RECOMMENDED ACTION: It is recommended that the Board approve the authorization of the initiation of proceedings for the sale of property specifically described as approximately of a 1.572 tract acre of land.

BOARD POLICY/STATE REGULATION/LAW REFERENCE (if applicable):

Board Policy CDB(LEGAL), Texas Education Code 11.154, Local Gov't Code 272.001 (a), (d)

OVERVIEW:

A board may authorize the sale of any property, other than minerals, held in trust for free school purposes.

In most cases, before land owned by a district may be sold or exchanged for other land, notice to the general public of the offer of the land for sale or exchange must be published in a newspaper of general circulation in either the county in which the land is located or, if there is no such newspaper, in an adjoining county. The notice must be published in two separate dates and the sale or exchange may not be made until after the 14th day after the date of the second publication. The board is not required to accept any bid or offer or to complete a sale or exchange.

The land under consideration is raw and unused, and not currently needed by Mineral Wells ISD for any purpose. If sold, this parcel could be returned to school tax rolls and could be used for productive purposes as the city of Mineral Wells sees development occurring in various locations around the city.

Legal Description Provided in Resolution.

FISCAL IMPACT: Immediate financial gain of at least the appraised value of the land (appraisal to be pursued if approved), plus increase to school tax rolls

Any provisions requiring the District to indemnify Moore Connections or others are void and of no effect. The District and its employees can neither agree to hold Moore Connections harmless nor agree to indemnify Moore Connections, and any provisions in the Agreement to the contrary are void. Nothing in the Agreement should be construed to abrogate any rights or affirmative defenses available to District under doctrines of sovereign and official immunity.

COUNTY OF PALO PINTO §

Pursuant to V.T.C.A., Government Code §§791.001 et seq. (the "Act") the City of Mineral Wells, Texas, ("CITY"), and the Mineral Wells Independent School District ("MWISD"), each being a unit of "Local Government" as defined by the Act, make and enter into this Agreement for the purposes and consideration as set out below.

WHEREAS, MWISD desires the Fire Department of CITY and CITY EMTs to assist MWISD in maintaining a safe environment for MWISD sponsored sporting events and activities; and

WHEREAS, the MWISD Board of Trustees has found, and hereby declares, it is in need of emergency medical services to protect the safety and welfare of its student athletes at MWISD sponsored sporting events and activities; and

WHEREAS, the CITY desires to provide MWISD the required emergency medical services;

NOW, THEREFORE, in consideration of the premises and of the terms,

provisions, and mutual provisions herein contained, CITY and MWISD hereby agree as follows:

I.

Purpose

1.01 The primary purpose of this Agreement is for MWISD to secure emergency medical services to protect the safety and welfare of MWISD students at MWISD sponsored sporting events and activities.

Services and Obligations of City

The CITY, through CITY EMTs, shall provide MWISD the following services and related activities:

Emergency Medical Services

2.1 Beginning August 28, 2026, two (2) Emergency Medical Technicians (EMTs) and an ambulance will be provided by CITY for emergency medical services at MWISD football games for 2026 and other extra school-related events as requested by the ISD during the school year. [*See Attachment A: Mineral Wells ISD Stadium Ambulance Service Schedule for regular season games*].

2.2 For extra school-related events, CITY EMTs and ambulance will be provided subject to availability of CITY EMTs and scheduling.

III.

Qualifications

Any EMT assigned by CITY Fire Department shall have the following qualifications:

3.1 Must continuously satisfy all minimum standards for EMTs established from time to time by the Texas Department of State Health Services and additional standards, if any, of CITY Fire Department.

3.2 Must have passed a criminal background check in accordance with Section 22.083 of the Texas Education Code.

3.3 Initial selection and assignment of the EMTs will be by CITY's Fire Department.

IV.

Employees of the City

4.1 All EMTs furnished by CITY will be employees of CITY and will at all times be subject to the supervision and control of the CITY's Fire Chief or his designee and shall be responsible to the Fire Chief or his designee.

4.2 All EMTs and ambulance furnished by CITY have the protection of CITY as their primary responsibility. Therefore, at any time when staffing requirements demand more personnel for protection of CITY, all or a portion of the EMTs and/or the ambulance may be removed from games for a temporary period until those EMTs and/or ambulance are no longer required for the reasonable protection of CITY.

