Subject: E-Rate - Internet and Related Services for Data Bank HOU2 Project #26-07-7168R-RFP

I am writing to present a recommendation for selecting an Internet Service Provider (ISP) for our school district. As we continue integrating technology into our educational framework, the importance of a reliable and high-speed internet connection cannot be overstated.

After careful consideration and thorough evaluation, I propose that we consider Cogent Communications, LLC, as the Internet Service Provider for our school district at the DataBank HOU2 location. Their services align perfectly with our needs and will contribute significantly to the seamless functioning of our educational programs.

Here are key factors supporting the recommendation:

1. Scalability: As our district grows and embraces innovative technologies, scalability is paramount. Cogent Communications, LLC. provides scalable solutions that can quickly adapt to the increasing demands of our expanding network infrastructure.
2. Burstable Service: The vendor provides burstable service to the entire physical connection. This is specifically tailored to the district's needs, ensuring that we have access to the bandwidth and features required for an effective online learning environment. While the district does not anticipate using this as a daily requirement, it is a needed feature at set times of the year.
3. Price of Eligible Goods and Services: Although Cogent Communications, LLC. did not have the lowest overall price, the committee felt that their price was competitive and offered the best value to the district. They had the highest score overall from the evaluation.
4. Speed and Reliability: The vendor has a proven track record of providing high-speed and reliable internet services. Their commitment to uptime and consistent performance is crucial for our teachers and students who rely on a stable internet connection for

educational resources and online learning tools.

We should consider Cogent Communications, LLC. as the Internet Service Provider for our district. Their commitment to excellence, understanding of educational needs, and proven track record make them a fitting choice for our requirements.

Thank you for your time and consideration. I am available to provide any additional information or answer questions if needed.

Sincerely,

Kim Bowlin

Architect: Huckabee & Associates, Inc. (the "Architect" or "Huckabee")
Project: Cy Ranch High School (the "Project")

Dear Mr. Clayburn:

This letter confirms the parties' agreement related to the resolution of the following change order associated with the electrical underground issues resulting from the scope of work in Area G at Cy Ranch High School.

This change order addresses the installation of a slab system coordinated around the existing electrical feeders and includes the modifications necessary to maintain electrical distribution to the remainder of the building while preserving existing conditions. This work is reflected in and supported by CPR 36, 41, and 43.

It is our understanding that the total cost to address the above-referenced issues is \$572,161.44.

In order to facilitate resolution of these matters and support continued project progress, the parties have agreed that Salas O'Brien Engineers will contribute \$496,305.44 through a direct payment to the District, and, without admission of liability and solely as part of this negotiated resolution, Huckabee will provide a fee credit to the District in the amount of \$75,856.00.

In consideration of the agreements set forth in this letter, the District agrees to accept the financial contributions described herein as a resolution of the specific costs currently identified and documented in CPR 36, 41, and 43, and any direct impacts solely attributable to those costs as evaluated as of the date of this letter. Nothing herein shall be construed to waive or release claims or responsibility for latent, consequential, or downstream impacts arising from design errors or omissions that are not reasonably apparent or fully quantifiable as of the date of execution.

This agreement is intended to resolve only the specific and presently known costs addressed in this letter. The District and Huckabee acknowledge that additional, unforeseen impacts or complications related to the underlying design condition may arise and are not reasonably ascertainable at this time. Accordingly, this agreement is not intended to serve as a full and final resolution of all matters or potential impacts related to the electrical underground issues. All other Project matters remain unaffected and are not released by this agreement.

This agreement reflects a collaborative effort to address the identified change order costs while maintaining overall project momentum. Nothing in this letter constitutes an admission of fault, negligence, or liability by the Architect.

By signing below, both the District and Huckabee agree that this arrangement resolves the presently identified costs related to the referenced change orders, subject to the limitations and reservations stated herein. If the above accurately reflects our agreement, please sign and return an executed copy.

Relation to Essential Knowledge and Skills

The District shall establish instructional objectives that relate to the essential knowledge and skills for grade-level subjects or courses. These objectives shall address the skills needed for successful performance in the next grade or next course in a sequence of courses.

Assignments, tests, projects, classroom activities, and other instructional activities shall be designed so that each student's performance indicates the level of mastery of the designated District objectives.

Guidelines for Grading

The Superintendent or designee shall ensure that each campus or instructional level develops guidelines for teachers to follow in determining grades for students. These guidelines shall ensure that grading reflects a student's relative mastery of an assignment and that a sufficient number of grades are taken to support the grade average assigned. Guidelines for grading shall be clearly communicated to students and parents.

The District shall permit a student who meets the criteria detailed in the grading guidelines a reasonable opportunity to redo an assignment or retake a test for which the student received a failing grade.

Progress Reporting

The District shall issue grade reports/report cards every nine weeks for elementary students and secondary school students ~~nine weeks for elementary students and four times each school year (two report cards each semester) for secondary school students~~ six weeks for students in secondary grades and, for students in elementary grades, every nine weeks on a form approved by the Superintendent or designee. Performance shall be measured in accordance with this policy and the standards established in EIE.

