SUPERINTENDENT EVALUATION TOOL TRAINING EVALUATION PROCESS AND RATER RELIABILITY

Meets the 2024-25 Law Requirements

Any Feelings About Evaluation?

When I think about evaluating the superintendent, I feel . . .

- Uncertain of how to evaluate a trained, professional educator
- Concerned about open, honest dialogue
- Don't like conflict
- I'm fine with it!

The Superintendent Evaluation Process
Strengthening the Board-Superintendent Relationship
Illinois School Board Association, 2014

Relevance to You

- **Reduce confusion and tension** among board members and with the superintendent
- **Keep the focus on what is most important** for your students in your district
- **Be confident** that you are executing your duties properly and living up to the trust your community has placed in you
- **Limit the risk of lawsuit** to the school district

Evaluation Should be Developmental

- A good evaluation **process** will help to further develop knowledge and skills of the Superintendent
- Performance expectations can be clarified and prioritized
- It provides mechanism for feedback, which is both appreciated and valuable
- It links superintendent's work to district goals

Learning Targets

- Understand Board requirements and requirements in the law
- Describe indicators of superintendent job performance
- Identify possible artifacts and evidence
- Establish and plan for a rational cycle and check points
- Understanding of how to collectively rate the performance of a superintendent using the MASB Superintendent Evaluation Tool
- Practice using the evaluation criteria to establish consistency in evaluators to satisfy the calibration requirement for board members

Board Requirements

- The **Board as a whole**, provides oversight and governance to the District, generally speaking as ONE VOICE.
- The Board evaluates only **ONE employee**
- The Board evaluates the superintendent's performance annually using a **research-based tool** and it is reported in the REP (Register of Educational Personnel)
- The Board is required to have **TRAINING** on this process and rater reliability

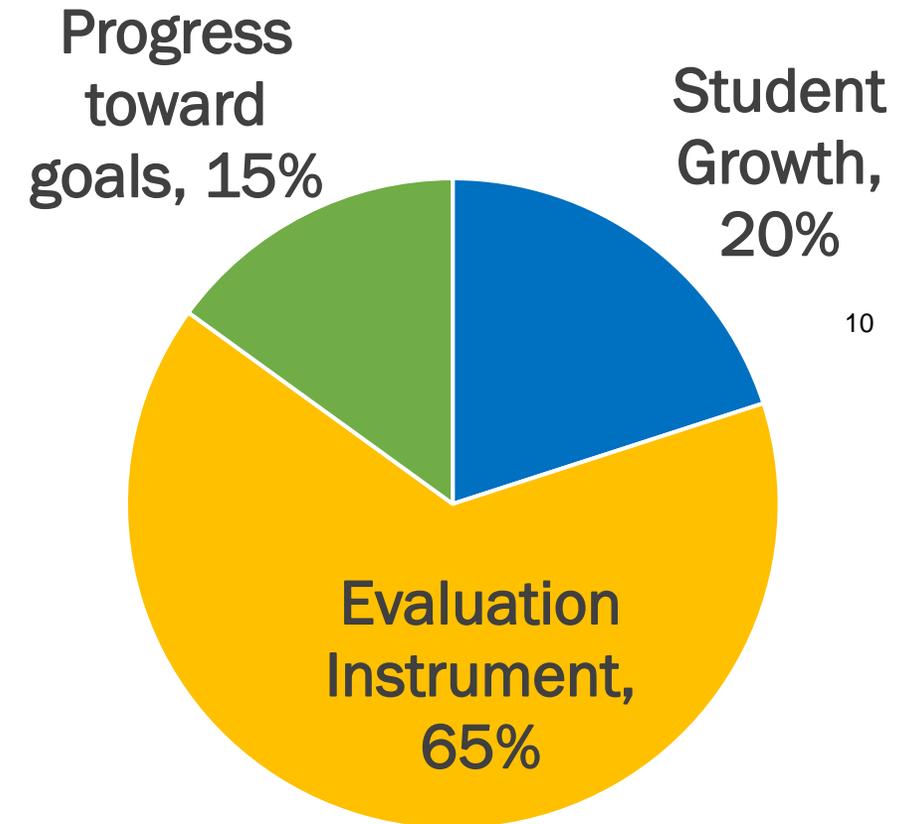

The Law

- Evaluate superintendent **annually**
- **Assign a rating** of effective, developing, or needing support
- Hold a **Mid-Year Progress Report Review** each year the superintendent is evaluated

Composition of the MASB Tool

- The law specifies that 20% of the tool is student growth and assessment data or student learning objectives metrics
- The rest of the tool must be “objective criteria”
- The MASB tool specifies that 65% is professional practice (research based)
- The MASB tool specifies that 15% is progress on goals (defined by the district and superintendent)

Student Growth and Assessment Data

- Must include **multiple rating categories** with student growth and assessment data, or student learning objectives metrics, or combination of both
- Decided locally
- It may be appropriate to aggregate from building/teacher level to district level (utilize teacher measures aggregated up to the superintendent)

Student Growth

- Student growth measures the amount of student academic progress **between two points in time.**
- The data considered must be from a single group of students:
 - Last year's 4th graders ▶
 - This year's 5th graders
- Student Growth is different than Student Proficiency

Student Learning Objectives

- Measurable, long-term academic goals
- Informed by available data
- Teacher or teacher team sets at the beginning of the year for all students

Legal Requirement - Mid-Year Progress Report

- Superintendent is provided a midyear progress report each year that they are evaluated to gauge improvement from the preceding evaluation and to assist with improvement.
- The midyear progress report must include:
 - Specific performance goals for the remainder of the calendar year
 - Goals should be developed consulting with the Superintendent
 - Include any recommended training identified that would assist in meeting these goals.
- A written improvement plan is provided that includes these goals and training and is designed to assist in improving performance

Legal Requirement - Training

- All evaluators of administrators are to be provided **Rater Reliability Training** by September 1, 2024 and every 3 years thereafter that includes:
 - Clear and consistent set of evaluation criteria that all evaluators can use when assessing performance.
 - Clear expectations for what evaluators should look for when assessing performance, including identifying key behaviors and practices that are associated with effectiveness.
 - Training on the evaluation process itself
 - Calibration exercises that help evaluators practice using the evaluation criteria and establish consistency in the evaluator's evaluations.
 - Ongoing support for evaluators, including feedback and coaching to help the evaluators improve their skills and ensure they are consistently applying the evaluation criteria

Legal Requirement - Unevaluated

Designated as **UNEVALUATED**:

- The Superintendent worked less than 60 days in that year.
- The Superintendent's evaluation results were vacated through the appeal process.
- There are extenuating circumstances and the Superintendent, and the school district agree to designate the Superintendent as unevaluated because of the extenuating circumstances.

16

If a Superintendent is designated as **UNEVALUATED**, the Superintendent's **rating from the year immediately before** that designation **must be used** if both of the following are met:

- The Superintendent is in the same position in the year before the Superintendent received the unevaluated designation.
- The Superintendent continues to be employed by the same school district as the year before

Legal Requirements

Rated effective (or HE) on three consecutive annual evaluations:

- Board may choose to conduct an evaluation **biennially instead of annually**
 - Off years still report as effective in the REP
 - If evaluation slips below effective, or if evaluator changes for a building level administrator, the evaluation must be conducted annually

17

Rated as Developing or Needing Support:

- Board must develop and require the Superintendent to **implement an Improvement Plan** to correct deficiencies
 - The improvement plan must recommend professional development opportunities and other actions designed to improve the rating of the Superintendent on the Superintendent's next evaluation

Legal Requirements

- The **CONTRACT** governing the employment of a superintendent must include an appeal process concerning the evaluation process and rating received

DON'T FORGET that the evaluation process also must comply with:¹⁸

- The **Open Meetings Act** – the evaluation can be done in closed session at the superintendent's request
- The **Freedom of Information Act** – the final evaluation approved in open session will be subject to FOIA

Required Postings on District Website

- ✓ The research base for the evaluation system
- ✓ The identity and qualifications of the author or authors
- ✓ Either evidence of reliability, validity and efficacy or a plan for developing that evidence
- ✓ The evaluation frameworks and rubrics with detailed descriptors for each performance level on key summative indicators
- ✓ A description of the processes for collecting evidence, conducting evaluation conferences, developing performance ratings and developing performance improvement plans
- ✓ A description of the plan for providing evaluators with training

KEY FINDING

District-level **leadership** and **length of superintendent tenure** has an impact on student achievement

Key Finding - Collaborative Goal-Setting

- Effective superintendents include all relevant stakeholders, staff, board, and administrators in **establishing** district goals, achievement and instructional goals and **monitoring** these goals to ensure that they are the driving force behind district actions.

Key Finding - Board Alignment & Support

In districts with higher levels of student achievement, the local board of education is **aligned** with and supportive of the goals.

