BOARD POLICY

815.1 Artificial Intelligence

POLICY NUMBER	VERSION	DOCUMENT STATUS	PRINTED
815.1	v2.2	DRAFT	10/19/2026

■ Proposed addition
 ■ Proposed deletion

Purpose

The district recognizes the potential that Generative Artificial Intelligence (Generative AI) offers in enhancing educational opportunities, streamlining operations and preparing students for a future that demands adaptability, critical thinking and digital literacy. When incorporated and used in a responsible and ethical manner, AI can support a dynamic working and learning experience.

This policy addresses guidelines for the proper management and responsible use of AI in the district's educational environment. By establishing clear guidelines and procedures, this policy aims to promote transparency and accountability, while fostering a safe learning and working environment.

Authority

The Board directs that the use of AI in the educational environment shall be limited to approved educational purposes and shall comply with applicable state and federal laws, regulations, Board policies, administrative regulations and school rules including, but not limited to, the Family Educational Rights and Privacy Act (FERPA), the Individuals with Disabilities Education Act (IDEA), the Americans with Disabilities Act (ADA), the Children's Internet Protection Act (CIPA), the Children's Online Privacy Protection Act (COPPA), as well as Board policies related to acceptable use of computers and network resources, student and staff conduct, copyright protections, student records, personnel records, bullying and cyberbullying, nondiscrimination and harassment, data security and staff and student expression.[\[1\]](#)[\[2\]](#)[\[3\]](#)[\[4\]](#)[\[5\]](#)[\[6\]](#)[\[7\]](#)[\[8\]](#)[\[9\]](#)[\[10\]](#)[\[11\]](#)[\[12\]](#)[\[13\]](#)[\[14\]](#)[\[15\]](#)[\[16\]](#)[\[17\]](#)[\[18\]](#)[\[19\]](#)[\[20\]](#)[\[21\]](#)[\[22\]](#)[\[23\]](#)[\[24\]](#)[\[25\]](#)[\[26\]](#)[\[27\]](#)

The availability of access to AI tools and resources by students and staff does not imply endorsement by the district of the Generative AI tool or resource, nor does the district guarantee the accuracy of the information received from AI tools or resources. The district shall not be responsible for any information that may be lost, damaged or unavailable when using an AI tool or resource.

The district shall not be responsible for the dissemination, replication or alteration of information or data input by any student or staff into any AI tool or resource. Nothing in this policy is intended to limit the district's obligations under applicable law or regulations.

The district shall not be responsible for any unauthorized charges or fees resulting from access or use of AI tools or resources.

Definitions

Artificial Intelligence (AI) – computer systems and algorithms that mimic human cognitive functions, such as learning, reasoning, problem-solving, and making decisions. AI encompasses a broad spectrum of techniques and methodologies, including machine learning, natural language processing, computer vision, and robotics, aimed at creating intelligent systems capable of performing tasks autonomously or with minimal human intervention.

AI literacy – the ability to understand, use and interact with AI systems effectively, efficiently and responsibly.

Delegation of Responsibility

The Superintendent shall develop procedures to implement this policy, and may delegate to his/her designee(s) the right to enforce the policy.

Guidelines

Instruction on AI Tools

Staff

The district shall provide staff with professional development addressing the ethical, effective, safe, and appropriate integration of AI to enhance teaching and learning. The training should equip educators, administrators, and staff with the knowledge and skills necessary to integrate AI tools into their roles in the District while also addressing data privacy, legal compliance, and ethical considerations.

Students

The Board directs that students at all grade levels receive age-appropriate instruction on the proper use of AI tools, encompassing fundamental principles such as the necessity of proper human supervision, critical thinking, and skepticism regarding accuracy. Such instruction should aim to empower students with the knowledge and skills needed to navigate the increasingly prevalent presence of AI technologies in their academic and personal lives. By fostering a culture of responsible and informed use, students will be better equipped to navigate AI tools effectively while understanding their limitations and ethical implications.

