208 DEVELOPMENT, ADOPTION, AND IMPLEMENTATION OF POLICIES

[NOTE: The provisions of this policy are recommendations. The procedures for policy development, adoption, and implementation are not specifically provided by statute.]

I. PURPOSE

The purpose of this policy is to emphasize the importance of the policy-making role of the school board and provide the means for it to be an ongoing effort.

II. GENERAL STATEMENT OF POLICY

Formal guidelines are necessary to ensure the school community that the school system responds to its mission and operates in an effective, efficient, and consistent manner. A set of written policies shall be maintained and modified as needed. Policies should define the desire and intent of the school board and should be in a form that is sufficiently explicit to guide administrative action.

III. DEVELOPMENT OF POLICY

A. The school board has jurisdiction to legislate policy with the force and effect of law for the school district. School district policy provides the school board's general direction for the school district while delegating policy implementation to the administration.

B. The school district's policies provide guidelines and goals to the school community. The policies are the basis for guidelines and directives created by the administration. The school board shall determine the effectiveness of policies by evaluating periodic reports from the administration.

C. Policies may be proposed by a school board member, employee, student, or resident of the school district. Proposed policies or ideas shall be submitted to the superintendent for review prior to possible placement on the school board agenda.

IV. ADOPTION AND REVIEW OF POLICY

A. The school board shall give notice of proposed policy changes or adoption of new policies by placing the item on the agenda of two (2) school board meetings. The proposals shall be distributed and public comment will be allowed at both meetings.

B. The final action taken to adopt the proposed policy shall be approved by a simple majority vote of the school board at a meeting after the two (2) meetings at which public input was received. The policy will be effective on the latter of the date of passage or the date stated in the motion.

C. In an emergency, a new or modified policy may be adopted by a majority vote of a quorum of the school board in a single meeting. A statement regarding the emergency and the need for immediate adoption of the policy shall be included in the minutes. The policy adopted in an emergency shall expire within one (1) year following the emergency action unless the policy adoption procedure stated above is followed and the policy is reaffirmed. The school board shall have discretion to determine what constitutes an emergency.

D. If a policy is ~~modified~~ revised with minor, technical changes that do not affect the substance of the policy, the school board directs school district staff to incorporate the technical revisions in the relevant policy.

If a policy is revised ~~or~~ because of a legal change over which the school board has no control, the modified policy may be approved at one meeting at the discretion of the school board.

[Note: The school board may choose to direct school district staff or the school board's policy committee to incorporate technical revisions, such as statutory references, grammatical improvements, and similar matters without requiring formal school board approval of the technical revision.]

V. IMPLEMENTATION OF AND ACCESS TO POLICY

A. The superintendent shall be responsible for implementing school board policies, other than the policies that cover how the school board will operate. The superintendent shall develop administrative guidelines and directives to provide greater specificity and consistency in the process of implementation. These guidelines and directives, including employee and student handbooks, shall be subject to annual review and approval by the school board.

B. Each school board member shall have access to school district policies. A copy of the school district policies shall be placed in the office of each school attendance center and in the central school district office and shall be available for reference purposes to other interested persons.

C. The superintendent, employees designated by the superintendent, and individual school board members shall be responsible for keeping the policy current.

D. The school board shall review policies at least once every three (3) years. The superintendent shall be responsible for developing a system of periodic review, addressing approximately one third of the policies annually. In addition, the school board shall review the following policies annually: 506 Student Discipline; 722 Public Data Requests; and 806 Crisis Management Policy.

E. When no school board policy exists to provide guidance on a matter, the superintendent is authorized to act appropriately under the circumstances keeping in mind the mission, educational philosophy, and financial condition of the school district. Under such circumstances, the superintendent shall advise the school board of the need for a policy and present a recommended policy to the school board for approval.

417 CHEMICAL USE AND ABUSE

[NOTE: This policy reflects mandatory provisions of state and federal law and is not discretionary.]

I. PURPOSE

The school board recognizes that chemical use and abuse constitutes a grave threat to the physical and mental well-being of students and employees and significantly impedes the learning process. Chemical use and abuse also creates significant problems for society in general. The school board believes that the public school has a role in education, intervention, and prevention of chemical use and abuse. The purpose of this policy is to assist the school district in its goal to prevent chemical use and abuse by providing procedures for education and intervention.

II. GENERAL STATEMENT OF POLICY

A. Use or possession of controlled substances, toxic substance, medical cannabis, and alcohol before, during, or after school hours, at school or in any other school location, is prohibited in accordance with school district policies with respect to a Drug-Free Workplace/Drug-Free School.

B. The school district shall develop, implement, and evaluate comprehensive programs and activities that foster safe, healthy, supportive, and drug-free environments that support student academic achievement.

C. Every school that participates in a school district chemical abuse program shall establish a chemical abuse preassessment team. The team is responsible for addressing reports of chemical abuse problems and making recommendations for appropriate responses to the individual reported cases.

D. The school district shall establish a drug-free awareness program for its employees.

[NOTE: School districts are required to establish a drug-free awareness program for school district employees pursuant to the Drug-Free Workplace Act. In addition, state law requires that the written districtwide school discipline policy must include procedures for detecting and addressing chemical abuse problems of a student while on the school premises. Further, school districts are required to develop, implement, and evaluate comprehensive programs and activities that foster safe, healthy, supportive, and drug-free environments that support student academic achievement if receiving funding under the federal Student Support and Academic Enrichment Grants law.]

III. DEFINITIONS

A. "Chemical abuse," as applied to students, means use of any psychoactive or moodaltering chemical substance, without compelling medical reason, in a manner that induces mental, emotional, or physical impairment and causes socially dysfunctional or socially disordering behavior, to the extent that the minor's normal function in academic, school, or social activities is chronically impaired.

B. "Controlled substances," as applied to the chemical abuse assessment of students, means a drug, substance, or immediate precursor in Schedules I through V of Minnesota Statutes, section 152.02 and "marijuana" as defined in Minnesota Statutes, section 152.01, subdivision 9 but not distilled spirits, wine, malt beverages, intoxicating liquors or tobacco. As otherwise defined in this policy, "controlled substances" include narcotic drugs, hallucinogenic drugs, amphetamines, barbiturates, marijuana, anabolic steroids, or any other controlled substance as defined in Schedules I through V of the Controlled Substances Act, 21 United States Code, section 812, including analogues and look-alike drugs.

C. "Drug prevention" means prevention, early intervention, rehabilitation referral, recovery support services, or education related to the illegal use of drugs, such as raising awareness about the consequences of drug use that are evidence based.

D. "Teacher" means all persons employed in a public school or education district or by a service cooperative as members of the instructional, supervisory, and support staff including superintendents, principals, supervisors, secondary vocational and other classroom teachers, librarians, counselors, school psychologists, school nurses, school social workers, audio-visual directors and coordinators, recreation personnel, media generalists, media supervisors, and speech therapists and Contractual Service Providers.

IV. STUDENTS

A. Districtwide School Discipline Policy

Procedures for detecting and addressing chemical abuse problems of a student while on school premises are included in the districtwide school student discipline policy.

B. Programs and Activities

1. The school district shall develop, implement, and evaluate comprehensive programs and activities that foster safe, healthy, supportive, and drug-free environments that support student academic achievements. The programs and activities may include, among other programs and activities, drug prevention activities and programs that may be evidence based, including programs to educate students against the use of alcohol, tobacco, marijuana, smokeless tobacco products, and electronic cigarettes.

2. As part of its drug-free programs, the school district may implement the drug abuse resistance education program (DARE) that enables peace officers to undergo the training to teach a curriculum on drug abuse resistance in schools.

C. Reports of Use, Possession, or Transfer of Alcohol or a Controlled Substance

1. A teacher in a nonpublic school participating in a school district chemical use program, or a public school teacher, who knows or has reason to believe that a student is using, possessing, or transferring alcohol or a controlled substance while on the school premises or involved in school-related activities, shall immediately notify the school's chemical abuse preassessment team, or staff member assigned duties similar to those of such a team, of this information.

