or reduce a development impediment in the community reinvestment project area (17C-5-105(6))

The following impediments hamper economic development of this Project Area:

- 1) The Site is a former uranium mill facility which underwent clean-up in the 1980's and the 1990's. There are extraordinary costs to develop the site due to its environmental history, residual radioactive materials, structurally sub-optimal soils imported during clean-up, and regulatory long-term management requirements.
- 2) Several regional sewer and stormwater utilities converge at and cross the Site that need to be relocated to accommodate an efficient site plan.
- 3) Significant off-site improvements such as an acceleration lane, (2) deceleration lanes, median modifications with a left turn lane, and a 4th leg added to an existing 3-way signalized intersection are required to provide functional access to the site.
- 4) Macro-economic and financial conditions have shifted immensely negative since the terms between CVWRF and DPRE were negotiated. Construction loan interest rates have gone up over 275%, the

amount of non-recourse leverage offered by lenders has dropped 30%, banks have pulled back from construction loan lending altogether while local and regional banks are experiencing liquidity problems, minimum return thresholds to attract joint-venture equity have jumped by 50%, and joint-venture equity is requiring much higher returns for projects on ground leases, particularly in the current economic environment.

The CRA will provide funds to reduce or eliminate these development impediments.

Specific Project Development

An Agency shall ensure that each community reinvestment project area plan and proposed reinvestment project area plan:

- 7) Describes any specific project area development that is the object of the community reinvestment project area plan (17C-5-105(7))

The CRA will provide tax increment financing to DPRE to develop the Project Area. DPRE plans to develop four Class A bulk distribution, warehouse, and manufacturing buildings totaling approximately one million square feet over approximately 71 acres in three phases. DPRE is contemplating a phased approach to construction. Construction is assumed to commence on Building A in the first half of 2024, pending approval of this tax increment financing request, with a construction period of 14 months inclusive of master plan site work and off-sites. Building B will commence after the start of Building A with a construction period of 12 months and final completion date of Late 2025. Buildings C and D will begin construction in early 2026 with a construction period of 12 months. The underwriting assumes that all buildings have 4 tenants each, ranging from 50K SF for Buildings B, C and D to 100K SF for Building A. However, the buildings will be designed to accommodate up to 6 tenants in each building to be able to accommodate smaller demisable increments.

How the Agency will Select Participants

An Agency shall ensure that each community reinvestment project area plan and proposed reinvestment project area plan:

- 8) If applicable, explains how the agency plans to select a participant (17C-5-105(8))

The Agency plans to select DPRE to develop the Project Area. DPRE has worked closely with South Salt Lake (“SSL”) since 2019 while DPRE was in the process of assembling historically industrial parcels in SSL’s City Center for redevelopment into a master-planned mixed-use commercial and residential development. SSL and DPRE were in search of alternative sites within the SSL city-limits to develop a modern industrial park and retain an industrial employment base that would be displaced by the South City redevelopment. Development by DPRE within the Project Area would accomplish this goal.

Reasons for Selecting this Project Area

An Agency shall ensure that each community reinvestment project area plan and proposed reinvestment project area plan:

- 9) States each reason the agency selected the community reinvestment project area (17C-5-105(9))

The parcels in the Project Area are currently underutilized and used as a golf course. With the development of the SSL City Center, the City is also in need of additional industrial space. The development of the Project Area as industrial warehouse space will move the property to its highest and best use, generating additional revenue for CVWRF and additional tax revenue for taxing entities.

Physical, Social and Economic Conditions in Project Area

An Agency shall ensure that each community reinvestment project area plan and proposed reinvestment project area plan:

- 10) Describes the physical, social, and economic conditions that exist in the community reinvestment project area (17C-5-105(10))

The parcels included in the Project Area are owned by CVWRF and are currently ground-leased to an operator of a 9-hole golf course and driving range.