4.3 The supervisory personnel of the EMTs who are responsible for their direct supervision shall be available at all reasonable times to report to and confer with designated officials of MWISD.

V.

Services and Obligations of MWISD

MWISD shall fulfill the following obligations in return for the CITY's performance of the foregoing services:

- 5.1 The CITY shall invoice MWISD and MWISD shall pay the City a fee of \$50 per hour for the use of a CITY Fire Department ambulance and the contracted services of two (2) EMTs, to be charged a minimum of three (3) hours per event, exclusive of the total time the ambulance is on standby at the event. Both governing bodies of the respective parties find this fair compensation for services performed. Within 30 days of receipt of invoice from City, MWISD shall deliver payment to:

P.O. Box 460
Mineral Wells,
TX 76068

5.2 Payments for the above described governmental services must be made from current revenues available to the school district.

5.3 In the event the CITY ambulance and EMTs are removed from service at an MWISD location or function due to the provision set forth in section 4.2 and a replacement apparatus with EMT compliment is unavailable on scene, the MWISD will not be required to compensate the CITY for the affected EMTs or ambulance.

VI.

Term

6.1 The term of this Agreement shall commence on August 28, 2026, and shall continue for the 2026 football season including any extended play and playoff games.

6.2 Either party may terminate the Agreement by giving 30 days written notice and the Agreement shall terminate on the date set out in the notice. Termination of this Agreement shall not excuse any of the payments due for services provided during the term in which the notice of termination was given. For example, if the Agreement terminates on September 5th, the payment for services provided on September 5th still must be paid.

Attendance Policy for Full-Time Virtual Programs Under Texas Education Code Chapter 30B

1. Purpose and Scope

The District adopts this policy to govern attendance for students participating in a District-approved full-time virtual program operated under Texas Education Code Chapter 30B. Texas Education Agency guidance recognizes that school systems may offer full-time virtual or hybrid programs under Chapter 30B without establishing a separate campus when the program operates within an existing campus and enrollment in the program is less than 50 percent of the total campus enrollment.

This policy is intended to establish a clear, daily, evidence-based method for determining and recording attendance in a virtual setting while preserving the District's authority to define implementation procedures consistent with TEA guidance, the Student Attendance Accounting Handbook, and applicable state and federal requirements.

References in this policy to TEA guidance, SAAH provisions, or TEC Chapter 30B include any successor guidance, rules, or statutory amendments. In the event of a conflict between this policy and current TEA guidance or state law, the current TEA guidance or state law shall control, and the Superintendent or designee is authorized to update administrative procedures accordingly.

This policy applies to full-time virtual programs operating within an existing campus with less than 50 percent of the campus's total enrollment. If the District at any time seeks TEA authorization for a full-time virtual or hybrid campus under TEC §30B.101, this policy shall apply to the extent consistent with campus authorization requirements, and the Superintendent or designee is authorized to update administrative procedures to reflect the ADA calculation methodology under TEC §30B.106 and applicable TEA authorization guidance.

2. Definition of Daily Attendance in a Virtual Setting

For purposes of a full-time virtual program, daily attendance means that, for a scheduled instructional day, the District has documentation of at least one qualifying attendance indicator demonstrating the student's engagement with instruction, consistent with the approved instructional plan.

A student's attendance must be supported by evidence that the student accessed instruction on the applicable scheduled instructional day. TEA's Chapter 30B guidance permits attendance for full-time virtual and hybrid programs to be reported based on the school system-approved instructional plan and policy, including synchronous or asynchronous participation.

3. Daily Attendance Requirement

Attendance shall be measured daily for each scheduled instructional day on which the virtual program is open for instruction. Attendance may be recorded, finalized, or corrected in the attendance system within a reasonable timeframe in accordance with District procedures.

