CNSC Key Highlights – Replacement ES #5

34

- **Aging facilities and equitable facility concerns** drive strong interest in addressing aging elementary campuses and ensuring all students learn in safe, modern environments.

- **Educational quality and long-term district sustainability** were cited as important reasons to consider a replacement campus.

- **Significant concern exists about timing and readiness**, with members noting pending demographics data, enrollment trends, and grade-configuration decisions.

- **Underutilized campuses and consolidation options** were repeatedly referenced as issues that should be addressed before committing to new construction.

- **Transparency and continuing to build community trust** were emphasized, including the need for clear communication to avoid confusion or concern about closures and boundary changes.

- **Mixed views on bond inclusion**: some favored including the project now to reflect true needs, while others recommended additional specificity—or deferral—to ensure credibility with voters.

The Curriculum Management Audit

An independent, external analysis:

- of the design and delivery of a school system's curriculum in attaining desired results,
- within the context and cost parameters in which it must function,
- that reports findings and proposed recommendations, and is
- performed by trained auditors.

The Audit's Scope

Centered on curriculum and instruction

Any aspect of operations of a school system that enhances or hinders its design and/or delivery

Intensive, focused, "layered" look at how well a school system has been able to:

Design

1. Is it there?
2. Is it any good?

Delivery

3. Is it being used?
4. Does it make a difference?

Final Report

The final report is an exception report that includes:

- Explanation of audit process and procedures
- Significant findings that have been triangulated and documented
- Recommendations of actions steps to be undertaken to ameliorate the findings
- Executive Summary of the report

Findings

- A description of the existing state, negative or positive, between the condition at the time of the audit and its comparison with one of the five focus areas.
- For AISD there are 17 Findings

Recommendations

- Audit teams' best advice for addressing the gaps and issues in findings.
- The six recommendations are not a "quick fix." There are no magic programs or tools—just hard work focused on putting systems in place aimed at improving student learning.
- Suggested timeline: 4-8 years to put in place; longer to *institutionalize*.

Recommendations Include

- Written statement of a proposed system action to resolve/ameliorate the findings to meet the audit standards
- Proposed action steps for the School Board
- Proposed action steps and explanation of the major steps for the Superintendent or designee
- Proposed timeline for the actions

Part 2 : Findings

Arlington ISD Strengths

- Dedicated, Student-Centered Employees
- Leadership Pathways at All Levels
- Multiple Opportunities for Students
- Committed, Visionary Leadership Team
- Value of Student Diversity
- Supportive Community

Focus Area One:

District Vision and Accountability:
The school system is able to demonstrate control of resources, programs, and personnel.

Strengths: Strong planning foundation, quality district planning

©2025 CMSi

Focus Area One Findings

Finding 1.1: The district's **policies** and administrative **procedures** collectively do not provide adequate control for curriculum management functions. (p. 8)

Focus Area One Findings

Finding 1.2: Arlington ISD's current **organizational structure** does not support the efficient and effective deployment of human resources for attaining the district's vision and goals. The organizational structure is incomplete. **Job descriptions** utilize a strong common template, but some individual job descriptions are missing key components. (p. 27)

Focus Area One Findings

Finding 1.3: The district's long-range strategic **plan** and district improvement plans provide quality guidance to direct improved student achievement; however, **campus plans** are of limited quality and are **not tightly aligned** to the district plans. District leadership has determined prior plans (strategic plan) and planning processes are not aligned with the desired direction and practice and are actively developing an early replacement for the current strategic plan. (p. 36)

Focus Area Two:

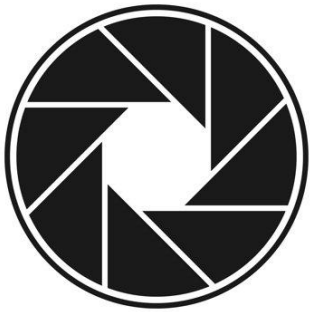
Curriculum:

The school system has established clear and valid objectives for students.

Strength: Quality curriculum

©2025 CMSi

What Curriculum Must Do in Schools



Focus: Identify what is essential.

Connect: Reinforce complex learning leading to mastery within and across grade levels and schools.