Financial Assistance to Participant

An Agency shall ensure that each community reinvestment project area plan and proposed reinvestment project area plan:

- 11) Describes each type of financial assistance that the agency anticipates offering a participant (17C-5-105(11))

Tax increment will be utilized to assist DPRE in the development of the Project Area. Tax increment will either be capitalized through the issuance of a bond or through periodic payments. Tax increment will be used to:

- 1) Assist with the extraordinary costs to develop the site due to its environmental history, residual radioactive materials, structurally sub-optimal soils imported during clean-up, and regulatory long-term management requirements;
- 2) Relocate several regional sewer and stormwater utilities that converge at and cross the Site to accommodate an efficient site plan;
- 3) Assist with the cost of significant off-site improvements such as an acceleration lane, (2) deceleration lanes, median modifications with a left turn lane, and a 4th leg added to an existing 3-way signalized intersection that are required to provide functional access to the site; and
- 4) Incentivize DPRE to develop the site with the current negative Macro-economic and financial conditions.

The following structure will be utilized when providing tax increment to participants.

TYPE OF DEVELOPMENT	TAX INCREMENT RATE (UP TO)	TAX INCREMENT RATE (UP TO)
Industrial	60%	20 Years

Public Benefits Analysis

An Agency shall ensure that each community reinvestment project area plan and proposed reinvestment project area plan:

- 12) Includes an analysis or description of the anticipated public benefit resulting from project area development, including benefits to the community's economic activity and tax base (17C-5-105(12))

Economic Activity

The purpose of the CRA is to develop over 1 million square feet of flex and industrial space that will provide additional tax revenue to taxing entities as well as additional jobs. At buildout, job growth is estimated to be between 400 and 815 new jobs.

Tax Base

The primary increase in tax revenue generated from the Project Area will be in property taxes. As described herein, development within the Project Area once completed could generate approximately \$1.9 million annually to the tax rolls of the various entities which levy a tax in the Project Area. This value could generate \$45 million in new property tax over a 20-year period. The Agency anticipates needing 60 percent of the participation entities' revenue to assist DPRE in the development of the Project Area and administering the Project Area. The remaining revenue would flow to taxing entities. The pass-through revenue for taxing entities would amount to \$23 million over 20 years. Without development of the Project Area, taxing entities expect to receive approximately \$269k of total tax revenues generated over 20 years.

Historic Buildings

An Agency shall ensure that each community reinvestment project area plan and proposed reinvestment project area plan:

- 13) If applicable, states that the agency shall comply with Section 9-8a-404 as required under Section 17C-5-106 (17C-5-105(13)):
 - a. Any agency shall comply with Section 9-8a-404 as though the agency is a state agency if:
 - i. Any of the existing buildings or uses in a community reinvestment project area are included in, or eligible for inclusion in, the National Register of Historic Places or the State Register; and
 - ii. The agency spends agency funds on the demolition or rehabilitation of existing buildings described above.

No existing buildings within the Project Area are included or are eligible for inclusion in the National Register of Historic Places or the State Register.

CRAs Prior to 2019

An Agency shall ensure that each community reinvestment project area plan and proposed reinvestment project area plan:

- 14) For a community reinvestment project area plan that an agency adopted before May 14, 2019, states whether the community reinvestment project area plan or proposed community

reinvestment property area plan is subject to a taxing entity committee or an interlocal agreement (17C-5-105(15))

This section does not apply since the CRA is proposed to be adopted in 2024.

Other Information

An Agency shall ensure that each community reinvestment project area plan and proposed reinvestment project area plan:

- 15) Includes other information that the agency determines to be necessary or advisable.

Chapter 2: Project Area Budget

The purpose of the Budget is to describe and outline the financial resources necessary to enact the Plan in accordance with 17C-5-303. The Project Area is governed by Interlocal Agreements as outlined in the Act (17C-5-202(1)(a)).

Sources of Funds

The Agency will use the funds collected to administer the Project Area and fulfill the Moderate-Income Housing Plan found in the City’s General Plan. The Agency will also use the funds collected from the Project Area to incentivize DPRE to develop the area. DPRE is expected to use these funds to:

- Assist with the extraordinary costs to develop the site due to its environmental history, residual radioactive materials, structurally sub-optimal soils imported during clean-up, and regulatory long-term management requirements;
- Relocate several regional sewer and stormwater utilities that converge at and cross the Site to accommodate an efficient site plan; and
- Assist with the cost of significant off-site improvements such as an acceleration lane, (2) deceleration lanes, median modifications with a left turn lane, and a 4th leg added to an existing 3-way signalized intersection that are required to provide functional access to the site.