Ethical Considerations

The district shall prioritize the educational value in the use of AI tools and resources and will take measures to mitigate associated risks. The district shall only authorize AI systems and platforms appropriately equipped for preventing breach of personally identifiable information and addressing the district's prohibitions against discrimination, harassment, bullying, bias and access to sexually explicit materials, or those which are harmful to minors or prohibited by Board policy. [\[8\]](#) [\[9\]](#) [\[10\]](#) [\[20\]](#) [\[25\]](#)

The district's technology protection measures shall be enforced during use of AI on district computers and network resources. [\[25\]](#)

The district shall provide additional training, when needed, and address accessibility needs to provide equitable access to AI tools and resources for students and staff including, but not limited to, individuals with disabilities and English Learner students. [\[8\]](#) [\[9\]](#) [\[10\]](#) [\[11\]](#) [\[36\]](#)

The district prohibits the use of AI in making decisions regarding budgeting, payroll, financial or population forecasting, HR analytics, and similar operational tasks. [\[10\]](#)

While AI tools may be used to assist in operational and HR processes the Board directs that final decision-making regarding employee evaluations, promotions, hiring and operational decisions be human decisions and not solely by AI technology to ensure fairness, equity, and compliance with anti-discrimination.

The district prohibits the use of AI in making final determinations on student assessments and evaluations. Teachers shall ensure that personally identifiable student records are kept secure when using such grading technology. [\[8\]](#) [\[9\]](#) [\[11\]](#) [\[14\]](#) [\[37\]](#) [\[38\]](#)

FERPA Compliance

All teachers, administrators, and staff are required to adhere strictly to ~~e~~ the regulations outlined in the Family Educational Rights and Privacy Act (FERPA) when utilizing any AI resources.

The District prohibits the use of the personally identifiable information of students while using AI websites, tools, or applications that have not been preapproved by the Director of Technology or his/her designee. The Director of Technology shall establish a process by which teachers and administrators can request the approval of new AI resources. The vetting process shall include a review of the tool's privacy policy, data handling practices, and compliance with FERPA. The Director of Technology or designee shall maintain a list of all such approved resources.

Academic Honesty

The Board recognizes the capacity of AI to complete many student assignments. In doing so, AI has the potential to upend traditional academic honesty and plagiarism standards.

It is the responsibility of all teachers to provide advanced notice of the level of AI use permitted on a particular assignment or project. Generally, when AI is permitted, the student must disclose how they used AI on the assignment, assessment, task, or project.

Having received such notice from a teacher, any student who violates these standards is subject to discipline including detention, suspension, or expulsion depending on the nature of the violation.

The Board permits the use of AI detection tools as an aid to identify potential academic integrity issues, but prohibits reliance on results from AI detection tools as the sole determination of academic integrity.

Acceptable Use

All students and employees shall comply with the District's Policy on the Acceptable Use of District Technology when using AI tools on school district technology. Violations of the District's Acceptable Use Policy may result in disciplinary action against the student or employee.

Student use of AI tools while using District technology or engaged in District activities is also governed by the Student Code of Conduct, which is hereby incorporated by reference.

Consequences for Inappropriate Use

Failure to comply with this policy or district rules regarding appropriate use of AI including, but not limited to, acceptable use of computer and network resources, shall result in usage restrictions, loss of access privileges, disciplinary action and/or referral to legal authorities. [\[12\]](#) [\[16\]](#) [\[21\]](#) [\[25\]](#) [\[40\]](#)

Students and staff must immediately report any violations or suspicious activity to the building principal or designee.

Illegal use of AI; intentional modification without permission or damage to files or data belonging to others; copyright violations; and theft of services shall be reported to the appropriate legal authorities for possible prosecution and is subject to disciplinary action up to and including termination.

This policy shall also apply to student conduct that occurs off school property or during nonschool hours to the same extent as provided in Board policy on student discipline. [\[12\]](#) [\[16\]](#) [\[25\]](#) [\[40\]](#)

BOARD POLICY

815.1 Social Media

POLICY NUMBER	ADOPTED	VERSION	DOCUMENT STATUS
815.1	3/11/2019	v1	ACTIVE
PRINTED			
10/5/2026			

Purpose

The purpose of this policy is to ensure the orderly operation of the district's schools by establishing standards for the operation of school district social media accounts and personal social media accounts, and to differentiate between personal and third party social media accounts and those accounts controlled by the district.

Authority

The Superintendent shall develop procedures to implement this policy, and may delegate to his/her designee(s) the right to enforce this policy.

Definitions

Discriminatory or Harassing Comments – comments or imagery that attack or mock an individual due to his/her real or perceived race, color, national origin/ethnicity, gender, age, disability, sexual orientation or religion.

Limited Public Forum – a government operated location where the public may comment and post online, subject to viewpoint neutral guidelines.

Non-public Forum – a government operated location where the public may not comment or post online; free expression by the public is restricted regardless of message or viewpoint.

Personal Social Media Account – a social media account, regardless of platform, that is operated by a school district employee or school board member for his/her personal use, including personal professional development. A personal account is not regularly used to promote or communicate about school district events or activities, or the activities of students.