[NOTE: School districts are not required to participate in a chemical abuse program or establish a chemical abuse preassessment team pursuant to state law. Schools are required to have procedures for detecting student chemical abuse and can obtain federal funding if they establish drug prevention, detection, intervention, and recovery support services. Thus, it is recommended that schools establish these programs and activities. For those schools that do not establish a chemical abuse preassessment team, those obligations could be assigned to a specified staff member such a school counselor or administrator.]

2. Students involved in the abuse, possession, transfer, distribution, or sale of chemicals may be suspended and proposed for expulsion in compliance with the student discipline policy and the Pupil Fair Dismissal Act, Minnesota Statutes, section 121A.40-121A.56.

3. Searches by school district officials in connection with the use, possession, or transfer of alcohol or a controlled substance will be conducted in accordance with school board policies related to search and seizure.

4. Nothing in Paragraph IV.B.1. prevents a teacher or any other school employee from reporting to a law enforcement agency any violation of law occurring on school premises or at school sponsored events.

D. Preassessment Team

1. Every school that participates in a school district chemical abuse program shall establish a chemical abuse preassessment team designated by the superintendent or designee. The team must be composed of classroom teachers, administrators, and to the extent they exist in the school, school nurse, school counselor or psychologist, social worker, chemical abuse specialist, and other appropriate professional staff. For schools that do not have a chemical abuse program and team, the superintendent or designee will assign these duties to a designated school district employee.

2. The team is responsible for addressing reports of chemical abuse problems and making recommendations for appropriate responses to the individual reported cases.

3. Within forty-five (45) days after receiving an individual reported case, the team shall make a determination whether to provide the student and, in the case of a minor, the student's parents with information about school and community services in connection with chemical abuse.

E. Data Practices

1. Student data may be disclosed without consent in health and safety emergencies pursuant to Minnesota Statutes, section 13.32 and applicable federal law and regulations.

2. Destruction of Records

a. If the preassessment team decides not to provide a student and, in the case of a minor, the student's parents with information about school or

community services in connection with chemical abuse, records created or maintained by the team about the student shall be destroyed not later than six (6) months after the determination is made.

b. If the team decides to provide the student and, in the case of a minor or a dependent student, the student's parents with information about school or community services in connection with chemical abuse, records created or maintained by the team about the student shall be destroyed not later than six (6) months after the student is no longer enrolled in the district.

c. Destruction of records identifying individual students shall be governed by paragraph IV.E.2. notwithstanding Minnesota Statutes, section 138.163 (Preservation and Disposal of Public Records).

F. Consent

Any minor may give effective consent for medical, mental, and other health services to determine the presence of or to treat conditions associated with alcohol and other drug abuse, and the consent of no other person is required*.*

[NOTE: State law permits schools to provide these services to minor students without the consent of a parent. If, however, a school district provides these or other services pursuant to a grant received under the Student Support and Academic Enrichment Grants law, this funding could be jeopardized if the requirements of federal law, to obtain prior written, informed consent from the parent of each child who is under 18 years of age is not obtained.]

V. EMPLOYEES

A. The school district shall establish a drug-free awareness program to inform employees about:

1. The dangers of drug abuse in the workplace.

2. The school district's policy of maintaining a drug-free workplace.

3. Available drug counseling, rehabilitation, and employee assistance programs.

4. The penalties that may be imposed on employees for drug abuse violations.

B. The school district shall notify a federal granting agency required to be notified under the Drug-Free Workplace Act within ten (10) days after receiving notice from the employee or otherwise receiving actual notice of any criminal drug statute conviction occurring in the workplace.

520 STUDENT SURVEYS

[Note: School districts are required by statute to have a policy addressing student surveys.]

I. PURPOSE

Occasionally, the school district utilizes surveys to obtain student opinions and information about students. The purpose of this policy is to establish the parameters of information that may be sought in student surveys.

II. GENERAL STATEMENT OF POLICY

Student surveys may be conducted as determined necessary by the school district. Surveys, analyses, and evaluations conducted as part of any program funded through the U.S. Department of Education must comply with 20 United States Code section 1232h.

III. STUDENT SURVEYS IN GENERAL

A. Student surveys will be conducted anonymously and in an indiscernible fashion. No mechanism will be used for identifying the participating student in any way. No attempt will be made in any way to identify a student survey participant. No requirement that the student return the survey shall exist, and no record of the student's returning a survey will be maintained.

B. The superintendent may choose not to approve any survey that seeks probing personal and/or sensitive information that could result in identifying the survey participant, or is discriminatory in nature based on age, race, color, sex, disability, religion, or national origin.

C. Surveys containing questions pertaining to the student's or the student's parent(s) or guardian(s) personal beliefs or practices in sex, family life, morality, and religion will not be administered to any student unless the parent or guardian of the student is notified in writing that such survey is to be administered and the parent or guardian of the student gives written permission for the student to participate or has the opportunity to opt out of the survey depending upon how the survey is funded. Any and all documents containing the written permission of a parent for a student to participate in a survey will be maintained by the school district in a file separate from the survey responses.

D. Although the survey is conducted anonymously, potential exists for personally identifiable information to be provided in response thereto. To the extent that personally identifiable information of a student is contained in his or her responses to a survey, the school district will take appropriate steps to ensure the data is protected in accordance with Minnesota Statutes chapter 13 (Minnesota Government Data Practices Act), 20 United States Code section 1232g (Family Educational Rights and Privacy Act) and 34 Code of Federal Regulations Part 99.

E. The school district must not impose an academic or other penalty on a student who opts out of participating in a student survey.

IV. STUDENT SURVEYS CONDUCTED AS PART OF DEPARTMENT OF EDUCATION PROGRAM

A. All instructional materials, including teacher's manuals, films, tapes, or other supplementary material which will be used in connection with any survey, analysis, or evaluation as part of any program funded in whole or in part by the U.S. Department of Education, shall be available for inspection by the parents or guardians of the students.

B. No student shall be required, as part of any program funded in whole or in part by the U.S. Department of Education, without the prior consent of the student (if the student is an adult or emancipated minor), or, in the case of an unemancipated minor, without the prior written consent of the parent, to submit to a survey that reveals information concerning:

1. political affiliations or beliefs of the student or the student's parent;

2. mental and psychological problems of the student or the student's family;

3. sex behavior or attitudes;

4. illegal, antisocial, self-incriminating, or demeaning behavior;

5. critical appraisals of other individuals with whom respondents have close family relationships;

6. legally recognized privileged or analogous relationships, such as those of lawyers, physicians, and ministers;

7. religious practices, affiliations, or beliefs of the student or the student's parent; or

8. income (other than that required by law to determine eligibility for participation in a program or for receiving financial assistance under such program).

C. A school district that receives funds under any program funded by the U.S. Department of Education shall develop local policies consistent with Sections IV.A. and IV.B., above, concerning student privacy, parental access to information, and administration of certain physical examinations to minors.

1. The following policies are to be adopted in consultation with parents:

a. The right of a parent to inspect, on request, a survey, including an evaluation, created by a third party before the survey is administered or distributed by a school to a student, including procedures for granting a parent's request for reasonable access to such survey within a reasonable period of time after the request is received.

"Parent" means a legal guardian or other person acting *in loco parentis* (in place of a parent), such as a grandparent or stepparent with whom the child lives, or a person who is legally responsible for the welfare of the child.

b. Arrangements to protect student privacy in the event of the administration or distribution of a survey, including an evaluation, to a

student which contains one or more of the items listed in Section IV.B., above, including the right of a parent of a student to inspect, on request, any such survey.

c. The right of a parent of a student to inspect, on request, any instructional material used as part of the educational curriculum for the student and procedures for granting a request by a parent for such access within a reasonable period of time after the request is received.