17C-1-407 Limitations on tax increment.

- (1)
 - (a) If the development of retail sales of goods is the primary objective of an urban renewal project area, tax increment from the urban renewal project area may not be paid to or used by an agency unless the agency makes a development impediment determination under Chapter 2, Part 3, Development Impediment Determination in Urban Renewal Project Areas.
 - (b) Except as provided in Section 11-41-103, development of retail sales of goods does not disqualify an agency from receiving tax increment.
 - (c) After July 1, 2005, an agency may not receive or use tax increment generated from the value of property within an economic development project area that is attributable to the development of retail sales of goods, unless the tax increment was previously pledged to pay for bonds or other contractual obligations of the agency.
- (2)
 - (a) For the purpose of this Subsection (2):
 - (i) "Final tax rate" means the rate used to determine the amount of taxes a taxing entity levies as described in the notice to a taxpayer under Subsection 59-2-1317(2).
 - (ii) "Increased tax revenue" means tax revenue attributable to a tax rate increase.
 - (iii) "Tax rate increase" means the amount calculated by subtracting a taxing entity's certified rate, as defined in Section 59-2-924, from the taxing entity's final tax rate.
 - (b) Except as provided in Subsection (2)(c), for a year in which a taxing entity imposes a final tax rate higher than the certified tax rate, a county shall not pay an agency any portion of a taxing entity's increased tax revenue.
 - (c) Notwithstanding Subsection (2)(b), a county may pay all or a portion of a taxing entity's increased tax revenue to an agency if, at the time of the project area budget approval, the taxing entity committee or each taxing entity that is a party to an agreement under Section 17C-4-201 or 17C-5-204 consents to pay the agency the increased tax revenue.
 - (d) If the taxing entity committee or each tax entity that is a party to an agreement under Section 17C-4-201 or 17C-5-204 does not consent to payment of the increased tax revenue to the agency under Subsection (2)(c), the county shall distribute to the taxing entity the increased tax revenue in the same manner as other property tax revenue.
 - (e) Notwithstanding any other provision of this section, if, before tax year 2013, increased tax revenue is paid to an agency without the consent of the taxing entity committee or each taxing entity that is a party to an agreement under Section 17C-4-201 or 17C-5-204, and notwithstanding the law at the time that the tax revenue was collected or increased:

- (i) the State Tax Commission, the county as the collector of the taxes, a taxing entity, or any other person or entity may not recover, directly or indirectly, the increased tax revenue from the agency by adjustment of a tax rate used to calculate tax increment or otherwise;
 - (ii) the county is not liable to a taxing entity or any other person or entity for the increased tax revenue that was paid to the agency; and
 - (iii) tax increment, including the increased tax revenue, shall continue to be paid to the agency subject to the same number of tax years, percentage of tax increment, and cumulative dollar amount of tax increment as approved in the project area budget and previously paid to the agency.
- (f) An adjustment may not be made to incremental value under Section 59-2-924 for increased tax revenue not paid to an agency under this section.
- (3) Except as the taxing entity committee otherwise agrees, an agency may not receive tax increment under an urban renewal or economic development project area budget adopted on or after March 30, 2009:
- (a) that exceeds the percentage of tax increment or cumulative dollar amount of tax increment specified in the project area budget; or
 - (b) for more tax years than specified in the project area budget.

17C-1-408 Base taxable value to be adjusted to reflect other changes.