Original documentation supporting each daily attendance determination must be created at the time of the instructional activity it documents, consistent with SAAH §1.2. Documentation created after the fact to substantiate a prior day's attendance is not permitted. In a virtual program, LMS timestamps, third-party integrated tool logs, LiveLesson attendance logs, assignment submission timestamps, and same-day teacher logs of instructional interactions serve as the original, contemporaneous documentation of attendance. Attendance entry into the District's approved attendance-accounting system is a downstream administrative step that must be completed in time to satisfy (i) the applicable PEIMS Six Weeks Attendance Submission deadline established by TEA under TEC §48.266(b-1), and the timelines published by TEA in the Texas Education Data Standards (TEDS), and (ii) SAAH §2.1's requirement that records be available within 20 working days of any TEA audit request.

A student shall be marked present for a scheduled instructional day only when the student has at least one qualifying attendance indicator for that day.

A student shall be marked absent for a scheduled instructional day when no qualifying attendance indicator is available for that day within the applicable attendance window, unless another state-recognized attendance rule or District-approved correction process applies. Attendance may not be awarded based on later-completed work unless the later evidence, taken together with other contemporaneous evidence, demonstrates that the student engaged in instruction during the applicable attendance window, or unless a District-approved correction process applies.

4. Qualifying Attendance Indicators

A qualifying attendance indicator must demonstrate that the student accessed instruction on the scheduled instructional day. At least one of the following categories shall qualify, as further defined in District procedures:

1. **Learning management system progress or activity** that confirms the student accessed instruction, as defined by the District or campus-approved instructional plan;
2. **Teacher-student interaction** that confirms the student accessed instruction, including synchronous or asynchronous instructional interaction; or
3. **Completion or submission of instructional work**, including an assignment, assessment, activity, or other instructional product submitted to the teacher or through the approved online instructional platform.
4. Any other evidence approved in administrative procedures that demonstrates the student's engagement with instruction on the scheduled instructional day, consistent with TEA guidance and the approved instructional plan.

These categories are intended to align with TEA's daily measurement options for full-time virtual and hybrid programs under SB 569 daily attendance determination. At least one qualifying attendance indicator must be established for each scheduled instructional day for a student to be recorded present. If the District's locally approved instructional plan expressly defines a combination-of-evidence approach as its "locally approved daily measurement" under SAAH §12.2.2.2, the combination shall demonstrate that the student engaged in instruction on the scheduled instructional day and shall be applied consistently to students participating in the same virtual program model.

For purposes of this policy, a login without any associated instructional activity is generally not sufficient to establish attendance; however, administrative procedures may define login events accompanied by measurable time-on-task, content interaction, or other indicators as qualifying evidence.

For students in early grades or programs where the instructional plan expressly authorizes a learning coach model, teacher-verified learning coach attestations of the student's daily instructional activity, submitted through the approved system, may qualify.

Off-platform instructional activities may support attendance under one of two distinct SAAH frameworks, which shall be applied separately:

(a) SAAH §12.2.2.2 Daily-Measurement Equivalents. Off-platform activities that are documented and time-stamped by the District's approved system, including instructor-supervised tutoring, work-based learning placements, CTE practicums, internships, dual-credit college classes, and other instructional placements expressly identified in the District's locally approved instructional plan, may serve as a qualifying attendance indicator under Section 4 above. Documentation must satisfy SAAH §1.2's original-documentation-at-time-of-attendance requirement.

(b) SAAH §3.6.3 Present-at-Initial-Entry Categories. State-required assessments, board-approved school-sponsored activities with the supervision requirements set forth in SAAH §3.6.3, school-sponsored competitions authorized under SAAH §3.6.3, and other categories expressly recognized under SAAH §3.6.3 shall be treated under the present-at-initial-entry framework set forth in Administrative Procedures, not as SAAH §12.2.2.2 daily-measurement indicators. Documentation shall satisfy SAAH §3.6.3's specific category-by-category requirements and shall be retained in accordance with SAAH §1.4 and District records procedures.

5. Attendance Window

Attendance may be determined anytime during the scheduled instructional day, from 12:00 a.m. through 11:59 p.m., or within a more specific daily time frame established by the District, campus, or program in the approved instructional plan or administrative procedures. Student participation records are maintained through system-generated timestamps in Pearson Online Classroom and other District-approved systems. Although system reports may display timestamps in different formats, attendance and instructional participation are attributed to the applicable instructional day based on the student's assigned local time zone in the system. The District will use the system date attribution, together with any supporting documentation, to determine whether qualifying participation occurred within the approved attendance window. All participation records remain date-stamped, auditable, and capable of being reproduced for compliance review. The attendance window shall apply consistently to students participating in the same virtual program model, unless a student's individualized program, accommodation plan, or other legally required plan provides otherwise.

