Public Participation at Board Meetings

The School Board recognizes and respects the input which may be provided by the public on school district matters. The Board also recognizes and respects the distinction between a school board meeting that is open to the public and a public hearing held by the school board.

- At a school board meeting which is open to the public, members of the public may be present, observe and listen to the school board conduct its business and may speak during the school board meeting consistent with this policy.
- At a public hearing held by the school board, there is usually one topic to be presented by the District and discussed. The public is given the opportunity to speak and be heard on the topic which is the reason for the public hearing. This type of meeting allows for public participation under the rules designed specifically for that meeting and is not subject to this policy.

This Policy applies only to regularly scheduled school board meetings held in open session. Matters addressed in executive session pursuant to SDCL 1-25-2 are not open to the public.

Personnel matters or complaints that directly or indirectly identify an employee shall not be discussed. Complaints against school employees or students, and complaints related to sexual harassment or bullying, must be addressed according to specific school district policies before being addressed by the School Board.

When a complaint against a school employee or a student is brought to the Board during the public forum, the Board President will direct the person bringing the complaint to the applicable complaint procedure. The complaint procedures are designed to ensure the proper balance in protecting the rights of the person(s) bringing the complaint and the rights of the person against whom the complaint is made. The Board will address the complaint only if the matter has been appealed to the Board pursuant to the applicable complaint policy

Persons making references about a specific school employee or employees, or a specific student or students during the public forum should be mindful that based upon what the person says during the public forum the employee(s) or student(s) about whom the comments are made may have legal recourse against the person voicing the complaint.

Persons speaking during the Public Forum at a school board meeting shall not cause public inconvenience, annoyance, or alarm to the school board or any person, and shall not engage in threatening behavior, make unreasonable noise, be disruptive, boisterous, argumentative, or threatening, shall not make comments which

are disrespectful to one or more persons, and shall not use profanity.

The time designated for Public Forum on the agenda shall be immediately before the adoption of the meeting agenda by the school board.

In order to assure that the Board may conduct its meetings in a respectful and efficient manner, the procedure for public participation at regularly scheduled monthly school board meetings is as follows:

1. Agenda and Non Agenda Items:

- a. Before the meeting is called to order, an individual who desires to speak at a school board meeting must in writing inform the Superintendent, the Business Manager or the Board President of the person's desire to speak and the topic upon which the person intends to speak. The requesting party must sign a form (prepared by the school district) with their name, address, email and topic to be addressed. Individuals attending virtually and desiring to speak during public forum, should email their request to the superintendent's office, including all identifying information, by noon the day of the meeting.
- b. During the time designated for Public Forum, the Board President will recognize the person who signed up to speak and the person may speak on the topic according to the rules set forth in this policy
- c. A speaker shall be granted 5 minutes to present comments to the school board. Upon receiving a request for an extension of time from the speaker, the school board, upon a motion being made and passed by a majority of school board members present and voting, may grant an additional amount of time not to exceed 5 minutes. Additional extensions may be granted only upon a two-thirds vote of school board members present and voting.
- d. Should a number of persons wish to address the school board on the same agenda item, or should the comments become repetitious, the School Board President, in the President's sole discretion, may shorten the time for comments to two minutes per person in order that persons wishing to address the school board may be heard and still allow the school board sufficient time to conduct its agenda business.

2. Adding an Item to the School Board Meeting Agenda in Order to Request Specific School Board Action:

- a. Any person or delegation (with one person being the spokesperson for the delegation) making a specific request to the school board which would require formal action by the school board must present a written request to the Superintendent for the item to be placed on the school board meeting proposed agenda. The written request must be submitted to the Superintendent at least five calendar days before the school board meeting.
- b. The specific request to add an item to the agenda shall clearly identify what is being requested and why, signed by the person making the request, and include the person's name, address, email and telephone number.
- c. The Superintendent will forward the request to the School Board President and the Board President will decide whether the item will be placed on the proposed agenda. Whether any item is to be addressed at the school board meeting is determined by a majority of school

board members at the beginning of the school board meeting when the school board adopts the proposed agenda as printed or adopted after being modified.

- d. If the item on the meeting agenda is adopted by the school board, the person or spokesperson for the delegation who has submitted the request for specific school board action will be granted 10 minutes to explain the request to the school board. Upon receiving a request for an extension of time from the speaker, the school board, upon a motion being made and passed by the majority of school board members present, may grant an additional amount of time not to exceed 5 minutes. Additional extensions may be granted only upon a two-thirds vote of school board members present and voting.
- e. In the sole discretion of the school board, requests to the school board for specific action submitted after the proposed agenda has been posted may be:
 - deferred until the next regular meeting or a special school board meeting, or
 - added to the meeting agenda for discussion purposes only, or
 - added to the agenda for discussion and possible action.

3. Authority of Presiding Officer:

The Board vests in its presiding officer the authority to terminate the right of any person to speak at the end of the time granted pursuant to provision 1.d, provision 1.e, or provision 2.d. as set forth in this policy. The presiding officer may also terminate the right of a person to speak at a school board meeting should the person cause public inconvenience, annoyance, or alarm to the school board or any person, engage in threatening behavior, make unreasonable noise, disturb or be disruptive of an official school board meeting, or when comments are disrespectful to one or more persons, boisterous, argumentative, threatening, or contain profanity.

If deemed necessary by the presiding officer, the presiding officer may contact local law enforcement to have a person removed from the school board meeting as it is a violation of law for a person to intentionally cause or create a risk of serious public inconvenience, annoyance, alarm or disturbance at a school board meeting.

Introduction to Public Forum

If the Board/Board President wishes to have the Board President make an introductory statement at the beginning of the Public Forum, the following may serve as a starting point which could be modified at the discretion of the Board/Board President and which is consistent with local Board policy.

This is the time for the Public Forum.

Each individual wishing to address the Board is asked to sign the form on the table in the back of the room with their name, address, email and topic to be addressed being legible. Persons having signed in will be recognized and have an opportunity to speak.

Speakers will have five (5) minutes to present comments to the school board. An extension of time may be granted pursuant to Board policy. Should more than one person wish to address the school board on the same agenda item, or should the comments become repetitious, speaker time may be shortened.

The District has policies related to complaints involving bullying, sexual harassment, school employees or students. Those policies include procedures designed to balance the rights of the person(s) bringing the complaint and the rights of the person against whom the complaint is made. If a complaint about bullying, sexual harassment, school employees or students is brought to the Board during the public forum, the person will be informed as to the applicable complaint procedure.

* Individuals attending virtually and desiring to speak during public forum, instructions are given on the meeting agenda when it is posted to email their request to the superintendent’s office, including all identifying information, by noon the day of the board meeting.

Notes: All Board members should be aware that SDCL 22-18-35(3) says any person who intentionally causes serious public inconvenience, annoyance, or alarm to any other person, or creates a risk thereof by disturbing any lawful assembly or meeting of persons without lawful authority is a criminal offense (Class 2 Misdemeanor). This statute could be referenced in extreme situations if a speaker/group fails to respect the decorum expected during a formal governmental meeting

Seventy-two staff members attended the classified listening sessions last month. We also had a few staff members share written responses. All of those responses have been included in the summary. We will continue to look at the results of the sessions and begin working on actionable steps to address items we believe can be addressed. For now, a couple of items that seemed to surface:

1. The need for well-planned professional development for all classified staff members. Specifically, there was support from all sessions to provide training as it relates to student discipline/management. This was shared by members of almost every job classification.

2. The importance of both district wide and building/program specific communication to help support optimal performance.

3. There were a few specific items that we can easily address (Transportation meal stipend money for trips over 10 hours, phone extension not working, speaker in library not working)

4. The staff overall were appreciative of the opportunity to have an opportunity to voice their thoughts at the listening sessions.

