REPORTS

Superintendent's Report

- **Beecher Road School Update** – Superintendent Stella highlighted *Read Across America* on Thursday, March 1, commencement of CMT's, Extended Day and custodial activities during the vacation week.
- **Reading/Language Arts Update** – The Language Arts Specialists presented an overview of the alignment of our K-6 curriculum with the Common Core Standards adopted by approximately 46 states. These standards allow for consistency and uniformity in curriculum and instruction for student learning, not only within BOWA, but from state-to-state. As our balanced literacy approach is entrenched within our programs, it is not anticipated that we will experience significant changes. Curriculum revisions should be complete by the end of June 2012. As required, implementation of this curriculum will be directly linked to the teacher evaluation process and plan.
- **Strategic School Plan (SSP) 2010/11** – Superintendent Stella and Mr. Pullo provided an Executive Summary of the SSP. This comprehensive education report reflects a “snapshot in time”, and generates trending data as well as helpful information to inform student instruction and guide the district forward. Questions were raised relative to staff absenteeism, calculation of instructional hours, integrated curriculum structure, open choice transportation funding/charter school proposals, behavior of costs over time and per pupil expenditure calculation differences among districts.

Dr. Wu left the meeting (8:46 PM).

PTO Update – No report

Facilities Committee – No report

- **Playground Update** – Dr. Stella informed the Board of plans for a community party at the end of March/ beginning of April to build the new North Playground.

Town Building Committee Charge – Ms. McCreven apprised the Board the committee anticipates forwarding their recommendations shortly to the Town Board of Finance for inclusion in the 2012/13 budget development process. In the meantime, information will be shared with the Board of Education once data compilation is completed.

Policy Committee

The 2000 policy series, reviewed by the Policy Committee at their February 9 meeting, were presented for 30-day review.

MOTION #4 – 2000 POLICY SERIES (30-DAY REVIEW)

Move that we accept the 2000 policy series for 30-day review, with the exception of Policy 2400, which is referred back to Committee for further review.

Ms. McCreven
Second by Mr. Linskog
UNANIMOUS

Finance Committee

Ms. McCreven requested clarification on the timing of line-item transfers both within the context of policy and statute. Is Board action necessary immediately upon over-expenditure of a line item or are one-time transfers in June sufficient. Statute is specific to the total funded appropriation not being overspent. Past practice has been to present transfers in May/June as part of the budget reconciliation process. This allows for minimal transfers, complies with statute and BOE policy and achieves total transparency within the budget.

MOTION #5 – 2011/12 BOARD OF EDUCATION MONTHLY DETAIL FINANCIAL REPORT

Move that we accept the 2011/12 BOE Monthly Detail Financial Report ending January 31, 2012, as submitted by the Director of Business/Operations.

Ms. McCreven
Second by Mr. Lindskog
UNANIMOUS

CABE Liaison – Ms. McCreven invited Board members to participate in the “Day on the Hill” in March. She will attend the CABE Board of Directors Retreat which will focus on development of CABE’s Strategic Plan, assess CABE’s functionality and budget spending.

ACES Liaison – No report

NEW BUSINESS

2012/13 Calendar – Superintendent Stella presented the 2012/13 calendar developed in collaboration with the BOWA districts. It was noted that Veteran’s Day will be eliminated as a school holiday. School will be in session on that day as well as Election Day.

MOTION #6 – 2012/13 CALENDAR

Move that we adopt the 2012/13 calendar as presented.

Mr. Lindskog
Second by Dr. Dudley-Smith
UNANIMOUS

Mr. Pullo outlined the requirements for participation in the National School Lunch program. Participation, reimburses the Cafeteria approximately 5-10 cents per lunch. Nutrition standard compliance is for only those items sold by the Cafeteria during the school day and does not affect after-school or PTO sponsored events. Approximately, 70% of school districts state-wide participate in this initiative.

MOTION #7 – HEALTHY FOOD CERTIFICATION

Move that the Woodbridge School District participate in the National School Lunch Program for the 2011/12 school year.

