RE: Fund Balance Update – 12/31/11

SUMMARY:

Attached is an analysis of year end fund balance activity as of 12/31/11.

The assumptions used in the analysis:

- State and Local Revenue based on 1st Semester ADA information taking into account similar adjustment from last year's 1st semester to end of year results.
- Tax collection projections based on budgeted amounts
- Interest Income based on budgeted amounts
- 6100 projected expenditures are based on current year staffing taking into account lapse caused from early pay out of certain positions.
- 6200-6500 projected expenditures are based on budgeted amounts
- 6600 expenditures have been actually reviewed and based on 100% technology expenditures being made and review of specific line items.

Based on the above assumptions:

- State Revenue is projected to be $400,000 higher than budgeted
    - ADA is higher than budgeted
- Attrition savings net of reallocated federal salaries is projected to be $700,000
- Savings associated with reduced sub costs is projected to be $100,000
- Generator project savings is projected to be $100,000
- Contingency need to date allows for $400,000 to be unallocated

Bottom line addition to Fund Balance is $1,733,475 in lieu of the $33,475 currently budgeted.

Summary for the Fund Balance for this year based on above and anticipated expenditures from Mr. Mayfield and next with the assumption that next year equals balanced budget with salary increase is attached for your review. Information shared is worst case.