Interim Reports

Interim progress reports shall be issued for all students after the fourth ~~third or fourth~~ week of each grading period ~~for elementary students and every three weeks for secondary school students~~. Supplemental progress reports may be issued at the teacher's discretion.

Conferences

Each ~~campus calendar year, the District~~ shall provide for at least ~~for at least~~ two opportunities during the school year ~~for in-person conferences between each parent-teacher conferences. Academic Dishonesty

A student found to have engaged in academic dishonesty shall be subject to grade penalties on assignments or tests and disciplinary penalties in accordance with the Student Code of Conduct. Academic dishonesty includes cheating or copying the work of another student, plagiarism, the use of artificial intelligence to complete an

The determination that a student has engaged in academic dishonesty shall be based on the judgment of the classroom teacher or another supervising professional employee, taking into consideration written materials, observation, or information from students, <u>or the use of an artificial intelligence detection tool selected by the District.</u></u>
Makeup Work	Students shall make up assignments and tests after absences. Students shall receive a zero for any assignment or test not made up within the allotted time. Teachers may assign additional work to ensure that students who have been absent have sufficient opportunity to master the essential knowledge and skills or to meet the subject or course requirements. The assignments shall be based on the instructional objectives for the subject or course.
Unexcused Absences	The District shall not impose a grade penalty for makeup work after an unexcused absence.
Suspension	The District shall not impose a grade penalty for makeup work after an absence due to suspension.
Information for Elementary Schools	At the end of the first four weeks of a grading period, notice of progress shall be sent to the parents/guardians of students in kindergarten-grade 5.

Report Cards	Student achievement in the mastery of grade-level Texas Essential Knowledge and Skills (TEKS) shall be reported to parents on a nine-week schedule for elementary school students. Report card information shall include grades earned in foundation and enrichment courses, work/study habits, special program services (e.g., tutoring, ESL, and the like), conduct, and end-of-year placement decisions.
	Note: Separate grades shall be recorded for reading, language arts, mathematics, science, social studies, art, music, and physical education. Student mastery of health TEKS shall be reported as part of the grades earned in science, social studies, and physical education.
Grading Guidelines	Grade averages on report cards should:

- Reflect the level of mastery of TEKS designated in the District's scope and sequence for each nine weeks for elementary school students;
- Include a balance of assessment data — daily grades, test grades, benchmarks, and the like;
- Include a variety of student work samples—oral activities, journals, projects, worksheets, reports, and the like; and
- Reflect a sufficient and reasonable number of grades to support the nine-week average.

Caution:

Assessments with fewer than 10 items should be combined with similar tests for averaging purposes to avoid each question being weighted too heavily.

The report card should denote the instructional interventions being provided in each of the foundation subjects.

Campus Decisions

The principal at each campus shall work with the faculty to draft specific grading criteria that reflect the generic District guidelines listed above. Decisions to be made at the campus level include determining the number and types of grades to be taken in each subject area, weighting daily/test grades, assigning instructional levels for individual students, and crediting homework as a work habit or part of the subject grade.

Performance Codes

The following scales and coding systems shall be used to report student academic performance.

✓ and –

The coding system for prekindergarten and kindergarten shall report achievement as “student demonstrates skill” or “student is unable to demonstrate skill.” In prekindergarten and kindergarten, ✓ and – shall be used for all academic subjects.

E, S, and N

In grade 1, the coding system should report achievement as excellent, satisfactory, and needs improvement. An E, S, and N grading scale shall be used for all subjects. In prekindergarten-grade 5, S and N shall be used to grade art, music, physical education, work habits, and conduct.

*Numerical
Grades*

The following numerical scale shall be used to report achievement in language arts, mathematics, science, and social studies in grades 2-5:

Transfer Students

A student who transfers from one school to another during a grading period — interdistrict and intradistrict — shall receive a nine-week grade that combines the average recorded from the sending school with the current average being earned at the receiving school. The weight given to each average should reflect the percent of time the student spent in each school.

Mastery of TEKS
*Acceptable
Overall Mastery*

Secondary students must earn a semester or yearly average of at least 70 to demonstrate acceptable overall mastery of the TEKS for a grade-level subject or course. (To receive credit for a high school course, the student must make at least a 70 average for the second semester of a full-year course and must have an overall average of 70 or better.) Instruction in the TEKS shall occur throughout the semester and year, as shall continuous assessment of student proficiency in mastering the TEKS. Teachers shall use various evaluation data to ascertain the level of student achievement in mastering TEKS. The nature of the TEKS shall determine the assignment(s) used for assessing the student's proficiency level.

End-of-term Mastery Assessment:

~~High School — Semester~~ For students in high school, semester grades shall be computed by allocating a weight of three-sevenths (3/7) for each grading period grade and one-seventh (1/7) for the semester exam.

Final grades for full-year classes in grades 6-12 shall be determined by averaging the two semester grades. Final grades shall be indicated on the student's report card as either pass or fail.