Fiscal Resources Items:

Motion to make a matter of record that valid School Board Nominating Petitions have been filed as follows: One (1) three-year position for Board Member at Large - Ben Frerichs. PERSONNEL GOALS

The Board recognizes that a dynamic and efficient staff dedicated to education is necessary to maintain a constantly improving educational program. The Board is interested in its personnel as individuals; and it recognizes its responsibility for promoting the general welfare of the staff.

The Board's specific personnel goals are:

1. To recruit, select, and employ the best qualified personnel to staff the school system;
2. To provide staff compensation and benefit programs sufficient to attract and retain qualified employees;

VETERAN'S PREFERENCE

If a veteran possesses the qualifications necessary to discharge the duties of the position involved, the veteran shall receive preference for employment, and promotion. For the purposes of this policy, the term "veteran" means any person who

1. has served the full obligation for active duty, reserve, or National Guard service in the military, or received an early discharge for a medical condition, hardship, reduction in force, or at the convenience of the military; and
2. has been separated or discharged from such service honorably or under honorable conditions

An applicant wishing to be given veteran's preference must submit his/her DD-214 from the military that shows the applicant satisfies the definition of veteran as set forth above. All veterans are subject to criminal background requirements as set forth in state law.

Age, loss of limb, or other physical impairment which does not in fact incapacitate does not disqualify the veteran. A veteran who has a service-connected disability shall be given a preference over a non-disabled veteran.

The unmarried spouse of a veteran who died while in service, or later died from a service connected cause, is entitled to the preferences given to the veteran if the spouse possesses the qualifications and business capacity necessary to discharge the duties of the position involved. If a veteran disabled due to a service connected cause is unable to exercise the right to a veteran employment preference due to the disability, the veteran's spouse is entitled to the preferences given to the veteran if the spouse possesses the qualifications and business capacity necessary to discharge the duties of the position involved.

If a veteran applies for appointment for employment under this policy, the District shall, before employing anyone to fill the position, investigate the qualifications of the applicant. If the applicant possesses at least the minimum qualifications necessary to fill the position, the officer, board, or person shall interview the applicant. However, nothing within this policy requires the school district to hire a veteran interviewed. At the conclusion of the hiring procedure and protocol, should a veteran and nonveteran be equally qualified for the position, the veteran shall be granted veteran's preference and shall be offered employment in the position.

A veteran may be removed for incompetency or misconduct shown after a hearing, upon due notice, upon stated charges, and with the right of the employee or appointee to a review pursuant to law.

NEPOTISM

The Douglas School District recognizes that personal or family relationships among employees who have a reporting or other close working relationship present the potential for a conflict of interest or appearance of a conflict of interest.

The ~~Personnel Office~~ **Superintendent or designee** will review any situation where the employment of a family member or an individual who has a personal relationship with a current school district employee poses a conflict, potential conflict or the appearance of a conflict. Generally, these situations include working in the same department, in positions involving direct or indirect reporting relationships, or in a department that often deals with employee-related information or issues.

~~In the employment and assignment of personnel, close relatives may not be employed in the same school or under the same administrative head. Also, family members or individuals who have personal relationships are not permitted to be in a direct or indirect reporting relationship. This means that a school district employee may not be in a position where he/she would be responsible for a family member's or an individual with whom he/she has a personal relationship's performance review, compensation determination, or expense approval or in any "chain of command" with an employee who would engage in these activities.~~

~~For the purpose of this policy, a "family member" includes the following and the same relatives by marriage (i.e. in-laws, step) or domestic partnership: parent, spouse, sibling, son or daughter, legal guardian, grandchild, grandparent, great grandparent, same-sex domestic partner or relative living in the immediate household of employee. A "personal relationship" includes: a consensual romantic or sexual relationship; or living with the person, even if not romantic.~~

~~Note: Other types of relationships not listed above may be deemed to be covered by the policy (e.g. an aunt who raised the employee).~~

~~If it is determined that there is a conflict of interest or perceived conflict of interest due to a family or personal relationship, the employee will be given a reasonable period of time to find an alternative position unless he/she was aware of the conflict and failed to notify the Personnel Office or manager. In these situations, the employee may be subject to corrective action.~~

The provisions of this policy may be waived by the Superintendent **or designee** when the assignment or placement of both family members or individuals who have personal relationships is ~~of such a nature that no reasonable alternatives are available~~ **considered to be in the best interest of the**

~~district.~~ Such determination will be made in the Superintendent's sole discretion.

DISTRICT INVOLVEMENT IN POLITICAL ACTIVITY

The Board believes in the importance of democracy in American society and advocates political participation as an act of self-governance. In this spirit, the Board recognizes the rights of District employees, as private citizens, to be involved in local, state and federal political activities, and encourages politically related material, discussions and projects in the classroom with the intent to teach students about democracy.

For the purpose of educating voters and lawmakers, the Board will provide information on ballot questions. The Board authorizes the Superintendent or Superintendent’s designee to communicate such information to citizens, media sources, public officials or candidates running for office as the Superintendent or designee deems appropriate.

However, the Board prohibits the following actions:

1. Use of an official school title, **school email address, school social media platform or other district owned resource**, to endorse or oppose candidates running for elected office, a political party or a proposition, referendum or issue being voted upon by the electorate;
2. Use of District funds to support or oppose a candidate running for elected office, a political action committee, a political party or a proposition, referendum or other ballot issue;
3. Distribution or posting of material which supports or opposes any candidate, political party or action committee, or proposition, referendum or other ballot issue on school property during school hours; and
4. Use of school facilities by candidates, their representatives, political parties, or political action committees.

School as Polling Place

In the case that a public school building is used as a public polling place, candidates, their representatives, members of a political party or political action committee or citizens acting in support or opposition to a ballot question may hand out literature or speak with prospective voters as long as this is done outside a 100-foot radius of the entrance to the polling place. The Board authorizes the Superintendent **or designee** to create any necessary regulations to implement this policy.

STAFF COMPLAINTS AND GRIEVANCES

The Board of Education recognizes the need to develop an effective means for resolving differences that may arise among employees or between employees and administrators, other than discrimination and harassment; reduce potential areas of grievances; and establish and maintain recognized channels of communication between the staff, administration and Board of Education.

Grievance procedures should provide for prompt and equitable adjustment of differences at the lowest possible administrative level, and each employee should be assured the opportunity for an orderly presentation and review of complaints and concerns. Channels established will provide for the following:

1. That teachers and other employees may appeal a ruling of a principal or other administrator to the Superintendent.
2. That all school employees may appeal a ruling of the Superintendent to the Board.

The procedures established for the resolution of grievances in agreements negotiated with employee bargaining units will apply only to “grievances” as defined in the particular agreement.

**STAFF COMPLAINTS AND GRIEVANCES
PROCEDURES**

DEFINITIONS:

- A “grievance” is a complaint by a person or group of persons employed by the Douglas School District 51-1, made either individually or by a duly authorized and recognized employee association through its representative, that there have been a violation, misinterpretation or inequitable application of any existing agreement, contract, policy, rule, or regulation of the School Board. Negotiations for, or a disagreement over, a nonexisting agreement, contract, policy, rule, or regulation is not a “grievance”.
- An “aggrieved person” is the person or group of persons filing the grievance.
- “Board” means the Douglas School Board.
- “Days” shall refer to calendar days. The day of delivery or notice shall not be counted as a calendar day as it pertains to the timelines.

PURPOSE:

The purpose of this procedure is to secure, at the lowest possible level, equitable solutions to the problems which may from time to time arise between employees and the District and to facilitate this purpose, the process will be kept as informal and confidential as may be, appropriate at any level of the procedure.

Nothing herein contained shall be construed as limiting the rights of any employee having a grievance to discuss the matter informally with any appropriate member of the administration, and having the grievance adjusted without the intervention of the employee association, provided the adjustment is not inconsistent with the terms of any settlement with the employee association then in effect. The employee or the administrator involved in the grievance may be represented by a representative at such an informal discussion.

