CAPSS 2025 LEGISLATIVE PROPOSALS

This document outlines specific legislative proposals for consideration during the 2025 legislative session. It serves as a complement to the first-year action steps of the long-range CAPSS plan for public education - **ELEVATE, FUND, IMPROVE: CAPSS Priorities for Connecticut Public Education: Looking Forward.**

CAPSS MISSION

To lead the continuous improvement of public education for all students by advocating public policy for children, and by developing and supporting executive school leaders.

CAPSS 2025 LEGISLATIVE PROPOSALS

ELEVATE THE EDUCATION PROFESSION

To elevate education as a profession, there is a need to attract and retain educators, diversify the educator pool, improve the quality of educators' professional experiences, improve educator autonomy, and eliminate mandates that impact educator morale.

RECOMMENDATIONS

- Establish a Blue Ribbon Commission to enhance and elevate the profession through a comprehensive two-year study of compensation, locally focused high-quality professional development, educator diversification, recruitment and retention efforts, and educator preparation programs.
- Create livable and competitive pay for educators, provided by the State, to ensure a widely diverse and highly-skilled workforce.
- Develop a committee that includes the Connecticut State Department of Education (CSDE), the Department of Labor (DOL), the Teachers Retirement Board (TRB), educator preparation programs, educators, and other key partners to create a long-term workforce plan to address educator shortages and retirement trends.
- Provide grants for districts to invest in high-quality, ongoing professional development to enhance teacher skills and knowledge.
- Allocate \$3.5 million to continue professional learning for districts' leadership teams in the Science of Reading.
- Restore autonomy to educators by reducing legislative decisions and mandates that deprofessionalize the profession while preserving the autonomy of the CSDE.

FUNDING AND FINANCE

Under the current funding model for the States' ECS Grant, 89 districts will receive increased support, while 70 districts will see reductions. Some districts are facing significant cuts to their state aid, affecting financially struggling communities the most.

RECOMMENDATIONS

- Revise the Education Cost Sharing (ECS) formula to ensure equitable funding distribution and address the growing needs of districts.
- Hold harmless all districts for the 25-26 school year while the formula is reworked so that all districts remain whole.
- Increase the foundation from \$11,525, established in 2013 (10-162f), to reflect the impact of inflation on services provided to students and the education workforce.
- Fully fund Excess Cost Funding for Special Education to meet the needs of students with disabilities.
- Incentivize the creation and maintenance of high-quality locally and regionally created educational programs for students.
- Monitor and review the impact of the Magnet School Tuition cap on district budgets and student access.

SUPPORTING EARLY CHILDHOOD EDUCATION

Significant research has established a direct and causal relationship between a quality preschool experience and later successful student achievement through school and higher education. CAPSS supports financial assistance for universal preschool for all three- and four-year-olds in Connecticut, focusing initially on the communities and families with the greatest need for preschool programs.

RECOMMENDATIONS

- Consolidate efforts and increase funding for pre-kindergarten programs for all three- and four-year-olds whose parents are seeking access to high-quality early education programs across the state.
- Eliminate the kindergarten parent waiver so that all children have equitable access to kindergarten education across the state.
- Support marginalized families by studying the programmatic and financial needs in each community and offering tiered support to families close to the free-and-reduced lunch eligibility cutoff.
- Provide grants to Boards of Education to establish and implement partnerships to expand access to early childhood education by fostering partnerships with childcare providers and other districts by establishing pathways among the CSDE, Boards of Education, Office of Early Childhood, and the Department of Children and Families (DCF) to more effectively support the needs of young children and their families.

INVENTORY OF STATE MANDATES IN TITLE 10 PERTAINING TO SCHOOL DISTRICTS

The following inventory describes the various mandates imposed on boards of education (referred to as “districts” except in limited circumstances) by the statutes in Title 10. Mandates added or amended since 2015 are identified by an asterisk (*), and this inventory includes mandates through the 2022 legislative session. Other mandates imposed specifically on boards of education elsewhere in the statutes are not included in this inventory. This inventory of mandates summarizes the statutory provisions without detailing every requirement, and the specific statutory provisions should be consulted in determining district obligations. Moreover, this inventory does not include statutes governing grants or statutes setting forth mandates of general application, such as statutes governing employment, labor relations, elections, and freedom of information.