Mr. Lindskog

K-6 Critical Areas of Focus

- 
- Representing and comparing **whole numbers**, initially with sets of objects
 - Describing **shapes** and space

Kindergarten – Critical Areas of Focus

Kindergarten Mastery

Kindergarten – Assessment Data

- Developing understanding of **addition, subtraction**, and strategies for addition and subtraction within 20
- Developing understanding of whole number relationships and **place value**, including grouping in tens and ones
- Developing understanding of **linear measurement** and measuring lengths as iterating length units
- Reasoning about **attributes** of, and composing and decomposing **geometric shapes**

**THE GOVERNANCE MANUAL: What It Should
Contain in Community Relations - Series 1000**

Policies on community relations really establish the Board's public relations program. Keeping the community involved and informed can be instrumental in generating support for the Board's plans. The school system is not something apart from the community, but rather the system should serve as one of the most vital and powerful forces linking the whole community together. Everyone within the bounds of the district has a stake in whether the educational programs are successful - not just the students and their parents, but their future employers and fellow citizens, too. Also varied ethnic, racial and religious interests can often find common ground in projects promoting the achievement of district goals and objectives.

The Board should develop policies which provide for a free flow of information and encourage the community to become involved in the educational system. Vehicles of communication will range from public press, radio and television to materials carried home by the students. Sometimes convenient or obvious communication vehicles are overlooked. For example, parent-teacher conferences at school, while providing a means of sharing information about the child, can also help acquaint parents with the staff, the facilities and the programs. Encouraging community rapport with the district may be as simple as permitting the use of school buildings by local groups. Depending upon a district's situation, this service to the community may be free or a fee may be charged to cover the costs of the district or to generate income.

Many of the policies in this section of the manual fall under a category of good practice (or common sense). In other sections of the manual we will be reviewing policies which are required by the Connecticut General Statutes (C.G.S.) or as part of the compliance review procedures.

These types of good practice policies and regulations provide the Board with guidelines to govern the school system. Just imagine the difficulty if no written policy existed which defined what organizations could use the school facilities. With no guidelines to follow the Board could begin to make arbitrary decisions about various groups which expressed interest in using the school facilities. Would the Board allow all organizations and clubs in _____ to use the facilities? What if the club's membership consisted mostly of people who resided outside of _____? Could an organization use the facilities on Sunday? Who would cover the cost of janitorial services? Would profit-making organizations be allowed to use the facilities free of charge? Would gambling be allowed by an organization using the facilities? This example shows how requests by clubs and organizations are not as simple as allowing the Girl Scouts to meet after school.

Other prudent policies for the Policy Review Committee to consider include news media relations, public participation at Board of Education meetings, distribution of materials by students, public complaints, soliciting funds, visitors to the schools, and development of cooperative relationships with local government agencies.

THE GOVERNANCE MANUAL: Definition of Policies

All local Boards of Education deal essentially with the same policy topics. Depending on such factors as physical size of the district, number and age-range of students, grade structure, and the general socio-economic climate of the community, each local Board considers these areas from a unique view point and develops its policies accordingly. Aside from the Board bylaws, the major topic divisions are:

Mission, Goals and Objectives
Community Relations
Administration
Business and Non-Instructional Operations
Personnel
Students
Instruction
New Construction

In each of these areas a Board must establish its general philosophy and goals before formulating specific policies. The Board should consult the community, students, and staff when developing these philosophies and preparing these goals because many succeeding policy decisions will be based upon them.

What Makes a Policy Critical?

Policy in a given area is critical to a district when the consequences of not having a policy in that area are likely to be damaging to the district. Consequences may include:

- A. Failure to comply with statute when required;
- B. Likelihood of litigation;
- C. Failure to pass the State Department of Education's compliance review;
- D. Damage to the district's or Board's public image;
- E. Impairment to the Board's ability to function;
- F. Impairment to the administration's ability to function;
- G. Failure to fulfill obligations to the children in the district; and
- H. Lost opportunity to improve programs and facilities in the district.

Concept and Roles in Community Relations

The Board of Education recognizes that high performing elementary schools encourage and promote parent and community engagement activities to improve student performance.