1. Students' grading period averages and semester/final exam grades shall be reported to parents by numerical grades.
2. Students, including middle school students, who take a high school course must take the final exam to earn a grade. If a student fails to take the exam, the student shall earn a zero, which shall be calculated as one-seventh (1/7) of the semester average.
3. Students' semester averages shall be reported to parents by the numerical grade, which shall also appear on the academic achievement record.
4. Teachers must maintain numerical grades in their grade books for each assignment, test, and activity evaluated. In cases where a student's grade falls below 50, the teacher may, at his/her discretion, record in the grade book a grade of 50 rather than the actual grade earned. The teacher may choose to exercise this option when, in his/her professional judgment, the student's academic efforts warrant it.

Campus Decisions The principal at each campus shall work with the faculty to establish specific grading criteria that adhere to the parameters established in this policy and in content-area curriculum guides. Each department's decisions include determining the number and types of grades to be taken and the weighting of various categories of work, e.g., daily, homework, and tests.

Instructional Level The instructional level of courses shall be, in many instances, designated by the course title on the student's report card, e.g., K-level, AP, H for HORIZONS, ICS for in-class support, and the like. Courses with no special designation shall be L-level or on-level courses.

A student not enrolled for a complete grading period in a course may still be awarded a grade and, ultimately, course credit. Teachers shall select from the following options to fit the student's particular circumstances and to ensure that the student has an opportunity to learn all the TEKS presented during the grading period.

1. The teacher shall average the student's grades in the teacher's course with the average the student earned in another school district. The weight given to each average shall reflect the percent of time the student spent in each school district; or
2. The teacher may temporarily record an I for incomplete on the report card until the student completes a sufficient number of assignments over TEKS for a grade to be awarded. Such assignments may be completed outside of class, at tutorials, or during summer school. Determination of when the assignments will be completed shall be based upon the following:

For information related to the selection process of library materials, see EFB.

The District shall provide instructional materials designed to teach the Texas Essential Knowledge and Skills and further the District's educational mission. Although the Superintendent shall ensure that professional staff select instructional materials in accordance with District policy and administrative regulations, the ultimate authority for determining and approving the curriculum and instructional program of the District lies with the Board.

Objectives

In this policy, "instructional materials" may include textbooks, library books when used for assignments, supplementary resources for classroom use, and any other instructional resources, including electronic resources, used for formal or informal teaching and learning purposes. The primary objectives of instructional materials are to implement, enrich, and support the District's educational program.

Selection

Instructional materials that are textbooks and related supplemental materials, which may include items from the list of resources adopted by the State Board of Education, shall be chosen in accordance with administrative regulations and the objectives above. Library books when used as instructional materials in a classroom shall also comply with requirements in EFB(LOCAL).

The Board shall rely on District professional staff to select and acquire instructional materials that:

1. Enrich and support the curriculum consistent with the general educational goals of the state and District, the aims and objectives of individual schools and specific courses, and the District and campus improvement plans.
2. Are appropriate for the subject area and for the age, ability level, learning styles, interests, and social and emotional development of the students for whom they are selected.
3. Meet high standards for artistic quality, literary style, authenticity, educational significance, factual content, physical format, presentation, readability, and technical quality.
4. Present various sides of controversial issues so that students have an opportunity to develop, under guidance, skills in critical analysis and in making informed judgments in their daily

5. Promote literacy.

District professional staff may select additional instructional materials in accordance with administrative regulations and the criteria above.

Administrators, teachers, other District personnel, parents, and community members, as appropriate, may recommend instructional materials for selection. Gifts of instructional materials shall be evaluated according to these criteria and accepted or rejected in accordance with CDC(LOCAL).

Selection of instructional materials is an ongoing process that includes the removal of materials no longer appropriate and the periodic replacement or repair of materials that still have educational value.

**Parent Request for
Instructional Material
Review**

The Superintendent shall develop administrative regulations to ensure compliance with state law and rules that a parent or guardian of a District student may request an instructional materials review for a subject area in the grade level in which their student is enrolled on the basis of the following:

1. The material is not aligned with District-adopted materials; or
2. The material does not have the appropriate rigor for the grade level for the subject area in which the instructional material is used.

The regulations shall also address procedures for submitting a parent petition to review instructional materials, the appeal process if a petition for review is denied, criteria for reviewing any appeal, and timelines for each step in the process.

**Reconsideration of
Instructional
Materials**

A District employee, a parent or guardian of a District student, an adult student, or District resident may request reconsideration of instructional material used in the District's educational program on the basis that the instructional material fails to meet the standards set forth in this policy.

Guiding Principles

The following principles shall guide the Board and staff in responding to a request for reconsideration of instructional materials:

1. A complainant may raise an objection to an instructional material used in a school's educational program, despite the fact that the professional staff selecting the materials were qualified to make the selection, followed the proper procedure, and

INSTRUCTIONAL RESOURCES
INSTRUCTIONAL MATERIALS

EFA
(LOCAL)

adhered to the objectives for instructional materials set out in this policy.

2. A parent's ability to exercise control over instruction extends only to his or her own child as set forth in Education Code Chapter 26.
3. Access to a challenged material shall not be restricted during the reconsideration process, except the District may deny access to a child if requested by the child's parent.