School District Social Media Account – a social media account, regardless of platform, that is operated by a school district employee or school board member in his/her professional capacity, and that is designed to further the educational mission of the school district by communicating with members of the school district community and the general public.

Third Party Social Media Account – a social media account, regardless of platform, that is operated by a volunteer, student, parent, alumnus, or other member of the public on behalf of a club, foundation, sports team, or other extracurricular group affiliated with the school district. Third party social media accounts are *not* operated by school district employees or school board members.

Guidelines

If any social media post is published using school district technology resources, including computing devices, mobile devices, and networks, the district's acceptable use policy applies and is hereby incorporated by reference.

SCHOOL DISTRICT SOCIAL MEDIA ACCOUNTS

School district social media accounts must remain professional, and consistent with the educational mission of the school district at all times. The operators of school district social media accounts are responsible for the content on the social media accounts that they manage.

Account Ownership

School district social media accounts are owned by the school district, and operated by school district employees or school board members on behalf of the school district. The Director of Technology and the Director of Public Relations shall maintain a list of all social media accounts operated by the school district, along with a list of credentials to access the accounts.

Photos, Videos, & Livestreams of Students

School district social media account operators may post photographs, videos, and livestreams of students engaged in the educational process or at school-related events *unless* the student's parents have opted the student out of FERPA's directory information sharing. The operators of school district social media accounts are responsible for complying with this provision.

Public Comments

All school district social media accounts shall operate as either a non-public forum (where the public may not comment on the district's posts), or as a limited public forum, where the public may comment publicly on the district's posts – subject to certain guidelines. Whether a social media account is operated as a non-public forum or limited public forum shall be determined by the account operator.

School district social media accounts that operate as a limited public forum shall include a prominent link to the following comment guidelines, posted on the school district's website:

- a. Comments must be related to the original school district post.
- b. No personal attacks.
- c. No lewd, vulgar, or obscene posts.
- d. No discriminatory or harassing comments.
- e. No posts promoting violence or illegal conduct.

Individual comments or posts that violate the above guidelines may be deleted (if possible given the social media platform) without further notice. Posts may not be deleted simply because they are critical of the school district, or because they promote an unpopular opinion, if the post otherwise complies with the above guidelines.

School district social media account operators may not block users from accessing the school district's social media posts. The Director of Technology shall refer any user who repeatedly violates the above guidelines to the Superintendent for further investigation and potential legal remedies.

Tagging

School district social media account operators may tag the social media accounts of educational applications, products, and services, so long as the district and its employees do not receive financial or other tangible compensation for the tag.

School district social media account operators shall not tag individual students using their social media usernames or handles, but may tag other adult members of the school district community.

School district social media accounts shall not be used to communicate directly with students. One-to-one communication with a student shall be limited to electronic resources provided by the district such as e-mail or classroom management applications.

Accessibility

All content posted to school district social media accounts shall be as accessible to individuals with disabilities as it is to non-disabled individuals. To ensure accessibility, so long as the social media platform allows, social media posts must:

- a. Include alternate text or detailed captions for images.
- b. Include captions for videos.
- c. Include captions for livestreams.
- d. Avoid images of text.
- e. Avoid acronyms, wherever possible.
- f. Ensure that links to PDFs are accessible to screen readers.

The Director of Technology or his/her designee shall ensure that all individuals operating school district social media accounts receive training on social media accessibility.

Copyright

The copyright for all content posted to school district social media accounts must be either owned by the school district, licensed by the copyright owner, or not subject to copyright protection. The operator of a school district social media account is responsible for ensuring compliance with this provision.

Retweets/Reposts

School district social media accounts may highlight social media posts by others by retweeting or reposting their messages, so long as the retweet/repost follows these guidelines.

PERSONAL SOCIAL MEDIA ACCOUNTS

School district employees may not use personal social media accounts to communicate privately (via direct message or private chat) with students concerning any school district business. One-to-one communication with a student concerning any school district business shall be limited to the electronic resources provided by the district such as e-mail or classroom management applications.

School district employees are urged to exercise extreme caution before communicating with students via social media about non-school matters. Such electronic communication may cross professional boundaries in violation of the Pennsylvania Code of Professional Practice

and Conduct for Educators, and the Educator Discipline Act. School district employees are urged to maintain strict professional boundaries on social media, and to protect against even the appearance of impropriety.

School district employees and board members shall not post personally identifiable and otherwise confidential information from educational records on their personal social media accounts. Personally identifiable information includes information that could indirectly identify a student through linkages with other information.

