Compared to the previous year:

Buckeye Union increased by 1 student

Estrella Foothills decreased by 93 students

Youngker decreased by 20 students

LC Online decreased by 52 students

Enrollment projections were reviewed, with Buckeye Union and Youngker closely aligning with projected numbers, while Estrella Foothills experienced a larger-than-anticipated enrollment decline.

Administration cited increased school choice options and competition within the area as potential contributing factors.

Administration noted that the amendment reflects the updated transportation costs based on the increased number of students attending West-MEC programs.

Dr. Bebee specifically recognized Mr. Juan Castillo (Director of Facilities), and staff for their quick action in securing generators, maintaining refrigeration and freezer operations, and coordinating repairs. Dr. Bebee reported that no food or supplies were lost, and utility crews installed a new electrical line, restoring service in a timely manner.

The situation was discussed as an example of the district's emergency procurement authority, which allows administration to respond immediately to unforeseen emergencies.

No action was taken by the Board.

8.5 Emergency Preparedness Plans for FY 2026-27 – The Governing Board received an update on the district's Emergency Preparedness Plan for Fiscal Year 2026–2027.

Mr. Warner explained that the Arizona Department of Education recently implemented a new Emergency Operations Plan (EOP) template, requiring districts to transition to a streamlined format. As a result,

BUHSD is currently updating its emergency procedures and plans to bring the revised EOPs to the Governing Board for review later in the school year.

Mr. Madden expressed interest in the district's cybersecurity preparedness and continuity of operations procedures. Mr. Warner explained that cybersecurity planning will be addressed at the district level and noted that the district's Information Technology Department continues to maintain strong cybersecurity practices and safeguards.

Mr. Warner further reported that personnel assigned to emergency response roles will continue to receive required training, including Incident Command System (ICS) and FEMA-related coursework. He also shared that the district would conduct reunification drills and other emergency preparedness training activities throughout the school year.

Board members discussed the importance of maintaining standardized emergency procedures across all campuses while allowing for site-specific evacuation and response plans.

No action was taken by the Board.

8.6 District, School, and Department GPIs – Mr. Madden commented that he was pleased to see an emphasis within the Fine Arts and Social Studies/Social Sciences departments on students earning the various Arizona Department of Education seals. He noted that these recognitions demonstrate meaningful proficiency and application of knowledge beyond traditional academic measures and expressed appreciation for their inclusion within the district's performance indicators.

No action was taken by the Board.

Welcome to the October, 2026 Bulldog Pride Issue! We were fortunate enough to have two presenters in late September. Carolyn Nicodemus from West-MEC presented information to Alternative Education and LcOnline students regarding their programs, campuses and the application process. Also, Ms. Trina Stark from BUHS came to provide information for Alt. Ed. students about job skills, getting a State ID, writing resumes, and job-hunting resources. We are also excited to be participating in a series of school culture challenges through the Josten's Renaissance School Culture and Climate program. September's challenge was to create a welcoming and exciting climate on campus as we returned to school. We participated in a campus-wide Spirit Week with dress up days each day. For our entry, we will be receiving a School Culture Builder Award and have a chance to win \$500!