The program will follow its approved instructional calendar. Attendance shall be collected only for scheduled instructional days on which the program is open for instruction. Non-instructional days, holidays, and days on which the program is not open for instruction

shall not be used for attendance unless they are designated as instructional days on the approved calendar or instructional track.

6. Responsibility for Recording and Updating Attendance

The certified Homeroom Teacher of Record (HTOR) or, if the District's SIS is configured to require per-course attendance at secondary levels, the certified Teacher of Record for the student's applicable instructional block, is responsible for reviewing attendance evidence, determining daily attendance status, and completing the District's required attendance verification process for students assigned to the teacher's homeroom roster or applicable instructional block.

For all students participating in the virtual program, the certified Homeroom Teacher of Record (HTOR) is responsible for reviewing attendance evidence and completing the District's required attendance verification process.

The LMS (Pearson Online Classroom) and other District-approved attendance accounting systems may automate the collection and initial population of qualifying attendance evidence; however, automated collection of evidence does not constitute completion of the attendance review process. The certified Homeroom Teacher of Record remains responsible for reviewing attendance evidence and completing the District's required attendance verification process in the LMS (Pearson Online Classroom). The certified Homeroom Teacher of Record's completion of the attendance verification process in the LMS (Pearson Online Classroom), through the teacher's unique system login, shall provide an audit trail documenting completion of the required attendance review process. Any electronic review, verification, approval, certification, or other attendance-accounting action completed through the District's approved paperless attendance system shall be maintained in accordance with SAAH §2.2.3 paperless attendance accounting requirements. Additional attendance-accounting procedures may be implemented within the Student Information System (SIS) when required to comply with applicable law, TEA guidance, SAAH requirements, or District attendance accounting procedures.

The certified Homeroom Teacher of Record, together with any authorized staff member who enters or corrects attendance data, is responsible for ensuring that the original documentation supporting each attendance determination was captured at the time of the

instructional activity, consistent with SAAH §1.2 and §2.1. Original documentation may not be created after the fact for the purpose of supporting attendance for a prior day.

Only the certified Homeroom Teacher of Record (or, where applicable, the certified Teacher of Record) shall determine each student's daily attendance status. Authorized attendance and support staff may gather evidence, prepare data, and enter or correct attendance data as delegated, but shall not determine attendance status independent of the certified Teacher of Record's verified review. Consistent with SAAH §3.1, attendance personnel shall not be assigned the responsibility of determining a student's special-program coding.

The District may delegate initial attendance entry to program administrators, virtual program coordinators, attendance clerks, or automated LMS/SIS integrations, provided that (i) the certified Homeroom Teacher of Record has documented responsibility for reviewing attendance evidence and completing the District's required attendance verification process, (ii) the system meets SAAH §2.2.3 paperless attendance accounting requirements, and (iii) each delegated staff member who enters data into the attendance-accounting system electronically attests, consistent with SAAH §3.1, that the data entered are true and correct to the best of the staff member's knowledge, through the staff member's unique system login in the District's approved paperless attendance-accounting system. For attendance data pre-populated or introduced through automated LMS/SIS integrations, the source system, the automated process, and the responsible District position(s) shall be identifiable in the paperless attendance-accounting system audit trail, and the certified Homeroom Teacher of Record's review and verification through the HTOR's unique system login shall provide the SAAH §3.1 attestation for that data.

Consistent with SAAH §3.1, the designated School Leader for the virtual program shall review the Campus Summary Reports for the reporting period for completeness and accuracy and affirm by indicating approval of the data electronically that the attendance data has been checked for accuracy and authenticity. This attestation shall be completed for each six-week reporting period. Consistent with SAAH §3.1, the Superintendent (or the Superintendent's designee) shall sign the District Summary Report attesting that measures have been taken to verify the accuracy and authenticity of the attendance data.