29

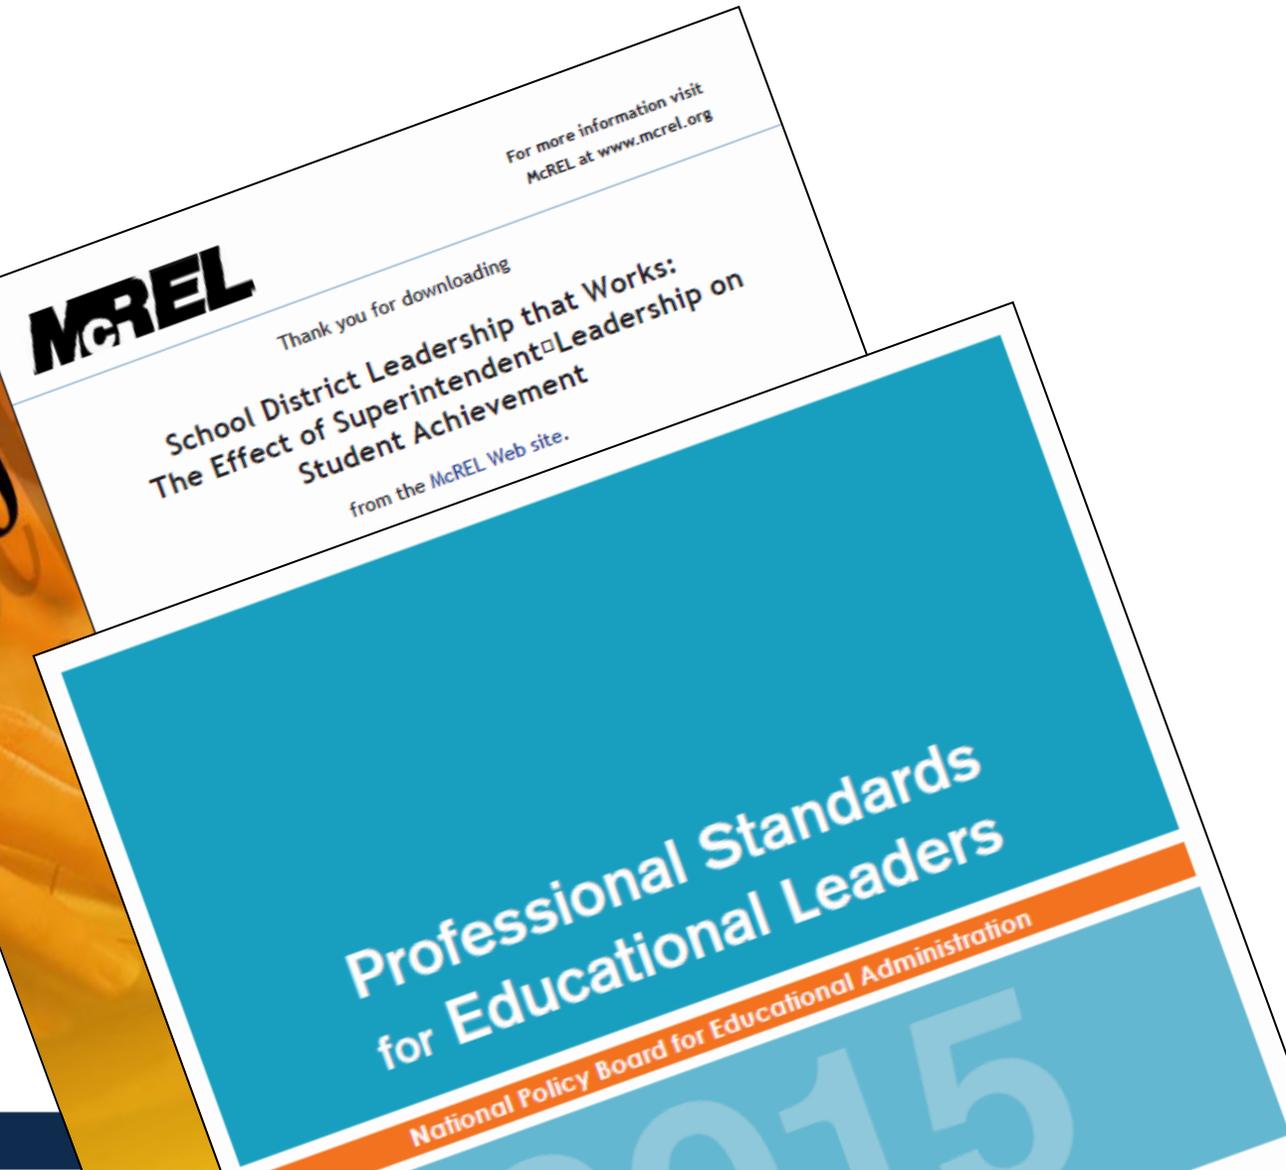

Key Finding - Use of Resources

Effective superintendents ensure that the necessary resources, including time, money, personnel and materials, are allocated to accomplish district goals.

A. Governance & Board Relations

Weight: 20%

		Needing Support (1 pt)	Developing (2 pt)	Effective (3 pt)	Rating
Performance Category	A1 Policy Involvement Professional Standards for Educational Leaders: 2, 9	Makes decisions without regard to adopted policy.	Provides correspondence from policy provider with recommendation(s) for adoption. Performance Level	Is actively involved in the development, recommendation and administration of district policies.	
	A2 Goal Development Professional Standards for Educational Leaders: 1, 9, 10	Goals are not developed.	Goals are defined by implementing state curriculum and seeking to maximize student scores.	Facilitates the development of short-term goals for the district and reports goal progress to board. Provides the necessary financial strategies to meet those goals. Budget practices help to ensure alignment of resources to goals.	
	A3 Information Professional Standards for Educational Leaders: 2, 7, 9	Does not provide the information the board needs to perform its responsibilities.	Keeps only some members informed making it difficult for the board to perform its responsibilities. Performance Indicator	Has established mutually agreed upon protocols that consistently keeps all board members informed with appropriate information as needed so the Board may perform its responsibilities.	
	A4 Materials and Background Professional Standards for Educational Leaders: 7, 9	Meeting materials aren't readily available. Members arrive at meetings without enough prior information regarding agenda or background information.	Meeting materials are incomplete, and don't include adequate background information or perspective. Progressive Performance Level Language	Meeting materials are provided with adequate background and historical perspective included. Recommendations are well thought out.	
	A5 Board Questions Professional Standards for Educational Leaders: 2, 7, 9	Board questions aren't answered fully nor in a timely manner.	Most board questions are answered. All members aren't apprised of all relevant questions/answers.	Board questions are addressed with follow-up to all board members.	
	A6 Board Development Professional Standards for Educational Leaders: 6	Doesn't promote and does not budget for board development.	When prompted, provides members with information about board development.	Actively encourages board development by providing board members with information regarding board development opportunities when they arise. Ensures funding is available and aligned to board development plan.

The Importance of Evidence

Evidence

- Evidence and artifacts can be used to illustrate performance
- Helps to reduce bias and subjectivity in performance evaluation

A6	Board Development Professional Standards for Educational Leaders: 6	Doesn't promote and does not budget for board development.	When prompted, provides members with information about board development.	Actively encourages providing board members regarding board development they arise. Ensures full to board development

Artifacts that may serve as evidence of performance in this domain:

- Meeting agendas/minutes
- Board packets
- Board development materials
- Memos/communications
- Board policies/policy book
- Retreat agendas/minutes
- Board development plan
- Communication protocols
- Policy review calendar

Artifacts that may serve as evidence

Evidence

- Items generated by the superintendent can provide evidence of meeting the goals and objectives
- The Board can work with the superintendent to determine the amount of evidence and sources of data to be used
- Multiple styles of reporting and sources of data can be used

43

Calibration Exercise – Policy Involvement

- Evidence provided includes:
 - Attendance at policy committee meetings
 - Proactive regarding certain new issues to develop into policies
 - Holds meetings for adjusted and new policies due to law changes
 - Policy approval process is thorough and timely
 - Reviews new/adjusted policies with board and administration
 - Effective dissemination of policies to staff
- Review the descriptors for each rating in “policy involvement”.
- What does the evidence along with the rubric indicate the rating should be?

Calibration Exercise – Budget Reporting

- Evidence provided includes:
 - No regular budget reporting is done at the board level
 - “Budget to actual” reports are not readily available
 - Audit has issues and management concerns
 - Unsure of status of finances when requested by Board
- Review the descriptors for each rating in “Budget Reporting”.
- What does the evidence along with the rubric indicate the rating should be?
- Ongoing support for evaluators, including feedback and coaching to help the evaluators improve their skills and ensure they are consistently applying the evaluation criteria

Calibration Exercise – Staff Input

- Evidence provided includes:
 - Staff perception survey is sent out, but results are not consistently utilized to adjust any practices
 - Staff meetings are held on a regular basis
 - Curriculum review process includes staff members, but their ideas are utilized inconsistently
- Review the descriptors for each rating in “staff input”.
- What does the evidence along with the rubric indicate the rating should be?

Aspects of the Evaluation Cycle

Planning

Mutually agree upon:

- Evaluation timeline and key dates
- Performance expectations, district goals, priorities
- Checkpoints (formal and informal) **MID YEAR REQUIRED**
- Evidence and any artifacts to indicate superintendent performance
- Review the process for completing the year-end evaluation

Evaluation Cycle

Performance Expectations

- Clarify Board expectations for the Superintendent
- Review district goals and priorities for the work
- Review any benchmarks anticipated or desired
- Review the MASB tool for any clarifications on the various areas
- Document the artifacts/evidence/agreements as discussed

Performance Expectations

Superintendents and Boards must ensure they have clarity on the following:

1. Performance Indicators in the Rubrics (Categories A-E)
2. Student Growth and Assessment (Category G)
 - *How will you measure student growth and assessment or Student Learning Objectives? (Hint: How is your district measuring this for teacher evaluations?)*
3. Progress on Goals (Category G)
 - *How will you measure progress towards goals?*

Evaluation Cycle

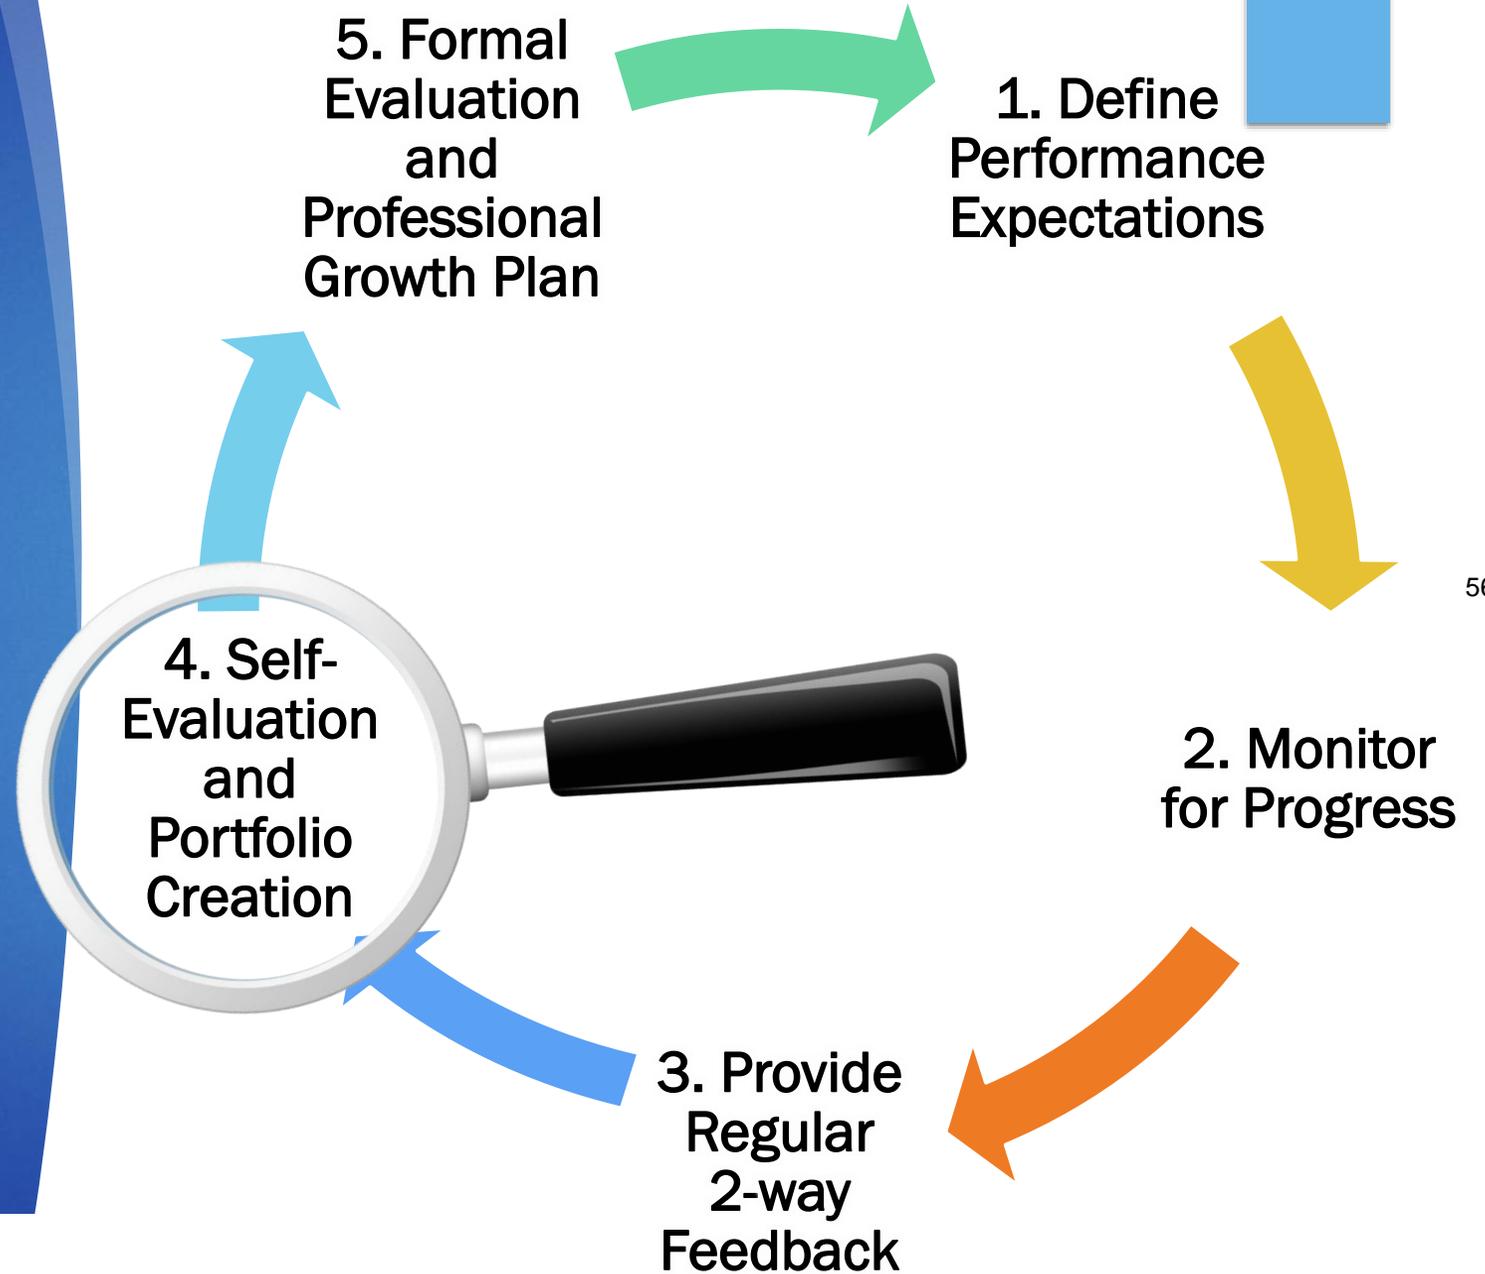

Monitoring for Progress

- Have logical checkpoints been identified? Quarterly?
- Conversation about performance – closed session at request
- How will progress be measured?
- What is the baseline (starting point) measurement?
- When will data be available to check on progress?
- What is the expected change?
- Midyear Progress Report is required