Ensure Consistency: Deliver high-level learning for each student.

©2025 CMSi

Focus Area Two Findings

Finding 2.1: The district has not developed and documented a **comprehensive curriculum management plan** that supports quality instruction for all content areas. (p. 56)

Focus Area Two Findings

Finding 2.2: The district has established adequate **curriculum** guidance (scope) for core and non-core areas; however, it has not provided differentiated guidance for advanced or adapted versions of core offerings. (p. 63)

Focus Area Two Findings

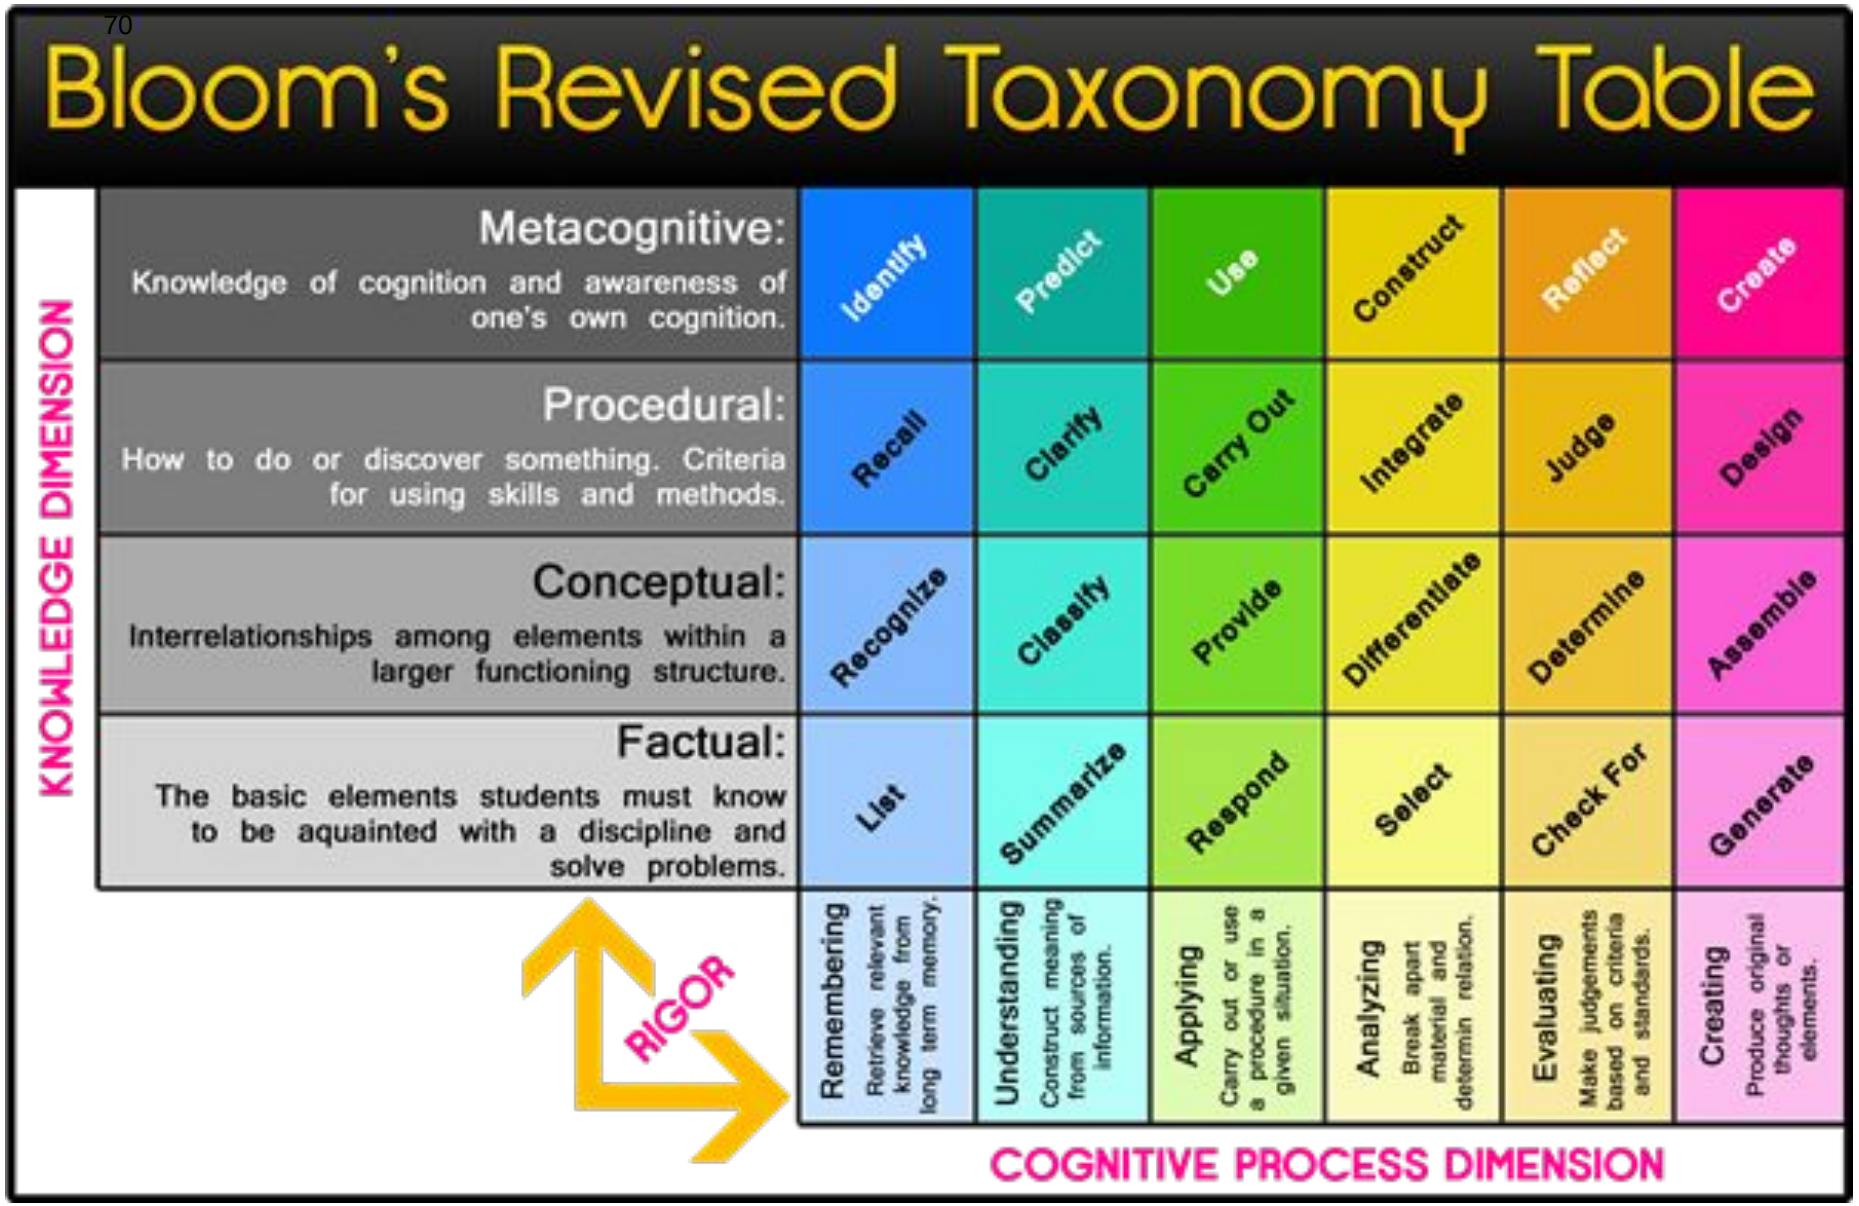
Finding 2.3: The district has developed **quality curriculum** guidance in most core areas; however, there is limited guidance is provided for non-core subjects. (p. 68)

Focus Area Two Findings

Finding 2.4: The **alignment** of student activities, recommended by district curriculum documents, to TEKS **content** and **cognitive** demand is **inconsistent**, with many resources not meeting the cognitive expectations of state standards. (p. 85)

70

Bloom's Revised Taxonomy Table



Focus Area Three

Consistency:

The school system demonstrates internal connectivity, rational equality, and equity in its program development and implementation.