Statute	Summary
C.G.S. § 10-4a	<ul style="list-style-type: none"> • Districts must finance a suitable educational program at a reasonable level (at least equal to the minimum budget requirement). • Districts must provide educational opportunities for students to interact with students and teachers from other racial, ethnic, and economic backgrounds to reduce racial, ethnic and economic isolation. • Districts must implement the mandates of the State.
C.G.S. § 10-4b	Districts must develop an action plan in response to any finding by the State Board of Education of a failure to implement the educational interests of the State.
C.G.S. § 10-4v	<ul style="list-style-type: none"> • Districts that have been granted an innovation waiver or innovation waiver renewal by the State Board of Education must post it on the district's website. • Such districts must also submit to the State Board of Education (A) annual progress reports relating to the implementation of the innovation waiver or innovation waiver renewal, and (B) a final report relating to the results of such innovation waiver or innovation waiver renewal.
*C.G.S. § 10-4w	Districts that wish to provide “remote learning” as defined by the statute must (1) comply with the standards for remote learning as established by the State Department of Education, (2) adopt a policy on attendance that conforms to the State Department of Education guidance on attendance during remote learning and that counts a student in attendance if the student is engaged for half or more of the student day in (i) virtual classes, (ii) virtual meetings, (iii) activities on time-logged electronic systems, and (iv) the completion and submission of assignments, and (3) prohibits dual instruction. - Districts must give all the children of the school district, including children receiving alternative education, as defined in section 10-74j, as nearly equal advantages as may be practicable.
- Districts must provide an appropriate learning environment for all students.
- Districts must maintain records of allegations, investigations and reports that a child has been abused or neglected by a school employee.
- Districts must make a continuing study of the need for school facilities and of a long-term school building program and from time to time make recommendations based on such study to the town.
- Districts must adopt and implement an indoor air quality program that provides for ongoing maintenance and facility reviews necessary for the maintenance and improvement of the indoor air quality of its facilities.
- Districts must adopt and implement a green cleaning program, pursuant to section 10-231g, that provides for the procurement and use of environmentally preferable cleaning products in school buildings and facilities.
- Districts must, every five years, report to the Commissioner of Administrative Services on the condition of its facilities and the action taken to implement its long-term school building program, indoor air quality program and green cleaning program.
- Districts must advise the Commissioner of Administrative Services of the relationship between any individual school building project and such long-term school building program.
- Districts must have the care, maintenance and operation of buildings, lands, apparatus and other property used for school purposes and at all times must insure all such buildings and all capital equipment contained therein against loss in an amount not less than eighty per cent of replacement cost.
- Districts must determine the number, age and qualifications of the pupils to be admitted into each school.
- Districts must develop and implement a written plan for minority educator recruitment for purposes of subdivision (3) of section 10-4a.
- Districts must employ and dismiss the teachers of the schools subject to the provisions of sections 10-151 and 10-158a.
- Districts must designate the schools which shall be attended by the various children within the school district; make such provisions as will enable each child of school age residing in the district to attend some public day school for the period required by law and provide for the transportation of children wherever transportation is reasonable and desirable.
- Districts must cause each child five years of age and over and under eighteen years of age who is not a high school graduate and is living in the school district to attend school in accordance with the provisions of section 10-184.
- With the participation of parents, students, school administrators, teachers, citizens, local elected officials and any other individuals or groups the district shall deem appropriate, districts must prepare a statement of educational goals, consistent with state-wide goals pursuant to subsection (c) of section 10-4 and include goals for

the integration of principles and practices of social-emotional learning and restorative practices in the program of professional development for the school district, in accordance with the provisions of section 10-148a, and career placement for students who do not pursue an advanced degree immediately after graduation.

- Districts must annually establish student objectives for the school year which relate directly to the statement of educational goals and which identify specific expectations for students in terms of skills, knowledge and competence.
- Districts must annually submit to the Commissioner of Education a strategic school profile report for each school and school or program of alternative education. The superintendent shall present the profile report at the first regularly scheduled public meeting of the board of education after November 1. The profile report shall provide information on measures of (1) student needs, including, but not limited to, a needs assessment that identifies resources necessary to address student trauma impacting students and staff in each school and adequately respond to students with mental, emotional or behavioral health needs, (2) school resources, including technological resources and utilization of such resources and infrastructure, (3) student and school performance, including in-school suspensions, out-of-school suspensions and expulsions, the number of truants, as defined in section 10-198a, and chronically absent children, as defined in section 10-198c, (4) the number of students enrolled in an adult high school credit diploma program, pursuant to section 10-69, operated by a local or regional board of education or a regional educational service center, (5) equitable allocation of resources among its schools, (6) reduction of racial, ethnic and economic isolation, (7) special education, and (8) school-based arrests, as defined in section 10-233n. The superintendent shall include in the narrative portion of the report information about parental involvement and any measures the district has taken to improve parental involvement, including, but not limited to, employment of methods to engage parents in the planning and improvement of school programs and methods to increase support to parents working at home with their children on learning activities.
- Every three years, for every school building that is or has been constructed, extended, renovated or replaced on or after January 1, 2003, districts must provide for a uniform inspection and evaluation program of the indoor air quality within such buildings. Make available for public inspection the results of the air quality inspections/evaluations at a regularly scheduled board of education meeting and on the board's or each individual school's web site.
- Prior to January 1, 2024, and every five years, districts must provide for a uniform inspection and evaluation of the heating, ventilation and air conditioning system within each school building, in accordance with statutory requirements. The inspection and evaluation shall result in a written report, and such report shall include any corrective actions necessary to be performed to the mechanical ventilation system or the heating, ventilation and air conditioning infrastructure, including installation of filters meeting the most optimal level of filtration available for a given heating, ventilation and air conditioning system, installation of carbon dioxide sensors and additional maintenance, repairs, upgrades or replacement. Any such corrective actions shall be performed, where appropriate, by a licensed contractor. Districts must make available for public inspection the results of such inspection and evaluation at a
