## **ALEDO ISD BOARD MEETING TEMPLATE**

**MEETING DATE:** June 15, 2026

**AGENDA ITEM:** Consider Approval of Low Attendance Day Waiver

### **BACKGROUND INFORMATION:**

- Districts or campuses can request a waiver to excuse any instructional days from ADA and FSP funding calculations that have attendance at least 10 percentage points below the last school year's overall average attendance, for the district or applicable campus due to inclement weather, health, or safety-related issues.
- On May 11, 2026, Aledo High School reported an attendance rate of 78.95%, which was at least 10 percentage points below the campus's overall attendance rate from the prior school year due to health-related issues.
- The total number of waiver day minutes for a campus may not exceed 4,200 minutes for the year, including low attendance, staff development or missed school days waiver minutes. Aledo High School is in compliance with the 4,200 minute rule.

### **FISCAL INFORMATION:**

The waiver will exclude this attendance percentage from ADA and FSP funding calculations.

### **ATTACHMENTS:**

None.

### **ADMINISTRATIVE RECOMMENDATION:**

Administration recommends the approval for Aledo ISD to seek a TEA Low Attendance Day Waiver for May 11, 2026, for Aledo High School for the 2025-2026 school year.

## **ALEDO ISD BOARD MEETING TEMPLATE**

**MEETING DATE:** June 15, 2026

Districts that are interested in fulfilling the requirement of TEC, §32.258 to provide teacher access to student assessment data through a local student data system must apply for an expedited waiver from the Texas Education Agency (TEA).
- Since 2012, AISD has used Eduphoria AWARE as the local student data system where teachers have access to local and state assessment data for their students.
- This waiver may be requested for up to three years and, if approved, AISD would not be required to request this waiver again until the summer of 2029.

### **FISCAL INFORMATION:**

There are no fiscal implications.

### **ATTACHMENTS:**

None

### **ADMINISTRATIVE RECOMMENDATION:**

Administration recommends the approval for Aledo ISD to seek a TEA Teacher Data Portal Waiver for the 2026-2027, 2027-2028 and 2028-2029 school years.

# FOCUS ON LEARNING

We acknowledge that the fundamental purpose of our school is to help all students achieve high levels of learning, and therefore, we work collaboratively to clarify what students must learn and how we will monitor each student's learning. We provide students with systematic interventions when they struggle and extension when they are proficient.

Indicator	Initiating	Implementing	Developing	Sustaining
We build shared knowledge regarding the TEKS, district documents, and trends in student achievement and work with our colleagues to clarify the criteria by which we will judge student work.	Teams are aware of the essential learning standards and some teachers use the district curriculum documents consistently.	Teams clarify the essential learning standards for each unit and most teacher lessons reflect the decisions made by the collaborative team.	Teams clarify the essential learning outcomes by building shared knowledge through deconstruction of the learning standards. All teachers work collaboratively as a team to study and backward design from summative assessments and agree on the specific success criteria students must achieve to be deemed proficient.	Teams possess a deep understanding of the TEKS and the success criteria that students must achieve to demonstrate mastery and use this information to drive instruction. Teams have a systematic process for backward design and are committed to providing students with instruction and support to achieve the intended outcomes, giving every student access to essential learning.
We monitor each student's mastery of all essential standards on a timely basis through a series of frequent, standards-based common formative assessments that are aligned with summative assessments students will be required to take.	Teams have yet to develop formative assessments to monitor student learning. Some teachers use data from assessments to drive instructional decisions.	Teams have begun to create common formative assessments to monitor student learning; however, data is used primarily to make individual decisions about instructional practices.	Teams build capacity by creating common formative assessments and using results from common formatives to develop more effective instructional strategies.	Teams determine the effectiveness of instructional strategies based on evidence of student learning rather than teacher preference or precedent.  Common formative assessments are used on a regular basis to identify students who need additional time and support for learning as well as provide another opportunity to demonstrate mastery of learning.
We provide a system of interventions that guarantees each student will receive additional time and support for learning if he or she experiences initial difficulty. Students who are proficient have access to extended learning opportunities.	Opportunities for intervention and extension are left to individual teachers to carry out within their own classrooms. Some teachers attempt to systematically intervene on essential standards when students experience difficulty.	While most teachers see the benefit of systematically grouping students, intervening and extending based on data is not an on-going cycle where teams continually adjust based on most recent assessments.	Teams track each student's proficiency on essential standards and utilize results from common formatives in a timely manner for interventions and extensions.	The system for intervention and extension is proactive, fluid, and directive rather than invitational. Achievement of each student is monitored on a frequent basis, and all students are guaranteed access to this system of intervention.