- (1)
- (a)
 - (i) As used in this Subsection (1), "qualifying decrease" means:
 - (A) a decrease of more than 20% from the previous tax year's levy; or
 - (B) a cumulative decrease over a consecutive five-year period of more than 100% from the levy in effect at the beginning of the five-year period.
 - (ii) The year in which a qualifying decrease under Subsection (1)(a)(i)(B) occurs is the fifth year of the five-year period.
 - (b) If there is a qualifying decrease in the minimum basic school levy under Section 59-2-902 that would result in a reduction of the amount of tax increment to be paid to an agency:
 - (i) the base taxable value shall be reduced in the year of the qualifying decrease to the extent necessary, even if below zero, to provide the agency with approximately the same amount of tax increment that would have been paid to the agency each year had the qualifying decrease not occurred; and
 - (ii) the amount of tax increment paid to the agency each year for the payment of bonds and indebtedness may not be less than what would have been paid to the agency if there had been no qualifying decrease.
- (2)
- (a) The base taxable value to be used in determining tax increment shall be:
 - (i) increased or decreased by the amount of an increase or decrease that results from:
 - (A) a statute enacted by the Legislature or by the people through an initiative;
 - (B) a judicial decision;
 - (C) an order from the State Tax Commission to a county to adjust or factor the county's assessment rate under Subsection 59-2-704(2);
 - (D) a change in exemption provided in Utah Constitution Article XIII, Section 2, or Section 59-2-103; or

- (E) an increase or decrease in the percentage of fair market value, as defined under Section 59-2-102; and
- (ii) reduced for any year to the extent necessary, even if below zero, to provide an agency with approximately the same amount of money the agency would have received without a reduction in the county's certified tax rate if:
 - (A) in that year there is a decrease in the county's certified tax rate under Subsection 59-2-924.2(2) or (3)(a);
 - (B) the amount of the decrease is more than 20% of the county's certified tax rate of the previous year; and
 - (C) the decrease would result in a reduction of the amount of tax increment to be paid to the agency.
- (b) Notwithstanding an increase or decrease under Subsection (2)(a), the amount of tax increment paid to an agency each year for payment of bonds or other indebtedness may not be less than would have been paid to the agency each year if there had been no increase or decrease under Subsection (2)(a).

17C-5-403 Development impediment study -- Requirements -- Deadline.

- (1) An agency shall ensure that a development impediment study:
 - (a) undertakes a parcel by parcel survey of the survey area;
 - (b) provides data so the board may determine:
 - (i) whether the conditions described in Section 17C-5-405:
 - (A) exist in part or all of the survey area; and
 - (B) meet the qualifications for a development impediment determination in all or part of the survey area; and
 - (ii) whether the survey area contains all or part of a superfund site;
 - (c) includes a written report that states:

- (i) the conclusions reached;
 - (ii) any area within the survey area that meets the statutory criteria of a development impediment under Section 17C-5-405; and
 - (iii) any other information requested by the agency to determine whether a development impediment exists within the survey area; and
- (d) is completed within one year after the day on which the survey area resolution is adopted.
- (2)
- (a) If a development impediment study is not completed within the time described in Subsection (1)(d), the agency may not approve a community reinvestment project area plan or an amendment to a community reinvestment project area plan under Subsection 17C-5-112(4) based on a development impediment study unless the agency first adopts a new resolution under Subsection 17C-5-103(1).
 - (b) A new resolution described in Subsection (2)(a) shall in all respects be considered to be a resolution under Subsection 17C-5-103(1) adopted for the first time, except that any actions taken toward completing a development impediment study under the resolution that the new resolution replaces shall be considered to have been taken under the new resolution.
- (3)
- (a) For the purpose of making a development impediment determination under Subsection 17C-5-402(2)(c)(ii), a development impediment study is valid for one year from the day on which the development impediment study is completed.
 - (b)
 - (i) Except as provided in Subsection (3)(b)(ii), an agency that makes a development impediment determination under a valid development impediment study and subsequently adopts a community reinvestment project area plan in accordance with Section 17C-5-104 may amend the community reinvestment project area plan without conducting a new development impediment study.
 - (ii) An agency shall conduct a supplemental development impediment study for the area proposed to be added to the community reinvestment project area if the agency proposes an amendment to a community reinvestment project area plan that:
 - (A) increases the community reinvestment project area's geographic boundary and the area proposed to be added was not included in the original development impediment study; and
 - (B) provides for the use of eminent domain within the area proposed to be added to the community reinvestment project area.