Consistent with SAAH §3.1, the Superintendent is ultimately responsible for the accuracy and safekeeping of all attendance records and reports. By indicating approval of the data electronically, the Superintendent shall affirm that the Superintendent has taken

measures to verify the accuracy and authenticity of the attendance data. This attestation shall be completed for each six-week reporting period consistent with the applicable PEIMS Six Weeks Attendance Submission deadline established by TEA under TEC §48.266(b-1) and the timelines published by TEA in the Texas Education Data Standards (TEDS).

The electronic attestations shall additionally affirm the propriety of student eligibility determinations, including determinations of student eligibility for particular educational programs, consistent with SAAH §3.1.

7. Present and Absent Determinations

A student shall be recorded present for a scheduled instructional day when the student is scheduled for instruction and has at least one qualifying attendance indicator within the approved attendance window.

A student shall be recorded absent for a scheduled instructional day when the student does not have a qualifying attendance indicator for that day. Excused and unexcused absence classifications, truancy notices, make-up work, grading consequences, and attendance-for-credit determinations shall be handled under applicable District policy and law, but those classifications shall not replace the daily present/absent determination required for attendance accounting purposes.

Make-up work may be used for instructional recovery, grading purposes, and, for excused absences in SAAH §3.6.3 categories other than the "first five reasons", compulsory attendance credit consistent with SAAH §3.6.3 and TEC §25.087(d) as allowed by District policy and applicable state law. However, completion of make-up work after the attendance window does not, by itself, establish FSP present-status for a prior scheduled instructional day unless the Program determines that the attendance record is being corrected based on qualifying evidence that was generated within the applicable attendance window or another applicable state attendance rule.

Administrative procedures may establish a limited grace period during which qualifying evidence submitted after the daily attendance window may be applied to the prior scheduled instructional day, provided the evidence demonstrates the student's engagement with instruction on that prior day. Consistent with SAAH §3.6.3, a student who is not otherwise engaged in a qualifying attendance indicator on a scheduled instructional day may nevertheless be recorded present at initial attendance entry when the student meets a specific SAAH-recognized category for being considered in

attendance and the required documentation supports the determination. Administrative procedures shall identify the SAAH-recognized categories applicable to the virtual program, the documentation required for each, and the process for recording present status at initial entry.

Consistent with SAAH §3.6.3 and TEC §25.087(d), a student whose absence is excused under a SAAH §3.6.3 category- other than the "first five reasons" listed at the beginning of SAAH §3.6.3 (off-campus dual credit, off-campus work-based learning, full-time virtual or hybrid campus under TEC Chapter 30B, full-time virtual or hybrid program under TEC Chapter 30B, and full-time TXVSN)- shall be allowed a reasonable amount of time to make up school work missed on the day of the excused absence. If the student satisfactorily completes the make-up work, the day of absence shall be counted as a day of compulsory attendance.

The make-up work compulsory attendance rule set forth in this paragraph does not apply to a student's participation in the full-time virtual program itself, because the full-time virtual program is one of the "first five reasons" for which the SAAH §3.6.3 make-up work paragraph does not apply. A student's daily attendance status for the virtual program is determined by whether the student meets the District's locally approved instructional plan and policy each scheduled instructional day, as set forth in Section 2 of this policy.

Administrative procedures shall establish the workflow for identifying eligible excused absences, providing reasonable make-up time, determining satisfactory completion, and recording compulsory attendance credit consistent with this paragraph and applicable state law.

8. Instructional Time and ADA Eligibility

The virtual program shall be designed and scheduled to meet applicable state instructional time requirements. To be eligible to generate average daily attendance, students must be scheduled for and receive instruction in accordance with state minimum daily instructional time requirements, including at least 120 minutes of instruction per day for half-day attendance eligibility and at least 240 minutes of instruction per day for full-day attendance eligibility.

A qualifying attendance indicator establishes whether attendance may be recorded for the day; it does not reduce or replace the District's responsibility to schedule and provide the required amount of instruction. Instructional time shall not be averaged across days to

determine daily attendance eligibility unless expressly permitted by state law or TEA guidance.

For asynchronous instruction, instructional minutes may be measured based on the scheduled, teacher-designed instructional activities assigned for the day (including estimated time-on-task for content, assignments, and interactions), rather than solely on real-time system usage, consistent with TEA guidance and the approved instructional plan.