The major criterion for the final decision on challenged instructional materials is the appropriateness of the material for its intended educational use. No challenged instructional material shall be removed solely because of the ideas expressed therein.

Informal
Reconsideration

When the District or a campus receives an objection to the appropriateness of an instructional material, the appropriate administrator shall try to resolve the matter informally. The administrator shall explain the selection process and discuss the intended educational purpose for the instructional material. If appropriate, the administrator may offer a concerned parent an alternative instructional material to be used by that parent's child in place of the challenged material.

If the complainant wishes to make a formal challenge, the administrator shall provide the complainant a copy of this policy and a form to request a formal reconsideration of the instructional material.

Formal Request for
Reconsideration

A complainant shall make any formal request to reconsider an instructional material on the form provided by the District and shall submit the completed and signed form to the principal. Upon receipt of the form, the principal shall appoint a reconsideration committee unless the challenged instructional resource is a supplemental instructional material selected by a classroom teacher or grade level (and not from the District curriculum) and has not already been through an informal reconsideration review. In this event, the campus principal should conduct an informal reconsideration review and make a determination regarding the instructional material. In the event the campus principal determines the instructional material is appropriate, a complainant may elect to proceed with the formal reconsideration process and the principal shall proceed with appointing a reconsideration committee.

The reconsideration committee shall include at least one member of the instructional staff who has experience using the challenged material with students or is familiar with the challenged material's content. Other members of the committee may include District-level staff, secondary-level students, parents, and any other appropriate individuals.

INSTRUCTIONAL RESOURCES
INSTRUCTIONAL MATERIALS

EFA
(LOCAL)

All members of the committee shall review the challenged instructional material in its entirety. As soon as reasonably possible, the committee shall meet and determine whether the challenged material conforms to the principles of selection set out in this policy and whether the challenged material will continue to be used in the educational program. The committee shall prepare a written report of its findings. The Superintendent, other appropriate administrators, and the complainant shall receive copies of the report.

*Frequency of
Review*

After an instructional material has been reviewed through formal reconsideration, it shall not be reviewed again until it is evaluated in the periodic local selection process.

Appeal

The complainant may appeal the decision of the reconsideration committee in accordance with appropriate complaint policies, starting at the appropriate level. [See DGBA, FNG, and GF]

Administrators, teachers, other District personnel, parents, and community members, as appropriate, may recommend instructional materials for selection. Gifts of instructional materials shall be evaluated according to these criteria and accepted or rejected in accordance with CDC(LOCAL).

Selection of instructional materials is an ongoing process that includes the removal of materials no longer appropriate and the periodic replacement or repair of materials that still have educational value.

**Challenged
Resources**
Parent
Request for
Instructional Material
Review

AThe Superintendent shall develop administrative regulations to ensure compliance with state law and rules that a parent or guardian of a District student, ~~a student who is 18 years of age or older, an individual employee, or any District resident may challenge an~~ may request an instructional materials review for a subject area in the grade level in which their student is enrolled on the basis of the following:

6. The material is not aligned with District-adopted materials; or
7. The material does not have the appropriate rigor for the grade level for the subject area in which the instructional material is used.

The regulations shall also address procedures for submitting a parent petition to review instructional materials, the appeal process if a petition for review is denied, criteria for reviewing any appeal, and timelines for each step in the process.

Reconsideration of
Instructional
Materials

A District employee, a parent or guardian of a District student, an adult student, or District resident may request reconsideration of instructional material used in the District's educational program on the basis that the instructional material fails to meet the standards set forth in this policy.

Guiding Principles

The following principles shall guide the Board and staff in responding to ~~challenges~~ a request for reconsideration of instructional materials:

8. ~~6.~~A complainant may raise an objection to an instructional material used in a school's educational program, despite the

INSTRUCTIONAL RESOURCES
INSTRUCTIONAL MATERIALS

EFA
(LOCAL)

fact that the professional staff selecting the materials were qualified to make the selection, followed the proper procedure, and adhered to the objectives for instructional materials set out in this policy.

9. ~~7.~~A parent's ability to exercise control over instruction extends only to his or her own child as set forth in Education Code Chapter 26.

10. ~~8.~~Access to a challenged material shall not be restricted during the reconsideration process, except the District may deny access to a child if requested by the child's parent.

The major criterion for the final decision on challenged instructional materials is the appropriateness of the material for its intended educational use. No challenged instructional material shall be removed solely because of the ideas expressed therein.

Informal
Reconsideration

When the District or a campus receives an objection to the appropriateness of an instructional material, the appropriate administrator shall try to resolve the matter informally. The administrator shall explain the selection process and discuss the intended educational purpose for the instructional material. If appropriate, the administrator may offer a concerned parent an alternative instructional material to be used by that parent's child in place of the challenged material.

If the complainant wishes to make a formal challenge, the administrator shall provide the complainant a copy of this policy and a form to request a formal reconsideration of the instructional material.