BASIS OF TIF REQUEST

Dakota Pacific Real Estate (“DPRE”) is seeking tax increment financing in the amount of approximately \$11,400,000 net to DPRE for redevelopment activities, with a 20-year period, a 60% participation rate, and either capitalized through the issuance of a bond or through periodic payments, to develop ±1.0M SF of industrial warehouse space on ±71 acres of land located at approximately 600 West 3300 South in South Salt Lake, Utah (the “Site”) ground-leased by Central Valley Water Reclamation Facility (“CVWRF”) for a period of 60 years to DPRE. The basis of the request for tax increment financing is formed primarily by the following considerations:

GROUND LEASE	60-year ground lease raises the cost of equity given diminishing return potential and diminished liquidity.
BALANCING FUTURE NEEDS WITH CURRENT STAKEHOLDER BENEFITS	CVWRF holds fee title to the Site and must hold onto it for potential future operational expansion, but it currently makes negligible income from the land to offset operational and capital costs. CVWRF’s minimum income requirements to enter a long-term ground lease are not sufficiently low enough to offset extraordinary development costs unique to this Site to be incurred by DPRE.
FORMER URANIUM MILL FACILITY	The Site is a former uranium mill facility which underwent clean-up in the 1980’s and the 1990’s. There are extraordinary costs to develop the site due to its environmental history, residual radioactive materials, structurally sub-optimal soils imported during clean-up, and regulatory long-term management requirements.
REGIONAL UTILITIES	Several regional sewer and stormwater utilities converge at and cross the Site that need to be relocated to accommodate an efficient site plan.
TRANSPORTATION INFRASTRUCTURE IMPROVEMENTS	Significant off-site improvements such as an acceleration lane, (2) deceleration lanes, median modifications with a left turn lane, and a 4th leg added to an existing 3-way signalized intersection are required to provide functional access to the site.
MACROECONOMIC CONDITIONS	Macro-economic and financial conditions have shifted immensely negative since the terms between CVWRF and DPRE were negotiated. Construction loan interest rates have gone up over 300% and the volume of credit available for new construction and real estate acquisitions has fallen 70%. Where construction loan financing is available, the amount of non-recourse leverage offered by lenders has dropped from 75% loan-to-cost down to 45-50% loan-to-cost. Regional and local banks have pulled back from construction loan lending almost entirely as they are experiencing liquidity problems
CAPITAL MARKETS	Minimum return thresholds to attract joint-venture equity have jumped by 50%, and joint-venture equity is requiring much higher returns for projects on ground leases, especially on a ground lease of only 60 years versus a typical 99 years.
TRUE PUBLIC / PRIVATE PARTNERSHIP	CVWRF is a fiduciary to its stakeholders which are comprised of taxpayers and the municipalities that fund CVWRF’s operations. Through CVWRF’s opening its land up to development, it is creating an opportunity to not only reduce costs to its stakeholders by investing in making its existing operations more efficient, but it is also providing an opportunity to subsidize the other taxing entities which currently receive negligible tax revenue from CVWRF’s tax-exempt land. If CVWRF had decided not to pursue private development of their land, and DPRE is unable to obtain tax increment financing, the taxing authorities would lose the opportunity to significantly increase tax revenues from this Site.
PROJECT NOT VIABLE WITHOUT TIF	For the Project to be viable due to the many complexities and challenges with the Site, and current macroeconomic and financial conditions, DPRE is seeking partnership and participation from the taxing entities to help bridge the gap to make development of the Site economically viable. The tax increment financing amount request accounts for less than 10% of the total development budget.