- The Arizona Auditor General categorizes school district spending in categories

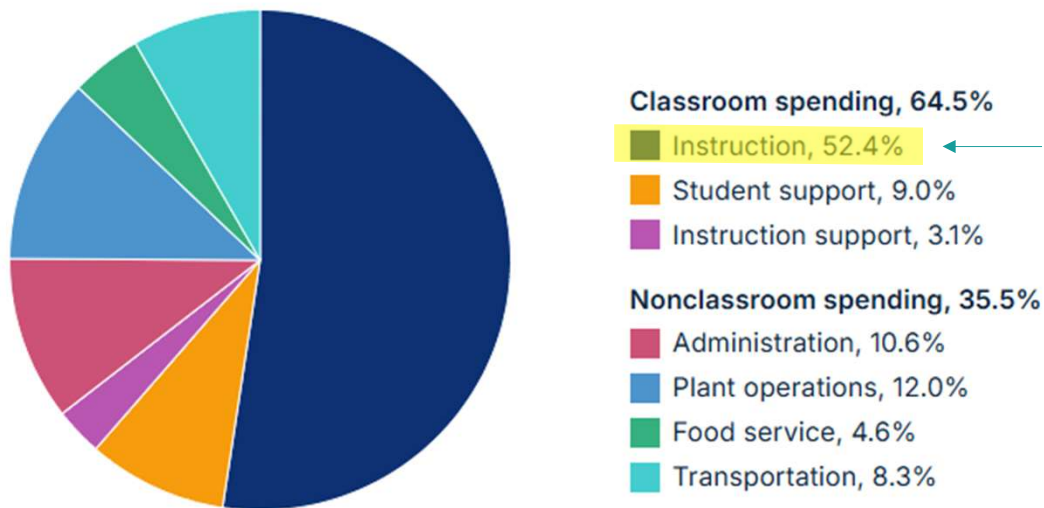

Accounting for BUHSD Spending

- Every BUHSD expenditure (including payroll) is tracked by a 24-digit account code

Master Plan

Enrollment growth for FY 2025–26 fell 2.5% short of projections. Due to factors such as Empowerment Scholarship Accounts (ESAs), shifting immigration policies, charter schools, and online programs, the district is experiencing a temporary stabilization in enrollment. Despite this near-term plateau, long-range growth projections for the Buckeye Valley and southwest Goodyear remain strong, with sustained growth anticipated over the next several decades. To prepare for an eventual buildout capacity of over 30,000 students across 10 to 15 high schools, BUHSD has dedicated significant resources to analyzing demographic data and planning optimal educational delivery models. District leadership also maintains active coordination with developers and the cities of Buckeye and Goodyear. For FY 2026–27, the district projects flat enrollment growth (0% to -1%). However, a significant incoming freshman cohort in FY 2027–28 is expected to drive a 3.9% increase, followed by annual growth ranging from 1.6%-3.4% in FY 28-FY37, driven in part by new local multi-family housing developments. The district is currently evaluating the high school enrollment yields associated with higher-density developments, including smaller single-family homes and multi-family apartments. We believe any new school will be pushed out beyond FY 2028.

ADM Methodology

Based on our most recent demographic and enrollment analysis completed by Applied Economics combined with analysis of housing starts and completions from the City of Buckeye and City of Goodyear, our enrollment growth trend is -0.9% for FY 2027, a moderate 3.9% for FY 2028 and 2.7% for FY 2028. Beyond these years, the district is projecting 1.6%-3.4% enrollment growth from FY 2029 through FY 2035. We will be continuing our demographic studies to ensure that we are analyzing the most up to date data and developments.

Preventive Maintenance Guideline & Plan

Based on the following statutory requirements:

A.R.S. 41-5702 (L)

Each school district shall develop routine preventive maintenance guidelines for its facilities. The guidelines shall include plumbing systems, electrical systems, heating, ventilation and air conditioning systems, special equipment and other systems and for roofing systems shall recommend visual inspections performed by district staff for signs of structural stress and weakness. The guidelines shall be submitted to the division for review and approval. If on inspection by the division it is

determined that a school district facility was inadequately maintained pursuant to the school district's routine preventive maintenance guidelines, the school district shall return the building to compliance with the school district's routine preventive maintenance guidelines.

A.R.S. 41-5731 (O) (2). "Routine Preventive Maintenance" means:

Services that are performed on a regular schedule at intervals ranging from four times a year to once every three years, or on the schedule of services recommended by the manufacturer of the specific building system or equipment, and that are intended to extend the useful life of a building system and reduce the need for major repairs.

1. Prioritize Tasks:

Describe the district's methodology of prioritizing preventive maintenance tasks (safety, emergency, routine maintenance, reactive, etc.)

Components	Stage 4 (4)	Stage 3 (3)	Stage 2 (2)	Stage 1 (1)
1. Prioritize Tasks. Describe the district's methodology of prioritizing preventive maintenance tasks (safety, emergency, routine maintenance, reactive, etc.)	1. A Proactive & Routine approach to PM 2. Addresses each PM Category	1. A Reactive and routine approach to PM identified 2. Addresses each PM Category	1. A reactive approach to PM 2. Deferred PM 3. Staffing concerns	1. A reactive approach to PM 2. Consistent Deferred PM 3. Not enough Staff 4. No Maintenance Budget 5. No clearly identified approach

BUHSD will prioritize maintenance based on safety, urgency, operational impact, building and equipment condition, potential for additional damage, and available resources.

