RE: Empowering Writers Purchase

SUMMARY:

Board Policy CH(LOCAL) requires board approval on purchases in excess of $50,000. The policy states "The Board delegates to the Superintendent or designee the authority to make budgeted purchases for goods or services. However, any single, budgeted purchase of goods or services that costs $50,000 or more shall require Board approval before a transaction may take place, unless the purchase falls into function 35 in a categorical exemption.".

The Curriculum Department is working with Empowering Writers to offer 3 workshops for several groups of GISD teachers. The workshops require the purchase of resources to be used in the workshops as well as the classroom after the training. The cost of these resources is projected to be $27,393. The cost of the professional services related to the training days is $28,600. The total cost of the training will be $55,993.

The funding will be Title I for the majority with Title II maybe picking up a portion of the cost.

The training and resources are sole source.

The following recommendation is that of Mrs. Sharon Williams.

RECOMMENDATION:

It is recommended that the purchase from Empowering Writers described above be approved as presented.

Respectfully submitted,

Sharay S. Boynton
Executive Director of Finance

		RE:	**Inter-local Agreement Between Hood County and Granbury ISD**

SUMMARY:

We have had numerous discussions with the County and the YMCA regarding this agreement. The agreement you have is what our legal counsel drafted on our behalf after several meetings and conference calls. The main thing to remember is that this is a contract between GISD and Hood County, because that is who we are deeding the land to. The YMCA is a third party operator who will contract with the County. So, our agreement is not with the YMCA. That has been a little point of contention in our discussions. But, we believe this contract best protects our school district and our students. Please call if you have questions or need any clarification on this matter.

Respectfully submitted,

Dr. James M. Largent
Superintendent

Vision: **All students are equipped with skills to be inspired, contributing citizens excelling in any chosen endeavor within a dynamic global society.**

Beliefs:

We believe students' futures are impacted by access to and use of opportunities to foster their unique capabilities and interests.

We believe partnerships between parents, students, teachers, and the community are vital to the success of our school system.

We believe cultivating positive relationships is essential for successful learning.

We believe adaptable students who are life-long learners will be empowered to shape their world.

We believe providing an optimal environment enables each student to discover his or her full learning potential.

Mission: **Our mission, in collaboration with unique partnerships, is to provide a rigorous academic curriculum along with enriching and individualized opportunities empowering every student to compete in an ever-changing world.**

Objectives:

- Beginning in 2013-2014, every student will participate in a community service project of their choosing each year.
- By 2016, Granbury ISD will have the technology infrastructure required to provide 100% of our learners access to the technology tools necessary to compete in an ever-changing world.
- All students will plan, monitor, and assess their own individualized academic goals.
- In order to enhance academic rigor, project-based learning will be implemented on all campuses (K-12) to enhance critical thinking, problem-solving, and communication in an optimal environment

Goals:

- We will foster an environment where students, their families, staff, and the community provide a unified network of support that integrates positive relationship building and high expectations where every diverse member is valued.
- We will implement a rigorous and engaging curriculum that integrates new technology, fosters partnerships, and utilizes innovative instructional strategies in order for every student to attain his or her individual goal.
- We will provide an optimal technology infrastructure to support the on-going transformation of programs, services, and tools throughout every facet of the district.
- We will commit to evaluate, update, and invest in safe, state-of-the-art facilities providing optimal environments for all current and future programs for students.
- We will provide flexibility within the school day to allow individualized opportunities for students as well as teacher preparation and collaboration to support rigorous academic curriculum.
- We will provide support and assistance in learning experiences ensuring equitable resources and opportunities for all students and families.

Specific Results for Goals:

Goal 1: We will foster an environment where students, their families, staff, and the community provide a unified network of support that integrate positive relationship building and high expectations where every diverse member is valued.

- Insert a mobile unit into communities, neighborhoods, local festivals and activities, extracurricular events, and summer programs to promote and provide an outreach for the community
- Provide a system-for district initiatives (trainings, programs, etc.) to establish and expand a culture where kindness and compassion are prevalent among all stakeholders
- Establish a liaison to bridge community resources to meet the needs of our families. (cross-referenced in 6.2)
- Promote and celebrate GISD to encourage participation and buy-in o all our stakeholders by expanding connections and communication with families and our community members and utilizing technology to get the information to the public
- Implement in-house campus/district opportunities that bring teachers and administrators together to foster professional relationships

Goal 2: We will implement a rigorous and engaging curriculum that integrates new technology, fosters partnerships, and utilizes innovative instructional strategies in order for every student to attain his or her individual goal.

- choose a project based learning model based on its proven efficacy at all levels that fosters GISD common language and dynamic classrooms
- implement the chosen project-based learning model by assembling a core group of teachers at each level who will visit successful sites and serve as trainers of teachers
- schedule multiple sessions throughout the school calendar for teacher collaboration, planning, and implementation of our rigorous and engaging curriculum, to include but not be limited to technology, project-based learning, and partnership objectives (cross-referenced in 5.2)
- schedule multiple sessions throughout the school calendar for teacher collaboration, planning, and implementation of our rigorous and engaging curriculum, to include but not be limited to technology, project-based learning, and partnership objectives
- evaluate the implementation of our chosen project-based learning model through the reflection of all stakeholders

Goal 3: We will provide an optimal technology infrastructure to support the on-going transformation of programs, services, and tools throughout every facet of the district.

- Ensure a robust infrastructure able to support a 1:x environment with the ability to grow with increased student needs and technology and the ability to implement ever-changing industry standards.
- Facilitate access to all GISD resources both at and away from school.
- Provide professional development to support all content areas and departments seamlessly incorporating technology
- Develop a minimum standard of available tools for every classroom
- Implement technology offerings in courses at all levels in order to equip students to adapt in a technology driven society

See Design Team Recommendations attached

Goal 4: We will commit to evaluate, update, and invest in safe, state-of-the-art facilities providing optimal environments for all current and future programs for students.

- Provide safe facilities for all current and future GISD programs (including classrooms, co-curricular, extra-curricular, support services and campus administration)
- Provide state-of the-art facilities for all current and future GISD programs (including classrooms, co-curricular, extra-curricular, support services and campus administration)
- Provide state-of-the-art administrative facilities in order to provide support for all current and future GISD programs

See Design Team Recommendations attached

Goal 5: We will provide flexibility within the school day to allow individualized opportunities for students as well as teacher preparation and collaboration to support rigorous academic curriculum.

- Implement flexible scheduling to provide students opportunities for in depth, rigorous and relevant learning
- Provide opportunities for teachers to collaborate throughout the school year (cross-referenced in 2.3)
- Establish specific times dedicated for teacher preparation at the end of each grading period
- Construct a calendar that includes professional development days balanced throughout the school year

Goal 6: We will provide support and assistance in learning experiences ensuring equitable resources and opportunities for all students and families.

- Establish and maintain a dynamic centralized database of resources available for our students, families and educators to give them the opportunities for success
- Designate a person dedicated to the coordination of resources and support between school personnel, the community, students, and their families (cross-referenced in 1.3)