# FOCUS ON COLLABORATIVE CULTURE

We are committed to working together to achieve our collective purpose of learning for all students. We cultivate a collaborative culture through the development of high-performing teams.

Indicator	Initiating	Implementing	Developing	Sustaining
We are organized into collaborative teams in which members work interdependently to achieve common goals that directly impact student achievement.	Teachers are assigned to collaborative teams and are encouraged to work together collaboratively.	Teachers work together during collaborative time and share the workload to achieve individual classroom goals.	Teachers work interdependently to achieve goals specifically related to higher levels of student achievement and focus their efforts on discovering better ways to achieve common goals for the course or grade level.	The collaborative process is deeply ingrained in the team culture. Teams are self-directed and very skillful in advocacy and inquiry to monitor student improvement.
Structures have been put in place to ensure: 1. Collaboration is embedded in our routine work practice. 2. We are provided with time to collaborate. 3. We are clear on the critical questions that should drive our collaboration. 4. Our collaborative work is monitored and supported.	Some team members may elect to work with colleagues on topics of mutual interest. Some team members are co-laboring in an effort to improve student achievement.	Most teams member are clear regarding how they should use the collaborative time. Most work is focused on the Four Critical Questions and/or matters related to teaching and learning. Most teachers believe the team meeting is a productive use of their time.	Team members are assigned roles and honor their collective commitments. Team leaders develop agendas and help lead the collaborative process to ensure topics have a positive impact on student achievement. All work is focused on the Four Critical Questions and/or matters related to teaching and learning. The collaborative process directly impacts teacher practice in the classroom, helping each teacher clarify what to teach, how to assess, and how to improve instruction.	The collaborative team process serves as a powerful form of job-embedded professional development because members learn from one another, identify common problems, and engage in action research. The Four Critical Questions consistently drive the PLC process. Evidence of student learning is transparent among members of the team and members make judgments about the effectiveness of different practices on the basis of that evidence.

# FOCUS ON RESULTS

We assess our effectiveness on the basis of results rather than intentions. Individuals, teams, and schools seek relevant data and information and use it to promote continuous improvement.

Indicator	Initiating	Implementing	Developing	Sustaining
Collaborative teams work interdependently to achieve one or more SMART goals that impact student achievement. Each team has identified specific action steps members will take to achieve the goal and a process for monitoring progress toward the goal.	Teams have established annual SMART goals; however, goals do not drive the work of the collaborative team.	Teams have established annual SMART goals tied to student learning and work together to identify strategies for becoming more effective at achieving the goal.	Teams have established a series of short term goals and action steps to monitor their progress towards their SMART goal. The SMART goal drives the collaborative team process.	Teams take ownership of establishing short term and long term goals with action steps that guide the work of the collaborative team. Teams have a consistent process for monitoring their progress towards the attainment of the SMART goal.  The recognition and celebration of efforts to achieve goals helps sustain the improvement process and keeps the focus on higher levels of student achievement.
Collaborative teams regard ongoing analysis of evidence of student learning as a critical element in the teaching and learning process. They use that information to: *Respond to students who are experiencing difficulty *Extend the learning of students who are proficient *Inform and improve the individual and collective practice of members *Identify team professional development needs *Measure progress toward team goals	Some teachers analyze and use assessment results of team created common formative assessments.  Some teachers see the value of sharing individual data rather than only looking at the aggregate performance of the group.	Teams create and administer common formative assessments and analyze the results together.  Most teachers see the value of sharing individual data rather than only looking at the aggregate performance of the group.  Teams may not yet be using the analysis of results to inform or improve professional practice.	Teams collaborate to create common formatives, consistently analyze data, and group students based on results from recent assessment data. Teams have a system in place for tracking progress of interventions and extensions that is fluid and based on evidence of need.  Students receive interventions and extensions on essential standards. Systems of intervention and extension focus on priority content areas identified at the campus and/or district level based on student data trends.  Teams use the results to identify areas of success, areas of concern, and to discuss strategies for improving the results.	Data from team created common formative assessments is critical to the work of the team and consistently drives instructional decisions made by the team.  Teachers use data to identify the strengths and weaknesses in their individual practice, improve their collective capacity to help all students learn, identify problematic areas in curriculum, and consistently provide targeted and systematic interventions and extensions.