Community, is defined broadly as the State of Connecticut and specifically, the Town of Woodbridge and the businesses and individuals affected directly or indirectly that have reason to care about local education. We believe that our community includes students, parents, faculty, staff, town officials, media, senior citizens and taxpayers, law enforcement and other community agencies, churches and synagogues, all of whom help to determine the quantity of educational resources available and the quality of the educational output.

The goal of establishing and maintaining good community relations is a reflection of our understanding that schools depend on community good-will and public financing devoted to providing the best learning environment possible for our children. It is imperative that members of the community, particularly those who serve on other Town boards and school personnel participate in planning, policy development, implementing programs and evaluating results. Hence, a principle goal of the Board is the promotion of open communication and good relations with the community.

School-community relations, then, are not merely reporting and interpreting activities; but involve members of the community and school personnel fulfilling their respective roles in view of the best interests of the school, its vision and mission.

Distribution of Printed Material

The Board of Education believes it is important to inform the public about school curriculum, programs, and activities so citizens can participate in these programs. Concurrently, the school staff administration, and Board of Education should be aware of the community's goals and concerns for its children so they may be given consideration in curriculum, program, and activity revisions.

The Board encourages public input into the decision making process. To this end, the Board supports and encourages various means such as publications, press releases, open houses, websites and public events to disseminate school district information and to hear from the community.

Community members are encouraged to visit the District's website for information about the district including Board of Education and staff e-mail addresses. This will also provide an opportunity for citizens to offer input into District activities or plans.

The community relations program shall be a concurrent responsibility of the Board of Education and the Superintendent of Schools. The Superintendent of Schools shall work with members of the Board of Education to conduct an active and comprehensive informational program throughout the school district.

Staff members shall be kept informed of community relations efforts, and their support and participation in such efforts shall be sought.

The Board of Education believes in the widest possible dissemination of news concerning the schools and shall cooperate fully with the press, radio, and television to assure that news coverage is complete, balanced, and accurate.

The Board of Education will place on its agenda any properly signed written communication from a citizen or organization. Appropriate action will then be taken.

Board minutes shall be available in unapproved form, within 7 days of a Board meeting excluding Saturdays, Sundays, and legal holidays; a written record of Board votes shall be available for public inspection in the Superintendent office within 48 hours of a Board meeting excluding Saturdays, Sundays, and legal holidays. (In determining the time herein, any day on which the Board office is closed shall also be excluded.)

Parent/Family Involvement

Parent, family and community are important educators of children. The Woodbridge Board of Education recognizes that parent involvement is vital to student achievement. A child's education is a responsibility shared by the school and family during the entire period the child spends in school. A comprehensive parent involvement plan for Beecher Road School may include:

1. Promotion and support for responsible parenting.
2. A school setting that welcomes parents and seeks their support and assistance.
3. Recognition that parents play an integral role in assisting student learning.
4. Regular communications between home and school that are reciprocal and meaningful.
5. Inclusion of parents in the decision making process as it affects children and families.
6. Provision of community resources to enhance school programs, family practices and student learning.

It is the policy of the Board that Beecher Road School, in its mission of education, will involve parents, families, advocates for children, and the community in the education of children and shall have an active organization for fostering parent and community involvement. The words "parent" or "family", as used in this policy, denote any form of extended family or acceptable adult who is advocating for a student.

Parents and families are assured access to their school, their child's classroom and/or school sponsored activities for the purposes of observing class procedures, teaching materials and class conduct so long as this observation is not disruptive to the normal classroom procedures or learning activity. Procedures for visiting schools shall be provided in parent handbooks or other communications from the schools.

School personnel will be available to students, parents and others at mutually convenient times.

News Media Relationships

The Board of Education shall cooperate with the news media in providing the public with pertinent facts concerning the schools. The Superintendent shall serve as the basic source of information regarding the school system.

The Board of Education encourages the attendance of the news media at all open Board meetings.

The Woodbridge Board of Education supports the recognition efforts of local and regional publications and media in reporting the accomplishments, achievements, awards and honors of students. Local cable access, TV, newspaper and school newsletters from time-to-time seek opportunities to take pictures or write of school activities and student accomplishments. It is the policy of the Woodbridge School District to make this information routinely available, under most conditions, unless parents have requested in writing, in advance, that they do not wish to have information concerning the school activities of their child published.