Formal Request for
Reconsideration

A complainant shall make any formal ~~challenge to~~request to reconsider an instructional material on the form provided by the District and shall submit the completed and signed form to the principal. Upon receipt of the form, the principal shall appoint a reconsideration committee unless the challenged instructional resource is a supplemental instructional material selected by a classroom teacher or grade level (and not from the District curriculum) and has not already been through an informal reconsideration review. In this event, the campus principal should conduct an informal reconsideration review and make a determination regarding the instructional material. In the event the campus principal determines the instructional material is appropriate, a complainant may elect to proceed with the formal reconsideration process and the principal shall proceed with appointing a reconsideration committee.

The reconsideration committee shall include at least one member of the instructional staff who has experience using the challenged material with students or is familiar with the challenged material's content. Other members of the committee may include District-

level staff, secondary-level students, parents, and any other appropriate individuals.

All members of the committee shall review the challenged instructional material in its entirety. As soon as reasonably possible, the committee shall meet and determine whether the challenged material conforms to the principles of selection set out in this policy and whether the challenged material will continue to be used in the educational program. The committee shall prepare a written report of its findings. The Superintendent, other appropriate administrators, and the complainant shall receive copies of the report.

*Frequency of
Review*

After an instructional material has been reviewed through formal reconsideration, it shall not be reviewed again until it is evaluated in the periodic local selection process.

Appeal

The complainant may appeal the decision of the reconsideration committee in accordance with appropriate complaint policies, starting at the appropriate level. [See DGBA, FNG, and GF]

Note: Unless otherwise noted, the terms “video recording,” “video surveillance,” and “video monitoring” shall also include any associated audio recordings. In addition, the term “classroom” shall also include other special education settings subject to video and audio recording required by law.

To promote student safety, the District shall comply with requests for video and audio monitoring of certain ~~self-contained~~ special education classrooms as required by law. Regular or continual monitoring of video recordings shall be prohibited. Video recordings shall not be used for teacher evaluation or monitoring or for any purpose other than the promotion of student safety.

The ~~Superintendent~~ Superintendent is responsible for coordinating the provision of equipment to campuses in compliance with the law.

The Superintendent shall ensure that administrative regulations are developed to implement this policy.

Requests

For Following Year

A parent of a student receiving special education services and whose placement for the following school year will be in a ~~self-contained~~ special education classroom eligible for video surveillance may request in writing that a video camera be placed in the classroom by the end of the current school year or by the ~~tenth~~ 10th District business day after the student’s admission, review, and dismissal (ARD) committee determines the student’s placement, whichever is later. If such a request is made, the campus shall begin operation of the camera by the deadlines in law, except when the District is granted an extension of time. (“District business day” means a day that the District’s instructional support center is fully open to the public.)

For Current Year

Written requests from a parent, assistant principal, principal, staff member, or the Board shall be submitted and processed in accordance with the procedures in law.

Response

As required by law, the District shall provide a response to the requester not later than the seventh District business day after receipt of the request.

Notice

Before a camera is activated, the principal shall provide advance written notice to staff on the campus and to parents of the students assigned to or engaging in school activities in the classroom that video and audio surveillance will be conducted in the classroom. If a parent who requested installation of a camera in an eligible classroom withdraws his or her child from the District prior to the

camera being installed and active, the District shall consider the parent's request to be withdrawn.

Installation and Operation

The classroom subject to the request shall begin operation of video surveillance not later than the time frames required in law, except when the District is granted an extension of time.

When the District has installed video cameras in a classroom as required by law, the District shall operate the cameras during the instructional day at all times when one or more students are in the classroom. For purposes of this policy, the instructional day shall be defined as the portion of a school day during which instruction is taking place in the classroom.

For the school year in which a campus receives a request for video and audio surveillance, the campus shall continue to operate and maintain any video cameras placed in the classroom for as long as the classroom continues to satisfy the requirements in Education Code 29.022(a). However, the campus may discontinue operation of the video camera during the year if the requester withdraws the request in writing and no request is submitted to continue the surveillance. Before a camera is deactivated, the principal shall provide advance written notice to staff on the campus and to parents of the students assigned to or engaging in school activities in the classroom that video and audio surveillance will be discontinued in the classroom and of the opportunity to request continued video and audio surveillance.

Video cameras must be capable of recording video and audio of all areas of the eligible classroom, including a room attached to the classroom used for time out as defined by law. No visual monitoring, other than incidental coverage, shall be conducted of the inside of a bathroom or other area used for changing a student's clothes in an eligible classroom. However, audio recording of the inside of the eligible bathroom or area of the eligible classroom where a student's clothes are changed is required.

The District shall post notice at the entrance to a classroom in which video cameras are placed stating that video and audio surveillance is conducted in that classroom.

Retention of Recordings

Video recordings shall be retained for at least three months after the date of the recording but may be retained for a longer period in accordance with the District's records management program, or as required by law. [See CPC]

Confidentiality of Recordings

Video recordings made in accordance with this policy shall be confidential and shall only be released or viewed by the individuals and in the limited circumstances permitted by law. The following individuals may have authority to view video recordings to the extent permitted by the Family Educational Rights and Privacy Act (FERPA):

1. A District employee or a parent of a student who is involved in an alleged incident documented by a recording and reported to the District;
2. Appropriate Department of Family and Protective Services (DFPS) personnel as part of an investigation of alleged abuse or neglect of a child;
3. A peace officer, school nurse, District administrator trained in de-escalation and restraint techniques, or human resource staff member in response to a report of an alleged incident or an investigation of an employee or a report of alleged abuse committed by a student; and
4. Appropriate Texas Education Agency or State Board for Educator Certification personnel or their agents as part of an investigation.

