Present: Kate McLellan, Ann Kirkpatrick, Jeremy Anderson and Irene Zytka
Absent: Barbara Capuano

The curriculum committee met to discuss the new course proposal at the High School. This will allow students who wish to take honors biology course the opportunity to do so.

The committee also reviewed the course placements based on the new levels. It was presented that the teachers met as teams to figure out the placement of the courses by looking at a set of rubrics. The four levels presented are academic, college preparatory, honors and AP. This leveling now aligns with other local H.S. as well as colleges.

Meeting adjourned at 7:00 pm