Mid-Year Progress Report

- Schedule this meeting date about halfway through the evaluation year
 - Gauge improvement from the preceding evaluation and assist with improvement going forward
- Discussion of progress toward goals and superintendent performance can be done in closed session at request
- Discussion of **GOALS** must be done in **open session** and you can include what evidence will be used to measure progress
- Written improvement plan required:
 - Specific performance goals for the remainder of the calendar year
 - Include any recommended training identified that would assist in meeting these goals
 - Consider what evidence will be used to measure progress

Evaluation Cycle

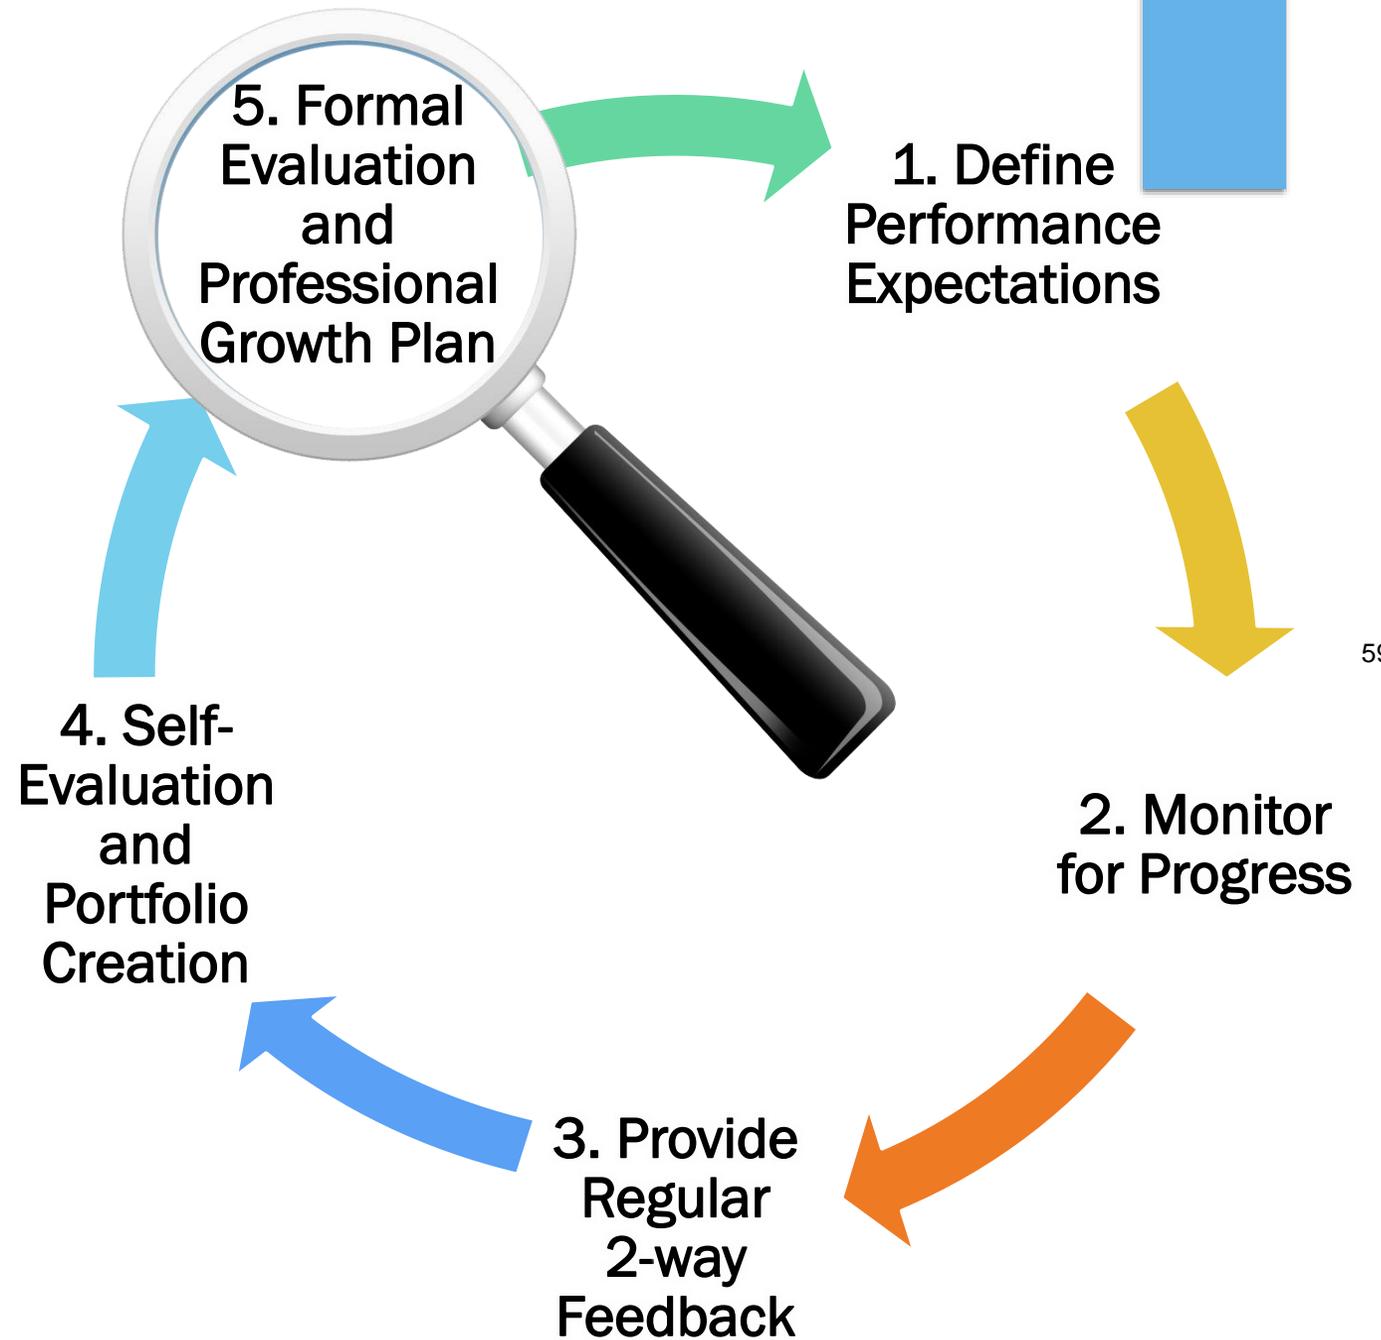

Superintendent Self-Evaluation

- The superintendent evaluates themselves using the evaluation instrument.
- They compile data related to and evidence of performance.
- The superintendent shares this information with the board prior to the board beginning to work on the year-end evaluation.

How to Process a Self-Evaluation

- Be open to the information being shared.
- Provide the information and superintendent the regard appropriate for an evaluation.
- Read through the evaluation, comments and the evidence provided.
- Ask questions about any items that require clarification.

Evaluation Cycle

Formal Final Year-End Evaluation

The Board completes the final year-end evaluation of the superintendent speaking as ONE VOICE to the superintendent regarding their performance using a consensus model.

Evaluation Process Summary

- Superintendent prepares self-evaluation and evidence
- The Board holds a self-evaluation meeting
- The Board holds the final evaluation consensus meeting⁶¹
- The Board approves the completed evaluation in open session
- The District reports the rating in the Register of Educational Personnel (REP)

Self-Evaluation and Evidence Meeting

- This meeting can be held in closed session by request of superintendent
- Superintendent prepares self-evaluation, compiles evidence and provides to Board of Education.
- Board members seek clarity as needed regarding self-evaluation or evidence provided.
- Board of Education members receive blank evaluation instrument and make individual notes about their observations.
- After reflection, board members fill out their own ratings on the evaluation instrument to prepare for consensus meeting

Consensus Meeting

Note: MASB recommends the superintendent remain in the room while the board discusses their performance.

- This meeting can be held in closed session by request of superintendent
- Board president or facilitator reviews with Board members their ratings in each area along with the self-evaluation and evidence provided and facilitates conversation with members about their ratings of performance in each area.
- After discussion and consensus, a score is assigned for each area. A rating is required in all areas.

Closed Meeting Exception

- “A public body may meet in a closed session...to consider a periodic personnel evaluation of a... staff member...if the named **person requests** a closed hearing.”
- “Person requesting a closed hearing may rescind the request at any time, in which case the matter at issue shall be considered after the rescission only in open session.”

MCL 15.268(a)

Closed Meeting Exception

OPEN PHASE

- Scheduling the evaluation
- Choosing and modifying the evaluation instrument
- Establishing performance goals or expectations
- Determining process for the evaluation
- Adoption of the completed evaluation
- Voting to go into closed sessions
- Training on the evaluation tool
- Related board actions and discussions

CLOSED PHASE

**** if requested by employee ****

- ▶ Discuss & deliberate about the evaluation/performance of the superintendent

Consensus

- Boards should use a consensus model for completing the summative evaluation.
- Board members discuss each performance indicator and settle on a score they can all *live with*.
- Each consensus score is entered on the form and then those scores form the calculation of each domain.
- Each domain score transfers to the final calculation page.

The Problem with Averaging

- MASB cannot ensure reliability of the instrument when scores are averaged.
- Averaging 5/7/9 board member scores does not reflect the view of the Board of Education.⁶⁷
- Averaging does not provide clear direction to the superintendent.

Consensus Meeting Continued

- Upon completion of a score in each area of the five domains, the excel instrument will calculate an overall professional practice score.
- Board reviews evidence provided related to student growth and assessment and assigns score via consensus
- Board reviews progress toward district-wide goals and assigns score via consensus.

Calculation and Comments

The excel instrument will calculate the **overall evaluation score** including professional practice, student growth and assessment, and progress toward district-wide improvement goals.

Comments can be included in each section and any themes/trends identified by the Board may be added to the summary page

Approving the Evaluation

Board needs to leave closed session and reconvene in open session:

- The board president comments:
 - A motion is needed to approve the superintendent evaluation as presented (or as completed in closed session).
- After receiving motion and support, board president calls for a vote to adopt the completed year-end evaluation for the superintendent.
- After approval, the board president can announce the overall rating earned by the superintendent.
- The Board president can work with the superintendent to coordinate public statement about the superintendent evaluation.