"Instructional material" means instructional content that is provided to a student, regardless of format, including printed or representational materials, audio-visual materials, and materials in electronic or digital formats (i.e., materials accessible through the Internet). The term does not include academic tests or academic assessments.

d. The administration of physical examinations or screenings that the school district may administer to a student. This provision does not apply to a survey administered to a student in accordance with the Individuals with Disabilities Education Act (20 United States Code section 1400, *et seq.*).

e. The collection, disclosure, or use of personal information collected from students for the purpose of marketing or for selling that information (or otherwise providing the information to others for that purpose), including arrangements to protect student privacy that are provided by the school district in the event of such collection, disclosure, or use.

(1) "Personal information" means individually identifiable information including a student or parent's first and last name; a home or other physical address (including street name and the name of the city or town); a telephone number; or a Social Security identification number.

(2) This provision does not apply to the collection, disclosure, or use of personal information collected from students for the exclusive purpose of developing, evaluating, or providing educational products or services for, or to, students or educational institutions, such as:

(a) college or other post-secondary education recruitment or military;

(b) book clubs, magazines, and programs providing access to low cost literary products;

(c) curriculum and instructional materials used by elementary and secondary schools;

(d) tests and assessments used by elementary schools and secondary schools to provide cognitive, evaluative, diagnostic, clinical, aptitude, or achievement information about students, or to generate other statistically useful data for the purpose of securing such tests and assessments and the subsequent analysis and

public release of the aggregate data from such tests and assessments;

(e) the sale by students of products or services to raise funds for school-related or education-related activities; and

(f) student recognition programs.

(3) The right of a parent to inspect, on request, any instrument used in the collection of information, as described in Section IV.C.1., Subparagraph e., above, before the instrument is administered or distributed to a student and procedures for granting a request by a parent for reasonable access to such an instrument within a reasonable period of time after the request is received.

2. The policies adopted under Section IV.C., Subparagraph 1., above, shall provide for reasonable notice of the adoption or continued use of such policies directly to parents of students enrolled in or served by the school district.

a. The notice will be provided at least annually, at the beginning of the school year, and within a reasonable period of time after any substantive change in a policy.

b. The notice will provide parents with an opportunity to opt out of participation in the following activities:

(1) Activities involving the collection, disclosure, or use of personal information collected from students for the purpose of marketing or for selling that information, or otherwise providing that information to others for that purpose.

(2) The administration of any third-party survey (non-Department of Education funded) containing one or more of the items contained in Section IV.B., above.

(3) Any nonemergency, invasive physical examination or screening that is required as a condition of attendance, administered by the school and scheduled by the school in advance, and not necessary to protect the immediate health and safety of the student or other students.

"Invasive physical examination" means any medical examination that involves the exposure of private body parts, or act during such examination that includes incision, insertion, or injection into the body, but does not include a hearing, vision, or scoliosis screening.

c. The notice will advise students of the specific or approximate dates during the school year when the activities in Section IV.C.2., Subparagraph b., above, are scheduled, or expected to be scheduled.

d. The notice provisions shall not be construed to preempt applicable provisions of state law that require parental notification and do not apply

to any physical examination or screening that is permitted or required by applicable state law, including physical examinations or screenings that are permitted without parental notification.

V. NOTICE

A. The school district must give parents and students notice of this policy at the beginning of each school year and after making substantive changes to this policy.

B. The school district must inform parents at the beginning of the school year if the district or school has identified specific or approximate dates for administering surveys and give parents reasonable notice of planned surveys scheduled after the start of the school year. The school district must give parents direct, timely notice when their students are scheduled to participate in a student survey by United States mail, e-mail, or another direct form of communication.

C. The school district must give parents the opportunity to review the survey and to opt their students out of participating in the survey.

616 SCHOOL DISTRICT SYSTEM ACCOUNTABILITY

[NOTE: Minnesota Statutes, section 120B.11 requires school districts to adopt a comprehensive long-term strategic plan that addresses the review of curriculum, instruction, student achievement, and assessment. Model Policies 601, 603, and 616 address these statutory requirements. In addition, Model Policies 613-615 and 618620 provide procedures to further implement the requirements of Minnesota Statutes, section 120B.11.]

I. PURPOSE

The purpose of this policy is to focus public education strategies on a process that promotes higher academic achievement for all students and ensures broad-based community participation in decisions regarding implementation of the Minnesota K-12 Academic Standards and federal law.

II. GENERAL STATEMENT OF POLICY

Implementation of the Minnesota K-12 Academic Standards and federal law requires accountability for the school district. The school district established a system to transition to the graduation requirements of the Minnesota K-12 Academic Standards. The school district also established a system to review and improve instruction, curriculum, and assessment which will include substantial input by students, parents or guardians, and local community members. The school district will be accountable to the public and the state through annual reporting.

III. DEFINITIONS

A. "Comprehensive achievement and civic readiness" means striving to: meet school readiness goals; close the academic achievement gap among all racial and ethnic groups of students and between students living in poverty and students not living in poverty; have all students attain career and college readiness before graduating from high school; and have all students graduate from high school; and prepare students to be lifelong learners.

B. "Credit" means a student's successful completion of an academic year of study or a student's mastery of the applicable subject matter, as determined by the school district.

IV. ESTABLISHMENT OF GOALS; IMPLEMENTATION; EVALUATION AND REPORTING

A. School District Goals

1. The school board has established school district-wide goals that provide broad direction for the school district. Incorporated in these goals are the graduation and education standards contained in the Minnesota K-12 Academic Standards and federal law. The broad goals shall be reviewed annually and approved by the school board. The school board shall adopt annual goals based on the recommendations of the school district's Advisory Committee.

2. The District Advisory Committee created under the Curriculum Development Policy is established by the school board to ensure active community participation in all phases of planning and improving the instruction and curriculum affecting state and district academic standards.

3. The school district-wide improvement goals should address recommendations identified through the District Advisory Committee process. The school district's goal setting process will include consideration of individual site goals. School district goals may also be developed through an education effectiveness program or through some other locally determined process.

B. System for Reviewing All Instruction and Curriculum

Incorporated in the process will be analysis of the school district's progress toward implementation of the Minnesota Academic Standards. Instruction and curriculum shall be reviewed and evaluated by taking into account strategies and best practices, student outcomes, principal evaluations under Minnesota Statutes, section 123B.147, and teacher evaluations under Minnesota Statutes, section 122A.40 or 122A.41.

Windom Area Schools Curriculum Adoption cycle follows MDE's calendar for standards adoption and implementation.

C. Implementation of Graduation Requirements

1. The District Advisory Committee shall also advise the school board on implementation of the state and local graduation requirements, including K-12 curriculum, assessment, student learning opportunities, and other related issues. Recommendations of the District Advisory Committee shall be published annually to the community. The school board shall receive public input and comment and shall adopt or update this policy at least annually.

2. The school board shall annually review and determine if student achievement levels at each school site meet federal expectations. If the school board determines that student achievement levels at a school site do not meet federal expectations, the District Advisory Committee shall work with the school site to adopt a plan to raise student achievement levels to meet federal expectations. The District Advisory Committee may seek assistance from the Commissioner of the Minnesota Department of Education (MDE) (Commissioner) in developing a plan which must include parental involvement components.

3. The educational assessment system component utilized by the school board to measure individual students' educational progress must be based, to the extent annual tests are administered, on indicators of current achievement that show growth relative to an individual student's prior achievement. Indicators of achievement and prior achievement must be based on highly reliable statewide or districtwide assessments. The school board will utilize models developed by the Commissioner for measuring individual student progress. The school board must coordinate with MDE in evaluating school sites and continuous improvement plans, consistent with best practices.

D. Comprehensive Continuous Improvement of Student Achievement

1. By [*date*] of each year, the District Advisory Committee will meet to advise and assist the school district in the implementation of the school district system accountability and comprehensive continuous improvement process.