For purposes of this policy, the term “human resource staff member” shall include the Superintendent, a principal, an assistant principal or other campus administrator, and any supervisory position within the District’s human resources office. If an individual listed in items ~~2-4~~2-4, above, believes that a recording shows a violation of District policy or campus procedures, the individual may allow access to the recording by appropriate legal and human resources personnel designated by the District for the purpose of determining whether a policy or procedure has been violated.

The District is not required to provide video equipment to a campus of another district, charter school, or nonpublic school.

Any person who suspects that child abuse or neglect has occurred shall report this suspicion as required by law and District policy. [See FFG]

Reporting an Incident

A person alleging that an incident, as defined by law, has occurred in a classroom in which video surveillance is conducted shall file a report on the form provided by the District with the principal as soon as possible after the person suspects the alleged incident. If possible, an incident report form shall be filed within ~~48~~24 hours of the facts giving rise to the allegation. The principal shall promptly view, or direct an authorized individual to view, the video surveillance footage to identify the relevant portion of the recording. No

later than ~~ten District business days~~ 10 District business days after the report is filed, the principal or designee shall respond by notifying the person whether the alleged incident was recorded in the District's video surveillance footage and shall initiate other steps as required by law, District policy, or local procedures.

Complaints

Complaints related to video and audio recordings under this policy shall be filed in accordance with DGBA, FNG, or GF, as applicable. A complainant who is dissatisfied with the outcome of the District's complaint process may appeal in writing to the commissioner of education in accordance with Education Code 7.057 and 19 Administrative Code 103.1303. A parent, staff member, or District administrator may request an expedited review in limited circumstances in accordance with 19 Administrative Code 103.1303 during an appeal to the commissioner, as allowed by law.

**Expedited Review for
Denial of Requests**

Denial of requests for installation of cameras and release of copies of video and requests for an extension of time for the installation of cameras may be subject to a request for expedited review by the commissioner of education simultaneously with the grievance process. Once an eligible request is administratively denied, the requestor may appeal the denial using the local complaint process but may also request an expedited review by the commissioner simultaneously, however, the requestor must still exhaust administrative remedies through the school district's grievance process even if the requestor opts for the expedited review process as well, in accordance with 19 Administrative Code 103.1303.

An expedited review allows a requestor to receive a preliminary judgment from the commissioner as to a decision to deny a request related to a video while at the same time respecting the school grievance process. A request for an expedited review shall be filed with the commissioner by the deadlines in law. However, the final commissioner's decision is to be based on the substantial evidence review of the school district's grievance record.

Expedited Review
Exception

The expedited review process does not apply to a request to view a video.

Extension of Time

A request by a school district for an extension of time to begin the operation of a video camera shall be filed with the commissioner by the deadlines in law. The procedures governing these proceedings are found at 19 Administrative Code 103.1303 and Texas Education Code 29.022.

Trafficking, and
Maltreatment**

The District's program to address child sexual abuse, trafficking, and other maltreatment of children, as included in the District improvement plan and the student handbook, shall include:

1. Methods for increasing staff, student, and parent awareness regarding these issues, including prevention techniques and knowledge of likely warning signs indicating that a child may be a victim;
2. Age-appropriate, research-based antivictimization programs for students;
3. Actions that a child who is a victim should take to obtain assistance and intervention; and
4. Available counseling options for affected students.

Training

The District shall provide training to employees as required by law and District policy. Training shall address techniques to prevent and recognize sexual abuse, trafficking, and all other maltreatment of children, including children with significant cognitive disabilities. [See DMA]

[See BBD for Board member training requirements and BJCB for Superintendent continuing education requirements.]

**Reporting Child
Abuse and Neglect**

Any person who has reasonable cause to believe that a child's physical or mental health or welfare has been adversely affected by abuse or neglect has a legal responsibility, under state law, to immediately report the suspected abuse or neglect to an appropriate authority. In accordance with law, the definitions of abuse and neglect specifically exclude the refusal of a person responsible for a child's care, custody, or welfare to affirm the child's expressed sexual orientation or perception of the child's gender, including a refusal to use the child's preferred name or pronouns, regardless of whether the child's name has been legally changed.

As defined in state law, child abuse and neglect include both sex and labor trafficking of a child.

The following individuals have an additional legal obligation to submit a written or oral report within ~~48~~24 hours of learning of the facts giving rise to the suspicion of abuse or neglect:

1. Any District employee, agent, or contractor who suspects a child's physical or mental health or welfare has been adversely affected by abuse or neglect.
2. A professional who has reasonable cause to believe that a child has been or may be abused or neglected or may have been a victim of indecency with a child. A professional is anyone licensed or certified by the state who has direct contact

with children in the normal course of duties for which the individual is licensed or certified.

