AGENDA SECTION:	Sharing the Success
ITEM:	3C. Special Recognition of District 281 COVID Coordinators
COMMENTS BY:	Dr. Stephanie Burrage, Interim Superintendent

The School Board and Interim Superintendent are pleased to recognize our District 281 COVID Coordinators for their outstanding leadership, collaboration, and hard work during the past year.

These individuals have counseled parents and staff when there have been COVID questions, provided contact tracing and notified close contacts, sat with symptomatic students in isolation rooms until their parents could come, created extensive building and district procedures, and organized saliva testing every two weeks for our staff. For all of this - all that is above and beyond their daily job duties – we are truly grateful.

Special thanks to:

Family & Community Engagement

Considerations

Childcare and Activities

- Concern about space and staffing, enrollment window and cost.
- Loss of older siblings for supervision.
- Families do not want high school co-curriculars to move to before school.

Feedback Methods

There have been multiple opportunities to share ideas and feedback, including:

- Subcommittee meetings
- Email
- Let's Talk
- School Board listening sessions
- World Cafe community discussions (2019-2020 school year)
- Surveys (2019-2020 school year)

Considerations

Through this process and work of the nine subcommittees, the feedback indicated that overall people would like an additional year to plan and prepare.

While we heard from some who favor changing start times this fall, the majority of stakeholders in this process said a one-year delay would be beneficial.

*Based on 2014 Wold Long Range Facilities Study, adjusted for center-based programs

Other Data Points

- Based on historical data, while SEA students were rolled to RMS from 2012-2015, many families opted to attend their neighborhood schools or leave the district. This is in spite of the fact that transportation was provided and we recruited for the program.
- From the 2012-13 school year through the 2014-15 school year, all students who completed 5th grade at SEA school were automatically rolled to Robbinsdale Middle School (RMS).
- During these years, there were only two middle schools in the District -- Plymouth Middle School (PMS) and RMS. Data tells us that of the 60 SEA students who completed 5th grade during 2012-13, one left the district and 10 transferred to PMS. Our records show that of the 79 SEA students who completed 5th grade during 2013-14, six left the district and 31 transferred to PMS.

Other Data Points (continued)

- Additionally, of the 81 students who completed 5th grade during 2014-15, 20 left the district and 25 transferred to either PMS or FAIR-Crystal - which opened in the 2015-16 school year.
- Beginning in 2015-16, students completing 5th grade at SEA began automatically rolling to their attendance area schools rather than rolling to RMS.
- SEA families were able to opt in to the STEM program at RMS. Records reflect that of the 80 students who completed 5th grade at SEA in 2015-16, one family opted to attend RMS and seven left the district.
- Of the 80 students who completed 5th grade in 2016-17, two opted to attend RMS and 10 left the district. Of the 81 students who completed 5th grade in 17-18, nine students opted to attend RMS and nine left the district. Of the 85 students who completed in 18-19, three opted to attend RMS and five left the district. In 2019-20, of the 81 students enrolled in 5th grade, zero opted to attend RMS and 15 left the district.

Middle School Focus Questions

Focus Question 1 (Curriculum Design)	<ul style="list-style-type: none">• How do you feel the current curriculum addresses the academic, social and emotional well being of our students?
Focus Question 2 (Intervention and Supports)	<ul style="list-style-type: none">• Do you feel the interventions and supports have been successful with our students?
Focus Question 3 (Enrichment and Elective Programing)	<ul style="list-style-type: none">• Do our Middle schools offer our students the opportunities you feel are needed for enrichment and electives?
Focus Question 4 (Facilities)	<ul style="list-style-type: none">• How does our current Middle School facilities support learning in the 21st century?

Middle School Focus Question One

Focus Question 1 (Curriculum Design)

- How do you feel the current curriculum addresses the academic, social and emotional well being of our students?