2. The District Advisory Committee, working in cooperation with other committees of the school district [***such as the Technology, Educational Effectiveness, Grade Level, Site Instruction, Curriculum and Assessment Committees, etc.***], will provide active community participation in:

   a. Reviewing the school district instructional and curriculum plan, with emphasis on implementing the Minnesota K-12 Academic Standards;

   b. Identifying annual instruction and curriculum improvement goals for recommendation to the school board;

   c. Making recommendations regarding the evaluation process that will be used to measure school district progress toward its goals; and,

   d. Advising the school board about development of the annual budget.

3. The District Advisory Committee shall meet the following criteria:

   a. The District Advisory Committee shall ensure active community participation in all planning for instruction and curriculum affecting Graduation Standards.

   b. The District Advisory Committee shall make recommendations to the school board on school district-wide standards, assessments, and program evaluation.

   c. Building teams may be established as subcommittees to develop and implement an education effectiveness plan and to carry out methods to improve instruction, curriculum, and assessments as well as methods to use technology in meeting the school district improvement plan.

   d. A local plan to evaluate student progress, using a local process, shall be used for developing a plan for assessment of student progress toward the Graduation Standards, as well as program evaluation data for use by the District Advisory Committee in the instruction and curriculum review process. This plan shall annually be approved by the school board.

4. Translation services should be provided to the extent appropriate and practicable.

5. The District Advisory Committee shall meet the following timeline each year:

   Month: Organizational meeting of the Committee to review the authorizing legislation and the roles and responsibilities of the Committee as determined by the school board.

Month(s): Agree on the process to be used. Become familiar with the instruction and curriculum of the cycle content area.

Month(s): Review evaluation results and prepare recommendations.

Month: Present recommendations to the school board for its input and approval.

Evaluation of Student Progress Committee

A committee of professional staff shall develop a plan for assessment of student progress, the Graduation Standards, as well as program evaluation data for use by the District Advisory Committee to review instruction and curriculum, cultural competencies, including cultural awareness and cross-cultural communication, and student achievement at the school site. This plan shall annually be approved by the school board.

[NOTE: The school board may choose to delete this paragraph regarding an Evaluation of Student Progress Committee upon consultation with school administration.]

E. Reporting

1. Consistent with Minnesota Statutes, section 120B.36, subdivision. 1, the school board shall publish a report in the local newspaper with the largest circulation in the district, by mail, or by electronic means on the school district website. The school board shall hold an annual public meeting to review and revise, where appropriate, student achievement goals, local assessment outcomes, plans, strategies, and practices for improving curriculum and instruction and cultural competency and efforts to equitably distribute diverse, effective, experienced, and in-field teachers, and to review school district success in realizing the previously adopted student achievement goals and related benchmarks and the improvement plans leading to comprehensive achievement and civic readiness. The school board must transmit an electronic summary of its report to the Commissioner in the form and manner the Commissioner determines. The school district shall periodically survey affected constituencies in their native languages, where appropriate and practicable, about their connection to and level of satisfaction with school. The school district shall include the results of this evaluation in its published reports and in its summary report to the Commissioner.

2. The school performance report for a school site and a school district must include performance reporting information and calculate proficiency rates as required by the most recently reauthorized Elementary and Secondary Education Act.

3. The school district must annually report the district's class size ratios by each grade to the Commissioner in the form and manner specified by the Commissioner.

4. The school district must report whether programs funded with compensatory revenue are consistent with best practices demonstrated to improve student achievement.

619 STAFF DEVELOPMENT FOR STANDARDS

I. PURPOSE

The purpose of this policy is to establish opportunities for staff development which advance the staff's ability to work effectively with the Graduation Assessment Requirements and with students as they progress to achievement of those Graduation Assessment Requirements and meet the requirements of federal law.

II. GENERAL STATEMENT OF POLICY

The school district is committed to developing staff policies and processes for continuous improvement of curriculum, instruction, and assessment to ensure effective implementation of the Graduation Assessment Requirements and federal law at all levels.

III. STANDARDS FOR STAFF DEVELOPMENT

A. The Advisory Committee for Comprehensive Continuous Improvement of Student Achievement (Committee) shall address the needs of all staff in prioritizing staff development which will ensure effective implementation of the Graduation Assessment Requirements and federal law at all levels. The Committee will advise the school board on the planning of staff development opportunities.

B. The school district shall place a high priority on staff development including activities, programs, and other efforts to implement the Graduation Assessment Requirements effectively and to upgrade that implementation continuously.

C. Staff development plans for the school district shall address identified needs for Graduation Assessment Requirements implementation throughout all levels of the school district programs.

D. In service, staff meeting, and district and building level staff development plans and programs shall focus on improving implementation of the Graduation Assessment Requirements at all levels for all students, including those with special needs.

IV. TRAINING AND PROFESSIONAL DEVELOPMENT

A. Paraprofessionals. The school district will provide each paraprofessional who assists a licensed teacher in providing student instruction with initial training. Such training will include training in emergency procedures, confidentiality,

vulnerability, reporting obligations, discipline, policies, roles and responsibilities, and building orientation. Training will be provided within the first 60 days a paraprofessional begins supervising or working with students.

Additionally, with regard to paraprofessionals providing support to special education students, the school district will ensure that annual training opportunities are required to enable the paraprofessional to further develop the knowledge and skills that are specific to the students with whom the paraprofessional works, including understanding disabilities, the unique and individual needs of each student according to the student's disability and how the disability affects the student's education and behavior, following lesson plans, and implementing follow-up instructional procedures and activities.

B. Teachers/Administrators

The school district will provide high quality and ongoing professional development activities as required by state and federal laws.

621 LITERACY AND THE READ ACT

[NOTE*:* By the 2026-2027 school year, the school district must provide evidencebased reading instruction through a focus on student mastery of the foundational reading skills of phonemic awareness, phonics, and fluency, as well as the development of oral language, vocabulary, and reading comprehension skills. Students must receive evidence-based instruction that is proven to effectively teach children to read, consistent with Minnesota Statutes, sections 120B.118 to 120B.124.]

I. PURPOSE

This policy aligns with Minnesota law established in the Read Act and on other topics related to reading.

II. GENERAL STATEMENT OF POLICY

The school district recognizes the centrality of reading in a student's educational experience.

III. DEFINITIONS

A. "Evidence-based" means the instruction or item described is based on reliable, trustworthy, and valid evidence and has demonstrated a record of success in increasing students' reading competency in the areas of phonological and phonemic awareness, phonics, vocabulary development, reading fluency, and reading comprehension. Evidence-based literacy instruction is explicit, systematic, and includes phonological and phonemic awareness, phonics and decoding, spelling, fluency, vocabulary, oral language, and comprehension that can be differentiated to meet the needs of individual students. Evidence-based instruction does not include the three-cueing system, as defined in subdivision 16.

B. "Fluency" means the ability of students to read text accurately, automatically, and with proper expression.

C. "Foundational reading skills" includes phonological and phonemic awareness, phonics and decoding, and fluency. Foundational reading skills appropriate to each grade level must be mastered in kindergarten, grade 1, grade 2, and grade 3. Struggling readers in grades 4 and above who do not demonstrate mastery of grade-level foundational reading skills must continue to receive explicit, systematic instruction to reach mastery.

D. "Literacy specialist" means a person licensed by the Professional Educator Licensing and Standards Board as a teacher of reading, a special education teacher, or a kindergarten through grade 6 teacher, who has completed professional development approved by the Minnesota Department of Education (MDE) in structured literacy. A literacy specialist employed by the department under Minnesota Statutes, section 120B.123, subdivision 7, or by a district as a literacy lead, is not required to complete the approved training before August 30, 2025.