PROCEDURE:

- It is important the grievances be processed as rapidly as possible. The number of days indicated at each level shall be the maximum and every effort should be made to expedite the process.
- If appropriate action is not taken by the employee within the time limit specified, the grievance will be deemed settled on the basis of the disposition at the preceding level. The

time limits specified herein may be extended by mutual agreement, provided the time extension is requested within the time limits provided in the regulation.

- If an employee does not file a grievance in writing with the principal or other supervisor within thirty (30) calendar days after the employee knew, or should have known, of the act or condition on which the grievance is based, the grievance shall be considered as having been waived.
- A supply of grievance forms shall be on file with the building principal, and/or the immediate supervisor.

Informal Procedures:

If an employee has a complaint, he/she shall first discuss the matter with his/her immediate supervisor, principal, or other administrator to whom he/she is directly responsible in an effort to resolve the problem.

Formal Procedures:

Level 1 – School Principal, Immediate Supervisor or Other Administrator

- If an aggrieved person is not satisfied with the disposition of his/her problem through informal procedures, he/she shall submit his/her grievance in writing.
- Signed copies of the written grievance shall be delivered by the employee to the supervisor, principal or other administrator.
- An employee who is not directly responsible to a building principal may submit his/her formal written grievance to the administrator or supervisor to whom he/she is directly responsible.
- The administrator within ten (10) days of the filing of the grievance shall render his/her decision in writing to the aggrieved person.

Level 2 – Superintendent

- If an aggrieved person or the Board is not satisfied with the decision concerning his/her grievance at Level 1, or if no written decision has been rendered within ten (10) days, he/she shall, within ten (10) days after the decision is rendered, or within twenty (20) days after the grievance was presented at Level 1 whichever is sooner, resubmit his/her grievance in writing to the Superintendent.
- The Superintendent shall within ten (10) days from the filing of the written grievance meet with the aggrieved person for the purpose of resolving the grievance. The Superintendent shall, within ten (10) days after this meeting render his/her decision in writing to the aggrieved person.

Level 3 – Board of Education

- If the aggrieved person or the Board is not satisfied with the disposition of the grievance at Level 2, or if no written decision has been rendered within ten (10) days, he/she shall within ten (10) days or within twenty (20) days after the grievance was presented at Level 2,

whichever is sooner thereafter resubmit the grievance to the business manager and the president of the School Board.

- At its next meeting or within twenty (20) days, whichever is sooner, the Board or its designated agent shall hold a hearing on the grievances. The decision of the Board shall be rendered in writing within ten (10) days after the hearing.

Level 4 – Arbitration

- If the aggrieved person is not satisfied with the disposition of the grievance at Level 3 or if no written decision has been rendered within the time period set forth in the preceding paragraph, he/she may, within ten (10) days after receipt of the written decision is due, whichever is earlier, appeal to the Department of Labor, pursuant to statute.
- The inclusion of this paragraph in this grievance procedure shall not constitute a waiver by either party of its rights to dispute the authority of the Department of Labor to hear the appeal and/or render any particular decision.

Miscellaneous

- If, in the course of investigation of any grievance by representatives of the complainant, such investigation requires their presence in a school building; they shall report immediately to the principal of such building being visited and state the purpose of the visit.
- Interruption of regularly assigned classes or activities shall be avoided and students shall not be included in any phase of the grievance procedure except with the mutual consent of both parties.
- Any party or parties in interest shall appear and may be represented at formal Levels One and Two of the grievance procedure by one representative. When the representative is not a member of the employee organization, the employee organization shall have the right to have one spokesperson present and to have that spokesperson state its views at the formal Levels One and Two of the grievance procedure except when the aggrieved person specifically requests the exclusion of all but the parties in interest and their respective representatives. At Level Three a maximum of three representatives, one of whom will be the spokesperson, may represent the aggrieved person or persons involved in a grievance.
- If, in the judgment of the employee organization a grievance affects a group or class of employees, the organization may submit such grievance in writing to the Superintendent directly and the processing of such a grievance shall be commenced at Level Two. The employee organization shall designate not more than two spokespersons for the organization in processing such a grievance through the remaining levels of the grievance procedure. Provided, however, that the employee organization shall not be permitted to file or process a grievance with respect to an incident or occurrence on which an employee or group has already initiated a grievance.
- Meetings and hearings under this procedure shall not be conducted in public and shall include such parties and only such parties in interest and their designated or selected representatives heretofore referred to in this grievance procedure. The vote on the Board's decision on Level Three grievances shall be made in open session but the name of the aggrieved party shall not be disclosed.
- When it is necessary for a party or parties in interest to attend a board meeting or a hearing

called during the working day, the Superintendent's office shall so notify the party or parties in interest, principals or immediate supervisor, and the party or parties in interest shall be released without loss of pay for such time as their attendance is required at such meeting or hearing.

- At all hearings conducted under this procedure, the aggrieved person and the administrative representative may call witnesses and present evidence that is relevant to the matter being considered. The Board may request that other witnesses be called for questioning by the parties.

STAFF FLEX TIME

The use of flex time by staff is time adjusted during the normal duty hours for an emergency personal need and is provided below:

Classified Staff

For classified personnel, up to one hour can be flexed per week. Flex time is before and after school, not during hours students are present. Exceptions to the one-hour limit on flex time may be granted by the Superintendent **or designee** for emergencies or extenuating circumstances. ~~(special projects) and will be communicated to the Business Manager in writing.~~

The occasional use of flex time shall be mutually agreed upon by the person making the request and the supervisor. It is the exception rather than the rule and should not be used to satisfy a person's every day or weekly schedule. Any flex time should be made up within the same workweek that flex time is used.

Certified Staff

The normal school day for teaching staff is seven and one-half (7 ½) hours of duty in length except on Fridays when it will be seven and one-quarter (7 ¼) hours. Duty hours are exclusive of time necessarily required to perform extra-duty assignments as well as other assigned duties. Adjustment to meet the needs of the individual teacher shall only be made outside of one half hour before (15 minutes at high school) and 15 minutes after the regularly scheduled classroom day.

Teachers may request to alter their starting or ending times on a particular day to accommodate an emergency personal need, which time need not be made up. This adjustment shall be handled at the building level through the principal's office and may involve only that time outside the regularly scheduled classroom day.

PROFESSIONAL STAFF POSITIONS

All professional staff positions in the school district will be created initially by the Board. It is the intent of the Board to activate a sufficient number of positions to accomplish District goals, objectives, and to provide the number of positions for each building. It is the responsibility of administration to determine how the positions are filled to best meet the needs of the students and district. Position is to be broadly defined as **the** number of slots required for fulfilling **the** needs of students. Although such positions may remain temporarily unfilled, only the Board may abolish a position it has created.

Each time a new position is established by the Board, the Superintendent **or designee** will present for the Board's approval a job description for the positions, which specifies the job holder's qualifications and the job's performance responsibilities. PROFESSIONAL STAFF SALARY SCHEDULES

The Board will adopt salary schedules for its professional staff, and each staff member will be placed on the schedule at a salary level that is commensurate with, but not limited to, the staff member's educational training, prior experience, and experience in the District. The schedule adopted by the Board will remain in effect until changed or modified by the Board.

Salary increments will be conditional upon evidence of the continued professional growth of the teacher. Employees who do not comply with the requirements of the Board and/or the State may not be granted salary increases or may not be retained on the staff.

Placement on the salary schedule will be in accordance with requirements developed by the administration and approved by the Board.

Salaries will be reviewed annually, prior to the organizational meeting of the Board in July. The Superintendent **or designee** will be responsible for surveying other school systems to determine salaries being paid for comparable positions in each district.