9. Documentation and Records

Original attendance documentation must be created contemporaneously with the instructional activity it supports, consistent with SAAH §1.2 and §2.1. The District's LMS, SIS, and integrated attendance systems capture qualifying attendance evidence at the time of the instructional activity through automated timestamps and logs. For qualifying evidence not automatically captured by an approved system (e.g., certain teacher-student interactions), the certified teacher of record or authorized staff member shall record the evidence in the approved student log on the same scheduled instructional day.

The District shall maintain records sufficient to support each daily attendance determination for students participating in the virtual program. The District may rely on system-generated reports and dashboards from the LMS, SIS, or integrated attendance platforms as primary documentation, provided the reports meet SAAH's audit-trail and identity-verification standards for paperless attendance accounting systems.

Supporting records may include attendance entries, LMS activity records, teacher-student interaction records, assignment submission records, instructional schedules, program calendars, and other documentation identified in District procedures.

The District shall maintain attendance documentation in accordance with state attendance accounting requirements, District records procedures, and applicable retention rules.

10. Administrative Procedures

The Superintendent or designee shall develop and maintain administrative procedures to implement this policy. The administrative procedures shall constitute the District's attendance system procedures manual for the virtual program consistent with SAAH §2.2.5. Procedures shall define, at minimum:

1. The approved daily attendance window for each virtual program model;
2. The specific types of LMS progress or activity that confirm access to instruction;

3. The types of teacher-student interaction that may qualify as attendance evidence;
4. The assignment, assessment, or instructional submission types that may qualify;
5. The staff role responsible for daily review, entry, correction, and approval of attendance;
6. The timeline for recording and correcting attendance;
7. The process for reviewing attendance documentation and resolving discrepancies; and
8. The process for ensuring that students are scheduled for and receive required instructional minutes.
9. A variance/exception mechanism for individual students on IEPs, 504 plans, medically fragile students, or dual-enrollment scenarios.

The Superintendent or designee is authorized to develop, adopt, and update administrative procedures to implement this policy consistent with TEA guidance, SAAH requirements, TEC Chapter 30B, applicable law, and any successor guidance or rules, or operational learnings at anytime, without requiring board action. The administrative procedures may include examples for staff and families, but examples shall not be interpreted to limit other qualifying evidence that meets TEA guidance and District-approved definitions.

The Superintendent or designee shall also develop and maintain the District's locally approved instructional plan for the full-time virtual program under SAAH §12.2.2.2 and TEA guidance. The instructional plan shall define the program's delivery model, daily attendance measurement methodology, and other specifications required by SAAH, TEA guidance, and applicable law. The instructional plan may be updated by the Superintendent or designee as program design evolves, consistent with TEA guidance and any applicable authorization requirements.

This Memorandum sets forth the intention of the ECI(s) and LEA(s) to work together to ensure this seamless transition occurs. Attached is a detail of ECI and LEA responsibilities, including statutory requirements, in accomplishing this objective. Revisions to the memorandum and detailed responsibility attachment will be developed as needed to reflect major agency reorganizations or statutory changes that affect the agencies and/or their responsibilities.

Terms of Agreement:

This Memorandum will be effective for the 2026-27 fiscal year (September 1, 2026 through August 31, 2027); and may be expanded, modified, or amended, as needed, at any time by the unanimous consent of the signatory agencies.

II. Transition Process

Transition	ECI	Transition	LEA
1. By 27-33 months, strategies addressing transition must be included in the IFSP. The IFSP must include the steps ECI will take to assist the family in preparing their child for transition, which will take place on the child's 3 rd birthday to:	• Early Childhood Special Education; or • Other services that may be available, if appropriate.	1. LEAs will collaborate with ECI programs to support parent involvement in the transition planning process, as evidenced by:	• Signature on MOU; • Attendance at transition conferences with sharing of information related to processes / referral / evaluation with family; • Preparation of agenda / script / information to be shared by ECI if an LEA representative is not present.
2. Part B Potentially Eligible Notification: ECI is required to notify the LEA of children who are potentially eligible for the special education program at least 90 days before the child's 3 rd birthday unless the parent opts out. ECI staff will inform the parent that opting in at a later date may impact entitlement to eligibility determination by the child's 3 rd birthday. This can be done at the transition conference, in a referral packet.	In addition, the stand-alone LEA notification form may be sent to the LEA without parental consent, provided the parent has not opted out. With parent's consent, ECI will send to the LEA (by fax or email) accompanying documentation, including family information, the date of initial eligibility, the initial IFSP, and the most recent progress notes. ECI will use the definition of potentially eligible provided by the State ECI. <i>IFSP teams will need to consider the 13 disability categories for special education. *Texas uses the following list of disability categories to determine if a</i>	2. LEA will treat the Part B Potentially Eligible Notification as the initial referral. LEA will work with ECI to obtain written consent to determine eligibility with a recognition that a family may determine that they do not want to proceed after the transition conference.