E. "Literacy lead" means a literacy specialist with expertise in working with educators as adult learners. A district literacy lead must support the district's implementation of the Read Act; provide support to school-based coaches; support the implementation of structured literacy, interventions, curriculum delivery, and teacher training; assist with the development of personal learning plans; and train paraprofessionals and other support staff to support classroom literacy instruction. A literacy lead may be employed by one district, jointly by two or more districts, or may provide services to districts through a partnership with the regional service cooperatives or another district.

F. "Multitiered system of support" or "MTSS" means a systemic, continuous improvement framework for ensuring positive social, emotional, behavioral, developmental, and academic outcomes for every student. The MTSS framework provides access to layered tiers of culturally and linguistically responsive, evidence-based practices and relies on the understanding and belief that every student can learn and thrive. Through an MTSS at the core (Tier 1), supplemental (Tier 2), and intensive (Tier 3) levels, educators provide high quality, evidence-based instruction and intervention that is matched to a student's needs; progress is monitored to inform instruction and set goals and data is used for educational decision making.

G. "Oral language," also called "expressive language" or "receptive language," includes speaking and listening, and consists of five (5) components: phonology, morphology, syntax, semantics, and pragmatics.

H. "Phonemic awareness" means the ability to notice, think about, and manipulate individual sounds in spoken syllables and words.

I. "Phonics instruction" means the explicit, systematic, and direct instruction of the relationships between letters and the sounds they represent and the application of this knowledge in reading and spelling.

J. "Progress monitoring" means using data collected to inform whether interventions are working. Progress monitoring involves ongoing monitoring of progress that quantifies rates of improvement and informs instructional practice and the development of individualized programs using state-approved screening that is reliable and valid for the intended purpose.

K. "Reading comprehension" means a function of word recognition skills and language comprehension skills. It is an active process that requires intentional thinking during which meaning is constructed through interactions between the text and reader. Comprehension skills are taught explicitly by demonstrating, explaining, modeling, and implementing specific cognitive strategies to help beginning readers derive meaning through intentional, problem-solving thinking processes.

L. "Structured literacy" means an approach to reading instruction in which teachers carefully structure important literacy skills, concepts, and the sequence of instruction to facilitate children's literacy learning and progress. Structured literacy is characterized by the provision of systematic, explicit, sequential, and diagnostic instruction in phonemic awareness, phonics, fluency, vocabulary and oral language development, and reading comprehension. This approach is consistent with the principles identified in the science of reading and is designed to ensure all students develop strong foundational literacy skills.

M. "Three-cueing system," also known as "meaning structure visual (MSV)," means a method that teaches students to use meaning, structure and syntax, and visual cues when attempting to read an unknown word.

N. "Vocabulary development" means the process of acquiring new words. A robust vocabulary improves all areas of communication, including listening, speaking, reading, and writing. Vocabulary growth is directly related to school achievement and is a strong predictor for reading success.

IV. READING SCREENER; PARENT NOTIFICATION AND INVOLVEMENT

A. The school district must administer an approved reading screener to students in kindergarten through grade 3 within the first six weeks of the school year, by February 15 each year, and again within the last six weeks of the school year. The screener must be one of the screening tools approved by MDE.

B. The school district must identify any screener it uses in the district's annual literacy plan, and submit screening data with the annual literacy plan by June 15.

C. Schools, after administering each screener, must follow the language access plan under Minnesota Statutes, section 123B.32 and give the parent of each student who is not reading at or above grade level information from the screener about:

1. the student's reading proficiency as measured by a screener approved by MDE;

2. reading-related services currently being provided to the student and the student's progress; and

3. strategies for parents to use at home in helping their student succeed in becoming grade-level proficient in reading in English and in their native language.

D. For students enrolled in dual language immersion programs, the school district must measure the student's reading proficiency in English or in the program's partner language, if available, according to Article V below. Following its language access plan under Minnesota Statutes, section 123B.32, the school district must notify families with timely information about students' reading proficiency, including how the student's reading proficiency is assessed, any reading-related services or supports provided to the student and the student's progress, and strategies for families to use at home in helping students succeed in becoming grade-level proficient in reading in English or the partner language. The dual language immersion program may provide information about national research on reading proficiency for students in dual language immersion programs in the parent notification.

E. The school district may not use this section to deny a student's right to a special education evaluation.

V. IDENTIFICATION AND REPORT

A. Students enrolled in kindergarten, grade 1, grade 2, and grade 3, including multilingual learners and students receiving special education services, and students enrolled in dual language immersion programs, must be universally screened for mastery of foundational reading skills, including phonemic awareness, phonics, decoding, fluency, oral language,

and for characteristics of dyslexia as measured by a screening tool approved by MDE. The screening for characteristics of dyslexia may be integrated with universal screening for mastery of foundational skills and expressive or receptive language mastery. The screening tool used must be a valid and reliable universal screener that is highly correlated with foundational reading skills. For students reading at grade level, beginning in the winter of grade 2, the oral reading fluency screener may be used to assess reading difficulties, including characteristics of dyslexia, without requiring a separate screening of each subcomponent of foundational reading skills.

B. The school district must submit data on student performance in kindergarten, grade 1, grade 2, and grade 3 on foundational reading skills, including phonemic awareness, phonics, decoding, fluency, and oral language to MDE in the annual local literacy plan submission due on June 15.

C. For students enrolled in dual language immersion programs:

1. if students are screened in the partner language, they must be screened at the same interval as the screenings in English under Paragraph A above;

2. if the program provides instruction in foundational reading skills in English, the students receiving that instruction must be screened in English;

3. if the program provides instruction in foundational reading skills in the partner language, the students receiving that instruction must be screened in the partner language;

4. if no screener is available in the partner language, the school district must identify how students' reading proficiency is assessed and how the school district determines and provides targeted reading instruction in the partner language and supports to students identified as needing additional support in developing mastery of foundational reading skills; and

5. the partner language screening tool must be approved by the school district for kindergarten through grade 3 students.

D. Students in grades 4 and above, including multilingual learners and students receiving special education services, who are not reading at grade level must be screened for reading difficulties, including characteristics of dyslexia, using a screening tool approved by MDE and must continue to receive evidence-based instruction, interventions, and progress monitoring until the students achieve grade-level proficiency. A parent, in consultation with a teacher, may opt a student out of the literacy screener if the parent and teacher decide that continuing to screen would not be beneficial to the student. In such limited cases, the student must continue to receive progress monitoring and literacy interventions.

E. Reading screeners in English, and in the predominant languages of school district students where practicable, must identify and evaluate students' areas of academic need related to literacy. The school district also must monitor the progress and provide reading instruction appropriate to the specific needs of multilingual learners. The school district must use an approved, developmentally appropriate, and culturally responsive screener and annually report summary screener results to the MDE Commissioner ("Commissioner") by June 15 in the form and manner determined by the Commissioner.

F. The school district must include in its local literacy plan a summary of the district's efforts to screen, identify, and provide interventions to students who demonstrate characteristics of dyslexia as measured by a screening tool approved by MDE. With respect to students screened or identified under Minnesota Statutes, section 120B.12, subdivision 2, paragraph (a), the report must include:

1. a summary of the school district's efforts to screen for characteristics of reading difficulties, including dyslexia;

2. the number of students universally screened for that reporting year;

3. the number of students demonstrating characteristics of dyslexia for that year; and

4. an explanation of how students identified under this subdivision are provided with alternate instruction and interventions under Minnesota Statutes, section 125A.56, subdivision 1.

VI. INTERVENTION

A. For each student identified under the screening identification process, the school district shall provide aligned and targeted reading intervention to accelerate student growth and reach the goal of reading at or above grade level by the end of the current grade and school year.

B. The school district must implement progress monitoring, as defined in Minnesota Statutes, section 120B.119, for a student not reading at grade level.

C. The school district must use evidence-based curriculum and intervention materials at each grade level that are designed to ensure student mastery of phonemic awareness, phonics, vocabulary development, reading fluency, and reading comprehension. If the school district purchases new literacy curriculum, or literacy intervention or supplementary materials, the curriculum or materials must be evidence-based as defined in Minnesota Statutes, section 120B.119.