## **ALEDO ISD BOARD MEETING TEMPLATE**

**MEETING DATE:** June 15, 2026

**AGENDA ITEM:** 2025-2026 General Fund Budget Update

**PRESENTER:** Earl Husfeld, Chief Financial Officer

### **BACKGROUND INFORMATION:**

- As we discussed during the development of the 2025-2026 General Fund budget, the District continued to refine projections for revenue and expenditure items this budget year as compared to the preceding 2024-2025 budget year in an effort to maintain operational expenditures and reflect actual and expected current student enrollment and attendance. Two (2) of the most significant projections were related to student enrollment and average daily attendance (ADA).
- As we have completed nine (9) months of the District's 2025-2026 budget cycle, this evening we will review some of these budget projections/assumptions as compared to actual-to-date numbers to get a "feel" for the current status and the potential impact on the 2025-2026 General Fund budget.

## **(LOCAL) Policy Comparisons**

These documents are generated by an automated process that compares the updated policy to the current policy as found in TASB records.

In this packet, you will find:

- Policies being recommended for revision (annotated)
- New policies (not annotated)
- Policies recommended for deletion (annotated in PDF; not shown in Word)

Annotations are shown as follows:

- Deletions are in a red strike-through font: ~~deleted text~~.
- Additions are in a blue font: **new text**.
- Blocks of text that were moved without changes are shown in green, with double underline and double strike-through formatting to distinguish the text's new placement from its original location: ~~moved text~~ becomes moved text.
- Revision bars appear in the right margin to show sections with changes.

---

**Note:** While the annotation software competently identifies simple changes, large or complicated changes — as in an extensive rewrite — may be more difficult to follow. In addition, TASB's recent changes to the policy templates to facilitate accessibility sometimes make formatting changes appear tracked, even though the text remains the same.

**Funding**

The Superintendent shall develop administrative procedures to ensure that 100 percent of the state funds allocated for the gifted and talented program are spent providing for and enhancing the District's program and that a method accounting for expenditures related to the gifted and talented program is established and aligns with the Texas Education Agency's financial compliance guidance.

## **ALEDO ISD BOARD MEETING TEMPLATE**

**MEETING DATE:** June 15th, 2026

**AGENDA ITEM:** Consider Approval of Aledo High School Kitchen HVAC Upgrades

**PRESENTER:** Caleb Bell, Chief Facilities and Construction Officer

### **BACKGROUND INFORMATION:**

- For several years the district has experienced persistent elevated temperatures in the Aledo High School kitchen and serving line, especially during August and September, with certain areas unable to be cooled below 85 °F despite normal system operation.
- In 2024 professional assessment AISD engaged EMA Engineering & Consulting (in partnership with Complete System Balance) to perform a full HVAC study that included comprehensive airflow measurements at all diffusers, equipment inspections through the building automation system, and direct field observations.
- Like-for-like replacement would not solve the problem: Simply replacing existing equipment would perpetuate temperature, ventilation, and negative pressure issues while missing the opportunity to right-size the system. Low-cost fixes (\$15k) to balance the system were evaluated but are insufficient given the condition of the RTUs and the need for code-compliant ventilation in a production kitchen.
- We have revisited the EMA proposals and engaged the consultant to lead the improvement phase; preliminary construction estimates are now available, and additional site assessments are pending final approval to support detailed design and implementation.
- Recommended solution is the prudent long-term investment: The proposed scope delivers a properly sized, code-compliant system with conditioned make-up air that supports current operations and future needs. Potential issues have been identified through engineering review before equipment was purchased, avoiding a repeat of the same operational problems.
- Under normal circumstances the final bid price would be brought to the Board for approval. We won't meet again for business until late July, assuring this project does not get completed prior to school starting.
- If approved the project will meet competitive procurement standards, purchasing co-op, JOC, or CSP.

**FISCAL INFORMATION:**

The project will be funded out of Bond Interest and will not exceed \$410,000 without additional board approval.

**ATTACHMENTS:**

None.