After the Approval in Open Session

After the meeting:

- After approval of the evaluation, the superintendent may add comments if desired (this is allowable, not necessarily recommended)
- Two copies are made of the evaluation, the superintendent and board president sign the evaluation copies
- One copy goes into the personnel file and the other copy goes to superintendent
- The evaluation rating is reported by the District in the REP (Register of Educational Personnel). The REP opens in January and closes on June 30.

<p>Advantage: Aligns with election cycle. Board members who establish goals are generally the same board members evaluating performance.</p>		<p>Advantage: Aligns with the school year. Is compatible with natural flow of the school year as well as evaluation cycle for other employees.</p>		<p>Advantage: Aligns with contract renewal cycle in many cases. Boards of Education must provide superintendents 90 days' notice in the event of nonrenewal of contract.</p>	

Items Needed at Beginning of Cycle

- ✓ Board Planning Calendar for Evaluation Process
- ✓ Blank Copy of Evaluation Instrument
- ✓ Superintendent Goals and/or District Goals/Strategic Plan
- ✓ Student Growth and Assessment Model
- ✓ Superintendent Contract
- ✓ Any Board Policies or Procedures that Relate to Superintendent Evaluation
- ✓ Superintendent's Job Description (policy regarding superintendent position if available)

Planning

- Beginning of Cycle – Workshop (60-90min.)
 - Expectations
 - What do we expect to be accomplished?
 - What are our indicators of success?
 - What evidence will we expect to see?
 - Document
 - Document mutually agreed upon expectations, indicators and evidence
 - Schedule
 - All dates

JANUARY

75

Informal Check In

Informal Update (30 Minutes)

- Superintendent provides a brief update to the board on progress and indicators of success
- Board members ask any specific questions and offer input on status and progress to date

Check-In Framework

- Revisit the expectations the board established.
- Discuss the extent to which those expectations are being met.
- Inquire about barriers to progress as well as if/how they may be removed.
- Feedback can be framed in simple terms:
 - *Continue to do...Do more of...Do less of...*

Mid-Year Progress Report Review

- Workshop (60 minutes) – closed session at request
 - Board president provides questions from the board members to the superintendent *prior* to the meeting
 - Superintendent provides an update on various areas and progress toward goals
 - Board seeks clarification if needed
 - Go into open session to discuss goals for remainder of evaluation year
 - Written report including goals and any training needed

JUNE

Formal Discussion⁷⁸

Informal Check In

- Informal Update
 - Similar to previous check in
 - Greater focus on status of district goals
 - Update on new school year initiatives
 - Enrollment, funding projections

79

Year-End Evaluation

- Formal Evaluation

- Superintendent conducts self-evaluation; presents portfolio with evidence
- Board members review portfolio *prior* to evaluation
- Seek clarification as needed
- Board reviews expectations and conducts evaluation via consensus
- Open, constructive discussion centered on growth

NOVEMBER

Evaluation

80

Ongoing Support

- How do we provide ongoing support for evaluators?
- How do we provide feedback and coaching to help the board members improve their skills?
- Can we improve our skills to consistently apply the evaluation criteria to performance and utilizing evidence along with the rubric to determine a rating?
- New board members must get this training regarding the evaluation process and rater reliability and also review the expectations that were established for the superintendent and evaluation process prior to trying to do the evaluation of the superintendent

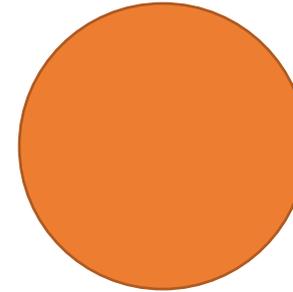

Did We Accomplish the Learning Targets?

- Understand Board requirements and requirements in the law
- Describe indicators of superintendent job performance
- Identify possible artifacts and evidence
- Establish and plan for a rational cycle and check points
- Understanding of how to collectively rate the performance of a superintendent using the MASB Superintendent Evaluation Tool
- Practice using the evaluation criteria to establish consistency in evaluators to satisfy the calibration requirement for board members

- Hold a **Mid-Year Progress Report Review** each year the superintendent is evaluated

Composition of the MASB Tool

- The law specifies that **20% of the tool is student growth and assessment data or student learning objectives metrics**
- The rest of the tool must be “objective criteria”
- The MASB tool specifies that **65% is professional practice** (research based)
- The MASB tool specifies that **15% is progress on goals** (defined by the district and superintendent)

Student Growth and Assessment Data

- Must include **multiple rating categories** with student growth and assessment data, or student learning objectives metrics, or combination of both
- Decided locally
- It may be appropriate to aggregate from building/teacher level to district level (utilize teacher measures aggregated up to the superintendent)

MASB Amended 2024 Superintendent Evaluation-Rater Reliability Instrument Specific Training

Student Growth

- Student growth measures the amount of student academic progress **between two points in time**.
- The data considered must be from a single group of students:
 - ▶ Last year's 4th graders
 - ▶ This year's 5th graders
- Student Growth is different than Student Proficiency

MICHIGAN ASSOCIATION OF SCHOOL BOARDS

Student Learning Objectives

- Measurable, long-term academic goals
- Informed by available data
- Teacher or teacher team sets at the beginning of the year for all students

Legal Requirement - Mid-Year Progress Report

- Superintendent is provided a midyear progress report each year that they are evaluated to gauge improvement from the preceding evaluation and to assist with improvement.
- The midyear progress report must include:
 - Specific performance goals for the remainder of the calendar year
 - Goals should be developed consulting with the Superintendent
 - Include any recommended training identified that would assist in meeting these goals.
- A written improvement plan is provided that includes these goals and training and is designed to assist in improving performance

MICHIGAN ASSOCIATION OF SCHOOL BOARDS

MASB Amended 2024 Superintendent Evaluation-Rater Reliability Instrument Specific Training

Legal Requirement - Training

- All evaluators of administrators are to be provided **Rater Reliability Training** by September 1, 2024 and every 3 years thereafter that includes:
 - Clear and consistent set of evaluation criteria that all evaluators can use when assessing performance.
 - Clear expectations for what evaluators should look for when assessing performance, including identifying key behaviors and practices that are associated with effectiveness.
 - Training on the evaluation process itself
 - Calibration exercises that help evaluators practice using the evaluation criteria and establish consistency in the evaluator's evaluations.
 - Ongoing support for evaluators, including feedback and coaching to help the evaluators improve their skills and ensure they are consistently applying the evaluation criteria

Legal Requirement - Unevaluated

Designated as **UNEVALUATED**:

- The Superintendent worked less than 60 days in that year.
- The Superintendent's evaluation results were vacated through the appeal process.
- There are extenuating circumstances and the Superintendent, and the school district agree to designate the Superintendent as unevaluated because of the extenuating circumstances.

If a Superintendent is designated as **UNEVALUATED**, the Superintendent's **rating from the year immediately before** that designation **must be used** if both of the following are met:

- The Superintendent is in the same position in the year before the Superintendent received the unevaluated designation.
- The Superintendent continues to be employed by the same school district as the year before

Legal Requirements

Rated effective (or HE) on three consecutive annual evaluations:

- Board may choose to conduct an evaluation **biennially instead of annually**
 - Off years still report as effective in the REP
 - If evaluation slips below effective, or if evaluator changes for a building level administrator, the evaluation must be conducted annually

Rated as Developing or Needing Support:

- Board must develop and require the Superintendent to **implement an Improvement Plan** to correct deficiencies
 - The improvement plan must recommend professional development opportunities and other actions designed to improve the rating of the Superintendent on the Superintendent's next evaluation

MASB Amended 2024 Superintendent Evaluation-Rater Reliability Instrument Specific Training

Legal Requirements

- The **CONTRACT** governing the employment of a superintendent must include an appeal process concerning the evaluation process and rating received
- DON'T FORGET that the evaluation process also must comply with:
- The **Open Meetings Act** – the evaluation can be done in closed session at the superintendent's request
 - The **Freedom of Information Act** – the final evaluation approved in open session will be subject to FOIA

Required Postings on District Website

- ✓The research base for the evaluation system
- ✓The identity and qualifications of the author or authors
- ✓Either evidence of reliability, validity and efficacy or a plan for developing that evidence
- ✓The evaluation frameworks and rubrics with detailed descriptors for each performance level on key summative indicators
- ✓A description of the processes for collecting evidence, conducting evaluation conferences, developing performance ratings and developing performance improvement plans
- ✓A description of the plan for providing evaluators with training

The Importance of Evidence

MASB Amended 2024 Superintendent Evaluation-Rater Reliability Instrument Specific Training

Evidence

- Evidence and artifacts can be used to illustrate performance
- Helps to reduce bias and subjectivity in performance evaluation

Artifacts that may serve as evidence

Evidence

- Items generated by the superintendent can provide evidence of meeting the goals and objectives
- The Board can work with the superintendent to determine the amount of evidence and sources of data to be used
- Multiple styles of reporting and sources of data can be used

Calibration Exercise – Policy Involvement

- Evidence provided includes:
 - Attendance at policy committee meetings
 - Proactive regarding certain new issues to develop into policies
 - Holds meetings for adjusted and new policies due to law changes
 - Policy approval process is thorough and timely
 - Reviews new/adjusted policies with board and administration
 - Effective dissemination of policies to staff
- Review the descriptors for each rating in “policy involvement”.
- What does the evidence along with the rubric indicate the rating should be?

MASB Amended 2024 Superintendent Evaluation-Rater Reliability Instrument Specific Training

Calibration Exercise – Budget Reporting

- Evidence provided includes:
 - No regular budget reporting is done at the board level
 - “Budget to actual” reports are not readily available
 - Audit has issues and management concerns
 - Unsure of status of finances when requested by Board
- Review the descriptors for each rating in “Budget Reporting”.
- What does the evidence along with the rubric indicate the rating should be?
- Ongoing support for evaluators, including feedback and coaching to help the evaluators improve their skills and ensure they are consistently applying the evaluation criteria

Calibration Exercise – Staff Input

- Evidence provided includes:
 - Staff perception survey is sent out, but results are not consistently utilized to adjust any practices
 - Staff meetings are held on a regular basis
 - Curriculum review process includes staff members, but their ideas are utilized inconsistently
- Review the descriptors for each rating in “staff input”.
- What does the evidence along with the rubric indicate the rating should be?