Priority 1 – Emergency/Safety: Immediate threats to people, property, or critical building systems.

Priority 2 – Critical/Operational: Conditions affecting essential school operations or critical systems.

Priority 3 – Preventive Maintenance: Scheduled PM based on District schedules, manufacturer recommendations, applicable requirements, equipment condition, and facility needs.

Priority 4 – Routine Corrective: Non-emergency repairs scheduled based on condition and operational impact.

Priority 5 – Building Renewal/Capital: Major repairs or replacements requiring long-term planning or Building Renewal consideration.

This approach applies to the seven SFD PM categories: HVAC, Roofing, Electrical, Plumbing, Surfaces, Special Systems, and Special Equipment. PM deficiencies requiring repair, replacement, or renewal will be documented and referred through the appropriate process.

2. Preventive Maintenance Schedule:

Provide a detailed schedule including monthly, quarterly, semi-annual and annual preventive maintenance tasks.

Components	Stage 4 (4)	Stage 3 (3)	Stage 2 (2)	Stage 1 (1)
2. Preventive Maintenance Schedule: Provide a detailed schedule including monthly, quarterly, semi-annual and annual preventive maintenance tasks.	1. A defined set schedule for all PM Categories with tasks identified (M/Q/SA/A)	1. A defined set schedule for all PM Categories (M/Q/SA/A) 2. A list of specific tasks identified	1. No set schedule for PM 2. Deferred PM 3. Only Annual or Semi-Annual mentioned	1. No set schedule for PM 2. Consistent Deferred PM 3. Semi-Annual schedule based on building system in use

BUHSD will maintain an equipment inventory for each school and identify the applicable PM tasks for the equipment and systems within the seven SFD categories. The District will use the applicable SFD PM task sheets/checklists, manufacturer recommendations, equipment condition, and facility needs when establishing PM schedules.

The District may also perform routine inspections and maintenance activities more frequently than the applicable PM schedule to support safe and reliable operation of school facilities.

Monthly routine checks may include:

- HVAC operation and building controls
- Plumbing leaks and operating conditions
- Campus/site lighting and emergency lighting/exit signs
- Fire extinguisher visual checks
- Mechanical rooms and equipment
- Custodial, shop, and maintenance equipment
- Building surfaces and general site conditions

Quarterly PM or routine maintenance may include:

- HVAC filters, rooftop units, exhaust and ventilation equipment
- Electrical panels and distribution equipment
- Emergency generators and transfer switches
- Roofs, gutters, and drains
- Irrigation and site improvements
- Cooling towers and applicable mechanical equipment
- Equipment lubrication

Semi-Annual PM or routine maintenance may include:

- Backflow prevention and plumbing systems
- Playgrounds, athletic areas, bleachers, and site improvements
- Kitchen equipment and exhaust hoods
- Safety equipment and related records
- HVAC coils, condensate systems, belts, and electrical connections
- Generator, transfer-switch, and mechanical equipment servicing

Annual PM or routine maintenance may include:

- Major building systems and equipment
- Chillers, boilers, cooling towers, and central plant equipment
- HVAC system inspections and applicable testing/balancing
- Roof and building-envelope conditions
- Electrical, plumbing, and HVAC systems
- Fire alarm and fire protection inspections/testing
- Major equipment condition, maintenance history, and recurring deficiencies

PM tasks and equipment information will be maintained in the District's equipment inventory and maintenance tracking system.

3. Optimize Work Hours:

Describe the district's methodology for optimizing employee work hours to accomplish preventive maintenance tasks

3. Optimize Work Hours Describe the district's methodology for optimizing employee work hours to accomplish preventive maintenance tasks.	1. A defined set schedule for PM (M/Tu/Th/Fr) 2. Site-specific PM tasks are integrated into daily routes with Work Orders (WO) to minimize travel and maximize "work/wrench time" 3. "See something, say something" culture exists	1. A set schedule for PM is identified (M/Tu/Th/Fr), but identified as disrupted by poor routing schedule or when reactive tasks always take priority, leading to delayed PM	1. Managed day-to-day 2. Staff are assigned to PMs only when "time permits" between emergency repairs	1. Managed as work orders come in 2. Staff identified as purely reactive
---	--	--	---	--

BUHSD will schedule preventive maintenance work to use employee time efficiently while minimizing disruption to school operations.