School district employees are strongly encouraged to utilize privacy settings on personal social media accounts to ensure that a professional boundary is maintained between the employee and students and parents.

The school district does not actively monitor personal social media accounts for its employees. Nonetheless, should the school district administration or school board's attention be brought to a personal social media post that demonstrates insubordination, immorality, cruelty, unlawful discrimination, other unlawful act(s), or that impedes the efficient and effective operation of the school district, the employee may be subject to disciplinary action.

THIRD PARTY SOCIAL MEDIA ACCOUNTS

Third party social media accounts are not operated or controlled by the school district. These accounts are privately created and maintained, and are not actively monitored by the district.

Third party social media accounts may *not* use the school district's logo, unless given express written permission by the Superintendent.

The school district encourages the operators of all third party social media accounts to be good-faith ambassadors of the school district, and to operate these private social media accounts in a manner that represents the school district in a positive light.

CONSEQUENCES

Consequences for Violation of This Policy

Employees that violate this policy may be subject to disciplinary action, up to and including dismissal.

BOARD POLICY

816 Use of Livestream Video on School District Property (Remote Learning and Livestreaming)

POLICY NUMBER	ADOPTED	REVISED	VERSION
816	10/24/2016	8/9/2021	v1.3
DOCUMENT STATUS	PRINTED		
DRAFT	10/20/2026		

Purpose

The Board recognizes that remote learning and livestream video may be helpful to the district and its employees in both fulfilling its educational mission and in expanding the reach of school district events and activities to those not able to attend in person. The Board further recognizes that without parameters, remote learning and livestream video may pose legal risks to the district and its employees, and may otherwise disrupt the educational environment. This policy does not prevent employees, students, parents/guardians, and/or members of the public from livestreaming district events open to the public.

Delegation of Responsibility

The Superintendent shall develop procedures to implement this policy, and shall delegate to his/her designee(s) the right to enforce this policy.

Definition

A **hybrid class** is one in which the teacher and a portion of the students in the class are located in the brick and mortar classroom on district property, and a portion of the students are located off district property, participating in livestreamed instruction and other

educational activities. Additional staff may engage with the hybrid class, whether on or off district property. A hybrid class may also be one in which the teacher and all class participants access and participate in the livestream instruction remotely.

Livestreaming video, as used in this policy, shall mean utilizing any camera located on school district property to broadcast live video content through the Internet, including through a social media platform.

Personal device includes but is not limited to the use of a student's/family's own laptop, smart phone, chrome book, or other internet-enabled device.

Guidelines

Use of Livestream or Recorded Video for Educational Purposes

The Superintendent or designee shall ensure that adequate precautions are in place to limit the sharing of personal information with individuals not directly affiliated with the district, and those who do not qualify as "school officials".

In accordance with the Children's Online Privacy Protection Act, the district shall:

1. Ensure that the use of online learning platforms is for school-authorized educational purposes, and not for commercial purposes.
2. Review the privacy and security policies of each online learning platform company utilized by the district to understand how each company will collect, use, and disclose personal information from district students.
3. Provide parents/guardians with notice of the website and online learning platform companies whose collection they have consented to on behalf of the parent/guardian.

Parents/Guardians and students enrolled in a hybrid class shall be notified of the use of livestreaming. Building administrators and teachers shall ensure that students are not captured in the livestream or recorded video whose parents/guardians have elected to opt them out of video or audio recording.

Recording of a hybrid class livestream of academic instruction and/or educational activities may occur and shall not be maintained for longer than two (2) weeks. Only district employees given explicit permission by administration to record a hybrid class livestream may do so. The district shall not share these recordings or any educational records with anyone who does not have a legitimate educational interest without written parental consent. The recordings may, however, be shared with other students for instructional purposes, in which case the parents/guardians of recorded students will be notified. Anyone with a legitimate educational interest who requests and thus receives the recording shall abide with privacy protections and shall utilize the recording only for the remote instruction of his or her child. Any person who violates such privacy requirements shall be prohibited from gaining access to future recordings.

Students

Students in a hybrid class shall:

1. Dress in proper attire consistent with the district's dress code.
2. Comply with the district's Acceptable Use Policy, whether using a district device or a personal device. [\[1\]](#)
3. Abide by the district's policies and Code of Conduct and shall be held accountable for violations of policies and the Code of Conduct while participating in the livestream. [\[2\]](#)

Students participating in the hybrid class off district property shall abide by attendance policies and procedures in place for remote instruction in order to be considered present for those hours during which they received instruction. [\[3\]](#)

Employees

At all times while engaging the hybrid class in livestreaming, employees on and off district property shall:

1. Be dressed in proper attire consistent with the district's dress code. [\[4\]](#) [\[5\]](#) [\[6\]](#)
2. Shall comply with the district's Acceptable Use Policy, whether using a district device or a personal device. [\[1\]](#)
3. Conduct themselves in a professional manner consistent with appropriate and orderly behavior. [\[7\]](#) [\[8\]](#)

Employees engaging the hybrid class in a livestream while off district property shall adhere to the assigned work schedules and procedures as outlined in administration regulations pertaining to working periods.