Aspects of the Evaluation Cycle

MASB Amended 2024 Superintendent Evaluation-Rater Reliability Instrument Specific Training

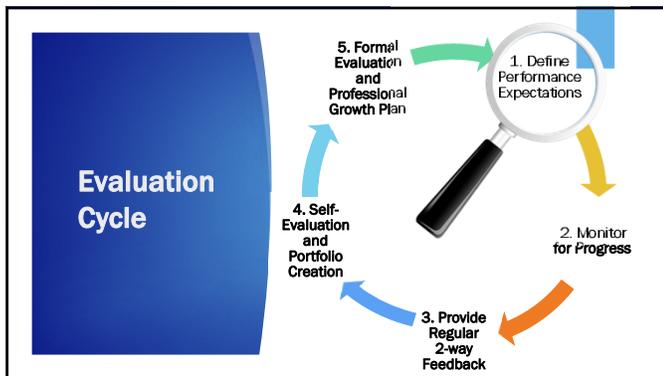

Planning

Mutually agree upon:

- Evaluation timeline and key dates
- Performance expectations, district goals, priorities
- Checkpoints (formal and informal) **MID YEAR REQUIRED**
- Evidence and any artifacts to indicate superintendent performance
- Review the process for completing the year-end evaluation

MICHIGAN ASSOCIATION OF SCHOOL BOARDS

Performance Expectations

- Clarify Board expectations for the Superintendent
- Review district goals and priorities for the work
- Review any benchmarks anticipated or desired
- Review the MASB tool for any clarifications on the various areas
- Document the artifacts/evidence/agreements as discussed

MICHIGAN ASSOCIATION OF SCHOOL BOARDS

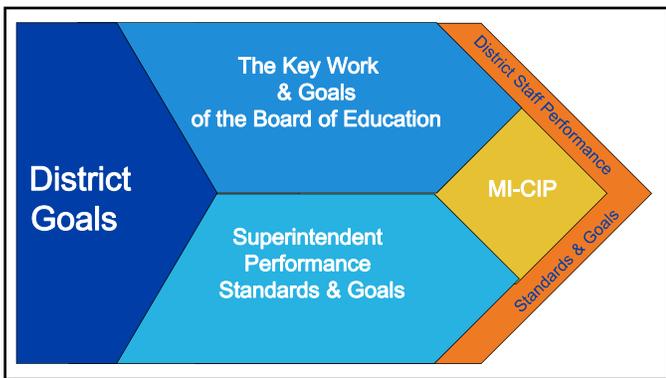

MASB Amended 2024 Superintendent Evaluation-Rater Reliability Instrument Specific Training

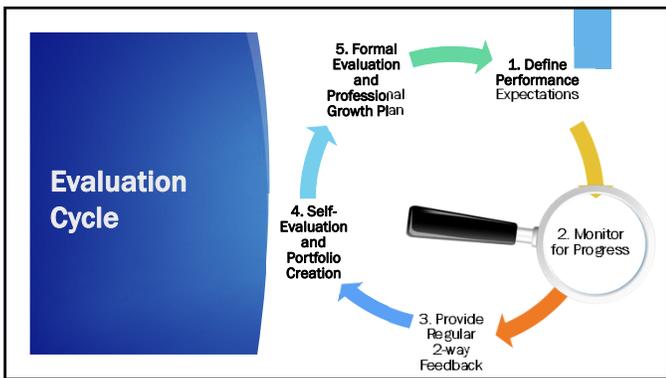

Performance Expectations

Superintendents and Boards must ensure they have clarity on the following:

1. Performance Indicators in the Rubrics (Categories A-E)
2. Student Growth and Assessment (Category G)
 - How will you measure student growth and assessment or Student Learning Objectives? (Hint: How is your district measuring this for teacher evaluations?)
3. Progress on Goals (Category G)
 - How will you measure progress towards goals?

MICHIGAN ASSOCIATION OF SCHOOL BOARDS

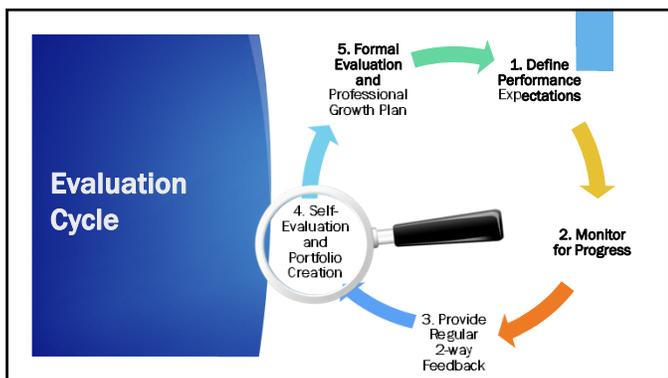

MASB Amended 2024 Superintendent Evaluation-Rater Reliability Instrument Specific Training

Monitoring for Progress

- Have logical checkpoints been identified? Quarterly?
- Conversation about performance – closed session at request
- How will progress be measured?
- What is the baseline (starting point) measurement?
- When will data be available to check on progress?
- What is the expected change?
- Midyear Progress Report is required

Mid-Year Progress Report

- Schedule this meeting date about halfway through the evaluation year
 - Gauge improvement from the preceding evaluation and assist with improvement going forward
- Discussion of progress toward goals and superintendent performance can be done in closed session at request
- Discussion of **GOALS** must be done in **open session** and you can include what evidence will be used to measure progress
- Written improvement plan required:
 - Specific performance goals for the remainder of the calendar year
 - Include any recommended training identified that would assist in meeting these goals
 - Consider what evidence will be used to measure progress

MASB Amended 2024 Superintendent Evaluation-Rater Reliability Instrument Specific Training

Superintendent Self-Evaluation

- The superintendent evaluates themselves using the evaluation instrument.
- They compile data related to and evidence of performance.
- The superintendent shares this information with the board prior to the board beginning to work on the year-end evaluation.

MICHIGAN ASSOCIATION OF SCHOOL BOARDS

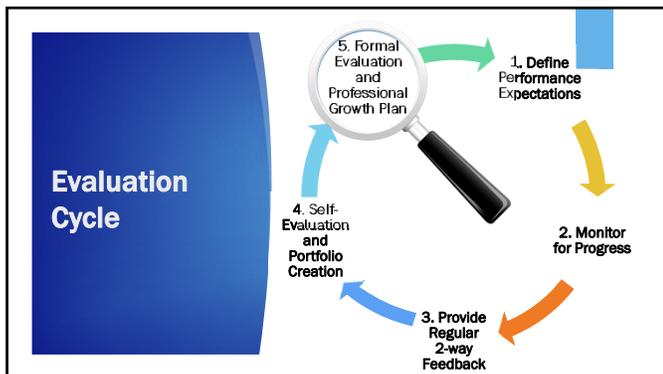

How to Process a Self-Evaluation

- Be open to the information being shared.
- Provide the information and superintendent the regard appropriate for an evaluation.
- Read through the evaluation, comments and the evidence provided.
- Ask questions about any items that require clarification.

MICHIGAN ASSOCIATION OF SCHOOL BOARDS

MASB Amended 2024 Superintendent Evaluation-Rater Reliability Instrument Specific Training

Formal Final Year-End Evaluation

The Board completes the final year-end evaluation of the superintendent speaking as ONE VOICE to the superintendent regarding their performance using a consensus model.

MICHIGAN ASSOCIATION OF SCHOOL BOARDS

Evaluation Process Summary

- Superintendent prepares self-evaluation and evidence
- The Board holds a self-evaluation meeting
- The Board holds the final evaluation consensus meeting
- The Board approves the completed evaluation in open session
- The District reports the rating in the Register of Educational Personnel (REP)

Self-Evaluation and Evidence Meeting

- This meeting can be held in closed session by request of superintendent
- Superintendent prepares self-evaluation, compiles evidence and provides to Board of Education.
- Board members seek clarity as needed regarding self-evaluation or evidence provided.
- Board of Education members receive blank evaluation instrument and make individual notes about their observations.
- After reflection, board members fill out their own ratings on the evaluation instrument to prepare for consensus meeting

MASB Amended 2024 Superintendent Evaluation-Rater Reliability Instrument Specific Training

Consensus Meeting

Note: MASB recommends the superintendent remain in the room while the board discusses their performance.

- This meeting can be held in closed session by request of superintendent
- Board president or facilitator reviews with Board members their ratings in each area along with the self-evaluation and evidence provided and facilitates conversation with members about their ratings of performance in each area.
- After discussion and consensus, a score is assigned for each area. A rating is required in all areas.

Closed Meeting Exception

- “A public body may meet in a closed session...to consider a periodic personnel evaluation of a... staff member...if the named person requests a closed hearing.”
- “Person requesting a closed hearing may rescind the request at any time, in which case the matter at issue shall be considered after the rescission only in open session.”
MCL 15.268(a)

MICHIGAN ASSOCIATION OF SCHOOL BOARDS

OPEN PHASE

- Scheduling the evaluation
- Choosing and modifying the evaluation instrument
- Establishing performance goals or expectations
- Determining process for the evaluation
- Adoption of the completed evaluation
- Voting to go into closed sessions
- Training on the evaluation tool
- Related board actions and discussions

CLOSED PHASE

- *** if requested by employee****
- ▶ Discuss & deliberate about the evaluation/performance of the superintendent

MICHIGAN ASSOCIATION OF SCHOOL BOARDS

MASB Amended 2024 Superintendent Evaluation-Rater Reliability Instrument Specific Training

Consensus

- Boards should use a consensus model for completing the summative evaluation.
- Board members discuss each performance indicator and settle on a score they can all *live with*.
- Each consensus score is entered on the form and then those scores form the calculation of each domain.
- Each domain score transfers to the final calculation page.

The Problem with Averaging

- MASB cannot ensure reliability of the instrument when scores are averaged.
- Averaging 5/7/9 board member scores does not reflect the view of the Board of Education.
- Averaging does not provide clear direction to the superintendent.

Consensus Meeting Continued

- Upon completion of a score in each area of the five domains, the excel instrument will calculate an overall professional practice score.
- Board reviews evidence provided related to student growth and assessment and assigns score via consensus
- Board reviews progress toward district-wide goals and assigns score via consensus.

MASB Amended 2024 Superintendent Evaluation-Rater Reliability Instrument Specific Training

Calculation and Comments

The excel instrument will calculate the **overall evaluation score** including professional practice, student growth and assessment, and progress toward district-wide improvement goals.

Comments can be included in each section and any themes/trends identified by the Board may be added to the summary page

Approving the Evaluation

Board needs to leave closed session and reconvene in open session:

- The board president comments:
 - A motion is needed to approve the superintendent evaluation as presented (or as completed in closed session).
- After receiving motion and support, board president calls for a vote to adopt the completed year-end evaluation for the superintendent.
- After approval, the board president can announce the overall rating earned by the superintendent.
- The Board president can work with the superintendent to coordinate public statement about the superintendent evaluation.

After the Approval in Open Session

After the meeting:

- After approval of the evaluation, the superintendent may add comments if desired (this is allowable, not necessarily recommended)
- Two copies are made of the evaluation, the superintendent and board president sign the evaluation copies
- One copy goes into the personnel file and the other copy goes to superintendent
- The evaluation rating is reported by the District in the REP (Register of Educational Personnel). The REP opens in January and closes on June 30.

Advantage: Aligns with election cycle. Board members who establish goals are generally the same board members evaluating performance.

Advantage: Aligns with the school year. Is compatible with natural flow of the school year as well as evaluation cycle for other employees.

Advantage: Aligns with contract renewal cycle in many cases. Boards of Education must provide superintendents 90 days' notice in the event of nonrenewal of contract.

Ongoing Support

- How do we provide ongoing support for evaluators?
- How do we provide feedback and coaching to help the board members improve their skills?
- Can we improve our skills to consistently apply the evaluation criteria to performance and utilizing evidence along with the rubric to determine a rating?
- New board members must get this training regarding the evaluation process and rater reliability and also review the expectations that were established for the superintendent and evaluation process prior to trying to do the evaluation of the superintendent

Did We Accomplish the Learning Targets?

- Understand Board requirements and requirements in the law
- Describe indicators of superintendent job performance
- Identify possible artifacts and evidence
- Establish and plan for a rational cycle and check points
- Understanding of how to collectively rate the performance of a superintendent using the MASB Superintendent Evaluation Tool
- Practice using the evaluation criteria to establish consistency in evaluators to satisfy the calibration requirement for board members

SUPERINTENDENT

EVALUATION INSTRUMENT

111

Introduction

The Revised School Code requires school boards to evaluate their superintendent's job performance annually as part of a comprehensive performance evaluation system that takes into account student growth and assessment data. MASB is pleased to provide this superintendent evaluation instrument based on the requirements of the Revised School Code. The instrument provides school districts a straightforward option for superintendent evaluation. It may be used alone or in conjunction with a facilitated evaluation.

Professional Standards for Educational Leaders

This evaluation instrument is based in part on two bodies of research: *The Professional Standards for Educational Leaders*, which were reviewed and published by the National Policy Board for Educational Administration in 2015 and *School District Leadership that Works: The Effect of Superintendent Leadership on Student Achievement* which was conducted by Mid-continent Research for Education and Learning (McREL) in 2006. For detailed information on the research base, please consult the appendixes of this document.

Requirements, Process, Timeline and Resources

Please consult the appendixes of this document for considerable supplementary information and guidance on superintendent evaluation.