Strengths: High-quality specialty programs; research based bilingual programming

©2025 CMSi

Focus Area Three Findings (Is it being used?)

Finding 3.1: District leaders have not established consistent expectations for **instructional activities**. Classroom observations revealed a teacher-centered approach to instruction, primarily consisting of low-level cognitive demand activities. Additionally, observed classroom activities showed a deficiency in **differentiation** practices and commonly accepted effective instructional practices known to positively impact student learning. (p. 92)

Focus Area Three Findings

Finding 3.2: Most **student artifacts** were on grade level, but 39% were not fully aligned to state standards and are considered content mismatches. Artifacts in elementary classrooms were of lower cognitive **rigor** than artifacts in secondary classrooms. Most artifacts in all grade spans were of less engaging **contexts**, and some resources used were not representative of the diversity of the student population. (p. 118)

Focus Area Three Findings

Finding 3.3: Efforts to improve instruction are hindered by the absence of comprehensive **professional development planning** and a coordinated system for **monitoring** instructional practices. (p. 133)

Focus Area Three Findings

Finding 3.4: Design and delivery of services for **English Learners** are inadequate to promote maximum English language acquisition and academic success. (p. 151)

76

Focus Area Four:

Feedback:

The school system uses the results from system-designed and/or adopted assessments to adjust, improve, or terminate ineffective practices or programs.

Strength: Majority of core classes have corresponding assessments

©2025 CMSi

Focus Area Four Findings

Finding 4.1:District leaders have not developed or implemented a **written assessment plan** to guide and support improved student learning through the development and use of formative and summative data as feedback for improvement. (p. 172)

Focus Area Four Findings

Finding 4.2: The **scope** of the student assessment program does not provide consistent and reliable feedback to monitor student learning and inform decision making at the classroom, school, and district levels. An analysis of sample items from curriculum assessments revealed consistent alignment to the state standards in **content**, but not in **context** and/or **cognitive level**. (p. 177)

Focus Area Four Findings

Finding 4.3: The use of **assessment data** to guide **instructional decisions** varies across the district and is constrained by the limited scope of existing assessments. While student data are reviewed, a consistent, district-wide system for using and applying formative and summative assessment results to improve student learning has not been fully implemented in all classrooms. (p. 196)

Focus Area Four Findings

Finding 4.4: **Assessment trends** show performance below state averages in most areas of the STAAR exams; however, Arlington ISD scores are consistent with the performance of districts serving similar student populations. (p. 204)

NOTE: Auditors selected the following Texas school districts for comparison purposes: El Paso ISD, Fort Worth ISD, Garland ISD, Pasadena ISD

Focus Area Five

Productivity:

The school system has improved productivity with the same or diminishing resources.

Strengths: Strong financial position; World-class, specialty facilities

Focus Area Five Findings

- Finding 5.1: The district **budget** development process **does not include data on the effectiveness** of its programs, innovations, or practices—nor does it meet other essential criteria for performance-based budgeting, all of which are critical to accomplishing the district's priorities. (p. 222)

- Finding 5.2: District leaders have not developed **long-range plans for technology** or **facilities** to efficiently and effectively manage these resources to support learning. (p. 231)

REPORTS:

A. Discuss the Future Use of Blanton Elementary School

Deputy Superintendent Dr. Jennifer Collins led a presentation to the Board regarding the future use of Blanton Elementary School. Following the completion of a Facilities Condition Assessment in fall 2025, the majority of Blanton Elementary School was identified as needing significant repair. In addition, the campus has experienced declining enrollment and is underperforming compared to peer schools across the state. Based on this information, the administrative team recommends considering the closure of Blanton Elementary School as an elementary campus and repurposing the original building for another Arlington ISD use. The district will launch a website that includes more information about the condition of the building, enrollment trends, and a form for employee-specific questions. Superintendent Smith also presented a timeline outlining how the administration arrived at this recommendation. Over the next two weeks, staff plan to meet with the Blanton Elementary School community to gather feedback. A community meeting will be held on Wednesday, January 14 at Blanton Elementary School. Staff will review students enrolled in special programs on an individual

basis to determine their specific needs and the most appropriate placement. The district will partner closely with families to ensure each student's needs are met to include transportation needs. The Let's Talk web-based platform will be utilized for any families with questions or concerns to address administration. The deadline to report a final decision for campus closure to the Texas Education Agency (TEA) is January 31. Trustees participated in the discussion and offered feedback to staff on expectations for future meetings to ensure continued dialogue and a strong partnership with families.