PROFESSIONAL STAFF SUPPLEMENTARY PAY PLANS

Certain assignments require extra responsibility or extra time over and above that required of other staff members who are in the same position on the basic salary schedule. When such supplemental assignments require extra time and responsibility beyond that regularly expected of teachers, extra compensation will be rewarded.

Assignments that are to be accorded extra compensation will be designated by the Board. Recommendations for appointments to such positions will be made to the Board by the Superintendent **or designee**. The amount of compensation for the position will be established by the Board at the time of appointment.

A teacher who is offered and undertakes a supplementary pay assignment will enter into a one-year limited contract with the Board. The terms and salary for this assignment will be specified in the written teacher's contract, which is signed by the teacher, Board president and school district business manager.

If a teacher will not be extended the assignment for the following school year, but will remain on the teaching staff, they will be notified in writing, prior to the expiration of the contract.

If the assignment is terminated by the Board or by the teacher, prior to the end of the contract, the special allowance will cease.

TAX SHELTERED ANNUITY PROGRAM

The School District will offer a Tax Sheltered Annuity Program intended to qualify under Section 403 (b) of the Internal Revenue Code for the benefit of its eligible employees.

The Board authorizes the Superintendent or Superintendent designee to administer the program, and act on behalf of the School Board to enter into salary reduction agreements, vendor agreements and take such steps as are appropriate to assure compliance with the Internal Revenue Service Code.

PARTICIPATION ELIGIBILITY

All full-time salaried and regular full-time employees of the School District are eligible to participate in the 403(b) program.

Each eligible employee may elect to reduce his or her salary in a specific amount by executing the salary reduction agreement provided by the District. The salary reduction agreement will specify the amount of the salary reduction for each eligible vendor selected.

The salary reduction agreement must specify the amount of the salary reduction, which the employee elects to have the District contribute toward the purchase of a qualified investment or an annuity contract on behalf of the employee. An employee’s salary reductions for a calendar year may not exceed the maximum amounts specified in the Code.

SCHOOL DISTRICT RESPONSIBILITY

The Board will annually review the 403(b) program for nondiscrimination compliance.

All employees eligible for the district’s 403(b) program will be notified of their eligibility upon employment and periodically provided the list of vendors to all eligible employees.

The Board makes no representation to the employee regarding the advisability, appropriateness or tax consequences of a salary reduction agreement, participation in a tax sheltered annuity, or the company which issues the annuity contract or which invests the employee’s salary reduction funds.

No action taken by the District under this program shall be construed to create a trust of any kind or a fiduciary relationship between the District and the employee, any designated beneficiary or any other person.

The Board also makes no warranty or representation to the employee that any annuity contracts or investments offered by eligible annuity vendors are qualified under Section 403(b) of the Code or that salary reductions applied to the purchase of such annuity contracts will be excluded from the gross income of the employee under Section 403(b) of the Code.

EXTENDED LEAVES OF ABSENCE

It is a responsibility of the Board of Education to provide the most effective instruction to students possible within the limitations of available resources. The effectiveness of the classroom, to a large degree, is influenced by the quality of the teacher assigned to that classroom or responsibility. Decisions regarding extended leaves of absence will be made while giving primary consideration to the potential short and long range effects of that decision on the educational lives of the students of the Douglas School System.

When it can be determined that the absence of a staff member will not have a significantly negative effect on students, the Board of Education will make the growth and health of its staff a high priority.

All decisions regarding the granting of extended leaves of absence will be at the discretion of the Board of Education.

SECTION	G	TITLE	PERSONNEL	FILE	GCBDD
---------	---	-------	-----------	------	-------

MILITARY LEAVE OF ABSENCE

Employees are entitled to military leave under the Uniformed Services Employment and Reemployment Act of 1994 (USERRA). The Act applies to military service that began on or after December 12, 1994 or military service that began before December 12, 1994 if the employee was a reservist or National Guard member who provided notice to the employer before leaving work.

Reemployment rights extend to persons who have been absent from work because of “service in the uniformed services.” The uniformed services consist of the following military branches: Army, Navy, Marine Corps, Air Force or Coast Guard, Army Reserve, Navy Reserve, Marine Corps Reserve, Air Force Reserve or Coast Guard Reserve, Army National Guard or Air National Guard, Commissioned Corps of the Public Health Service, and any other category of persons designated by the President in time of war or emergency.

“Service” in the uniformed services means duty on a voluntary or involuntary basis in a uniformed service, including:

- Active duty.
- Active duty for training.
- Initial active duty for training.
- Inactive duty training.
- Full-time National Guard duty
- Absence from work for an examination to determine a person’s fitness for any of the above types of duty.

The employee may be absent for up to five (5) years for military duty and retain reemployment rights. There are, however, exceptions which can exceed the five (5) year limit. Reemployment protection does not depend on the timing, frequency, duration or nature of an individual’s service. The GARID law enhances protections for disabled veterans including a requirement to provide reasonable accommodations and up to two (2) years to return to work if convalescing from injuries received during service or training.

Employment Protection

The returning employee is entitled to be reemployed in the job that they would have attained had they not been absent for military service, with the same seniority, status and pay, as well as other rights and benefits determined by seniority. If necessary, the employer must provide training or

retraining that enables the employee to refresh or upgrade their skills so they can qualify for reemployment. While the individual is performing military service, he or she is deemed to be on a furlough or leave of absence and time spent in active military service shall be counted in the same manner as regular employment for purposes of seniority or District service.

Providing Notice

All requests for military leave will be submitted to the Superintendent in writing accompanied by copies of the proper documentation showing the necessity for the military leave request. The Superintendent shall grant leave without pay or military leave to carry out the military obligations in accordance with USERRA.

Unless otherwise impossible, all requests for military leave will be submitted at least one full month in advance of the date military service is to begin. Persons returning from military leave are asked to give notice of intent to return to the Superintendent, in writing, at least one full month in advance of the return date.

Accrued vacation or annual leave may be used (but is not required) while performing military duty.

Payment Options

Any employee who is on authorized military leave during the school term for the purpose of performing military duty pursuant to the provisions of USERRA shall have the option of either receiving their regular daily or hourly pay (depending if certified or classified) from the District to be reduced by the daily or hourly pay received from the military or to accept only their military pay. Such leave not to exceed fifteen (15) working days in one school year (July 1-June 30). If authorized military leave extends beyond fifteen (15) days, approval by the Superintendent will be required.

Salary deductions for co-curricular assignments shall be deducted in a pro rata amount.

Health Benefits

Individuals performing military duty of more than 30 days may elect to continue employer sponsored health care for up to 18 months at the full premium cost plus normal increases in premium. For military service of less than 31 days, health care coverage is provided as if the individual had never left. After notification by the employee to the school district of Military activation of more than 30 days, the school district shall inform the employee of the health benefits available under "COBRA" and furnish the employee with the enrollment forms for "COBRA."

Upon entering active military duty for more than 30 days, the individual and dependents are covered by what the military calls "Tri-Care." There are several different plans that are offered which offer different levels of managed care. The most managed of the plans are at no cost to the service member. Not all medical costs are covered by "Tri-Care." It is not possible to make a recommendation in this document that will be best for every individual

If an employee leaves and enters active duty for more than 30 days and discontinues health coverage

for themselves and the employee's dependents, and the employee returns to the school district in the time frame stated in this document, they will be placed back on the health plan as if they had never left employment.

Retirement Benefits

A participating SDRS member called to active duty will continue to earn credited service in SDRS while serving in the armed forces if he or she meets the following requirements:

- Secures authorization in advance from his/her employer for a leave of absence for military service
- Returns to the employment of an SDRS participating unit within one year of discharge from his/her initial period of military service
- Remains in the employment of that same employer for at least one year upon his/her return
- This credited service does not require a contribution from either the employer or employee. See SDCL 3-12-86.