The Board permits the interviewing, videotaping or photographing of students during the school day only when such activities, in the judgment of the Principal or Superintendent, do not disrupt the educational program, tend to cause undue confusion, or involve a controversial issue of a political nature. Publicity efforts as noted would take place under the guidance of school staff and with the restriction that the names or other identifying information of the involved students will not be provided without the prior written approval of the parent(s) or legal guardian of the student.

Individual interviews of students on camera or for publications will not be permitted without the prior written approval of the student's parent or guardian.

The Woodbridge School District will comply with parents' written requests in support of the interests and wishes of parents.

Schools are public institutions serving the educational needs of the community. Therefore, it is important that information be disseminated concerning programs, activities, and significant school events. The Board recognizes the important role the media serves in reporting information about the District's program, services and activities. Therefore, the District will make reasonable efforts to provide media access to students.

To ensure that publicity is coordinated with a common effort and purpose, the following shall be followed with news media:

1. Media representatives shall be required to report to the administration for prior approval before accessing students involved in instructional programs and activities not attended by the general public.
2. School administrators are authorized to grant permission and set parameters for media access to students in their respective schools.
3. The media may interview and photograph students involved in instructional programs and school activities including athletic events if authorized by the Principal provided that their presence will not be unduly disruptive.

5. News media personnel who intend to photograph, broadcast, or record for broadcast student activities shall provide appropriate identification to the school administrator, if requested, prior to access.
6. Only news media personnel employed by a newspaper, radio or television broadcasting company, or personnel of a recognized student news medium assigned to cover the activity shall be permitted to photograph, broadcast, or record for broadcast, such activity.

Citizen Assistance to School Personnel

One of the greatest resources for a school is to be found in the people of the community who have special knowledge and particular talents to contribute to the school program. Therefore, it is most important to build up the idea in the community that many adults in it have something in their experiences, understandings or philosophies that may make contributions to the program of the schools.

The Board of Education encourages the use of community resources and citizens to assist in furthering the educational program. Use of outside personnel and resources will be under regulations approved by the Superintendent of Schools.

Each principal will study the needs of his/her individual school, survey the resources available in his/her school community, weigh their probable usefulness, and then present to the Superintendent any plans the Principal may develop for using those community resources. The Superintendent should consider all such plans both on their merits and on their implications if they were to be carried out by other schools in the district.

Political Activities in the Schools

Public Complaints

The Board of Education welcomes comments and suggestions for improvement from the citizens whom it serves. Constructive criticism of the schools is welcome whenever it is motivated by a sincere desire to improve the quality of the educational program or to allow the schools to do their tasks more effectively. However, the Board has confidence in its professional staff and desires to support their actions in order that they be free from unnecessary, spiteful or negative criticism and complaint. Therefore, whenever a complaint is made directly to the Board as a whole or to a Board member as an individual, it will promptly be referred to the school administration for study and possible solution.

Since individual Board members have no authority to resolve complaints, other than by formal Board action, Board members shall refer persons making complaints about the schools to the most immediate level at which the problems can be resolved and, as may be necessary, through lines of organization to the Superintendent of Schools. The Board expects that the administration will develop a procedure for receiving complaints courteously and that it will take steps to make a proper reply to the complainant. Follow-up shall be in the form of a written memorandum to the Board members.

Anonymous complaints provide no avenue for response or redress of the complaint. Therefore, it is the policy of the Board that such complaints will not be pursued. An unsigned complaint will not be read or acted upon at any meeting of the Board and anonymous telephone complaints will not be brought to the Board by any individual Board member, administrator or other District employee. The administration will not act on any anonymous complaint.

Parents should be made aware of the proper channels of communication and appeal. Complaints for which specific resolution procedures are provided shall be directed through those channels. The decision of the Principal regarding a student must include notice to the parents of the next step of appeal. Any appeal from the decision of the Superintendent to the Board shall be in writing and signed.

Complaints should be resolved at the lowest possible level of authority. If the complaint cannot be resolved at the building level, either party is encouraged to bring the matter to the attention of the Superintendent of Schools.