BACKGROUND

FEE SIMPLE OWNER / GROUND LESSOR	Central Valley Water Reclamation Facility (“CVWRF”)
GROUND LESSEE	Single-purpose entity CV DPRE, LLC managed by Dakota Pacific Real Estate (“DPRE”)
CURRENT INCOME TAX REVENUE	De minimis. CVWRF is a tax-exempt entity. The golf course operator is assessed a privilege tax which in 2022 amounted to \$10,504.
DEAL HISTORY	<p>The Site is a former, remediated uranium mill site. After a multi-year, federally-funded clean-up effort, the Site was purchased in 1990 by Central Valley Water Reclamation Facility (“CVWRF”) – an adjacent water reclamation/treatment facility – with the intent to hold the land for future facility expansion. The Site currently functions as a 9-hole golf course and driving range, and is leased to an operator whose ground lease payment is substantially below market. CVWRF sought a more productive use of the Site to help increase revenue and offset wastewater collection and treatment costs to the public without divesting its ownership of the land and staying within the regulatory limits imposed on the Site following its clean-up. DPRE was introduced to CVWRF by South Salt Lake (“SSL”) in 2019 while DPRE was in the process of assembling historically industrial parcels in SSL’s City Center for redevelopment into a master-planned mixed-use commercial and residential development. SSL and DPRE were in search of alternative sites within the SSL city-limits to develop a modern industrial park and retain an industrial employment base that would be displaced by the South City redevelopment. After 3 years of negotiations, DPRE executed an agreement to buy-out the ground lease from the golf course operator and has also executed a new 60-year ground lease with CVWRF with the intent of redeveloping the site into an industrial park.</p>
SITE HISTORY	<p>In 1941, a large smelter was completed on the Site and was known as the Vitro Chemical Company Calunite Plant. From 1941 through 1951, the smelter processed aluminum from aluminite. In May 1951, the Vitro plant began processing uranium ore under contract with the U.S. Atomic Energy Commission. Residual tailings from the processed uranium ore were deposited on the Site. Uranium ore milling was discontinued in February 1964. Vanadium ore processing then began in 1965.</p> <p>In 1968, all Vitro mill operations were terminated, and the mill facilities were dismantled in 1970. In 1972, the Environmental Protection Agency surveyed the site and became aware that the radioactive tailings that were left on the Site posed a threat to public health. Between 1974 and 1980, the site was studied by multiple regulatory agencies and legislative bodies until finally Congress passed a law requiring remedial action on identified mill tailings sites and off-site locations. Between 1980 and 1987, the Site underwent clean-up and nearly 100% of the radioactive material was removed except for several pockets of residual radioactive material left below the ground because the benefits of removing the residual radioactive materials did not outweigh the risks and costs associated with excavating them. The DOE and EPA concluded that the residual radioactive material did not need to be remediated, but certain supplementary standards and long-term management practices were imposed upon all future land-owners which regulate future development of the Site. Ground-water and surface-water monitoring was put in place until the U.S. Nuclear Regulatory Commission removed the requirement for continued ground-water monitoring and the last remaining ground water monitoring well was decommissioned in August 2007.</p> <p>CVWRF acquired title to the property in February of 1989 to hold for future operational expansion and to buffer the public from the effluence from the water treatment operations.</p>

SUMMARY OF DEAL WITH CVWRF

GROUND LEASE	60-year ground lease between an entity controlled by Dakota Pacific Real Estate as Lessee and Central Valley Water Reclamation Facility as Lessor.
ANNUAL RENT	The annual rent is based upon an initial annual minimum rent of \$900,000 plus 15% of adjusted gross income, with adjustments to the annual minimum rent every 10 years.
OPTIONS TO RENEW	Two options to renew for 20-years each, but the options require mutual approval between CVWRF and DPRE. Effectively, capital must treat it as only a 60-year ground lease.
GOLF COURSE OPERATOR BUY-OUT	DPRE has renegotiated terms with both the golf course operator and CVWRF to extend the outside date of an initial closing of the western portion of the golf course to effectively a 90-day noticing period, and the remainder of the golf course can be closed and taken over by DPRE in the Fall of 2025.
BALANCING NEEDS OF MANY STAKEHOLDERS	Through five years of negotiations, DPRE has negotiated the best ground-lease terms it could that the CVWRF Board believes creates more benefit to taxpayers versus holding onto the land for buffering and medium-term expansion of the water treatment operations. DPRE's efforts on this Project have always been to create a win/win scenario for CVWRF and its stakeholders, South Salt Lake, the other taxing entities, and the public through mutual collaboration and participation.