Livestream of School District Events Open to the Public

This policy does not prevent employees, students, parents/guardians, and/or members of the public from livestreaming school district events open to the public. Students, parents/guardians, employees, and members of the public should not have any expectation of privacy while attending public events; they may be captured and broadcast on a livestream just as they could at any other public or community event, or facility open to the public.

However, school district administrators may prohibit livestreaming at specific events hosted by the school district on a case-by-case basis to comply with the law, to comply with contract terms, or to prevent a substantial disruption to the public event.

The Board prohibits livestreaming of copyrighted musical performances, theatrical performances, or any material or performance in violation of copyright law.[\[9\]](#)

Livestream Video in Lieu of Homebound Instruction

Upon acceptance of a physician's recommendation that homebound instruction is medically necessary, the Board directs that consideration be given to whether or not the student should receive livestream access to his/her essential academic classes in lieu of homebound tutoring. Considerations must be given to:[\[10\]](#)

1. The severity of the student's medical condition, and whether or not the student can benefit from livestream academic instruction.
2. The recommendation of the student's physician.
3. Input from the student's parents/guardians.
4. The age and specific needs of the student, including whether the student has the technical proficiency to access the livestream at home.

5. Whether providing livestream instruction may be counter-productive, in that it may prolong the student's absence from school.

Students who access their essential academic instruction via livestreaming shall be considered present for attendance purposes during those hours during which they received instruction. Livestream access to academic instruction is in lieu of and not in addition to homebound tutoring.

The decision whether or not to provide livestream access to academic instruction in lieu of homebound tutoring rests in the sole discretion of the district. Nothing in this policy shall be construed to require the district to provide livestream access to any particular student.

Livestream Video for Routine Illnesses & Absences

No teacher or administrator shall be required to provide a livestream of academic instruction for a student's routine illness or absence. If a student or parent/guardian requests access to such a livestream due to extenuating circumstances, the decision whether or not to provide such a livestream shall be in the sole discretion of the teacher and building administrator.

Acceptable Use of District's Network

If a livestream utilizes the district's internet connection, the school district's Acceptable Use Policy applies and is incorporated herein by reference. [\[1\]](#)

Use of Personal Devices

If any livestream authorized pursuant to this policy utilizes a personal mobile device, the district's mobile device policies apply and are incorporated herein by reference. [\[11\]](#)

Accommodations for Disabilities

The district must provide qualified individuals with disabilities equal access to their programs, services, or activities in part by ensuring that government websites have accessible features for people with disabilities. The Board directs that livestreams, depending on the use and as defined and authorized via this policy, be as accessible as reasonably feasible for students,

employees, and members of the public with disabilities as their nondisabled peers. Such accessibility may include, but is not limited to, the provision of closed captioning.[\[12\]](#)[\[13\]](#)[\[14\]](#) [\[15\]](#)

Nothing in this policy shall affect the provision or use of livestreaming as stated in an Individualized Education Program or Section 504 Service Agreement.

Penalties for Violations

Violation of this policy, administrative regulations, and/or state or federal laws will result in discipline. Employees may be subject to discipline up to and including dismissal. Students may be subject to discipline up to and including expulsion. [\[2\]](#) [\[7\]](#)[\[8\]](#)

Development of Administrative Guidelines

The Superintendent or his/her designee may develop administrative guidelines to implement this policy. The Superintendent shall ensure that all students and employees are made aware of this policy and any administrative guidelines by means of the employee and student handbooks, the school district website, or other reasonable means.

Chris Lopez
Director of Innovation and Technology
Central Dauphin School District
600 Rutherford Road
Harrisburg, PA 17109

Dear Chris:

Thank you for the opportunity to provide a quote for E-Rate consulting services. Candice Hall Consulting is an independent, vendor-neutral E-Rate practice. I bring more than 15 years of E-Rate experience, including service provider experience, twelve years on the state E-Rate coordination teams in Georgia and Tennessee, and eight years as a consultant. I am a Certified E-Rate Management Professional (CEMP) and have guided clients through Beneficiary and Contributor Audit Program (BCAP) audits with no significant findings. I currently support several Pennsylvania school districts and have hands-on experience managing PEPPM mini-bids for E-Rate procurements.