Staff

- Curriculum needs to be similar across the buildings
- SEL piece is missing/more training needed
- More culturally relevant resources needed

Students

- Not enough time for academic, social and emotional support during the day
- Counselors are very easy to access
- Interventions/supports should be more focused on specific skills/needs

Parents

- Curriculum not reflective of varying cultures
- Advisory helps to build relationships, great connections with teachers
- Curriculum too easy
- Expand BARR
- Not enough Allies

Middle School Focus Question Two

Focus Question 2 (Intervention and Supports)

- Do you feel the interventions and supports have been successful with our students?

Staff

- Intervention relies on the shoulders of teachers due to cuts
- Use one proven intervention for reading and math across all middle schools
- We lack the staffing and programming for interventions.
- We need to scale up successful programs and systems and make them more systematic and district-wide. It often comes back to resources.

Students

- Extend due dates for times when lots of work in all classes
- Need more time management supports and training
- Get more times for office hours - staggered at each grade level so you can go get help from more teachers
- More after school opportunities

Parents

- Need more coordination for communication and assignments between teachers
- Never underestimate the power of teachers reaching out by phone calls and emails to parents
- Office hours have been amazing and hope there is some format of them kept when we return to in person learning;

Middle School Focus Question Three

Focus Question 3 (Enrichment and Elective Programming)

- Do our Middle schools offer our students the opportunities you feel are needed for enrichment and electives?

Staff

- It comes down to resources
- MS students should be encouraged to explore a variety of experiences
- Structure the experiences so they are developmentally appropriate and allow students to explore and learn about their strengths.
- There are not enough resources to effectively offer enrichment.
- There are life skills like sewing, nutrition, and others that students used to get but no longer do

Students

- Variety of opportunities offered such as chess, math team and sports
- Class exploring your culture as part of allied classes
- Want electives of your choice, not just randomly assigned

Parents

- Real-life skills classes like budgeting and taxes
- Let kids choose the courses they want to take
- Exposure and opportunities to explore them
- Cultural and multicultural groups

Middle School Focus Question Four

Focus Question 4 (Facilities)

- Do our current Middle School facilities support learning in the 21st century? Why or why not?

Staff

- RMS is awkward for MS students
- Inequity of having auditorium, pool, and other features
- Tables/desks/chairs are not comfortable for adolescent bodies
- Buildings have rooms that are not structured to allow for natural light

Students

- Desks are uncomfortable
- Swimming pool at RMS
- Need more natural light at PMS - very dark; want more color on the walls

Parents

- Updating seating options for students of all sizes are comfortable; standing desks; wobble stools
- Update restrooms and more girls' facilities
- Some classrooms appear bare and without opportunities to have hands-on learning

Middle School Focus Summary

Focus Question 1 (Curriculum Design)	<ul style="list-style-type: none"> • Needs to be consistent across buildings • More time for Support (SEL) • Needs to more culturally relevant • More Allies
Focus Question 2 (Intervention and Supports)	<ul style="list-style-type: none"> • More time for supports during the day • SEL need to be addressed • Systemic supports needed across the district

Parent Survey

Interest in STEAM Option at FAIR School Crystal

Dr. Cheryl Videen, Director of Research, Evaluation & Assessment
April 16, 2021

Parent Interest in STEAM at FAIR-C

A survey link was sent to parents in March 2021 asking them to complete a survey to help the school board know the level of interest in a science, technology, engineering, arts and math option at FAIR School Crystal.

320 respondents provided information for 454 students (some respondents had students in multiple grade levels)

Parent Interest in STEAM at FAIR-C

- Parents of students from SEA are very interested in having a STEAM option at FAIR School Crystal.
- There are at least 15-20 families at a grade level at FAIR-PL that would be interested in a STEAM option at FAIR-C.
- Very few families from Noble and Meadow Lake completed the survey.
 - It appears as though the survey is biased towards those who are very interested in this option; in other words, if a parent was not interested, they didn't bother completing the survey.
- The racial/ethnic distribution of survey respondents did not reflect the district population (72% of respondents were white).

Parent Interest in STEAM at FAIR-C

# Very Interested	SEA	FAIR PL	Other Schools	Race/Ethnicity