A disability can affect the educational process when it interferes with the child's ability to:</i> • <i>Learn,</i> • <i>Maintain health status required to attend and participate in school,</i> • <i>Navigate the school environment,</i> • <i>Make and maintain positive relationship with other children,</i> • <i>Communicate effectively with others,</i> • <i>Understand and process verbal instruction and/or</i> • <i>Manage his/her own behavior.</i>	
3. The ECI service coordinator contacts the LEA to coordinate the transition conference (face-to-face meeting or video telehealth). The transition conference may occur as early as nine months prior to and no later than 90 days prior to the child's 3rd birthday. The ECI service coordinator and family must attend face-to-face or via video telehealth; LEA participation may occur in person, via video telehealth, or by telephone. 108.1217 (b) If the parent gives approval to convene the LEA Transition Conference, the contractor must: (1) Meet the requirements in 34 CFR 303.342 and 303.343 which requires: (A) The face-to-face attendance of the parent and the service coordinator; and (B) At least one other ECI professional who is a member of the IFSP team who may participate through other means, such as: providing information, contributing face-to-face, or by telephone. ECI will invite the LEA special education director or designee 14 days before the transition conference.	3. Each LEA will participate in transition planning conferences arranged by the designated local ECI program with 14 days' notice (unless waived). By the 3rd birthday, an ARD meeting has convened and an IEP has been developed if the child is found eligible. (34 CFR §300.124; 34 CFR §300.101) Services are made available to students as determined by the ARD Committee.
4. If the LEA representative is not available, ECI will conduct the transition meeting and provide the parent information about special education and related services, including a description of the Part B eligibility definitions, transition timelines, and the process for consenting to an evaluation and eligibility determination and extended year service, as provided by LEA.	4. LEA will provide the following information to ECI: • information about special education and related services, including a description of the Part B eligibility definitions; • transition timelines; • process for consenting to an evaluation; • eligibility determination; and • extended year services.
5. No Additional Requirements	5. (34 CFR §300.101(b)(2))
6. No Additional Requirements	6. LEA will schedule a meeting to discuss evaluation and obtain consent for evaluation prior to the child's 3rd birthday. The parent is provided a copy of the <u>Notice of Procedural Safeguards: Rights of Parents of Students with Disabilities and a Guide to the Admission, Review and Dismissal Process</u> Parent signs a receipt verifying that they have received the documents and understand the contents. The LEA shall have procedures in place which meet the timeline requirements for evaluation and the initial ARD committee meeting for children referred during the summer. The ARD Committee decides when services begin for these children on an individual basis (i.e., immediately through Extended School Year [ESY] services or on the first day of the regular school year). If the LEA determines that it will not conduct an evaluation requested by the parent of the child, the LEA will provide the parent Prior Written Notice and a copy of the <i>Notice of Procedural Safeguards</i> of this decision within five school days of the decision. 8. The ECI service coordinator may be notified of the ARD meeting with parent consent.	8. The LEA will schedule an ARD meeting with the family to review the results of the evaluation. LEAs will invite the ECI service coordinator to the initial ARD committee meeting at the request of the parent.
9. The ECI service coordinator may attend the ARD meeting as requested by the parent or the LEA. Parent consent is required for the attendance of the ECI service coordinator at the request of the LEA. The ECI service coordinator is not a member of the ARD team, but is available to provide information and support.	9. MEMORANDUM OF UNDERSTANDING

Mineral Wells ISD and ECI of North Central Texas 2026-2027

Overview:

Pursuant to 34 CFR §300.124(a), for each child enrolled in an Early Childhood Intervention (ECI) program assisted under IDEA Part C, and who will participate in preschool programs assisted under IDEA Part B, the ECI and the Local Education Agency (LEA) are responsible for ensuring a smooth and effective transition to those preschool programs.