Candice Hall Consulting is pleased to offer the following pricing quote for E-Rate processing and consulting services for **E-Rate Funding Years 2027 through 2030**. This four-year agreement term aligns with the remaining four years of the current FY2026–FY2030 Category Two budget cycle (service term: October 15, 2026 – June 30, 2030).

Pricing

Annual flat fee: \$24,000 per year – includes all Category One and Category Two services described below, every year of the agreement, regardless of the amount of funding requested or committed.

Payment Terms: The annual fee is invoiced at the start of each agreement year (the first invoice upon project kick-off) and is due within 30 days of the invoice date.

Predictable Pricing

A flat annual fee gives the district a predictable, budgetable cost for each year of the agreement. The fee does not increase with the size of the district's funding requests, does not change between years with and without Category Two filings, and is never calculated as a percentage of the funding the district receives.

Under the previous fee structure, the district's cost changed from year to year because the Category Two fee grew with the size of each funding request. The table below shows how the two approaches compare.

	Previous fee structure	This proposal
Category One	\$10,000 per year	Included
Category Two	\$3,000 + 3% of funded amount, each filing year	Included
Annual cost	Varies by year	\$24,000 every year
Four-year cost if the full remaining Category Two budget (\$2,220,242) is used	\$99,616 – \$108,616	\$96,000
Four-year savings with this proposal	—	\$3,616 – \$12,616

The lower figure assumes the district files for Category Two in one funding year; the higher figure assumes it files in each of the four years, paying the \$3,000 base fee each time.

Scope of Services

As part of our annual agreement, I will:

- Ensure applicant is informed of the current FCC guidelines and requirements
- Advise applicant on any updates to the annual FCC Eligible Services List (ESL)
- Upload/update school district information in the E-Rate Productivity Center (EPC) portal as necessary
- Assist with filing the Form 498 and updating as necessary
- Provide guidance on Children's Internet Protection Act (CIPA) requirements
- Determine eligibility of services and equipment being sought by the district
- Review existing vendor billing and contracts for eligibility based on FCC guidelines
- Provide guidance and assistance with bid process including the creation of Form 470s and RFPs/mini-bids, as required, obtaining approvals, filing on time, and ensuring certification prior to deadline
- Obtain official National School Lunch Program (NSLP) data and enter in EPC
- Prepare Competitive Bidding Matrices and assist with evaluation of bids
- Provide contract guidance, review, and compliance
- Prepare accurate Form 471 applications in EPC, obtain approvals, file and obtain applicant certification within the filing window
- Submit Form 471 Receipt Acknowledgment Letter modifications, if necessary
- Provide documentation during Program Integrity Assurance (PIA) reviews
- Monitor review progress and notify the applicant when Funding Commitment Decision Letters (FCDL) are issued
- File appeals, if necessary
- File Form 486 and obtain applicant certification in a timely fashion
- Work with service providers to set up Form 474 Service Provider Invoicing (SPI) and periodically verify SPI discounts are being applied correctly OR file Form 472 BEAR forms for reimbursement and verify direct deposit payments on each funding request
- Prepare and file Form 500s and provide support for Selective Reviews, Beneficiary and Contributor Audit Program Reviews, Payment Quality Assurance Reviews and Cost Effectiveness Reviews, if required
- Monitor the Category Two budget, plan Category Two purchases across the budget cycle, and provide reports as requested
- Continue above work until all activities for each funding year in the agreement have been completed

- Take over and complete any pending items from prior funding years (FY2026 and earlier), including Form 486 filings, invoicing (BEAR/SPI), PIA responses, Form 500s, appeals, and audit support, at no additional charge
- Retain all documentation for ten years as required by current FCC rules

Agreement Terms

Term. This is a four-year agreement covering E-Rate Funding Years 2027 through 2030, aligned with the remaining years of the FY2026–FY2030 Category Two budget cycle. Work for each funding year that begins during the term (including PIA, Form 486, and invoicing) will be completed through that funding year’s final deadlines at no additional charge.

Transition and Prior-Year Items. Upon execution, Candice Hall Consulting will review the district’s EPC account and prior-year funding requests, identify any open items left by the previous consultant (for example, FY2026 Form 486s, invoicing, pending reviews, or appeals), and complete them as part of the annual fee. The district will update its Letter of Agency and EPC consultant information to reflect the change in consultant.

