She was pleased to report that the new athletic fields will host a home football game this Friday night and noted that originally this area was not planned to be completed until October. Ms. Maney reviewed Policy 431: Student Attendance and Policy 431 Rule: Student Attendance Procedures, explaining that the policies specify that students are allowed 10 days total absences, which will bring the district into compliance with state compulsory attendance laws. She emphasized that when school is in session, students need to be in attendance. She noted that there may be extenuating circumstances where a student faces an unexpected illness or injury and those cases will be taken into consideration.

Ms. Maney also readdressed the attendance section of the junior high/high school handbook from last month's board meeting. Discussion was held and the language was revised to state that students are allowed 10 days of absence per school year, which will align to the new policies.

Discussion was held about other options for insurance cooperatives or contracting with other companies, but Kleinhans explained that until our loss ratio runs at a lower rate for at least 1 to 3 years, no other groups or companies would be willing to take us on as partners. Discussion was also held about educating the staff about taking advantage of the savings of Rx Solutions, using the nursing line, or going to urgent care versus the emergency room.