Survivor and Disability Benefits

The continuation of SDRS survivor and disability benefits, however, depends upon the continued classification of an employee as contributing SDRS member during his or her leave of absence. To meet this requirement, both the employee and employer contributions must be made to the system for each of the employee's pay periods. For Survivor and Disability Benefits only, the Douglas School District will make both employee and employer contributions to SDRS, which is allowed under SDCL 3-12-85.

Return to Work or Application for Reemployment

Military service of less than 31 days: Must return at the beginning of the next regularly scheduled work period on the first full day after release from service, taking into account safe travel home plus an eight (8) hour rest period.

Military service of more than 30 but less than 181 days: Must submit an application for reemployment within 14 days of release from service

Military service of more than 180 days: Must submit an application for reemployment within 90 days of release from service.

The individual's separation from service must be under honorable conditions in order for the person to be entitled to reemployment rights. Documentation showing eligibility for reemployment can be required. The employer has the right to request that an individual who is absent for a period of service of 31 days or more provide documentation showing:

- the application for reemployment is timely;
- the five-year service limitation has not been exceeded; and,
- separation from service was under honorable conditions.

If documentation is not readily available or it does not exist, the individual must be reemployed. However, if after reemploying the individual, documentation becomes available that shows one or more reemployment requirements were not met, the employer may terminate the individual, effective immediately. The termination does not operate retroactively.

Once the employee has made application for re-employment the employee is entitled to employment and benefits as if the employee had never left. For example if a teacher makes application for re-employment on June 1 (after school is out) and if you normally pay the single premium health for the other employees during the summer, you will need to reinstate the returning employee and pay the single premium. If the employee has family coverage, they are responsible for that payment.

This policy is intended only to generally advise individuals of the protections available under the Uniformed Services Employment and Reemployment Act of 1994 (USERRA). Specific requirements and obligations in the Uniformed Service Employment and Reemployment Act of 1994 govern.

FAMILY AND MEDICAL LEAVE PROCEDURES (FMLA)

REASONS

In compliance with the Family and Medical Leave Act of 1993 and under procedures developed by the Superintendent, leave shall be granted to eligible employees for the following reasons:

1. For the birth and care of an employee's newborn child or for placement of a child with the employee for adoption or foster care;
2. To care for the employee's spouse, child, or parent who has a serious health condition, as defined by federal law;
3. For an employee's own serious health condition, as defined by federal law, that makes the employee unable to perform the employee's job;
4. To address a qualifying exigency (need) defined by federal regulation arising out of the active duty or call to active duty of a covered family member (spouse, son, daughter, parent or next of kin) who serves in a reserve component or as a retired member of the Regular Armed Forces or Reserve in support of a contingency operation; and
5. To care for a covered family member (spouse, son, daughter, parent or next of kin) who has incurred an injury or illness in the line of duty while on active duty in the Armed Forces that may render the family member medically unfit to perform duties of his/her office, grade, rank or rating.

NOTICES AND DEADLINES

Employees who may be eligible for or who request leave for any of the above reasons shall be provided an FMLA notice of eligibility and rights and responsibilities. Requests for family and medical leave should be made in writing but verbal requests may be made to the immediate supervisor or other designated administrator who shall then document the request. The District may require that a request for leave be supported by a certification for health care or military-related situations as permitted by federal law, but such requirements must be set out in the required notice.

Deadline for Notice to be Provided: Absent extenuating circumstances, within five (5) business days of District receipt of a request or the District being made aware of a potentially qualifying reason.

The District shall designate an employee's leave, paid or unpaid, as FMLA-qualifying and shall provide a designation notice indicating whether the request is approved or if additional information is needed. Leave may be delayed if the employee does not provide proper notice (30 days advance

notice for a foreseeable leave); otherwise, notice as soon as the need becomes known).

Deadline for Notice to be Provided: Absent extenuating circumstances, within five (5) business days of learning that an FMLA reason supports the leave.

ELIGIBILITY

Employees are eligible for up to twelve (12) workweeks of family and medical leave each school year, if they have been employed by the District for twelve (12) months, have worked at least 1,250 hours during the twelve (12) months preceding the start of the leave, and otherwise qualify for family and medical leave. When family and medical leave is taken to care for a service member's recovery from a serious illness or injury sustained in the line of duty, an eligible employee may take up to twenty-six (26) workweeks of leave during a single twelve-month period.

Full-time teachers are presumed to have worked at least 1,250 hours during a school year. In determining whether returning veterans meet the minimum 1,250 hour standard, hours actually worked for the District during the twelve-month period are to be combined with hours they would have worked for the District had they not been called for military service.

In situations involving both the Americans with Disabilities Act (ADA) and FMLA, the District shall apply the law affording the employee the greater benefit.

RESTRICTIONS

To the extent that an employee is entitled to any paid leave, all such leave shall be taken and it shall run concurrently with family and medical leave. (This requirement shall not apply to employees taking workers' compensation leave.) However, when an employee's work-related injury/medical state qualifies as a serious health condition, worker's compensation leave shall run concurrently with the twelve (12) workweek entitlement.

Paid leave used by the employee as required under this policy shall count, as applicable, against the twelve (12) or twenty-six (26) FMLA workweek entitlement.

Entitlement to family and medical leave for the birth and care of a newborn child or placement of a child shall expire twelve (12) months after the date of such birth or placement.

When both husband and wife are employed by the District, the combined amount of family and medical leave for reasons other than personal illness or illness of a child shall be limited to twelve (12) workweeks. In cases of personal illness or illness of a child, each spouse is entitled to twelve (12) workweeks of family and medical leave.

Exception: The limit on the combined amount of family and medical leave shall be twenty-six (26) workweeks when both an eligible husband and wife are employed by the District and are eligible for leave that involves a covered Armed Forces service member.

Depending on the date family and medical leave is to begin, instructional employees as designated by

federal regulation may be required to continue on leave until the end of the school term to avoid disruption.

INTERMITTENT LEAVE / REDUCED HOURS

Family and medical leave may be taken intermittently (when medically necessary) or on a reduced hours basis.

CONTINUATION OF BENEFITS

While on family and medical leave, employees shall be entitled to all employment benefits accrued prior to the date on which the leave commenced. Health, dental and life insurance for an employee on family and medical leave shall continue to be provided on the same basis had the employee not taken leave. The District will pay its portion for health, dental and life insurance while the employee has paid leave to use. Once all paid leave has been exhausted, if the employee chooses to continue with health, dental and life insurance, they must pay the full cost themselves. Other employment benefits and seniority shall not accrue during unpaid family and medical leave.

RETURN TO WORK

As noted by the required notice of eligibility and rights and responsibilities when family and medical leave is taken due to an employee's own serious health condition, the employee shall provide fitness-for-duty certification before returning to work. This may include certification by the health care provider that the employee is able to perform essential functions specific to the job, as noted by the District in a list attached to the certification form.

Upon return to work, the employee shall be entitled to his/her same position (or an equivalent position with equivalent pay) with corresponding benefits and other terms and conditions of employment.

NOTICE

The District shall notify employees of family and medical leave provisions by posting appropriate notices in conspicuous places in the Central Office and each worksite and distributing notices as required by law.

NURSING MOTHERS

The District recognizes that breastfeeding is the most healthful, natural and economic method of infant nutrition; and it is the policy of the District to support the needs of breastfeeding mothers when they return to work.