112

Scoring

MASB recommends scoring on the rubric be limited to whole numbers (1, 2, 3) and half numbers (0.5, 1.5, 2.5). Scoring in lesser increments undermine the reliability of the evaluation instrument.

Training

The Revised School Code requires Board of Education members to receive training on the evaluation instrument to be used for the superintendent and rater reliability training. Training must also be provided to the superintendent regarding the measures used in the evaluation system and how each measure will be used.

Posting Requirements

Districts must post comprehensive information on their websites in regards to the evaluation instrument being used. For details in regards to the MASB Superintendent Evaluation instrument's posting requirements, please visit [masb.org/postingrequirements](https://www.masb.org/postingrequirements).

Accepts suggestions and input from staff but does not seek it. Does not engage staff in district-wide goal setting or decision-making.	Actively seeks staff input and engages staff in goal setting and decision-making.	
C2	Staff Communications Professional Standards for Educational Leaders: 2, 7, 9	Doesn't inform staff of matters that may be of concern.	Is inconsistent in keeping staff informed of important matters.	Consistently keeps staff informed of important matters.	
C3	Personnel Matters Professional Standards for Educational Leaders: 9	Personnel matters are not handled in a consistent manner. Some situations may be handled with bias.	Many personnel matters are handled, but not always in a consistent manner.	Personnel matters are handled with consistency, fairness, discretion, and impartiality. Personnel procedures are regularly reviewed, communicated to staff, and updated as needed.	
C4	Delegation of Duties Professional Standards for Educational Leaders: 9, 10	Doesn't delegate duties. Maintains too much personal control over all district operations.	Delegates duties as staff members request additional responsibilities.	Delegates responsibility to staff that will foster professional growth, leadership and decision-making skills.	
C5	Recruitment Professional Standards for Educational Leaders: 6	There is no formal or informal recruitment process and/or hiring is considered in an arbitrary manner.	An informal recruitment and hiring process is in place, but is not used consistently.	A formal recruitment and hiring process is followed for each hiring opportunity. Actively recruits the best staff available and encourages their application to the district.	
C6	Labor Relations (Bargaining) Professional Standards for Educational Leaders: 9	Is unable to work with union leadership, doesn't work to improve relations.	Is inconsistent in working with union leadership in regard to bargaining and labor relations. Appendix A – Research Base

National Policy Board for Educational Administration (2015). Professional Standards for Educational Leaders 2015. Reston, VA: Author.

The 2015 Standards are the result of an extensive process that took an in-depth look at the new education leadership landscape. It involved a thorough review of empirical research (see the Bibliography for a selection of supporting sources) and sought the input of researchers and more than 1,000 school and district leaders through surveys and focus groups to identify gaps among the 2008 Standards, the day-to-day work of education leaders and leadership demands of the future. The National Association of Elementary School Principals, National Association of Secondary School Principals and American Association of School Administrators were instrumental to this work. The public was also invited to comment on two drafts of the Standards, which contributed to the final product. The National Policy Board for Education Administration, a consortium of professional organizations committed to advancing school leadership (including those named above), has assumed leadership of the 2015 Standards in recognition of their significance to the profession and will be their steward going forward.

Mid-continent Research for Education and Learning (2006). School District Leadership that Works: The Effect of Superintendent Leadership on Student Achievement. Denver, CO: Author.

To determine the influence of district superintendents on student achievement and the characteristics of effective superintendents, McREL, a Denver-based education research organization, conducted a meta-analysis of research—a sophisticated research technique that combines data from separate studies into a single sample of research—on the influence of school district leaders on student performance. This study is the latest in a series of meta-analyses that McREL has conducted over the past several years to determine the characteristics of effective schools, leaders and teachers. This most recent meta-analysis examines findings from 27 studies conducted since 1970 that used rigorous, quantitative methods to study the influence of school district leaders on student achievement. Altogether, these studies involved 2,817 districts and the achievement scores of 3.4 million students, resulting in what McREL researchers believe to be the largest-ever quantitative examination of research on superintendents. 127

Appendix B – Process for Completing Year-End Evaluation for Superintendent

Planning: At the beginning of the year in which the evaluation is to occur, the Board of Education and superintendent convene a meeting in public and agree upon the following items:

- Evaluation instrument
- Evaluation timeline and key dates
- Performance goals (if necessary beyond performance indicators outlined in rubric, district-wide improvement goals and student growth model)
- Appropriate benchmarks and checkpoints (formal and informal) throughout year
- Artifacts to be used to evidence superintendent performance
- Process for compiling the year-end evaluation
- Process and individual(s) responsible for conducting the evaluation conference with the superintendent
- Process and individual(s) responsible for establishing a performance improvement plan for the superintendent, if needed
- Process and individual(s) responsible for sharing the evaluation results with the community

Checkpoints: The Board of Education and superintendent meet at key points in the evaluation year as follows:

128

- **Three months in – Informal update** – Superintendent provides written update to the board. Board president shares with the superintendent any specific concerns/questions from the board.
- **Six months in – Mid-Year Progress Report** – Superintendent provides update on progress along with available evidence prior to convening a meeting in public. Board president collects questions from the board and provides to superintendent prior to meeting. Board and superintendent discuss progress and make adjustments to course or goals, if needed. **THIS MID-YEAR PROGRESS REPORT IS A REQUIREMENT**
- **Nine months in – Informal update** – Superintendent provides written update to the board. Board president shares with the superintendent any specific concerns/questions from the board.
- **11-12 months in – Formal evaluation** – Superintendent conducts self-evaluation; presents portfolio with evidence to Board of Education (made available prior to meeting). Board members review portfolio prior to evaluation meeting; seek clarification as needed. Board president (or consultant) facilitates evaluation. Formal evaluation is adopted by Board of Education.

Appendix C – Conducting the Formal Evaluation & Conference

Prior to meeting:

- 1) Superintendent prepares self-evaluation, compiles evidence and provides to Board of Education.
- 2) Board members seek clarity, as needed, regarding self-evaluation or evidence provided.
- 3) Board of Education members receive blank evaluation instrument and make individual notes about their observations.

During meeting:

- 4) Superintendent presents self-evaluation and evidence. Superintendent remains present throughout the meeting.
- 5) Board president or Facilitator reviews with Board of Education superintendent's self-evaluation and evidence provided for each domain and facilitates conversation about performance.
- 6) Score is assigned for each performance indicator via consensus of the Board of Education.
- 7) Upon completion of all performance indicators within all domains, the tool will calculate the overall professional practice score and identify the correlating rating.
- 8) The Board of Education reviews evidence provided related to progress toward district-wide goals and assigns a score via consensus.
- 9) The Board of Education reviews evidence provided related to the District Student Growth Model and assigns a score via consensus.
- 10) The tool will calculate the overall evaluation score based on professional practice, progress toward district-wide improvement goals and student growth ratings.
- 11) The Board President or Facilitator makes note of themes/trends identified by the Board of Education during the evaluation.
- 12) The Board reconvenes in open session if they have done the evaluation in closed session
- 13) Board president calls for vote to adopt completed year-end evaluation for superintendent.
- 14) After approval of the evaluation, the Superintendent notes their comments on evaluation if desired.
- 15) Board president and superintendent sign completed evaluation form and it goes into the personnel file and the overall rating is reported in the REP.

Appendix D – Considerations Related to the Closed Meeting

The Board of Education may go into closed session for certain aspects of the superintendent’s evaluation but ONLY at the request of the superintendent. A superintendent who has requested a closed session may rescind the request at any time. The following table identifies which aspects of the process need to be in open and closed session:

OPEN PHASE

Scheduling the evaluation
Choosing and modifying the evaluation instrument
Establishing performance goals or expectations
Determining process for the evaluation
Voting to go into closed session

CLOSED PHASE *only if requested by employee*****

Discuss & deliberate about evaluation/performance of the superintendent

OPEN PHASE

Adoption of the evaluation
Related board actions and discussions

Consensus That Involves a Closed Session

1. Superintendent requests a closed session for the purpose of their evaluation.
2. Board of Education votes to go into closed session.
3. Board of Education moves into closed session: the superintendent remains present throughout the session unless they choose to excuse themselves.
4. Board president or facilitator reviews with the Board of Education the superintendent’s self-evaluation and evidence provided for each domain and facilitates a conversation about performance. A consensus of the Board of Education is identified for each domain score.
5. Board president reviews with Board of Education evidence provided related to progress towards district-wide goals. A consensus of the Board of Education is identified for progress towards district-wide goals via consensus of Board of Education.
6. Board president reviews with Board of Education evidence provided related to district’s student growth model. A consensus of the Board of Education is identified for student growth.
7. Upon completion of all areas, the tool will calculate the overall score and identify the correlating rating.
8. Board president or facilitator makes a note of themes that were identified by the Board of Education during the evaluation.
- 9. Board of Education comes out of Closed Session and returns to an Open Meeting.**
10. Board president asks for a motion to approve the evaluation (since the work was completed in closed session, it is confidential until approved by the Board). Once approved by the Board:
 - The consensus score/rating for the overall evaluation can be identified and a public statement can be announced.
11. Superintendent notes their comments on the evaluation, if desired.
12. Board president and superintendent sign the completed evaluation form.
13. Board president works with the superintendent to coordinate further public statement about the superintendent’s performance if needed.

130

*The completed evaluation form reflects the Board of Education’s assessment of the superintendent’s performance and is subject to FOIA.
The forms used by individual board members for notes are not subject to FOIA providing they are not calculated into an average score.*

Appendix E – Possible Timelines for Evaluation of the Superintendent

Key dates and deliverables for superintendent evaluation should be mutually agreed upon by the Board of Education and the superintendent at the *beginning* of the evaluation cycle. Timeline scenarios and key benchmark descriptions are provided below.

January – December		June – July		March – April	
Activity	Month	Activity	Month	Activity	Month
Tool, process, timeline and goals mutually established	January	Tool, process, timeline and goals mutually established	July	Tool, process, timeline and goals mutually established	May
Informal update	April	Informal update	October	Informal update	August
Mandatory Mid-year Progress Report	June	Mandatory Mid-year Progress Report	December	Mandatory Mid-year Progress Report	October
Informal update	August	Informal update	February	Informal update	December
Annual evaluation	November	Annual evaluation	May	Annual evaluation	March
Advantage: Aligns with election cycle. Board members who establish goals are likely the same board members evaluating performance.		Advantage: Aligns with the school year. Is compatible with natural flow of the school year as well as hiring cycle for most superintendents.		Advantage: Aligns with contract renewal cycle in many cases. Boards of Education must provide superintendents 90 days’ notice in the event of nonrenewal of contract.

Appendix F – Establishing Performance Goals for the Superintendent

The MASB Superintendent Evaluation instrument provides a framework for evaluating the superintendent in critical areas of professional practice as well as the state-required components of student growth and progress towards district-wide goals. Additional performance goals should be established in exceptional circumstances to clarify the board’s expectations and give priority to the work being done. For this reason, performance goals should be limited in number, aligned to district goals and assist in clarifying accountability.

Superintendent performance goals may be developed from:

- A specific district goal
- A job performance indicator within an evaluation instrument
- Student performance data

When establishing performance goals, the following guidelines should be considered:

- Involve all board members and superintendent
- Decide on desired results
- Develop performance indicators
- Identify supporting documentation (evidence)
- Review and approve final performance goals, indicators and evidence
- Monitor progress at scheduled checkpoints

Performance Goal Fundamentals

Performance goals should be S-M-A-R-T:

Specific – Goals should be simplistically written and clearly define what is expected.

Measurable – Goals should be measurable and their attainment evidenced in some tangible way.

Achievable – Goals should be achievable given the circumstances and resources at hand.

Results-focused – Goals should measure outcomes not activities.

Time-related – Goals should be linked to a specific timeframe.

