APRIL 2025

HOW LONG HAVE YOU BEEN AT PAEC?

I worked here for seven years, left for 10 and returned 14 years ago. So I have been back at PAEC for 14 years

WHAT DO YOU ENJOY ABOUT YOUR JOB/POSITION?

The best that I can explain this question would be that my passion has always been working with children with special needs. It has been what I wanted to do since I was a little girl, and I am very happy that I have been able to fulfill that dream with a career as a Special Education Teacher. Teaching children with special needs should not be any different than teaching children! If you treat the children with respect and set your expectations high, then you work with them to achieve the highest ability that they are able to achieve

WHAT ADVICE COULD YOU GIVE TO OTHERS IN YOUR POSITION TO HELP THEM EXCEL?

To always put yourself in their position. See things from their perspective. Think outside the box. Never underestimate what the student is able to do until you have worked on a task for a long time. Put the work in at the beginning and the progress will speak for itself. Things do not happen overnight with the special population, but if you set expectations for them and work towards them, progress will be seen. STOP enabling the students just because they have a special quality about them. Working with the students for their independence, sometimes the littlest thing that we take for granted can be a big task for them, but if you never allow them to achieve it, you will never know if they are capable of it. Treat the students with respect, talk to them, walk with them, guide them, model for them, do not treat them any less than you would want to be treated

TELL ME SOMETHING INTERESTING OR FUNNY ABOUT YOURSELF.

I met my husband in the Triton Troupers Circus 43 years ago when I performed as a circus acrobatic. I have been coaching gymnastics in a High School setting for 23 years. I have been volunteering for a special needs gymnastic/cheerleading team for 22 years. I performed at the World's Cheer Competition in Orlando, Florida representing the USA and yes I wore a Red, White, and Blue cheerleading uniform where we WON the Gold medal. I have two children, my son Robert who served in the Navy and coaches gymnastics, and my daughter Jacqueline who is a PE teacher and also coaches high school gymnastics. I love to spend money on plants and gardening. I love to take long road trips for vacation. I love spending time with my friends. I love my new Golden Retriever puppy, and I LOVE spending time with my one and only grandson Dominic who is my WORLD

PAEC EMPLOYEE SPOTLIGHT

Patrina Williamson

TEACHER
APRIL 2025

HOW LONG HAVE YOU BEEN AT PAEC?

I have been working at PAEC for 19 yrs. First as a Program Assistant, now I am a certified Teacher

WHAT DO YOU ENJOY ABOUT YOUR JOB/POSITION?

I love working with young children because they are the ones who most need adults who believe in them—until they learn to believe in themselves. I am passionate about supporting both children and their families, helping to bridge the gap between home and school. By creating strong, consistent connections, I aim to set students up for long-term success both academically and personally.