RECESS

President Chapa adjourned the meeting at 10:06 p.m. for a brief recess. The meeting was reconvened at 10:17 p.m. with 7 trustees in attendance.

Jarchow highlighted key discipline data, behavior support initiative. Chief Operations Officer shared that the district is seeing measurable improvements in discipline and safety, investing heavily in teacher support and behavior systems, and building aligned, sustainable practices to ensure safe, positive learning environments that ultimately support stronger academic outcomes.

D. Strategic Plan Update Report

Deputy Superintendent Dr. Jennifer Collins provided an update on the development of the district's five-year strategic plan, which began in January of last year with board workshops facilitated by external consultants and has since been refined through district-led efforts. The strategic plan serves as the foundation of the district's improvement planning process, aligning values and beliefs, district priorities, and long-term vision with annual district and campus improvement plans and key progress measures. The plan emphasizes continuous improvement through regular monitoring and adjustments.

The strategic plan centers on five focus areas: Academic Growth; Culture; Safety and Discipline; Marketing and Engagement; and Talent and Resources. Key goals include strengthening student learning and workforce readiness, enhancing the student and employee experience, maintaining safe and supportive learning environments, increasing family and community engagement, and achieving long-term financial stability supported by a fully certified and sustainable workforce. Clear metrics are being developed to measure progress over the next five years, and district leadership is seeking feedback from trustees and the community to ensure the plan reflects shared priorities and clearly defines success.

RE: RFP 26-08 Addendum 1 (Frozen/Refrigerated/Dry-Commodity)

Request for Proposal **26-08** is an annual contract for frozen/refrigerated/dry commodity processing. The proposal asked for pricing on commodity and commercial products. Vendors were allowed to submit alternate products not listed in the RFP. Commercial products will only be ordered when commodity products are not available for the menu cycle. In addition to the line items, the proposal asked for a discount from the vendor's catalog, price list or shelf price. This will allow the District to purchase items which are not identified at this time. Alternate products will be ordered if a need arises for those products.

It is recommended that the low proposals meeting specifications be awarded for each commodity, and that all vendors meeting specifications, submitting catalog bids be approved.

This RFP is for Classroom & Office Furniture pertaining to Arlington ISD Transportation and Security Facility -New Construction and Career & Technical Renovation, as well as smaller bond projects for 2025-2027

Meeting Agenda Item: Approval of Donations

District Priority / Goals Addressed

Within the Board's priority of Talent and Resources, this agenda item requests Board approval for various donations made to the district.

Background

Throughout the year community members, businesses, and organizations generously contribute resources and financial support to our schools. These donations range from monetary contributions to supplies, equipment, and services. Each donation is vetted through a process to ensure the donation aligns with district goals and compliance with all district policies and procedures. According to Board Policy CDC (Local), any gift that the potential donor has expressly made conditional upon the district's use for a specified purpose, or any gift of real property, shall require board approval.

Fiscal Implications

The approval of these donations will impact the district's budget by reducing the need for district funds to cover specific costs and providing additional resources.

Recommendation

It is recommended that the Board approve the acceptance of the donations as outlined in the supporting documentation.

Report on Compliance for Each Major Federal Program

Opinion On Each Major Program

We have audited Arlington Independent School District's (the "District") compliance with the types of compliance requirements identified as subject to audit in the OMB *Compliance Supplement* that could have a direct and material effect on each of the District's major federal programs for the year ended June 30, 2025. The District's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

In our opinion, the District's complied, in all material respects, with the compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2025.

Basis for Opinion on Each Major Federal Program

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America (GAAS); the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States (*Government Auditing Standards*); and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Our responsibilities under those standards and the Uniform Guidance are further described in the Auditor's Responsibilities for the Audit of Compliance section of our report.