[NOTE: Starting in the 2026-2027 school year, a school district must use only evidence-based literary interventions. The 2025 Minnesota legislature amended Minnesota Statutes, section 120B.12, subdivision 3, to delay the 2025-26 requirement for one school year.]

D. If a student does not read at or above grade level by the end of the current school year, the school district must continue to provide aligned and targeted reading intervention as defined by the MTSS framework until the student reads at grade level. School district intervention methods shall encourage family engagement and, where possible, collaboration with appropriate school and community programs that specialize in evidence-based instructional practices and measure mastery of foundational reading skills, including phonemic awareness, phonics, decoding, fluency, and oral language.

E. By the 2025-2026 school year, intervention programs must be taught by an intervention teacher or special education teacher who has successfully completed training in evidence-based reading instruction approved by MDE. Intervention may include but is not limited to requiring student attendance in summer school, intensified reading instruction that may require that the student be removed from the regular classroom

for part of the school day, extended-day programs, or programs that strengthen students' cultural connections.

F. The school district must determine the format of the personal learning plan in collaboration with the student's educators and other appropriate professionals. The school must develop the learning plan in consultation with the student's parent or guardian. The personal learning plan must include targeted instruction that is evidencebased and ongoing progress monitoring, and address knowledge gaps and skill deficiencies through strategies such as specific exercises and practices during and outside of the regular school day, group interventions, periodic assessments or screeners, and reasonable timelines. The personal learning plan may include grade retention, if it is in the student's best interest; a student may not be retained solely due to delays in literacy or not demonstrating grade-level proficiency. A school must maintain and regularly update and modify the personal learning plan until the student reads at grade level. This paragraph does not apply to a student under an individualized education program.

VII. LOCAL LITERACY PLAN

A. The school district must adopt a local literacy plan to have every child reading at or above grade level every year beginning in kindergarten and to support multilingual learners and students receiving special education services in achieving their individualized reading goals. The school district must update and submit the plan to the Commissioner by June 15 each year. The plan must be consistent with the Read Act, and include the following:

1. a process to assess students' foundational reading skills, oral language, and level of reading proficiency and the screeners used, by school site and grade level, under Minnesota Statutes, section 120B.123;

2. a process to notify and involve parents;

3. a description of how schools in the school district will determine the targeted reading instruction that is evidence-based and includes an intervention strategy for a student and the process for intensifying or modifying the reading strategy in order to obtain measurable reading progress;

4. evidence-based intervention methods for students who are not reading at or above grade level and progress monitoring to provide information on the effectiveness of the intervention;

5. identification of staff development needs, including a plan to meet those needs;

6. the curricula used by school site and grade level and, if applicable, the district plan and timeline for adopting evidence-based curricula and materials starting in the 2025-2026 school year;

7. a statement of whether the school district has adopted an MTSS framework;

8. student data using the measures of foundational literacy skills and mastery identified by MDE for the following students:

9. the number of teachers and other staff that have completed training approved by the department;

10. the number of teachers and other staff proposed for training in structured literacy;

11. how the district used funding provided under the Read Act to implement the requirements of the Read Act;

12. beginning as soon as practicable after the end of fiscal year 2026, how the district used literacy aid funding received under Minnesota Statutes, section 124D.98; and

13. beginning on December 31, 2025, for a district with a dual language immersion program:

    a. the program's partner language;

    b. grade levels included in the program;

    c. the language used to screen students' foundational reading skills;

    d. the percentage of grade 3 students taking the Minnesota Comprehensive Assessments; and

B. Annually by June 15, the school district must post its literacy plan on the official school district website and submit it to the Commissioner using the template developed by the Commissioner.

C. The school district must use a streamlined template developed by the Commissioner for local literacy plans that meets the requirements of Minnesota Statutes, section 120B.12, subdivision 4a, and requires all reading instruction and teacher training in reading instruction to be evidence-based.

VIII. STAFF TRAINING

A. The district must provide training from a menu of approved evidence-based training programs to the following teachers and staff by July 1, 2026:

literacy-related areas including writing until the student achieves grade-level reading and writing proficiency;

2. elementary teachers have sufficient training to provide students with evidencebased reading and oral language instruction that meets students' developmental, linguistic, and literacy needs using the intervention methods or programs selected by the school district for the identified students;

3. licensed teachers employed by the school district have regular opportunities to improve reading and writing instruction;

4. licensed teachers recognize students' diverse needs in cross-cultural settings and are able to serve the oral language and linguistic needs of students who are multilingual learners by maximizing strengths in their native languages in order to cultivate students' English language development, including academic language development, and build academic literacy; and

5. licensed teachers are well trained in culturally responsive pedagogy that enables students to master content, develop skills to access content, and build relationships.

C. The school district must provide staff in early childhood programs sufficient training to provide children in early childhood programs with explicit, systematic instruction in phonological and phonemic awareness; oral language, including listening comprehension; vocabulary; and letter-sound correspondence.

709 STUDENT TRANSPORTATION SAFETY POLICY

[NOTE: School districts are required by statute to have a policy addressing these issues.]

I. PURPOSE

The purpose of this policy is to provide safe transportation for students and to educate students on safety issues and the responsibilities of school bus ridership.

II. PLAN FOR STUDENT TRANSPORTATION SAFETY TRAINING

A. School Bus Safety Week

The school district may designate a school bus safety week. The National School Bus Safety Week is the third week in October.

B. Student School Bus Safety Training

1. The school district shall provide students enrolled in grades kindergarten (K) through 10 with age-appropriate school bus safety training of the following concepts:

   a. transportation by school bus is a privilege, not a right;

   b. school district policies for student conduct and school bus safety;

   c. appropriate conduct while on the bus;

   d. the danger zones surrounding a school bus;

   e. procedures for safely boarding and leaving a school bus;

   f. procedures for safe vehicle lane crossing; and

   g. school bus evacuation and other emergency procedures.

2. All students in grades K through 6 who are transported by school bus and are enrolled during the first or second week of school must receive the school bus safety training by the end of the third week of school. All students in grades 7 through 10 who are transported by school bus and are enrolled during the first or second week of school must receive the school bus safety training or receive bus safety instruction materials by the end of the sixth week of school, if they have not previously received school bus training. Students in grades K through 10 who enroll in a school after the second week of school, are transported by school bus, and have not received training in their previous school districts shall undergo school bus safety training or receive bus safety instructional materials within four (4) weeks of their first day of attendance.

3. The school district and a nonpublic school with students transported by school bus at public expense must provide students enrolled in grades K through 3 school bus safety training twice during the school year.

4. Students taking driver's training instructional classes must receive training in the laws and proper procedures for operating a motor vehicle in the vicinity of a school bus as required by Minnesota Statutes, section 169.446, subdivision 2.

5. The school district and a nonpublic school with students transported by school bus at public expense must conduct a school bus evacuation drill at least once during the school year.

6. The school district will make reasonable accommodations in training for students known to speak English as a second language and students with disabilities.

7. The school district may provide kindergarten students with school bus safety training before the first day of school.

8. The school district shall adopt and make available for public review a curriculum for transportation safety education.

9. Nonpublic school students transported by the school district will receive school bus safety training by their nonpublic school. The nonpublic schools may use the school district's school transportation safety education curriculum. Upon request by the school district superintendent, the nonpublic school must certify to the school district's school transportation safety director that all students enrolled in grades K through 10 have received the appropriate training.

C. Active Transportation Safety Training

1. Training Required

a. The school district must provide public school pupils enrolled in kindergarten through grade 3 with age-appropriate active transportation safety training. At a minimum, the training must include pedestrian safety, including crossing roads.

b. The district and a nonpublic school must make reasonable accommodations for the active transportation safety training of pupils known to speak English as a second language and pupils with disabilities.