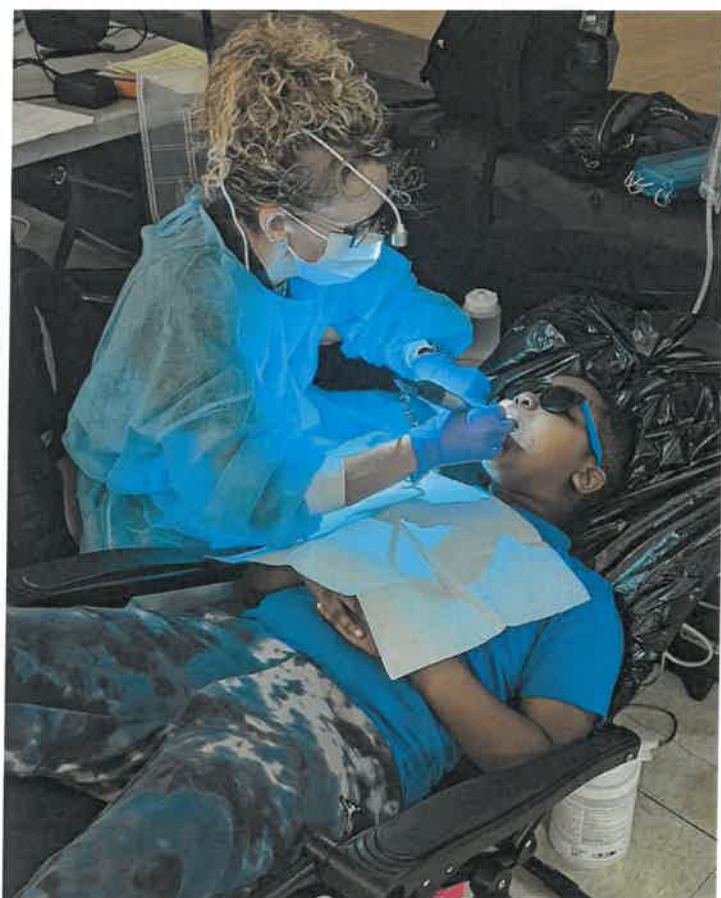

WHAT ADVICE COULD YOU GIVE TO OTHERS IN YOUR POSITION TO HELP THEM EXCEL?

Stay humble, because even the best lesson plan can always be refined and improved. To truly excel, it's essential to know how to lead, and just as importantly, how to follow. I've learned that strong, effective leadership in the classroom sets a positive tone for the entire team. At the same time, I fully recognize that teaching is never a one-person job. I'm incredibly fortunate to work alongside Ms. Claudia, the most amazing assistant any teacher could ask for. Our partnership thrives on mutual respect and a shared belief that all children can learn. I would never ask her to do something I wouldn't do myself. While I know my role, I also believe that being hands-on and engaged with students in every capacity helps us better understand and support students' individual needs. True success in the classroom comes from flexibility, a commitment to going the extra mile, and open, consistent communication with both staff and families to build a positive, collaborative learning environment. Talk to the student, not at them as we respect them!

TELL ME SOMETHING INTERESTING OR FUNNY ABOUT YOURSELF.

When I'm teaching, I'll do everything short of standing on my head to capture my students' attention—and if that's what it takes, I just might try it! My path to the classroom has been anything but traditional. As a teenager, I worked as a plus-size model. Later, I pursued cosmetology and built a career as a hairstylist. I also explored my creative side as a party and event planner, designing unforgettable experiences and beautiful decor. Eventually, I followed a calling I couldn't ignore and returned to school to study education. Through every twist and turn, I gained skills that now serve me in the classroom—and I've finally arrived at what I was born to do. I truly believe that teachers are born to teach!

Everyone is finishing up testing DLM, FAST, SANDI, and Fastbridge.

It has been a busy month!

PAEC Center School Vocational/Transition Program

We currently have 3 students employed competitively. Unemployed students are directed to apply for competitive employment online, in person, or through direct contact with employers. These students are monitored by Vocational Coordinator or Transition Staff via in-person, one-on-one meets, emails, and/or text messaging. When students apply for competitive employment on their own, they are instructed to send me screenshots of completed applications. We also keep records of applications, students complete with me and/or the staff.

Students who are currently employed are on the chart below:

	Employment	Hours	Job
1	Jewel	20 hours	Bagger/Stocker
2	Goodwill	15-20 hours per week	Store Clerk
3	Jewel	Part Time	Bagger

Students volunteer for 6 volunteer job sites this 2024-25 school year, where students are being trained on job skills that will increase their job readiness skills. We are still looking to increase the number of sites we have, with a hopeful increase in staff.

We are training our Transition students to complete job tasks, answer mock interview questions, complete mock job applications, and more. I set up individual meetings with these students. We are practicing mock interviews and completing mock applications. Ensuring ID's have not expired, or get renewed in a timely manner. Students are completing live applications, which we are currently waiting to hear from employers as well as contacting employers to follow up on our applications.

We are working hard to obtain competitive employment for our students. We have had some interviews and have been unsuccessful in obtaining employment. We are continuing to interview and follow up with employers to get our students hired.

Hi,

Please share this with your staff Vanessa Schmidt.

My name is Lynette Carr. I work at Starship. I have 2 grandsons that attend the school in Westchester. I had to kind fight to get them both transferred to the PAEC program. It was the best fight I ever one. My daughter is a single mom, and I help her with her kids. Their names are Markese Johnson and James Carr. When James was in the regular schools, I feel that they were just passing him to pass him. Since he has been placed in this program, he comes home and does his homework, reads, writes, and does math. Markese still needs some tough love at home to get him to do any of that. He can be a little bit of a handful. That is on us. I just wanted to let you know that what your faculty is doing for kids with disabilities is amazing. What a difference a school makes. Please keep up the good work with all the kids. I am sure you hear bad reports from people, and thought it was time you hear a happy report.

Thank you again for all you and your staff do to help kids with disabilities.