1. Maternity leave planning will address the transition from full-time maternity leave to fulltime work and the impact that this may have on breastfeeding. Generally, maternity leave is a sufficient time to establish breastfeeding. Factors to consider include a combination of fulltime and part time maternity leave, a flexible work schedule to accommodate breastfeeding needs, and break times to use a breast pump at work.
2. Breastfeeding employees are allowed a flexible schedule for nursing or pumping, with the schedule to be determined by the employee and employees supervisor. The schedule requested by the employee will be approved unless the employee's supervisor has determined, in writing, that the requested schedule would impose an undue hardship by causing the District significant difficulty or expense when considered in relation to the size, financial resources, nature, or structure of the school district. Factors to determine when considering the schedule as proposed by the employee include, but are not limited to the following: the time requested would exceed the normal time allowed for lunch, breaks, student responsibilities at the time requested, sick/personal and annual leave, and adjustment of normal work schedule.
3. The District shall provide an appropriate room, other than a bathroom, for an employee to express breast milk where;
 - a. nursing women can nurse an infant brought in during lunch or breaks;
 - b. nursing women can pump breastmilk to be stored for later use. (Each employee is responsible for proper storage of her milk using a personal storage cooler);
 - c. the area for breastfeeding or pumping is located where a crying infant will not be disruptive to other employees;
 - d. accessible electrical outlets for electric breast pump use and a sink close by with a clean, safe water source for hand washing and rinsing out breast pump equipment; and
 - e. a comfortable chair and a table or desk is available for pumping;

Notes:

1. Districts that employ less than 50 employees are not subject to the requirements in (#3) if such requirements would impose an undue hardship by causing the District significant

difficulty or expense when considered in relation to the size, financial resources, nature, or structure of the District's business.

2. Section 7 of the Fair Labor Standards Act (29 U.S.C. 207) states the following:
 - 2.1. An employer shall provide
 - 2.1.1. a reasonable break time for an employee to express breast milk for her nursing child for one year after the child's birth each time such employee has need to express the milk; and
 - 2.1.2. a place, other than a bathroom, that is shielded from view and free from intrusion from coworkers and the public, which may be used by an employee to express breast milk.
 - 2.2. An employer shall not be required to compensate an employee receiving reasonable break time under paragraph (1) for any work time spent for such purpose.
 - 2.3. An employer that employs less than 50 employees shall not be subject to the requirements of this subsection, if such requirements would impose an undue hardship by causing the employer significant difficulty or expense when considered in relation to the size, financial resources, nature, or structure of the employers business.
 - 2.4. Nothing in this subsection shall preempt a State law that provides greater protections to employees than the protections provided for under this subsection

PROFESSIONAL STAFF HIRING

The school board authorizes the Superintendent or **designee** to develop, implement, maintain and evaluate a system for recruiting and hiring qualified professional staff and for ensuring that supervisors who are part of the hiring process have the skills necessary for making selections. This system will postcede the staffing plan of the District, for the purpose of maintaining qualified personnel for the district programs

All professional staff members of the District will be appointed by the Board upon the recommendation of the Superintendent or designee. Should a person nominated ~~by the Superintendent~~ be rejected by the Board, it will be the Superintendent's **or designee's** duty to make another nomination.

The Superintendent or **designee** will assure that all persons nominated for employment meet state certification requirements and the qualifications established for the particular position.

Interviewing and selection procedures will assure that the principal or other administrator to be directly responsible for the work of the staff member has an opportunity to aid in his/her selection; however, the final recommendation to the Board will be made by the Superintendent **or designee**. No candidates will be hired without a personal interview.

All candidates will be considered on the basis of their merits, qualifications and the needs of the District. In each instance, the Superintendent and others playing a role in the selection will seek to hire the best qualified person for the job.

Upon approval by the Board, a teacher will receive a written contract to be signed by the teacher, Board president and school district business manager.

The District may offer and, upon the signing of a contract by both parties, pay a signing bonus, moving expenses, or tuition reimbursement to a staff member employed in the District. The signing bonus, moving expenses, or tuition reimbursement may be paid either in one lump sum upon completion of the staff member's first year of employment in the District, or in installments over a period not to exceed three years from the date the staff member signed a contract of employment with the District, and upon the terms and conditions as may be mutually agreed upon by the School Board and the staff member. Any signing bonus, moving expenses, or tuition reimbursement authorized by the School Board is in addition to any amount payable under a negotiated contract. The School Board may negotiate any signing bonus, moving expenses, or tuition reimbursement payment with the staff member's designated collective bargaining representative.

2. The school district shall submit completed fingerprint cards to the Division of Criminal Investigation before the prospective new employee or volunteer enters into service.
3. If no disqualifying record is identified at the state level, the fingerprints shall be forwarded by the Division of Criminal Investigation to the Federal Bureau of Investigation for a national criminal history record check.
4. The District shall pay any fees charged for the cost of fingerprinting or the criminal background investigation for any person whose employment with the District or status as a volunteer is subject to the requirements of this section.
5. Any person hired to officiate, judge, adjudicate, or referee a public event sponsored by a school district is not required to submit to a criminal background investigation.
6. Any person whose employment or status as a volunteer is subject to the requirements of this section may enter into service on a temporary basis pending receipt of results of the criminal background investigation. The District may, without liability, withdraw its offer of employment or terminate the temporary employment or status as a volunteer without notice if the report reveals a disqualifying record.
7. The criminal investigation required by this section with respect to a student teacher completing requirements for teacher certification shall be conducted by the District, and the District may rely upon the results of that investigation for employment of that person as an employee of the District. Results of a criminal background investigation conducted by another South Dakota public school district of a student teacher, hired by the District, may be relied upon by the District.
8. A District employee who is employed simultaneously with another school district is only required to obtain one criminal background investigation, if the background investigation was conducted less than five years before the person was first employed by the District.
9. The District shall run a background check on employees of contractors that provide the District with student services. involving moral turpitude. "Moral turpitude" is defined "an act done contrary to justice, honesty, principle, or good morals, as well as, an act of baseness, vileness, or depravity in the private and social duties which a person owes to his fellow man or to society in general.

- b. The District may consider any criminal conviction in making a hiring decision. The District has the sole and absolute discretion to determine whether the results of a criminal background investigation disqualify a person from employment within the District.
 - c. For purposes of this policy, the term conviction means a plea or verdict of guilty or a conviction following a plea of nolo contendere (no contest) in this state or any other state.
11. The District's employment application form shall inform applicants that if no SD statutorily disqualifying conviction is identified at the state level the fingerprints will be forwarded by the SD Division of Criminal Investigation to the Federal Bureau of Investigation for a national criminal history record check.
 12. The application form shall also inform applicants that if the applicant believes the criminal background result is incorrect or incomplete in any respect and the applicant wishes changes, corrections or updating of the alleged deficiency, the applicant should make application directly to the agency which contributed the questioned information or direct the applicant's challenge as to the accuracy or completeness of any entry on the applicant's record to the FBI, Criminal Justice Information Services (CJIS) Division, ATTN: SCU, Mod. D-2, 1000 Custer Hollow Road, Clarksburg, WV 26306.
 13. Should an applicant be disqualified from employment due to the results of a criminal background check, the District shall inform the applicant that the criminal background check results prohibit the District from employing the person. The District will not delay the employment hiring decision solely because the applicant seeks to correct his/her FBI criminal history record information (CHRI).
 14. . Before a person's conditional employment is terminated as a result of the person's CHRI, the District shall inform the person whose conditional employment is subject to termination that the criminal background report reveals a conviction which prohibits the District from employing the person, and inform the person of his/her right to appeal the accuracy or completeness of the CHRI to the SDDCI or FBI. Employees shall be afforded procedural due process consistent with their employment status (i.e., whether the person is an employee-at-will, a school-year employee, or a ten month or twelve month employee) should termination of conditional employment be a possibility following the District's receipt of the CHRI.
 15. All employees and other persons required to submit to a criminal background check pursuant to this policy must notify the District in writing if they are convicted of any offense of domestic violence, child abuse, sex offense, drug (including marijuana) or any felony offense. This notification must be made as soon as possible, but no later than five business days after the event.
 16. The District reserves the right to require any employee or volunteer to submit to additional criminal background checks at the District's expense. The District reserves the right to require any employee of an entity which provides the District with student services to submit to additional criminal background checks which shall be at the entity's or person's expense.
 17. As required by state law, SDCL 13-10-15, if, as the result of a criminal conviction the School

Board suspends an employee without pay, or an employee resigns, or an employee is terminated, the Superintendent shall within ten days of the date of the suspension or the date the employment is severed report the circumstances and the name of the employee to the South Dakota Department of Education.