A person is required to make a report if the person has reasonable cause to believe that an adult was a victim of abuse or neglect as a child and the person determines in good faith that disclosure of the information is necessary to protect the health and safety of another child or an elderly or disabled person.

Oral Reports

[For parental notification requirements regarding an allegation of ~~educator~~ misconduct with a student, see FFF.]

As required by law, an oral report made to the Texas Department of Family and Protective Services (DFPS) is recorded.

Restrictions on Reporting

In accordance with law, an employee is prohibited from using or threatening to use (1) a parent's refusal to consent to administration of a psychotropic drug or to any other psychiatric or psychological testing or treatment of a child or (2) a parent's choice of recognized alternative health care treatment or therapy for the child that could be considered as new, emerging, or nonstandard as the sole basis for making a report of neglect, unless the employee has cause to believe that the refusal:

1. Presents a substantial risk of death, disfigurement, or bodily injury to the child; or
2. Has resulted in an observable and material impairment to the growth, development, or functioning of the child.

Making a Report

Reports may be made to any of the following:

1. A ~~state or local~~ law enforcement agency, as defined in law;
2. The Child Protective Services (CPS) division of DFPS at 800-252-5400 or the [Texas Abuse Hotline website](#)¹;
3. A local CPS office; or
4. If applicable, the state agency operating, licensing, certifying, or registering the facility in which the suspected abuse or neglect occurred.

However, if the suspected abuse or neglect involves a person responsible for the care, custody, or welfare of the child, the report must be made to DFPS, unless the report is to the state agency that operates, licenses, certifies, or registers the facility where the suspected abuse or neglect took place; or the report is to the Texas Juvenile Justice Department as a report of suspected abuse or neglect in a juvenile justice program or facility. As defined by law, a

person responsible for the care, custody, or welfare of a child includes school personnel and volunteers and day-care workers.
[See FFG(LEGAL)]

An individual does not fulfill his or her responsibilities under the law by only reporting suspicion of abuse or neglect to a campus principal, school counselor, or another District staff member. Furthermore, the District is prohibited from requiring an employee to first report his or her suspicion to a District or campus administrator.

In accordance with law, an individual must provide their name and telephone number when making a report. If the individual making the report is a school employee, agent, or contractor, they must also provide their business address and profession.

Confidentiality

The identity of a person making a report of suspected child abuse or neglect shall be kept confidential and disclosed only in accordance with the law and the rules of the investigating agency.

Immunity

A person who in good faith reports or assists in the investigation of a report of child abuse or neglect is immune from civil or criminal liability.

**Failing to Report
Suspected Child
Abuse or Neglect**

By failing to report suspicion of child abuse or neglect, an employee:

1. May be placing a child at risk of continued abuse or neglect;
2. Violates the law and may be subject to legal penalties, including criminal sanctions for knowingly failing to make a required report;
3. Violates Board policy and may be subject to disciplinary action, including possible termination of employment; and
4. May have his or her certification from the State Board for Educator Certification suspended, revoked, or canceled in accordance with 19 Administrative Code Chapter 249.

~~Guiding Principles~~

Informal Process

The Board encourages the public to discuss concerns with an appropriate administrator who has the authority to address the concerns. Concerns should be expressed as soon as possible to allow early resolution at the lowest possible administrative level.

Informal resolution shall be encouraged but shall not extend any deadlines in this policy, except by mutual written consent.

Filing Deadlines

If a member of the public has engaged in the informal process in an attempt to resolve the complaint with the District and has not reached a resolution during the process, the individual must file a complaint within 15 business days of the date the individual first knew, or with reasonable diligence should have known, of the decision or action giving rise to the complaint or grievance.

Deadline Extensions

Because deadlines are substantive and not procedural, deadlines shall be strictly followed unless otherwise required by law or modified by mutual written consent.

Formal Process

An individual may initiate the formal process described below by timely filing a written complaint form.

~~Even after initiating the formal complaint process, individuals are encouraged to seek informal resolution of their concerns. An individual whose concerns are resolved may withdraw a formal complaint at any time.~~

The complaint form shall be filed with the lowest level administrator who has the authority to remedy the alleged problem. In most circumstances, the individual shall file a Level One complaint with the campus principal for any complaint on a matter related to a campus. For a complaint that arises on a matter that is unrelated to a campus, the complaint shall be filed with the appropriate District-level administrator.

If the subject matter of the complaint requires a Board decision, is a complaint about a Board member, or is a complaint about the Superintendent, the complaint shall be initiated at the Board level. A preliminary hearing to develop a record or recommendation for the Board may be conducted by an appropriate administrator.

A Board member shall be permitted to file a complaint under this policy, but, if the complaint is considered by the Board or Board committee, the Board member shall be prohibited from voting on the Board’s or Board committee’s decision.

If the complaint is not filed with the appropriate administrator, the receiving administrator must note the date and time the complaint form was received and immediately forward the complaint form to the appropriate administrator.

Option to Continue Informal Process

Even after initiating the formal complaint process, the complainant is encouraged to seek informal resolution of their concerns. A complainant whose concerns are resolved may withdraw a formal complaint at any time.