132

Process for Goal Development

1. Identify the district goal/priority/indicator/student performance data the superintendent’s goal is intended to support
2. Ask the superintendent:
 - a. What will we see next year toward the accomplishment of this that we don’t see now?
 - b. What measure will we use to know that the difference represents meaningful progress?
3. Allow superintendent time to craft a response
4. Once agreed upon, board and superintendent develop SMART goal statements

Appendix G – Evidence

Validity, reliability and efficacy of the MASB Superintendent Evaluation Instrument relies upon board members using evidence to score superintendent performance.

- Artifacts to serve as evidence of superintendent performance should be identified at the beginning of the evaluation cycle and mutually agreed upon by the Board of Education and the superintendent.
- Artifacts should be limited to only what is needed to inform scoring superintendent performance. Excessive artifacts cloud the evaluation process and waste precious time and resources.
- Boards of Education and superintendents should establish when artifacts are to be provided, i.e., as they originate, at designated checkpoints, during self-evaluation, etc.

A list of possible artifacts that may be used as evidence is provided at the end of each professional practice domain rubric. See the appendixes of this document for additional artifacts that may serve as evidence of performance.

Appendix H – Possible Evidence of Performance

Evidence helps to demonstrate performance of the superintendent and remove guess work and subjectivity from evaluation. The following artifacts may be used as evidence of performance. This list is not comprehensive.

Appendix I – Contingencies

If a superintendent receives a rating of **developing** or **needing support**, the Board of Education must develop and require the superintendent to implement an improvement plan to correct the deficiencies. The improvement plan must recommend professional development opportunities and other actions designed to improve the rating of the superintendent on their next annual evaluation. See the appendixes of this document for more information on developing an Individual Improvement Plan for the superintendent.

If a superintendent receives a rating of **effective** on three consecutive annual evaluations, the Board of Education may choose to conduct an evaluation biennially instead of annually. However, if a superintendent is not rated as effective on one of these biennial evaluations, the superintendent must again be evaluated annually.

Appendix J – Student growth and assessment data or student learning objectives metrics

For all superintendents, the evaluation system has to take into account multiple measures of student growth and assessment data. For superintendents who are *regularly involved in instructional matters*—and this includes all but the most exceptional situations—the following specific expectations must be met with regard to student growth and assessment data or student learning objectives metrics :

Beginning in the 2024-2025 school year, 20% of the year-end evaluation must be based on student growth and assessment data or student learning objectives metrics.

Student growth and assessment data used for superintendent evaluation may be the combined student growth and assessment data used in teacher annual year-end evaluations for the entire district.

Student Growth Versus Student Achievement

Student growth and student achievement are not the same measurement. Student achievement is a single measurement of student performance while student growth measures the amount of students' academic progress between two points in time.¹

Student Achievement Example: A student could score 350 on a math assessment.

Student Growth Example: A student could show a 50-point growth by improving their math score from 300 last year in the fourth grade to 350 on this year's fifth grade exam.

It's important to note that, in order to measure student growth, the data considered must be from a single group of students, i.e., this year's fourth graders and next year's fifth graders.

137

What is a Student Growth Model?

School districts should establish a student growth model to be used in educator and administrator evaluations. A growth model is a collection of definitions, calculations or rules that summarizes student performance over two or more time points and supports interpretations about students, their classrooms, their educators or their schools.²

Michigan law requires that multiple research-based growth and assessment or student learning objective metrics be used in student growth models that are used for evaluation purposes. This may include state assessments, alternative assessments, student learning objectives, nationally normed or locally adopted assessments that are aligned to state standards or based on individualized program goals.

Appendix K – *Developing an Individual Improvement Plan for the Superintendent*

Individual Improvement Plans are an excellent way of helping employees develop their skills. Boards of education should encourage superintendents to develop an IIP in order to foster professional development.

In the event that a superintendent receives a rating that is less than effective, the law requires the creation of an IIP. The following process is a framework for creating and implementing an IIP for the superintendent.

- During the evaluation conference, the Board of Education provides clear feedback to the superintendent in the domain(s) in which they received a less than effective rating.
- A committee of the Board of Education is established to support and monitor the superintendent’s development.
- The superintendent drafts an Improvement Plan and presents it to the committee for feedback and approval. The Improvement Plan outlines clear growth objectives, as well as the training and development activities in which the superintendent will engage to accomplish objectives. The committee reviews, provides feedback and approves the Improvement Plan.
- The committee meets quarterly with the superintendent to monitor and discuss progress.
- The superintendent reports progress on their Improvement Plan with their self-evaluation prior to the formal annual evaluation.

Appendix L – Training

MASB provides training on its Superintendent Evaluation instrument to board members and superintendents via a cadre of certified trainers. Training is as follows:

Instrument-Specific Training/Rater Reliability Training

This training covers the use of the MASB Superintendent Evaluation instrument including the cycle and processes of evaluation, rating superintendent performance on the rubric, rater reliability training, as well as the use of evidence to evaluate superintendent performance. This training fulfills the requirement of evaluator training for board members as well as evaluatee training for superintendents whose districts are evaluating their superintendent with the MASB Superintendent Evaluation instrument. It is conducted on-location in districts with board members and superintendent present.

Authors

The Michigan Association of School Boards has served boards of education since its inception in 1949. In the decades since, MASB has worked hands-on with tens of thousands of school board members and superintendents throughout the state. Evaluation of the superintendent has been a key aspect of that work – MASB developed superintendent evaluation instruments and trained board members in their use nearly half a century before the requirements.

MASB staff and faculty involved in creating the MASB Superintendent Evaluation instrument Include:

- Rodney Green, Ph.D., Superintendent of Schools (retired), East China School District
- Olga Holden, Ph.D., Director of Leadership Services (retired), MASB
- Donna Oser, CAE, Director of Executive Search and Leadership Development, MASB
- Debbie Stair, M.N.M.L., former school board member, Assistant Director of Leadership Development, MASB
- Jay Bennett, M.A., former school board member, Assistant Director of Executive Search Services, MASB

New York Council of School Superintendents staff and leadership involved in creating the Council's Superintendent Model Evaluation (which significantly¹⁴⁰ influenced MASB's instrument):

- Jacinda H. Conboy, Esq., New York State Council of School Superintendents
- Sharon L. Contreras, Ph.D., Superintendent of Schools, Syracuse City SD
- Chad C. Groff, Superintendent of Schools
- Robert J. Reidy, Executive Director, New York State Council of School Superintendents
- Maria C. Rice, Superintendent of Schools, New Paltz CSD
- Dawn A. Santiago-Marullo, Ed.D., Superintendent of Schools, Victor CSD
- Randall W. Squier, CAS, Superintendent of Schools, Coxsackie-Athens CSD
- Kathryn Wegman, Superintendent of Schools (retired), Marion CSD

**RE: Walled Lake Consolidated School District
 2019 Bond Projects – Bid Package No.7 Central High School – Bulletin 8**

Dear Mr. Chatfield:

Per requirements by the electrical inspector, we completed a continuity test of the existing bonding in the pool area at Central High School. This continuity test did not pass and indicated that many items within 5’ of the pool edge needed to be bonded; this includes ladders, railings, starting blocks, and stanchion cups on the pool deck.

As a solution to this issue, the design team has recommended to replace the existing failing bonding with new bonding wire to each piece of metal within 5’ of the pool deck to meet code. This pricing is reflective of the necessary demolition, mud bed, tiling, and electrical bonding installation around the perimeter of the pool deck.

It is the design team and AUCH’s recommendation to issue change orders for bulletin 8 to the following:

Demolition / Sawcutting	Bluestar	\$16,500
Infill/Tile	Omega Flooring	\$14,298
Electrical	Great Lakes Power and Lighting	\$17,624
<u>TOTAL CHANGE ORDER AWARD</u>		<u>\$48,422</u>

Attached please find a copy of the contractor pricing. Please do not hesitate to call if you have any questions.

Very truly yours,

 2019 Bond Projects Western High School Phase 2 Remodeling – Bulletin 4R**

Dear Mr. Chatfield:

Per requirements by the electrical inspector, we completed a continuity test of the existing bonding in the pool area at Western High School. This continuity test did not pass and indicated that many items within 5’ of the pool edge needed to be bonded; this includes ladders, starting blocks, lane rope anchors, and the grates inside of the existing gutter system.

As a solution to this issue, the design team has recommended to replace the existing gutter system with a new stainless steel gutter. This pricing is reflective of the necessary demolition, concrete, electrical, and new tile installation in addition to the new gutter system.

It is the design team and AUCH’s recommendation to issue change orders for bulletin 4R to the following:

Demolition / Scaffolding / Concrete / Reinforcing	Brenca Contractors	\$384,656
Electrical	Metro Electric	\$15,162
Tile	Omega Flooring	\$103,712
Gutter / Piping	Aquatic Source	\$239,678
<u>TOTAL CHANGE ORDER AWARD</u>		<u>\$743,208</u>

Attached please find a copy of the contractor pricing. Please do not hesitate to call if you have any questions.

Very truly yours,
George W. Auch Company

**WALLED LAKE CONSOLIDATED SCHOOL DISTRICT
COUNTY OF OAKLAND
STATE OF MICHIGAN**

Minutes of a special meeting of the Board of Education (the “Board”) of the Walled Lake Consolidated School District, County of Oakland, State of Michigan (the “School District”), held in the School District, on August 8, 2024, at 6:00 p.m., local time.

PRESENT: Members _____

ABSENT: Members _____

**RESOLUTION CERTIFYING OPERATING MILLAGE
REPLACEMENT PROPOSAL**

The following preamble and resolution were offered by Member _____ and supported by Member _____:

WHEREAS, the Board has determined that it is necessary for the continuing operation of the School District to replace, restore and extend the authority to levy certain operating mills and increase the prior authority to protect against the impact of future rollbacks under the Headlee Amendment, as described in the Operating Millage Replacement Proposal attached hereto as Exhibit A (the “Proposal”); and

WHEREAS, it is necessary and desirable to submit the Proposal to the School District’s electors at an election to be held on November 5, 2024 (the “November Election Date”); and

WHEREAS, in order for the Proposal to be submitted to the School District's electors on the November Election Date, it is necessary for the Board to certify the Proposal to the Clerk of the County of Oakland, State of Michigan (the "School District Election Coordinator"), as required by the Michigan election laws, not later than 4:00 p.m. on August 13, 2024.

NOW, THEREFORE, BE IT RESOLVED THAT:

1. The Proposal attached hereto as Exhibit A is hereby certified to the School District Election Coordinator and the local clerks for submission to the School District’s electors on the November Election Date. The Secretary of the Board and the Superintendent are hereby each individually authorized and directed to file this Resolution and/or complete any such forms, certificates or documents as may be required by the School District Election Coordinator and the local clerks to evidence the foregoing certification and/or submission by no later than 4:00 p.m. on August 13, 2024.

2. The School District Election Coordinator is hereby authorized and directed to: (a) post and publish notice of last day of registration and notice of election for the November Election Date; and (b) have prepared and printed ballots for submitting the Proposal at the November Election Date, which ballots shall be in the form appearing in Exhibit A, or the proposition shall be stated as a proposal on the voting machines, which ballots may include other matters presented to the electorate on the same date.

3. All resolutions and parts of resolutions insofar as they conflict with the provisions of this Resolution be and the same hereby are rescinded.

RESOLUTION DECLARED ADOPTED.

Marc Siegler
Secretary, Board of Education

I hereby certify that the foregoing is a true and complete copy of a resolution adopted by the Board of Education of the Walled Lake Consolidated School District, County of Oakland, State of Michigan at a special meeting held on August 8, 2024, and that said meeting was conducted and public notice of said meeting was given pursuant to and in full compliance with the Open Meetings Act, being Act 267, Public Acts of Michigan, 1976, and that the minutes of said meeting were kept and will be or have been made available as required by said Act.

