Superintendent's Report
Denali Borough School District
Thursday, August 20th, 2026

Appreciations/Congratulations

Welcome back to all of the Denali Borough School District Staff! We are in the final stages of preparing for the return of staff and students (New staff on August 18th, returning staff on August 19th). We have two days of inservice Denali Learning excitement prepared by Learning and Curriculum Director, Karen Martin followed by Friday's day of "Administrivia" to give staff and administrators some updates and procedures and providing time for the schools to meet with their school units. It has been an interesting start to the year with changes in staffing and learning as much as I can about the Denali processes.

I have to give a shout out to everyone that has made my transition to this position as smooth as possible. The district office staff has been stellar and very welcoming to me and has really shown that it is a hard working and cohesive unit. I appreciate all of the help that I have received and each and every person has been open and willing to help me learn and been willing to answer all of my questions!!!

Finances

We are waiting on the final decision about the legislative one-time funding (\$630,000) that is dependent on oil prices and we expect a report on the funding by the end of August. This one-time funding will allow the district to have a clearer budget picture for the FY27 school year. The DBSD audit will take place later this fall and the Business Department is in preparation mode after closing the FY26 school year finances. Adjustments for significant under utilized or overages will be reviewed at the next budget adjustment and will be watched during the FY27 year.

Facilities

The Generator at the Tri-Valley School was started up and running the school this past week! Further load testing will come in the next couple of weeks. The generator is running efficiently and we are looking forward to the successful completion of the CIP project.

The Tri-Valley School Septic project is in the final agreement stages and if you haven't looked out at the field it is both extremely level and grass has been growing nicely on the outfield!! Both projects have been successful this summer and a round of applause goes to Curtis and the DBSD Maintenance staff around the district for all of the hard work that they have put in at each site and the CIP projects.

The possibility of funding generators at Anderson and Cantwell is still active and we have received notice that if oil prices remain at a high average through the end of December the additional CIP project for DBSD will be approved and funded.
(December 31, 2026)

Strategic Planning

The district has signed a contract with the Alaska Council of School Administrators (ACSA) to start the process of updating the Denali Borough School District's Strategic Plan for 2027-2032. This will be an ongoing project during the 2026-2027 school year, with the development of the plan to take place in stages over the winter of 2026 and the spring of 2027 for complete roll-out to start the 2027-2028 school year.

During 2026-2027 we will continue to use and update the current DBSD Strategic Plan and Denali Learning.