III. CONDUCT ON SCHOOL BUSES AND CONSEQUENCES FOR MISBEHAVIOR

A. Riding the school bus is a privilege, not a right. The school district's general student behavior rules are in effect for all students on school buses, including nonpublic and charter school students.

B. Consequences for school bus/bus stop misconduct will be imposed by the school district under adopted administrative discipline procedures. In addition, all school bus/bus stop misconduct will be reported to the school district's transportation safety director. Serious misconduct may be reported to local law enforcement.

1. School Bus and Bus Stop Rules

The school district school bus safety rules are to be posted on every bus. If these rules are broken, the school district's discipline procedures are to be followed. In most circumstances, consequences are progressive and may include suspension of bus privileges. It is the school bus driver's responsibility to report unacceptable behavior to the school district's Transportation Office/School Office.

2. Rules at the Bus Stop

a. Get to your bus stop five (5) minutes before your scheduled pick up time. The school bus driver will not wait for late students.

b. Respect the property of others while waiting at your bus stop.

c. Keep your arms, legs, and belongings to yourself.

i. Do not bring any weapons or dangerous objects on the school bus.

j. Do not damage the bus.

4. Consequences

a. Consequences for school bus/bus stop misconduct will apply to all regular and late routes. Decisions regarding a student's ability to ride the bus in connection with cocurricular and extracurricular events (for example, field trips or competitions) will be in the sole discretion of the school district. Parents or guardians will be notified of any suspension of bus privileges.

(1) Elementary (grades K-6)

1st offense	warning
2nd offense	three (3) school-day suspension from riding the bus
3rd offense	five (5) school-day suspension from riding the bus
4th offense	ten (10) school-day suspension from riding the bus/meeting with parent
Further offenses	individually considered. Students may be suspended for longer periods of time, including the remainder of the school year.

(2) Secondary (grades 7-12)

1st offense	warning
2nd offense	five (5) school-day suspension from riding the bus
3rd offense	ten (10) school-day suspension from

		riding the bus
4th offense	twenty (20)	school-day suspension from riding the bus/meeting with parent

[Note: When any student goes sixty (60) transportation days without a report, the student's consequences may start over at the first offense.]

(3) Other Discipline

Based on the severity of a student's conduct, more serious consequences may be imposed at any time. Depending on the nature of the offense, consequences such as suspension or expulsion from school also may result from school bus/bus stop misconduct.

(4) Records

Records of school bus/bus stop misconduct will be forwarded to the individual school building and will be retained in the same manner as other student discipline records. Reports of student misbehavior on a school bus or in a bus-loading or unloading area that are reasonably believed to cause an immediate and substantial danger to the student or surrounding persons or property shall be provided by the school district to local law enforcement and the Department of Public Safety in accordance with state and federal law.

(5) Vandalism/Bus Damage

Students damaging school buses will be responsible for the damages. Failure to pay such damages (or make arrangements to pay) within two (2) weeks may result in the loss of bus privileges until damages are paid.

(6) Notice

School bus and bus stop rules and consequences for violations of these rules will be reviewed with students annually and copies of these rules will be made available to students. School bus rules are to be posted on each school bus.

(7) Criminal Conduct

In cases involving criminal conduct (for example, assault, weapons, drug possession, or vandalism), the appropriate school district personnel and local law enforcement officials will be informed.

IV. PARENT AND GUARDIAN INVOLVEMENT

A. Parent and Guardian Notification

The school district school bus and bus stop rules will be provided to each family. Parents and guardians are asked to review the rules with their children.

B. Parents/Guardians Responsibilities for Transportation Safety

Parents/Guardians are responsible to:

1. Become familiar with school district rules, policies, regulations, and the principles of school bus safety, and thoroughly review them with their children;

The notification shall be in writing and shall contain all the information set forth in Attachment A accompanying this policy.

E. A school bus driver, with the exception of a driver operating a type A-I school bus or type III vehicle, who has a Minnesota commercial driver's license suspended, revoked, or cancelled by the state of Minnesota or any other state or jurisdiction and who loses the right to operate a commercial vehicle for any period or who is disqualified from operating a commercial motor vehicle for any period shall notify the person's employer of the suspension, revocation, cancellation, lost privilege, or disqualification. Such notification shall be made before the end of the business day following the day the employee received notice of the suspension, revocation, cancellation, lost privilege, or disqualification. The notification shall be in writing and shall contain all the information set forth in Attachment B accompanying this policy.

F. A person who operates a type III vehicle and who sustains a conviction as described in Subparagraph VII.C.1.g. (i.e., driving while impaired offenses), VII.C.1.h. VI. SCHOOL BUS DRIVER TRAINING

A. Training

1. All new school bus drivers shall be provided with pre-service training, including invehicle (actual driving) instruction, before transporting students and shall meet the competency testing specified in the Minnesota Department of Public Safety's

Minnesota Model School Bus Driver Training Program. All school bus drivers shall receive in-service training annually. For purposes of this section, "annually" means at least once every 380 days from the initial or previous evaluation and at least once every 380 days from the initial or previous license verification. The school district shall retain on file an annual individual school bus driver "evaluation certification" form for each school district driver as contained in the *Minnesota Model School Bus Driver Training Program*.

[NOTE: The *Minnesota Model School Bus Driver Training Program* is available online through the Minnesota Department of Public Safety State Patrol web page listed under Resources below.]

2. All bus drivers operating a type III vehicle will be provided with annual training and certification as set forth in Subparagraph VII.C.1.b., below, by either the school district or the entity from whom such services are contracted by the school district.

B. Evaluation

School bus drivers with a Class D license will be evaluated annually and all other bus drivers will be assessed periodically for the following competencies:

1. Safely operate the type of school bus the driver will be driving;

2. Understand student behavior, including issues relating to students with disabilities;

3. Ensure orderly conduct of students on the bus and handling incidents of misconduct appropriately;

4. Know and understand relevant laws, rules of the road, and local school bus safety policies;

5. Handle emergency situations; and

6. Safely load and unload students.

The evaluation must include completion of an individual "school bus driver evaluation form" (road test evaluation) as contained in the *Minnesota Model School Bus Driver Training Program*.

[NOTE: The school district may use alternative assessments rather than those set forth in the *Minnesota Model School Bus Driver Training Program* for bus driver training competencies with the approval of the Commissioner of Public Safety. A driver also may receive at least eight (8) hours of school bus in-service training in any year as an alternative to being assessed for bus driver competencies after the initial year of being assessed for bus driver competencies.]

VII. OPERATING RULES AND PROCEDURES

A. General Operating Rules

1. School buses shall be operated in accordance with state traffic and school bus safety laws and the procedures contained in the *Minnesota Model School Bus Driver Training Program*.

2. Only students assigned to the school bus by the school district shall be transported. The number of students or other authorized passengers transported in a school bus shall not be more than the legal capacity for the bus. No person shall be allowed to stand when the bus is in motion.

3. The parent/guardian may designate, pursuant to school district policy, a day care facility, respite care facility, the residence of a relative, or the residence of a person chosen by the parent or guardian as the address of the student for transportation purposes. The address must be in the attendance area of the assigned school and meet all other eligibility requirements.

4. Bus drivers must minimize, to the extent practical, the idling of school bus engines and exposure of children to diesel exhaust fumes.

5. To the extent practical, the school district will designate school bus loading/unloading zones at a sufficient distance from school air-intake systems to avoid diesel fumes from being drawn into the systems.

   [NOTE: A school district is not required to comply with Subparagraph VII.A.5. if the school board determines that alternative locations block traffic, impair student safety, or are not cost effective.]

6. A bus driver may not operate a school bus while communicating over, or otherwise operating, a cellular phone for personal reasons, whether hand-held or hands free, when the vehicle is in motion or a part of traffic. For purposes of this paragraph, "school bus" has the meaning given in Minnesota Statutes, section 169.011, subdivision 71. In addition, "school bus" also includes type III vehicles when driven by employees or agents of the school district. "Cellular phone" means a cellular, analog, wireless, or digital telephone capable of sending or receiving telephone or text messages without an access line for service.