This Memorandum sets forth the intention of the ECI(s) and LEA(s) to work together to ensure this seamless transition occurs. Attached is a detail of ECI and LEA responsibilities, including statutory requirements, in accomplishing this objective. Revisions to the memorandum and detailed responsibility attachment will be developed as needed to reflect major agency reorganizations or statutory changes that affect the agencies and/or their responsibilities.

Terms of Agreement:

This Memorandum will be effective for the 2026-27 fiscal year (September 1, 2026 through August 31, 2027); and may be expanded, modified, or amended, as needed, at any time by the unanimous consent of the signatory agencies.

Transition	ECI	Transition	LEA
1. By 27-33 months, strategies addressing transition must be included in the IFSP. The IFSP must include the steps ECI will take to assist the family in preparing their child for transition, which will take place on the child's 3 rd birthday to:	• Early Childhood Special Education; or • Other services that may be available, if appropriate.	1. LEAs will collaborate with ECI programs to support parent involvement in the transition planning process, as evidenced by:	• Signature on MOU; • Attendance at transition conferences with sharing of information related to processes / referral / evaluation with family; • Preparation of agenda / script / information to be shared by ECI if an LEA representative is not present.
2. Part B Potentially Eligible Notification: ECI is required to notify the LEA of children who are potentially eligible for the special education program at least 90 days before the child's 3 rd birthday unless the parent opts out. ECI staff will inform the parent that opting in at a later date may impact entitlement to eligibility determination by the child's 3 rd birthday. This can be done at the transition conference, in a referral packet.	In addition, the stand-alone LEA notification form may be sent to the LEA without parental consent, provided the parent has not opted out. With parent's consent, ECI will send to the LEA (by fax or email) accompanying documentation, including family information, the date of initial eligibility, the initial IFSP, and the most recent progress notes. ECI will use the definition of potentially eligible provided by the State ECI. <i>IFSP teams will need to consider the 13 disability categories for special education. *Texas uses the following list of disability categories to determine if a</i>	2. LEA will treat the Part B Potentially Eligible Notification as the initial referral. LEA will work with ECI to obtain written consent to determine eligibility with a recognition that a family may determine that they do not want to proceed after the transition conference.

The ARD committee decides when services begin on an individual basis (i.e., immediately through Extended School Year [ESY] services or on the first day of the regular school year). (34 CFR §300.101(b)(2))
6. No Additional Requirements	6. LEA will schedule a meeting to discuss evaluation and obtain consent for evaluation prior to the child's 3rd birthday. The parent is provided a copy of the <u>Notice of Procedural Safeguards: Rights of Parents of Students with Disabilities and a Guide to the Admission, Review and Dismissal Process</u> Parent signs a receipt verifying that they have received the documents and understand the contents. The LEA shall have procedures in place which meet the timeline requirements for evaluation and the initial ARD committee meeting for children referred during the summer. The ARD Committee decides when services begin for these children on an individual basis (i.e., immediately through Extended School Year [ESY] services or on the first day of the regular school year). If the LEA determines that it will not conduct an evaluation requested by the parent of the child, the LEA will provide the parent Prior Written Notice and a copy of the <i>Notice of Procedural Safeguards</i> of this decision within five school days of the decision. Parent consent is required for the attendance of the ECI service coordinator at the request of the LEA. The ECI service coordinator is not a member of the ARD team, but is available to provide information and support.	9. During the ARD meeting, the evaluation results are discussed and the eligibility determination is made. If the child is determined eligible for special education services under Part B, the IEP is developed (34 CFR §300.323) - The ARD committee determines placement based on the least restrictive environment (LRE), within a continuum of services in which a child's IEP goals can be achieved. - The parent must provide consent for initial placement prior to initiation and implementation of special education services. - The parent reserves the right to not provide consent for the initial provision of special education and related services. - The parent reserves the right to revoke consent for special education services at any time. - With parental consent LEA will notify ECI when the LEA refuses to initiate an evaluation or the ARD committee finds the child not eligible for special education services or parental refusal of services.