	\$2,500.00

Maximum Fee Cap **\$3,000.00**
 This amount is the maximum a student will be required to pay or voluntarily individually fundraise for each school year. This maximum fee cap applies to up to 3 co-curricular / extra curricular activities. Students who participate in activities beyond this limit may be subject to the full fee amount for these additional activities. The maximum fee cap does not apply to Student Travel, School Sponsored Admission Fees and required group fundraising.

Schedule of Non-Waivable Charges - The Board authorizes fines for damage caused to district property and for violating rules of conduct. Because administrative penalties do not implicate participation in school sponsored activities, these fines appear with other non-waivable charges on the Board approved Schedule of Non-Waivable Charges rather than on this Fee Schedule.

Pursuant to Utah Code 53G-6-704 and Utah Admin. Code R277-494, all home school, private school, and charter school students who participate in extracurricular activities must pay the applicable activity-specific fee(s) from above. For students who attend a charter school and participate in extracurricular activities, the charter school of enrollment must also pay a one-time annual school participation fee of \$75.00 to the school where the student is participating in the activity. Such students are not subject to the basic registration fee.

Gov. Cox encourages educators to remove cell phones during class time

SALT LAKE CITY (Jan. 10, 2024) – Utah Gov. Spencer J. Cox has sent letters to district and charter school leaders, school principals, school community council members and the State Board of Education sharing his concerns about the harmful effects social media has on our children and asking them to remove cell phones during class time.

“We all know that cell phones are a distraction and when we put phones away we can actually focus and study,” Gov. Cox said. “Cell phone-free learning environments will help our teachers teach and our students learn. We want to give our schools every opportunity to succeed and so I hope our local school districts and charter schools will join me in this effort to keep phones in backpacks or lockers during class time.”

Questions & Discussion

The motion to establish our zero-tolerance cell-phone policy was decided by the 2020-2021 Community Council in April 2021, for the 2021-2022 school year. The decision was made due to the overuse of Chromebooks and phones at lunch and in the classrooms during the Covid pandemic. One of the biggest reasons we made the policy was to reconnect with each other, and to eliminate the constant distraction and negative impact to learning that they cause.

Evergreen Junior High Cell Phone Policy

Students are not allowed to have cell phones on them at school at any time from 7:45am-2:45pm, including lunch. Many schools have found that students’ academic growth suffers when cell phones are allowed in school. If a student needs to contact a parent, they must ask the teacher to come to the office and contact the parent in the main office. Cell phones and earbuds will not be allowed in the classroom, if they are seen they will be confiscated. After 3 offenses a parent pick-up of the item is required. The school is NOT responsible for the loss or theft of these items.

1st teacher confiscation = phone is confiscated till end of class

2nd teacher confiscation = phone is confiscated and brought to office till end of school day/conversation with admin

3rd teacher confiscation = phone is confiscated and brought to office/parent pick up

Any refusal of student to turn over cell phone will result in automatic conference with administration and parent

Cell Phones in Schools

Currently, each school in Granite School District (GSD) determines their own classroom cell phone policies.

In January 2024, Governor Spencer Cox sent a letter to every school and district in the state asking that they, "remove cell phones from classrooms by creating a collaborative and cohesive LEA-wide policy framework that reaches every classroom."

GSD is considering this request and the best way to address the ongoing issues that cell phones create in the classrooms. Parents, students, and staff will hear more about this topic moving forward, but please take a moment to review the facts about cell phones below.

Levels of loneliness in schools have increased sharply since 2010, in large part because of cell phone use.

"When phones are kept in backpacks or lockers, learning improves, distractions are fewer, student engagement increases and opportunities for human connection are fostered."
- Gov. Spencer Cox

Studies show that students who use their phones during class learn less and get lower grades.

"Learning has improved, and our scores reflect that. Bullying and fighting have decreased. The students connect with each other in a more meaningful way. We are grateful for the support we have from our community council - it's been critical."
- Evergreen Jr. High Principal Ryan Shaw
(Evergreen does not allow cell phones to be out anytime during the school day)

The heaviest users of phones and social media are also the most depressed and lonely.