B. Type III Vehicles

1. Type III vehicles are restricted to passenger cars, station wagons, vans, and buses having a maximum manufacturer's rated seating capacity of ten (10) or fewer people including the driver and a gross vehicle weight rating of 10,000 pounds or less. A van or bus converted to a seating capacity of ten (10) or fewer and placed in service on or after August 1, 1999, must have been originally manufactured to comply with the passenger safety standards.

2. Type III vehicles must be painted a color other than national school bus yellow.

3. Type III vehicles shall be state inspected in accordance with legal requirements.

4. Vehicles model year 2007 or older must not be used as type III vehicles to transport school children, except those vehicles that are manufactured to meet the structural requirements of federal motor vehicle safety standard 222, 49 Code of Federal Regulations, Part 571.

5. If a type III vehicle is school district owned, the school district name will be clearly marked on the side of the vehicle. The type III vehicle must not have the words "school bus" in any location on the exterior of the vehicle or in any interior location visible to a motorist.

6. A "type III vehicle" must not be outwardly equipped and identified as a type A, B, C, or D bus.

7. Eight-lamp warning systems and stop arms must not be installed or used on type III vehicles.

8. Type III vehicles must be equipped with mirrors as required by law.

9. Any type III vehicle may not stop traffic and may not load or unload before making a complete stop and disengaging gears by shifting into neutral or park. Any type III vehicle used to transport students must not load or unload so that a student has to cross the road, except where not possible or impractical, then the driver or

assistant must escort a student across the road. If the driver escorts the student across the road, then the motor must be stopped, the ignition key removed, the brakes set, and the vehicle otherwise rendered immobile.

10. Any type III vehicle used to transport students must carry emergency equipment including:

    a. Fire extinguisher

       A minimum of one (1) 10BC rated dry chemical type fire extinguisher is required. The extinguisher must be mounted in a bracket and must be located in the driver's compartment and be readily accessible to the driver and passengers. A pressure indicator is required and must be easily read without removing the extinguisher from its mounted position.

    b. First aid kit and body fluids cleanup kit

       A minimum of a 10-unit first aid kit and a body fluids cleanup kit is required. They must be contained in removable, moisture- and dust-proof containers mounted in an accessible place within the driver's compartment and must be marked to indicate their identity and location.

    c. Passenger cars and station wagons may carry a fire extinguisher, a first aid kit, and warning triangles in the trunk or trunk area of the vehicle if a label in the driver and front passenger area clearly indicates the location of these items.

11. Students will not be regularly transported in private vehicles that are not state inspected as type III vehicles. Only emergency, unscheduled transportation may be conducted in vehicles with a seating capacity of ten (10) or fewer without meeting the requirements for a type III vehicle. Also, parents may use a private vehicle to transport their own children under a contract with the district. The school district has no system of inspection for private vehicles.

12. All drivers of type III vehicles will be licensed drivers and will be familiar with the use of required emergency equipment. The school district will not knowingly allow a person to operate a type III vehicle if the person has been convicted of an offense that disqualifies the person from operating a school bus.

13. Type III vehicles will be equipped with child passenger restraints, and child passenger restraints will be utilized to the extent required by law.

C. Type III Vehicle Driven by Employees with a Driver's License Without a School Bus Endorsement

1. The holder of a Class A, B, C, or D driver's license, without a school bus endorsement, may operate a type III vehicle, described above, under the following conditions:

(b) refraining from loading and unloading students in a vehicular traffic lane, on the shoulder, in a designated turn lane, or a lane adjacent to a designated turn lane;

(c) avoiding a loading or unloading location that would require a student to cross a road, or ensuring that the driver or an aide personally escort the student across the road if it is not reasonably feasible to avoid such a location;

(d) placing the type III vehicle in "park" during loading and unloading;

(e) escorting a student across the road under clause (c) only after the motor is stopped, the ignition key is removed, the brakes are set, and the vehicle is otherwise rendered immobile; and

(9) compliance with Paragraph V.F. concerning reporting convictions to the employer within ten (10) days of the date of conviction.

h. A person who has ever been convicted of a disqualifying offense as defined in Minnesota Statutes, section 171.3215, subdivision 1(c), (i.e., felony, controlled substance, criminal sexual conduct offenses, or offenses for surreptitious observation, indecent exposure, use of minor in a sexual performance, or possession of child pornography or display of pornography to a minor) may not operate a type III vehicle.

i. A person who sustains a conviction, as defined under Minnesota Statutes, section 609.02, of a moving offense in violation of Minnesota Statutes, chapter 169 within three (3) years of the first of three (3) other moving offenses is precluded from operating a type III vehicle for one (1) year from the date of the last conviction.

j. Students riding the type III vehicle must have training required under Minnesota Statutes, section 123B.90, subdivision 2 (See Paragraph II.B., above).

k. Documentation of meeting the requirements listed in this section must be maintained under separate file at the business location for each type III vehicle operator. The school district or any other entity that owns, leases, or contracts for the type III vehicle operating under this section is responsible for maintaining these files for inspection.

2. The Type III vehicle must bear a current certificate of inspection issued under Minnesota Statutes, section 169.451.

3. An employee of the school district who is not employed for the sole purpose of operating a type III vehicle may, in the discretion of the school district, be exempt

from Subparagraphs VII.C.1.d. (physical examination) and VII.C.1.e. (drug testing), above.

D. Type A-I "Activity" Buses Driven by Employees with a Driver's License Without a School Bus Endorsement

Memo

To: Board of Education Members
From: Holly Anderson, Business Manager
CC: Jamie Frank, Superintendent
Date: 10/20/2026
Re: Renewal of Property and Liability Insurance and other Insurance(s)

On Monday, October 19, 2026, Jamie Frank and I met with Patrick Truax our insurance agent, to review the property and liability, automobile, and cybersecurity renewal. We did not go out to bid this year since we went for bids in 2024, and we normally go out to market every 2-3 years. Our renewal for 2026–2027 came in at $209,498.56, up from $195,789.83 last year, or approximately 7.0% higher (last year's increase was approximately 13.7%).

Things to note regarding this increase and renewal:

Property and Liability Insurance – We did not have any major changes to our coverage this year, other than the typical increases in building limits to account for inflation and increased construction costs. Our wind and hail deductibles remain at $75,000 for the Middle/High School and $50,000 for the Windom Elementary buildings. According to Pat, these are very favorable terms that other carriers cannot come close to matching, especially with our competitive rates.

Cybersecurity Insurance – Our current coverage is with CFC, and we are recommending switching to Cowbell for the 2026–2027 policy year. Insurance carriers are moving away from the $1.5 million coverage limit toward $2 million limits. The new coverage will provide a $2 million limit and reduce our retention (deductible) from $10,000 to $5,000.

We received quotes from three carriers with the following results:
Cowbell: $15,526.07 — $2 million limit / $5,000 retention
Coalition: $17,769.25 — $2 million limit / $5,000 retention
CFC: $18,238.08 — $2 million limit / $5,000 retention

Cowbell offered the most favorable terms and conditions at the lowest premium. Its annual premium is $1,182.90 higher than our previous CFC premium of $14,343.17, but it provides a higher coverage limit and a lower retention.

According to our insurance agent, Patrick, our property coverage terms, particularly the wind and hail deductibles, remain very favorable compared with what other carriers can offer. The cybersecurity quotes also provided an opportunity to improve our coverage while keeping the cost competitive.

It is my recommendation that we accept the 2026–2027 insurance renewal in the total amount of $209,498.56, which includes keeping our property and liability, automobile, umbrella insurance with EMC and switching our cybersecurity coverage from CFC to Cowbell.

As always, if you have any questions please let me know. Thank you.