Training

The District will ensure that all employees who have access to CHRI shall be trained by SDDCI on the rules and responsibilities for the confidentiality, receipt, use and dissemination of the CHRI.

Confidentiality

1. Before requesting CHRI on any individual, the District will give the individual written notification that his/her fingerprints will be used to obtain the CHRI of the individual, and the District will provide the individual a copy of the statement "Noncriminal Justice Applicant's Privacy Rights." Exhibit GCDBE(1).
2. Information received by the District pursuant to a criminal background check is confidential. Only authorized persons within the District may access, view or use CHRI. Authorized persons may not share or otherwise disclose information contained in CHRI to unauthorized persons unless explicitly allowed for in this procedure.
3. Unless otherwise allowed by law, the District will only use this information for the District's internal purposes in determining the suitability of an applicant, employee, or other worker on District property. The District will note in an employee's or applicant's personnel file that the background check was completed and if the person was disqualified by the CHRI for employment or assignment. The District will keep the CHRI in a separate file in a location that is only accessible to persons who need to know the information to carry out their responsibilities with the District.
4. Individuals that have access to CHRI will receive CJIS security training provided by SD DCI. Once the individual has completed the CJIS online training and has taken the test, each individual will receive and acknowledge in writing the receipt of the following: (1) User Rules of Behavior Acknowledgement form, (2) CHRI Disciplinary Policy, and (3) Acknowledgment Statement of Misuse. The District will keep a copy of the signed documents in each individual's personnel file.

Access and Retention

1. The District may print or electronically share records when necessary to determine whether the person is authorized to work for the District. In those situations, the physical or electronic copy will be destroyed immediately after the decision is made.
2. If the District runs a background check on employees of a contractor that does business with the District, the District will not provide the CHRI to the contractor. Instead, the District will provide a clearance letter notifying the contractor whether the employee is cleared to provide services in the District.
3. The District will not disseminate CHRI across state lines.
4. Upon request the District will provide a copy of the SDDCI CHRI to the person who is the subject of the background check. The SDDCI CHRI will only be released to the individual

and not to relatives, spouses or friends. The District will note in the dissemination log that a copy was provided to the individual.

5. FBI rules prohibit the District from providing a copy of the FBI CHRI to the person who is the subject of the criminal background check.
6. The results of the background investigation done by the District shall be transferred to another South Dakota public school district if the other public school district, or current District employee, submits a written request to the District that the results be transferred to the other public school district. The District employee who was the subject of the criminal background investigation must sign a written release authorizing the transfer. The information will be sent by U.S. Mail or encrypted email.

Recordkeeping

A Secondary Dissemination Log shall be maintained in which all authorized disseminations of FBI and State DCI criminal background check results are recorded. The following shall be recorded in the District's Secondary Dissemination Log:

1. Name of District;
2. Name of person subject to the criminal background check review;
3. Date of birth of person subject to the criminal background check review;
4. SD public school district requesting FBI and DCI criminal background check results and person/title requesting on behalf of the SD public school district;
5. Written request signed by person subject to the criminal background check review for a copy of the SDDCI criminal background check results, attached to the Secondary Dissemination Log; NOTE: FBI CHRI cannot be released to the person who is the subject of the criminal background check.
6. Date of release of criminal background check results;
7. Description of the record that was shared;
8. How the record was sent or received
9. Person to whom criminal background check results were disseminated;
10. Signature of District employee disseminating the criminal background check review pursuant to a valid request.

The Secondary Dissemination Log shall be maintained until the onsite audit is complete and the District receives from the SD Division of Criminal Investigation written notice of a successful Policy Compliance Review, unless the log is needed or required for other purposes.

Security

The District will provide for the security of any CHRI received, including the appropriate administrative, technical and physical safeguards to provide for the security and confidentiality of the information. This includes, but is not limited to, the following:

1. The LASO shall maintain a list of school district authorized persons who have access to CHRI.
2. In those cases when the District has physical copies of CHRI, the District will restrict access

to authorized persons only. Physical copies of CHRI, if any, will be maintained in a controlled, secure environment, such as a locked cabinet in a room that is free from public or unauthorized access. The room or the locked cabinet will include an "Authorized Personnel Only" sign.

3. The District will not routinely maintain electronic copies of CHRI; however, in the rare instance where the District has electronic copies of CHRI, the District will restrict access to unauthorized persons only. Electronic data will be protected with encryption as designated by the state or federal government or will only be accessible by individual password. Computers, printers and monitors used to access CHRI must be situated to prevent unauthorized viewing of the information. CHRI cannot be accessed using computers available to the general public or personal devices. CHRI will not be stored on a server that is unprotected or accessible by an unauthorized entity.
4. CHRI will not be relocated, transmitted or transported outside a secure location unless encrypted according to FBI standards or transported in a locked container or in folders where the information is not visible to the public. A log must be kept if electronic information systems, such as a laptop, flash drive or CD with CHRI information on it, leaves a secured area.
5. . The District will dispose of records securely. Physical records will be cross-shredded or incinerated. If the District contracts out for record destruction, the destruction must be supervised. The District shall notify SDDCI of the entity with whom the District contracts for records destruction and must receive SDDCI approval to use the contractor for purposes of disposing of CHRI. Electronic records will be deleted and overwritten as required by the SDDCI or FBI.
6. The District will not provide auditors access to CHRI unless the auditor is authorized by the SDDCI or the FBI.

Security Incident Response Plan

All District employees will immediately report to the LASO information security incidents such as the theft or loss of physical records or the hacking or failure of electronic systems or suspicions that an incident has or will take place. The LASO will document receipt of all reports, investigate incidents and report incidents to SDDCI. LASO documentation will include (1) date of security incident, (2) location of security incident, (3) systems affected, (4) method of detection, (5) nature of security incident, (6) description of security incident, (7) actions taken/resolution, (8) current date, and (9) contact information for LASO.

Consequences

Employees who fail to keep background check results confidential or fail to follow this policy or any laws or rules regarding the access, receipt, use or dissemination of CHRI as required by law will be subject to disciplinary action up to and including termination. Unauthorized requests, receipts, release, interception, dissemination or discussion of CHRI may also result in criminal prosecution.

PROFESSIONAL STAFF WORK LOAD

Teachers will be expected to assume reasonable duties over and above their regular classroom teaching responsibilities; however, the administration will attempt to make equitable distribution of work among the staff. Activities and services which make minor demands on the teacher's time (include but not limited to student registration, curriculum work, attendance keeping and record-keeping, reporting to parents, supervision of students, and the request for, care of, and accounting for instructional materials) will be part of each teacher's assignment.

Extra responsibilities that make major demands on a teacher's time will be rewarded with extra compensation. Such jobs and the compensation therefore, will be in accordance with a schedule approved by the Board.

ATTENDANCE AT MEETINGS

Teachers are expected to attend faculty meetings, which are held in each building, unless they are excused, for valid reason, by the principal. General faculty meetings and other professional and in-service activities are considered part of the regular assignment of instructional personnel.

PROFESSIONAL STAFF DEVELOPMENT OPPORTUNITIES

Continuing professional growth and increasing effectiveness on the part of the entire staff is essential for the success of educational programs and school operations. The continual professional growth of all staff members on an individual basis and through planned in-service programs will be encouraged. Such opportunities may include, within budgetary limitations, special in-service courses and workshops, summer study grants, school visitations, and attendance at professional conferences and meetings.