PM assignments will consider employee qualifications, workload, location, equipment requirements, work orders, and school schedules. When practical, multiple PM tasks at the same site will be grouped into the same visit to reduce travel time and improve staff efficiency.

PM work will be incorporated into regular maintenance routines and work orders. PM may be scheduled during regular work hours, school breaks, summer periods, or after-hours when appropriate.

Higher-priority emergency or corrective work may require PM activities to be delayed. Delayed PM will be documented and rescheduled based on priority, equipment condition, and available staff resources.

The District will use its maintenance tracking system to monitor PM assignments and completion, identify overdue or missed tasks, and review workload and recurring maintenance needs to help adjust scheduling and staffing as appropriate.

4. Utilize Technology:

Describe the district's planned use of technology and other tools to implement preventive maintenance

4. Utilize Technology: Describe the district's planned use of technology and other tools to implement preventive maintenance CMMS (Computerized Maintenance Management System)	1. Use of a CMMS for automated work orders, asset tracking, and mobile updates. 2. If rural/small district: use of S/I tasks sheets with good documentation practices and records retention is evident. 3. Use of Excel or Google sheets (Microsoft 365 or Google form use)	1. Use of a CMMS for basic work order entry. 2. If rural/small district: use of S/I tasks sheets with no evidence of documentation practices and records retention.	1. Use of S/I tasks sheets without good documentation practices or records retention.	1. No documentation practices to record PM history or WOs.
--	---	---	---	--

BUHSD will use its Computerized Maintenance Management System (CMMS) to schedule, assign, document, and track preventive maintenance activities and equipment.

The District also uses technology associated with building systems, including energy management systems, building controls, lighting controls, and other specialized equipment monitoring and control systems, to help identify maintenance needs and monitor building performance.

Maintenance records may include facility and equipment information, PM dates and activities, assigned staff or contractors, identified deficiencies, corrective actions, service and inspection reports, and photographs.

The CMMS and available building-system technology will help identify overdue PM tasks, recurring work orders, equipment problems, and maintenance trends.

Maintenance information will also be used, as appropriate, to support equipment condition assessments, repair or replacement planning, budgeting, and long-term facility needs.

5. Staff Education, Training and Empowerment:

Describe the district's planned training to enhance employee skills to extend the useful life of building systems and development of building renewal planning and implementation

5. Staff Education, Training and Empowerment: Describe the district's planned training to enhance employee skills to extend the useful life of building systems and development of building renewal planning and implementation.	1. Annual training plan includes technical certifications, system specific vendor training and renewal planning.	2. Regular training is provided on safety and basic equipment, but lacks specialized "useful life" extension focus.	3. Training is informal "on-the-job" only, with no professional development budget or plan.	4. No evidence of staff training or skill development initiatives.
--	--	---	---	--

BUHSD will provide training based on employee responsibilities, safety requirements, building systems, equipment, manufacturer recommendations, and identified facility needs.

Training may include safety, HVAC, electrical, plumbing, equipment operation and maintenance, PM procedures, troubleshooting, manufacturer/vendor training, and proper use of maintenance equipment.

Employees will be provided training appropriate to their assigned responsibilities and qualifications. When new equipment, systems, or technology are introduced, appropriate employees will receive training needed to properly operate, inspect, maintain, and report concerns related to those systems.

Maintenance staff will be encouraged to identify and report conditions that may affect building systems, equipment condition, safety, or useful life. Maintenance history and equipment condition will also be considered when identifying training needs and planning future repairs or replacement.

Training may be provided by qualified District staff, manufacturers, vendors, contractors, or other appropriate training providers. Applicable training and certification records will be maintained.

6. Continuity of Operations:

*

Describe the district's plan for succession of preventive maintenance program and recordkeeping for future Facilities employees and upload a Records Retention Schedule for as-builts, PM records, certifications, inspections and reports, etc.

