## **Unusually Hazardous Transportation Plan June 2026**

Students living two miles or more from the public school of their attendance are entitled to transportation, according to Wisconsin law. Students living less than two miles from the public school of their attendance area, may be eligible for transportation if unusually hazardous situations exist on their way to school.

In order for students living less than two miles from their public school of attendance to be eligible for transportation, the School Board must designate the areas the students would travel to or from school as being unusually hazardous

Within the New Glarus Village limits, the areas to the north of State Highway 39 and east of State Highway 69 are considered hazardous for students to travel to and from school because they would be required to cross busy highways. Areas near the Tower Heights subdivision, the Old Grade School apartments, and the Candy Cane Park area would also be safety concerns for students as there are no continuous sidewalks.

Our rural highways within 2 miles and outside the village limits do not have sidewalks available for students to use.

We are looking to add our new Village Library to our list of bus stops. We drop off at the library's current location under our current UHT plan.

On the next page you will find a listing of the areas we would like to continue having listed in our UHT plan as well as one new location for our library.

On the last page you will find a map of the bus stops.