Renewal. The agreement may be renewed by mutual written agreement. Pricing may be adjusted for renewal to align with the next Category Two budget cycle beginning in FY2031; renewal pricing will be provided in advance.

Program Changes. If FCC or USAC rules significantly change Category Two eligibility, budgets, or requirements during the current budget cycle, either party may request to renegotiate the annual fee for the remaining years of the agreement.

Termination. Either party may terminate this agreement with thirty (30) days’ written notice. Fees will be prorated based on services rendered through the termination date.

District Responsibilities. The district agrees to provide timely access to requested information, approvals, and EPC account access. Delays in providing information may affect filing deadlines and funding outcomes.

Funding Decisions. All funding decisions are made solely by USAC and the FCC; no particular funding outcome is guaranteed. Consultant’s total liability shall not exceed the fees paid under this agreement.

Independence. Candice Hall Consulting has no financial relationships with any service providers or equipment vendors and serves as an independent contractor to the district.

I look forward to working with you!

Sincerely,

Candice Hall – Owner/Consultant

PROPOSAL ACCEPTANCE FORM

Central Dauphin School District accepts the proposal from Candice Hall Consulting for E-Rate consulting and processing services for E-Rate Funding Years 2027 through 2030 (service term: October 15, 2026 – June 30, 2030).

- ☐ I agree to the annual flat fee of \$24,000 per year for the four-year agreement term, invoiced at the start of each agreement year and due within 30 days of the invoice date.
- ☐ I acknowledge that if FCC or USAC rules significantly change Category Two during the current budget cycle, either party may request to renegotiate the annual fee, and that renewal pricing may be adjusted to align with the next Category Two budget cycle.
- ☐ I acknowledge the deadlines listed below:
 - Return Proposal Acceptance Form – October 30, 2026
 - Return Letter of Agency – October 30, 2026
 - Provide information for the Form 470 – December 15 of each year (any Form 470 filed after January 1 will incur an additional fee of \$500)
 - Provide National School Lunch Program (NSLP) data, if applicable – December 31 of each year
 - Provide information for the Form 471 – 30 days before the close of each Form 471 filing window. This date will be disclosed as soon as it is established. (If information is not received by this deadline, a per diem fee will be assessed.)

Board of School Directors | 75 South Houcks Road | Harrisburg, PA 17109

SCHOOL BOARD - AUTHORIZED OFFICIAL RESOLUTION

STATEWIDE LOCAL SHARE ACCOUNT | COMMONWEALTH FINANCING AUTHORITY

Resolution No.: 2026-_____

Date adopted: _____

WHEREAS, Central Dauphin School District (the "District"), Dauphin County, Pennsylvania, is committed to expanding career and technical education opportunities responsive to regional transportation and logistics workforce needs; and

WHEREAS, the proposed Central Dauphin Transportation and Logistics Training Facility project contemplates renovating and equipping garage bays within an existing District-owned facility for classroom and hands-on instruction, with approximately 50 student training opportunities annually; and

WHEREAS, the proposed project may be supported by a Statewide Local Share Account ("LSA") grant requested from the Commonwealth Financing Authority by an eligible sponsoring applicant, in cooperation with the Panther Ram Foundation;

NOW, THEREFORE, BE IT RESOLVED, that the Board of School Directors of Central Dauphin School District supports development and submission of a Statewide LSA grant request of \$_____ by Capital Region Economic Development Corporation to fund eligible renovation, rehabilitation, machinery, and equipment for the proposed training facility in Dauphin County, Pennsylvania.

BE IT FURTHER RESOLVED, that the Central Dauphin School District Board of School Directors hereby authorizes and approves the execution of all necessary project-support letters, certifications, agreements, and cooperation documents related to the proposed grant application by duly authorized representatives of the District, subject to applicable laws, District policies, District Solicitor review, and any additional required Board approvals.

BE IT FURTHER RESOLVED, that any alteration, site-use agreement, property conveyance, lease, maintenance obligation, or other arrangement concerning District-owned real property must receive separate legal review and approvals, and the parties must obtain written CFA/DCED confirmation of an eligible project ownership/maintenance arrangement before reliance on Statewide LSA funding.

BE IT FINALLY RESOLVED, that this resolution does not itself transfer property, constitute the District as the grant applicant, obligate unapproved District expenditures, or authorize construction before CFA approval.

SECRETARY'S CERTIFICATION

I, _____, duly qualified Secretary of Central Dauphin School District, Dauphin County, Pennsylvania, hereby certify that the foregoing is a true and correct copy of a resolution duly adopted by majority vote of the Board of School Directors at a [regular / special] meeting held on _____, duly recorded in the School District's minutes, and remaining in effect on this date.