EXHIBIT A

**WALLED LAKE CONSOLIDATED SCHOOL DISTRICT
COUNTY OF OAKLAND
STATE OF MICHIGAN**

OPERATING MILLAGE REPLACEMENT PROPOSAL

This proposal would replace, restore and extend the authority of the School District, which expires with the 2025 tax levy, to levy up to 18.00 mills for general school district operating purposes on taxable property in the School District to the extent that such property is not exempt from such levy, restrict the levy on principal residences (owner-occupied homes) to no more than 3.6297 mills and protect against the impact of future Headlee rollbacks of up to 3.0 mills. This authorization would allow the School District to continue to levy the statutory limit of 18.00 mills on non-homestead property (principally industrial and commercial real property and residential rental property) and to continue to levy on principal residence property (owner occupied homes) only that portion of the mills necessary to allow the School District to receive the full revenue per pupil foundation allowance permitted by the State. The School District only levied 0.3086 mills on personal residences (owner occupied homes) in 2024.

Shall the limitation on the amount of taxes which may be imposed on taxable property in the Walled Lake Consolidated School District, County of Oakland, Michigan, be increased in the amount of 21 mills, with 18 mills being the maximum allowable levy (\$18.00 per \$1,000 of taxable value), to the extent such property is not statutorily exempt, and of which not more than 3.6297 mills may be imposed on principal residences, for fourteen (14) years, the years 2024 to 2037, inclusive? This operating millage, if approved and levied, would provide estimated revenues to the School District of \$3,232,239 during the 2024 calendar year, to be used for general operating purposes.

Approach to K12

Program Management Information System (PMIS)

e-Builder - technology to keep it all a click away

Having accurate, real-time data is the cornerstone for all decision-making.

Our e-Builder platform provides the opportunity to combine measurements of scope, schedule, and costs in a single integrated system. This allows clients to make informed decisions relating to accurate forecasts of project performance, which is an important aspect of project management.

Cloud-based access
Our online platform allows you access to documents, no matter where you are

Collaborative environment
Improve collaboration, communication, and accountability between your stakeholders and the project team

Cost management
Better decision-making with a complete database of your costs and change order data

User-friendly reporting
Total visibility into outstanding action items and your project data

Communication Process

We help you keep your community educated and informed

Large capital programs don't just impact students and administration; they also have an impact on the community as a whole. As such, the community should be involved every step of the way from inspiration to implementation.

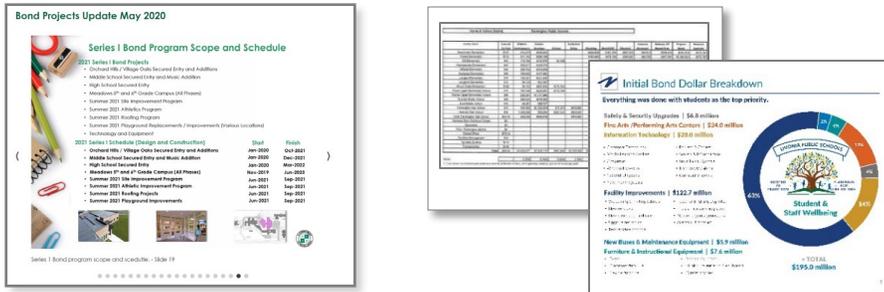

Plante Moran Realpoint engages, informs, and reports to K-12 communities by instituting the following best practices:

We engage your community with:

- ✓ Timely, thoughtful surveys regarding work done and work to be done
- ✓ Live, broadcasted presentations showcasing program progress
- ✓ Focus groups to learn more about needs, vision, and priorities

Web-based communications on the unique needs of your District, deliverables and initiatives may include:

- ✓ Community presentations
- ✓ Focus group, surveys, reports, and presentations
- ✓ Virtual Q&A sessions utilized through platforms such as Teams, Zoom, etc.
- ✓ Contact forms on district website for 24/7 access for community members to submit questions directly to district leadership
- ✓ Social media strategy and profile creation
- ✓ Presentation of up-to-the-minute information via web-based PMIS platform

Our communications plan is scalable to any industry and size

Large capital programs don't just impact students and administration; they also have an impact on the community as a whole. As such, the community should be involved every step of the way from inspiration to implementation.

We engage your community with:

Timely, thoughtful surveys regarding work done and work to be done

Focus groups to learn more about needs, vision, and priorities

Live, broadcasted presentations showcasing program progress

The Plante Moran Realpoint Difference

Extensive experience with WLCSD: PMR has been a strategic planning partner with WLCSD since 2012, successfully planning and assisting in the implementation of the district's 10-year strategic facility master plan. As WLCSD's Owner's Rep, we will use our extensive experience of your facilities and sites, and more importantly, assist your team in the continuation of the great team collaboration built over the past 12 years on this bond program.

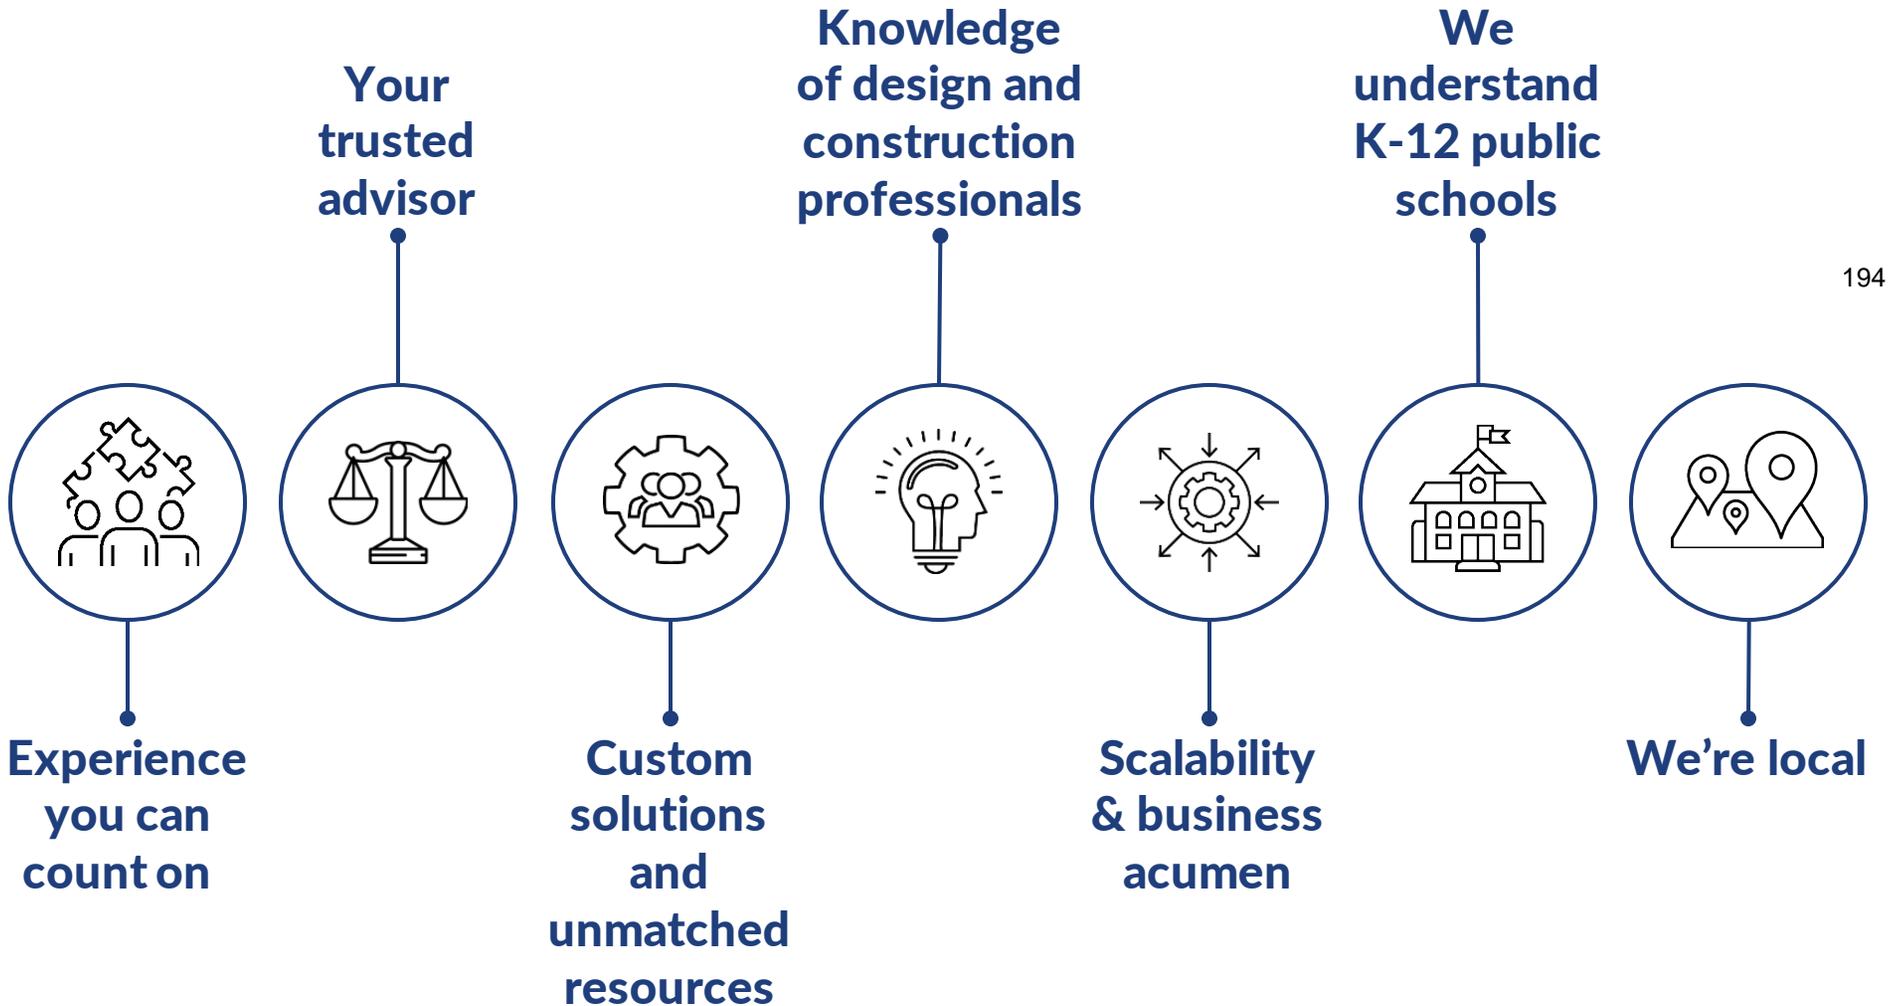

Extensive K-12 Experience: Founded in 1995, PMR is the leading program management firm for K-12 school districts in the State of Michigan, having led capital bond planning/programs for more than 40 school districts throughout the state. Just in the last 25 years, we've successfully implemented more than \$6 billion of capital programs for many of Michigan's largest districts, including:

- Detroit Public Schools Community District - \$700M program
- Grand Rapids Public Schools - \$500M program
- Warren Consolidated Schools - \$350M program
- Southfield Schools \$345M program
- Novi Community Schools \$257M program
- Farmington Public School \$229M
- Bloomfield Hills Schools - \$200M program
- Birmingham Public Schools - \$195M program
- Livonia Public Schools - \$195M program

Large program management capabilities: In addition to unparalleled K-12 experience, PMR has written the book on large capital project success in Michigan, helping clients manage billions of dollars in capital programs across many corporate and public sector industries and bringing "best practices" to our K-12 clients.

Team of professionals with deep bench strength...All local: Our proposed team of professionals (and reach-back resources) work out of our firm's headquarters in Southfield office, located within 15 miles from WLCSD!