We are required to be independent of the District and to meet our other ethical responsibilities, in accordance with relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on compliance for each major federal program. Our audit does not provide a legal determination of the District's compliance with the compliance requirements referred to above.

Responsibilities of Management for Compliance

Management is responsible for compliance with the requirements referred to above and for the design, implementation, and maintenance of effective internal control over compliance with the requirements of laws, statutes, regulations, rules and provisions of contracts or grant agreements applicable to the District's federal programs.

Auditor's Responsibilities for the Audit of Compliance

Our objectives are to obtain reasonable assurance about whether material noncompliance with the compliance requirements referred to above occurred, whether due to fraud or error, and express an opinion on the District's compliance based on our audit. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS, *Government Auditing Standards*, and the Uniform Guidance will always detect material noncompliance when it exists. The risk of not detecting material noncompliance resulting from fraud is higher than for that resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Noncompliance with the compliance requirements referred to above is considered material, if there is a substantial likelihood that, individually or in the aggregate, it would influence the judgment made by a reasonable user of the report on compliance about the District's compliance with the requirements of each major federal program as a whole.

In performing an audit in accordance with GAAS, *Government Auditing Standards*, and the Uniform Guidance, we

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material noncompliance, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the District's compliance with the compliance requirements referred to above and performing such other procedures as we considered necessary in the circumstances.
- obtain an understanding of the District's internal control over compliance relevant to the audit in order to design audit procedures that are appropriate in the circumstances and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control over compliance. Accordingly, no such opinion is expressed.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and any significant deficiencies and material weaknesses in internal control over compliance that we identified during the audit.

Report on Internal Control Over Compliance

A *deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the Auditor's Responsibilities for the Audit of Compliance section above and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies in internal control over compliance. Given these limitations, during our audit we did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above. However, material weaknesses or significant deficiencies in internal control over compliance may exist that were not identified.

Our audit was not designed for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, no such opinion is expressed.

01-02-2026

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the *Uniform Guidance*. Accordingly, this report is not suitable for any other purpose.

Report on Schedule of Expenditures of Federal Awards Required by the *Uniform Guidance*

We have audited the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the District as of and for the year ended June 30, 2025, and the related notes to the financial statements, which collectively comprise the District's basic financial statements. We issued our report thereon dated November 20, 2025, which contained unmodified opinions on those financial statements. Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the basic financial statements. The accompanying schedule of expenditures of federal awards is presented for purposes of additional analysis as required by the Uniform Guidance and is not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the schedule of expenditures of federal awards is fairly stated in all material respects in relation to the basic financial statements as a whole.

NOTES TO SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS

Note 1 - Basis of Presentation

The accompanying schedule of expenditures of federal awards (the "Schedule) includes the federal award activity of the District under programs of the federal government for the year ended June 30, 2025. The information in this Schedule is presented in accordance with the requirements of Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Because the Schedule presents only a selected portion of the operations of the District, it is not intended to and does not present the financial position, changes in net position, or cash flows of the District.

Note 2 - Summary of Significant Accounting Policies

The District accounts for all awards under federal programs in the General and Certain Special Revenue Funds in accordance with the Texas Education Agency's *Financial Accountability System Resource Guide.* These programs are accounted for using a current financial resources measurement focus.

The modified accrual basis of accounting is used for the General and Special Revenue funds. This basis of accounting recognizes revenues in the accounting period in which they become susceptible to accrual, i.e., both measurable and available, and expenditures in the accounting period in which the liability is incurred, if measurable, except for certain compensated absences and claims and judgments, which are recognized when the obligations are expected to be liquidated with expendable available financial resources.

Federal grant revenues are earned to the extent of expenditures made under the provisions of the grant, and, accordingly, when such amounts are received, they are recorded as unearned revenues until earned. Generally, unused balances are returned to the grantor at the close of specified project periods. The District has elected not to use the 10-percent de minimis indirect cost rate allowed under the Uniform Guidance.