Notice of Complaint

A District employee against whom a complaint has been filed shall be provided notice of the complaint in accordance with administrative regulations. The employee shall have sufficient opportunity to submit a written response to the complaint that shall be included in the record of the complaint.

Freedom from Retaliation

Neither the Board nor any District employee shall unlawfully retaliate against any individual for bringing a concern or complaint.

An employee eligible to earn paid leave benefits shall be reimbursed for earned accumulated local leave, state sick leave, and state personal leave if the employee is eligible to retire under the regulations of the Texas Teacher Retirement System (TRS) and submits a letter of resignation giving notice of retirement from the District.

For an employee whose local, state sick, and state personal leave days have been accumulated on less than a full-day (seven-hour) work schedule, leave days shall be converted to full-day equivalents for this benefit.

The following guidelines shall apply:

1. An eligible employee is defined as one who is eligible to retire and receive a standard annuity that is not reduced for early retirement under the TRS Program. If an employee meets the criteria to retire under TRS and another state system, and elects the other retirement system, the employee is eligible for reimbursement of earned accumulated leave upon retirement.
2. Maximum benefits shall only be paid to employees who have been employed by the District for 10 years prior to retirement. Employees who have been employed five to nine years may draw 50 percent to 90 percent of the maximum benefit, respectively.
3. The one-time maximum benefit to an employee shall be \$125 for each unused day of local leave, state sick leave, and state personal leave, not to exceed a maximum of 150 days.
4. This benefit shall be paid to employees who submit their resignation with the intent to retire either:
 - a. At the completion of the semester as identified in the current school calendar; or
 - b. At the completion of their annual work calendar year.

Superintendent's
Recommendation

The Board shall consider such information, as appropriate, in support of recommendations for proposed nonrenewal and shall then act on all recommendations.

The initial notice or any subsequent notice shall contain the hearing procedures.

Request for Hearing

If the employee desires a hearing after receiving the notice of proposed nonrenewal, the employee shall notify the Board in writing not later than the 15th day after the date the employee received the notice of proposed nonrenewal.

When a timely request for a hearing on a proposed nonrenewal is received by the presiding officer, the Board shall notify the employee of the date and time of the hearing, which shall be held not later than the 15th day after receipt of the request, unless the parties mutually agree to a delay.

Hearing By the Board

Unless the employee requests that the hearing be open, the hearing shall be conducted in closed meeting with only the members of the Board, the employee, the Superintendent, their representatives, and such witnesses as may be called in attendance. Witnesses may be excluded from the hearing until called to present evidence. The employee and the administration may choose a representative. This notice shall also include the Board's decision on renewal, which decision shall be final.

The employee's identity shall only be revealed when necessary for the team, the District, or law enforcement to investigate the reported threat.

The District shall maintain a record of the identity of a District employee who elects for the employee's identity to remain confidential.

Notification to
Teaching Staff of
Threat

As soon as safe and practicable after an administrator or team receives information regarding a threat against a campus, including a threat made through social media, the appropriate administrator or the team shall immediately provide to each member of the teaching staff, including teacher aides, who may be directly affected by the threat a statement containing the following information:

The Superintendent shall develop administrative regulations to ensure that the required notice is provided to the teaching staff in accordance with law. The administrative regulations may also address notification of other appropriate employees on the affected campus.

Imminent Threats or
Emergencies

A member of the team or any District employee may act immediately to prevent an imminent threat or respond to an emergency, including contacting law enforcement directly.

Threat Assessment
Process

The District shall develop procedures as recommended by the Texas School Safety Center. In accordance with those procedures,

the threat assessment and safe and supportive team shall conduct threat assessments using a process that includes:

1. Identifying individuals, based on referrals, tips, or observations, whose behavior has raised concerns due to threats of violence or exhibition of behavior that is harmful, threatening, or violent.
2. Conducting an individualized assessment based on reasonably available information to determine whether the individual poses a threat of violence or poses a risk of harm to self or others and the level of risk.
3. Implementing appropriate intervention and monitoring strategies, if the team determines an individual poses a threat of harm to self or others. These strategies may include referral of a student for a mental health assessment and escalation procedures as appropriate.

For a student or other individual the team determines poses a serious risk of violence to self or others, the team shall immediately report to the Superintendent, who shall immediately attempt to contact the student's parent or guardian. Additionally, the Superintendent shall coordinate with law enforcement authorities as necessary and take other appropriate action in accordance with the District's multihazard emergency operations plan.

For a student the team identifies as at risk of suicide, the team shall follow the District's suicide prevention program.

For a student the team identifies as having a substance abuse issue, the team shall follow the District's substance abuse program.

For a student whose conduct may constitute a violation of the District's Student Code of Conduct, the team shall make a referral to the campus behavior coordinator or other appropriate administrator to consider disciplinary action.

As appropriate, the team may refer a student:

1. To a local mental health authority or health-care provider for evaluation or treatment; or
2. For a full individualized and initial evaluation for special education services.

The team shall not provide any mental health-care services, except as permitted by law.