**ADMINISTRATIVE RECOMMENDATION:**

Administration requests approval of do not exceed amount of \$410,000

## **ALEDO ISD BOARD MEETING TEMPLATE**

**MEETING DATE:** June 15, 2026

**AGENDA ITEM:** Consider Approval of LED Light Upgrades for Competition Gym

**PRESENTER:** Caleb Bell, Chief Facilities and Construction Officer

### **BACKGROUND INFORMATION:**

- Per Board Policy CH (Local), any single, budgeted purchase of goods or services that costs \$50,000 or more, regardless of whether the goods or services are competitively purchased, shall require Board approval before a transaction may take place.
- EMA Engineering is providing light studies and design construction documents for AISD to ensure accurate and appropriate design and installation. They are also providing the anticipated budget of AHS Competition gym of 170,000 - \$210,000
- The existing high-output T5 fluorescent lighting fixtures in the four high school gymnasiums (two at AHS and two at DNG) are aging and operating beyond their expected service life. These systems consume more energy, require frequent maintenance, and can produce glare that affects visibility and safety during athletic activities. Replacement with modern LED fixtures, supported by tailored photometric designs for each space, will provide more consistent and efficient operation, approximately 30–50% lower energy consumption, reduced glare with improved uniformity and visibility, and significantly longer fixture life with minimal maintenance requirements.
- Upon Board approval, staff will competitively procure the LED lighting upgrades and installation services through a district-approved purchasing option. This gives AISD the potential to get the project completed by the time students return. Actual installation times will depend on lead times of fixtures and supplies along with vendor installation schedules. It is our desire to push to have this completed prior to students returning.

### **FISCAL INFORMATION:**

This equipment and services will be competitively procured in alignment with board policy requirements. Estimated total project cost not to exceed \$210,000.

**ATTACHMENTS:** None.

### **ADMINISTRATIVE RECOMMENDATION:**

Administration recommends the Board approve the LED Lighting Upgrade project for the high school competition gym with a not-to-exceed budget of \$210,000 and authorize staff to competitively procure the equipment and installation services in accordance with Board Policy CH (Local).

## ALEDO ISD BOARD MEETING TEMPLATE

**MEETING DATE:** June 15, 2026

**AGENDA ITEM:** Consider Approval of Board Policy Update EIC(Local) - Academic Achievement Class Ranking

**PRESENTER:** Dr. Amber Crissey, Assistant Superintendent of Curriculum & Instruction

### BACKGROUND INFORMATION:

- Board policy EIC (Local) - Academic Achievement: Class Ranking
  - Board Policy EIC (Local) governs the calculation of student Grade Point Average (GPA) and class rank.
- With the passage of Senate Bill 569, Texas established a new framework for virtual and hybrid education under Chapter 30B of the Texas Education Code. This legislation allows school districts to offer virtual courses and receive state funding for eligible student participation and attendance.
- In response to Senate Bill 569, Aledo ISD launched Grad My Way, expanding flexible learning opportunities for students. One flexible option for students is Virtual Anywhere courses, which allows students to take full virtual courses taught by Aledo ISD teachers from any location. Virtual Anywhere courses provide students with additional flexible learning pathways to earn credit and meet graduation requirements.
- This new framework for virtual coursework allowed by the state has prompted the administration to review and recommend revisions to EIC(Local). The administration is seeking approval on one read by the Board in an effort to have all GPA calculation policies in place before the first day of school for the 2026-2027 school year.
- The administration is recommending the following revisions to Board Policy EIC (Local):
  - Recommended Change: Deleting the statement in the calculation section: “Any elective course in one of these subject areas shall be excluded from the calculation”.
    - Rationale: All courses taken in the core subject areas of English language arts, mathematics, science, and social studies are included in GPA calculations. This revision aligns policy language with current practice.
  - Recommended Change: Revising the exclusion criteria by removing the statement: “any distance learning course including a TxVSN course, any local credit course” and adding the exclusion statement: “any course for which a pass/fail is assigned”.

- Rationale: Removing any distance learning course will allow Virtual Anywhere courses in the applicable subjects to be calculated in a student's GPA. Adding any course for which a pass/fail is assigned, continues to exclude TxVSN courses from GPA calculations.
  - Recommended Change: Remove the list item under Category 2 of the Weighted Grade System: "Advanced courses locally designated as Category 2 courses".
    - Rationale: Aledo High School does not offer courses titled "Advanced"; therefore, this language is no longer applicable.
  - Recommended Change: Adjust the notification threshold from the top 6% to the top 5% of the class, while maintaining notification for students in the top 10%.
    - Rationale: This change aligns with the automatic admission threshold established by the University of Texas and provides families with information that is more closely connected to college admission benchmarks.