IN WITNESS WHEREOF, I affix my hand and the seal of the District, if any, on this ____ day of _____, 20____.

Student Information System Recommendation

Focus School Software

Proposed launch: 2027–28 school year

Finance Committee and School Board

Why the district began this review

Staff reported that issues with eSchoolPlus make their work more difficult.

PIMS administration	Registration	Principals	IT
State reporting and student data requirements	Online student enrollment, registration workflows, in-system appointment booking, and Annual Update	Scheduling staff and students process is too cumbersome	Inconsistent integration between PowerSchool systems and disparate databases

The goal is to reduce those difficulties through a system that fits district needs.

A multi-month selection process

6

Companies previewed

IT and the PIMS administrator reviewed presentations from 6 leading SIS platforms, including requested platforms from principal and staff.

3

Finalists reviewed

Synergy, Focus and Sapphire each presented to district user groups during a dedicated day.

1

Recommended system

Focus emerged as the clear leader in stakeholder feedback. Follow-up sessions came next.

Staff evaluated the tools they would use

Nine stakeholder groups

Directors	IT
Principals	Teachers
Registration	Special Education
Child Accounting	Nurses
Secretaries	

Presentations by user group

Each vendor focused on the tools relevant to that group's work.

Structured comparison

Graphic organizers supported notes and comparisons with eSchoolPlus and the three finalists.

Participants rated individual tools and each overall system in a survey.

Cost Comparison

	Edupoint / Synergy	Sapphire	Infinite Campus	Focus	Skyward	eSchoolPlus
Annual renewal	\$214,056.00	\$360,000.00	\$179,578.00	\$129,677.00	\$159,232.00	\$173,242.00

Additional Modules

The total proposal for Focus does include **Document Management** for student cumulative folders and a **Communications Suite** that would eventually replace Finalsight, ParentSquare, and ClassDojo. These two additions bring the total to \$167,072.30.

Unquantified Costs

Current issues with eSchools takes up large amounts of time from secretaries up the director level positions. This comes at a cost that is hidden from dollar amounts.

Focus was the clear leader in the district's evaluation.

FIRST-CHOICE		
Vendor	Votes	Share
Focus	25	73.5%
Synergy	8	23.5%
eSchool Plus (current system)	1	2.9%
Total recorded votes	34	100.0%

Follow-up sessions and hands-on demo site gave staff more time to explore the system and ask questions.

All stakeholder panelists received another opportunity to provide feedback.

District planning schedule allocates implementation across two years. We are contracted with eSchoolPlus until the end of the 2027-2028 school year. eSchool Plus cost in 27-28 decreased to the cost of the Enrollment module that is on a yearly contract at a cost of \$42,970.55.

Savings opportunities beyond the SIS

Current product	Focus capability	Savings status
eHall Pass	Hall Pass is included in core SIS.	Expected replacement after transition
SWIS	Positive Behaviors, analytics and Special Student Services	Potential replacement pending workflow review
Finalsite, ParentSquare, and ClassDojo	Selected Communication Broadcast module	Potential replacement pending scope review

Savings are not yet quantified and are excluded from all totals. School and district websites are an optional add-on, outside the selected quote.

Proposed path to a 2027–28 launch

Phase	Proposed timing	Primary work
Contract and kickoff	After board approval*	Confirm scope, payment schedule and district project leads.
Configuration and migration	2026–27 school year	Set up workflows, convert historical data, department input, and connect systems.
Validation and training	Spring–summer 2027	Check records and PIMS outputs. Train staff for their roles.
Go-live and stabilization	Start of 2027–28	Complete cutover, support schools and resolve early issues.

Planning sequence for district and vendor confirmation. Detailed dates depend on approval timing and readiness.
Focus has offered to start working now with an NDA with the understanding that board approval is needed to move forward.

Proposed readiness checks before launch

Student records and reporting

PIMS and Child Accounting leads verify converted records and required reporting outputs.

Daily school workflows

Registration and school teams test the tasks they need to complete at the start of the year.

Access and integrations

IT tests permissions and connected systems, then confirms the final migration plan.

Staff preparation

Department leads confirm training, support contacts and the plan for resolving launch issues.

Requested committee and board action

Recommend Focus School Software for a 2027–28 launch

Finance Committee

Recommend the selected package and proposed budget to the School Board.

School Board

Approve the Focus agreement and implementation for the 2027–28 school year.

Quote basis: \$821,057.74 over five years for Focus, including \$128,150 in implementation services.