Components	Stage 4 (4)	Stage 3 (3)	Stage 2 (2)	Stage 1 (1)
6. Continuity of Operations: Describe the district's plan for succession of preventive maintenance program and recordkeeping for future Facilities employees and upload a Records Retention Schedule for as-builts, PM records, certifications, inspections and reports, etc.	1. Robust succession plan: digital copy of as-builts and PM logs, clear, uploaded records retention schedule 2. Training where Supervisor/Manager trains 1 person above them and 2 people below them	1. Records are maintained and accessible, but success in planning for key personnel is informal 2. Budgets and materials, but no formal preparation exists for future management	1. Physical records exist but are disorganized, no digital back up 2. No formal preparation exists for future management	1. No written plan exists 2. Records are missing, incomplete, or rely entirely on the memory of long-term staff

BUHSD will maintain continuity of the preventive maintenance program by sharing responsibility for PM activities among Facilities staff rather than relying on one individual.

The HVAC Technician, Electricians, Plant Foreman, and other Facilities staff will perform and support PM activities within their areas of responsibility. Equipment knowledge, maintenance needs, schedules, and recurring issues will be shared among staff to support continued operation of the PM program.

PM schedules, procedures, equipment information, maintenance history, inspection records, service reports, warranties, manuals, and other applicable maintenance information will be maintained and accessible to designated Facilities staff.

Where applicable, Facilities personnel will be familiar with the systems, equipment, and PM responsibilities needed to continue maintenance activities when another employee is unavailable, changes positions, or separates from the District.

Maintenance records will be maintained in accordance with the District's approved Records Retention Schedule.

7. Continuous Improvement:

*

Describe how the district plans to implement continuous improvement of its preventive maintenance program (including improvement to any part of this plan)

7. Continuous Improvement: Describe how the district plans to implement continuous improvement of its preventive maintenance program (including improvement to any part of this plan) SFD Website for Preventive Maintenance	1. Biannual review of PM data to adjust task frequency, resource allocation, and plan improvement. 2. Initiate quarterly Walk-throughs 3. PM Questionnaire - Self-evaluation	1. "No issue" reviews occur, no change made; adjustments to the plan based on feedback.	1. Improvement is reactive, changes only happen after a major system failure or audit.	1. No mechanism for evaluating or improving the maintenance program.
---	--	---	--	--

BUHSD will review its preventive maintenance program annually and make adjustments based on PM results, equipment performance, maintenance history, and operational needs.

The District will review PM completion, overdue or missed tasks, recurring work orders, equipment failures, reactive maintenance, identified deficiencies, and staffing or resource needs to identify trends and opportunities for improvement.

Facilities staff will conduct quarterly facility walk-throughs and review work-order and equipment history to identify recurring issues and systems requiring additional attention.

The District will use the SFD PM questionnaire/self-evaluation process, as applicable, to identify improvements to PM procedures, schedules, documentation, and task assignments.

PM schedules and requirements will be updated when buildings, systems, or equipment are added, replaced, modified, or removed. Identified deficiencies will be addressed through PM, corrective maintenance, repair, replacement, or future planning, as appropriate.

8. Celebrate Success:

*

Identify preventive maintenance success (fewer reactive maintenance work orders and/or major building systems that have exceeded useful life)

- * Cost avoidance
- * Set PM Goals for next fiscal year

8. Celebrate Success. Identify preventive maintenance success (fewer reactive maintenance work orders and/or major building systems that have exceeded useful life). * Cost avoidance * Set PM Goals for next fiscal year	1. Clear metrics showing reduced reactive costs and extended building system life. 2. Specific and measurable goals set for next year	1. Success is documented through base work order counts. 2. Goals for next year are general	1. Anecdotal evidence of success (e.g., "things seem better"), verbal or writing goals for next year	1. No tracking of cost avoidance or system longevity. 2. No future goals established
---	--	--	--	---

BUHSD will review preventive maintenance results by evaluating completed PM activities, reactive maintenance needs, recurring work orders, equipment failures, and the condition of major building systems.

PM success may be demonstrated through completion of scheduled PM, fewer recurring maintenance issues, reduced emergency or unplanned repairs, and improved maintenance of major building systems.

PM results and staff contributions may be documented and communicated to District administration and staff through normal District communication and recognition practices, as appropriate.

The District will establish PM goals for the following fiscal year using prior-year maintenance information, PM results, recurring maintenance needs, equipment condition, and identified facility needs.