In-Service Education

The Superintendent **or designee** will work with other school districts, local colleges and universities, and the Division of Elementary and Secondary Education to provide in-service education for teachers. The Board will encourage the development of in-service education by:

1. Conducting district-wide assessment of in-service education needs;
2. Ranking in-service education needs in relation to the District goals;
3. Developing criteria for effective in-service education activities;
4. Developing travel and professional leave policies in cooperation with teachers;
5. Developing a calendar that includes days for in-service education;
6. Developing cooperative relationships with agencies that provide in-service education;
7. Establishing an in-service education committee composed of teachers and administrators;
8. Identifying resources for in-service education;
9. Assessing the effectiveness of in-service education activities in relation to district goals.

The Superintendent **or designee** will have authority to approve released time for conferences and visitations, and reimbursement for expenses, provided such activities are within budget allocations.

The Board of Education authorizes the Superintendent **or designee** to develop, implement, maintain and evaluate, within the economic constraints of the school district, an on-going staff development program for both certified and classified personnel.

Inservice education is an ongoing activity to build skills of all school district personnel based on their needs in relation to job performance in existing programs. Further job training in job skills is encouraged and, at the discretion of the Board, permission may be granted for employees to attend workshops or conventions. When approval is granted, expenses incurred by the employee will be reimbursed in accordance with Board policy.

Since education of students depends on classified people as well as certified, it is only appropriate to have inservice education encompass all District employees.

PROFESSIONAL TEACHING STAFF EVALUATION

In order to assure a high quality of teacher performance to advance the instructional programs of the District schools, a program for teacher evaluation will be utilized.

Teachers will be evaluated at least once each semester during the first three years of their contract. Teachers in their fourth year or beyond will be evaluated at least once every other year.

When evaluating teachers in the District, all of the State of South Dakota minimum evaluation requirements aligned with the Danielson framework shall be used by the District. The evaluation process is based on the minimum professional performance standards established by the South Dakota Department of Education and which:

1. Evaluates teachers using multiple measures;
2. Serves as the basis for programs to increase professional growth and development of teachers; and
3. Includes a plan of assistance for any teacher whose performance does not meet the District's performance standards.

The formal evaluations will be written and will be discussed by the evaluator and the teacher. Copies of the written document will be signed and dated by both parties and incorporated into the personnel files of the teacher. The signature of the teacher does not indicate approval or disapproval of the evaluation, but that the evaluation has been read and discussed.

Pursuant to State law, any record or document, regardless of physical form, created by the District in connection with the evaluation of certified staff constitutes personnel information and is not open to inspection or copying.

Nothing in a teacher's evaluation may diminish the Board's right to renew or not renew a teacher's contract.

The Board acknowledges that the evaluation procedure is a subject of mandatory bargaining with the teachers' recognized bargaining unit representative. However, the establishment and identification of the evaluation criteria is not subject to mandatory bargaining; and the Board has the sole authority for establishing such evaluation criteria, subject to any applicable state and federal laws and regulations that may limit such authority.

Procedures for evaluating professional staff will follow the Negotiated Agreement between the Douglas School District and the Douglas Education Association.

 - b. Only one administrator will be allowed to participate each school year unless special consideration is made by the Board.
 - c. In the event applications exceed funds available under the 1% limitations, consideration for voluntary separation benefits will be based upon years of service in the District. If further consideration is needed, the Authorization to Hire date will be considered as a second factor, and if further consideration is still needed, the date the application is received by the Board secretary and his/her designee will be considered.
 - d. Should extra funds be made available after the application submission date, consideration will be given to applicants through a first come/first serve scenario with preference to those who meet the seniority years of service requirement.

 - i. If deemed eligible for the South Dakota Retirement System (SDRS) Special Pay Plan, the maximum amount eligible will be deposited into the SDRS Special Pay Plan. To be eligible, each of the following provisions must apply:

- d. Employees on leave of absence, excluding those leaves that are related to personal illness, are not eligible to participate in this program.
- e. Only employees designated as an Administrator or Director on their employment contract are eligible for this plan.
- f. Employee must notify the Business Office of choice a, b, c, or d (above) by April 1.
- g. Employees hired for the 2017-18 school year and thereafter are not eligible for this program.

C. Payment Formula

The voluntary separation payment is calculated by taking 5% of the current salary multiplied by the number of full years (up to a maximum of twenty years) service in the district. "Current Salary" shall be defined as the annual salary for full-time administrator/director positions. Current salary does not include extra-duty pay, contract extensions, or other payment above the specified annual salary of the administrator / director. Those administrators/directors in their 10th year or more at Douglas will receive 45% of the maximum calculation; those in their 15th year or more at Douglas will receive 60% of the maximum calculation; those in their 20th year or more at Douglas will receive 75% of the maximum calculation; and those in their 25th year or more at Douglas will receive 90% of the maximum calculation.

IMPLEMENTATION PROCEDURES FOR THE DOUGLAS SCHOOL DISTRICT SUPPORT STAFF EVALUATION PROCESS

A job description has been written for each classified position in the Douglas School District. In most cases, both the supervisor and the supervisee had input into the content of that job description. The evaluation criteria and the evaluation form are an accurate reflection of that job description. Although the evaluation process must be utilized to make decisions regarding continued employment with Douglas, it is the intent of the District to make the evaluation process as professional and growth producing as possible.

1. Employees will be evaluated by the hiring supervisor using input from other appropriate supervisory staff. Evaluations must be discussed with the employee. The district evaluation process will be used for all support staff as follows:
 - a. New employees will be evaluated during or at the end of the first three months, and
 - b. Employees will be evaluated every other year, unless their performance is considered less than satisfactory by their supervisor. In this case, evaluations will be conducted as deemed necessary by the supervisor.
2. A copy of the written evaluation will be given to the employee and ~~to the Superintendent's office~~ **submitted for inclusion in the employee's Personnel File.** ~~The original~~ **A copy** will be placed in the supervisor's files.
3. Each formal written evaluation will be accompanied by a conference between the supervisor and the supervisee. Supervisee shall acknowledge that he/she has had the opportunity to review by affixing his/her signature and date to the copy to be filed. Said signature does not imply agreement with the contents. It indicates the evaluation has been viewed by the support staff member and discussed.
4. The supervisor may request the supervisee to complete a self-evaluation prior to the formal evaluation. If a self-evaluation is requested, it is recommended that the regular evaluation form be utilized for that purpose.

SUPPORT STAFF PROMOTIONS

When support staff vacancies are to be filled, preference will be given to qualified applicants from within the school district, provided their qualifications (proven and potential ability, training, experience, and personal characteristics) are equal to those of other applicants. However, the best qualified person from among all who apply within and without the school district will be selected.

The performance of an employee promoted to a higher position will be reviewed during the probationary period in the new job. The employee will discuss the reviews with their supervisor or principal and will receive a copy of each. At the completion of the appraisal period, the employee will be notified of continued employment in his/her new position or reinstatement in his/her former one, if transferred.

Employees who have unsuccessfully applied for a promotion will be encouraged to contact their supervisor to discuss position criteria and suggested developmental activities, which would assist in future consideration.

REDUCTION IN SUPPORT STAFF WORK FORCE

The number of employees may be reduced due to a change in program, a change in the size or nature of the student population, or budgetary considerations. The Board will attempt to accomplish such a reduction through normal staff attrition, unless the best interests of the school district dictate otherwise.

In the event reduction of staff is necessary, seniority will be considered along with performance in determining employees who will be affected by either layoff or changes in position. Employees being terminated will be given a two-week notice.

Before a new employee is hired, a staff member whose employment has been suspended due to reduction in force will be given opportunity to return to work should the position be reinstated or other suitable vacancies open.