Note 3 - Reconciliation of Basic Financial Statements

The following is a reconciliation of expenditures of federal awards program per the Schedule of Expenditures of Federal Awards and expenditures reported in the financial statements as follows:

Total shown on Schedule of Expenditures of Federal Awards	$	86,986,338
Medicaid SHARS in the General Fund		2,259,409
ERATE in the General Fund		418,601

PROHIBITED ACTIVITIES BY ADMINISTRATORS (H.B. No. 3372)
TEXAS EDUCATION CODE SUBCHAPTER A, CHAPTER 11, SECTION 11.006
(ATTACH ADDITIONAL SHEETS IF NEEDED FOR RESPONSES)

Administrator (Requestor) Name: Jessica Mays

Job Title: Technology Integration and Innovation Coordinator

Company/Entity the Administrator seeks to contract with and types of personal services provided:
Texas Computer Education Association (TCEA) -- This is a nonprofit professional education association. Service is provided as an elected, unpaid, volunteer member of the Board of Directors, including governance, strategic planning, policy review, and committee work.

Is this Company or Entity an education business that provides services regarding curriculum or administration of any school district? ☒ Yes ☐ No
TCEA is a nonprofit professional association. Arlington ISD sends staff members to the annual learning conferences and has purchased materials from the organization. In my role as a member of the Board of Directors for TCEA and as a staff member of Arlington ISD**,** I am not involved in any decisions related to Arlington ISD's purchasing, contracting, vendor selection, or approval of services or materials from TCEA. I do not influence or authorize the use of TCEA products or services on behalf of the district, nor do I receive any personal financial benefit from Arlington ISD's participation in TCEA events or purchases.

Is the organization another school district, open-enrollment charter school, or regional educational service center? ☐ Yes ☒ No

Is this a Non-Education Company or Entity that conducts or solicits business with our school district/AISD? ☐ Yes ☒ No
(If yes, an AISD administrator is prohibited from receiving financial benefit for the performance of personal services)

Type/Full description of personal services to be performed by you:
Service as an elected member of the TCEA Board of Directors. Responsibilities include attending board meetings, participating in committee work, reviewing and recommending policy updates, supporting organizational governance, and contributing to strategic direction of the association. No consulting, sales, procurement, or district-specific services are provided.

Explain how this contract will not harm the Arlington ISD:

This service is voluntary and does not compete with or detract from Arlington ISD interests. Participation supports professional growth, statewide collaboration, and

awareness of emerging trends in educational technology, which may indirectly benefit Arlington ISD through improved leadership capacity and informed decision-making. No Arlington ISD resources, funds, or materials are used. Time away from the office does not interfere with my assigned work duties and has been discussed and approved by my supervisor.

Board meetings generally occur on weekends, with occasional workdays impacted, not to exceed four days per year. Any personal leave taken in service of TCEA is approved in advance. If my supervisor determines that a conflict exists at any time, I will prioritize my Arlington ISD responsibilities and remain at work rather than participate in TCEA Board activities. This arrangement does not reduce the level or quality of service provided to Arlington ISD and does not create an actual or perceived conflict of interest.

Explain how this contract does not present a conflict of interest with your work for Arlington ISD/or Arlington ISD:

The role is non-compensated and does not involve decision-making related to Arlington ISD purchasing, contracts, or vendor selection. I do not represent Arlington ISD in any official capacity through TCEA, nor do I advocate for or influence Arlington ISD business decisions as part of my Board service.

This role is volunteer-based. Any travel, lodging, or expenses associated with Board service are handled directly by TCEA and do not involve Arlington ISD funds, resources, or reimbursement. I do not participate in any purchasing decisions that impact Arlington ISD, and my service does not provide personal, professional, or financial gain connected to Arlington ISD business. If a potential or perceived conflict were identified, I would recuse myself and defer to my Arlington ISD responsibilities.

As such, this role does not present an actual or perceived conflict of interest with my employment at Arlington ISD.

Will you perform the services entirely on your own personal time? Yes. Services are primarily performed on my personal time. Board meetings generally occur on weekends, with occasional workdays impacted, not to exceed four days per year. Any time away from work is approved in advance by my supervisor. If my supervisor determines that a conflict exists, I will prioritize my Arlington ISD responsibilities and remain at work. No Arlington ISD time or resources are used.

Please attach a copy of the contract to this form, if one exists, and submit this completed form with the contract to your supervisor for additional signature and submission to the "Chief" (cabinet member) responsible for your department.