If all other remedies have been exhausted and a complaint cannot be satisfactorily resolved, the complaint may be appealed to the Board of Education. The Board will not consider or act upon complaints that have not been explored at the appropriate level or complaints for which specific resolution procedures have been established that do not include Board review. If the Board decides to hear the complaint, the Board shall make a decision which shall be sent to all interested parties. The Board's decision is final.

~~Upon receipt of a written petition signed by one percent of the voters or fifty voters, whichever is greater, the Board of Education shall hold a public hearing on any question specified in the petition within three weeks of receipt of the petition.~~

Public Complaints

All complaints regarding the school system or individuals employed by the Board shall follow appropriate protocol. Issues concerning staff should first be discussed with the individual. If satisfaction has not been achieved, complaints should be directed to the Principal of the school or to the Superintendent. To secure the earliest possible solutions, public complaints or concerns from parents or other members of the community should follow this sequence:

1. Classroom complaints, concerns, or problems are first directed to the teacher involved. If the matter cannot be settled by the teacher, it should be brought to the Principal.

3. If the matter cannot be settled satisfactorily by the Principal, it may be brought to the Superintendent of Schools.
4. If the matter is not resolved by the Superintendent, it may be directed in writing to the Chairperson, Woodbridge Board of Education, who shall review the matter with the members of the Board of Education. *Satisfactorily*

Soliciting Funds From and By Students

The Board of Education supports school activities that engage children in raising funds as a means of encouraging and nurturing the development of values reflecting charitable giving and concern for others in need.

Fundraising activities must be designed to advance the educational mission of the school district, be directly related to financing the school or curricular activities or character development and must be undertaken under the direction and guidance of the administration and staff. 2. Selling is not permitted on the school campus without administrative approval.

4. With the exception of PTO activities, all school directed fund raising activities involving children whether sponsored by a class, grade level, individual or the school shall follow Board of Education financial accounting procedures.
5. Fund raising proceeds shall be processed through the student activity account properly documenting receipt and distribution of the funds.

Policy Manual

The Superintendent shall establish and maintain an orderly plan for preserving and making accessible the policies adopted by the Board, the bylaws adopted by the Board, and the regulations of the administration. The Board policies, the Board bylaws, and the administrative regulations shall be published ~~in a manual, maintained in current condition,~~ and made available to all persons concerned.

Policies

Policies are statements of intent, which are adopted by the Board of Education. They serve as guides to the administration in the development and implementation of regulations for operating the district.

The Superintendent must take the leadership in the policy-making process, by recognizing the need for specific policies and giving the Board proposed policy statements for consideration, modification and adoption.

Regulations

The Superintendent shall specify the required actions, and design the detailed arrangements under which the district is to be operated. Those regulations and procedures, which apply throughout the district, are to be designated as “regulations”, and are to be placed in the district policies and regulations manual. The regulations shall be presented to the Board before implementation in the district, but the Board will not adopt a regulation unless requested to do so by the Superintendent or unless adoption is required by federal or state law. Administrative regulations must be consistent with the policies adopted by the Board of Education. The Superintendent is responsible for development and implementation of the district regulations. He/she should, as a matter of good administrative procedure, develop a system whereby staff members are involved in development of regulations in order to make certain that each regulation is complete, efficient, sufficient to the need, consistent with adopted Board policy, and capable of full implementation.

Bylaws

Bylaws are the rules governing the internal operations of the Board of Education. When need for a new bylaw, or modification of an existing bylaw is recognized, the Superintendent will be directed to develop and present the Board with an effective new or modified bylaw for consideration, modification if necessary, and adoption. The same procedure used for development of policies shall be used for development of bylaws.

The Board's annual evaluation of the Superintendent shall be based upon the effectiveness of his/her leadership and the accomplishments of reasonable objectives established annually by the Superintendent and as modified in consultation with the Board. Such evaluation shall be both formal, in that some mutually agreeable format shall be used, and informal, in that the personal views of the Board members shall be included.

These evaluations shall form the basis for the recommendations of the Superintendent as to continued employment of the individual and to adjustments in salary.

Evaluation of Administrative Staff
